LISTEN TO LUKE

By Albert:---

With just over a week before opening of school, and registration to be going on during this time next week, the excitement and bustle of the school is expected to pick up again.

There seems to be an indication of a school enrollment close to that of last year which is to be expected since there has been no noticeable increase or decrease in any activity which would change the enrollment picture to be changed. So far as is known, most of the students from the gas plant are planning to register to the Sheffield and Iraan schools.

Football practice will begin Monday under the guidance of a new coach, classes will begin Monday the 25th, and band practice began this week.

The group that called themselves the "Spirit of Sanderson" hope will have some of their constructive initiative attitude over into the entire student body and with an equal spirit, and attitude will be the outlook and goals of the group. It is a fine and capable group of young people that have in Sanderson, able to decide what they decide they do.

Amistad Lake is gaining boating and outing buffs there are some interesting things coming from that part of the area.

A person last week, known for his interest in rocks containing fossils, told us of the way to find many fossils among the bluffs that are now the top of the water and were once way up on the side of the hills. He said that the person who is just interested in looking around and seeing what he can see, the lake affords a better advantage than was previously possible.

Interest in fossils is not shared by all knowledge seekers of them. We have seen many such small rocks to our center cactus bed at the house and we have more that are not put "out front", and someone mentions an area where many such fossils, they are a weak spot in our desires. There are others here who use the lake just as an outing place, fishing, quiet boating, with fishing; while others like the possibility of skiing and just

is not difficult to imagine the lake - being so large with such diversified "fun" that its popularity would

Ray Harrison, who has a boat that is well-equipped, made several trips up the river toward Langtry tells some interesting stories of some of his adventures such as the fact that in the western headwaters of the river a compass points in the wrong direction twice, such as turning, twisting, and turning the canyons of the river. What happens to a car which straddles the guard rail of a bridge approach and rides the top of the bridge for several feet before falling off into the ditch on the rear of the car is shown in the pictures above. This 1966 Ford Galaxy was destroyed.

Car Straddles Rail On US 285 Bridge 3 Miles North

Mrs. Dolly Miller Hurlwood, 31, of Odessa, narrowly escaped serious injury when the car she was driving straddled a guard rail leading to the bridge across 3-Mile Draw, just north of Sanderson on US 285 and rode about half-way across the bridge before falling into the draw. The car, which was coming south, fell rear-end first off the bridge.

Texas Highway Patrolman Jack O'Donnell, who investigated the accident, stated that the car appeared to have headed off the highway slightly as there were no skid marks on the blacktop or shoulder to indicate a sudden breaking or turn and

he added that if the vehicle had gone off the bridge head-first injuries to the driver probably would have been much more severe.

O'Donnell stated that no charges had been filed on Monday morning, but added that there probably would be a violation charged.

The accident occurred about 3:00 p. m. Saturday and Mrs. Hurlwood was taken to a Fort Stockton hospital in the ambulance, O'Donnell reported, with what appeared to be light head injuries.

Registration Starts Monday for Local School Students

Registration of students who will attend the schools in Sanderson begins Monday, August 25.

Eighth graders and seniors will register at 9:00 a. m. August 18 in their respective schools; 7th graders and juniors will be at the schools at 1:00 p. m. to register on the same day.

On August 19, 6th graders and sophomores will register at 9:00 a. m., and freshmen will register at 1:00 p. m.

On both days, between the hours of 9:00 a. m. and 4:00 p. m. all elementary school students may pick up their registration cards to be filled out and the cards will be returned on the first day of school.

In-service meetings for the faculty are scheduled for August 21-22, beginning with a breakfast by the local TSTA unit at 8:00 a. m. August 21.

Prospector Staked On University Land In Terrell County

Wildcats were scheduled in Terrell, Kimble, Stonewall, Pecos and Dickens counties and an outpost in Pecos.

Forest Oil Corp., Midland will drill a 16,000-foot Ellenburger wildcat in Terrell County, 12 miles southwest of Sheffield, nine miles north-northwest of the Brown-Bassett (Ellenburger, Silurian, Devonian, Strawn, multipay Wolfcamp and Bromide gas) field, 10 miles northeast of the KM (Ellenburger gas) field and nine miles south and slightly west of the Yucca Butte (Pennsylvanian detrital, Ellenburger and Connell gas) field of Pecos and Terrell counties. It is the No. 1 Skelly-University.

Location, on a 647.4 acre lease, is 2,180 feet from the north and 1,980 feet from the east lines of I-35-University.

Grid Practice Starts Monday

Coach Willie Meyers has called the first football practice for the Sanderson Eagles for Monday, August 18.

Shoes were issued to the squad Wednesday. Saturday night Dr. Lockhart of Alpine will be here to give the boys their physicals.

In the picture below, there are several who are not identified, but an interesting array of what appears to be first or second graders in about 1928 is shown with their teacher:

Mrs. William Joe Vaughan

Sacred Heart Catholic Church was the setting at 8 p.m. in Uvalde Saturday, August 2, for a candlelight ceremony in which Miss Margaret Ann Bracher exchanged marriage vows with William Joe Vaughan. Rev. James P. Miller, O.M.I., officiated at the single ring rites.

The bride is the daughter of Mr. and Mrs. Clint W. Bracher, and the bridegroom is the son of Mrs. Bernice Peace of San Antonio and the late W.C. Vaughan of San Angelo.

For the ceremony, the church was decorated with watermelon carnations and pink candles, with the railing being garlanded with ivy, gladiolus, and hurricane standards, also garlanded with ivy, outlined the path to the altar. On either side of the aisle were antique brass cathedral candles.

Riley Kothmann, Jr. and William Henry Barton, Jr. lighted the candles.

Organist was Mrs. K.M. Thiele of Yoakum, aunt of the bride. The soloist, Mrs. James Manning of Dickinson, cousin of the bride, sang Wedding Prayer, Our Father and Ave Maria.

Entering with her father, the bride wore a gown of pale ivory Alencon lace applied on English net. It was designed with high wedding ring collar adorning the Empire bodice, and lacy scallops edging the gracefully flared sleeves. A pearl knotted silken bow accented the lifted waistline and introduced the full, softly flared skirt. A profusion of lacy appliques flowered the demure gown, catching the hemline in scallops and sweeping it wide into a chapel train. A matching lace mantilla framed her face, cascading to her shoulders.

The bride wore a hand-crocheted half-slip which was made from the slip that her grandmother, Mrs. Emily Bracher of Brenham, had made and worn at her own wedding. Also of sentimental interest, the six-pence in her shoe was given her by her aunt, Mrs. Edward Barrett of Houston; a blue handkerchief was borrowed from the groom's aunt, Mrs. Betty Davenport.

was a maroon and white A&M garter. As jewelry, the bride wore a diamond heart drop, a gift from her parents, and a diamond wrist watch, a gift from the groom.

Her bridal bouquet was of gardenias and yellow rosebuds.

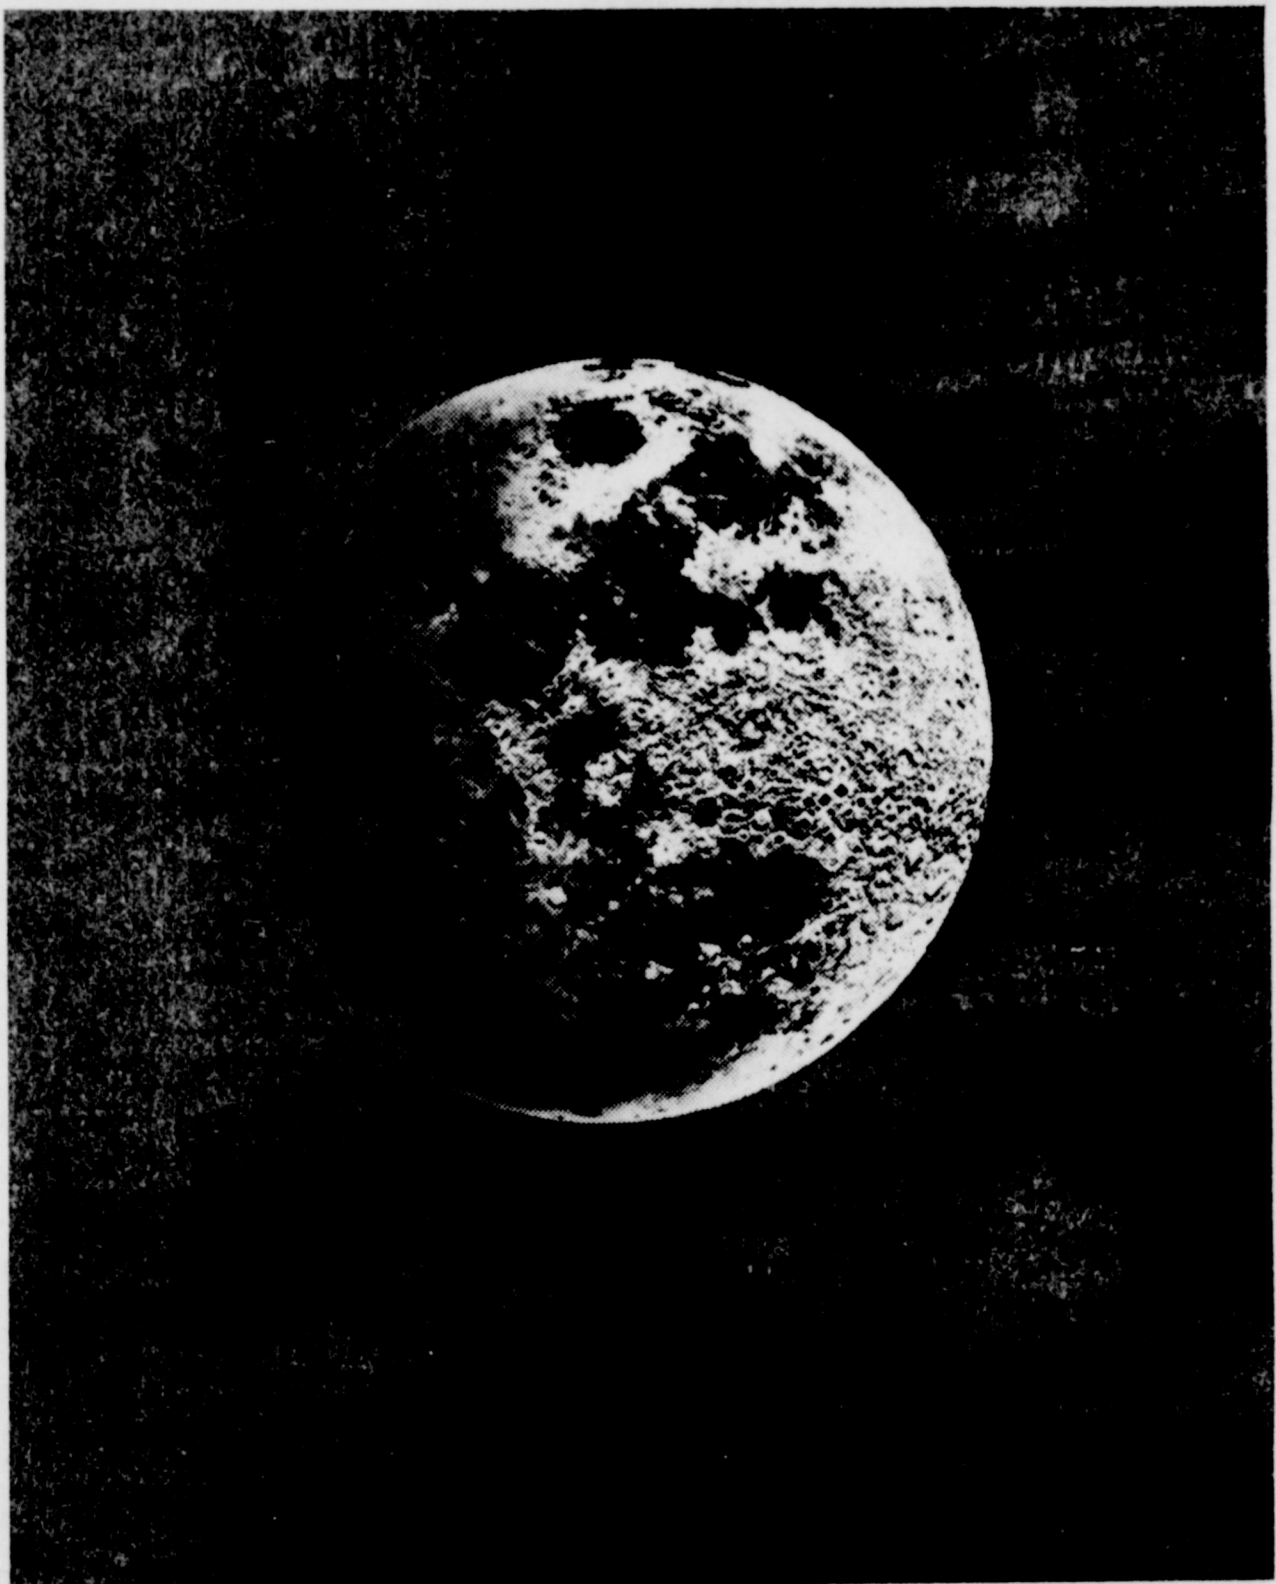

Miss Betty Bracher, sister of the bride, was maid of honor, and Mrs. James M. Warner, Jr. of Waco was matron of honor. Bridesmaids were Mrs. Phyllis Jo Davenport, the groom's cousin, and Miss Sue Whitworth of Lubbock. They were attired in floor length watermelon linen empire sleeveless gowns, with cowl collar forming a square back accented with self fabric bow. Their headpieces were ivory bows, with flowing streamers accented with stephanotis blossoms. They carried white gardenia nosegays with green satin ribbon streamers.

Bob Bracher, brother of the bride, was best man, and groomsmen were Bill Hutson of Fort Worth, David Duffield of Houston and E.J. Hansen of Sanderson. Ushers were Dan Morrow of Fort Worth and James M. Warner, Jr. of Waco.

Following the ceremony, a reception was held at the Uvalde Country Club. Miss Barbara Bracher, sister of the bride, and Miss Mindy Morriss registered the guests.

The reception room was decorated with white gardenias and yellow roses in branched silver candelabra with ivory tapers. A white tree with white doves and crystals was added decor. Four square tables with net skirts looped with crystal beads and yellow roses semi-circled the bride's table which was centered with the bride's cake.

The four-tiered white bride's cake, enhanced by candlelight gardenias and yellow roses, was served by Mrs. Tommy Eddy of Wharton and Mrs. Melvin Sweetman of Kingsville. The groom's cake was a chocolate ring cake with mocha icing, the center being filled by a candelabra trimmed with ivy and yellow roses. Mrs. Billy Bob Holden and Miss Joan Friedel of

It sat right smack in a spot called the Sea of Tranquility.

Although the information is classified, we assume electric heat was chosen to ride 240,000 miles into outer space aboard the Apollo 11 because it's compact and unbelievably efficient.

After all, only electricity delivers heat that's flameless, odorless and practically silent.

And, since the temperature on the moon can drop to -250° at night, you know they needed the most reliable system our best brains could devise.

Actually, the electric heat system used to keep our men warm on the moon is very much like the ones you'll find in millions of homes here on earth—clean, modern, space-saving, economical.

tional hour of hunting daily because of the Daylight Savings Time. Last year dove hunters could start blasting away at 12 noon Central Standard Time or 1 p.m. Daylight Saving Time. This was eliminated from the Federal guidelines this year and in effect dove hunters can begin shooting an hour earlier. Several standard changes were approved for all counties under regulatory authority. Of major importance was the postponement of setting this year's quail seasons and bag limits until the September Commission meet. Biologists said July 9 was too early to set the seasons when many factors could still influence this year's population.

The following was added to all regulatory districts: "a deer tag and evidence of sex shall remain on deer carcasses while on storage and shall remain with the carcass until reaching its final destination. Final destination shall be the permanent residence of the hunter or a commercial processing facility where the deer is finally processed. Antlers with tag attached shall be accepted as evidence of sex of a buck deer. A foreleg with an antlerless deer permit and hunting tag attached shall be accepted as evidence of a legal antlerless deer." This does not prohibit a hunter from skinning out a deer in the field and defines evidence of sex.

Mourning dove season will be Sept. 1 through Oct. 30 in the North Zone and Sept. 20 through Nov. 16 in the South Zone except in those counties having a white-winged hunt where it will be Sept. 6-7 and from Sept. 20 through Nov. 16.

Bag limit on both species will be 10 per day and 20 in possession. A bag and possession limit of both species will be permitted during the concurrent season. Shooting hours for dove will be 12 noon local time to sunset.

tions, a cause or a person loses because he doesn't get enough votes. And in this case, we would propose the suggestion to the legislators that the people might have turned down seven of them because they were afraid of additional taxes and they have enough.

The light vote in the county followed the pattern all over the state and showed a complete lack of interest on the part of the voters.

We personally thought the Texas water plan amendment would pass and we personally thought that it should, but we have lost other votes and we will lose more if we vote any more. This one didn't carry with it a tax - except for the user of the water.

There is little to be said that hasn't been said about the continual increase in taxes, but we just like to add our voice to the voice of many unhappy citizens about the cost of government. But we can express our joy that
