## LISTEN TO LUKE

There are some stories in The Times this week that we think are worthy of note: namely the one concerning the drives for funds by the Girl Scouts, fire department, Christmas Seals and March of Dimes.

There may be others that we are not aware of right now, but we will include all the known drives only in these comments.

We are not going to try to evaluate any one or all of the beneficiary organizations. They are all well known and acceptable in most people's opinions as worthwhile projects.

The point is — and this is our only reason for mentioning it — that they are coming one on the heels of the other and what is given to one cannot be given to the other.

It might do well for each breadwinner to sit down with his mate and figure out what he can do for those organizations asking for help and then do it.

That is what we are going to do and that's all we can expect anyone else to do.

We know that the future success of all of these projects depends upon you and me.

The coming deer season promises to be one of the best boosts to the economy of the town that has come our way in a long time.

If the number of inquiries that have come in for deer hunting privileges is any indication, then the country west of the Pecos will not be safe for deer or man.

Ranchmen report a record number of deer and state that they are in good shape and deer hunters should have success on their hunts.

A local business conducted a survey last deer season, and it was determined that of known deer hunters who stopped in his business, they spent an average of \$500-plus per man.

If you don't think that will add up to a lot of money, stand on a corner on November 27 and watch the caravan of hunters going through.

Of course, all of the hunters do not stop in Sanderson, and all who stop here do not stop in the same place, but if the average holds true, there is a lot of money spent each year by the traveling hunters, and that does not include the money spent for the hunting privileges.

The Terrell County Chamber of Commerce has come up with an idea to give the area a little publicity on what we have the most of — a hospitable people!

More information will be given later to the facts of the case, but the Chamber is going to go all-out in a show of hospitality to a deer hunter this year.

It is an unusual case, it is an unusual circumstance, and it is unusual action. But the people here are unusual in their own way, too!

The letting of the contract on the construction on US 285 just north of Sanderson will be this week and work is expected to begin soon on the project which is expected to take about a year.

We feel sure that there will be several families moving into Sanderson during the construction.

Machinery and equipment continues to pour through here on its way to the site of the wildcat on the Hardgrave ranch. This project will call for all kinds of special equipment and is expected to take a long time in drilling a hole down to 21,000 feet.

It is understood that the families of men employed in the drilling of the hole will also be coming into Sanderson soon.

Both of these projects and the

## Heavy Fog Covers Area Wednesday

A heavy fog blanketed the area Wednesday morning, one of the heaviest fogs that has occurred so far this fall. There was some slight moisture resulting from the fog, but only visible on the smooth surfaces.

It was reported that the fog extended over a wide area, reportedly over this entire area of West Texas.

The weather was in the 40s for a day or two last week, but has moderated to comfortable "shirt-sleeve" temperatures.

There was one or two days of frost, but there is no sign locally of the killing effects of the ice.

## Rep.-Elect White Begins Plans For Liaison Offices

Congressman-elect Richard White has commenced formation of Congressional liaison committees throughout the 16th District in immediate compliance with one of the major points of his successful Congressional campaign.

White reported that formation of some of the groups is already under way and that it is his intention to make a trip through all 19 counties of the district in the near future for the purpose of establishing contact committees in each county.

"My trip will have a second major purpose," White said, "and that will be to extend my warmest personal thanks for the tremendous support I received throughout the entire district."

The Congressman-elect added that he fully intends to have all 19 of his proposed congressional liaison committees established before leaving for Washington to take office the first of January.

Sid Harkins returned to Sanderson Monday to attend the commissioners' court meeting. He has been at the bedside of his father-in-law, Monty Corder, in San Angelo.

To Rev. and Mrs. Jerry Fortune of Sheffield was born a son, their second child, in an Iran hospital Monday morning. Mr. and Mrs. W. J. Morris are the maternal grandparents of the new arrival.

## J. M. Corder, Pioneer Rancher Buried Wednesday

J. M. (Monty) Corder, 76, Terrell County ranchman for 59 years, died Tuesday in St. John's Hospital in San Angelo after an illness of two months. He had been in failing health for several months prior to being hospitalized.

Funeral services were held at the First Presbyterian Church of Sanderson at 4:00 p.m. Wednesday. Rev. Bob Moon, pastor, officiated at the funeral services and the Lawrence James Funeral Home of Ozona was in charge of arrangements.

Palbearers were E. E. Harkins, Jolly Harkins, Herbert Brown, Herman Couch, W. G. Downie, Clarence Jessup, Edward Kerr, Jack Hayre. Honorary palbearers were W. C. Mitchell and Albert Appel.

Mr. Corder was born December 6, 1888, in Kimble County. He was the son of Mr. and Mrs. N. H. Corder who were well-known ranch people and his father was a former sheriff of Kimble County prior to his death in 1920.

Mr. Corder spent his boyhood in Menard and Junction, moving to Terrell County in 1905. He was married to Miss Margaret Wilson, daughter of another pioneer ranch family, on February 22, 1913, in Sanderson.

He was identified with the ranching industry throughout his active business career and raised registered polo ponies. He was a former member of the Terrell County Chamber of Commerce, Southwestern Cattleman's Association, and Sheep and Goat Raisers' Association.

## Lions Promote Lighting During Christmas Season

The board of directors of the Sanderson Lions Club voted to sponsor a contest for lighting of homes and businesses at Christmas time, according to C. G. Riggins, secretary of the club.

The organization will award first, second, and third prizes in both commercial and home divisions.

The project is an effort to promote a wider use of lighting effects for the beautification of the town during the holidays, and also to enhance the spirit of the joyous season, Riggins said.

He added that the directors also voted to sponsor a very worthwhile community project details of which would be revealed later.

## Mail Truck Burns Last Thursday In San Antonio

The mail truck hauling mail from Sanderson to San Antonio caught fire in San Antonio last Thursday and damaged or destroyed much of the mail, according to postal officials.

The mail was being worked in the San Antonio office and all mail that could be was forwarded and that which had a return address only that was legible, was returned to the sender.

Other efforts were being made to identify mail so that it could be either delivered or returned.

Included in the contents of the truck was a steel brace and built-up shoe which someone had sent somewhere for repairs.

The sanctuary was repainted, new padded pews installed, folding doors between the sanctuary and the Fellowship Hall, and new pulpit furniture including the pulpit, lectern, communion table, baptismal font, two sedalias, cross and candlestick set, runners, U.S. and Christian flags and stands.

The carpeting extends down the aisles with the area in the back of the sanctuary and all in front of the pews carpeted.

Changes in Election Law

Some Texans learned to their dismay that, if they had moved from one county to another within the last six months, they lost their right to vote.

Others found that if they had moved from one precinct to another in the same county, but had failed to transfer their poll taxes by the Thursday before election, they had lost the right to vote.

These situations led to talk of making changes in the law or of lawsuits to set aside the laws which cut off rights to vote on technicalities.

Attorney General Opinions

Atty. Gen. Waggoner Carr said a section of the state driver responsibility law requiring "immediate" surrender of driver licenses when accident liability requirements are not met is unconstitutional.

In other opinions, Carr held that El Paso Commissioners have no authority to lease the county coliseum to individuals for a furniture sale.

**In Texas . . . after bowling, beer is a natural**  
After you've bowled a game or two, or when you're winding up the evening at the neighborhood bowling center, it's good to relax with friends and compare scores. What better way to add to the sport and the sociableness than with a refreshing glass of beer? However you take your fun—skiing, skating, or at your ease in the game room—beer always makes a welcome addition to the party.  
Your familiar glass of beer is also a pleasurable reminder that we live in a land of personal freedom—and that our right to enjoy beer and ale, if we so desire, is just one, but an important one, of those personal freedoms.

### SS Benefits Losses Often Due To Inquiry Failure

If a worker in your family dies, some member of the family should inquire at the social security office to see if survivors benefits are payable. H. P. Thomas, social security district manager in Odessa, advises.

Death in the family, especially where there are young children, can mar the shattering of dreams and hopes for the children's future. Social security benefits can mean the difference between the shattered dreams and the security of a continuing income and a happy home life.

According to Thomas, 9 out of every 10 young children and their mothers can count on the survivors' benefits to keep the family together. Survivors' benefits may be payable to young children when the mother, who has been working, dies, even through the father is the family's primary source of support.

Nearly 4 1-2 million survivors of deceased workers are receiving monthly benefits. The average benefit paid to a widowed mother with two children is approximately \$190 per month.

The social security office is at 516 First National Bank Bldg. in Odessa and information or assistance is available as it is needed.

### Country Fair Has Good Attendance

The Country Fair, an annual project of the Ranch Home Demonstration Club of Sanderson, drew record attendance Tuesday afternoon when the exhibits were opened to the public at 2:00 o'clock in the Legion Hall.

The purpose of the Fair was to exhibit achievements of the club members for the year, and the display of the crafts, hobbies, art, and handwork of others in the community added to the large display. Clubs and organizations of the community also arranged booths making the hall well-filled with exhibits. The club members wore old-fashioned dresses and bonnets for the occasion.

A fortune teller was in a trailer by the hall and an exhibit of art work from the schools was arranged outside.

Local merchants had provided door prizes which were given away every 22 minutes. The merchants who contributed the door prizes were Spears-Duncan Drug Co., Kut and Kurl Beauty Shop, C. G. Morrison Co., Riggins Jewel and Gift Shop, Mrs. H. P. Boyd, Vanity Beauty Shop, The Flower Shop, The Kerr Mercantile Co., Community Public Service Co., Cooke's Food Market, Big Bend Gas Co.

Coffee, punch, and cookies were served throughout the afternoon.

Red pyracanthus branches and berries made an attractive mantelpiece. The table of plants and seasonal flowers arranged by the Men's Garden Club and other arrangements added a decorative note to the hall.

### Sanderson Culture Club To Meet Thursday Next Week

The Sanderson Culture Club will meet in the home of Mrs. H. A. Smith on Thursday, November 19. Mrs. J. D. McDaniel and Mrs. L. H. Gilberath are co-hostesses.

### Card of Thanks

The members of the Ranch Home Demonstration Club consider that their Country Fair was very successful. The cooperation of the membership, local clubs and organizations, and the merchants, and the fact that so many came to the Fair, all contributed to its success. May we say "thank you" to each of you in all sincerity. We appreciated your help more than we can express.

resulting influx of some families will be a happy situation for the entire community, we hope.

Wednesday of this week was Veterans Day and it passed here with only the display of some flags and the selling of poppies.

It appears that the significance of this day is about to pass into history.

There are still some celebrations and observances in some of the metropolitan areas, but the significance and observation has almost passed from the sight of busy people.

The cause for which these men became veterans, and the cause for which many of them died has been mocked, to a degree, by the actions of nations in the passage of time.

A gun is a powerful weapon and it, like many other things, can be used advantageously, or to the detriment of mankind.

A ballot can be just as useful or more harmful.

There is nowhere in the history of Communism where action against a Communist aggression has been initiated and successfully pursued to halt that action.

All such action has ultimately been only a delaying force to the philosophy, getting men killed, and then ultimately either by passive action or active giveaway, let the Communists take over what they set out to do.

Such a waste of manpower has no equal in this life.

## To the 5 out of 10 people who didn't believe this ad...

## a sporting proposition

Take a no-obligation test drive in a 1965 Ford. Maybe you just couldn't believe the ad (reprinted above) which appeared in this paper a few weeks ago. After all, many consider Rolls-Royce to be one of the world's finest cars. But Ford does ride quieter. The world's leading acoustical experts (Bolt, Beranek and Newman, Inc.) made the tests. The U.S. Auto Club certified the results.

This year's Ford has the strongest body ever... a revolutionary new frame that "tunes out" vibrations... new ultrasonic coil-spring suspensions... all contributing to the new hushed ride. But the ride is only part of what's new.

■ New swept-back instrument panel adds five inches extra knee room. ■ Transmission tunnel is lower than in competing cars for extra foot room. ■ Trunk has more usable space than ever—holds four 2-suiters standing upright.

■ New ultra-luxurious LTD series—unmatched by any other car in Ford's class. ■ Silent-Floventilation (standard on 4-door hardtops) removes stale air, provides fresh air even with all windows closed. ■ Exclusive new twin-edge key—works with either side up.

■ Hot, but hushed, 289-cu. in. V-8 is standard equipment in XL and LTD models.

■ Smooth, thrifty all-new Big Six in other models—the most powerful standard Six offered by any car in Ford's class. ■ V-4 options to 425 hp.

■ All Ford automatic transmissions have 3 speeds, not 2 as in many competing cars. ■ Fully synchronized manual transmission—you can even shift down to first without clashing gears.

If all this sounds like a lot for one car, offer... take a test drive. See why more people are buying Fords than ever before in post-war history.
