LISTEN TO LUKE

By Albert---

Several things that have happened in recent weeks have led us to wonder what would happen if:

Politicians would be completely honest with the people and with each other?

There was a sudden military need for gasoline?

Everybody was as interested in getting flood control measures as some are?

There was a strict control on dogs enforced in this area?

Someone would suggest lowering the speed limit and more strict enforcement of violators in an effort to cut down on the number of fatalities on our highways?

A more definite link to cancer were placed on cigarettes? People were to be really concerned about their neighbors? People who were concerned about their neighbors were to do something about it?

Someone could persuade a real clean-up of Sanderson and our citizens would make an effort to be the best community in the state, not for the honor's sake, but because we want this kind of a town?

If the state's sales tax were changed to eliminate certain exemptions for certain groups?

There are several more wonders that we have, but we don't want to get all our wonders out at once!

We have heard some comment, not much, about the proposed increase in trash hauling and it ranges from one end of thought to the other. It is interesting to listen to conversations about things and see what the reactions of people are to certain things.

Some people think that the picking up of trash is like keeping up the streets, it is a responsibility of the county. And some others think that keeping up streets and roads and picking up trash should both be charged for. You can't get much further apart than that!

If you have not paid your subscription to The Times during the past two or three weeks, it is now past due!

What we have been trying to do is cut down on our expenses and if we have to mail you a statement or two for your subscription, our purpose is defeated!

If you live in Terrell County you owe \$2.50 and if you live out of the county you owe \$3.

If you have not paid your subscription to The Times during the past two or three weeks, it is now past due!

And when you send or bring in your subscription, isn't there someone you would like to send the paper to?

Monday morning there was a clipping from the San Angelo Standard-Times with a long list of names on it that was posted on the YPCC bulletin board at the postoffice. The board previously had contained other notices of community and/or personal interest. In an effort to try sincerely to be completely fair and try to

These civic workshops stress the importance of maintaining our form of government and bring better understanding of our national traditions and beliefs to the more than 28,000

do something that would be beneficial for our community, we are going to stick our neck out for the very first time, and ask that we the people do unto others.....

The YPCC, we believe, and they confirmed, put the board up there to help the community. It might be a good idea to have a signature on each item that is posted thereon, and a daily monitoring of the board.

If I have a sign there advertising Cross Pen sets for \$10.00 and \$17.50, I shouldn't mind signing the paper, and by the same token, if someone wanted to hang a sign there advertising Cross pens for 50¢ and 75¢ at The Times, it might cause some problems!

Or maybe it depends on how each of us looks at it!

The list referred to above indicated West Texas ranchers that had received in excess of \$20,000.00 in support payments, according to information furnished by the U.S. Department of Agriculture.
