How You Look At It!

At the bottom of this column is another reason why we are crusading for the abolishment of Halloween. We doubt that the crusade will get off the ground, but if we can make people aware of some of the hazards that potentially face youngsters at this time of year, and possibly prevent some incident similar, we think our efforts will have been worth all the flack that might come from some who are wanting to continue the holiday.

Besides the entire paganistic background of the holiday, the attitude that "it can't happen here" is another reason to oppose the continuation -- it can happen here!

We have obliterated identifying names as our intent is not to discredit any other town in the area, but to show that it is happening in our area.

We read an interesting article last week: "The General Accounting Office has released a few tidbits as they apply to the new headquarters in Washington of the United States Postal Service. It cost \$48,500 for example, to furnish the Postmaster General's office and another \$130,000 for the adjoining reception area, press conference room and a room for the Board of Governors.

Following are some of the items included in the list of furnishings for the Postmaster General: Carpeting, \$11,666; draperies, \$5,999; pantry, \$5,280; two sets of walnut doors, one with and one without the postal seal, \$3,671; convertible couch, \$1,043; sofa, \$821; marble-topped lavatory, \$800. Obviously, all the cost of increased postage is not for service by postal employees in the delivery of mail!

The rains continue to come to this area of the country and the ground is becoming soggy

Sandra Villarreal received the crown as "Miss SHS 1974" and a bouquet of red roses from Bobby Hunn, a member of the student council of which Sandra is president. She received the crown from the former "Miss SHS", Mrs. Peggy Louwien Chamberlain. Miss Villarreal was chosen by a vote of the student body from a slate of four nominees which also included Eldine Brown,

Janet Harrell, and Hanna Sullivan. Miss Villarreal was escorted by her grandfather, Pres Escamilla, and the other candidates for the title were escorted by their fathers, Herbert Brown, Aubry Harrell, and Dick Sullivan. The presentation of the new "Miss SHS" was made during the half-time activities at the football game here Friday night.

Sanderson Will Represent 6-B In Post Season Tilts

The Sanderson Eagles will represent their district in bi-district competition regardless of the outcome of the game here Friday night against Dell City.

Imperial and Grandfalls have one loss each and they will meet Friday night with the winner having a cinch on second place in the district.

Since Sanderson has beaten both Imperial and Grandfalls they will represent the district in post-season competition, regardless of the outcome of the game Friday night.

This is the first district crown for the Eagles since 1952.

Commissioners Hold Routine Meeting

Terrell County Commissioners had a routine meeting on Monday. Present were County Judge R.S. Wilkinson, and Commissioners W.W. Sudduth, Austin Chriesman, and David Mitchell.

Routine business was taken care of, then the commissioners canvassed the returns of the general election. The Rio Grande Rifle and Pistol Club was granted a lease on the rifle and pistol range built at the site of the old rock crusher.

Mr. and Mrs. Oscar Marquez were in Marfa for the weekend to visit relatives.

Eagles One Game Away From Title After Imperial Win

The Sanderson Eagles won over the Imperial Longhorns on a sloppy, wet, and cold gridiron here Friday night and moved one step closer to a district championship in their first year back in Class B football. The Eagles will face Dell City here Friday night for the title game.

Imperial and Grandfalls each have one loss in district competition and they will meet Friday night in their battle for a second-place title or a tie for first place, depending on the outcome of the Sanderson-Dell City game.

Neither the Eagles nor the Longhorns were able to unleash their best offense or defense Friday night due to the miserable conditions under which they were playing.

Sanderson made all of their points in the first half and the Longhorns hit the scoreboard in the second half, but with only one touchdown.

Kendall Billings ran 23 yards for the first score by the Eagle squad, then he kicked the extra point.

In the second period, Frankie Flores went over from the 2-yard mark and Billings again kicked the extra point. During the same period, Marvin Davis threw a pass to Ricky Marquez who completed a 65-yard touchdown run. The try for the extra point was not successful.

Following the opening kickoff for the second half of the game, Imperial marched to the 1-yard mark from where D. Colls took the ball over for their lone score. They attempted a 2-point conversion that was not successful.

This was the only real serious effort to score put together by the Longhorns.

Fans who braved all of the rain and cold were thrilled in the final seconds of the ball game when Bernie Castro intercepted a Longhorn pass and

2 More Weeks To Deer Season

Deer season west of the Pecos River is only two weeks away.

The season is from November 30 through December 15. The bag limit is four deer, including not more than two mule deer, one mule deer buck, two white-tailed deer, and three antlerless deer.

The javelina season opened October 1 and runs through January 1. Limit is two javelininas per season.

Quail season starts November 16 and will end February 2. Bag limits are 12 a day and 36 in possession.

The seasons and bag limits apply to Terrell, Brewster, Reeves, Culberson, Jeff Davis, Pecos, and Presidio Counties.

There will be a special whitetail season from December 16 through December 22 in Terrell and Pecos Counties.

Hunting is expected to be difficult in Terrell County with the rains of this fall ruining many roads and making vehicular travel difficult, plus the wet conditions causing off-road travel to be difficult, but also not good for the pasturelands.

Varying reports are coming in about the condition of the buck deer seen in various parts of the county. Most reports agree that the deer are in good shape, but most horns of the smaller size and few trophy racks.

here in town and nearby. We imagine that it is about the same in much of the pastureland over the county where a similar amount of rainfall has been received.

We wonder if there is any record of a wetter fall! Warm days would do a lot to bring out a lot of brush and weeds for winter feed.

The results of the election last week showed all the rest of the state that Terrell County resident voters are interested in the naming of officials of the precincts, county, and state. A lot of effort was put into the project of getting voters out, and it was more successful than in many other parts of the state.

It probably will mean something to our state and national representatives when they go into their offices and look at the results of the vote over their districts to see who cares.

We are glad that Terrell County voters showed that they care about who is elected!

Since everyone else has gotten into the act of telling why the Republicans took such a beating in state and national legislative seats in the general election, there's nothing wrong with me putting in my \$1's worth (i. was 2¢ prior to inflation).

That's only the secondary cause, as we see it! The primary cause was because they were Republicans and so was Richard Nixon and a lot of other Republicans took up the "not guilty" cry for some reason or other. Later developments proved them to be more than just wrong. It proved to be the downfall of the entire party - at least in that election.

Mrs. J.A. Gilbreath was an exhibitor in an art show in Austin last weekend. She was accompanied by Mrs. Jolly Harkins who visited relatives there and in Bertram.

Terrell Co. Leads Screwworm Cases In This Area

Terrell County has the dubious distinction of leading other counties in the Big Bend area in screwworm cases in the month of October and also during 1974. The figures were released by Dr. M.E. Meadows, director of the U.S. Department of Agriculture Screwworm Eradication Program.

He reports 157 cases of this parasite were confirmed in Big Bend area counties during October: Brewster 18, El Paso 2; Jeff Davis 9, Pecos 27, Presidio 16, Reeves 5, and Terrell 80. Cattle were the host for 53 cases and sheep for 75 cases.

The Screwworm Eradication Program, administered by the Animal and Plant Health Inspection Service, releases sterile but sexually active flies to mate with fertile wild flies. The sterile flies are released in the area of known screwworm infestations. A female fly mates only once in her lifetime, and if she mates with a sterile male, eggs she produces will not hatch, stopping the cycle.

For the first 10 months of 1974, the counties and cases were: Brewster 78, El Paso 14, Jeff Davis, 17, Pecos 111, Presidio 29, Reeves 6, Terrell 243, Culberson 2, and Hudspeth 1.

M.L. ROBERTSON WRITES

We will give a few "quotes" from a letter received last week from M.L. Robertson of Fort Worth, a Sanderson resi- dent for many years.

He suffered a severe heart at- tack with circulatory prob- lems last March and after sev- eral weeks in a Fort Worth hospital, was moved to a nurs- ing home in that city. He con- tinues to improve and hopes to soon be able to take care of himself. However, he had cat- aract surgery recently and one eye is responding very satis- factorily, but he has been al- most blind. He is now 82 years of age.

Mr. Robertson is very anx- ious to sell his property just beyond the Sanderson Canyon bridge, which with his home and other buildings, was al- most completely destroyed by the flood of 1965 here.

82 Graduate From BP Academy

Eight-two new Border Pa- trol Agents were graduated from the Immigration and Naturalization Service Border Patrol Academy last week and immediately as- signed to the Southwest Border to further bolster efforts to reduce the flow of illegal aliens crossing into the Unit- ed States.

The new agents join 452 other veteran Border Patrol- men who are being reassigned to "Line Watch" activi- ties along the Mexican Bord- er. The stepped-up activity at the border reflects a great- er concentration of effort by INS to deter illegal entry of aliens at the border before they can find employment in the United States.

The latest Border Patrol class is the third to graduate this year. A total of 183 new agents have graduated from the Academy in calendar 1974, bringing the on-duty Border Patrol force to 1,610. All of the new agents have been assigned to the South- west Region. A fourth class will be started in November and is expected to number about 150 new agents.

The present class is the 105th to graduate from the Academy which was formal- ly opened in 1940. A total of 7,243 agents have been grad- uated. The Border Patrol cel- ebrated the 50th Anniversary of its founding on May 24 of this year.

The Academy program in- cludes 14 weeks of classroom activity and two weeks of field training. Classroom em- phasis is on Immigration Law, Court Procedure, use of firearms and knowledge of the Spanish language. Profici- ency in Spanish is a require- ment for duty in the Border Patrol, and trainees who do not acquire such proficiency within 10 months after enter- ing on duty are released from the force.

Leonard F. Chapman Jr., commissioner of the Immi- gration and Naturalization Service, addressed the grad- uating class and warned the graduates that the nation is on the verge of a national crisis in dealing with illegal aliens. He said INS appre- hended nearly 800,000 illeg- als in the last fiscal year, with the Border Patrol ac- counting for 635,000 of that number. Despite this, only about one of every three or four who entered illegally

Lawyer Referral Set Up By Bar

The State Bar of Texas' new statewide lawyer refer- ral service apparently is helping fill a need, the Bar reported last week.

In the first two months, some 380 callers, whose problems were determined to involve a legal matter had immediate appointments made for them with lawyers in their own areas. The fee is only \$10 for up to one- half an hour of legal consul- tation.

Some callers whose prob- lems turned out not to be in the legal area were referred to other agencies for possible help.

"The good initial response to our new public service is most gratifying," comment- ed Bar president Lloyd Loch- ridge of Austin, "because that tell us the service has been needed."

The toll-free WATS-line calls (the number is 800- 292-9690) from anywhere in the state end up in the State Bar's Lawyer Referral Service Office where a staff member determines whether the callers' problems are legal in nature; if they are, immediate appointments with attorneys are made.

The Lawyer Referral Ser- vice was established by the Bar to make legal services easily and inexpensively available to persons who do not know a lawyer.

Miss Wynne Massey, who is attending Tarrant County Jun- ior College in Fort Worth, visited here last week with her parents, Mr. and Mrs. Barton Massey.

Mr. and Mrs. W.W. Hicks Jr. and children, David and Jana, of Hobbs, N.M., visited here last week with her par- ents, Mr. and Mrs. H.G. Cates.

was caught. The total resid- ing in the country is estimat- ed to be at six to seven mil- lion, he said.

Chapman pointed out that apprehensions by the Border Patrol have risen 2000 per- cent in the past 14 years, while the number of Patrol Agents has increased less than 20 per cent.

Aerosol Hair Spray May Be Going

Aerosol hair sprays may be on the way out, according to one authority.

"Reports of malfunctions and health hazards with aero- sol sprays have caused the in- dustry to turn to pump-style bottles for hair spray. Mrs. Janice Carberry, family re- source management special- ist with the Texas Agricul- tural Extension Service, The Texas A&M University System, noted.

She said that for years pump bottles were used for dispens- ing hair conditioners and set- ting lotions, but now they will be used for hair spray, too.

"Hair sprays will have to be reformulated before they can be put into non-aerosol pack- ages. Only 50 to 70 per cent of the spray is active ingredi- ents -- the rest is propellents. Ingredients in the pump-style bottles can be totally active."

The cost of pump-style sprays may be comparable to aerosols, but they will be more effective at holding the hair. That's because each pumping action will release more liquid and pure hair spray, she said.

CARD OF THANKS

I want to thank the voters for the unexpected write-in votes for the office of County Clerk. Your confidence shown in me is greatly appreciated. Thank you.
Gloria M. Falcon.

Dear Friends:

There is no way we can express our appreciation for the many deeds of kindness you extended to us during Ruth's illness, but we do want you to know it has all been appreciated and we thank you from the depth of our hearts.

The flowers at the hospital and at the funeral services were beautiful, the visits, the telephone calls, cards, and the food provided have been wonderful. We thank you for it all and pray that God will bless each of you.
The family of Ruth Adams.

Dear First Baptist Church

Members:
"Praise God From Whom All Blessings Flow" comes to our minds as we write this letter. For, of the countless blessings we've already received, the most recent came from Him through you, His loving children, our loving church family.

We cannot thank you enough for the tremendous gift of love you presented our family, or emphasize how much it will help us. Surely, this is a perfect example of God's Great Love in providing our needs, even when we feel most undeserving of such a great blessing.

So with tears of gratitude and thanksgiving, we deeply thank our Father in Heaven, and you our church family for this wonderful gift.

In all the towns we've ever lived, we have never received such loving friendship in so short a time as we've received from Sanderson's people.

May our Lord truly bless each of you for your goodness. Love,
The George Black Family.
