ISTEN TO LUKE

Last week we took off Wednesday and went to Denver, Colorado, to spend Christmas with our daughter and family. We renumed home Monday, but left "Mama Zee" for a longer visit. In our haste and anxiety to get off on the trip, we accidentally left out a Christmas greeting by Spears-Duncan Drug Co. They had ordered a space valued at \$5.00 to express their wishes for a "Merry Christmas" to all of their friends and customers. Certainly we regret the omis-

we that such a thing does not uppen again.

Not that we aren't glad to do so, but do you know of anyone else who apologizes for their mistakes publicly? Or does anyone else make them?

While we were on our trip, we saw and did several things that might be interesting to read about:

It was the first time that we have been off for five days running since 1947;

It was the first airplane ride since 1945, and this would not have occurred had it not been for the icy conditions and resulting hazards and added hazards of holiday traffic;

We saw nothing of the terrain of northern New Mexico and all of Colorado due to a heavy overcast;

We saw more snow and ice than we had seen since landing in Newfoundland; We had a "White Christmas"; "We saw our daughter and her husband and their five children; We saw the gold dome of the capitol building of Colorado; We saw the most beautiful lighting display we had ever seen - on the city hall in Denver;

Golden Eagles May Be Taken In 32 Counties

Secretary of the Interior Stewart L. Udall has authorized the taking of golden eagles without a permit to seasonally protect the domestic livestock during the period from December 15 to June 15, 1966, in 32 West Texas counties. Terrell County is included in the counties named.

Permission to take the golden eagles is granted only where absolutely necessary to protect the livestock, and the permission is given only to owners of livestock, and their agents. Golden e agles may be taken by any suitable means except by the use of poisons or aircraft. Golden eagles or any parts thereof taken pursuant to the authorization may not be possessed, sold, or traded, or offered for sale or barter.

The area which allows the taking of the golden eagle applies to the greater part of the Texas sheep and goat industry and is also used by wintering golden eagles. The length of the period during which taking without permits is allowed covers the lambing and kidding seasons in these West Texas counties.

Toys For Tots Termed Success

Although not quite as many toys were made available this year as last for the Toys for Tots project sponsored by the local Kiwanis Club, a large number of toys were readied by the local club members and delivered under the direction of Dalton Hogg, chairman, on the day before Christmas. The club members are expressing their thanks and appreciation for everyone who contributed toys to be mended, painted, and made serviceable. Special thanks were expressed to the girls of the Future Homemakers of America who made doll clothes and to the Brownie Scout Troop at the Gas Plant who sent in a large assortment of toys.

We saw three floors of items in the Colorado Museum of Natwal History;

We saw a spot in the overcast under which was the place that Cadet Jack Bogusch goes to the Air Force Academy;

And similarly we saw the Royal Gorge and Pike's Peak; We saw the Greene Cookes' Son, Bob;

We talked with a cousin we had not seen since about 1940; We saw an airplane take off that we were supposed to have been on;

We saw another one do the same thing;

We saw Dallas enroute home when we didn't really want to; And probably many other interesting things we cannot think of right now!

While we were in Denver, the news came that the Christmas peace truce had been violated by the Viet Cong.

This led me to do some think-

How many of us are guilty of the same thing!

We hold our peace during the holidays and can hardly wait until it's over so that we can retum to our former ways.

than 1964.

The National Association of Manufacturers' report on economic prospects for next year states that "comparable growth is attainable in 1966, which would raise the gross national product for the year to close to \$715 billion."

The NAM statement cautions that these are not unconditional forecasts. "Non-inflationary economic growth is not a gift of the gods, simply to be accepted and enjoyed. It is to be won or lost, depending on the degree of wisdom presented by the national policies we pursue."

The NAM report points out that we have emerged from an "under utilized" economy to a "fully utilized" economy.

Our national policies must be oriented to assure the accumulation of capital and know-how necessary to make added manpower more productive at a steadily accelerated pace, the report asserted. To insure non-inflationary eonomic growth for 1966 and beyond we should:

- Make sure that the federal government refrains from attempts to replace the marketplace as the instrument for controlling prices and wages.
- Remove some of the special privileges and exemptions which by law have been conferred on labor unions.
- Use future opportunities or tax reduction in ways which free funds for additional saving rather than for additional consumption.
- Allow interest rates to find their own level, given a national policy which permits the supply of money and credit to grow only in proportion to the growth in the economy.

While roast turkey has become a holiday tradition, so has the problem of what to do with the leftovers. But here's a tasty suggestion from Austin Nichols home economists that your family will be sure to "gobble up": the sandwich loaf, a perfect hot dish for those cold winter days when the family comes home hungry.

GOURMET SANDWICH LOAF

4 hardcooked eggs 1 cup finely chopped cooked

turkey ¼ cup chopped sweet pickles

or pickle relish 1 can (10 to 12 oz.) cream of

mushroom soup Salt and pepper

12 slices bread 2 Tbsp. soft butter or

margarine ¼ cup milk

Chop 2 of the eggs. Combine with turkey, pickles and half of the soup. Season to taste with salt and pepper. Trim crusts from bread and cut slices in half to make 24

pieces. Place 6 pieces of bread

Mrs. A. A. Shelton underwent gall bladder surgery in a San Angelo hospital Monday and is reported to be in satisfactory condition. Mr. and Mrs. J. L. Schwalbe went to San Angelo Monday to be with Mr. Shelton. or heat-proof serving platter. Spread with turkey mixture. Top with layer of bread. Repeat until there are 3 layers of turkey and 4 layers of bread. Brush top with softened butter. Bake in moderate oven (375° F.) until lightly browned, 15 minutes. Blend milk with remaining soup. Heat to boiling. Add remaining chopped eggs. Serves over 6 sandwiches.

The kids will love these sandwiches, especially when washed down with a steaming cup of hot chocolate. And adult guests will also appreciate another kind of "Turkey," which is rapidly becoming a holiday tradition in many American homes. Wild Turkey Bourbon in glasses often appears beside domestic turkey on a platter during the holiday season.

With this recipe for Gourmet Sandwich Loaf, and an ample supply of both Wild and domestic turkey, you can expect friends to "flock" to your door for a friendly gobble-fest at every holiday season.

are able to pick up where we left off.

When and if the spirit that directs during the Advent season guides all men all the time, then, and then only, will there be peace on earth among men of good will.

We have read with great interest the fact that so many organizations over the country are going all-out to see how much federal aid they can for as many things as they can,

It is the attitude of some that if we don't get it someone else will, and that sort of selfishness makes our government bigger and bigger, and bigger.

Our county and schools have gone all the way in refusing aid in the form of such legherous actions, and we are glad for it.

Only recently, school trustees turned down a "gimme" program for the library, so we were told, because they could see their way clear to do the same thing win owr own money, and it would done at a cheaper price and great a benefit.

Peace on earth? when we are fighting to see who can get th most from our federal goven ment?

"Ask not what your countr can do for you, but what yo can do for your country."

Effective January 1, 1966, the Federal Excise Tax on telephone service will be reduced from 10 to 3 per cent. Following the initial drop, the tax will be lowered 1 per cent each year until it is eliminated in 1969.

Telephone users will receive the full cash benefit from this tax reduction. The tax, which is levied directly on those who use telephone service, has been included on monthly telephone bills, and each month your tax payment has been sent on to the federal government. In effect, the telephone company has been a collection agency.

When the excise tax is eliminated in 1969, telephone users in Texas will save more than \$50 million annually. This will mean more than \$4 million a month added to Texans' spendable income.
