HOLY TREE BLOOMS EVERY CHRISTMAS

Every Christmas, the phenomenon of the blossoming Holy Thorn Tree occurs in England and Washington, D. C.

Faithfully on December 25th, a tree called the Holy Thorn or Glastonbury Thorn blooms in the ancient English town of Glastonbury. Sometime during the same month ,an off-shoot of the same tree bursts into bloom in Wash-

ington's Cathedral of the Close. According to legend, two days before Christmas 63 years after the birth of Christ, St Joseph of Arimathea neared Glastonbury, carrying with him the Holy Grail

used at the Last Supper. While pausing to rest at the top of a hill overlooking the town, he drove his staff in the ground, where it immediately took root. The next day, Christmas Eve, it had turned into a thorn tree covered with blossoms.

Communion Service New Year's Eve By Presbyterians

The session of the Presbyterian Church has scheduled a New Year's Eve communion service Thursday, December 31, at 11:15

Youngsters Told Where Santa Is 'Right At Home'

Along with "Why is the sky blue?" and "Why can't I see the wind," the favorite question of children everywhere is very often, "Where does Santa Claus

live when Christmas is all over?" Parents faced with this puzzler needn't get involved in explanations of just what and where is the North Pole. They can answer, with a straight face and a map to back them up, "Why, Santa Claus, Indiana, of

Or how about Bells, Tennessee: Evergreen, Alabama; Holly, Washington; or Noel, Missouri, as suitable quarters for Santa?

These are just a sample of the many towns and villages all over the country that are named in the spirit of Christmas, in the hope of preserving the good will and cheer of this happy season all

There's only one disadvantage to living in one of these towns. Local parents, faced with the question, "Where does Santa live?" certainly can't say, "Why, right here in Christmas, Arizona, son," or the next logical question would be, much to Dad's consternation, "Yippee! Why don't we go visit him-

Seeking Log Was Family Affair

The traditional Yule log survives today more in art, song and story than as an actual "blazing Yule." After all, not every home has a fireplace nowadays, and when a fireplace exists, its proportions are usually far from sufficient to accomodate the Yule logs of vesteryear.

During ancient times in England, however, it was a solemn family ritual to select the log, dry it and burn it according to custom. Logs from fruit-bearing trees were preferred.

The whole family went along to select the log, as this was thought to bring good luck for the coming year, and to frighten

away any witchts. If the log burned out quickly or did not burn brightly, it meant bad luck ahead

On Christmas morning, the children of the household beat upon the log and called for gifts to come forth. They were scolded by their parents, sent outside and after a time, called in to open the gifts, which had been set near

Icy Blast Hits All West Texas

A blast of icy air and freezing rain hit all of West Texas Friday morning and put about one-half inch of ice on everything. The local schools were closed because of the inability of the school buses to bring students from the gas plant and from Dryden.

Eleven trucks were stalled on the Sanderson Canyon hill about 12 miles east of Sanderson, temporarily blocking the highway. Several dented fenders resulted from the icy conditions of the

highways and streets. Traffic was unable to move northward toward Fort Stockton or Sheffield, but some traffic sot over the highway to Sheffield

north from Dryden. lev conditions on the highway caused Bill Stavley to wreck his car while on the way home from Texas Western College, El Paso, Friday. The accident occurred

just west of Sanderson. A crew of railroad employees en route to Shaw to work on a sidetracked boxcar narrowly es caped serious injury when the air leaked off a Braswell truck at Sanderson Canyon and

into the railroad vehicle. It was reported that there were four trucks wrecked between Sanderson and Dryden on ac-

count of icy roads. Local streets had an icy finish all day Friday and up to about noon Saturday when a warming trend melted some of the ice and there was some traction on the street surface.

Besides the heavy ice from Thursday night's precipitation and freezing, sleet and a little snow continued to fall Friday.

Friday afternoon there was some thunder and lightning and heavy sleeting which followed added to the ice on the ground.

The heavy thunder and lightning this time of the year was a rarity to many residents who remarked that it was the first time they can recall such an oc-

Lightning hit the chimney on the junior high school and dislodged several bricks, and knocked out local television service in

that area of town for a while. Many motorists were forced to stop in Sanderson due to the condition of the reads, and several local residents had to invite some of the stranded people into their homes because of the lack of accomodations to take care of the number of stranded people.
