LISTEN TO LUKE

By Albert:---
We did not make a trip to Fort Stockton Sunday - Father's Day - to see dad. Sunday is a day of confusion, in our opinion, at the nursing home due to the fact that this is the day for visitation and activity by organizations in Fort Stockton. These people are very kind and thoughtful in their little parties for the patients, and we are not making any criticism whatsoever when we say it is difficult for visiting during these times. We were there Wednesday of last week and had a nice visit. Dad is probably more mentally alert than he has been, but physically he is very weak. He also came very close to entering into the conversation several times, which is most unusual!

A rare treat was provided last week: we were invited to go out to the day camp for local girls and have lunch with them. The rare treat was that there were only three of us -- Rev. Paul Tatum, Mrs. Jim Kerr, and I -- who were guests of the girls.

It was a privilege to see the girls preparing their meals on "hobo stoves" over "buddy burners" and on open fires. My meal, consisting of ground meat patty with potatoes and carrots, had been cooked by wrapping the items in foil and cooking them over coals. The meal was delicious. For dessert we had chocolate chip cake baked in a Dutch oven over live coals. It was not burned, it was light and tasty and well prepared.

The efforts of the adults and the young girls who assisted are to be commended, as are the efforts of all who had anything to do with the success of the program.

Thank you "Ladybugs" for asking me!

Lots of plans are being made by many people for the Fourth of July activities here and it is hoped that there will be a large crowd here to enjoy the festivities. Parade, displays, food, fellowship, ropings all are being planned to fill an entire day with activities so that local and area citizens will have an excuse to stay home for the observance of the holiday in Sanderson.

The cooperation of the public is earnestly solicited by the various organizations involved in the planning.

We had a suggestion last week - it was the second such suggestion in recent weeks - that we should solicit more letters to the editor. This is one of the favorite articles of daily newspapers for some people and those who made the request like to read the comments of others who are writing the letters.

Personally, we have never seen a "letter to the editors" and, nor do we read comics - which doesn't mean a thing to me except that some people don't like Brussel sprouts and some do. We have gotten lots of letters which we cherished dearly and some that we dis-

Burglary Thursday At Morrison Store

The C.G. Morrison Co. store here was burglarized sometime during the night Thursday. The front door glass was broken and exit was through the back door on First St. The burglary was discovered when Miss Frances Bustos, manager, came down to open the store Friday morning.

A display of Timex watches had four missing, and the counter stock of underwear and socks revealed that some of those items had also been taken. It was also discovered that a large number of albums had been taken from the stock. Miss Bustos stated that it was almost impossible to detect what all may have been taken by the person or persons in the burglary.

Local officers are investigating the incident.

Rain, Light Hail Falls Monday

About 1/2-inch of rain fell in Sanderson Monday afternoon late, and according to reports, about the same amount of rain fell to the north of Sanderson to the north-central part of the county. This is the first moisture that has fallen in Sanderson for several weeks.

Scattered showers have been falling over the area, but there has been no general rainfall since early in the spring.

Light hail accompanied the rain Monday, though it was in insufficient quantity or density to do any damage.

Rev. Amado Elias Returned as Pastor Of Local Church

Delegates from 146 Spanish-speaking United Methodist churches throughout the state attended the conference representing 17,000 Spanish-speaking United Methodists in the state and New Mexico.

liked intensely. We shy away from printing letters of agreement (and there have been a few!) and letters that are complimentary as these tend to make the reader feel we are tooting our tooter. All of which means absolutely nothing about your letter writing. The mails have always been open for this past-time!

We reserve this privilege: no letter will be considered that is not signed; no letter will be published that is "poison pen". If you want to cuss Watergate or those who are pulicizing it, go ahead...or fuss about the dust not having laid since the last rain...or whatever else - write it and sign it!

Printing a newspaper is like a lot of other things, and many people don't stop to realize what all is involved. There are decisions to be made about which stories to publish and which not to publish. Someone might would say: "That's censorship!", or "just publish the news, and we'll make up our minds!"

Good deal! But there are certain things we don't think have any business being printed. There are some things not good for the town, there are some things not good for people, and there are some things not good for us. We sincerely try to have the town and its residents at heart, and certainly ourselves and the business, but there are decisions to make. We may not make the same decision that you would, but I guess it depends on how you look at it!

Scenes taken at the Day Camp sponsored by the Permian Basin Girl Scout Council and Reader's Digest here last week. The pictures were taken during the lunch period. Each group had the responsibility of preparing their own food, thus some were eating, some preparing, and some waiting. The chores of preparation, clean-up, etc., were designated to various girls within each group, similar to the Girl Scout plan. Rev. Paul Tatum, who drove the First Baptist Church's bus to and from the camp site every day for transportation for the girls, is shown eating with the group in the picture second from the bottom at the far right; Mrs. Jim Kerr, who gave permission for the use of her land for the Day Camp site, is shown with a group of girls under one of the shade flies waiting for the preparation of lunch to be completed. There were 55 girls involved as Day Campers, eight adults from local troops, and eight girls from the Council who administered and directed the camp.

Thoughts

From The Living Bible

And now I want to urgently remind you, dear friends, of the old rule God gave us right from the beginning, that Christians should love one another. If we love God, we will do whatever he tells us to. And he has told us from the very first to love each other. Watch out for the false leaders—and there are many of them around—who don't believe that Jesus Christ came to earth as a human being with a body like ours. Such people are against the truth and against Christ.

Work Progressing On Library Building

Work is progressing toward completion of the library facility on the northeast corner of the courthouse square. The building and equipment is being given to the county by an anonymous donor.

The book shelves which are being built for the arrangement and space necessitated by the size of the building, are being built and will be assembled by factory representatives when they are delivered. The furniture has been ordered and is expected any time, according to reports. It is expected that the few small things remaining to be done to the building and grounds will be completed before the furniture and fixtures arrive.

When the shelving is installed the books will be moved to the new library building and the use of the books and building will begin as soon as the books are in place and moving is complete.

The building is well lighted, carpeted, has central heating and air conditioning and will be attractive, convenient, and useful as a library.

The library is currently housed on the second floor of the courthouse and, even with the inconvenience of its location, has been a very popular facility with many county residents.

On the back page of The Times is the publication of proposed changes to the constitution and by-laws of the "Friends of the Terrell County Public Library". The changes are necessary due to the new days and hours the facility will be open following the move to the new building. Publication of the proposed changes in the constitution and by-laws is in keeping with said constitution and by-laws.

New Tracer System Spots Freight Cars

A national freight car information system that is expected not only to lead to improved car utilization but to be capable of forecasting future demands to minimize shortages has been approved by the Board of Directors of the Association of American Railroads.

The system, to be based at the AAR's Washington headquarters, is scheduled to be fully operational by early 1975, it was announced by Stephen Ailes, AAR president.

The original network (TRAIN) went into operation in January 1970, with the goal of improving freight car distribution decisions of the AAR's Car Service Division. TRAIN II will provide even more up-to-date data than its predecessor. For example, TRAIN II will update its information hourly, rather than daily, as is now the case.

Psalms 33: 12-22 from The LIVING BIBLE

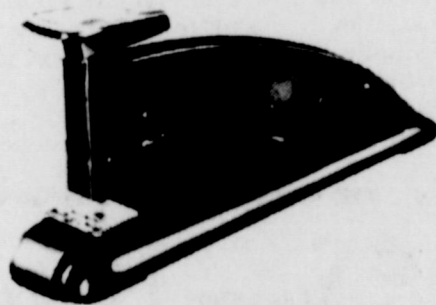

Blessed is the nation whose God is the Lord, whose people he has chosen as his own. The Lord gazes down upon mankind from heaven where he lives. He has made their hearts and closely watches everything they do. The best-equipped army cannot save a king—for great strength is not enough to save anyone. A war horse is a poor risk for winning victories—it is strong but it cannot save. But the eyes of the Lord are watching over those who fear him, who rely upon his steady love. He will keep them from death even in times of famine! We depend upon the Lord alone to save us. Only he can help us; he protects us like a shield. No wonder we are happy in the Lord! For we are trusting him. We trust his holy name. Yes, Lord, let your constant love surround us, for our hopes are in you alone.
