14 PAGES

SECTION 1

It may still be August, but football is in the air in Friona. A record number of candidates for the Friona High School team reported to Coach Don Light and his assistants Monday.

And come nighttime, you'd think the Chiefs were playing a home game from the number of cars around the football field for the evening workouts.

For a team that has lost 27 straight games, you'd expect the enthusiasm might be a little less. But everyone seems anxious for the season to start, so the Chiefs can again try to snap that old jinx, and start a different type of streak.

Coach Light, in commenting on the spirit of the boys, says "It's really a compliment to them that they have maintained high spirits. With a 27-game losing streak, you could forgive them if the spirit was much worse."

So far as we can tell, the new coaches are being well received, both by the players and the parents. Seems that now, while they are getting started, would be a good time for all to pledge their support to the new gang, and let it go at support.

A coach has to have full reign over the circumstances, and we feel that if all parents will get behind the new staff, and see that their boys adhere to their teachings, that the Chiefs can begin the road to the top.

If the whole community will do this, and not expect too large a miracle beginning with the first game, then the program should improve with time. But everyone should be prepared to give the new staff some time. Rome wasn't built in a day. Neither should we expect the Chieftain football machine to be.

Coach Light was appreciative of the turnout Sunday afternoon for the open house for parents and fans at the field house. Over 100 persons paid a visit during the two-hour period, he said.

"I imagine it was the first time several of the mothers had ever been in the field house, or any field house. It gave them an idea of the equipment that their sons use, and a look at our facilities," he added. The fieldhouse, opened last fall, is still very adequate, and should have impressed the mamas.

Talked with the state highway officials at Farwell Monday during a meeting concerning Highway 84. Most were in agreement that getting Highway 60 from Farwell to Hereford four-laned would be a good goal for the county.

O. L. Crain, district engineer, re-emphasized that Highway 60 had about the same traffic as Highway 84 south-east of Farwell. As to when residents could expect any action on widening the road, he said it would just be a matter of time and financial standing.

The same is true for State Highway 214 south of Friona, Crain said. This road is perhaps the most needy in the county now that Highway 84 is being taken care of.

"There are highway needs throughout the state. We just have to wait our turn like everyone else," Crain said.

Another thing discussed off the record at the meeting was the coming necessity of building a by-pass of both U. S. Highways 60 and 84 around Farwell-Texico.

New Mexico currently has a proposal for re-routing Highway 60 at Farwell, but it would just alter the route by one block.

"Whatever is done should be a joint effort between the two states," Crain said. He added that when the four-lane job is complete into Farwell the present wide road through town should be efficient for a number of years.

"Whether having the new four-lane road will increase traffic to a point to necessitate the by-pass sooner, we just don't know. But it will have to come sooner or later," he said.

Folks at the First Baptist Church were treated on Sunday (Continued on Page 2)

HEAD THE BAND . . . The Friona High School majorettes for 1963-64, who will be stepping out in front of the FHS band, are (back row, left to right) Linda Davis, Carol Struve

and Cheryl Long. In front are Willie Grace Grubbs, Charlotte Nettles and Merylene Massie.

49 OUT FOR VARSITY FOOTBALL

Squad Pleases Light; Will Organize B-Team

A total of 49 candidates for the 1963 Chieftain football team had checked out equipment as of Wednesday morning, a sizeable increase over last year's opening workout.

Actually, about the same number of boys were out the first week last year, but that included the freshmen, who are not reporting this year until school starts. Without the freshmen last year, there were 34 candidates in the upper three grades, an increase of 15 for this year to date, or approximately 42 per cent.

"We're impressed with the enthusiasm which has characterized the workouts to date," said Coach Don Light. Pleased with the number of boys reporting for football, Light announced that he would arrange a "B Team" schedule, so that all might have an opportunity to see some game action.

Friona has not fielded a B-Team for the past five years, due mostly to a lag in the number of interested boys out for the team, which dropped to 13 at one point a couple of years ago.

The Chieftains, who will resume efforts to snap their 27-game losing streak when the Farwell Steers come to town on September 6, lost only four sen-

iors from last year's team, so should be counted as having more experience than the squad did at this time last year.

Scott Takes Farwell Job

Vernon Scott, head boys basketball coach and assistant football coach at Friona the past three years, accepted a similar position at Farwell High School last week.

Scott will replace Bill Mayfield on the Farwell staff. Mayfield went to Plainview as B-Team coach.

While in Friona, Scott was active in civic affairs. He served as director for the city's summer baseball program, and was a member of the First Baptist Church. He had been engaged in selling insurance since last spring, and had planned to stay in Friona.

"Insurance was a good field, but I felt that the Farwell position might offer a good opportunity. They have three of their five boys back from a district championship basketball team," Scott said.

He was given the job over several applicants during a special school board meeting last Thursday.

It was an entirely new staff of varsity coaches that greeted the Chieftain hopefuls on Monday, headed by Light, and assistants C. W. Dukas and Bob Owen. Junior high coaches also have been helping with the drills. A new coach there is Jack Taylor. Others are Tom Jarboe and Robert Taylor.

Seniors head the squad so far, with 18 members out for the team. There are 16 seniors, and 15 sophomores on the list. Those who had reported as of Tuesday night include:

- SENIORS: Ronnie Awtrey, S. D. Baize, Tommy Baxter, Danny Black, David Carson, Everett Gee,

FOR CHIEF GAMES

Season Tickets Still On Sale

The reserved seat ticketsale for Friona High School's 1963 home football games continues at Bi-Wize Drug Store. Price for a season ticket for five home games is \$6.25, a reduction of \$1.25 from the season price of a year ago.

Except for one change, the 19-

Greg Jarrell, Glenn Herring, Bobby Hodges, Numan Loafman, Jerry Parker, Tex Phipps, Gary Renner, Eric Rushing, Bob Welch and Mickey Wilson.

JUNIORS: Ronald Brookfield, Larry Buckley, Jerry Cass, Jackie Clark, Darrell Collier, Don Collier, Doug Dodd, Milton Hargus, Dennis Howell, Neel Lyles, Doyle Mabry, Dale Milner, Danny Murphy, Bobby Perkins, George Rushing, Jim Snead, Jackie Stowers, and Joey Taylor.

SOPHOMORES: Bing Bingham, Ray Gene Braxton, Johnny Claborn, Scott Cummings, Lonnie Ellis, Trav-

David Carson, Everett Gee, (Continued on Page 2)

Request Entries For Maize Queen Contest

Entries are now being accepted for the 1963 Maize Days Queen contest in Friona September 12, according to Eva Miller, chairman of the contest.

The queen's contest is a highlight of Friona's Maize Days celebration each year. The queen will reign over the remainder of the celebration, and will ride on the Chamber of Commerce's float in the Maize Days parade Friday, September 13, along with her first two alternates.

For the first time, the bathing suit portion of the contest will be eliminated, and will be replaced by a talent division. Girls will be judged in two divisions, then -- formal dress and talent.

"Many of the girls were opposed to the bathing suit portion of the contest. They couldn't be at ease. We're going to try the talent division and see if that works better," Mrs. Miller said.

Deadline for entering the contest is Friday, September 6. Entries should be submitted to Mrs. Bill Baxter or Mrs. Bill Nunn in Friona. If organiza-

tions wish, they may call Mrs. Baxter at 5931, or Mrs. Nunn at 5391.

Sponsoring clubs, organizations or businesses must mail an entry fee of \$7.50 to the Friona Chamber of Commerce, Box 905, Friona.

"We're hoping that more girls from outside Friona will enter the contest this year. The last couple of years almost all of the entrants have been local girls," Mrs. Miller added.

An added job for the Maize Day Queen this year will be an opportunity to help judge the beard-growing contest, which has been moved to Saturday just preceding the barbecue, instead of Thursday during the

queen contest. Complete rules for the contest are as follows:

- 1. A contestant must be a Farmer County resident, aged 16-18 and be in high school in Farmer County.
2. Any club, organization or business may sponsor an entrant. Each contestant must have a sponsor.
3. A \$7.50 entry fee must be paid by the sponsor.
4. Billfold size picture, preferably black and white, must be submitted with name, age, parents' names and sponsor's name on back of picture.
5. Each entrant will be required to attend a dinner in (Continued on Page 2)

Chairman Urges More Floats For Parade

Charles Allen, co-chairman of the parade committee for Friona's Maize Days celebration, this week urged Frionans to build and enter floats in the annual parade Friday,

September 13. Floats are judged each year in three divisions -- schools, clubs and commercial. Cash prizes are awarded for first, second and third in each class. "Building a float always generates a lot of fun for a business or organization. I hope more groups will enter floats this year," Allen said.

It was reported at a committee meeting last week that the Amarillo Air Force band will be unable to attend the parade and present its concert as it has done in the past. A recently-issued directive prohibits the band from making such trips at its own expense, and this item would be quite an expense for the parade portion of the celebration. Another portion of the celebration which organizations need to be planning for is the window display contest.

FRIDAY NIGHT

Boosters Schedule Watermelon Feast

The first Booster Club meeting of the 1963-64 season will be held Friday during and after the drills by the Chieftains. Following the drills, the club will host the Chiefs, and all other FHS athletes who care to attend, for a watermelon feast.

Election of officers will be one item on the agenda, according to John Renner, president of the group. Also, the club members will have an opportunity to meet the new coaches on the FHS staff.

"All prospective high school athletes, including girl basketball players, and all who would like to join the Booster Club are invited to attend," said Renner.

A business session will begin about 8 p.m., in the west stands, weather permitting. The club will watch the Chief drill, and following the drills, will invite the players to take part in the watermelon feast.

After the meeting, Renner

says that the club members need to do some work on the newly-sodded football field, in removing crab grass. "It might be a good idea for everyone to bring his pocket knife," Renner stated.

Other officers of the club during the past year include Floyd Brookfield, vice president, and George Jones, secretary-treasurer.

Lazbuddie Schools Open Doors Monday

The Lazbuddie Independent School District will hold registration for the 1963-64 school term on Friday, August 23. First day of school at Lazbuddie will be Monday, August 26.

Albert Fuller, formerly Superintendent of Schools at Blanket, Texas, has replaced James G. Ward as Superintendent at Lazbuddie. Ward had held the position for the past 11 years.

Fuller has 12 years of administrative experience. He was at Blanket for three years, and prior to that was Superintendent at Eola for three years. He was high school principal for six years at Lott.

Fuller received his bachelor's degree at Howard-Payne College, Brownwood, and his master's from Southwest Texas State, San Marcos.

Ward resigned to move to Valley View, near Wichita Falls. He will be the Superintendent of Schools there.

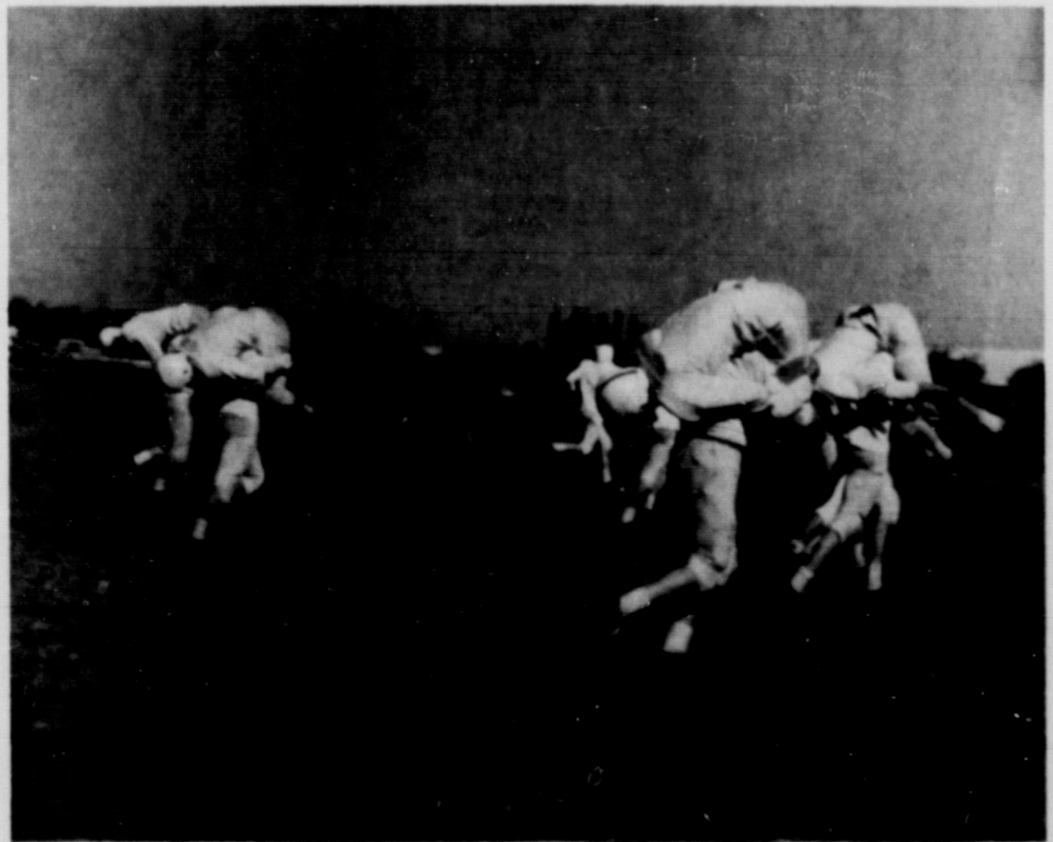

Fuller and his wife, May Belle, have three children, Nancy, 13, Patsy, 16, and Albert, 15. They are members of the Baptist church.

Ethridge Earns Las Vegas Trip

Mr. and Mrs. Dan Ethridge are spending the week visiting Grand Canyon, Las Vegas, Nev., and Hoover Dam, as guests of the Amicable Life Insurance Company, for which Dan is local agent.

Ethridge earned the expense-paid trip by qualifying with a certain amount of insurance sales during the contest period. The group will spend three nights and two days at the Dunes in Las Vegas.

The Ethridges caught the special train in Lubbock Monday afternoon of this week, and are to return to Lubbock Saturday, August 24.

DRILL TIME . . . Members of the 49-man squad which began football workouts at Friona High School this week are shown during one of the early drills. Coaches are pleased with the number of boys out, as well as with the spirit of the crew.

EVEN FOR THE MAYOR . . . It's shave permit time in Friona, for those who do not plan to grow a beard for the Maize Days celebration, even for the mayor of the city, as Raymond Fleming found out. He's shown as he purchased the first shave permit from Bill Sheehan, chairman of the permit committee. The buttons will be distributed for sale by members of the Friona Lions Club at their meeting tonight.

NEXT FRIDAY

Registration Set For Local Pupils

The seventh through the 12th grades will register for the 1963-64 school term on Friday, August 30...

"Buses will make their first regular runs on Monday, September 2, and the cafeteria will begin operation that day...

In connection with the cafeteria, Farr encouraged parents to purchase meal tickets for their children by the week or month as much as possible...

The first grade students who have not already brought in a birth certificate will need to do so when school starts, it was pointed out...

Most of the beginning students brought their birth certificates at last April's pre-school registration day.

Queen Contest --

(Continued from page 1) their honor at the Friona Country Club at 5:30 p.m. Thursday, September 12...

Girls will be judged in two divisions -- formal dress and talent. The talent division will offer choices of sewing, cooking, designing, art, music, or dramatics.

In addition to Mrs. Miller, Mrs. Baxter and Mrs. Nunn, members of the queen's contest committee are Mrs. Lee Renner and Mrs. James Buckley.

MASON BRASS . . . Members of the Friona Masonic Lodge pose with a state organization official who visited the local lodge during family night Tuesday.

for the family night activities. From the left are J. R. Braxton, treasurer of the Friona Lodge, Wayne Garth, Worshipful Master, Collard, and Claude Miller, secretary of the local lodge.

Area School Officials Honored At Convention

A Friona vocational agriculture instructor and Lazbuddie's former Superintendent of Schools are to be honored during the vocational agriculture teachers' meeting in Dallas August 6-9.

David McVey, Friona Vocational Agriculture Instructor, will receive an award for work with the television media, one of six such awards to be made.

Nominations for the administrators' awards are made by instructors in each of the 53 districts in the state. Through the district and area committees the final selections are made of those to be honored.

Association to encourage the telling of the work in Vocational Agriculture program, including the work of Future Farmers and Young Farmers Chapter activities.

The awards will be a part of the four-day conference of Vocational Agriculture Teachers. The conference will include workshops and other programs designed to keep the teachers abreast of the rapidly changing Texas agriculture.

The presentations will be made at the Association Awards Breakfast in Dallas August 7. Approximately 1100 teachers and friends are expected to attend the conference.

Some Towns Get SWPS Rate Cut

Southwestern Public Service Company has taken a step in its rate simplification and equalization program which will mean lower costs for residential service for nearly 20,000 customers in 47 communities on the North Plains, it has been announced by Cliff Milner, Panhandle Division Manager for the electric light and power company.

However, the rates for Hereford and Friona will remain the same, the official pointed out.

The towns which will benefit from the rate reduction include Borger, Channing, Claude, Dalhart, Dumas, Groom, Gruver, Hartley, Lefors, Miami, McLean, Panhandle, Stinnett, Stratford, Sunray, Vega, Wheeler and White Deer.

Star Lites --

(Continued from page 1) day when Mrs. Bing Miller of Lawton, Oklahoma, sister to Eva Miller, church organist, joined her sister as an accompanist by playing piano at the services.

Members are used to Eva's usual good music, and having her sister accompany her on the piano was a rare treat.

"As long as we have been playing, that is the first time we have had an opportunity to play as a 'duet' for anything," Eva related.

In this day of rising prices and the high cost of living, it's refreshing to hear this announcement from the Adrian Public Schools: "The price of lunches at Adrian schools will be reduced from 35 to 30 cents; if participation and payment of accounts are as good as it was last year, the school feels that it can successfully operate at these rates."

Hurray for Adrian Schools! We didn't think we'd ever hear of such a thing again.

U. N. Africa - Asia bloc asks assessment cut.

Football --

(Continued from page 1) is Graves, Tim Herring, Larry Johnson, Hugh Latham, Eldon Long, Joe Mabry, Jesse Shirley, Tommy Sherley, Bobby Sims, and Eugene Weatherly.

Three boys have indicated they want to help manage the team. They are David Perkins, Ronnie Reed and Kim Buske.

There are five additional boys who indicated last spring that they would play football, but haven't shown up as yet for some reason or another. Thus, the squad might total 50 by the time school starts.

This is all in addition to some 32 freshmen boys who indicated last spring that they would participate in freshman football.

Apparently, things are picking up already at Friona High School, at least from a numerical standpoint.

End David Parks, Texas Tech's All-American possibility, featured in seven statistical categories in 1962 -- rushing, passing, total offense, receiving, punting, interception returns, and scoring. In addition, on defense he's the Fed Raiders' "monster man."

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER ONE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 9, 1963. SENATE JOINT RESOLUTION NO. 1 proposing an amendment to Sections 2 and 4 of Article VI of the Constitution of the State of Texas so as to repeal the provision making payment of the poll tax a requirement for voting and so as to authorize the Legislature to provide for the registration of all voters.

Section 1. That Sections 2 and 4 of Article VI of the Constitution of the State of Texas be amended to read, respectively, as follows: "Section 2. Every person subject to none of the foregoing disqualifications who shall have attained the age of twenty-one years and who shall be a citizen of the United States and who shall have resided in this state one year next preceding an election and the last six months within the district or county in which such person offers to vote, shall be deemed a qualified elector; provided that any member of the Armed Forces of the United States or component branches thereof, or in the military service of the United States, may vote only in the county in which he or she resided at the time of entering the service, so long as he or she is a member of the Armed Forces and provided further, that before offering to vote at an election a voter shall have registered if required by law to do so. The Legislature may authorize alternate voting. This Amendment shall take effect on December 1, 1963.

Proposed CONSTITUTIONAL AMENDMENT NUMBER FOUR ON THE BALLOT

"The Veterans' Land Fund shall be used by said Board for the purpose of purchasing lands situated in the State of Texas owned by the United States or any governmental agency thereof, owned by the Texas Prison System or any other governmental agency of the State of Texas, or owned by any person, firm, or corporation. All lands thus purchased shall be acquired at the lowest price obtainable, to be paid for in cash, and shall be a part of said Fund. Such lands hereafter or hereinafter purchased and comprising a part of said Fund are hereby declared to be held for a governmental purpose, although the individual purchasers thereof shall be subject to taxation to the same extent and in the same manner as are purchasers of lands dedicated to the Permanent Free Public School Fund.

"The lands of the Veterans' Land Fund shall be sold by said Board in such quantities, on such terms, at such prices, at such rates of interest and under such rules and regulations as are now or may hereafter be provided by law to Texas veterans who served not less than ninety (90) continuous days, unless sooner discharged by reason of a service-connected disability, on active duty in the Army, Navy, Air Force, Coast Guard or Marine Corps of the United States between September 16, 1940 and March 31, 1945, and who upon the date of filing his or her application to purchase any such land is a citizen of the United States, is a bona fide resident of the State of Texas, and has not been dishonorably discharged from any branch of the Armed Forces above-named and who at the time of his or her enlistment, induction, commissioning, or drafting was a bona fide resident of the State of Texas. The foregoing notwithstanding, any lands in the Veterans' Land Fund which have been first offered for sale to veterans and which have not been sold may be sold or resold to such purchasers, in such quantities, and on such terms, and at such prices and rates of interest, and under such rules and regulations as are now or may hereafter be provided by law.

"All moneys comprising a part of said Fund and not expended for the purposes herein provided shall be a part of said Fund until there are sufficient moneys therein to retire fully all of the bonds hereafter or hereinafter issued and sold by said Board, at which time all such moneys remaining in said Fund, except such portion thereof as may be necessary to retire all such bonds, shall be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. All moneys becoming a part of said Fund hereafter shall likewise be deposited to the credit of the General Revenue Fund.

"When a Division of said Fund (each Division consisting of the moneys attributable to the bonds issued and sold pursuant to a single Constitutional authorization and all lands purchased therewith) contains sufficient moneys to retire all of the bonds secured by such Division, the moneys thereof, except such portion as may be needed to retire all of the bonds secured by such Division, shall be set aside and remain a part of such Division for the purpose of retiring all such bonds, and delivery to the purchaser or purchaser, be incontestable and shall constitute general obligations of the State of Texas under the Constitution and all bonds hereafter issued and sold by said Board are hereby in full and complete satisfaction of the obligations of the State of Texas. In order to prevent default in the payment of principal or interest on any such bonds, the Legislature shall appropriate a sufficient amount to pay the same.

"In the sale of any such bonds or hereafter purchased by said Board, the purchase price shall be given to the administrators of the various Teacher Retirement Funds, the Permanent University Funds, and the Permanent School Funds.

### Baca Serving On Guam Base

George J. Baca, constructionman, USN, son of Mr. and Mrs. Fidel Baca of Bovina, is serving with Naval Mobile Construction Battalion Five currently on a nine-month tour of duty on Guam.

During their deployment to Guam the unit will take part in construction programs at various naval installations on the island. Many of the projects under construction are repair-

ing damage caused by Typhoons Karen and Olive.

Mobile Construction Battalion Five is slated to return to its home base at the Naval Construction Battalion Center, Port Hueneme, Calif. in March 1964.

Creator-writer-producer-actor Carl Reiner of "The Dick Van Dyke Show" ascribes his perfect timing to his father — a watchmaker.

The Bert Drakes from Iowa have been visiting relatives here the past several days and have been duly impressed with the bigness of the way things are done in Texas. However, an incident which took place about the middle of last week has in Mrs. Drake's words, "sold me on the honesty of Texans."

The Iowans started to Hereford to visit relatives early one morning and in the confusion of loading, un-loading and re-loading, it was necessary for Mrs. Drake to have both hands free, so she placed her purse on top of the car.

Next time she remembered it, the family was almost to Hereford. After pulling off the highway, they soon learned that the purse had fallen off, but had no idea when or where.

Of course, they drove back to the starting place and looked carefully in every direction, but didn't find any sign of the purse or its contents.

After doing some checking, Mrs. Drake was able to determine that she had lost her glasses, driver's license, several family pictures and about \$200 in greenbacks, along with sundry items any woman away from home usually carries in her purse.

Apparently within a few minutes after the Drake family drove past Benger Air Park,

A. L. Black, local farmer-stockman, was returning to Friona from the feed lots south of Black. Upon first seeing the object, he didn't realize that it was a woman's purse, but as his pickup passed over it, he recognized the object and stopped to pick it up.

In reporting the incident, Black said, "It would not have surprised me if the purse had been pulled off the road by strings before I stooped to pick it up."

After picking it up, he looked inside a billfold and saw an Iowa address and immediately surmised that someone passing through had lost it. Thinking he would check further later, he placed it in the floorboard of the pickup and dismissed the incident from his mind.

Later in the day he and his wife, Clyde, and some friends were gathering corn when one of the ladies discovered the purse and immediately began asking questions.

Upon returning to town Mrs. Black found a sales slip from a local garage and called the owner. After learning that the Iowa Drakes were visiting the Friona Drakes, she called and reported that the purse had been found.

"By that time I would have been very happy to recover the personal effects, but getting the purse, money and everything back was just more than I had ever hoped for," said Mrs. Drake.

She further stated, "It would be impossible for anyone who hasn't had a similar experience to know how grateful I am that honest people live in Friona."

After the Blacks refused a generous award, Mrs. Black said, "Just seeing the expression on Mrs. Drake's face was all the reward anyone could want."

.....

Carol Hardesty visited the Star office briefly Tuesday morning and reported having a wonderful vacation in the mountains of Colorado recently.

She also brought in a newspaper clipping from the Grandfield, Oklahoma paper which reported a proposed tour of Russia and other European nations later this month by a group of farmers.

One of the Grandfield farmers planning to make the trip is Carol's brother, George Carroll. This group of farmers is participating in a nationwide program inaugurated by President Eisenhower entitled "People to People."

During my visit with Carol,

I learned that she is hesitant to reveal her given name. However, I did find out that she became "Carol" to her friends first because her sir name was "Carroll" and then after her marriage she dropped one of each of the double letters from her surname and has used it as a given name since.

Since she hesitates to reveal this information, some of her friends might do some snooping around and learn it then use the knowledge as an effective arm twister.

.....

Apparently Luellen McLean, a teacher in the Wichita Falls school system, has had an interesting summer. Early in June she and a teacher from Fort Worth, who was a classmate at Midwestern University, decided to do something different during the summer.

Neither of them had seen as much of Denver as they thought they would enjoy seeing, so chose the Mile High City as their summer vacation spot.

It was necessary for each of them to obtain part time jobs to finance the vacation, so it was really a working vacation . . . a different kind of work, of course.

Not having to work full time the two had ample time to visit the museums, zoos, amusement parks and points of interest in and near the city.

Luellen will be here for a brief visit before returning to Wichita Falls to begin her second year of teaching. Visiting with her briefly was indeed a pleasure.

The Public Is Cordially Invited To Attend

Schedule Unique Grid Workout

West Texas State University head football coach, Joe Kerbel, announced today that his Buffalo squad will hold an unprecedented football practice at the Amarillo Air Force Base.

The Buffs will travel out to the base and hold a regular practice session on Thursday night, September 12, from 7:30 to 9 p.m.

Details have been worked out between Kerbel and Major General Dwight O. Monteith, base commander. It is believed that this practice session will be the first of its kind to be held at any Air Force installation.

Dry Cleaning Institute Accepts Gib's Cleaners

Gib's Cleaners, Box 452, Friona, has been accepted for membership in the National Institute of Drycleaning, according to an announcement from the Institute which was confirmed by Mr. Gilbert B. Boatman, of Gib's Cleaners.

The National Institute of Drycleaning is a trade association representing more than 8500 drycleaning plants throughout the United States and in forty-two foreign countries.

As an NID member, the local plant will be kept abreast of the latest advances in the drycleaning industry via frequent bulletins on cleaning procedures. They will also receive the latest information about the serviceability and wearability of new fabrics plus tips on fabric care to pass on to its customers.

The new member will be eligible to receive unbiased research tests to measure the quality of its cleaning, the effectiveness of its water repellency treatments, mothproofing procedures, etc.

LEGAL NOTICE

THE STATE OF TEXAS

To: S. K. Lillard, Stanton R. Lillard, and A. E. Carroll, and should either of them be married, then their unknown wife or wives, and should any of said aforementioned parties be deceased, then their unknown heirs or legal representatives, Defendants.

You are hereby commanded to appear by filing a written answer to the Plaintiff's Petition at or before ten o'clock A.M. of the first Monday after the expiration of forty-two days from the date of the issuance of this citation, same being Monday the 9th day of September 1963, at or before ten o'clock A.M. before the Honorable District Court of Parmer County, Texas, at the Court House of said County in Farwell, Texas.

Said Plaintiff's Petition was filed in said court, on the 30 day of July A.D. in 1963, in this cause, numbered 2390 on the docket of said court, and styled, GEORGE C. TAYLOR, JR., Plaintiff, vs. S. K. LILLARD, ET AL, Defendants.

The names of the parties to the cause are as follows: GEORGE C. TAYLOR, JR. is Plaintiff and S. K. Lillard, Stanton R. Lillard, and A. E. Carroll, and should either of

them be married, then their unknown wife or wives, and should any of said aforementioned parties be deceased, then their unknown heirs or legal representatives, are Defendants. A brief statement of the nature of this suit is as follows, to wit:

Suit in trespass to try title, Plaintiff alleging that he was the owner in fee simple and in possession of Lots 4 and 5, of Block 75, of the Original Town of Friona, Parmer County, Texas, on the 15th day of July, A. D. 1963, and that thereafter Defendants entered thereon and ejected him therefrom, and likewise invoking the 10-year statute of limitations so far as same applies to land titles in the State of Texas, and praying for title to and possession of said property, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Farwell, Texas, this the 30 day of July A.D. 1963.

Attest: Dorothy Quickel Clerk, District Court, Parmer County, Texas.

(SEAL) To be published in the Friona Star August 8, 15, 22 and 29, 1963. 4-tc

come to church sunday

"WE ARE FOOLS FOR CHRIST'S SAKE" 1 COR. 4:10

The apostles were fools on account of Christ; because it was owing to their preaching Christ that the world regarded them crazy.

"For the preaching of the cross is to them that perish, foolishness; but unto us which are saved, it is the power of God," 1 Cor. 1:18.

It pleased God by the foolishness of preaching to save them that believed."

Divine wisdom and power, at their seeming lowest, are far above man's highest, and furthermore, God will not accept man's highest standard.

"The wisdom of this world is foolishness with God," 1 Cor. 3:19. "What things were gain to me, these have I counted loss for Christ." Phil. 3:7.

Wouldn't you rather be this kind of a fool?

Rev. I. S. Ansley Pastor First Colored Baptist Church,

**TWO SHOOTINGS**

**Friona Gives Peace Officers Busy Time**

Friona and county peace officers had a busy night last Saturday night. Felix Vera, 42, and Joe Morin, 18, were arrested in connection with the shooting of Jo Ann Escamilla, 17, who is hospitalized in Friona with a gunshot wound in her right hip.

Bond has been set at \$2,000 each for Vera and Morin. They have been bound over to the action of the Farmer County Grand Jury, which meets in September.

The shooting took place on a country road east of Friona near the Castro County line, according to Sheriff Charlie Lovelace and deputy Rex Cowart.

A colored man and his son

received gunshot wounds in another incident early Sunday morning. Albert Ruffins, 54, and his son, Alvin, 15, of Friona, were hospitalized after a third member of the family, underaged, inflicted .22 calibre wounds during a family argument.

Also on Sunday night, deputy Cowart arrested two Friona minors for having beer in their automobile. The two were arraigned before County Judge Loyde Brewer. Neither was fined, although they were severely reprimanded by the judge.

On Monday, charges of statutory rape were filed on an 18-year-old Friona man, in connection with an underaged girl. In custody is David Leroy Chapman, who was apprehended in Friona Monday.

Earlier lastweek, Israel Leija, 22, of Tulla, was arrested in connection with forgery charges in Friona, Hub and Farwell. Leija is charged to have passed checks at White's Super Market and Piggly Wiggly in Friona.

He was indicted for forgery.

**Completes Schedule**

Texas Tech's 1963-64 basketball schedule has been completed with the signing of Midwestern University for the Lubbock Coliseum Jan. 27 . . . Other non-Southwest Conference games carded for the Coliseum are with New Mexico, Alabama, Oklahoma, and Auburn . . . On the road the Red Raiders will tangle with Kentucky, Wyoming, Nebraska, Kansas, and the Phillips 66ers of Bartlesville, Okla.

SOUTHEAST OF FARWELL

Construction Slated On U. S. Highway 84

Construction is to begin within two weeks on the widening of U. S. Highway 70-84 from Farwell to the Bailey County line, and the contractor has set July 1 as the tentative completion date for the new four-lane highway.

State Highway Department has been underway for some time, and the contractor is expected to move into the county by September 1, to begin grading and construction of structures.

Plans call for constructing two new additional lanes, and routing traffic over the old road

before the present two-lane highway is rebuilt. "We expect to have the first two-lane section completed by the middle of the winter," said James Kerr, contractor, at a pre-construction meeting at Farwell Monday.

Attending the meeting in addition to Kerr were O. L. Crain, district engineer with the State Highway Department, Lubbock; Rhea Bradley, resident engineer, Littlefield; County Judge Loyde Brewer, Lloyd Killough, Bovina, county highway patrolman Carol Parker, Farwell, and Tom Atkins, Farwell Deputy Sheriff.

Length of the new four-lane highway, the first in Farmer County, will be 10.211 miles in length, stretching from the Bailey County line just southeast of Larist, to Seventh Street in Farwell. New curb and gutter work from Farwell's Seventh Street east to the city limits have been in place for some time.

Cost of the project is estimated at \$912,000. The contract time calls for a total of 275 working days.

The project will be speed zoned for 45 miles per hour during construction. Joe B. Cope will be superintendent of construction, according to Kerr.

DISCUSS PROJECT . . . These officials got together in Farwell Monday in a pre-construction meeting regarding the widening of U. S. Highway 70-84 to four lanes. In the back are Lloyd Killough, Bovina, Rhea Bradley, Littlefield, and Carol Parker, Farwell. In front are James Kerr, Lubbock, contractor, county judge Loyde Brewer and District Highway Engineer O. L. Crain, Lubbock.

Good Turnout Reported For Junior Golf Meet

A total of 38 players took part in the first annual junior golf tournament at Friona Country Club Tuesday and Wednesday. Five flights were necessary, four for the boys and one for girls.

"We were real pleased with the turnout. We didn't know there were this many young players in the area," said Joe Coronado, Friona Country Club pro. He indicated that the interest showed that the tournament should become an annual affair.

An awards dinner was held last night at the clubhouse. First, second and third place received awards in each flight. All winners were not known by press time.

There were eight entries in the girls' flight, which played

FFA Boys Featured At State Convention

Three Friona High School Future Farmers of America recently returned from the state Vocational Agriculture Teachers convention in Dallas, where they appeared on the convention program.

Jerry Cass, George Rushing and Ronnie Brookfield, three of the members of the state championship senior farm skills team, accepted an invitation from George Hurt, commissioner of vocational agriculture for the Texas Education Agency, to assist with the workshops concerning the training of skill teams.

Vocational agriculture instructors Benny Pryor and David McVey accompanied the boys. As part of the program, McVey was presented an award for his work with the television industry. McVey had Friona FFA teams featured on an area

television program last spring. "The three boys presented their skill in exceptionally fine fashion before two groups of agriculture instructors totalling

in excess of 500 from all parts of Texas," McVey said.

The trio's expenses were paid by George Hurt, from registration fees for the convention.

During their spare time, the boys had a chance to look Dallas over, visit Six Flags Over Texas, and have a good time in general.

GENERAL TELEPHONE TOWNS ON THE MOVE

As it was.

After facelifting.

Wylie prepares for more growth

When Wylie, Texas planned civic improvements, its progressive citizens went all the way. Showing a population increase of 34% over 1960 census figures of 1804, Wylie set out to prepare for even more growth.

They launched a street paving program, downtown business modernization, construction of a new school, new bank building, new residences and a new post office.

This combination of public and private improvement is well under way today.

as shown in the "before and after" facelifting photos above. The Wylie story is another reason we say big things are happening in General Telephone towns.

These towns are on the move. Community improvements are under way, local resources are being developed, new businesses, new industries are coming in. If your town seeks additional information about expansion, perhaps we can help. Just write our Community Development Department, Box 1001, San Angelo, Texas.

"They're all here," commented Mr. and Mrs. Roy V. Miller Sr. as they made final checks before posing with their fourteen grandchildren in their home Friday evening. Back row: Maridale Glass, Darla Miller, Sally Tims, Clint Mears.

Dan Miller, Ben Miller, Evelyn Tims, Sherry Glass and Curt Miller. Front row: Dada Miller, Kent Miller, Jamie Lou Glass, on her grandmother's lap, Chuck Tims and Sarah Ann Mears.

TUCKER FAMILY poses for group picture. The children of Mrs. J. E. Tucker, center front, are pictured in Clovis City Park. They are: Back Row-Grady Tucker, Velma

Lozet, Elva Bowman, Lawrence Tucker, Vera Watkins and Arta Mae Dodd. Front Row-Mildred Mills, LeRoy Tucker, Mrs. Tucker, Lorraine Stovall and Richard Tucker.

Millers Have Houseguests

Houseguests in the home of Mr. and Mrs. Roy V. Miller Sr. recently have been Mr. and

Mrs. Bing Miller and children, Karen, Pam, Sarah and Jerry, Lawton, Okla., and Mrs. L. W. Roysden, Minnehah, Okla.

To Be Dismissed

Mrs. E. E. Sparkman, who has been hospitalized at Northwest Texas Hospital in Amarillo since last Thursday, is making satisfactory progress and expects to be dismissed within the next day or two.

She received a broken shoulder bone in a fall at her home Thursday morning and was given emergency treatment at Parmer County Community Hospital before being transferred to Amarillo by Claborn ambulance.

Mrs. Roy Miller and Mrs. Bing Miller are sisters and Mrs. Roysden is their mother.

Other visitors in the Miller home were Mr. and Mrs. Ross Miller and children, Mr. and Mrs. Clyde Tims and children and Mr. and Mrs. Sam Mears and children, all of Friona.

Also Mr. and Mrs. Roy V. Miller Jr. and children, Fort Collins, Colo., and Mrs. Dale Glass and children, McLean.

Mrs. Bob Davis has been admitted to St. Anthony's Hospital in Amarillo for medical treatment.

Friona Students Serve As Camp Counselors

Carol Struve, daughter of Mr. and Mrs. Steve Struve, and Diana Taylor, whose parents are Mr. and Mrs. J. B. Taylor, spent four weeks this summer as counselors at Christian Heights Camp, which is about 50 miles south of Buffalo, New York.

These two Friona High School students left Amarillo by plane about noon, changed planes at Chicago and arrived in Buffalo about 11:00 that evening. Between 50 and 75 campers were at the camp each week and Diana and Carol had the six to eleven year old groups.

On weekends they were able to make side trips and went to New York City, Philadelphia, Valley Forge and Niagara Falls. While at the falls they went over on the Canadian side and saw a clock made from flowers and were also impressed with the beauty of the many different colors of lights shining at night.

In New York City they visited Grant's Tomb, Greenwich Village and the Empire State Building, from which they watched the eclipse of the sun. From this building they could see the Statue of Liberty, the United Nations Building, Macy's Department Store and Central Park.

After walking down Broadway through Times Square, they rode the subway back to a parking lot where they had left a car.

Independence Hall and the Liberty Bell were highlights of their Philadelphia trip.

Camp activities included campouts twice a week, wicker roasts, bonfires, hayrides, hikes, swims in a beautiful lake on the camp property and movies twice a week.

In summing up the trip, the two girls agreed upon several incidents to be placed in the "never to be forgotten" category. Some of them were: Being teased almost constantly about the way they talked.

Missing a scheduled plane on their return trip and returning to camp unexpectedly. Running into Cynthia Caffey at the Chicago airport and learning they were taking the same flight out.

Diana, who will be a senior this fall, and Carol, who will be a junior, summed it up like this, "The entire trip was a wonderful experience for us, but Friona looked pretty good when we got back."

Mrs. Douglas Whatley and son, David, of Austin arrived Tuesday morning for an extended visit in the home of her parents, Mr. and Mrs. Sloan H. Osborn.

Mr. and Mrs. John D. Sanders and sons, Tommy Jay and David, spent the weekend visiting Mr. and Mrs. Ted Sanders and daughter at Plainview.

Of Interest To THE WOMEN

Fidelis Class Meets In Joel Landrum Home

Eleven members of the Fidelis Sunday School class of First Baptist Church met in the home of Mrs. Joel Landrum Thursday evening for the regular monthly business and social meeting.

Bible study was on the harmony of the four gospels. Mrs. Charles Hough presented the devotional. Refreshments were served by the hostess.

Others present were Mesdames Jimmy Maynard, Dale Williams, Richard Adkins, Jim-

my White, Leon Massey, Vel-den Carroll, Jarrell Wright, Dale Smith and Dee Clark.

Cookout To Be Family Affair

The Young Married People's Department of the First Baptist Church will have a family night cookout this Saturday at the home of Mr. and Mrs. Stanley Benge. The event is set for 7:15 p.m. with those bringing food to come a little earlier.

The Character Builders Men's Class headed by George Taylor will be host for the cookout.

From 75 to 100 husbands, wives and children are expected to attend.

Campers Return

Richard White, Rex Bracken and Keith Blackburn spent last week camping and sightseeing in Colorado and Wyoming. They toured Estes Park, Grand Lake and points of interest in the vicinity of Cheyenne and Laramie.

Hardestys Return

Mr. and Mrs. Wesley Hardesty returned recently after a ten day vacation in Colorado. At Colorado Springs they visited in the home of Mr. and Mrs. Edwin Hardesty.

Visitors in their home this week are Beverley Mayes, Carl Lee and Dawn Johnson, all of Amarillo.

Mrs. T. C. Gardner

Tucker Family Meets For Annual Reunion

Members of the family of Mrs. J. E. Tucker met at Clovis City Park Sunday for an all day family reunion and picnic. A basket dinner was served at noon and the afternoon was spent visiting and playing games.

Children of Mrs. Tucker and members of their families present were Mr. and Mrs. Grady Tucker, Mr. and Mrs. Leroy Tucker, Mr. and Mrs. Mervin Mills and Elva Bowman, Clovis; Mr. and Mrs. T. E. Lovett, Friona; Lawrence Tucker, Downey, Calif.; Vera Watkins, Placerville, Calif.; Mr. and Mrs. O. L. Dodd, Melrose and Mr. and Mrs. Lloyd Stovall, Albuquerque.

Other relatives and friends attending included Mr. and Mrs. Joe Early, Paris, Texas; Mr. and Mrs. Jack Moorhead and Mr. and Mrs. Gilbert Ludeske and daughter, Lovington; Mr. and Mrs. Ed Futrell and family, Lubbock.

Also Mrs. Ollie Thomas and son, Horace Bentley, Mrs. Ella Ketch and Mr. and Mrs. Tommy Young, Clovis; fifteen grandchildren and six great-grandchildren.

Guests In White Home

Mr. and Mrs. Roy Campbell and daughter Audrey of Lubbock spent Thursday night and Friday with her parents, Mr. and Mrs. E. S. White, and visited with their son, David, who has been employed at White's Super Market this summer.

They returned home late Friday.

Local Residents Attend Annual Carter Reunion

Mrs. C. D. Carter, Mrs. Lura Bradley, Mr. and Mrs. Clarence Martin and family and Mr. and Mrs. Kenneth Heady and sons, all of Friona, and Mr. and Mrs. Otis Huggins, Donna and Roy, of Farwell attended a family reunion in Mackenzie Park at Lubbock Sunday.

Others present were Mesdames Jimmy Maynard, Dale Williams, Richard Adkins, Jim-my White, Leon Massey, Vel-den Carroll, Jarrell Wright, Dale Smith and Dee Clark.

Class Meets In Allen Home

The LLL Sunday School Class of the First Baptist Church held its regular monthly meeting Friday night at the home of the class teacher, Mrs. Charles Allen.

Mrs. Bill Ellis gave the devotional on "The Essence of Marriage."

Refreshments of fudge and lime sherbert were served to Mrs. M. C. Osborn, Dave Allen, Sam Mears, Dale Hart, Bill Ellis, Loyd Messinger, Vel-den Carroll and Fred Kelly. Mrs. Clyde Tims served as co-hostess.

Also Mr. and Mrs. Roy Carter and family, Snyder; Mrs. Rob Stewart of Clovis, and her niece and nephew from California; T. C. Carter and daughter and baby, Jane, Pampa; D. E. Coldiron and sons and Mrs. Joyce Carter and Patty, Amarillo; Mr. and Mrs. Dulaney, Dumas; and Roy Jenkins, Littlefield.

Rebekahs Have School

Lodge Deputy Sister Geneva Williams directed a school of instruction at the regular Rebekah Lodge #308 meeting Monday evening.

Fourteen visits were reported and eight cards were sent. Refreshments were served by Mrs. Pat Fallwell, hostess.

Mrs. Patti Hughes and daughters, Pauletta, Renee and Jacqueta Beth and Karen Hughes spent the weekend visiting in the homes of Mr. and Mrs. Paul K. Hughes and Mr. and Mrs. Jimmy Tedford in Amarillo.

He didn't insure his car through an independent insurance agent. Now, even headstands won't help him collect on a damaged car. For prompt, fair payment, be sure to get your insurance through an independent agent.

# Yes, It Does Get Kinda Crowded ..

by Carol Ellis

"I QUIT WRITIN' LETTERS.... IT'S TOO DANGEROUS TO GET NEAR THE POST OFFICE."

If you have something to do "one of these days," you might as well get busy and do it or you won't have time to do it.

Nothing is more disconcerting than to listen to an "expert" who doesn't know that you are a more - highly-informed expert.

ODESSA AMERICAN: "Shouldn't we strive to abolish government operation of businesses (socialism), government control over agricultural production (facism), and governmental redistribution of the wealth(communism)? If the American capitalist system fails, there will be no other nation to save us--as we have saved so many others. On the other hand, if we will rededicate ourselves to capitalism in America, it will provide the beacon light of freedom and abundance that may save the whole world. The rewards of capitalism await us. Are they worth your effort?"

## Star Flashbacks

(From the files of the Friona Star)

ONE YEAR AGO -- August 23, 1962 -- Final approval was given at a quarterly conference of the Methodist Church of Friona last Sunday for the construction of a new church educational building and a new parsonage.

Peter and Wolfgang Stoerchle spent the day in Friona resting during their horseback trip from Toronto, Canada to Los Angeles.

Ben Greene of Elizabethtown, North Carolina, made an unscheduled stop west of Friona Monday when he was forced to land his glider in the road in front of the Louis Welch farm. Greene set out from Odessa in an attempt to set a new American gliding record.

THREE YEARS AGO -- Members of Friona's newest religious body, the Calvary Baptist Church, met for the first time in their new home last Sunday, the building which was moved from Bovina to Friona.

Steve and Narcia Messenger's Austin-Heley was third place winner Sunday in the annual Panhandle Foreign and Sports Car Club concours in Amarillo in the sports car division.

A total of 26 boys have been retained on the "A" squad by Coach Earl Smith as the Chiefs enter their second week of practice.

FIVE YEARS AGO -- The county judge's race will hold the spotlight Saturday as Parmer voters cast their ballots in Democratic runoff primary. Loyde A. Brewer of Friona meets incumbent A. D. Smith.

Earl Smith, a 1953 graduate of Texas A&M College, has been named to the coaching staff at Friona High School. He will work primarily with the freshman team.

Work began this week on a new \$10,000 office and shed at the Rockwell Bros lumberyard in Friona. The new building will be built at the company's present location, on east Sixth Street.

## County Records One Fatality During July

The Texas Highway Patrol investigated nine accidents on rural highways in Parmer County during the month of July, according to Sergeant W. E. Wells, Highway Patrol Supervisor for the area.

The crashes accounted for one death, three persons injured and an estimated property damage of \$7,600.

The fatality was Jimmy Ferrell Chandler, 20-year old Muleshoe youth who was killed at the intersection of State Highway 214 and Farm Road 145 on Sunday, July 7.

The rural traffic accident summary for Parmer County from January through July of 1963 shows a total of 71 crashes. As a result of these accidents, two persons have been killed and 21 persons injured. Estimated property damage amounts to \$59,342.

"There are many good jobs open in the Texas Highway Patrol for young men between 21 and 35 who would like to help prevent the tragic crashes and collisions that occur on the streets and highways," Sergeant (Continued on Page 3)

CONGRATULATIONS TO: The winners of the 1963 Texas Sports Writers Association contest (for stories written during 1962) -- George Pharr, Orange Leader, advance story category; Hollis Biddle, Waco News-Tribune, account; Bill

Maddox, Irving News-Texan, account (small paper division); Mickey Herskowitz, Houston Post, column; and Roy Edwards, Dallas Morning News, feature. And, to Jones Ramsey, University of Texas sports information director, whose football pressbook was judged best in NCAA District 6 by the Football Writers.

## Mailbag

Dear Editor: "The wisdom with which our foreign policies are framed and the skill with which they are carried out depend upon the men and women who conduct our foreign affairs day by day . . . In no other field is it more urgent that our Government attract and develop the ablest public servants."

This statement from a recent report of the Committee on Foreign Affairs Personnel, well illustrates the importance of both recruiting and retaining

highly qualified individuals as Foreign Service Officers.

In an effort to attract dedicated and intelligent young men and women, representatives of the Department of State have visited hundreds of colleges and universities throughout the country. We also seek to attract the many well qualified candidates who have completed their education and are already engaged in law, business, and other professions.

In addition to those with backgrounds in political science, history, government, and the liberal arts, the Foreign Service requires men and women trained in such diverse specialties as: budget and fiscal work, management, personnel, labor relations, law, banking and finance, industry, foreign trade and all other aspects of economics and administration.

Junior Foreign Service Officers are selected on a competitive basis. The next written examination is scheduled for September 7, 1963 at selected cities throughout the country and at diplomatic and consular posts abroad. Applicants who are 21 and under 31 years of age as of July 1, 1963 and who will have been citizens of the United States for at least 9 years as of that date, are eligible to take this examination. Applications and pertinent information may be obtained from the Board of Examiners for the Foreign Service, Room 2533, Department of State, Washington 25, D.C. The closing date for filing completed application forms is July 22.

Your assistance in bringing this information to the attention of your many readers would be greatly appreciated.

Sincerely yours, Willard O. Brown Acting Executive Director Board of Examiners for the Foreign Service

"He comes in every day trying to catch me." If more people would drive in every day to "put us to a test" we'd be even busier than we are now. We welcome you to test our service and our courtesy.

**County Records--**  
(Continued from Page 2, Sec. II)

With the starting of school facing us in the next week or so the Sergeant reminds all motorists of the state law regulating traffic in regard to school buses. "The driver of a vehicle upon a highway outside the limits of any incorporated city or town upon meeting or overtaking from either direction any school bus which is stopped on the highway for the purpose of receiving or discharging any school children shall stop the vehicle immediately before passing the school bus, but may proceed past such school bus at a speed which is prudent, not exceeding 10 miles per hour, with due caution for the safety of such children."

"During the first six months of this year, Texas had one person killed and 110 injured in accidents involving school buses," the Sergeant said. "This is tragic and useless. School buses are plainly marked and motorists know that they carry a priceless cargo -- human lives."

Commenting on the upcoming Labor Day week-end facing Texas motorists, the veteran patrol supervisor said, "Many

EVERYTHING FINE . . . Things went fine as the job of hoisting the 10-ton cement beams began last Wednesday afternoon at the new Johnson Food Market building. This is one of the earlier beams to be placed.

Texas families will take advantage of this last long summer week-end to take trips prior to the opening of school. As a result, traffic will be heavy and the possibilities of traffic

crashes will be increased. "Because this holiday is so much a family affair, more people will be occupying cars. Thus, any traffic accident might result in several casualties.

This has been evidenced several times on Texas highways in recent weeks. During the 72 hour Labor Day week-end last year 24 crashes claimed the lives of 32 persons."

**Freak Mishap Delays Food Store Progress**

Construction of the Johnson Food Market in Friona was delayed somewhat last week when a 10-ton pre-stressed concrete beam snapped while the beams were being placed on the building, damaging a part of the building's north wall, and a portion of the floor. Joe Gulde, of Crowe-Gulde Cement Company, Amarillo, manufacturers of the beams, said while investigating the incident on Thursday that as far as he knew, it was the first time in the company's history that a mishap had occurred. The "eye," by which the beam was being lifted by crane, snapped, and it fell across the wall.

Miracle of the accident was that no one was hurt. George Taylor, contractor, and another worker were knocked from the top of the wall by the impact, but neither were injured.

Officials of Crowe-Gulde were at a loss to explain the mishap. "In the seven years we've been in the pre-stressed concrete business, we haven't had anything like this happen," Gulde said.

U. R. Neale, sales representative with the company, explained that the cable which went through the beam and formed the "eye" may have been faulty.

"That cable is designed to hold in excess of 50,000 pounds. The beam weighed 20,000," Neale said.

Neale explained that the reason for the beam breaking was that when any part of the cable was destroyed, the strength of the entire beam was destroyed.

"The stretching action of the cable during construction of the beam is the thing that gives the beam its strength. When the tension is disturbed, something has to happen," he said.

A portion of the north wall had to be reconstructed, delaying the construction process somewhat, but Taylor said he

didn't think the mishap would delay the October 1 target date for completion of the store.

**White Improves Visits Awtreys**

E. S. White, owner of White's Super Market, who recently underwent surgery at Farmer County Community Hospital, has been dismissed and is convalescing at his home. Members of his family report he is making satisfactory progress.

Phil Kanning, Erice Huemoller and Kernan Trisser of Truman, Minn., spent several days last week visiting in the Deon Awtrey home. These young men and Ron Awtrey were classmates in Minnesota last summer.

INSPECT DAMAGE . . . George Taylor, contractor, and Joe Gulde of Amarillo inspect the broken cement beam which snapped during a freak accident at the new Johnson Food Market last week.

**WELCOME TO FRIONA**

Gladys Bryson, who is employed by Ruthie's Flower Shop in Friona, moved here recently from Odessa. A native of Hamilton, Gladys has been associated with the floral business for some 10 years. She has worked with some of the state's larger floral concerns in Fort Worth, Weatherford, Paris and Odessa. Gladys is a qualified bridal consultant, has worked with interior decorators, and has done free lance work. She occasionally does floral demonstrations for clubs or organizations. She has two married daughters, Mrs. Herman Ferguson, Fort Worth, and Mrs. J. D. Sharp, Odessa. As to hobbies, Mrs. Bryson says "I suppose my main hobbies now are my three grandchildren." She has two grandsons, ages four and two months, and a granddaughter, seven.

## Titles Go On Line At Boys Ranch Rodeo

Two coveted titles will be at stake when the young contestants at Cal Farley's Boys Ranch hold their 19th annual Boys Ranch Rodeo over the Labor Day weekend, September 1 and 2.

The top rider among the older boys will be named Senior All-Around Cowboy while the Junior All-Around Cowboy will be selected from among the younger boys. Dean Warren, a former Liberal, Kansas boy, was named Junior-All-Around Cowboy of the 1962 rodeo and will be riding for the senior title this year. He compiled a perfect score of 100 points last year.

Boys entered in the senior division of the rodeo will ride Brahma bulls and bucking broncs while the smaller steers and calves are reserved for

the younger riders. The contestants ride under R.C.A. rules on professional rodeo stock that is taken to the Ranch.

In addition to the color and excitement of the rodeo, an enlarged arena is expected to attract a record number of visitors. For the first time, reserved box seats will be available in addition to the elevated bleachers. The box seats are \$2.50 which includes the general admission charge and are being sold at the Ranch headquarters in Amarillo. General admission tickets are \$1.75 for adults and 75¢ for children and servicemen in uniform.

At the present time, 312 boys from all over the nation are being cared for at the Ranch and those who do not ride as contestants will have some part in the rodeo. Proceeds will be used for the Ranch's expansion.

## Ronnie Procter Attends State Youth Conference

Ronnie Procter, son of Mr. and Mrs. James Procter of Friona, returned Sunday from

Austin, where he attended the first annual Attorney General's Youth Conference, August 17 and 18.

The conference, youth-led and youth-advised, was scheduled to inaugurate a totally new concept in curtailing the juvenile crime rate in the state and during the next year is designed to bring over 25,000 teenagers into some phase of the program's activities.

The conference was an outgrowth of a meeting in April of this year between Attorney General Waggoner Carr and over 100 Austin high school leaders to discuss the alarming record of young adult crime and what youth can do to reverse the trend. As a result of this meeting, an Austin "Pilot Project" was launched by the youth of that city, and eventually the state-wide conference was scheduled.

## Professor Creates 'People' Furniture

MIDDLETOWN, Conn. (UPI) — Sit in her lap and the lady won't raise an eyebrow.

The reason? The "lady" is a chair, a creation of John Risley, associate professor of art at Wesleyan University here. Risley's "people" furniture is now on the market.

The lady has a beau, created as she is with a body of black steel wire with a corduroy cushion. The beau and the lady go together in the form of a love seat with the mustachioed beau's arm about her shoulder.

Or, the lady serves as an arm chair, side chair, a bar or counter stool.

"I think I was just drawing one day," explained Risley, 43, "and I found the drawing resembled a chair, and there it was."

"It seems like black magic to me that you can take cold, hard steel, melt it and join it, and make it stick," he said. "The chairs are a three dimensional line drawing, thin and delicate." Risley has been working with steel wire for years. "I like people," he said.

Of the success of his "people" furniture, he said:

"They're the kind of thing that real people, whether they have training and background in art or not, seem to like. When people who don't know and people who do know both like something you do, it's a wonderful thing." (Furniture by Raymor).

## War Declared On Screwworms Discovered In Parmer County

A SUPPLEMENT TO PARMER COUNTY NEWSPAPERS

--A--

THURSDAY, AUGUST 22, 1963

Parmer County is being bombed, although many residents may not be aware of it. Actually, the bombing is with sterile screwworm flies on the Connie O'Brien farm south of Bovina. A total of 300,000 flies are being dropped within eight-day periods. To date, two "bombings" have been made, with one more scheduled this coming weekend. Pictures on this page show Jay Neeper and Ruben Birkelbach, officials of the screwworm eradication program, displaying the tools of their trade. The program has almost sounded the death knell for screwworms in Texas during the past year. But no action is possible until worm samples are submitted and certified as screwworms. Samples from the deeper part of the wound should be submitted for examination in every case of suspected screwworm infestation.

# SCS Tour Sept. 5

The annual Farmer County Soil Conservation District farm tours will be held Thursday, September 5, starting at the Hub Community Center at 1:30 p.m.

This year, there will be just one tour for the county, as opposed to several smaller tours, as has been the case in the past.

"We hope that by centralizing the tours, we can pick up the interest, and eliminate repetition and unnecessary trouble," said Jimmy Smith, Work Unit Conservationist, Friona.

Included on the tour will be a look at tailwater recovery systems, crops fertilized with cotton burrs, green manure and baynard manure, cool season pastures, a farm-sized feedlot, sugar beet plots, Midland Bermuda pasture, Western Wheat grass, and irrigation systems on cropland as well as grass.

Also to be seen are a lake pump system, irrigated pasture, waterways, and a leveling operation in which the field is being converted to irrigated pasture.

At the conclusion of the tour, refreshments will be served at the community center.

TESTING SUGAR CONTENT in Farmer County Cantaloupes is Grant A. Morrison, an employee of the United States Department of Agriculture. Morrison, working at Gateway Produce in Bovina, reports that Farmer melons are well above the standard for number one cantaloupes.

## The Happy Homemaker

By JUNE FLOYD

Appetizers, dips and snacks all seem to have individual party flair and "on the ball" homemakers know the importance of having quick snacks on hand for unexpected guests.

Since most of the ingredients in these pretty snacks come already cooked and prepared, all you need to do is some careful blending and spreading. A careful study of canned meats, dry and frozen soups and cheeses, chips and crackers in your supermarket makes it very easy for you to form combinations that are pretty and tasty.

Printed below you will find some fun-to-fix, fun-to-eat and fun-to-serve foods you and your guests will surely enjoy.

**Tiny Party Puffs**  
1 cup water  
1/2 cup butter or margarine  
1 cup sifted enriched flour  
dash of salt  
4 eggs

Bring water to boil. Add butter or margarine, stirring until melted. Add flour and salt all at once. Stir very well until mixture is smooth and forms a soft ball. Cool mixture slightly.

Add eggs, one at a time, beating well after each addition. After last addition continue beating until mixture is shiny. Drop batter by teaspoonfuls onto lightly greased baking sheet to make 36 small puffs. Bake in 375 degree oven for 50 minutes.

When cool fill with favorite shrimp or salmon salad. Decorate with softened cream cheese in flower design or parsley. Makes 3 dozen Tiny Party Puffs.

**Bologna Rolls**  
Blend 1/2 teaspoon curry powder in one (8 ounce) package softened cream cheese. Stir in two tablespoons finely chopped stuffed olives. Spread mixture on slices of bologna and roll each tightly, securing with toothpick. Cut each rolled slice into 3 portions and skewer each portion with stuffed olive.

**Deviled Bean Spread**  
1 can (4 1/2 ounces) deviled ham  
1 small can baked beans with tomato sauce  
1 tablespoon horseradish  
1/2 cup finely chopped celery  
Combine all ingredients.

draining the beans, if they appear to be very liquid. Mix well, partially mashing beans during mixing. Serve mounded on freshly toasted bread rounds or fingers. May be served hot or cold.

**Garlic Sticks**  
2 cups bite-size shredded wheat, rice or corn biscuits, crushed to 1 cup  
1 teaspoon garlic powder  
1/4 teaspoon salt  
4 tablespoons melted butter or margarine  
1 package prepared biscuits

Heat oven to 450 degrees. Combine crushed wheat, rice or corn biscuits, garlic powder and salt. Add 2 tablespoons butter. Mix thoroughly. Cut each prepared biscuit in half.

Roll between palms of hands into sticks 8 inches long. Brush with remaining butter. Coat with wheat, rice or corn biscuit crumbs. Bake on unbuttered baking sheet 7 minutes or until golden brown. Yields 20 sticks.

**Swiss Ham Snacks**  
2 cups cooked ground ham  
2 tablespoons chopped stuffed olives, sliced  
3 flat hard rolls or hamburger buns

Combine ham with chopped olives and mayonnaise. Split rolls in half crosswise and top each half with slice of cheese. Spoon on generous layer of ham mixture, center with egg slice and then center egg slice with olive slice. Makes six servings.

**Chicken Bits**  
1 Five ounce can boned chicken, chopped  
4 hard-cooked eggs, chopped  
1/4 cup mayonnaise  
1 tablespoon minced onion  
salt and pepper

Lightly mix all ingredients, adding salt and pepper to taste. Chill thoroughly. Make tiny balls of mixture (about 25 to 30 balls, 3/4 inch in diameter), roll in 1 cup finely chopped salted nuts. Stick a party pick in each for serving.

## Cereal Grain May Produce Improvement In Paper

The quality of paper may soon be improved by the use of a cereal grain derivative, according to the U. S. Department of Agriculture.

Research on the production of the derivative will be conducted by the Battelle Memorial Institute of Columbus, Ohio, under a contract to the USDA. The Institute will study the cereal xanthates which are chemical derivatives of starch, flour, or other fractions of corn, wheat and sorghum.

The USDA's Agricultural Research Service has already shown that cereal xanthates can be added to wood pulp to give both wet and dry strength to paper and other pulp products. Earlier this year strong, lightweight insulation board was successfully made from the cereal derivative.

Using the USDA's data as guidelines the Battelle scientists will study the preparation of cereal xanthates and their use in paper. Other studies, each based on previous findings in the contract research, will include designing and testing

**RITWAY JANITOR SERVICE**  
Clovis, N. Mex.  
Carpet shampooing. Free estimate. Cleaning is our only business - not a sideline. Phone 763-6361.

equipment for making cereal xanthates. Sample paper will also be made, a plant will be designed and costs of production of the derivatives estimated, says the Department.

The project is part of the USDA's effort to find new uses for farm products through research. The Department anticipates the use of these cereal products will provide a large new market for grains.

**Disillusioned!**  
The other day we met a man who had reached the depths of disillusionment. He had spent \$200 on a permanent cure for halitosis. Then he found out that no one like him anyway. -The Coast Guard Magazine.

**PESTS COSTLY**  
Rats and birds can eat or spoil large amounts of the feed you put out for your chickens. A rat can eat 25 pounds of feed a year and spoil three times that amount. Fifty sparrows will eat about two pounds of feed a day. These pests can waste as much as 10 percent of your feed which is the biggest single cost item in chicken production.

# Preservatives Can Extend The Life Of A New Home

For an extra \$2 or \$3 a year you can build a home that will outlive the mortgage and require little care, says Bill Smith, forester with the Texas Agricultural Extension Service.

By the use of preservatives, wood can be treated to protect it from insects and decay for 40 years or more while keeping repair and maintenance costs to a minimum, says Smith. A variety of good preservatives are available and all exterior wood-

work and floor sills, beams and joists should be pressure treated to fully protect the structure, he says.

Most of these preserving materials are intended for a specific purpose, Smith explains. For example, penta, with a water repellent additive, is a good preservative for exterior woodwork which will be exposed to heavy moisture. When penta is mixed with a light weight solvent like naphtha the surface can be painted, says the forester.

For sills and joists that will not be painted, creosote or penta can be mixed with oil, explains Smith. For wood that will not be exposed to large amounts of moisture, certain water-borne preservatives can be used to leave the wood clean, odorless, and paintable, he adds. Also, when replacing exterior wood or supporting members he advises using pressure-treated lumber.

The forester points out that

wood can now be treated with a fire retardant, thus giving the home protection against fire as well as decay and insect damage.

Smith recommends using pressure preserved lumber where wood will be exposed to weather or near the ground. He says that most builders and lumberyards can obtain this lumber and the extra cost will be more than offset by the protection for the owner.

## Car Accident Rate Ruled by Distance

What are a driver's chances of having an accident in his lifetime? It depends partly on the distance he drives, according to the National Safety Council.

A person who drives 12,000 miles a year has 1 chance in 3 of having some kind of an accident. There is 1 chance in 4 that damage will be limited to property, 1 in 35 that there will be at least one injury, and 1 in 1,300 for a fatality.

One who travels 8,000 miles a year stands 1 chance in 5 for any accident, 1 chance in 6 for a property damage accident, 1 in 55 for an injury accident, and 1 in 2,000 for a fatal one.

### TIPS ON FOOD NEEDS

During the hot summer days when energy lags, in mid-morning or afternoon, drink a cold glass of milk for a refreshing lift.

Nutritionists remind us that it is difficult to have a balanced diet without including a good deal of milk every day. One reason is because it is rich in calcium and other minerals, high quality protein and vitamins.

Many people are not getting enough milk and dairy foods in their daily diets. With a bit of planning, a milk bar near refrigerator where youngsters can make their own milk shakes can add to the nutritional needs of the family.

### KEEP FOODS SAFE

Much of the "summer sickness," which are in many cases mild cases of food poisoning could be avoided by careful refrigeration.

Soft protein foods spoil quickly in a warm kitchen or place. Custards, cream filled pastries or cakes, stuffed egg, potato salad, left over poultry and fish are especially susceptible to spoilage when left several hours in a warm kitchen or picnic baskets. Best precaution against spoilage of these foods are speedy refrigeration and short-time storage.

Do you know that foods that cause poisoning often show no signs of spoilage? It is not safe to rely on taste, odor or appearance.

### SKIPPING BREAKFAST DOESN'T PAY

That's what some of the members of a recent "weight control class" conducted by the Home Demonstration Agent have discovered. Even if you are trying to lose weight,

You are robbing yourself of potential alertness and efficiency during the late morning hours.

Breakfast supplies one-

KIRBY VACUUM CLEANER Sales and Service—Rebuilt Cleaners and parts for Most Makes. Box 612—909 W. Plains or Phone 762-2121 for Free Showing in Home. Clovis N. Mex.

fourth to one-third of the day's total food requirements. It makes a good contribution of most of the essential food nutrients, such as minerals and vitamins. That eliminates the doughnut and coffee type of breakfast, which are high in calories but low in food nutrients.

Basic foods considered essential in daily diets are: fruits and fruit juices, cereals or eggs and meat or both, bread, butter or margarine and milk.

### CHOOSE "LOADED" CALORIES

All foods contains some calories. But some foods contains so many nutrients, vitamins, minerals and proteins -- that every calorie is virtually "loaded." The calories in meats, eggs, grain or enriched cereals, vegetables, fruits, milk are loaded with important nutrients. That's why they are so important—even in reducing diets -- according to our best authority on foods and nutrition.

When we choose "loaded" calories, it means better health, improved morale and appearance.

If anyone is interested in rating their eating habits, a new Extension leaflet "Are you a Good Eater" is available at the Home Demonstration Agent's Office. It gives some common symptoms of food deficiencies.

## New Field Breeds Plants To Order

Chemurgeneics is a new word for a relatively new field. Simply put, it describes the process of breeding plants for specific industrial uses -- a sort of "you name it, we'll grow it" process.

In chemurgeneics an industry determines the properties it wants in an agricultural raw material; then the geneticist, working with the chemist, attempts to breed those properties in an agricultural crop. Chemurgeneics is research aimed in a positive direction toward crops that will have an immediate demand.

Recently the USDA and corn refining companies participated in a chemurgeneic effort to increase the amylose content of corn. Pure amylopectin starch has important applications as a thickening agent, in the manufacture of adhesives and in textile printing and finishing. Potential uses for amylose also include permanent textile finishes, plastics, film making and paper pulp fiber bonding. Today a 50 to 60 per cent amylose crop called amyloamylase is being produced commercially on a contract basis.

Changing the starch composition is not the only chemurgeneic interest in the corn kernel. Since corn is the most widely used agricultural raw material

# Grass, Trees And Flowers Are Field Day Attraction

The fifteen lawn grass plots and the thirty-five trees and shrubs plus the flowers around the buildings at the High Plains Research Foundation have attracted many visitors during the year. A new feature for the Seventh Annual Field Day on Friday, September 13, will be an opportunity to view the grasses, shrubbery and flowers before or after the farm field tours, which will begin at 1:30 p.m.

Added to this new walking tour will be a display of the latest in lawn and tree maintenance equipment by local dealers. Hosts will be available to explain the grasses and equipment. "Signs, prepared by the 4-H Club of Halfway, will identify the trees and shrubs for those who are interested," Dr. E.H. Collister, Director of the Foundation, said in announcing this new feature. "Garden Clubs and lawn enthusiasts will enjoy this part of the afternoon program."

The farm machinery exhibit will be located around the Halfway Community Building, west of the Baptist Church at Halfway, and south of the Community Building and the Church. The latest in farm equipment for all kinds of farm operations will be on display with personnel representing the various companies on hand to explain their use, operation and value. The flame cultivation equipment will be included since the two field days have been combined for 1963.

The average attendance for

the last six years at the High Plains Research Foundation Field Day has been around 2,500. With the increase of 26 research projects this year, this average is expected to be exceeded. Tractor manufacturers and farmers have supplied the Foundation some 26 trailers each year, which with the four at the Foundation make 30 available for the guests on the farm tour.

The farm tour leaves the headquarters building and ends at the farm machinery display. Implement dealers in the area

supply new tractors to transport the trailers around the 310 acre farm. Seven stops will be made on the tour. Members of the Young Farmers Chapters throughout the High Plains drive the tractors and assist as guides. County Agents, S.C.S. personnel and industry representatives also assist as guides and assist the Foundation staff with talks at the stops.

The Field Day originally scheduled for September 10 has been rescheduled for Friday September 13.

## Farmers-Ranchers Told Of Deadline

Farmers and ranchmen are reminded that claims for the Federal Gas Tax refund must be submitted before September 30, says C.H. Bates, farm management specialist, Texas Agricultural Extension Service.

This refund is on the four cents per gallon excise tax paid on gasoline and diesel fuel used by operators on their farms during the period July 1, 1962 to June 30, 1963, says Bates. He explains that this refund has no connection with the claim for refunds sent to the State Comptroller's office. The gasoline used on an operator's farm by custom contractors is also eligible for the refund, points out Bates, but fuel used in highway travel is not.

The special postcard form, 2240, is the proper one to use to submit fuel claims, says Bates, and they have been mailed to operators who reported in 1962. New farmers and those who have not received the Form 2240, may obtain them from the office of the county extension agent or the area offices of Internal Revenue Service, he says.

Bates reminds that claims are subject to audit, just as other reports submitted to the Internal Revenue Service, and records should be kept to support refund claims. The spec-

alist emphasizes that the deadline for reporting claims is September 30.

## OFFICIAL FORD CLEARANCE

## FOOTSAVING EDUCATION

by James E. Edwards

Foot Care For Children Soon mothers everywhere will be shopping for back to school clothes for their youngsters. First on every list should be shoes. Many mothers lack sound information about foot health, thus are handicapped when they buy footwear for their children. A lack of this knowledge can be disastrous. Seven out of ten children have trouble with their feet before they reach high school. Medical statistics show that nine out of ten babies are born with perfect feet.

I suggest that you file the next few issues of this article which will contain a number of sensible rules for you to consider and practice when buying your children's shoes.

## Do 10 hours' work in 8 with the Case-o-matic, 830!

Here's where power pays off by the clock — and by the acre.

Few tractors can equal a Case 830's work capacity... even in regular drive. Its big-bore, long-stroke engine digs down for extra lugging ability that adds *mule*-power to rated horsepower. In average soils it whips 5 or 6 bottoms along at a time-saving clip.

When you hit a tough spot, flip it into Case-o-matic Drive... *on-the-go*. Instantly — automatically — the torque converter adds up to 100% MORE pull-power. No clutching, shifting or stalling. And the extra power is metered out without waste — without damaging strain.

The Case-o-matic 830's reserve pull-power lets you work in a higher gear... add an extra bottom... pull wider or heavier implements. You owe it to yourself to try one.

We're ready to Demonstrate!

# Bulletin Discusses Hog Production

At what weight should I sell my hogs? This question is one that confronts every producer at one time or another.

The answer varies according to conditions but a few things are basic in the decision, explains L-604, a new publication of the Texas Agricultural Extension Service.

You will need to know the amount of feed required to feed the hogs longer, the cost of this feed, the length of time that will be needed to put on the addi-

tional weight wanted, and an idea of the price you will get at selling time. The conclusion that must finally be drawn from considering these facts is whether the additional cost required to feed to a higher weight is more or less than the additional income.

It has been proven in research at Texas A&M College that as a hog gets heavier, more feed is required to put additional gain on them, says the publication. Feed accounts

for about 80 per cent of the cost of producing heavier weight hogs and therefore for each dollar invested in feed the hog must return \$1.25 just to break even on the operation.

Estimating the price you will get when you sell the hogs is perhaps the hardest part of the decision. You need to carefully study reliable price outlook data for the period when you will market the animals and also know the price paid today for your grade and weight hogs.

The publication gives several tables which will help the producer determine if he can profitably feed hogs longer or if he should market them as they are. For a copy of L-604, "For Higher Hog Profit -- Feed to Heavier Weights -- or Sell Now?", see your county agricultural agent or write the Agricultural Information Office, College Station, Texas.

The correct handling of hogs on the way to market during hot weather can mean less shrink and death loss in transit. Husbandmen suggest that producers sort animals before loading, load the truck with wet sand, load the truck a little lighter, check the vehicle moving, and keep the hogs frequently.

Upon invitation of Secretary of Agriculture Orville Freeman, a number of cattlemen met with USDA officials in Washington recently to discuss H.R. 7154, which would extend the conservation reserve program (soil bank). One provision of the bill would permit livestock grazing on the soil bank land taken out of crop production.

## Cattlemen Discuss Soil Bank With USDA Officials

The Texas and Southwestern Cattle Raisers Association was represented at the conference by president Leo Welder of Victoria; first vice-president Fred Wulff of Brady; second vice-president Ben Carpenter of Dallas; Dolph Briscoe, Jr., of Uvalde, immediate past president; Cameron Duncan of San Antonio, chairman of the feeder-cattle committee; and Joe S. Fletcher of Fort Worth, secretary-general manager. A number of other cattlemen's associations were also represented, including The American National Cattlemen's Association.

President Welder and other members of the TSCRA group told USDA officials that grazing is permitted on soil bank acres many farmers would go into cattle production in competition to those already engaged in this business, and this competition would work a hardship on these established producers.

This would add to the cattle numbers which, cattlemen feel, are already too high. The cattlemen told USDA officials that they are not opposed to the objectives of a cropland retirement program -- they do object to the provision which would subsidize livestock expansion via payments on grazing lands.

Congressman Ralph F. Beerman of Nebraska, a member of the House Agricultural Committee, in commenting on the bill said the USDA proposal, which would allow grazing on land in soil bank, would in effect be asking livestock producers to finance their own competition.

Leo Welder, TSCRA president, reiterated the historical stand his association has taken in that it wants no subsidies or government control of the beef-cattle industry. That industry has stood on its own feet and has produced a sufficient quantity of beef for this nation without government subsidies and will continue to do so. He urges all beef cattlemen to study H. R. 7154 and the effect its passage would have on the cattle industry, and make their opinions known to their congressmen.

## On The Farm In Parmer County

By DERYL COKER  
County Agent

The Sorghum Midge is a very dangerous insect, and you had better watch your sorghum crop real close until you are out of danger.

The Sorghum Midge cannot damage grain sorghum after it finishes blooming.

Each year we have some farmers that put a desiccant on grain sorghum to dry it out, but let me remind you that there is no desiccant approved or cleared for use on grain sorghum.

If you apply any pesticide that is not cleared, and the Food & Drug Administration finds it out, you cannot market the crop unless it can be cleared.

In other words don't use any chemical unless you know it is safe.

Prussic acid results from the hydrolysis of a glucoside which is normally present in actively growing plants of the sorghum family. The splitting of the glucoside into prussic acid only occurs in dangerous amounts when the plant's growth is interrupted by inadequate moisture or frosting. There are several factors that influence the production of prussic acid in the plants. The following factors should be considered in controlling losses from this poison:

1. The type of plant to be grazed--All members of the Sorghum family, including Johnson grass, sudan, milo, forage sorghums, and all the hybrids of this group of plants are potentially hazardous under certain circumstances. Young plants, or second growth suckers, are more likely to cause trouble than older plants near-

ing maturity.

2. The fertility and tilth of the soil--The more luxuriant the plants are growing, the higher the level of the precursor glucoside they will contain, and the more likely they are to be dangerous if their growth is interrupted.

3. Weather Conditions--Interruption of growth by moisture stress may be due to depleted soil moisture, or due to the plant losing moisture through evaporation faster than it can transport from roots to leaves. This situation frequently occurs when the temperature and wind velocity are high and relative humidity of the air is low.

When there is a shortage of available soil moisture, plants may remain toxic for extended periods. However, when moisture stress is caused by excessive moisture loss, plants may be toxic only during the period that they are wilted.

4. Grazing management--Hungry animals turned into a sorghum field in the hot part of the day might fill up rapidly on wilted forage and be poisoned, but if turned in early in the morning while the plants were normal would likely fill up and lay down before wilting reached a dangerous point.

Regardless of the time of day, animals should be watched closely for an hour or two when turned in on pasture of this type. Should any animal become restless and breath fast, all animals should be removed immediately. Death or recovery from prussic acid poisoning can occur within a few minutes.

## NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

The administration "non-chalant" attitude being publicly displayed that wheat farmers voted against all farm programs in defeating the completely unacceptable referendum offered is not helping
