LISTEN TO LUKE

By Albert:--
 One of the things that the people of the state should be planning is safe driving over the coming days and celebrate the 4th with joy rather than spending the day in sorrow!

The 4th coming on Tuesday this year is going to have some kind of effect on the attendance of local festivities, we would opine, but the holiday has not been moved to some other date, so Tuesday is the day.

There has been a lot of preparation for activities to be entertaining and interesting. Those who have been making the plans are and have been busy and the enthusiasm has been high for those who are involved in the plans.

We congratulate them on their plans and hope sincerely that their plans prove most fruitful on the 4th.

Something that is going to be new in the way of activities are the two "shows": art and relics, that will be at the courthouse all day. These displays also represent a lot of time and involvement on the part of those who have plans to enter, and should prove interesting to the public.

 We like hot weather as much as any Eskimo does, but we are going to have to admit that we have had a little "more hotter" weather than we bargained for at this time of the year. We are just wondering what it is going to be like come August!

There have been more of the beautiful and productive underheads building up and putting some moisture on the drier parts of the county, mostly in the north-central and northeastern parts of the county.

Maybe there will be more cool and wet weather on the way to relieve us.

 We have read in area papers about the efforts that are being taken to control the stray dogs. They seem to be having the same trouble that are having in Sanderson: many stray dogs!

We call them strays when the owners may call them strays, but they seem to want as they will at all times are seen more often considerable distance away from their homes than they are at home acting like

 There is the strong probability that such wandering dogs -- sooner or later -- are going to pick up some food or bait some place and either return home and not make it home! or just one of the facts of life.

 Probably then, there will be some who will say: "The dog never gets out of the yard". This may be true some occasions, and it is not true in others!

 I do not know where or how the animals get

poison, but we do know that it is an abundance of stray animals or loose dogs wandering into surrounding pastures that causes dogs to be killed.

The area towns fear an outbreak of rabies and are trying to beat off such an outbreak, and that should be the reason for our primary concern. But a secondary concern should be for the welfare of our other neighbors who own stock that is now being killed or maimed by the dogs.

We have the obligation to not be the cause of harmful activity against our neighbors, neither active nor passive!

Isn't that the way we should look at it?

We were highly amused this week. After Ralph Nader appeared on a national TV show and it was announced that he was investigating each and every congressman in all phases of their congressional dealings, someone said: "He has no right to judge others that way!" And wasn't that a judgement of the same kind?

SS SILVAS OFFICER AT
 RL'S STATE AT SEGUIN
 Miss Emma Silvas was elec-
 tress of the Cha County Commission-
 Place 2 in the elections at
 the Bonnet Girls State at the
 Texas Lutheran College at
 Seguin. Miss Sheryl Stewart
 was the other delegate from
 Anderson, sponsored by the
 American Legion Auxiliary
 with the Lions Club paying
 the expenses for one girl.
 The young ladies returned
 Friday after the 10-day
 meeting.
 The Girls' State was organized
 as a national Americanism
 activity in 1937 by the Le-
 gion Auxiliary. Non-partisan
 and non-political, the pur-
 poses of the Girls State pro-
 gram are to provide citizen-
 ship training for girls of high
 school age, to afford them
 an opportunity to live to-
 gether as a self-governing
 group and to inform them of
 their duties, privileges, rights,
 and responsibilities which
 they will assume when they
 become adults. They learn
 the problems of government
 by simulating the duties of
 city, county, and state offi-
 cials.
 The 1972 session of the
 meeting has grown from an
 experimental conference of
 10 girls, held at Baylor Uni-
 versity in 1941, to become
 the largest single extracurri-
 cular educational program
 for high school girls in Tex-
 as. This year 513 girls were
 in attendance, plus two girls
 from Mexico, making a total
 of more than 9,725 girls in
 Texas who have participated
 in this top-level citizenship
 program.
 Former citizens of Girls
 State and members of the
 Texas American Legion Aux-
 iliary comprise the 62-mem-
 bers of the staff and counsel-
 ors who volunteer their serv-
 ices to direct and lead this
 program.

The best typewriter for your home is the one we built for our office.

We're typewriter people. And like all other typewriter people, we've always made big, fancy-featured ones for offices and small, portable ones for homes. Then we realized that in our own offices, the secretaries hardly ever used the fancy frills we put on their machines. And what they really needed was a typewriter that could do all the basic things well. Effortlessly. And was not too greedy on desk space. So we built them just such a machine and then put it on the market for other offices. And that's when we discovered we'd made the perfect family typewriter. For, to our amazement, our new office machines were being snapped up for the home. Why? Partly because it takes a sturdy office machine to stand up to family life and the pounding of many different sets of fingers—some inexpert, some impatient, some over-emphatic. And partly because home-typists too can make use of all the office features (like tabulating, individual touch control, full 48-key keyboard, exclusive Flying Red Margins®.) Best of all, the clever Swiss engineering that makes our typewriter just half the size of the usual office clunkers, also makes it about half the price. And of course our original home machine is still available—the popular, portable Hermes 3000 at \$129.

If you only want to buy a typewriter once, buy a **HERMES**
