

Income tax-paying time is with us again, and we ran across this item recently which we thought might lighten your burden as you begin to "settle up" with Uncle Sam.

Some of the replies sent in to the Internal Revenue Bureau in years past by harassed tax payers gives us a faint idea of what Internal Revenue employees have to face.

For instance, there's the taxpayer in Columbus, Ohio who wrote in the space at the bottom of the form which says, "Do Not Write in This Space"... he wrote... "Who the ... says I can't?"

Then there was a man in Chicago who attached the following quotation to his return: "From him that hath not, shall be taken away even that which he hath." That, you lugs, he wrote, is from the Bible. Apparently that's the only part you believe in."

From New York came an unusual return. The sender enclosed the proper forms and a check for partial payment. He also included one-half of a white shirt. He informed the bureau he would send the rest of the money and the other half of the shirt as soon as possible.

A taxpayer in Columbus, S. Carolina, mailed in no return, no check, no nothing... just a note. It read: "Dear Sirs: Where the H... is my refund? Yours truly..."

A fellow in Cincinnati who sent in his return and a set of false teeth wrote... "I haven't enough money left to eat on."

One husband in California wrote: "Please tell my wife I have received no refund check. All her friends have received refund checks. She accuses me of cashing our check and spending it. Please write and tell her as she won't speak to me."

Not all taxpayers seemed to be worried about their wives. A man in Indianapolis asked the bureau how much depreciation he could claim on his spouse. "She's all worn out," he explained, "Can't even cook my breakfast for me."

There was the Tennessee farmer who listed the following dependents: one cow, two horses, 25 chickens, 10 pigs, and one sick wife. But the ultimate in returns came from a taxpayer in St. Paul, Minn. He wrote: "Dear Boss: I've read these forms over and over again, and I can't understand them. So, if it means jail, I'm ready when you are ready."

What must be a unique survey was recently conducted by Lloyd's Bank of London. It had to do with the use that was made of 100,000 paper clips. It revealed: 14,163 twisted or broken during phone calls; 17,200 used to make temporary clothing repairs; 5,434 as toothpicks, 5,308 to groom fingernails; 3,196 as pipe cleaners; 19,143 as chips in card games; thousands dropped on the floor and swept away. Only 20,000 were used to clip papers together.

Sign-Up Period Begins For '64 Cotton, Grain

The sign-up period for the 1965 feed grain and cotton programs will begin February 8 and run through March 26. It was announced this week by the Farmer County ASCS office. Also during this time, farmers may make their intentions known regarding the Wheat Stabilization program.

Small cotton farms (those with original allotments of 15 acres or less) will not need to sign up for domestic cotton payments. Farmers with 15 acres or more of cotton will need to sign up in order to plant their allotments and receive their ASCS payments.

HAPPY WITH RESULTS... Two officers of the Friona Jaycee-ettes hold a check made out to the Friona March of Dimes in the amount of \$262.31, the amount raised by the organization in its Mothers' March last Friday. On the left is Mrs. Ronald Smiley, president of the organization, and Mrs. Virgil Phipps, vice president.

DRIVE BOOSTED

Mothers' March Nets \$262 For Dimes Drive

Friona's 1965 March of Dimes was given a rousing start last Friday by the Friona Jaycee-ettes, who collected \$262.31 in their door-to-door "Mothers' March."

The "march" was the third straight conducted by the Jaycee-ettes, and the receipts were the best ever. The amount was \$95 better than the \$167.54 collected in the drive last year, and the first year's drive brought in \$100, so the Mothers' March has gained progress each year.

"We were highly pleased with the results," stated Mrs. Ronald Smiley, president of the organization.

Some 13 club members participated in the march. Besides Mrs. Smiley, those taking part were Mrs. Gleas Reeve, Jr., Mrs. Cotton Renner, Mrs. Bill Nazworth, Mrs. Cliff Buckner, Mrs. Eust Martin, Mrs. Monte Fowler, Mrs. Virgil Phipps, Mrs. Robert Zetsche, Mrs. Bill Dufur, Mrs. Dale Williams, Mrs. C. H. Vezzey, and Mrs. Gerald Shaver.

Other activities are scheduled to continue the local drive. A "coffee day for the March of Dimes" will be observed by Friona merchants today, with all proceeds from coffee sales being donated to the drive.

Elementary school children are being given the traditional coin insert cards, which have spaces for 20 dimes.

Friona High School is plan-

ning a "Chinese" cake auction and exhibition basketball game the afternoon of Wednesday, February 10, with proceeds going to the local drive. No goal is set for the Friona MOD drive. About \$600 was contributed toward the drive last year, and the 1963 drive netted just over \$500. Bill Ellis is the local chairman of the drive.

Zip Code Business To Become Automated

Postmaster Wright Williams said today he has received word from Postmaster General John A. Gronouski in Washington, D. C. that a big "breakthrough" has now been made in electronic machines to "read" ZIP-coded addressed mail.

The Postmaster General said he expects to begin installing these sophisticated new machines in major post offices starting in about a year.

Mr. Williams said each machine will be able to sort, as well as read, at the rate of 35,000 letters an hour.

The offices to get this address readers have not been announced, but the local postmaster said they will have significant effects on mail in and out of each community regardless of whether it gets the new machines.

This is because they will speed incoming mail to smaller offices from major cities and step up the dispatch of mail deposited in smaller communities but which must be processed enroute at major mail massing points.

The postmaster emphasized,

however, introduction of the "seeing eye" device next year does not mean Zip Code isn't useful already. Zip Code, he explained, "is important in mail handling under the system of mail processing already in use which will continue to be in use as the basic system at most points. These machines will be just another step -- in conjunction with the mechanical mail sorting machines we have developed -- to help keep pace with the growing volumes of mail. Neither will the machines endanger jobs -- they will only help us meet expansion with minimum manpower expansion."

"If any of our patrons wish to have Zip codes for their use, if they will make a list and bring it to us at the post office we will be glad to furnish the correct Zip code. Be sure to include our Zip code on your return address (79035)," Williams stated.

(For list of Zip codes of cities in the Friona area, see list on another page of this issue.)

LOAD WATER HANDY... City manager A.L. (Jake) Outland, below, simulates a customer for load water at the City of Friona's new coin-operated facility across from the City Hall. The small picture at the left shows how quarters are used to operate the water system, which distributes 1,000 gallons of water for \$1. The new coin-operated facility will enable users of load water to get it on Sundays or holidays if needed. In the past this operation had to be attended by a city employee.

AT HUB

Monday Meeting To Discuss Pros & Cons Of Herbicide Uses

The latest herbicide recommendations for crops grown in Parmer County will be discussed Monday afternoon, February 8 at 1:30 p. m. at the Hub Community Center. The county-wide meeting is sponsored by the Commodity and Weed committees of the Program Building Committee. "Every farmer should attend this important meeting," states Joe VanZandt, Parmer County Agent.

Dr. Allen Wiese, Agronomist in Weed Control at the Southwestern Great Plains Research Center at Bushland, will be the main speaker on the afternoon program. Wiese is well known for his outstanding work in weed control research and has presented several programs in Parmer County previously.

Holly Sugar Corporation will have a representative at the meeting to discuss weed control in Sugar Beets for this year.

"If you have questions about weed control chemicals such as soil residues, results you can expect, rates, methods of application or others, make plans to attend this meeting," stresses VanZandt. Dr. Wiese should be able to give everyone a good reliable report on the various herbicides that are on the market, he pointed out.

Herbicide dealers have been invited to set up displays on the weed chemicals they are handling. This will enable the farmers in attendance to read leaflets on the chemicals available and discuss their weed control situation with the herbicide dealers.

"We were fortunate in getting Dr. Wiese scheduled for this meeting in early February as he has been busy getting his recommendations together. We believe this meeting on February 8 is the first county meeting Wiese will hold for 1965," County Agent VanZandt said.

Herbicides can be a big help to our farmers this year, especially since our labor situation looks doubtful, the county agent said.

"However, everyone must use caution in applying herbicides and know what results to expect and whether any residues will be left in the soil after this year's crop is removed. With the use of some chemicals you need to plan for next year's crop now," he added.

Everyone concerned with herbicides is urged to plan to be at Hub, Monday afternoon at 1:30 p. m.

Jack Nelson's Mother Dies

Services for Mrs. Blanche Nelson, 85, were conducted in Littlefield Monday. Mrs. Nelson was the mother of Jack Nelson of Friona.

Mrs. Nelson died Friday in a Littlefield hospital after a short illness. She moved to Littlefield in 1949 from Carlsbad, N.M.

Coffee Money Goes To Drive

Today will be "March of Dimes Coffee Day" in Friona, with all proceeds from coffee sales in the city going to the local drive.

Patrons taking their customary coffee breaks will donate the amount spent for coffee (or more if they desire) to the local March of Dimes drive.

HOW IT HAPPENED... Newman Jarrell holds a large rock which was thrown through a large plate glass window at Parmer County Implement Company sometime Sunday night, as burglars broke into the business on West Highway 60, along with three other businesses at Friona and Hub.

Burglars Hit Four Friona Area Firms

Four Friona area businesses reported break-ins which happened sometime Sunday night. Feeling the brunt of the break-in rash were Parmer County Implement Company, Red Barn Chemicals and both Hub Fertilizer offices (west of Friona and at Hub).

Parmer County Sheriff Charles Lovelace and Deputy Garland Freeman investigated the break-ins. They reported that a large plate-glass window at Parmer County Implement Company was smashed by a large rock, allowing the burglar or burglars to gain entrance.

Missing from the company's petty cash was about \$30. A typewriter and a pistol were taken from the Red Barn office. Money from the soft drink machine was missing from the Hub Fertilizer office.

At most of the locations, glass damage amounted to more than the actual loss to burglars, with the exception of the Red Barn Chemicals robbery, where entrance was gained other than through a window or glass door.

No arrests had been made early in the week, although officers were checking out leads.

Chiefs Can Clinch Historic District Championship Friday

The Friona Chiefs will be out to add a rare trophy to their trophy case Friday at Olton. The Chiefs will have an opportunity to clinch the District 3-AA championship, and win a district championship trophy.

The team has won several trophies in basketball, but not a single district championship trophy graces their trophy case. As far as can be determined, Friona never has taken a district title in the boys' division, despite winning with almost monotonous regularity in the girls' sport.

Friona was given the opportunity to clinch the district title even before (and regardless of its outcome) their game at Dimmitt next Tuesday when Dimmitt lost to Abernathy Tuesday.

Fans Told Of Dimmitt's Plans

Dimmitt school officials have notified the Friona officials that next Tuesday's district game will be played, as scheduled, in the new Dimmitt gymnasium, which has a seating capacity of only about 450.

The gym doors will be opened at 6 p.m. Tuesday, and it will be "first come, first served" on the bleacher seats. There will be no "B" game. The Squaws-Bobbies' game starts at 7 p.m., followed by the Chiefs-in-Bob. at tussle.

What it amounts to is the Chiefs have clinched at least a tie for the district crown with their 8-0 record. Dimmitt has a 6-2 mark, so even if the Chiefs should lose to both Olton and Dimmitt, they would end up with a tie.

But the Chiefs are not likely to be ready to accept a tie, especially after missing out on the undisputed district championship in football when Floydada scored a 7-6 win over Friona, deadlocking themselves with the Chiefs, and representing the district in the playoffs by virtue of their slim win over Friona.

All the chiefs have to do is whip Olton, a team they walloped, 74-27 in a game here January 19. And if their 47-point win in the earlier game should make for over-confidence, the promise of the long-sought-after district prize should make up the difference.

The Squaws, meanwhile, can clinch a tie for the championship by beating the Olton girls. The girls' division is making for a closer finish, since Dimmitt and Floydada are currently tied for second place behind Friona with identical 6-2 records.

Floydada, which handed the Squaws their first district loss in more than two years last Friday, 45-39, can knock Dimmitt completely out of the running by beating the Bobbies Friday.

The Whirlettes were entertaining hopes for at least a tie

for the title after their win over Friona, but were beaten Tuesday by Olton, to make their district record 5-3. Floydada will have to finish up its schedule at Abernathy next Tuesday, and will face the Abernathy girls who tripped Dimmitt, 74-52 this week.

So, it's going to be a thrill-a-minute in the girls' division, with the race ready to go right down to the wire, just as it appeared it would at the beginning of district play.

Team's District Winning Streak Snapped At 18

The Friona Squaws' 45-39 loss to Floydada at Floydada last Friday was the team's first loss in district play in more than two years.

The last previous loss in a district game had been on January 18 of 1963, when the Dimmitt Bobbies beat them, 46-32. Since that time, the Squaws had rolled to 18 straight district wins prior to Friday.

The Squaws are working on a 25-game winning streak at home, and have now won 18 straight district games at home, with that part of the current season at an end.

Friona's Chiefs, meanwhile, have rolled up 16 consecutive wins this season, which is believed to be the longest for the boys' sport in the school's history.

Current Comments From . . .

GRUVER, . . .
Looking for that newspaper wasn't easy this week. Six inches of snow on my forty acres hid just about everything except January bills. According to one page of the paper, it has been one year since the U. S. Health report on cigarette smoking. And it seems that about five per cent of the adult people have laid aside the habit. According to the next page of the paper, the tobacco stocks took a sharp turn upward for one of the best gains of the year. This must be a true indication that people are smoking less but enjoying it more.
The Gruver Independent

FARWELL, . . .
Truck farmers in southern California and Arizona are really having a tough time getting their produce in and to market, we understand. Downstate here in Texas, it's the same story. Of course, we have always used considerable imported labor seasonally here on the Plains, but we are extremely fortunate in that our topography and cropping practices are such that we are already largely mechanized and cutting off the bracero help will simply spur the trend to all-machine farming.
The restrictions our society forces upon the employer-employee relationship usually don't make much sense in the long run, and they often turn out to be deterrents to the full employment that everybody seems to want to achieve. Cutting off this source of farm help when there is no suitable replacement available is a study in the folly of government interventionism.
Hop Graham in the State Line Tribune

Writing in the Cincinnati Journal of Medicine on government regulation in the drug industry, C. Joseph Stetler says: "There is no doubt that the industry has been hurt by the Drug Amendments of 1962 and subsequent regulations. . . Ten major U.S. pharmaceutical firms have reported curtailment of research and development operations, and even those which report increased expenditures in these fields claim that they have had to cut back on the number of substances being investigated because of added costs and paper work. We believe it is necessary, at long last, to challenge the steady erosion of our freedom by a regulatory agency; in effect to attempt to halt the steady descent of the pendulum."

Columnist John Chamberlain observes: "Dr. James B. Conant, the former president of Harvard, has been doing yeoman work in his effort to focus attention on the qualitative deficiencies of American education. Before our Washington, D. C., legislators begin pouring in the money to subsidize current educational practices, they might fruitfully ponder what (the) effect of too much money to support the existing institutional arrangements is likely to be."

HEREFORD, . . .
Received some literature the other day on what's new with records. Featured now are musical sounds for children to start with age -- one month. Supposed to be the biggest thing since baby-sitters. It may soothe and comfort but it sure won't feed 'em!

CANADIAN, . . .
Editor Jim Russell once wrote in The Belton Journal: "Any time you have any news, call us. Even if the news isn't fit to print, we'd like to hear it." And so would we!
The Canadian Record

CANYON, . . .
Sheriff Slim Johnston called a meeting of Canyon folks Tuesday night to discuss the hot check law. Senator Grady Hazlewood is working on a bill that might make giving a hot check uncomfortable business.
The present hot check law makes it difficult to prosecute nefarious paper hangers.
For instance, under present law it's not even an offense to give a worthless check for labor. Labor was not included in the statute.
We heard the hot check story of the decade at the meeting. An elderly man gave an Amarillo sporting goods store a check for a pair of track shoes and \$5 in cash. He said he would leave the track shoes at the store an hour or two and be back for them.
"I think I'll just take another pair of those track shoes," he told the store manager upon his return. He gave another check, drew \$5 more in cash and asked permission to leave both pair of track shoes in safe keeping for a few hours.
He never returned but his checks did.
Troy Martin in the Canyon News

Do you know that even under the best growing conditions different flowers and vegetables sprout in different lengths of time? 5 to 7 days is sufficient for seeds of radishes, beans, peas, cucumbers and sweet corn while carrots, beets and parsnips take 10 to 15 days. Parsley seed usually takes 3 weeks to sprout and seeds of columbine, larkspur and forget-me-not take as long as parsley or a few days longer to break through the ground.

Foliage plants are quite as attractive as flowers in the garden. Coleus is, of course, the plant most gardeners think of first when colorful foliage is mentioned. It is easily grown from seeds and available with many color combinations.
But the big, beautifully marked leaves of caladiums, the feathery green of a new marigold named Irish Lace, and the brilliantly-colored leaves of any of the amaranths are other possibilities.

Grand Jury Indicts 21 In Busy Session

A Farmer County Grand Jury returned 21 indictments in a busy session last Friday, January 21.

Five of the indictments were for worthless check charges, six were for theft, three for burglary and two for forgery. One person was charged with murder with a motor vehicle.

Released on \$4,000 bond after the latter charge was Tony Ray White of Lindsey Oklahoma, who is charged with leaving the scene of the accident after his automobile struck one in which Mrs. H.C. Moore of Clarksville was killed and her husband injured. The crash occurred west of Friona on U.S. Highway 60. Also released on bond of \$2,000 each on theft charges are Stephen Nordberg, John C. Andrus, Dawson J. Lyon, Edward Podlaskowski, and Gary

Dosher. Released on bond on a charge of burglary is Hurley Wayne Jones, while Jackie Hooper is out on bond on a worthless check charge.

Others in custody as a result of the Grand Jury indictments are Allen Wayne Oliver, charged with car theft, James Nesmith, charged with forgery, Bill Garibay and Willie Hatton, charged with theft, David Chapman, charged with theft and burglary, and Felix Sanchez Castello, on a burglary charge.

First cannon balls were made of stone.

February 8-13 Named For Farm Bureau Drive

The week of February 8-13 has been officially designated "Farm Bureau Membership Week" in Parmer County. The local county farm organization will have a special enrollment drive underway as part of a statewide effort to push Farm Bureau membership in Texas to 100,000 by Oct. 31.

An official proclamation signed by County Judge Loyde A. Brewer called for citizens "to give due recognition to this observance honoring the Parmer County Farm Bureau."

Earlier Gov. John Connally proclaimed the same period as "Farm Bureau Membership Week in Texas". The statewide drive is to be launched with big area rallies Feb. 2 in San

Antonio and Feb. 4 in Lubbock and Dallas.

Don Certes of Bovina is chairman of the local county Farm Bureau Membership Committee. The organization will hold its membership "kick-off meeting" on Friday, February 12, at a meeting in Farwell.

The committee chairmansaid every farmer and rancher in the county is needed "as a member and a leader" by the Farm Bureau.

"Each of us in agriculture has too great an outlay in our business not to do all that we can to protect our investment in capital, time, and labor," he declared.

The Judge's proclamation pointed out the importance of

agriculture "to the economic well-being" of the county, and the high standard of living made possible by the "productive efficiency of our farmers and ranchers."

Following is the text of the proclamation:

"WHEREAS, agriculture is essential to the economic well-being of Parmer County, our State and the Nation; and

"WHEREAS, the productive efficiency of our farmers and ranchers have enabled our citizens to enjoy the highest standard of living in the world; and

"WHEREAS, this record of achievement has resulted from educational and technological advancement in agriculture

under a free choice system; and

"WHEREAS, farmers and ranchers have recognized the value of joining together in organized effort to promote and protect their interests; and

"WHEREAS, three out of four farm and ranch families in this Nation belonging to a general farm organization are members of the Farm Bureau; and

"WHEREAS, Farm Bureau is a free, independent non-governmental, voluntary organization of farm and ranch families united for the purpose of analyzing their problems and formulating action to achieve educational improvement, economic opportunity, and social advancement, thereby promoting the national welfare;

"NOW, THEREFORE, I Loyde A. Brewer, County Judge of Parmer County, do hereby designate February 8-13 as FARM BUREAU WEEK in Parmer County, and urge our citizens to give due recognition to this observance honoring the Parmer County Farm Bureau,

Services Held

Funeral services were conducted in Friona Monday for Mrs. Irene Cristell Hollman, 44, who died Saturday following a lengthy illness.

Mrs. Hollman was survived by her husband, Scott, a daughter, Mrs. Karen Sue Hughes, Dumas, a son, Robert George, her parents, Mr. and Mrs. Robert S. Henderson, Friona, a sister, Mrs. J.V. Bouldin, Friona, and two brothers, Vestal Henderson of Lubbock and Thurman Henderson of Eldorado, Okla.

Services were held at Friona Methodist Church. Officiating was Rev. V.J. Lowrance of Lubbock, and Rev. Russell McAnally of Friona.

"IN OFFICIAL RECOGNITION WHEREOF, I hereby affix my signature this first day of February, 1965, Signed Loyde A. Brewer, Parmer County Judge."

PAYS NOTE, Mrs. J. B. McFarland is shown presenting H. E. Barnett of Parmer County Community Hospital with a paid-off note in the amount of \$10,000. The hospital had borrowed the amount of money from Mrs. McFarland some years ago. A long-time friend of the hospital, "Mrs. Mac" has donated an additional \$10,000 to the hospital the past two years, bringing her total gifts in that time to \$20,000 with the paying off of the present note.

FROZEN FOOD COLD RUSH!

Yes, there's "gold" in them thar hills, and we mean COLD CASH SAVINGS in the mountains of fine frozen foods in Moore's freezer cases. Wilson Buys Shorthorn Bull

Andrew H. Wilson, Friona, has purchased a polled senior yearling bull, Red Improver P312477, from F. E. Kepley, Farwell.

The new animal is a registered Milking Shorthorn and the record of the transfer of ownership has been made by the American Milking Shorthorn Society at Springfield, Missouri.

Rep. Clayton Named To Five House Committees

Representative Bill Clayton of Springlake was named to five standing committees in the Texas House of Representatives this week by Speaker Ben Barnes.

The Springlake Legislator will serve on the following: Aeronautics, Conservation and Reclamation, Municipal and Private Corporations, Public

Health, State Affairs.

The 26 year old Barnes, youngest Speaker to serve in this century, said: "Many hours of study have been devoted to the make-up of these committees and every effort has been made to place members on committees which will permit them to render service not only to the people in their district, but to the entire state as well. Enjoyed working with Mr. Clayton during the past session and look forward to working with him again in the days ahead."

Joins Society

Evelyn Jane Hart, Rt. 2, Friona, has been named to junior membership in the American Milking Shorthorn Society recently, Kay Schooley, Secretary of the Society, has announced.

Economical design—heavy crankcase with blocks and heads cast in pairs.

Heavy crankshaft and connecting rod design—with precision trimetal inserts, torsional vibration damper.

Cool running engine—controlled cooling system—large capacity water pump

flows 95 GPM at 1800 RPM. Cooling system includes one-piece water outlet manifold, dual thermostats.

Full pressure lubrication throughout—oil system is joined with a large capacity gear lube pump that delivers 12 GPM @ 1800 RPM.

GENERAL DESCRIPTION

The Minneapolis-Moline HD 800-6A Power Unit is an 800 cubic inch engine capable of operating at 1800 RPM on continuous duty and 2000 RPM intermittent duty. At 2000 RPM this unit produces 250 horsepower with LP gas and 240 horsepower with natural gas. The HD 800-6A is a uniquely dependable, long life, heavy duty engine built for 24-hour-a-day service. Approximate weight—stripped, but with PTO, legs and instruments . . . 3,500 lbs.

On The Farm In Parmer County
By JOE VAN ZANDT
County Agent

BUG ANTI-FREEZE
Some bugs make their own anti-freeze! That's why cold weather doesn't kill many bothersome pests. When temperatures rise, they're ready to start giving you trouble again. Although sub-freezing temperatures slow down insect activity, nature provides many pests with ways of beating cold. Some manufacture their own glycerol, an effective anti-freeze similar to the product made by man for the same purpose.
When temperatures drop below the freezing point, these insects -- by some process not yet fully understood -- gradually adjust to it. The glycerol they manufacture gives them the hardness to withstand all but the most extreme cold weather. Among the insects that can make their own anti-freeze are certain species of ants, beetles, aphids, cankerworms, and flies.
Nature gives another protection from the cold, too. Most go through a metamorphosis which includes a dormant period when they are completely inactive. If insects stay dormant -- in the pupal or larval stage -- during the winter, they often survive the cold weather. Some insects have been found frozen in solid ice and thawed to full activity.
Animal pests can withstand extreme cold, too. Mice simply grow thicker fur. Many species of squirrels and other warm-blooded animals hibernate when the mercury drops.

Insect and animal pests, like man, have learned to live with their surroundings. Very cold weather rarely controls these pests effectively.
WEED CHEMICAL MEETING
Everyone should plan to attend the herbicide meeting, Monday, February 8 in the Hub Community Center starting at 1:30 p. m.
Dr. Allen Wiese will bring us all up-to-date on the latest recommendations for chemical weed control on our major Parmer County crops.
Holly Sugar Corporation will also have a representative to discuss weed control in sugar beets as a part on the afternoon's program.
If you have any questions about weed control, Monday afternoon, at Hub, is the time and place to get them answered.
TERMITE DANGER
Metal shields, as installed, are ineffective in protecting homes and other structures from termite attacks. Recent studies have shown that metal shields are ineffective usually due to installation faults.

County Agent--

(Continued from page 6)

Inspection of crawl spaces of 310 homes in Georgia revealed nearly 1,500 installation defects, all sufficient to allow an avenue of entry for termites. Most important, not a single home had properly installed metal shields. Several of the homes contained evidence of termite activity. In some instances, these insects will actually bypass the shields to attack the wood structure.

A better method than metal shields for termite protection is chemical treatment of the soil. Several good chemicals such as chlordane and dieldrin are available for this purpose. They should be applied to the soil prior to construction, or if need be, in trenches adjacent to foundations after the building is completed.

Also, wooden sills and joists in contact with concrete should be treated with chemical preservatives for added protection.

Further information on protecting homes and other structures from termite attacks may be found in Home and Garden Bulletin No. 64, "Subterranean Termites, Their Prevention and Control in Buildings." A copy of this publication may be obtained at the County Agent's office, in the Courthouse.

AGRICULTURAL CHEMICALS CONFERENCE
In the Union Building on the Tech Campus in Lubbock on February 11 and 12, an Agricultural Chemicals Conference will be held.

This two day conference will cover herbicide research, fertilizer research and usage, business management, pesticide residues, entomology developments. It has been planned primarily for Agricultural Chemical dealers, distributors, processors and manufacturers, but is open to anyone interested in chemicals.

Dates Given For Jr. Show

Dates for the annual Parmer County Junior Livestock Show have been set. The show will be held the first weekend in March, the 4th, 5th, and 6th in Friona.

M.C. Osborn of Friona will once again serve as director of the show.

Mabry's Project Aids Penetration Problem

All irrigators experience one common problem -- uniform penetration of water throughout the entire irrigation block.

Annually many farmers produce large yields in certain areas of their fields and produce small amounts in other areas, where the irrigation water fails to penetrate the soil adequately. Lands with degrees of great slope run water so rapidly that it seldom has time to sufficiently wet the soil producing crops.

Walt Mabry, of Hub, in Parmer

County, has taken a giant step in solving his problem of water penetration. In 1963 Mabry, with the aid of the High Plains Underground Water District, installed an irrigation water return system and put it to good use. During the initial year of operation he salvaged 62 acre feet of irrigation water.

Mabry discovered that by using larger heads of irrigation water and by re-circulating the water he could obtain uniform penetration in the same length of time that was normally re-

quired to just water the irrigation plot prior to installation of a tail water system.

In 1964 20 acres of grain sorghum were watered four times with this return system and twice with irrigation wells. The plot produced an average of 6800 pounds of grain sorghum per acre, which was a record for the farm.

Records of the High Plains Water District show that during the last two years the return system is recovering 20 percent of the water pumped from the irrigation wells.

on the cleanability of the clothes. The detergent should be given time to do its work, (at least 5 or 6 minutes) before adding the bleach. Second, do you use one detergent one time and another brand another time? There is sometimes a build-up of detergent in clothes, and mixing detergents cuts down on the effectiveness. If this is your condition now, try this: "Strip" your clothes of the build up of residue by using 1/2 to 3/4 cup of water softener in the machine (the amount depends on size of machine) using hot water, let clothes go thru cycle. Most usually they are clean when cycle is completed and no soap or detergent was used. After this, select a brand of detergent and stay with it, using it in the right amount (measure, please do) and your clothes should take on a brighter look. Never mix detergents, they will not work together.

What is your question? Send to the County Extension Office, Home Dem. Agent, in Farwell Courthouse. It will be answered in the next column.

COUNTY JUDGES AND COMMISSIONERS TO CONFERENCE AT A&M-- County judges and commissioners from at least 100 Texas counties are expected to attend the seventh annual conference for this group at Texas A&M University, February 14-16. Total attendance is expected to total 300. The conference is sponsored by the County Judges and Commissioners Association of Texas and the Texas Agricultural Extension Service.

Horse Program Begun For County 4-Hers

A 4-H Horse program for Parmer County was started on January 26. Eight 4-H leaders from over the county met in

Bovina and made plans for 4-H Horse project groups in each community area of the County.

Those in attendance at the meeting where plans for a County 4-H Horse Program were made included: from Bovina, C.E. Trimble, Robert Read and Jess Walling; from Farwell, Pike Jordan and Mitz Walling; from Friona, Homer Linderman and from Lazbuddie, Jack Templar and Jack Smith.

The 4-H Horse Program is open to any boy or girl, age 9 to 19, who wants to join a 4-H Club and have a horse project. 4-H members with horse

projects can expect to learn: safety, breeding, feeding, care, training and showing of horses and other interesting horse activities.

A County-wide 4-H Horse Show is planned for around June. Winners in the County Show will be eligible to compete in District Show.

If you want to learn more about Horses and the 4-H program, write your name, address and phone number on a card and send it to the Parmer County Agent, Box 285, Farwell, Texas. You should do this immediately as the horse groups want to get started with their educational and training meetings real soon. If the County Agent has your name, you can be assured of getting in on the first of the horse project meetings.

NOVEMBER CASH RECEIPTS FROM FARM MARKETING IN TEXAS DOWN-- Texas farmers and ranchers received \$254.7 million during last November from the sale of all crops, livestock and poultry products, according to the Texas Crop and Livestock Reporting Service. Cash receipts for all marketings were down 18 per cent from Nov. 1963. The total cash receipts came from crop sales of \$166.1 million and livestock and livestock products sales of \$88.6 million.

NUMBER OF FARMS IN U.S. DECLINES BUT THEIR SIZE INCREASES-- Number of farms operated in 1964 in the U. S. decreased 3% from the previous year to 3,349,000. Average farm operator in 1965 will run a unit averaging about 341 acres -- nearly a fifth larger than 6 years ago.

Troy Steinbock Is 4-H President

The Lazbuddie Joint 4-H Club met Jan. 26 in the School Cafeteria to elect new officers. Katie Blackstone acted as president. The newly elected president is Troy Steinbock.

Other newly elected officers are Katie Blackstone, vice president; Delayne Steinbock, secretary and treasurer; Dale Blackstone, council delegate; Steve Foster, alternate council delegate; Ann Blackstone, reporter; organization leaders are Mrs. Ralph Broyles, Max Bush and Wayne Clark.

At the business session the club decided to help with the March of Dimes.

Twenty-five members and six adults were present.

House unit votes to extend Reserve training.

At Home In Parmer County

By CRICKET B. TAYLOR
County HD Agent

CHANGING WORLD BRINGS NEW PROBLEMS

We are living in a world of wonderful time-saving, convenient and beautiful household equipment. Every homemaker has or dreams of having some of these "push-button" conveniences. The highly competitive advertising, the many companies, and many models by each company make the selection of appliances and equipment difficult and can be a problem to the average homemaker.

Consumer information about products and appliances can save the homemaker time, money, and dissatisfaction. Knowledge of what is available, how to choose the product to fit individual needs in relation to resources, and most important is how to use the product correctly, whether its an automatic dishwasher or household cleaning agents.

Programs on consumer information for homemakers are made available through the County Extension programs available to all homemaker groups and Home Demonstration Clubs. Home Economics is no longer just "Cooking and Sewing" but with new products, new materials, and a change in family living pattern, the emphasis is placed upon broader programs to meet today's need. For instance, clothing today's family does not mean just learning to construct clothing, in fact a much greater part of our clothing is bought ready made than made at home. Broader programs are included in County Extension Programs. They may include, selection of clothing for good appearance (includes line and design for various figures), spending the clothing dollar to meet needs of all family members, and alteration of ready made dresses and many other programs which Mrs. Homemaker can benefit.

QUESTION OF THE WEEK:

Why do my clothes look yellow? I use bleach and it does not seem to help.

ANSWER:
There can be several reasons for this. First, when do you add bleach? If bleach is added at same time that detergent is added -- neither the detergent nor the bleach have any effect

Presented For Public Information By The

Friona Junior Chamber of Commerce

Misses Floyd And Outland Are New FHA Chapter Presidents

FRIEDA FLOYD

The two chapters of the Friona Future Homemakers recently elected officers for 1965. Frieda Floyd was chosen president of the Dusk Chapter and Linda Outland was chosen president of the Dawn Chapter.

Other new officers of the Dusk Chapter are Carolyn Hamilton, vice president; Janet Rushing, secretary; Linda Fallwell, treasurer; Terri Lynn Wilson, parliamentarian; Gay Wyly, sergeant-at-arms; Lou Cochran, reporter; Kara Beth Sides, historian; Sherry Tannahill, song leader; and Cindy Ingram, pianist.

Other officers for the Dawn Chapter are Darlene Wilson, vice-president; Susie Carmichael, secretary; Judy Phipps, treasurer; Janet Stevick, parliamentarian; Pat Tannahill, sergeant-at-arms; Brownie Cole, reporter; Glenda Mings; historian; Darla Howell, song leader; and Gail McGlothlin, pianist.

Advisors for the groups are

Mrs. Dalton Caffey and Miss Beth Ashbury.

Five girls are presently working on their state degrees, which is the highest honor an FHA girl can attain, according to Mrs. Caffey. These girls are Karen Osborn and Sharon Dean, both seniors, and Frieda Floyd, Janet Stevick and Linda Outland, all juniors.

The local chapters are making plans to attend the coming Area 1 convention in Amarillo. All officers will be formally installed in May; they will then be eligible to attend an annual summer FHA workshop held at Texas Tech in Lubbock.

This year marks the first time there has been two local chapters of the FHA in the Friona Schools. There are 44 girls in each chapter including girls from grades 9 through 12.

The next regular meeting of the organizations will be Feb. 9 at 8:25 a.m. when Mrs. Joe Talley will present a book review.

LINDA OUTLAND

Mrs. Farr Has Bridge Luncheon

Mrs. Alton Farr was hostess to a bridge luncheon and party for 12 local women last Thursday.

The luncheon menu consisted of chicken spaghetti, brown rolls, cranberry salad, green beans with mushroom sauce, lemon and pecan cream pies, tea and coffee.

Mrs. J. T. Gee won the high prize for the afternoon bridge games.

Those present were Mesdames Tom Jarboe, Baker Duggins, Jimmy Smith, Mack Ragsdale, Homer Lindeman, Wesley Foster, Bill Beene, Bill Lyles, J. T. Gee, George Taylor, Flake Barber and James Crump.

Be thankful if your job is a little harder than you like.

Of Interest To THE WOMEN

NEW WORTHY ADVISOR -- Karen Osborn receives the gavel of authority from installing officer, Mary Ann Roberts, as she is installed Worthy Advisor of the Friona Chapter of Rainbows.

Coffee In Bandy Home

Mrs. Bill Bandy was hostess at a coffee in her home from 9:30 to 11:00 a.m. Tuesday honoring Mrs. Raymond Hughes and Mrs. Doyce Barnett, who are moving to other communities.

Others present were Mesdames Eugene Boggess, Johnny W. Hand, V. R. Ferguson and Ralph Robinson.

Son Born To Kent Family

Mr. and Mrs. Bill Kent of Friona became parents of a baby boy, Jan. 29, at Clovis Memorial Hospital. William Wade Kent, born at 11:24 p.m., weighed 7 lbs. 4 oz. He is the first child for the couple.

Grandparents are Mr. and Mrs. W. B. Fulgham of Friona and Mrs. Dud Kent of Sudan. Great grandparents are Mr. and Mrs. S. L. Fulgham of Henrietta.

Kolwvia Circle Meets In W. M. Massie Home

Twenty members of Kolwvia Circle of Woman's Society of Christian Service of Friona Methodist Church met Wednesday morning in the home of Mrs. W. M. Massie.

Mrs. Jerry London, circle chairman, presided over the brief business session.

"The Nation and the Kingdom" was the title of a program presented by Mrs. Bob Owens and Mrs. Truitt Read, a quiz on new nations in the news was directed by Mrs. Guy Latta. Excerpts from "I Lie on My Mat and Pray," were also a part of the program.

Members present were Mesdames A. S. Grubbs, J. G. McFarland, Guy Latta, Ed Clark, W. E. Teel, E. H. Bradshaw, G. E. Tannahill, Billy Sides and Billy Johnson.

Also Mesdames Richard London, Russell McAnally, W. M. Stewart, J. H. Boyle, David Moseley, M. B. Buchanan, Danny Smith, Bob Owens, Truitt Read and W. M. Massie.

Mrs. Bill Taylor was guest.

It's easier to stitch cotton canvas or duck if you will rub soap along seam lines before sewing.

Brenda Hawker Gives Local Club Program

Brenda Hawker, Friona's exchange student from Australia, presented a program on her homeland to the members of Friona Woman's Club at the regular meeting Jan. 27.

The meditation for the evening was "The Lord made us all neighbors; Let knowledge make us friends."

Mrs. Joe Moyer, president, led the business session. Committee reports were given and the coming District Convention was discussed. Roll call was answered by 17 members giving facts about Australia.

Miss Hawker talked informally about education, farming, ranching and homelife in Southern Australia, where she lives.

"Children start school at age five and go through six

forms before entering a six year high school," she related.

She also told of the uniforms worn daily to school by the students. Education is under government control in her country and everyone pays to go to school, with the result that there is not so much "stigma" connected with "dropping out" of school as there is in the U.S.

The club presented Miss Hawker with a silver charm and a book of Texas fiction and history in appreciation for her program.

Hostesses for the evening were Mrs. Edith Lillard and Mrs. Carl Maurer. The two guests were Miss Hawker and John R. Cook.

The next meeting will be a patriotic program, "Flags of America" on Feb. 10.

Varied Circle Program Presented To WSES

The Mekka Circle of the local WSES met Wednesday morning at the home of Mr. J. T. Gee.

Mrs. Eugene Ellis, vice chairman, directed a short business session.

The study, "The Nation and the Kingdom" was led by Mrs. U. S. Akens and Mrs. Arthur Drake.

The devotional was given by Mrs. Jim Shaffer. Her subject was "The Judgment."

A dramatic reading, "Look Up Free" was given by Mrs. I. T. Graves, Mrs. Ralph Shelton, Mrs. Eugene Ellis, Mrs. Bill Raybo, Mrs. Floyd Rector and Mrs. J. T. Gee. Mrs. Gee gave a report on the new international language, Esperanto.

"A Case For Freedom" was presented by Mrs. Howard

Lutz. Mrs. A. L. Outland gave a talk on Cambodia. Mrs. Arthur Drake led a discussion on the World Service Chart.

The Circle will meet with Mrs. A. L. Outland on Feb. 10.

Hinkle Baby Named For Grandfathers

Thomas Clyde Hinkle, who was born in St. Anthony's Hospital in Amarillo at 12:21 a.m. Wednesday, January 27, was named for his two grandfathers.

His parents are Mr. and Mrs. Rodney Hinkle, Panhandle. Older brothers are Delwin Ray and Rodrick Elain. He weighed 8 lbs. 12 ozs. at the time of his birth and his mother are now at home.

Maternal grandparents are Mr. and Mrs. Thomas L. (Buddy) Lloyd, Friona, Mr. and Mrs. Clyde Hinkle, Floydada and Mr. and Mrs. Casey Adams, Amarillo, are paternal grandparents.

Great-grandmothers are Mrs. Henry Lloyd, Friona; Mrs. Julia Lloyd, Bovina; and Mrs. W. F. Hinkle, Floydada.

Class Meets In R. Taylor Home

The Gleaners Sunday School Class of First Baptist Church met in the home of Mrs. Ralph Taylor for their regular monthly business and social meeting.

Mrs. Vernon Roberts presented the devotional. During the social hour refreshments were served by the hostess to Mesdames Sam Williams, L. R. White, Joe Douglas, Wesley Hardesty, Pat Busby, J. T. Carroll and Vernon Roberts.

The best reason for working your tail off today is . . . tomorrow!

Joan Willard Weds Tommy Sanders In Double Ring Home Ceremony

Joan Willard became the bride of Tommy Jay Sanders Friday evening, Jan. 22, at the bride's home in Kress. She is the daughter of Mr. and Mrs. E. V. Willard of Star Route, Kress, and the groom is the son of Mr. and Mrs. John D. Sanders of Friona.

A classmate of the couple, from Wayland Baptist College, Rev. W. L. Jones, read the double ring vows beneath an archway of greenery and white flowers. A white satin prayer pillow was used and baskets of gladioli and greenery flanked the archway.

Mrs. Bill Lee of Plainview attended the bride as matron-of-honor and Mrs. Steve Morgan of Kress was bridesmaid. They wore identical dresses of mint green wool.

Don Collingsworth of Carrollton was best man and Jack Sharp of Hart was the groomsman.

Mrs. Jesse Willard of Dimmitt, sister-in-law of the groom, sang some wedding selections before the ceremony.

The bride was given in marriage by her father. She wore a two-piece white wool suit and ruffled chiffon blouse. Her brief veil was attached to a floral center. The bridal bouquet consisted of red roses atop a white satin Bible.

At the reception following the ceremony, Connie Sweatt of Hart and Mrs. Melvin Vineyard of Kress served the guests. Eula Johnson of Amarillo registered the guests.

The serving table was laid

with a white linen cloth and centered with white mums and green candles in gold candelabra. The three-tiered wedding cake featured an archway with bride and groom figurines and sweetheart roses.

Special guests at the wedding were the great-grandfather of the bride, H. K. Hartley of Meade, Kansas, and the groom's family, Mr. and Mrs. John D. Sanders and David of Friona.

Following a wedding trip to southern New Mexico the new Mr. and Mrs. Sanders will be at home at 807 Houston Street in Plainview where both are attending Wayland Baptist College. She is an assistant technician at Plainview Hospital and the groom works in the Plainview school system.

I CAME FROM HERE... Mrs. Lee Spring shows Friona scouts Pattijon Talley and Vivian Williams her native country of England on a world globe at a meeting of Troop 244 Monday. Mrs. Spring told the scouts about scout work in England.

CAROL'S CORNER

by Carol Ellis

At the County Teachers Dinner Meeting in Farwell last Monday evening, Mrs. Elizabeth Little of Corpus Christi was the main dinner speaker. Mrs. Little is the immediate past president of the Texas State Teachers Association and, as such, was chosen to attend an International Conference of World Educators which was held in Paris, France last summer. She spoke to the Parmer County teachers on her experience there. She represented all of Texas at the conference.

The preceding Sunday afternoon Mrs. Little was in Friona and was guest of honor at a covered dish supper in the home of Mr. and Mrs. Troy Ray. Those who attended were Mr. and Mrs. Aubrey Rhodes, Miss Jo Phillips, Mr. and Mrs. David McVey, Mr. and Mrs. J. T. Gee, Mr. and Mrs. Alton Farr, Mrs. Maurine Dunn, and Glen Dunn of Muleshoe.

On Monday Mrs. Little visited the Friona Schools and addressed a meeting of the Future Teachers Association.

Pattison Foster is between semesters at Arizona State University and is home for a few days with her parents, Mr. and Mrs. Wesley Foster.

Mr. and Mrs. O. J. Beene were treated to a trip to Las Vegas, Nevada last weekend. Beene, as one of the top 12 men in his company, South Coast Life Insurance Company, was awarded the trip. While in Las Vegas they saw the production of "Hello America" which is a stage play based on American historical events. Mrs. Beene told of some fantastic staging done in the presentation of the sinking of the Titanic and the San Francisco earthquake.

The also saw several popular entertainers in person, Pearl Bailey, Connie Francis and the Smothers Brothers were a few they mentioned.

The Beenes left for the trip last Friday and returned "rather hurriedly" on Monday in order to be back to Farwell in time for the teacher's meeting with Mrs. Little.

The Mack Ragsdales moved from South of town this past weekend. They will be living at 809 Woodland in the home of the Paul Jeskos. The Jeskos have recently moved to Mt. Pleasant.

Mr. and Mrs. L. G. Blake also moved into town recently. Their home is at 1211 Elm where Dr. and Mrs. J. L. Humphrey were living. The Humphreys will be staying at the Golden Spread Motel until their new home, now under construction, is completed.

Mr. and Mrs. George Taylor and Lisa, and Mr. and Mrs. Ronnie Wood attended the fat stock show in Fort Worth last week. They picked up Taylor's sister in Lamesa on the way. Betty Taylor, and while in Fort Worth the group attended a reunion of the Taylor family.

Mr. and Mrs. Frank Spring visited in Odessa last weekend. They were accompanied by her mother, Mrs. T. W. Collins of Canyon. The group visited with her brother and family Mr. and Mrs. Joe Collins.

Representatives from Friona's federated women's clubs met recently at the home of Mrs. H. K. Kendrick for a planning session for the Caprock District Federated Convention to be held in Friona in March.

Representatives from Bovina and Farwell were also present. Those attending from Friona were Mrs. Ernest Osborn, Mrs. Ralph Wilson, Mrs. Joe Moyer, Mrs. John Benger and Mrs. Baker Duggins.

At the planning session, various committees were assigned and projects for each club were designated. Progressive Study Club will be hosts for a morning coffee. Friona Women's Club will host an afternoon tea. The Modern Study Club and the WSCS of the Methodist Church will serve the noon luncheon. Bovina and Farwell Clubs will host the board dinner and the Plainview Club will be in charge of decorations.

If you want your father to take care of you, that's paternalism.

If you want your mother to take care of you, that's maternalism.

If you want Uncle Sam to take care of you, that's Socialism.

If you want your comrades to take care of you, that's Communism.

If you want to take care of yourself, that's Americanism.

News From LAZBUDDIE

BY MRS. C. A. WATSON

Mrs. Earl Ellis, Lazbuddie homemaking teacher attended the Area I service conference at Dimmitt last week. Guest speaker was Dr. Willis Vaughn Tinsley of Texas Tech.

Mr. and Mrs. Claud McDougal, Hereford, and Mr. and Mrs. Everett Hinkson, Holbrook, Ariz. were Sunday guests in the Frank Hinkson home.

Mr. and Mrs. Leon Smith Sr. and Tony attended funeral services for Mrs. Scott Hollman in Friona Monday afternoon.

Wanda Ketchum, Lubbock, Mrs. Mona Davidson and daughter, Clary, and Edward Ketchum, Amarillo, were weekend guests in the E.C. Ketchum home.

Lazbuddie residents attending the fat stock show at Fort Worth this week are Willie and Rex Steinbock, Mr. and Mrs. Jimmie Seaton and Ricky, and Mrs. Wayne Clark and Loy Dale.

Mr. and Mrs. Ervin Kaskey and daughter Nadine are new residents of this community. Nadine is a sixth grade student.

Mr. and Mrs. George Haskins moved to Levelland Tuesday. They have lived in the Lazbuddie area several years.

Mr. and Mrs. Charlie Watson, Don and Leon attended services at the Primitive Baptist Church in Clovis Sunday.

Eva Dean Ivy, a junior at Texas Christian University, Fort Worth, returned to classes Monday. Her mother, Mrs. Shanks Ivy, accompanied her to Fort Worth and will return by way of Abilene to visit her sister, Mrs. Dub Cook.

Mr. and Mrs. Gary Albertson from Edmond, Okla., visited in the home of her mother, Mrs. Fred Gallman, last week.

David Smith, son of Mr. and Mrs. Leon Smith recently joined the United States Marine Corps and is stationed at San Diego.

The community expresses sympathy to Mr. and Mrs. John Littlefield and children on the death of his mother, Roxie Littlefield, 85, who passed away in a Clarendon hospital. Those from Lazbuddie attending the funeral services in Clarendon

Cleaning Agents Discussed At HD Club Leader Meet

A meeting of Home Demonstration Club leaders recently at Hub, were told about the dangers of improper use of Household Cleaning Agents by Home Demonstration Agent, Cricket B. Taylor.

"Improper methods and poorly chosen cleaning products can cause expensive losses to families in both money and satisfaction," Mrs. Taylor said.

Mixing of Household Cleaners

besides relatives were Calvin Beach, Mr. and Mrs. Luther Ham, Mr. and Mrs. Wesley Barnes, Mr. and Mrs. J.R. Harris, Pauline Houston, Ruby Gordon and Charlie Glover.

Congratulations to Billy Hardage, son of Mr. and Mrs. Lacy Hardage on winning first place in the 500 yard dash in indoor track at Lubbock Saturday, January 30. He is a senior at Wayland Baptist College, Plainview, and is a 1961 graduate of Lazbuddie High School. He is a physical education major. Mr. and Mrs. Lacy Hardage, Mr. and Mrs. Lee Mason and Mr. and Mrs. Wayne Hardage attended the track event Saturday night.

can be dangerous, as well as unsatisfactory in the results from such practice. Some very common substances in the home, as vinegar when mixed with bleach, or adding bleach to other cleaning preparation cause vomiting that is poison and can even cause death, the demonstrator said.

Other points discussed and demonstrated in the meeting were: How to select cleaning products for the various metals and surfaces in the home, and proper use of the three main types of cleaners found on the market.

Present for the meeting from the Home Demonstration Clubs were: Mesdames: A. L. Black-Hub; L. C. Herington-Farwell; Earl Drake, Ralph Taylor & T. A. Sherley-Friona; Roscoe Ivie, J. B. Snead Jr.-Black; A. L. Reznik-Northside; Norman Taylor & Jim Dixon - Rhea; Dee Brown-Midway.

Those attending the leader meeting will take the information program back to their respective Clubs in February. Homemakers are invited to attend any of the Home Demonstration Clubs in Parmer County for information on Homemaking problems.

Electricity powers PROGRESS

This is National Electrical Week, marking the 118th anniversary of the birth of Thomas Alva Edison. ■ It was Edison's invention of the first practical incandescent lamp that gave birth to an industry that now employs more than three million men and women, or 1 out of every 20 American workers. ■ Almost every industry owes its progress to the power produced by electricity for, truly, electricity powers progress. ■ ■ ■ ■

ASTRODOME . . . The Houston Astrodome, capable of seating 52,000 for football or 45,000 for baseball, completely enclosed, will be completed and ready for baseball games April 9 and

12. The dome covers nine and one-half acres of land, is completely air conditioned and has seating on six levels.

Measurements Made To Test Water Level

The annual water level measurements of more than 800 observation wells in the High Plains Water District were taken last month. The wells in the High Plains District are a portion of over 1,700 observation wells to be measured in

ready in the form of a bill by Sen. Jack Strong of Longview. It provides for stair-step raises, with sizable pay increases for experienced teachers, and ups maximum teachers pay some \$650 a year.

His recommendation that teachers be allowed to take summer graduate work at State colleges and universities, free of tuition, receiving big applause.

WATER PLANNING -- Connally adopted the Texas Research League's design for a master State water plan and expanded powers of the Water Development Board. Next day, he requested a \$290,000 emergency appropriation to get the project underway.

He also asked the Legislature to pass bills enabling the Water Development Board to make loans for local development of underground water resources.

OTHER RECOMMENDATIONS -- Governor Connally came out strong for driver education programs in all schools, to be directed by the Department of Public Safety.

He urged passage of an Industry Safety Act; a one-cent cigarette tax increase in 1966; abandonment of the state property tax in seven years; support of the pooling bill to authorize the Railroad Commission to provide for pooling of separately-owned oil and gas interests in a common reservoir; poll tax repeal; and legal rights for women.

Then he asked the Legislature to revise the 1963 Election Code and take out the provision denying the right to vote to those who move their legal residence from one county to another during the six months prior to an election.

Last, but not least, Connally recommended that election laws be changed to provide that the Governor and other state officials run for four-year terms, instead of two-year terms.

a 39-county area by personnel of the Texas Water Commission, High Plains Underground Water Conservation District and the North Plains Water District.

Parmer County has 68 observation wells on which records are now being kept by the High Plains Water District and the Texas Water Commission. The observation wells are measured annually during the month of

January. January was chosen as the measurement month because the wells are allowed to rest after the heavy summer irrigation and because the personnel are more readily available to measure the wells at this time.

The wells that are used in the observation well program are measured, the level is recorded and then the data is

assembled in the Lubbock Office of the High Plains Water District for distribution.

Any person who is interested in the well measurements of his county, or all the counties within the High Plains Water District, can obtain a record of these measurements for the past several years through his local County Water District Office or from the High Plains Water District office.

Highlights and Sidelights From Your State Capital

AUSTIN -- Education still rates top priority in the State capital. But it was viewed in a new light after Gov. John Connally revealed his program to the State Legislature.

Connally took the suggestions of his Committee on Education Beyond the High School that a strong coordinating board be created to administer State colleges and universities. He adopted its plan to put public junior colleges under the board and then told the Legislators the State should assume full financing of instructional costs of junior college academic programs.

THREE - BOARD COLLEGE SYSTEM -- Real surprise in Connally's approach to higher

education came in his proposal that all existing college and university boards of regents be abolished and the higher education institutions be regrouped into three systems.

Even this idea held an added surprise, since Connally recommended establishment of an agricultural and technical university in San Antonio, to serve all of South Texas.

Under the three system approach, there would be a University of Texas System composed of the University of Texas in Austin, Texas Western College, Arlington State College, North Texas State University, Texas Woman's University, University of Houston,

Texas Southern University and all medical and dental units. Texas State University System would consist of A&M University, Texas Technological College, Prairie View A&M College, Tarleton State College, Lamar State College of Technology, East Texas College, and the proposed San Antonio university.

A State Senior College System would include Midwestern University, Pan American College, East Texas State College, Sam Houston State Teachers' College, Southwest Texas State College, West Texas State University, Stephen F. Austin State College, Sul Ross State College, and Angelo State College.

ADULT ILLITERATE CLASSES -- Going from higher education to the most basic sort

of education, Connally told the Legislature that 13 per cent of the citizens in Texas over age 25 are functionally illiterate.

He recommended that this situation be met with a program administered by the Texas Education Agency under the Poverty Act. It would offer basic education courses in public schools to at least 10,000 functional illiterates each year.

Governor also asked that vocational and technical education programs in public schools and junior colleges be stepped up to meet coming employment requirements.

TEACHERS' PAY -- Connally by-passed a bill by TSTA designed to raise minimum teachers' pay by \$45 a month. Instead, he endorsed a plan al-

Need a New Tractor?

BUY IT
with a PCA Loan!

Buy your next tractor with a PCA loan. Or, if you have a PCA line of credit, add the cost to your present loan. Either way, you get the advantages of modern PCA financing:

Low Interest Rates . . . and you pay interest only on the money you use and the time you actually use it.

Experience . . . you deal with men who know agriculture, whose only purpose is to serve you.

Repayment Schedule . . . spread the cost of equipment over several years, with payments scheduled when you sell crops or livestock.

PCA loans can be used for all expenses. Let us show you why over a half-million farmers and ranchers use PCA credit.

HAPPY LOSER. . . The Lockney guard (middle) seems to be deliriously happy, but the fact of the matter is she's trying to disrupt Cindy Ingram (left) from making two points. It didn't work, as Miss Ingram, playing in reserve, came up with 16 points Tuesday night. On the right is Frieda Floyd.

Teams Toy With Lockney In Games Here Tuesday

It was "lop-sided win" night for both the Friona High School Chieftains and Squaws here Tuesday. The Chieftains, who now have won 16 straight games, clinched a tie for the district title with a 74-41 win over Lockney, while the Squaws took a 66-29 win.

The Chieftain win left the Friona boys with a perfect 8-0 district record as opposed to a 19-3 season mark. The Squaws now stand 7-1 in district and 20-4 for the season. While the Chiefs are headed for perhaps their best season record ever, the Squaws reached the 20-win pinnacle for the ninth straight year.

It was a game for only about five minutes in the girls' contest. The Squaws, fresh from their defeat at the hands of Floydada last Friday, were a fighting, deliberate band of Indian gals.

Friona took a 4-0 lead, Lockney cut it to 4-2, and after Teto Jennings' free shot made it 5-2, the Lockney girls scored a basket to trail 5-4. However, Linda Davis bucketed a shot, and she and Miss Jennings paced the team as it sped to a 16-4 lead.

Lockney was never in the contest after that. Score after the first quarter was 22-6.

Coach Mel Williams sent in three new players at the start of the second quarter. Lockney scored the first three points, but Miss Jennings began to click on the lay-in shot to shoot the Squaws out in front, 32-9 with three minutes left in the half.

Reserves flooded the scene at this point, and they were successful in upping the Friona lead to 42-11 by halftime.

Starting forwards saw some more action at the start of the third quarter, and paced the Squaws to a 54-17 lead after three quarters.

Reserves again took over as the fourth quarter unfolded, and held their own with Lockney, Jennings with 21 points paced Friona's scoring. Davis had 18 points and Cindy Ingram 16.

The Chiefs likewise had little trouble in disposing of a Lockney team which gave them fits on their home court two weeks previously.

Friona grabbed a 4-0 lead, and increased it to 10-1 before Lockney finally scored a field goal with 3:39 left in the first quarter. Score at the quarter's end was 14-7.

Lockney got to within six

points at 15-9, but this was to be the closest they would come to Friona the remainder of the game. The Chiefs, with Travis Graves and Larry Buckley each scoring a pair of goals, sped to a 23-11 lead with three minutes left in the half, and by halftime it was 35-14, Friona.

Coach James Anglin began substituting liberally in the third quarter, and the team still outscored the visitors, 16-13, and led after three quarters, 51-24.

The team threw defense to the wind in the final eight minutes, as the game developed into a run-and-shoot contest. Friona again had the upper hand, tossing in 23 points to Lockney's 17, for a final count of 74-41.

Three players were indubitable figures for Friona, led by Dale Milner's 22 points. Buckley had 15 and Danny Murphree 11.

Folks used to worry because they couldn't take it with them. In today's tax climate their only worry is whether it will last as long as they do.

LOTTA LIMBS. . . Gene Weatherly appears to have extra arms, legs and feet as he goes up for an easy layup good for two points against Lockney Tuesday night. Actually, the extra "limbs" belong to a Lockney player who is otherwise hidden by big Gene.

A new mop permits floor mopping while sitting down. No more stooping and immersing hands in detergent water. Wringing is done by pushing and pulling a plastic grip attached to handle.

Henry Hazlitt writes in Newsweek: "The Federal government is spending 167 times as much in a single year as it was in the year before we entered World War I. Will every President, every year, be expected to think up more and more functions for the Federal government to take over from the private sector to the 'public sector', until there is no private sector or initiative left?"

THIS PIPELINE WAS BUILT BY THE ROMANS AND SERVED FOR 2,000 YEARS

This photo, from the Smithsonian Institute in Washington D. C., shows a section of the original aqueduct that served the water needs of the conquered city of Cologne, Germany. It was constructed in 80 A.D. by the engineers of Fabius Sabinus Titus, Emperor of Rome. The aqueduct extended 56 miles underground between Cologne, and Eiffel and served as the main artery for the Cologne water supply until the late 1920's.

THIS PIPELINE IS EVEN MORE DEPENDABLE !!

Because of modern materials and manufacturing techniques, Gifford-Hill-Western's LOCK-SEAL provides an even more dependable underground pipeline. The close tolerance design makes the pipe more suitable, and joint flexibility eliminates the effects of expansion and contraction due to soil conditions and temperatures. By combining a superior product with modern day design and installation know-how, you have an underground irrigation system that serves dependably year after year . . . generation after generation. LOCK-SEAL is the product. Gifford-Hill-Western is the Company depend on them!

GIFFORD-HILL-WESTERN

WELCOME TO FRIONA

This week's newcomers to Friona, Mr. and Mrs. Bill Ferguson, are actually coming back to Friona. The Fergusons lived here in 1960 and 1961. He is employed at Friona's Piggly-Wiggly store. Both Bill and his wife Sue are natives of Shawnee, Okla. The Fergusons were in Stratford the past two years, where he was employed with Piggly Wiggly.

FIRST SPLIT OF SEASON

**Boys Win, Girls Lose
In Floydada Contests**

Friona High School's two basketball teams split a crucial doubleheader at Floydada last Friday. The Chieftains' 70-60 win over the Whirlwinds boosted their stock toward a District 3-AA championship, while the Squaws' 45-39 loss dropped them into a first-place tie with Dimmitt.

The games were unique in that it marked the first time this season in a regularly-scheduled pair of games (not counting tournament play) that one team won while the other lost.

The Chiefs didn't win their game without a battle, trailing by as much as 10 points in the

first half and eight points in the third quarter.

However, the Chieftains had come to play, and hung on grittingly and finally took a 10-point win.

After jumping ahead 9-4 early in the game, Friona's scoring attack suffered a relapse, and by the time the quarter had ended, the Chiefs had scored just two more points as Floydada took a 20-11 lead, utilizing a fast break to good advantage.

The Chieftains' press began to work with better success in the second quarter, as the team was able to steal the ball a few times. Friona outscored the

Winds, 26-17 during the quarter to tie the count at half-time, 37-37.

After taking the lead in the third quarter, the Chiefs again hit a cold spell, and dropped seven and eight points behind. However, they were able to recover enough to have a 53-51 lead at the end of three quarters.

The Chiefs were never headed in the final quarter, although never having "breathing room" until late in the game. They nursed their lead up to six and eight points, but weren't able to take the 10-point margin until just before the game's end.

Larry Buckley came up with his best point total of the season, 23, to pace the Chiefs. He had eight field goals and seven of nine free shots. Keith Teague, the Floydada ace who's pacing the district in scoring, had the same total.

Teague scored 10 of his points in the first quarter, but after scoring 15 in the first half, was held to eight the last half, including only two in the final period. He was averaging 30 points per game in district play prior to the game.

The Squaws' loss, their first in district play after six wins, also snapped their seven-game winning streak since the Farwell tournament.

The Squaws had one of their infrequent cold games, and the

Floydada girls, still having a chance for at least a tie for the district title, made the most of the roughly-played game for the win.

The lead swapped hands in the early going, with the Squaws having their longest lead at four points in the late stages of the first quarter. Score at the end of the quarter was 13-11, Friona.

The team failed to score a field goal in the second quarter, managing just five free throws, as Floydada took a four-point edge at halftime, 22-18. Teto Jennings had scored 14 of Friona's 18 points at halftime.

Friona rallied to tie up the game in the third quarter, and managed a 32-31 lead at the buzzer.

Floydada scrambled to take the lead in the final quarter, and with just over two minutes to go and holding a one-point lead, the Whirlwinds began a stall. Two starters, Glenda McClellan and Merylene Massie, received their fifth fouls and left the game, trying for possession.

In the meantime, Floydada was able to use their foul shots to increase their final margin, which belied the closeness of the game.

UNBEATEN TEAM... This is the Friona Squaw "B" team which is unbeaten for the 1964-65 season with a record of 11-0. The team recently won the Bovina B-team tournament. In the back row are Martha Martin, Linda Fallwell, Lydia Buske, Susan Neill, Lou Cochran and Karen Agee. Kneeling are Betty Taylor, Darla Howell, Glenda Mingus, Kathy Jones, Judy Shirley and Brownie Cole.

**DISTRICT 3-AA
STANDINGS**

(Through games of Feb. 2)

BOYS DIVISION				
Team	W	L	Pts.	Opp.

Red Barn Products For Greater Farm Profit

Events of the past several weeks have strengthened my conviction that the finest people on earth live in And Around Friona. My vocabulary doesn't contain enough words to express the appreciation I feel for all the nice things that have been done for me and other members of the Floyd family since the middle of December.

The doctors, nurses and other members of Parmer County Community Hospital staff were very kind and did so many things to make my stay there a pleasant experience.

Friends and neighbors could not have been more considerate nor more concerned about my welfare.

Readers of this column were very kind and news sources were most cooperative during my absence from the office.

Beginning next week I will be in the office full time and will appreciate having anyone with news tips call me rather than Carol Ellis as they have been doing in the past few weeks.

Jasper Bess, a long-time resident of Friona, was a recent visitor. Jasper and Flora moved to Oklahoma about a year ago and live on a small farm near Ada. While visiting with Mr. and Mrs. Bess a few years ago, Mr. Bess related the following event.

"When Flora and I first married a friend whose judgment I respected very much advised me to make arrangements to sell enough cream, butter and eggs each week to pay for all groceries we bought.

"For more than one-half a century we have been doing that very thing."

This fine old couple have always done their own work and at the present time raise their own chickens, hogs and calves for beef. Incidentally, they milk two cows -- one apiece and sell enough milk to buy groceries.

Construction of the new building which will house the Friona Star and Graphic Arts is about on schedule and before very long we will be moving into new quarters. It will be a pleasure to have Southwestern Public Service Co. for a next-door neighbor once again. We were neighbors in the Friona State Bank Building a few years ago.

Feel sure we will enjoy having Production Credit for a next door neighbor, too. Wade Wright may cause us some static in the puppy give-away department. Right now the Floyds and

Wrights are beginning to look for homes for almost weaning size pups.

Have you ever thought of the difference between living on a farm and living in the country. According to the standard of one pre-school age boy the two terms are not synonymous. We all know that there was a time when everyone who lived on a farm had chickens, hogs, cows, horses and various other animals.

This isn't the case any more and one small boy's view of it is illustrated in the following story. The little boy, who has lived on a farm all his life, said to his grandmother recently: "I wish we lived on a farm."

After being assured that he did live on a farm, he said, "I know we live in the country, but I would like to live on a real farm where there are pigs, lambs, chickens and other things."

Cub, three year old son of Gerald and Laurie Wright of Clovis, is one of my favorite little boys. In a telephone conversation with him recently I suggested that he talk his daddy and mother into bringing him over to see us.

For a moment there was silence on the other end of the line, then he said, "You know what? I think that is a good idea and we will try to get there in time for dinner."

I agreed with him and am looking for them over... in time for dinner.

While visiting with local teachers at different times recently, I've learned that there have been no applicants for the Irma Stark Memorial Loan Fund which was set up last year by Friona Classroom Teachers association.

Possibly there are college students in need of financial assistance who are not aware that the loan is available. Purpose of the fund is to help young persons secure college educations. And, of course, if the money which has been set aside for that purpose isn't being used, no good is being accomplished.

Anyone interested in securing more information about the loan is asked to contact Mrs. Frank Truitt or Mrs. R. L. Bates, teachers in the local school.

What happens to us in life isn't nearly as important as how we let it affect us.

What Lutherans Teach ---

By Fred Beversdorf, Pastor ---

"Therefore we conclude that a man is justified BY FAITH, without the deeds of the Law."

The Bible tells us that "faith is the substance of things hoped for." That means that everything we hope for is wrapped up in faith. What do we hope for? We hope for forgiveness of sins, peace with God, and eternal life with Him forever. Well, it's all wrapped up in faith.

Faith in what? Can we just believe anything we wish? Will believing in God be enough? Does it really make any difference what you believe, so long as you are sincere? Many people feel that to be sincere is more important than any particular doctrine.

Believing in God will not be enough to justify you before God. The devils also believe in God, and Tremble, James 2, 19.

Being sincere will not be enough to justify you before God. A navigator on a boat or an airplane may be sincere in his calculations, but wrong, and therefore the ship or airplane will wreck itself. If you were on the airplane coming into a fogged field, you'd want the navigator to be a little more than

sincere. He had better know his business.

We are justified or made right with God thru faith-- a special kind of faith. It is a faith in the Lord Jesus Christ. That faith is created by the Holy Spirit in us. It looks at Jesus as the only Son of God, as the Substitute or Savior for man's sins. Believing in Jesus this way brings forgiveness and the entrance of eternal life to you.

The deeds you do do not bring this eternal life. Faith in Jesus Christ alone does. So believe in and on Him, and Him alone.

And so, on the basis of Scripture, Lutherans teach man is saved by grace alone, and faith alone.

"Man is a creature who buys football tickets three months in advance, but waits until the day of her birthday to buy his wife a gift."
