VOLUME 63, NUMBER 4

SANDERSON, TERRELL COUNTY, TEXAS 79848

FEBRUARY 25, 1971

LISTEN TO LUKE

By Albert ---
The weather over the nation continues to wreck havoc with people, places, and things. Following on the heels of the earthquake in California there are reports of resulting tremors that do some little bit of damage to possibly otherwise-weak-ened structures, and a lot of damage to already-sensitive nerves of people in that area. Then this last weekend tornadoes hit towns in Texas doing some damage to property and in Mississippi doing lots of damage to property and taking about 65 lives known at this writing.

And on top of that, or besides that there is the blizzard that has hit the Panhandle of Texas causing lots of damage there, and much inconvenience and discomfort.

And all of these occurrences in our part of the world, not taking into consideration all that is happening in the rest of the world!

The awesome power of the many forces of nature are a wonder to behold and to realize, and their destruction can be extremely great.

Sometimes we fail to think about the withholding of those same forces of nature from the other parts of the world and what effects are had by the withholding.

There is no difference in the clouds that bring a light or moderate rain that benefits the country on which the moisture falls and the clouds that bring the deluges of water that wash away all that lies ahead of it.

There is no difference in the origin of the light breeze that turns the windmills to pump water, or the stronger breezes that push clouds this far inland to bring rain, and the strong winds of tornadoes or hurricane force that wreck such havoc on all that tries to withstand it.

The strength of the elements in their most powerful display ruins everything, and so does the withholding of all of the effects of wind and clouds have a destructive effect on this part of the country.

We have to have the forces of nature put together in just the right way or they will be damaging.

And we have to be careful in our supplications for wind and rain to be sure that we don't get too much or too little of either, and we have to be extremely careful in our supplications for the right amount of the elements lest we are selfish.

There's a lot involved in the asking and receiving of the right amount of wind, rain, and clouds!

Be sure and read the details of the lowering of residential water rates locally. It is another encouragement, too, for everyone to consider increasing the number of flower bushes, size of lawns, or number of trees around the house, even though this was not the purpose of the decrease in water rates.

The careful attention to the financial condition of the water district and the overall operation of the utility warranted

We noticed the above-pictured barrel Tuesday morning this week and thought that the intent of the persons or person responsible and the message on the barrel was most worthy of comment. Some effort was made to ascertain who was responsible so they could be commended, but to no avail. The barrel is located just east of the post office and our "trash" from the Polaroid film used in taking the picture was the first bit of litter emptied into the barrel.

Water Rates Are Lowered For Homes

The directors of the Terrell County Water Control & Improvement District No. 1 met last week in their regular meeting.

One of the main items of business transacted was a review of the financial condition of the district and the decision to lower the rates for domestic or residential consumption from 80¢ to 60¢ per 1,000 gallons after the first 3,000 gallons of water used. This is the second reduction in water rates locally since the inception of the water district several years ago.

The lower rates will be effective April 1 of this year and prior to the peak of use locally for watering lawns and flowers.

There was no change in the rates for business within the district.

Members present at the meeting were Jimmy Caroline, Greene Cooke, Weldon Cox, and Mark Duncan.

New Labeling Helps You Choose The Right Bulb For The Right Place

New labeling on the jackets of electric light bulbs can help you choose the bulb that will serve you best. For work, study and reading areas you'll want a bulb with a high "lumens" (brightness) rating. In areas that require less light or where bulbs are more difficult to replace you'll want to use the "longer life" bulbs. While the watts, or electricity used, may be the same for both bulbs, the high lumens bulb has been designed to provide more brightness and the longer life bulb has been designed to last longer but usually will provide less brightness. For the best value in buying bulbs, choose the bulb designed to fit your purpose.

Last year we spent \$740 million on your telephone ... and it still looks the same.

The changes don't show. But they are ways of making your phone — the one you've had all along — work better. ■ For instance, the money went for more Long Distance circuits so your call will go through faster. It also went for more training so that telephone employees serving

you will know their job. The money went for new switching systems to speed up connections for the 56 million calls we handle daily. ■ At Southwestern Bell, we keep working every day, every year, to put a new phone inside your old one. Even if it does look the same. "We may be ..."

Local Crafts, Art Work Displayed At Culture Club Meeting Thursday

The Sanderson Culture Club had a guest tea last Thursday afternoon in the home of Mrs. W. H. Savage, continuing the year's programs on "Fulfillment Through Fine Arts" when Mrs. E. H. Jessup presented the program on "Personal Fulfillment with Arts and Crafts".

Instead of making a speech, she read a letter which she had composed to an imaginary sister in which she detailed a brief history of arts and crafts and their influence on history as well as individuals. She depicted many of the local and world problems showing world-wide as well as personal interest in the problems as seen through the eyes of a "working girl" and including the American women's liberation movement, etc. It was a very clever and interesting presentation.

A large group of local women as well as club members had been invited to bring articles to be exhibited showing their arts and crafts and Mrs. Jessup read a list of the exhibitors and their exhibits which had been arranged in the bedrooms and were viewed after the meeting.

Mrs. R. A. Harrison read the prayer-poem, "A Prayer For Every Day" by Mary Carolyn Davies, and the National Anthem was sung to open the meeting.

A large arrangement of Spring flowers provided the centerpiece on the tea table which was covered in a hand-embroidered ecru linen cloth made by Mrs. Jessup's mother, Mrs. R. E. Fred. From one extremity Mrs. H. E. Exelle served the sandwich loaf decorated in the Washington motif with red pimiento hatchets and cherries.

Mrs. C. B. Card, president, was at the silver coffee and tea service. Also on the table were snabolans, several varieties of cookies, decorated mint patties made by Mrs. Jessup, chocolates, toasted pecans, and pickled carrots, all served from silver trays. The snabolans which Mrs. Savage had made were from a

recipe which had been in her family for many years and the recipes for those and the mint patties were made available to the guests.

Co-hostesses with Mrs. Savage for the tea were Mmes. Ezelle, Jessup, and L. H. Gilbreath.

Other members present were Mmes. Card, R. A. Gatlin, C. K. Mitchell, E. E. Farley, A. D. Brown, H. C. Goldwire, C. F. Cox, and Harrison.

The guests included Mmes. E. McSparan, Wayland Taliaferro, C. T. Wrinkle, Irvin Robbins, Herbert Brown, Wright, W. D. O'Rourke, J. A. Gilbreath, C. C. Mitchell, T. W. McKenzie, R. C. Holcombe, Clyde Higgins, C. P. Peavy, A. J. Padgett, F. D. Fisher, H. H. Pipes, and James Word also Miss Erna Wilkinson of San Antonio.

At the business meeting of the club preceding the tea, a resolution was adopted in support of captured American and allied fighting men and those missing in action in the Vietnam conflict, urging the government of North Vietnam to comply with the terms of the Geneva Convention in the humane treatment of prisoners of war. Announcement was made of the Western District convention, TFWC, in Monahans on March 12 and 13. There will also be an art exhibit in the library on Thursday, March 18, to which the public will be invited.

Mrs. Dalton Hogg spent the weekend in Midland with her sister, Mrs. C. T. Jones, who had major surgery Friday. Her mother, Mrs. Sarah Abbott, is with her also.

Miss Marsha Monroe, daughter of Mr. and Mrs. Reg Monroe, and Miss Dottie Ingham who attend Angelo State University San Angelo, were weekend visitors here. Miss Ingham also visited with her uncle and aunt, Mr. and Mrs. Lee Dudley.

Mr. and Mrs. David Kleinbeck and daughter, Samara, of Midland visited her parents, Mr. and Mrs. Austin Nance, last weekend.

Carol McAllister of Sonora was a weekend visitor here with Hanna Sullivan. When Mr. and Mrs. Dick Sullivan and Hanna were in San Angelo Saturday for him to have a post-surgical check-up, they came by Sonora to bring Carol to Sanderson and then took her back as far as Sheffield for her parents, Mr. and Mrs. Ken McAllister, to meet her.
