## LISTEN TO LUKE

By Albert...  
The shortage problem has increased to paper and we are affected as all printers of anything are affected. We are now on a "nip and tuck" basis as far as printing the newspaper is concerned, and we hope that we are able to nip here and tuck there and make it, somehow.

The size of the paper will be definitely controlled by the amount of advertising for a few months, so the receipt of an advertisement by business will make possible more details of more events. The entire industry has been asked to cooperate and the amount of advertising allowed under the second class permits has even been increased - according to our information - so that the newspapers may continue in business as legal publications and still continue to bring the news to the citizens.

It makes us wonder! All at once we have shortages and the effects are far-reaching, yet there was so little forewarning!  
Many daily papers are eliminating, for the time-being, some of the features they published, and cutting their comic sections, etc., to try to get by until something can be found to help the situation.

We read with interest and some degree of amusement the sport stories of area weekly and daily newspapers. The reason to describe football games is just a little different than that used in other stories, even other sport stories, not counting the phraseology peculiar only to football.

One team moved the ball slowly against the impenetrable line of the foe; --- danced his way 83 yards"; and "squashed" is worse than "beats", "wins" in about the tightest margin of victory; "trounced" is pretty strong; "trumps over" is fairly one-sided; "humbles" is almost as strong a win as you can get except for "humiliates", and that's about the epitomy of winning description, with maybe the exception of "vulgar display of strength".

A very large number of Terrell County ranchmen were at the predator-control meeting at Fort Stockton last Friday, according to reports and interest was extremely high, as attested by the attendance. The ranchmen feel that some good came from the meeting and hope for relief from predators on their livestock in the form of permission to protect their livestock and investments against those animals that prey on sheep, goats, calves, etc.

In the interest of brevity for the conservation of space --- which is completely necessary --- we have to look at it briefly.

Mrs. Jesus Calzada was in Alameda Wednesday for a medical check-up. Accompanying her were her daughters, Mmes. Susana Munoz, Cutberto Gonzalez, and Olivia Salinas.

Manuel V. Barrera ... retires September 1

Manuel V. Barrera of San Antonio, a former long-time resident of Sanderson and this area, took his retirement effective September 1 from the University of Texas Medical School in that city. He was employed in general maintenance in the physical plant.

While residing in this area, he worked as a cowboy on various ranches, at the former dairy operated by Lynn Harrell and for the S.P. Railroad in delivering freight. His last place of employment here was at The Kerr Mercantile Company in the lumber yard and hardware department for many years. Because of his wife's health, they moved to San Antonio for her to be near medical facilities.

On Friday, August 31, his supervisors and co-workers honored him at a surprise retirement party with a large crowd attending.

Mr. and Mrs. Barrera have two sons, Quele of the home, and Capt. Raul Barrera of the U.S.A.F.

## Vandals Enter Two Local Schools

The junior high school and elementary school were entered by a person or persons unknown last weekend. It was the second time the elementary school had been entered in the past two weeks.

Junior High School Principal Jack Cosby stated that a large window on the southeast side of the building was broken by a rock and there was evidence that a person or persons may have been in the building. No damage was seen, nor was anything immediately missing, except possibly two soft drinks as the empty bottles were found in the book drop in the library.

At the elementary school last weekend, it was presumed that entry was made Saturday night or Sunday, according to Supt. C.B. Card. Some money was taken from the room of Miss Linda Ball and a slight amount of pilfering was detected.

At the time of the previous entry into the building, some vandalism was done in the room of Mrs. Austin Christman. Mr. Card stated:

Guest Books, Bride's Books, Baby Books at The Times

## Jr. Eagles Lose To Marfa 21-24

The Sanderson Junior High School Eagles lost their game in Marfa by the close margin of 21-24 there Thursday of last week.

Coach Larry DeVasto reported that the score at the half was 12-0 in favor of the Short-horns and during the last half Carlos Galvan caught two touchdown passes thrown by Frankie Flores, and Frankie caught one thrown by Marvin Davis. Frankie also kicked one extra point and ran the ball over for a 2-point conversion.

The local lads will host the Iraan Junior High Braves on Thursday this week, the game to begin at 5:00 o'clock.

## Eagles Taste Defeat Revenue Sharing Expenditures Told To Go To Clint

The Sanderson Eagles bounced off of a 48-0 trouncing of the Class B Grandfalls Cowboy football team to feel the pain of a similar defeat at the hands of the Class AA McCamey Badgers Friday night of last week. The game was played in McCamey and ended 53-7.

McCamey had a 26-0 half-time score and scattered their touchdowns out over all of the ball game.

The Eagle tally was in the fourth frame and a lateral by Quarterback Robert Kline to Halfback Bill Mott, who threw a pass to End Ricky Marquez resulted in a 76-yard pass play and six points. Mott booted extra point.

In statistics, McCamey led 18-9 in 1st downs, 345 yards rushing to 65, 123 passing in 8 completions of 11 tries, to 114 yards for Sanderson in 5 passes of 16 tries. McCamey intercepted 3 of the Eagle throws, and recovered 4 miscues by Sanderson. McCamey was penalized 9 times for 105 yards and Sanderson twice for 20 yards. Besides the seven turn-overs by the Eagles in interceptions and fumbles, they gave up the ball 9 times with punts; McCamey punted three times.

The Eagles will go to Clint this week for their first district game of the season. The game begins at 7:30 their time.

Arriving here from San Antonio last weekend to visit Mr. and Mrs. W.G. Downie were their daughter, Mrs. W. N. Armstrong, and her daughter, Downie; his mother, Mrs. W.T. Bondurant, and Mr. Bondurant.

Revenue sharing funds received by Terrell County since the inception of the program amount to \$61,119.00, according to Mrs. Ginette Litton, county treasurer. This amount has been received in four separate checks, the greatest of which was \$19,648.00.

Some of the money was put into savings accounts after it was received to earn interest, according to the reports filed by County Judge R.S. Wilkinson and published in The Times.

Expenditures of the funds includes: \$19,165.00 for a loader for precinct four; a dump truck, \$5,080.00, for precinct 1; and an ambulance \$4,540.00.

The Commissioners Court has authorized the purchase of a maintainer in the amount of \$25,300.00 that will be used in precinct 3.

The revenue sharing money received by the county may be spent for only certain things and the reports published must indicate the plans for spending the money, then another report reporting the category or purpose for which the money was spent.

According to the reports published, the fund has a balance of \$41,186.00, which reflects the amount of interest earned.

When Vincent Bohlman was a small lad, he posed for a picture with his cat one afternoon late at the back door of the Bohlman Building, now owned by Mr. and Mrs. Joe Pagitt. The Buster Brown haircut on Vincent puts the date as near 1920. (Vincent will surely correct us if we're very wrong!) Mrs. Mary Ellen Bohlman Simmang, his sister, loaned us the picture.

Provide your youngsters with well lighted study areas. Their progress in school and their attitude toward study depend on it. You can help prevent eyestrain and encourage learning by following these simple rules. Have a table lamp that is tall enough and equipped with a shade wide enough to spread light evenly over the entire work area. The lamp should have a 150 watt bulb and a diffusing bowl to soften the light and prevent glare. Have additional lighting in the room to prevent eye-tiring contrasts of brightness and shadows.
