LISTEN TO LUKE

By Albert ---
 Last Saturday morning, so we were told right after it happened, there was a group of young people from Sanderson, along with adults, who presented a memorial fund of over \$200 to the West Texas Boys Ranch. The memorial was in memory of Walter Shoemaker and Jack Whistler, victims of an airplane crash three weeks ago. The money has been solicited by the young people during the time since the accident.
 A San Angelo Standard-Times photographer was invited to be here for the presentation and to take pictures to give publicity to the group for their efforts and results. We would have been happy to have done the same thing if someone had told us it was going to happen.

We went to the meeting of the Friends of the Library last week and heard the reports of the officers and heads of the various committees and it is a revelation to know the use that is being made of the public library.

There is a need, so they say, for more hours of availability of the books, but along with that is the need for more volunteer workers.

Those who are helping to keep the library open and keep the books catalogued, cross-filed, and kept up with, have a job on their hands as it is.

There are many who have not taken opportunity to go up and see what is going on on the second floor of the courthouse, and you are missing something.

We goofed last week and put the well that is being drilled on the Karl Kothmann ranch when it should have been on the W. E. Hodge ranch.

This week begins the first of four consecutive weeks of publication of 14 proposed constitutional amendments. Also there will be explanations, pros and cons published to help - we hope - the voter to make up his mind how to vote on the proposed amendments.

We were told last week that a lot of good things were being thrown away in the local dump ground that could be put to use by someone easily.

Besides the local rummage sales that go on almost continually by the American Legion Auxiliary, there are families and individuals here who could use many of the items that are being thrown away.

Mention also was made of the help that is going to Porvenir, on the Rio Grande, by the local Baptist Missionary, Rev. Raymond Sanders, et al.

Since all of the causes of the Legion Auxiliary are helping a local project, and local families and individuals are in some instances in need, and the families or individuals helped in Porvenir surely must be in need, there are plenty of outlets for useable items that should make it difficult for a person to throw them away.

Mrs. Charlie Rogers, Former Resident, Dies Last Saturday

Graveside services preceded the interment of Mrs. Charlie Rogers here in Cedar Grove Cemetery Tuesday.

She died in a Fort Stockton hospital about 7:30 p. m. Saturday following a heart attack. She had been in ill health for the past several years.

Funeral services were in the Church of Christ in Fort Stockton Tuesday afternoon at 2:00 o'clock and the body brought to Sanderson by the Owens Funeral Home of that city.

Mrs. Rogers, the former Effie Fletcher, daughter of the late Mr. and Mrs. J. H. Fletcher, was born in Rockwood, in Coleman County in 1901. She married Mr. Rogers in Sanderson January 30, 1920, and resided here for 37 years before moving to Fort Stockton in 1957.

Besides her husband, she is survived by two sons, Harvey Rogers of Sanderson and Charles Rogers of Corpus Christi; two brothers, H. E. Fletcher, and L. H. Fletcher of Sanderson; four sisters, Mrs. Cecile Bell of Marfa, Mrs. Dave Medley of Fort Davis, Mrs. Ora Lee McDonnell of Kerrville, and Mrs. Raymond Thomas of Houston.

LOCAL LADIES INITIATED INTO SUL ROSS SORORITIES

Mrs. Ike Billings and Mrs. J. A. Mansfield were initiated into Zeta Delta Chapter of Kappa Delta Pi at Sul Ross College recently.

Zeta Delta is a National Honor Society in education at Sul Ross and is limited to students in the upper quintile who are voted to membership by the local chapter.

Poison Plants Thrive In Yards

Parents should be concerned with the profusion of plants and shrubs in gardens and yards, some of which are poisonous, injuring some 12,000 children a year.

Some of the plants that contain poison include: oleander, the leaves and stems of which can kill a child; poinsettia is full of an acid so lethal that it can kill a child who consumed one leaf; mistletoe berries also can be deadly.

Peach tree leaves contain one of the most dangerous poisons known. Potato and tomato plants have foliage that contain poison that can cause severe digestive upset and nervous disorder if eaten.

Castor bean seeds are especially dangerous because the poison attacks the blood.

Mountain laurel has a bean with a hard coat which, if swallowed whole, may have no ill effects, but if chewed or crushed it can be lethal.

The letter at the right shows the list of members of the Terrell County Chamber of Commerce and the committee heads at the time of the organization of the Chamber in 1921. It is interesting also to notice the stationery that is used for the letter, the body of which has been re-arranged to fit in the space properly by this editor. The paper is from the files of the late Joe Kerr and was loaned by his son, Edward Kerr.

In addition to the powers given the Legislature under Section 48, Article III, it shall have the right to levy taxes to establish a fund to provide retirement, disability and death benefits for persons employed in the public schools, colleges and universities supported wholly or partly by the state; provided that the amount contributed by the state to such fund each year shall be equal to the aggregate amount required by law to be paid into the fund by such employees, and shall not exceed at any time six per centum (6%) of the compensation paid each such person by the state and/or school districts; and provided that no person shall be eligible for retirement who has not rendered ten (10) years of creditable service in such employment, and in no case shall any person retire before either attaining the age fifty-five (55) or completing thirty (30) years of creditable service, but shall be entitled to refund of moneys paid into the fund.

LD Phone Rates Interstate Lower If Over 506 Miles

AT&T has announced, effective August 1, a reduction in long distance rates for interstate calls covering distances of more than 506 miles.

The latest reductions will lower rates for station-to-station daytime calls, placed between 7 a. m. and 5 p. m. on Monday through Friday, from 5¢ to 10¢ for the first three minutes.

Bill Gilliland, manager for Southwestern Bell Telephone Co. stated that while the consumer index had risen 77% since World War II the price of long distance telephoning had decreased almost 50% since 1945.

Under the new rates, a three-minute call from New York to Los Angeles on daytime station-to-station rates will be \$1.70, Gilliland pointed out.

"Already," he noted, "customers can call interstate station-to-station anywhere in the U. S. between 7 p. m. and 7 a. m. weeknights and all day on the weekends for \$1 or less."

CARD OF THANKS

My sincerest appreciation to the Band Boosters for your strong support of the Sanderson band program. Your efforts are well-rewarded and the results evident in the program of the children you sponsor. Keep up the good work.

Sincerely,
Kirke McKenzie.

This proposed amendment to Subsection (a) of Section 62, Article XVI, relates to the Employees Retirement System of Texas and the State Retirement, Disability and Death Compensation Fund. It establishes the Employees Retirement System of Texas, hitherto a statutory agency, as a constitutional state agency. The general administration and responsibility for operation of the System are vested in a State Board of Trustees of the Employees Retirement System of Texas, to be constituted and to serve as now or hereafter provided by the legislature. It also grants the legislature authority to raise the percent of state matching fund compensation contributions to the State Retirement, Disability and Death Compensation Fund for officers and employees of the state from the present maximum of 5 percent up to a maximum of 6 percent. Other provisions of the proposed amendment establish guidelines for investments of the fund by the Board of Trustees.

With respect to this investment authority, the proposed amendment makes it possible for the Board of Trustees to buy securities other than federal and other government bonds. However, certain safeguards for the fund are provided, including:

(1) No more than 1 percent of the book value of the total assets of the Employees Retirement System shall be invested in the stock of any one corporation, nor shall more than 5 percent of the voting stock of any one corporation be owned.

(2) Stocks eligible for purchase shall be restricted to stocks of companies incorporated within the United States which have paid cash dividends for 10 consecutive years or longer immediately prior to the date of purchase and which, except for bank and insurance stocks, are listed upon an exchange registered with the Securities and Exchange Commission or its successors.

(3) No less than 25 percent of the book value of investments of the fund shall, at any one time, be invested in government and municipal securities.

(4) Funds available for investment shall be only those funds remaining after a sufficient amount is kept on hand to meet payments as they become due each year under the retirement plan.

Legislation to reorganize the Employees Retirement System of Texas for state employees was also enacted by the 60th Legislature in regular session. However, the measure (S.B. 63) designed to expand coverage of various categories of state employees and to increase retirement compensation was among those vetoed by the Governor. In his veto message he explained that he "opposed procedure by which benefits were increased for legislative members of the system."

Fishing Already Good In New Amistad Lake

Amistad Lake near Del Rio, situated where the Devil's River enters the Rio Grande, is already producing fish, according to Biologist George Henderson of the Texas Parks and Wildlife Department.

Henderson said that fishing was already good in the Devil's River branch, with two fishermen catching flathead catfish in the 10 to 15 pound class this week.

The State Fish Hatchery No. 2 at San Angelo recently stocked 70,000 bass in the newly impounded water and this week added 5,700 fry and fingerlings.

Public usage of the lake is already beginning, and the fishery personnel have been taking seine samples of game fish and are reporting indications of good reproduction

among channel, flathead and blue catfish.

The water level is now 952 feet, impounding some 1,924 surface acres of water.

As Presidio flood waters enter the reservoir the lake is expected to grow rapidly and will have to pass sill elevation before any waters will be released on the Mexican side.

Henderson said the International Boundary and Water Commission has indicated if incoming waters pass the Mexican penstocks, the 10-foot by-pass tube will be closed and plugged, making future flood waters welcome.

If flood waters continue to enter the reservoir and reach an elevation of 977 feet, there will be 3,817 acres of water in the lake.

Jacuzzi's new HYDROCEL pressurizes water systems without air!

SO WHAT?

So you never have to worry about the problems air causes in a water system — like waterlogging and rusting. And you don't have to buy expensive hydropneumatic tanks and air compressors, tank pits or tank houses. That's what.

BIG DEAL!

Surprisingly small. The Hydrocel is 8 inches wide, 25 inches high and weighs just 15 pounds. That's about one-fifth the size of standard pressure systems. So it saves you space, too.

GREAT!

You bet! Great with any kind of pump. We can install it in minutes, anywhere on your service line — including in the house where it won't freeze.

ILL BUY THAT!

Only from your Jacuzzi dealer.
