LISTEN TO LUKE

By Albert:---
 Our mail this week from the Congressmen relates that they are finally becoming concerned with the breakdown in service by the U.S. Postal Service. Sen. Lloyd Bentsen will receive a General Accounting Office investigation report this week verbally, and soon a written report. The GAO investigation was prompted after complaints grew heavier and heavier.

Sen. John Tower recently conveyed his views on the subject of mail service deterioration to the Post Office and Civil Service Committee. He quotes examples of poor mail service in East Texas. One of his classic statements in his news release is: "Probably, the problem lies with the system itself."

We wonder if the investigations and the inquisitions will really turn up the answers to the problem!

We had two visitors Saturday. Annie Adams and Arturo Gutierrez-both residents of El Paso, complaining of the slow delivery of The Times to them. The papers leave Sanderson on Thursdays about 1:00 pm. One subscriber gets the paper on Tuesdays normally and the other one, going to the identical ZIP zone in El Paso, never gets there before Wednesday and usually on Thursday. And subscribers to The Times are supposed to get their paper handled the same as First Class letters!

We have said before, and we will say again: We know that there is no breakdown of service or consideration in the handling of mail locally. It is out of here somewhere that all of the trouble lies.

It is another case of the people demanding in large numbers and getting the job done that way. When public opinion swings heavily in one direction, then public opinion is a consideration of those who are responsible for changing anything!

When a situation becomes intolerable to a sufficient number of people and they raise enough fuss about it to the proper people, then, and then only is the situation changed.

For example, what law enforcement officer is going to work for very strict law enforcement for very long unless he has the strong backing of the people with whom he is working? There would be no cooperation from the public, there would be little action by a grand jury, and there would be few guilty verdicts by juries-even having a hung jury on a plea of guilty such as was the case here at one time! And certainly, the law enforcement officer would not be on the list of "best citizens" in a town if the town was not behind his efforts to a great degree!

And "the squeaking axle gets the grease" philosophy works on every phase of our government from the postal service down!

From experience we have learned that some backing on some issues is much more

Sheriff Hogg Injured Monday In Turn-Over

Terrell County Sheriff Dalton Hogg narrowly escaped serious injuries shortly after noon Monday about 4 miles east of Sanderson in an accident. He received a concussion, multiple and severe bruises, and possible broken ribs in the accident.

Sheriff Hogg was driving his pickup truck and pulling a trailer with two sows and several piglets which he had just bought. On the western slope of 5-mile hill the trailer apparently started swerving. The pick-up truck went off both sides of the black-top before overturning. It was demolished as a result of the accident.

Hogg was taken to an Alpine hospital for examination and treatment.

The beginning of the native plant project in the "Y" just west of town where US285 and US90 part on their separate ways. Sotol has been planted along the edges of the triangle near each of the vertexes, and is visible in the picture above just to the left and in an extension of that line near the center in the background, and another row just under the sign at the right of the picture. Other holes have been dug for other plantings, and another cactus-securing safari by the Young People's Chamber of Commerce members, who are working on the project along with the Texas Highway Department.

Approval Given Doctor Application By Medical Group

The 9-County Big Bend Medical Society gave approval for the application of Sanderson to have a doctor sent here by the National Health Service Corps. The medical society's approval was one of the prerequisites of the application, according to County Judge R. S. Wilkinson, who went with Troy Druse and Carlton White to Uvalde for the meeting with the officers of the group.

The approval of the medical group was one of the hurdles which had to be crossed in the effort to secure the services of a physician here through the National Health Service Corps and the local committee was apprised of the approval by the Society Saturday following their meeting Friday.

The NHSC was notified of the approval of the application by the 9-County Big Bend Medical Society.

It was noted that there were two other applications before the medical society that were not approved.

Eagle Track Team 4th At Iraan Meet

The Sanderson Eagle track team placed fourth at the Cactus Relays in Iraan Saturday of last week.

The following results were noted by those who placed in the various events:

Bobby Spence was 6th in the 880-yard dash with a time of 2:16.6.

Kevin Phillips was third in the 440-yard dash with 55.2.

Robert Kline ran the 330-yard intermediate hurdles with a time of 45.4 and placed 5th, and Floyd Watson was 6th with a time of 46.3.

Ricky Marquez won the mile run with 4:43.8.

The mile relay team was composed of Kline, Danny Montalvo, Rex Roberts, and Marquez, and placed 5th with a time of 3:48.0.

Roger Sanchez tossed the shot put 45'1" for 3rd place and threw the discus 116'4" for 5th place. Kline's discus throw of 114'11" was good for 6th place.

Rex Roberts placed 5th in the high jump with 5'8", and won the broad jump with 19'. Phillips was 6th in the broad jump with 16'9".

Jim Cash vaulted 11'6" for 1st place in that event.

Kendrick Harrell was entered in the 100-yard dash with Ja Chriesman. Harrell, Roberts, and Chriesman ran in the 220-yard dash. Montalvo and Chriesman were also in the 440-yard dash. Watson was entered in the 120-yard high hurdles; Kline was a pole vaulter; and the 440-yard relay team was composed of Harrell, Phillips, Cash, and Roberts, and did not place because of a dropped baton.

Coach Willie Myers stated that there was an extremely strong wind all during the track meet which resulted in some difficult running and field events competition.

Rankin, Sonora, and Iraan were in the first three places in the meet, and following Sanderson were Marfa, Eldorado, Irion County, Balmorhea, Paint Rock, Wink, Grandfalls, and Buena Vista.

CORRECTION
 The list of junior high students on the honor roll that was given us last week had omitted the names of Brant Myers from the group with all-90 grades, and Gib Bell from the list of those with an 85 average. We are happy to acknowledge the accomplishments of these students.

Conrado Avilez, Hilario Carrasco, and Jose Carrasco had their picture taken in Sanderson in 1918 and Mr. Avilez, who lives in San Antonio loaned us the picture. The dress of the three boys is very interesting, we thought.

easily obtained than others! This has been learned at the cost of friends and business. We regret the loss, but not the opinion. And some people are much more concerned about certain issues than they are others! And all of this is only natural, maybe, since we are all human. Few people would be tolerant of a massive number of illegal voters here, for example, but would be tolerant in lax enforcement, or no enforcement of the rest of the election laws.

It just depends on how you look at it!

And getting back to taxes to support the schools over the state -- Sen. Pete Snelson, in a speech to the Texas Press Association's West Texas organization in Midland recently stated: The courts have said that the wealth of a school district cannot be the criteria for future financing. All future school financing in the state is affected by the court suit on the Edgewood District of San Antonio. Public school financing has been challenged in the courts in 30 states.

There is no question in the minds of most people who have done some serious thinking on the matter but that if the states don't do something to equalize the financing of the districts more equally than they are, then someone is going to step in and see that it is done in a way to suit -- not the state or the school district -- but Big Daddy Federal Government!

We like to consider ourselves individualists and independent and all of those nice words to explain what we would like to consider ourselves. But whatever we would like in that respect, we are not going to be, because the days of individualism are over when inequality is a factor to be considered.

And we really bring all of this on ourselves!
Or at least, that's the way we look at it!

Thoughts

From the Living Bible

"Rejoice greatly, O my people! Shout with joy! For look — your King is coming! He is the Righteous One, the Victor! Yet he is lowly, riding on a donkey's colt! I will disarm all peoples of the earth, including my people in Israel, and he shall bring peace among the nations. His realm shall stretch from sea to sea, from the river to the ends of the earth. I have delivered you from death in a waterless pit because of the covenant I made with you, sealed with blood. Come to the place of safety, all you prisoners, for there is yet hope! I promise right now, I will repay you two mercies for each of your woes!

Local Heart Drive Raises \$831.51

The local chapter of the Texas Affiliate of the American Heart Association raised \$831.51 in the drive which was concluded the last of February. Since July 1, 1972, \$170 had been contributed to the fund through memorials making a total of \$1001.51 raised since July 1. Mrs. Clyde Higgins, the Heart Fund chairman, reported that in the counties comprising Region XIII, Terrell County far exceeded the other counties in per capita giving, the Terrell County rate being 65¢. She will add to her prized possessions a letter received this week from Mrs. Luci Johnson Nugent of Austin expressing her appreciation and commendation for the efforts she put forth in the recent observation of Heart Month in Terrell County.

HOW TO GET MORE TAX VALUE

Continuing large federal deficits, particularly during periods of high economic activity, are a major cause of inflation which most of us encounter every day in rising prices. Therefore, it is only logical to attempt to control federal spending by cutting back or eliminating inefficient programs and those that have outlived their usefulness.

An individual citizen has a hard time judging which cuts should be made, but he should be applauding efforts by the Administration and many congressmen and senators to keep federal spending in line with federal revenue. Inevitably some programs he likes will be cut back.

He shouldn't be too upset if one of his favorite "federal aid" projects is reduced because such aid is often a bad bargain anyway. By the time the tax dollar makes a round trip to Washington and back home, it is substantially reduced by bureaucratic handling. We'd get a lot more for our tax money if we decided what governmental services we wanted locally and paid for them. And, of course, if we control inflation, such public spending, as well as our personal and business spending, would bring us better value for our dollars.

BOY SCOUTS ON TRIP

As a reward for receiving their Tenderfoot rank, seven Boy Scouts were taken on a camping trip last week to the Aubry Harrell ranch, leaving Friday after school and returning Sunday afternoon.

The Scouts were Malone Mitchell III, Paul Hinkle, Gary Allen, Craig Cooke, Wade Sumrall, Paul Murr, and Gib Bell. Accompanying them on the trip were the Scoutmasters David Shoemaker, Larry Choate, and Rev. Richard White.

Raul Dominguez, son of Mr. and Mrs. Atilano Rodriguez, is recuperating at home and walking on crutches after being in an El Paso hospital for several weeks. He had ortho-

pedic surgery on his leg after a butane truck in which he was riding overturned several weeks ago. He will return to El Paso the first of next month and will have surgery on his knee.
