School Board **Plans Fence At** Football Field

At the regular meeting of the Board of Trustees of the Terrell County Independent School District on Monday night, the group voted to build a fence around the playing field at the football field. This is to keep any spectators and unauthorized personnel off of the field during and after the game. Supt. Ken McAllister pointed out that this was not a requirement of the University Interscholastic League, but was a recommendation and that probably would be a requirement in the near future.

The board also accepted the resignation of Mrs. W. H. Grigsby.

Carlos Dunn asked to be relieved of the duties as secretary of the board and E. E. Harkins was elected to that post.

Supt. McAllister reported that there were over 200 students in the various activities of the summer program.

Lellee Mitchell Named To State Youth Conference

Miss Lellee Mitchell and Miss Kay Kyle of Ozona have been named delegates to the 4th annual Texas Youth Conference in Austin August 18-21 on the campus of the University of Texas.

The conference will attract more than 1,200 outstanding youth leaders from throughout Texas to study projects for the prevention of juvenile delinquency in Texas communities.

Mrs. John R. Whistler

... dies in Evant last Wednesday

Bertha Irene Hutchison Whistler died at 7:30 a.m. at January Rest Home in Evant Wednesday, June 15. She had been in ill health for several years and death was said to be due to heart failure.

She was born in Kinney County November 3, 1890, to William S and Lily Hutchison. On October 17, 1906, she was married to John Ross Whistler who preceded her in death in January 1961. They celebrated their golden wedding anniversary in Sanderson in 1956.

Clouds Tease All Of Area

Clouds continue to tease all of this area and little or no moisture has been reported during the last several days.

During every night of the past week thunder and lightning came during the night, some nights had heavy accompanying winds.

The cool winds indicated that some hail had fallen in the area but no damage has been reported from any hail.

Most of the moisture during the past several days has fallen to the north of Sanderson in the Big Canyon and Independence watersheds.

Ranges are reported to be in good condition over the county and the Johnsongrass in the bar ditches indicates that there has been some run-off from recent rains. Estimates now are that the lambs of this fall will average out about 70 pounds or better.

Seal Coating On RM 2400 For 20 Miles

Work is almost completed on 20 miles of seal coating on RM 2400, connecting US 285 north of Sanderson with Texas 1217 which runs between Dryden and Sheffield.

The seal coating is for 20 miles north and east of US 285.

ly ready for take-off following a stay in Sanderson for repairs after landing here in 1911. The plane landed east of the courthouse after the place was marked by stretching out a sheet on the ground near the F. G. Grigsby house, according to the story. At the time of the first attempted take-off, it is said, a small boy ran across the path of the airplane and it veered to miss the boy and caused some additional damage and delay. In the picture published last week, a blow-torch could be seen on the ground and one of the men apparently working on something. In the picture above, the pilot can be seen putting on a jacket and just to the left of the pilot a person is pointing ahead. The plane is heading a little east of north and the house is thought to be where the Grigsby home now is. Picture was loaned to us by Mrs. W. J. Ferguson, Jr.

Independence

all, Life, Liberty

and the Pursuit

of Happiness

... but pursue it with care and restraint.

INDEPENDENCE DAY 1966

One hundred and ninety years ago, the Liberty bell rang out to proclaim the Declaration of Independence to the American colonists, marking an entirely new concept in the development of human progress.

The immortal words of Thomas Jefferson asserted that "all men are created equal" and "that they are endowed by their Creator with certain inalienable rights . . . life, liberty and the pursuit of happiness."

Just what does Independence Day mean to us today? Is it just another day off . . . a long weekend ... a parade or fireworks display?

The celebrating of Independence Day can be more deadly than the war it commemorates. For example, from 1900 to 1930 more Americans were killed (4,290) and more maimed (96,000) by fireworks than were killed in the eight-year Revolutionary War in which we lost 4,044 killed and 6,188 seriously wounded.

Miss Margaret Lynn (Lindy) Creigh, daughter of the late Mr. and Mrs. A. E. Creigh Jr., of Alpine, and Robert William Beale, son of Mrs. James Beale of Hawley, Texas, were united in marriage in the First Presbyterian Church in Alpine on Tuesday, June 14.

Mr. and Mrs. Creigh were former residents of Sanderson.

Officiating at the double ring ceremony was C.W. Newbill, pastor. Wedding vows were pledged before an exquisite setting of cathedral candelabra entwined with ivy and holding white candles. The chancel rails were draped with ivy and white chrysanthemums and on either side were large baskets of white gladioli and white carnations.

The altar held an arrangement of white gladioli and white carnations and directly behind the altar was an arch of white candles. Pews were marked with white gladioli and white candles. A prelude of nuptial music was played on the organ by Mrs. Howard Hardegree. The lovely brown - haired bride, given in marriage by close family friend, Dr. John W. Pate, wore a wedding gownof white Alencon lace fashioned in an Empire A-line style with portrait neckline and cap sleeves. A self bow accented the Empire bodice and the detachable lace Watteau train fell to chapel length from the shoulders. The full fingertip veil of silk illusion was caught by a sheer white organza bow embellished with seed pearls. She carried a bouquet of George A nn white orchids with garlands of stephanotis tied with velvet en shower.

Maid of honor was Miss Judith

famous Horn Said invented By former Resident

A 1930 Prosser Martin catalogue has a half-page which is pictured at right, showing the addle horn introduced by Grover King, a former resident of Terrell County. Prosser Martin is a Del Rio firm that handles saddles and other equipment and regalia for cowboys.

King, who now lives in Arizona, recently visited in Sanderson with friends and left his copy of the old catalogue with The Times for our information.

He was reared in Terrell County and tells many interesting tales about "way back when". King and Ed Downie promoted the first rodeos in Sanderson, usually on July 4, and featured horse races, along with the "other amusements that go with a rodeo".

The saddle horn pictured at right is a common sight on saddles today.

Jay Kerr is the Texas State high school cutting horse champion, earning the title at the annual high school rodeo at Hallettsville last week.

Jay, son of Mr. and Mrs. Joe Kerr of Del Rio, clinched his title Saturday. Approximately 20 boys competed in the cutting horse division of the rodeo.

His prizes included a saddle, a belt buckle and a hat.

Jay's championship makes him eligible to compete at the nation-Boys Ranch Drive On Oklahoma, in August.

He rides Hat Band in the competitions. Jay has been riding since he was big enough to sit a horse; he's been in cutting competition for about three years.

Stout Tells Of **Duty on Hiltop** In Viet Nam

Pfc Johnny Stout, based with the 586th Signal Company, has sent home a newspaper article from Viet Nam entitled "Happiness Is Duty on Hilltop. " It describes the job of a staff sergeant who is perched on a tiny hilltop 1,500 feet above the huge 1st Cavalry Division's Camp Radliff with the only way down being by helicopter.

The staff sergeant is Herbert Condon of New Bedford, Minn. and is the non-com in charge of communications specialists, radar operators, searchlight crewmen, artillery observers, and maintenance men who make the Hon Cong Mountain their home.

Pic Stout says that the hill is right beside his company, which supports the division's 13th Signal Bn. which is in charge of the outpost.

The hard-working tenants of Hon Cong Mountain have taken advantage of their lack of recreation facilities to improve their living conditions and have built a mess hall which doubles as a chapel and utilized slabs of rock with cement to made solid floors. Bamboo matting brightens up the walls of the buildings.

Stout is the son of "Kid" Stout of Sanderson and Mrs. Irene Roberts of Fort Stockton.

life Department has begun pre-impoundment studies of the \$80,000,000 Rio Grande River basin to be flooded when the giant Amistad Dam is completed.

The huge lake is expected to become one of the best fresh-water fishing spots in the southwest, if not any where.

The Department has begun a Federal-aid project to make certain that maximum utilization is made of the 82-mile long lake, covering about 87,-400 acres of land in both Mexico and the United States. Now, research is underway to explore the advisability of selective fish kills in Devils Lake and Lake Walk. Both will be absorbed by the immense impoundment.

B. OF R. T. AUXILIARY MEETS LAST MONDAY

Mrs. R. R. McDonald, vicepresident, presided at the meeting of the Auxiliary to the Brotherhood of Railroad Trainmen st Monday afternoon in the Masonic Hall. After adjournment the group went to Harvey's Restaurant for pie and coffee. C. Harris, F. G. Grigsby, Jack Laughlin, H. E. Ezelle, and Mc-Donald.

Such a proposal, according to the Department, is to treat the two lakes sufficiently heavy enough to reduce the undesirable fish and restock with black bass. This ap proach would be designed to provide an explosive bass population for the big lake once the water reached the two lakes.

The water levels in the lake and the general aquatic environment will provide habitat for varied game fish, according to the Department.

The dam will be seven miles long, The top will be 253 feet above the stream bed. The water will be 218 feet deep at the dam

The lake will be backed up 17 miles on the Pecos river and 26 miles up the Devils river.

to obtain co-chairmen for the El Paso, Lubbock, and Midland-Odessa areas also." The goal is based on architectural estimates for a new building to house a gymnasium and maintenance shops plus a stage, athletic equipment storage space, and Student Council store. The proposed building, of fireproof steel and concrete construction, will be built on the site of the recently burned rec hall.

Vander Stucken said, "We are pleased that Mr. Neil has accepted this responsibility for the Ranch, and we are confident that with his enthusiasm and demonstrated leadership, he will do a wonderful job ofr the boys."

"Most of the donations received since the fire have already been used to replace the new dorm furniture, athletic equipment, and hand tools lost in the fire. Hand and power tools for the maintenance shop are also included in the building fund goal of \$58,750," Mr. Vander Stucken continued. "It has been very gratifying to me the way San Angelo and outlying counties have gotten behind the Ranch in their time of need and I am confident that with their continued support and that of the 60 counties served by the Ranch we will be ready to build by September 1st," he concluded.

The Recreation hall and shop building burned to the ground the night of May 19th destroying all of the boys athletic equipment, the new dorm furniture, linen supplies and all the hand and power maintenance tools of the Ranch.

John O. Bell is visiting here with his aunt, Mrs. H. B. Louwien, and family. He is the son of Mr. and Mrs. John O. Bell of Eagle Pass.

Roy Bean's Court

State to Improve Site

The Texas Highway Commission has authorized improvements at the site of the Judge Roy Bean Museum at Langtry, Val Verde County, on U. S. 90.

The site includes the legendary "Jersey Lily," where the colorful Judge Bean presided as the "Law West of the Pecos." In addition to site improvements, a modern Visitor Center building will be constructed.

When the legendary Judge Bean presided over his court in Langtry in the '80s, it was as an official of Pecos County, for at that time Pecos County included the area, and Bean's early justice court reports are recorded in the office of the County clerk of Pecos County in Fort Stockton.

Groun is of the museum will be landscaped with many species of flora native to the Trans-Pecos area. Cost of the improvements is \$125 thousand.

The Texas Legislature charged the Highway Department with the job of preserving the site in 1939. Annually, thousands of tourists visit the museum, located a

short distance off U.S. Highway 90.

The Commission noted, however, that "the full potential of this internationallyknown tourist attraction has never been fully realized."

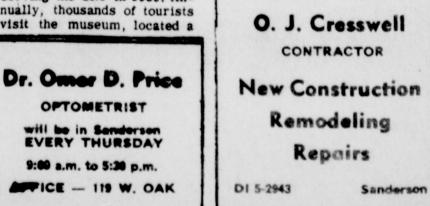

The action is in keeping with the Highway Department's efforts to stimulate travel to and within the state by providing descriptive literature and facilities for the information, safety and convenience of travelers.

Recently, we were talking to one of our county commissioners and he told us that there were no plans in sight to raise the taxes for the next year. This news was on the eve of the equalization board meetings last week.

During the course of the conversation, it was pointed out that that so much work was done by volunteer labor and with donated equipment and donated supplies to operate this equipment at the time of our flood June 11 of last year.

This fact helps us to be thankful again and again for all those who did so much to help us after the flood and didn't even mention a charge for their efforts and wouldn't talk to anyone about a

price for their time and equipment.

The work had to be done and it had to be done then, with the worrying about the price later!

There will never be, and there can never be a full accounting for all who did anything to help. But since their help is realized by us again at this time in helping us get by without a tax raise, we again say: "Thanks, so much, to each of you."

The property tax payers will this was due in part to the fact also notice that there is no increase in the school taxes this year. This, in spite of the fact that the average daily attendance was low and eliminates the state paying for one of the teachers that is now on the faculty at no cost to the local funds.

This lack of a tax raise will eliminate no services or facilities for the students that we available during the last tem, according to the superintendent, because of a back-log of funds from last year and a savings or trimming in this year's budget.

This conservative action of the county commissioners and the school administration is labeled foolish and unwise, or stingy and frugal, by others, but we agree with their actions and their consideration of the facts at hand and hope they will continue to stay within the bounds of reason in the handling of the tax money of the county residents.
