THE SANDERSON TIMES

VOLUME 63, NUMBER 5

SANDERSON, TERRELL COUNTY, TEXAS 79848

MARCH 6, 1969

LISTEN TO LUKE

By Albert:---
Sanderson will be buzzing this weekend with all of the out-of-town visitors here for the wedding of Miss Suzanne Downie and Walter N. Armstrong. We hope, for their sake, as well as yours that the weather doesn't force everyone to wear topcoats and stay inside at the reception. We just haven't had the cold weather this year that we normally have, and we believe that there will be another hard cold spell before we have spring.

Many of the fruit trees of the county and especially those in bloom have broken out in a mass of blossoms and our guess is that we have any fruit this year. We are going to have to buy it! We just haven't had the cold weather this year that we normally have, and we believe that there will be another hard cold spell before we have spring.

A group of people met last Friday afternoon to begin work on an Easter Cantata which is expected to add to the spirit of the season and the pleasure and enjoyment of those who come to hear it.

If the word didn't get around to all those who would like to help out in singing and you are interested, come to the Methodist Church Sunday afternoon at 2:00 o'clock. There will have to be a lot of time put in on practices, but those who like to sing don't mind putting in the work necessary.

We get some nice comments from our readers now and then about their appreciation of and enjoyment of the old pictures that we are publishing. We enjoy it, too, and hope that the possibility will continue by the cooperation of all our readers in furnishing us with pictures to be published.

The efforts of so many in various ways raised quite a nice amount of money for the Escudero family whose son, Tony, had open-heart surgery Tuesday. We commend the spirit in which the help was given and how that it was needed. The way the citizens of the town have always rallied to the support of those in need has always been a source of pride and inspiration to us.

Next week is Girl Scout Week and will be so observed over the nation and locally. Wednesday marks the 69th birthday of the organization. Since we have been in Sanderson, the Girl Scout movement here has been active and worthwhile organization it is! Some of the aims and objectives of the organization are: To foster relationships on a personal level... To widen horizons, to lift spirits, to open doors... To meet the greatest domestic challenge in the history of our times.

Our salute to the Girl Scouts and their leaders and their objectives, with our hopes for a continuing success!

G. C. Medley of Monahans, former resident, was a visitor Tuesday of last week.

Ringtail Invades Cooksey Home

A ringtail invaded the home of the Bill Cookseys last Sunday night, causing some concern and anxious moments for a while.

The family had returned home late after taking Mr. Cooksey to Midland where he had explained for Washington, D.C. After retiring, Candace, the eldest daughter, heard some scratching sounds in her bedroom and supposed it to be outside noises or the family's dog.

After later ascertaining it was not the dog, Deputy Sheriff Dalton Hogg was called to come to their assistance.

The ringtail was found under a pile of clothes in the closet and then the problem presented itself as to what was to be done next.

A short length of 2x4 was used to render the ringtail helpless before it was killed.

Candace said that bedtime began about 1:30 a. m. after the mess was cleaned up from the closet and bedroom floor and walls.

The high wind had blown a door open and it is supposed the ringtail entered that way.

Mrs. Pat Mott was in Fort Stockton Thursday for a medical check-up.

New Vehicle Is Now On Market

Coot is the new, versatile, all-terrain and amphibious vehicle that goes anywhere and out-performs all other four-wheel drive vehicles on the world market except in speed. This off-the-road marvel has been widely accepted in the United States for use in industry, agriculture and recreation since production began in August 1967. It is marketed by Coot, a division of Randtron, San Francisco. Lancaster Enterprises, 206 11th Street, has been named new Coot dealer for this area, according to Armond Hoover, agency owner, and Sonny Henderson, associate.

Originally designed as a "worker," the Coot is also an ideal "playmate". It has a low center of gravity, optional four-wheel steering and a unique frameless, water-tight steel body, made in two hulls which pivot around a center joint, keeping all four wheels in surface contact no matter how rough the going.

The Coot twists and climbs over obstacles and "swims" in water. Neither rough terrain, boulder, tree trunks, underbrush, lakes, streams, mud, snow, swamp, slide rock nor grade to 25% of vertical can change the course of a Coot!

Power comes from a 12-horsepower Tecumseh air-cooled engine under the front seat. With two forward speeds and reverse, solid-state ignition and alternator, the Coot runs on a gallon of ordinary gas for two to four hours, depending on the terrain.

All driving parts are in-board, and mechanism is hand-controlled so that the Coot can even be driven while walking beside it. Land speed is 20 mph, water speed is 5 mph with outdrive propeller attached.

Amistad Lake Draw Estimated Two Million

With water backed up more than 150 feet deep behind the 99 percent completed Amistad Dam, Sanderson suddenly finds itself with a big new fishing hole practically in its own back yard.

The huge dam has been placed across the Rio Grande by the United States and Mexico near Del Rio. That's only 120 highway miles from Sanderson, not far at all according to standards by which distance is measured in the wide open spaces of West Texas.

Development of Amistad National Recreational Area is already underway.

It is expected to attract two million visitors a year from all over the United States and beyond.

Already, the fishing is terrific. Anglers are harvesting full limits of bass, running from two pounds up.

Lake Walk and Devil's Lake, long popular with fisherman in the Sanderson area, are now submerged below the waters of the huge new reservoir. They have become the Devil's Arm of the big new Amistad, which has emerged as the hottest winter fishing spot in the area.

Because these lakes were already well stocked with 22 different species of fish and because the Rio Grande has long been famous for its mammoth
