ISTEN TO LUKE

The turn-out for balloting in e school elections . Saturday was exceptionally strong and was also a strong indication of he interest of Terrell County zens in their schools.

We think that it is a healthy presentatives, officials, etc., ther than having just a few of ne voters name them.

nd we think that it also indisted that there should be ough interest in the offices hat somone should file for the offices, too.

With the large number of vrite-in votes cast for the county recinct 1 trustee and trustee-atarge, it was indicated that the nly real organized campaign for write-in candidate was the one or the encumbents, who were

There was a large number of e vote-getters who got only e or two votes and it is our umble opinion that if one or ore names had been on the ballot, there would not have been

The voters put a man on the chool board from the gas plant rink it commendable of the votrs that they should want that oup to have representation in e operation of the schools. Cerinly the company which employs those people is a big taxpayer in the county, and certainy there are several families represented and a bunch of school dren from the plant that at-

end the local system. With the election of the two indidates as new members of the board, every segment of a major business in the county is

le

represented. Besides being the policy-makers of the school and handling of other business activities of the system, it is the responsibility of the board to be sure that the inds needed for the operation f the school, and some additions s they are need and can be had, but the board also must be re-

ponsible for seeing that the operation of the system is within he bounds of possibilities of the andayers. The new board will get started broad jump. with their new members at the ext meeting held after the elecion and we sincerely hope that

they may get started in a spir : of unity of purpose and may be able to continue that way - and we hope that their purpose may be for the betterment of the loca! system where and when possible with the best interest of all the tudents as their sole objective. eing the kind of a job it is, he members are subject to critiism, sometimes justified and

ometimes not, depending on where you sit. Sometimes the school board can be wrong, and sometimes the school patrons may be wrong, even both wrong

to some degree at the same time. But then, the wonderful part about all of it is, and you don't hear much about it from either side, is that sometimes, both the patrons and the board are right fortunately most of the time else we would not have any school system at all.

The kind, considerate, thoughtful, gracious, and helpful attitude of so many people in the councy that is apparent at the time of a tragedy is not only very notice-

able, but also so comforting. There is a common tie that can and does bind us all together

and that is the compassion for our mutual friends.

Herring-Wilson Rites On March 31

Miss Francie Wilson became the bride of J. T. Herring Saturday, March 31, in a double-ring ceremony performed in the First Baptist Church by the pastor, Rev. Irl Richardson. The rites were at 9:00 o'clock in the evening in the presence of the immediate families and a few close friends.

A bouquet of yellow mums was on the piano

Miss Betty Jane Robbins was the pianist for the traditional wedding music.

Given in marriage by her father, the bride wore a dress of white organdy over yellow polished cotton, a white pillbox hat and white shoes. A bouquet of white carnations was atop the white Bible which she carried.

Miss Jacquelene Carter was the maid of honor and Miss Sylvia Wood was the bridesmaid.

Richard Carroll was the best man and Tommy Lee Vick, cousin of the bridegroom from Del Rio, was the groomsman.

An informal reception in the dining room of the Orchid Cafe followed the wedding. The bride's chosen colors of yellow and white were noted in the floral centerpiece on the table with a miniature bride and groom in the foreground

The bride's cake, baked by the bridegroom's sister-in-law, Mrs. Bennie Luxton, was in the shape of a cross, iced in white and decorated in yellow sugar-spun flowers. The punch and napkins were also in the chosen colors.

The bride, the daughter of Mr and Mrs. Grady Wilson, is a junior in the Sanderson High School

IT'S YOUR DECISION

LET'S HELP THOSE WHO NEED HELP

The Issue: COMPULSION versus FREEDOM OF CHOICE

Here's What We Favor:
As Americans, we believe that our aged cititzens who need medical care should get it, whether or not they can afford to pay for it.

We favor a program of medical aid for the aged sensibly designed to help those who need help.

Such a program is available now and should be given a fair trial.

Such a program is available now and should be given a fair trial. It is a voluntary program. It consists of voluntary health insurance for those able to purchase it and the Kerr-Mills Law for helping those who need help in paying for medical care.

Voluntary health insurance policies and Blue Cross and Blue Shield

plans now are available to all aged everywhere. More than 9,000,000, or 53 per cent, of the aged already have health insurance. This is three times as many aged as had health insurance 10 years ago.

The Kerr-Mills Law, passed by Congress in 1960, enables individual states to guarantee to every aged American who needs help the health care he requires. In addition to the more than 2,500,000 Americans covered by Old Age Assistance, the law is designed to benefit all other older persons who could not meet the cost of a serious or prolonged ill-

ness. It helps those who need help.

The Kerr-Mills Law preserves the quality of medical care — maintaining the patient's freedom of choice and the doctor's freedom to treat his patients in an individual way.

It allows each state to provide as wide a variety of health insurance services as it chooses, and does not limit the length of time an eligible person may receive them.

It avoids waste of tax dollars by helping only those who need help.

Here's What We Reject:

As Americans, we are deeply concerned about the dangers of socialized medicine. And we are not crying "wolf" when we apply that term to the King-Anderson Bill now before Congress.

The bill, if enacted, would provide limited Federal health care ben-

efits for those over 65 eligible for social security. It would require the patient to pay \$10 a day for the first nine days of hospitalization, with a minimum of \$20, and \$20 for each complete diagnostic study.

It would be compulsory ... covering everyone eligible for social

It would be compulsory . . . covering everyone eligible for social security (regardles of need), and compelling every wage-earner and employer to pay the bill through increased taxes.

It would lower the quality of medical care . . . with Government controlling standards of practice and limiting free choice of hospital and physician. Personal health problems would become a matter of Government record.

It would be expensive . . . with a double increase on payroll taxes—more payroll deductions through a greater percentage of tax and a higher base on which to deduct. Passage of the bill plus social security.

—more payroll deductions through a greater percentage of tax and a higher base on which to deduct. Passage of the bill, plus social security tax increases already scheduled would mean that by next year a wage-earner making \$5,200 a year would pay 40 per cent more tax than he paid in 1961.

It is inequitable . . . compelling young wage-earners to pay higher

payroll taxes to provide medical care for millions of well-to-do and self-reliant, yet not providing any care for the 2.5 million not covered by social security — the group most in need.

It is unnecessary . . . No one has yet produced evidence that such

radical legislation is needed.

It would mean socialized health care . . . immediately for all those over 85 eligible for social security and eventually for every man, woman and child in America.

IT'S YOUR DECISION

If you agree with us that a Federal Government-controlled health care scheme for any segment of our population would be bad for the nation, we urge you to write your Senator and Congressman. Urge them to reject the King-Anderson Bill. Ask your representatives in Washington to preserve our present program of voluntary health insurance and

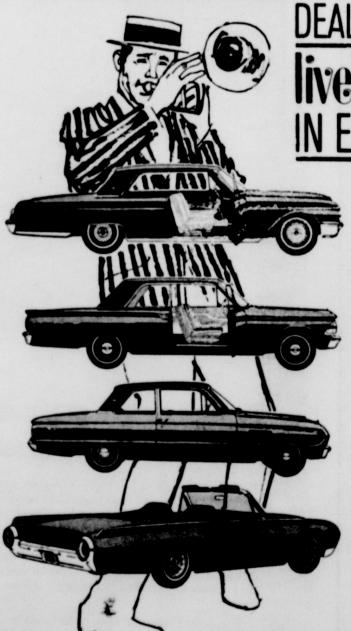

the Kerr-Mills Law.

Three times in the past several years proposals similar to the King-Anderson Bill have been blocked by an upsurge of public protest. Such a scheme is just as undesirable and as unnecessary today. It must be defeated again if this nation is to preserve the highest quality of medical care in the world.

It's Your Decision.
