What no merchant we've talked to here can understand, is why such a figure as 3 1/4 percent was decided by the state egislature as proper for the ales tax.

It forces the merchant to look to the chart for almost every tale and the customer to wait a length of time for this, all at a cost and inconvenience.

Had the exemptions been removed from the taxables, it would have been about the same in revenue, or maybe even more.

But the lobbyists were applying the pressure - and the legislators were bowing to it.

In our humble opinion, the 3 1/4% figure was about as unreal an effort for fair legislation as they could have come up with - unless it was 3 13/17.

It causes us to have some doubts of the wisdom of our egislature.

And whether you like it or ot, the ZIP code doesn't do a hing for your mail except slow t down.

At the risk of offending the postal department - not the lotal employees - we will state that mail coming to Sandersonfrom the east and south is delayed one day because of the IP Code which takes it to El Paso and then back to Sanderton the next day.

And there are instances where a letter was mailed to other citles but had a 79848 ZIP and were delivered to the city named rather than the ZIP Coded city.

And in connection with government agencies and postal ervice, etc., an application by United Parcel Service, now operating in at least 38 other tates, was refused permission to operate in Texas by the Rail-toad Commission.

There would be many advanages to having the service quicker delivery, as cheap or cheaper than motor freight or parcel post, automatic insurince, etc., etc., but the raiload commission failed to alow the service to Texans.

Freight shipments from San atonio and El Paso are not only low, but have increased in the minimum pound allowance that in reality a raise in rates for nost local merchants.

And if you have something hipped Express to Sanderson it loes to Alpine and stays there intil you go after it or until the erson operating the Express of-lice there decided to come to landerson - possibly a week or longer. And all the time you lon't know the Express is there in less you have called or writer the shipper.

There are lots of headaches hat haven't always existed in ying to operate a business.

And our state government is of making it any easier for us!

Brownie Scouts in Troop 219 and their leaders, Mmes. Charles Stegall, Jack Harrell, Otto Hagelgans, and Otilio Escudero met at the Girl Scout Hut last Tuesday for their regular meeting and used rakes and hoes to clean up around the Hut. Some of the workers are shown in the picture and some were in back of and to the left of the Hut. There are 16 girls in the troop.

Eagles Continue Their Winning Streak; To Host Brackettville Tigers Friday

The Sanderson High School Eagles continued their winning streak last Friday night when they went to Balmorhea and defeated their hosts 44-6 in a non-conference game.

The Eagles began the game by scoring on the opening kickoff when Manuel Olivas returned the ball 98 yards for the tally and Bill Littleton, halfback, threw a pass to Robert Barron to add the two extra points.

Olivas made the second TD in the second period and the try for the extra point was no good. His three touchdowns in the third period were for 15 yards, 5 yards, and 15 yards runs, and again in the final period, he caught a pass from James Druse, who operates at quarterback, for a 30-yard scoring play.

Santiago Flores passed for one

of the 2-point conversions to Barron; and Littleton scored two points; and Druse passed to Bar-

ron for two points.

Harrises Open Cafe and Bar

Mr. and Mrs. Pat Harris Jr. have opened Admiral's Steak House and Bar at 305-307 West Oak St. in Sanderson. They had Open House last Saturday and served coffee and doughnuts to those who visited the new business.

All new equipment and furnishings are in the cafe portion of the business and an all-steel kitchen is Mrs. Harris' pride.

The business is open from 3 to 11 p.m. daily except Fridays and steaks and fried chicken are the featured foods. They also serve short orders, coffee, soft drinks and beer.

Mrs. Gene McSparran will assist Mrs. Harris in the kitchen, Mrs. Peggy Sullivan will be the cashier, and Mrs. Patricia Malven and Mrs. Barry Pendleton will share chities as waitresses in the cafe.

The first, and as far as we can find out, the only set of triplets born in Terrell County are pictured below: Beatrice, Bulah, and Blanche, at 3-months of age. The triplets were born in about 1905 in the home of Mrs. J. Y. Slover, mother of John Clark, and Mr. and Mrs. W. W. Green were their parents. Their birthplace was the house pictured last week, the home now belonging to Mr. and Mrs. J. M. Jones. Mr. Clark obtained

Voter Registration Information Released

Voter registration for the 1970 elections got underway Oct. 1, and will continue through Jan. 31, 1970,

This registration is effective for the 1970 voting year, which begins on March 1, 1970, and ends on Feb. 28, 1971.

The general rule is that no one can vote without having registered. A former exemption from registration for persons over 70 years old who did not live in a city of 10,000 or more inhabitants is no longer in effect. The only major exception to the general requirement for registration is for persons who are absent from their county of residence in active military service.

The required qualifications for voting are:

1. Citizen of the United States.

2. Over 21 years old on the day of the election.

3. Resident of the State for at least one year immediately preceding election day.

4. Resident of the county for at least six months immediately preceding election day—required for voting in local elections but not required for voting on statewide offices and issues. (Residence in the city for six months is required for voting in city elections.)

Persons convicted of a felony who have not had their right of suffrage restored and persons who are under an adjudgment of mental incompetency cannot vote.

Any person who already fulfills the requirements, or who will fulfill them before the

end of the 1970 voting year on Feb. 28, 1971, may register during the regular period. Persons registering before they meet the age or residence requirements cannot vote until the requirements are met. Their registration certificates will show the date on which they will become eligible to vote.

All persons already meeting the requirements for voting listed above must register by Jan. 31, 1970. They cannot register after that date.

Persons who will become 21 years old by Jan. 31 must register by that date and cannot register later. (Persons becoming 21 after Jan. 31 may register during the regular

period, and may also register at any time afterward but must have been registered for 30 days before they can vote on the registration.)

Persons who were residents of Texas on Oct. 1, 1969, must register by Jan. 31, 1970, regardless of whether they will have met the one-year residence requirement by that date and regardless of whether they will have lived in the county of present residence for six months. (Persons moving into Texas after Oct. 1, 1969. may register during the regular period, and may also register at any time afterward but must have been registered for 30 days before they can vote on continued to back page

Horace A. "Shorty" Stauffer ... missing since first of July

The sheriff's department asked The Times to print the picture of the man above in hopes that someone remembers some thing that might lead to his whereabouts. 'His car was found abandoned about 2 miles north on US285 about July 26. He is 74, 5'8" tall, hazel eyes, light brown to grey hair, weighs 210 to 220 pounds and was a retired truck driver.

Any information concerning the missing man should be directed to the sheriff's office.

Extensive search was made by a Department of Public Safety helicopter last week over the area near where the car was last seen, and a search was also made last week by several officers walking over the same

OCTOBER 9, 1969 Drug Store Is Hit By Burglars

The back doors of Spears-Duncan Drug Co. were broken and the building entered Thursday night of last week, according to Mark Duncan, manager.

He discovered the burglary on Friday morning when he opened the store about 9:00 o'clock.

There has been no trace of anything taken from the build-ing, Mr. Duncan stated. Sheriff Bill C. Cooksey and

Deputy Sheriff Dalton Hogg investigated the break-in. Mr. Duncan stated that some power was used in pulling the

doors to the outside of the building, since they normally opened to the inside and there

was a bar across the opening in brackets on the inside. Marks of some heavy instrument were visible on the hinge-side of one of the doors.

The newspaper vending machines were taken from in front jimmied, according to reports. of Harvey's Restaurant the same night and the coin containers

about your Christmas gifts shopping!

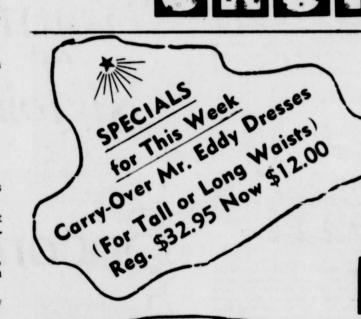

THINK about WHERE you can find the best selection of gifts (and the best values) in the shortest time with the least effort. Think about the fact that your hometown stores offer a wide, wonderful array of gifts for everyone at prices no higher (and often less) than elsewhere. Lower overhead costs than in larger cities help keep prices DOWN! Ask yourself why you should travel far and wide (spend money for gas or fare) for gifts, when your best buys are right here at home!

THINK about WHERE your gift money goes AFTER you spend it. Money spent out of town is all gone forever as far as your community is concerned. On the other hand, much of the money you spend at home stays at home, where it stimulates local employment and progress, helps pay the taxes and provide the contributions that maintain better schools, streets, parks, hospitals, churches and other facilities that make this

a BETTER community for you and your family.

CARD OF THANKS

I am very grateful for the flowers, cards, visits, and other expressions of your friendship and concern while I have been ill. May I use this means of saying "Thanks a million".

Mrs. Jack Riggs.

Wherever temperatures go below 15 degrees, roses need winter protection. All-America Rose Selections, a group of professional growers, hybridizers, and introducers of fine roses, have devised the following fundamental routine of winter protection which is practiced in their extensive test and display gardens scattered throughout the United States. They recommend that you use the same simple procedures in protecting your own roses. They are as follows:

TRIM

1. TRIM — After a hard frost or two.
but before the ground freezes.
prume all cames of your hybrid tea.
floribunda, and grandiflera reses
back to 18". This makes it easier
to work around them in providing
winter protection, and prevents
them from becoming battered by
the wind and ice of winter.

2. SPRAY — Remove all dead stems. leaves, and debris, raking carefully around each plant. Spray the entire plant and surrounding soil with a good fungicide and insecticide to prevent carrying over of diseases and insects on and about the plant.

MOUND

3. MOUND — Mound a pile of loose earth up, over, and around each plant to a height of about 12" and firm. Prune the canes of the roses so that only 4" to 6" of the tips remain exposed after mounding. The purpose of this mounding is to protect the plants from rapid changes of temperature and to guard the canes against winter wind and ice damage.

Voter Registration -

the registration.)

A person must register as a voter of the county and precinct where he has his permanent residence (domicile). He makes his application for registration to the county tax assessor-collector of that county. The application may be made either by mail, on a voter registration application form which can be obtained from assessor-collector's office, or by personal appearance in the assessor-collector's office or before a deputy who has been authorized to serve at some other location.

There is no charge for registration.

The husband, wife, father, mother, son or daughter of a voter may act as the voter's agent in applying for registration if the relative is a qualified voter in the same county. Except for these listed relatives, which do not include persons related by marriage (in-laws), no one may act as agent for the voter in applying for registration.

Pontiac Bonneville. For people who really dig luxury. But agree that being big is no excuse for being clumsy.

You see, these are the people we built our '70 Bonneville for.

There's so much luxury our upper-crust competitors have started a pout-in. Pontiac's hidden radio antenna. Endura protection on the sides and rear. Steel beams in the doors. The plushest interior ever.

Yet Bonneville has all the performance of a 360-hp, 455 V-8, firm suspension and Wide-Track stance.

Sound like your sort of thing? See your friendly Pontiac dealer. He knows what's happening.
