THE SANDERSON TIMES

VOLUME 64, NUMBER 7

SANDERSON, TERRELL COUNTY, TEXAS 79848

MARCH 27, 1973

LISTEN TO LUKE

By Albert-----
We took a picture- shown at left-of the U.S. Post Office's yucca and/or dagger with a bloom shooting up, and in the background can be seen some white that is a small bloom already open. We use this as one of our heralds of spring- since the first day of it was during the week and we looked all over town for a mesquite putting out, but didn't find one to take a picture of, nor did we find a pecan that had put out any fresh shoots. Last week, on a short trip out into the country, we saw a big bunch of buzzards flying, and have seen more several times since then. We know as well as anyone that Easter is not yet, and is in fact a month away, but we know that certain signs of spring are good, and two out of four is 50%, and we had a friend tell us Sunday that mesquite in their part of the county was putting out, so that makes 3 out of 4 of the Spring- heralding signs that are visible. We're not trying to fool Mother Nature, but we are very anxious to have spring weather.

We used the terms "yucca or dagger" in a manner that can be termed as interchangeable in talking about the picture to the right. Our authority for this rashness is Dr. Warnock, biologist of Sul Ross University in Alpine, who used the same words in the same way in his talk on the flora of this area -- if we understood him properly -- and we think we did. We have been corrected frequently when we tried to properly identify one of those things, and being by nature a person who does not like to be accused of doing something wrongly, we have since avoided any reference to the name of the plant; we just pictured it and let the picture tell the story!

The only reason in the world that we continue to watch with interest the shortening commercial on the idiot tube is to be on hand when some character steps into a phone booth to call his wife and find out what kind of shortening she uses, and she tells him something besides "Crisco". How gullible can watchers be? How stupid do the TV commercial writers think watchers are? And why in the name of common sense do I continue to get upset over the positively mentally-degrading commercials that are so common? We are not going to try to answer all the questions of life, but there is no sense in getting upset about something like that. A person can always go in and call his friend to find out what kind of shortening his wife uses!

Sanderson and Terrell County have had their share of winds during the past few days; though they have not been as damaging as some winds have been, they have sorely tried the patience of many people. With some of the construction that is going on here, or some-

Fire Reporting Procedures Told

The Times was asked to report to local citizens the proper procedure for reporting fires for the greatest convenience to the firemen. It is hoped that the procedure will be followed as it will give firemen a few minutes' advantage by their being able to go directly to the fire, rather than going to some place to find out where the fire is.

When there is a fire, please dial 2500. Telephones are in several places in town, and in homes of some of the firemen and when the phone is answered at Dudley's, the person there begins sounding the alarm, and others are able to hear where the fire is. Do not hang up until after the siren begins to sound! Wait a few seconds after the siren begins to sound to be sure that anyone who comes on the line will have an opportunity to hear the location of the fire.

If anyone reporting a fire will be sure to not hang up until the siren sounds, they will be sure that someone at the central location has heard the alarm reported. Local residents are asked to please stop their cars if they are driving when the alarm sounds, so that firemen may get to the fire station or fire with a minimum of danger.

New Firemen Begin Practices

Several men have been recruited into the Sanderson Volunteer Fire Department and had their first practice Thursday night of last week. The new firemen include Richard White, Larry O'Keefe, Joe Fuentes, Ernest Couch, and Joe Blatchford.

The men will have practice sessions each first Thursday and will use the time to familiarize themselves with the operation of the equipment as well as procedures for fighting certain kinds of fires and they are now answering the calls for firemen along with the older members of the group. Anyone who is interested in belonging to the fire department is urged to contact W.W. Sudduth, fire chief, or Troy Druse, assistant.

Announcement was also made last week of the appointment of Gene Thompson as fire marshal by Sudduth. His duties include certain reports of fires for insurance claims and other related duties.

Ministerial Alliance Names Officers, Plans Easter Service

The Sanderson Ministerial Alliance met last Saturday morning at St. James rectory. Rev. John Pierce was named president; Rev. Paul Tatum, vice-president; and Rev. Richard White, secretary. Others present were Rev. Amado Elias, Rev. David Marx, and J.A. Gilbreath, treasurer of the local ministerial alliance transient fund.

It was decided to jointly sponsor an Easter sunrise service and ask the participants to make an offering to the local transient fund at that service, as they have done in the past at the Thanksgiving service. The fund is to take the burden of expense off of each of the local ministers who are asked frequently to contribute to the welfare of people who are going through Sanderson and knock on the doors of the ministers in seeking help. These are all cleared through Mr. Gilbreath, who sees that their immediate needs are met according to the ability of the local fund. The ministers also feel that this process prevents duplicate assistance to one who would possibly make several contacts here.

The details of the Christmas service were reviewed and a definite time and further details will be given at a later date.

COL. RAY VISSOTZKY, P.O.W. RETURNS HOME SATURDAY

Terrell Gas Field Is Re-Opened

The Mesa Grande (Leonard) field of Terrell County was re-opened with recompletion of Texas Oil & Gas Corp. Midland, No. 1 Allison, former opener and lone producer 10 miles southeast of Sheffield, for a calculated, absolute open flow of 7 million cubic feet of gas per day.

Production was through perforations at 3,373-421 feet, which had been acidized with 1,000 gallons.

It was reported as plugged and abandoned June 2, 1972, at 3,800 feet.

Original completion was May 11, 1963, by Humble Oil & Refining Co. through perforations at 3,393-387 feet. It was drilled to 11,324 feet and plugged back to 3,547 feet.

It became depleted in July 1967.

Location is 1,980 feet from the south and east lines of 8-A4-Mrs. A. Pride.

thing like that, since all of the construction work was in an unfinished stage and possibly did not possess all of the strengthening it needed to withstand the strong winds.

You ask: "What construction work is going on?"

Well, we'll tell you: adding a room at the Dairy King, adding a couple of new units at Desert Air Motel, building a building for a library on the courthouse square, and two houses in Lomita Terrace.

Eagles Second At Alpine Meet

The Sanderson Eagle track team placed second at Alpine last weekend. Rankin won the meet with 172 points, Sanderson had 103, Iraan 73, Marfa 61, Balmorhea 38, Clint 34, and Wink 15. The teams competing were the teams comprising District 5A and possibly foretold something about the outcome of the district track meet later in the spring.

Coach Willie Myers reported the following results in the meet:

Rex Roberts won the broad jump and set a new meet record with 21'7-3/4". Danny Montalvo was 4th with a leap of 20'-1-1/2", and Kevin Phillips was also a competitor.

Roberts was 2nd in the high jump with 5'10".

Jim Cash was 2nd in the pole vault with 12'6", Robert Kline placed 6th with 10'6".

Bill Mott won the discus and set a new meet record with a throw of 138'5", Roger Sanchez was 3rd with 125'2", and Kline was 6th with 117'7".

Sanchez placed 5th in the shot put with 44', and Mott also competed.

Kendrick Harrell, Mott, and Ja Chriesman competed in the 100-yard dash.

Roberts tied for second place in the 220-yard dash with a time of 22.9. Other runners in this event were Chriesman and Harrell.

Phillips had a time of 52.6 that was good for 2nd place in the 440-yard dash. Montalvo and Chriesman also ran.

Bobby Spence competed in the 880-yard run.

Ricky Marquez handily won the mile run and set a new meet record with a time of 4:35.0.

Kline placed 2nd in the 330-yard intermediate hurdles with 43.6, and Floyd Watson also ran.

Watson was the lone competitor from Sanderson in the 120-yard high hurdles.

In the mile relay, the Eagle team placed 4th with a time of 4:37.1 and was comprised of Kline, Montalvo, Phillips, and Roberts.

IKE BILLINGS INJURED IN PICK-UP TURN-OVER

Ike Billings has been in an Alpine hospital for a week for treatment of injuries received when his pick-up overturned on Highway 90 coming from his ranch near Langtry. He has a fractured collarbone and fractured vertebrae besides numerous lacerations and bruises. He is wearing a brace on account of the back injury.

Mrs. Billings has been in Alpine to be near him.

Tennis Team Plays In Iraan Last Friday

Tennis Coach Tommy Gray took the team to Iraan Friday and Saturday for a meet.

Hudson Kerr won his first match 4-6,6-0,6-0 and met Bretz of Iraan who beat 6-1, 6-1.

Kevin Farley lost his first match to M. Stacy of Rankin 5-1,6-1.

Darrell Cooke and Johnny Hodgkins lost their first doubles match to Valdez and Garner of Iraan 6-1,6-0.

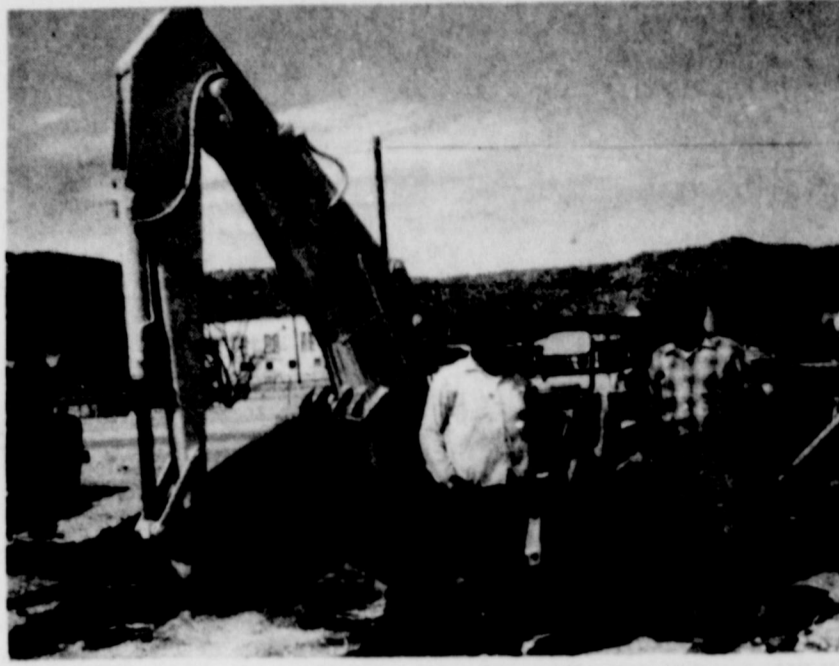

Donald Jones and David Carter, who were also entered in the doubles, lost their first match to White and Gillett of Ozona 6-2,6-0.

In girls' singles, Glenda Shoemaker won her first match from V. Molhuson of Reagan County 6-1,6-3 and then lost to K. Helm of Rankin in the semi-finals 6-4,4-6,6-1.

Debbie Tulk met C. Johnson of McCamey in her first match and won 6-1,6-1, then lost to M. Taylor of Iraan 4-6,6-4, 6-4.

Elaine Brown and Janet Harrell met S. Dockery and P. Sanker of Ozona and lost 6-4, 6-0.

Vonda Wallace and Paula Kilpatric played D. Laxton and C. Richardson of Big Lake in their first match and won 6-1,

A new piece of equipment was purchased last week for Precinct 1, according to W.W. Sudduth, Precinct 1 commissioner, who is at the right and Manuel Barron, back-hoe operator, is standing on the left. The front loader and back-hoe is behind the two, and cost \$7,250.00, according to Sudduth. The price is the difference paid with the trade-in of

6-1, then they played the same doubles team again and the Reagan County girls won 6-2,6-6,7-4.

CORRECTION

Glynn Haynes spent 18 months in Vietnam rather than the figure used in his wedding story last week. We are glad to make the correction.

Mr. and Mrs. Skily Schuch were in Odessa Wednesday evening to see Merl Haggert perform. He is a country and western singer.

Mrs. Barton Massey took Wynne and Randy to Alpine for dental work Monday.

a loader that had been in use for a long time in the precinct. The shovel on the front is for loading and the back-hoe digs and Sudduth stated that there was plenty of work in the precinct for the machine and operator. Terrell County commissioners are advertising for bids this week for a maintainer for precinct 3, which has David Mitchell as commissioner.

National Honor Society Feted at Luncheon
By Culture Club

Each year the members of the Culture Club plan some special event to honor the members of the National Honor Society of the Sanderson High School. This year they planned a luncheon which was served in the Legion Hall Thursday. Gilbreath and Dr. Warnock. Red and white checked table cloths were used on the tables and barbed wire surrounded the arrangement of spring flowers on the speaker's table. On tables around the hall, there were paintings, books, and collectors' items pertaining to Texas and particularly to West Texas art on display.

After the luncheon, Mrs. N. M. Mitchell Jr., vice-president, conducted a short business meeting of the club. Library Week Set For April

"Widen Your World...Read" All Texans are being invited to widen their world during National Library Week, which will be observed in Texas during the week of April 8 through 14. In a proclamation signed on March 9 Governor Dolph Briscoe encouraged Texans to visit their local libraries during the special week.

This 16th annual observance of National Library Week has dual themes: "Widen Your World...Read" and "Get Ahead...Read." It focuses attention on the year-round efforts of libraries to provide informational, recreational, and educational services to their patrons.

Public libraries are stressing new programs to provide adequate reference services to all patrons, to serve economically disadvantaged persons, and to take their services to the elderly and to the homebound.

National Library Week provides an opportunity for all Texans to take a good look at the libraries that serve them. With open doors and with no questions asked about education or economic condition, libraries provide an opportunity for self-fulfillment and continuing education for all who avail themselves of the opportunity to use them.

Repose Room Remodeling Noted

One of the projects of the Legion Auxiliary in recent years has been the Room of Repose which has filled a real need in the community since there is no mortician or funeral home in the community. The room is on the north end of the building leased by W.W. Sudduth where his helpy-selfy laundry is located. He made the room and the adjoining kitchen available to the Auxiliary and they have provided furnishings, butane, and upkeep. Recently wall-to-wall carpeting has been laid in the large room, a new couch and chair added, and the furniture re-arranged presenting a more attractive appearance to the facility.

A storm door at the entrance, an awning, and overhead light at the door, which are planned will add much to the convenience, comfort, and looks.

The Room of Repose is available to everyone in the community with no charges and the members of the Auxiliary want everyone to feel free to use it when needed. With some expenditures necessary for the upkeep and maintenance of it, any one desiring to make a contribution may know that it will be appreciated. There is water and facilities for making coffee in the kitchen, also folding chairs to be used when necessary to provide more seating capacity.

Study Conducted On Coyotes, Livestock

There's a longstanding argument between stockmen and conservationists as to what effect coyotes have on livestock. What effect do the predators have on the Trans-Pecos region antelope herd?

Texas Parks and Wildlife Department biologists under project leader Tom Hailey of Marfa conducted a year-long study to determine the causes and degree of mortality of the Trans-Pecos antelope herd.

During the late fall and early winter of 1971 and 1972, 214,000 acres north of Valentine, Texas, were treated with compound 1080 in horsemeat.

This project was carried out by personnel of the Bureau of Sport Fisheries and Wildlife in cooperation with local landowners.

It had been noted for the past several years during annual antelope census that fawn production in the particular area has been below other parts of the Trans-Pecos.

After the Valentine area was treated with compound 1080 in 1971, the fawn crop swelled to almost 25 percent more than the rest of antelope country.

The 1971-72 winter was a mild one and, all other factors taken into consideration, the control of coyotes in the treated area is the primary reason for the increase in fawn production and survival.

A lamb on the Joe Eckert ranch south of Sanderson has six legs, as shown by the picture above as the lamb is being held by one of the sons of Mr. and Mrs. Eckert. The two extra legs protrude from the body about where the tail should be and there are two extra hooves, even though the legs appear to be one most of the length of the limbs. The tail is rather flat, according to Mrs. Eckert and is to one side of the extra legs of the buck lamb.

Thoughts

From The Living Bible

A man named Simon had formerly been a sorcerer there for many years; he was a very influential, proud man because of the amazing things he could do - in fact, the Samaritan people often spoke of him as the Messiah. But now they believed Philip's message that Jesus was the Messiah, and his words concerning the Kingdom of God; and many men and women were baptized. Then Simon himself believed and was baptized and began following Philip wherever he went, and was amazed by the miracles he did.
