It Depends On How You Look At It
We had some very nice compliments on the new name selected for the column and the propriety of our decision to make the change. It's very nice to have understanding friends and we do appreciate them!

We visited with dad in the nursing home Sunday afternoon for about an hour. His physical deterioration is almost unbelievable - he's so very thin.

A recently-published book about the history of Reagan County was received about two weeks ago and there was mention in it about the Gilbreaths going to Stiles (north of Big Lake) in 1910, and I saw a picture of my grandfather for the first time in my life. I had been in his presence only as a very small boy and had no recollection of him. The book mentioned several things of interest to me that I had heard about, and had pictures of dad's oldest brother on the Stiles baseball team, and school pictures that showed dad, a brother, and a sister that were recognizable.

We mentioned the book to dad Sunday and his eyes lit up, and he looked straight at me and said: "That's right, Albert." -- the first positive statement or action of recognition since before Christmas for any of us. I asked him if it was true that he and his brother, as teen-agers, started printing a newspaper my grandfather bought from a Mr. Hunter, who later published a paper at Fort Davis, and then with his son, began publishing historical periodicals in Bandera. He said this was true, and when I asked him the name of the paper, he said very quickly and positively: "The Stiles Journal". But he couldn't remember the name of the brother, nor the fact that mother had visited with him two days previously.

Pardon our relating these personal matters, but they were meaningful to us, and we have had some inquiries about dad's condition. He's just alive, and very little more!

But there is still no complaining, no discomfort, no unhappiness; and we are so very thankful for that!

We make a little extra "welte" around town some early mornings, and it is not uncommon to see several trash barrels overturned and dogs around them, or the trash strewn around as though dogs had been looking for something to eat. Probably ranchers in this immediate area are tickled to death that the dogs are turning over the trash and getting food there instead of coming out into the pastures and finding young -- or grown -- sheep to eat on!

is not a safe thing for anyone to do, and we do not want to know about anyone doing it. Shooting the dogs here in town is a very touchy issue, with not only neighbors, but with the owners of the dogs. And if the dogs are scared out of town, then they may go to the country and predators are something that the ranchmen do not need! And the litter is bad. So what's to be done?

The new curbing that was built by county labor at the Terrell County Public Library, with materials furnished by "Library Friends" adds to the appearance of the facility. Some plantings have been made and the group plans grass in front of the building. It looks nice, and will look nicer.

Isidro Villarreal Jr., the custodian at the courthouse, has been working hard this spring trying to spruce up the lawn area on the south side of the building and it does look better. Villarreal took over the job after the retirement of Pilar Rodriguez and his energy and zeal are revealed in some noticeable changes in the appearance of things at the courthouse.

It would be difficult to see it any other way, according to the way we look at it!

LETTERS TO THE EDITOR

"In the past weeks you have printed several articles concerning the residential qualifications of candidates for election in Terrell County. It is my understanding that this concerns two candidates in the up coming May 4th primary and many legal opinions have been sought and received. After discussing this with some of the people involved and some of the party officials, I feel that there is still much controversy on this subject. The ideal way to solve this problem would be in a court of law, but the "powers that be" have decided against this course of action. The only other alternative is the will of the people. The voters of Terrell County have been totally ignored in this problem and I feel that they should be and will be asked to give their opinions on May 4th. As a residentially legal candidate for public office, I believe the voters of our county will firmly and positively decide the eligibility of the controversial candidates at that time.

"Thank You,
s/Joe N. Brown

Mrs. Ira Moses took her sister, Mrs. Walter Thorn, to Alpine Monday for medical attention.

Warm Weather Interlude Broken By Cold Snap

Although the days were clear and warm with bright sunshine last week, temperatures in the mid-thirties were noted here several mornings.

With fruit trees having already bloomed or blooming now, residents were apprehensive about the low temperatures. Spring flowers are blooming, trees and shrubs are leafing out, and lawns are turning green -- providing evidence of spring having arrived.

The calendars stated that spring began a week ago.

When the cold front moved in Saturday night, temperatures were reported in the low 30s and high 20s in this area and crisp cool weather has prevailed although warmer temperatures are noted during daylight hours.

Effects of the cold on all vegetation remains to be seen.

Mr. and Mrs. Mack Turner visited in Laredo last weekend with his brother, Jim Turner, and family.

H.A. Mullings had surgery in a Fort Stockton hospital Friday and is recuperating satisfactorily.

Wool - The Seasonless Fibre

persistent confusion about wool relates it only to warmth. Wool does provide great warmth, but it can also prove comfortable in hot weather. The weight of the fabric is the

designers have re-discovered "naked wool" for spring, in the seasonless fiber. This fabric has the ability to cool and comfortable on muggy days. "Naked wools" maintain a fresh, crisp appearance and they come in any beautiful textures and colors.

Wool has a natural insulation that warms when it's cold and keeps a person cool and comfortable when it's hot. The reason is that the natural crimp in each and every wool fiber has the ability to trap literally billions of tiny pockets of air. Trapped air is the best insulator - on hot days or cold.

The same principle that's used in insulating a home. The air space that's left between the outer wall of the house and the inside wall helps keep cold or hot air from coming into the house and helps to maintain a comfortable temperature inside. Hot air isn't the only problem we face in summer.

Humidity can be a real problem, too. But not with wool. Wool has a special thirst and absorbs moisture naturally so it keeps you drier without that awful clammy feeling of some synthetics.

Wearing garments made of wool actually controls the climate immediately around your body. In fact, the Arabs have traditionally worn wool in the deserts where temperatures rise to over 100 degrees during the day, and drop drastically at night.

In their re-discovery, fashion designers have found wool made into many beautiful and amazingly sheer, lightweight fabrics like voile, muslin, challis, tissue weight gabardine, crepe and jersey.

These "naked wools" have been translated into dresses, suits, pants, evening clothes and even beachwear. Because they're so lightweight, they can be worn in spring, summer, fall and even winter, under a coat.

Wool is a good way to have a lovely, workable wardrobe for all year round, in a time when no one is sure if there will be heat or air conditioning from day to day.

Dear friends and fellow Texans—

I am running for U.S. Congress, House of Representatives District 21. I believe in America and our rights under the constitution. I believe that government should serve the people and not be a burden on the majority for the sake of a few. I believe in our free enterprise system. I will work to protect it.

I was born in San Antonio and grew up in Llano County in the hill country of Texas. I have lived in Texas all my life. I graduated from Southwest Texas State University in 1969. I am 28 years old.

I am not a politician nor am I a millionaire. Somehow I feel that we are tired of sending those people to represent us in Washington. I know how you feel at the supermarket, the gas pump, and at income-tax time. I am one of you.

I need your help to get elected. I am running against some well-organized and well-financed political machines with public relations people and advertising firms. All I have is you.

I must apologize to my many friends that I have been unable to see personally. I wish that I could talk to everyone in the 21st District. I think that most of you feel as I do. I hope that I will merit your consideration in this very important election.

Sincerely,

Patrick Ainsworth

'Smile Candles' To Be Sold For M-D Fund Drive

"Smile Week" is coming next week, April 1-6.

During this week, members of the local Future Homemakers of America will conduct the Muscular Dystrophy "Smile Project" here. This is a program designed to raise funds to support the important medical research and patient service programs of Muscular Dystrophy Associations of America.

Representatives of the Future Homemakers will be going to every home in the community sometime during the week and taking orders for Muscular Dystrophy Smile Face Candles. The project theme is "Put a smile on the face of a dystrophy child," and local workers hope to take orders for 300 smile candles during the one-week drive. The candles may be ordered for \$1.50 each, and if everyone will order at least one "Smile Candle", the goal can easily be met in our community.

Citizens will easily be able to identify the Muscular Dystrophy workers, as each will be carrying an official Muscular Dystrophy Smile Candle brochure and official "Smile Project" receipt book. Residents are asked not to place orders or give money to anyone not carrying one of the brochures and receipt books.

Proceeds will go to further the programs of the Muscular Dystrophy Associations and to send children to special summer camps. All candles ordered next week will be delivered in about three weeks.

Mrs. H.A. Mullings was in Fort Stockton Tuesday morning to visit with her husband who is recuperating from surgery. Mrs. H.B. Louwien accompanied her on the trip.

Mr. and Mrs. John Scannell of Odessa brought his sister, Mrs. Peggy Sullivan, who had been visiting with them for a month, to Sanderson Saturday.

Mrs. Ernest Miller of Del Rio and her sister, Mrs. Eric Beecroft of Uvalde, were overnight visitors here Wednesday with relatives.

Mrs. Ruth Funk of Mesa, Arizona, visited Mr. and Mrs. W.H. Taliaferro for several days last week.
