THE SANDERSON TIMES

VOLUME 64, NUMBER 48

SANDERSON, TERRELL COUNTY, TEXAS 79848

NOVEMBER 21, 1974

It Depends

For almost 2,000 years now, people have been asking themselves - and others - "Who is my neighbor?" We fail to see, sometimes, who our neighbors are in the town or community, or neighborhood where we live - which makes it much more difficult to recognize people across some ocean or continent as a neighbor. The World Food Council has not come up with a solution that is any better than the first time the question was asked.

I have a definite opinion that the time will come when we will find out who our neighbors were and the news will be startling!

Probably if we could wipe greed from our lives we would find out a lot of things!

As we see it, people are all for something happening that is good for other people as long as the good for others does not deprive ME.

This past week's news about the plans and thinking about equalizing educational opportunities over this broad state brought the fact back to mind. There will be many proposals and many ideas, and much arguing and fighting before it is over with - and all because each of us wants someone else to pay for it!

Really, now, who would argue against equal educational opportunities - and how could you propose an argument against such an idea? Yet, when it comes to taking from the "haves" and giving something to the "have-nots", there will be arguments. It could be accomplished in a minute if "everyone else but me" did their part.

The proposals put forth now-- to consider the percentage of actual values used by each individual school district - as a part of the over-all formula for receiving state aid -- is nothing but fair. Some districts use a much higher percentage figure for taxation than do others, so to figure this percentage on an equalized basis is fair by the very fact of the word "equalized".

The same is true by the figuring of values of property over the state. And if the state undertakes some kind of plan for this project there will be screams from all quarters, probably. Errors may exist after such a plan is implemented, if it is; but they are not likely to be so gross as some of the errors that exist now. If the one plan that is implemented is equal by nature, it will be some improvement; rather than having the words "ad valorem" attached to the tax, and using "productivity" as the basis for some of the valuations, but not for all!

We would not argue with the use of "productivity" as the basis for taxation if it

J. R. Dunman, 65, Former Times Editor Dies In Indiana

J.R. "Buddy" Dunman, 65, died in Warsaw, Indiana, Saturday morning, according to information received by his mother-in-law, Mrs. J.R. Blackwelder. He was a victim of cancer, she stated. He was a former editor and publisher of The Sanderson Times prior to selling it to L.H. and J.A. Gilbreath in 1947.

Funeral services were held Tuesday morning and burial was in that city.

Mr. Dunman was born in Concho County in 1909. He worked for the Del Rio News-Herald before coming to Sanderson to assume management of the newspaper April 6, 1945.

Mr. Dunman is survived by his wife, the former Marilyn Blackwelder, a daughter, and a granddaughter; and a sister, Mrs. Ann Page of Midland.

Mrs. Blackwelder was unable to go to her son-in-law's funeral services.

SHS Band Wins Division II In UIL Marching

The Sanderson High School Band won a Division II rating in University Interscholastic League marching contests in Odessa Saturday.

Dick Ramey, director of the band, stated that he was extremely proud of the band and the showing made in the contests.

Rosalinda Lopez earned a Division II in baton twirling. She was the only entry from Sanderson in that event.

Mr. Ramey stated that Imperial earned a Division III, Grandfalls, Division IV, and Forsan and Borden County, the only other two Class B schools, both earned Division I ratings.

Mrs. Alberto Calzada and her sister, Mrs. Manuel Garcia, were business visitors in Del Rio Thursday. They also visited Mrs. Calzada's daughter, Mrs. Robert Manchaca, and her husband.

Eagles Win Clean District Football Title, To Play Bronte In Ozona Friday Night

The Sanderson Eagles had an undisputed win of the District 4-B football championship on Friday night by defeating Dell City Cougars 27-8. The game was played here.

Sanderson earned an impressive first-half 20-0 lead over the Cougars. The first Eagle score was by Carlos Munoz in the first period. He went over the goal line from about nine yards out. Kendall Billings' effort to kick the extra point was unsuccessful. In the second period, Bernie Castro ran over from 1 yard out and Marvin Davis threw a pass to Tony Calzada Jr. for two extra points. Frankie Flores ran over the goal line from about 1 yard out, following a run of about 60 yards and being forced out-of-bounds by one of the Cougar defenders. Billings missed his second PAT kick try to leave 20-0 showing on the scoreboard.

Dell City's lone score was early in the second half when Dennis Barker ran into the end zone from 4 yards out and he also converted the two points extra on a running play.

The Eagles put one other touchdown on the scoreboard, this one in the fourth period, when Bernie Castro ran 30 yards for the score. Billings hit the ball properly for the point-after kick, winding up the scoring in the game.

Captains for the Eagles were the senior members of the squad - Tony Calzada, Carlos Munoz, Ricky Marquez, David Carter, Kevin Farley, Ja Chriesman, Mark Ketzler, Don-

ald Jones, and Danny Montalvo.

Sanderson led 17-13 in first downs, also 400 yards total in rushing to 244, with a ground game of 359 yards to 172 for the visitors. Sanderson completed three of 12 passes, and Dell City had three completions of 20 tries. The Cougars had three turn-overs by interceptions, 2 by fumbles lost, and punted once. Sanderson lost one fumble and punted four times.

One of the outstanding statistics in the game was the complete absence of foul penalties.

Prior to the game, the dads, or their representatives were introduced along with the Eagle football squad members, with the dad wearing the same number as their son.

The Eagle Band, under the direction of Dick Ramey, put on

a half-time for the entertainment of the fans. The band did not march in uniform as they left early Saturday morning for Odessa for UIL marching competition. The senior members of the band were recognized during their half-time performance and include Hanna Sullivan, Tina Flores, Debra Druse, Elias Calzada, Sandra Villarreal, David Carter, Donald Jones, Virginia Falcon, Linda Hagelgans, Cris-tela Ortiz.

were the basis for all taxation; but a difference in formulas or terms is unequal at the very onset. And the State of Texas recognizes this!

Regardless of how we look at it, there are some inequalities that should be righted! There are some inequalities that will never be changed, because those inequalities are unchangeable - like size, hair color, skin color, etc., etc., but social, educational, occupational, and those inequalities are all the result of the prejudices of the strongest, whether or not they are the greatest in number; and majority or minority is really inconsequential in equality.

We read this little "filler" somewhere recently that we thought was good: "You who think you know it all are very annoying to those of us who are sure we do."

We were handed a clipping last week that we didn't need! It reminded us of the amount of interest paid on the national debt, which has increased in 20 years from \$271-billion to \$487-billion as of July 1. The interest averages out to \$429 per year per American family. And this amount goes for no worthwhile purpose in helping to solve any of the nation's problems, other than the financial problems of previous administrations. That increase is about as much as the increase in the price of paper clips or sugar.

We are trying to be helpful, and yet say it like it is. Please try to understand:

The library is very interested in getting books. But sometimes they get books that they already have copies of, even maybe two or three copies. If you are interested in giving books to the library, please consult with them for a list of current or wanted books, or at least to find out if they have any (many) copies of a book you have in mind.

Some "wanted" books are:
 "100 Years War" Cartwright
 "Mysticism" Harkness
 "Strictly Speaking" Newman
 "Showdown" Topperwein
 "Companion Along the Way" Montgomery
 "A Gift of Wings" Bach
 "Country Music USA (paper)" Malone
 "Somebody's Sister" Marlowe
 "Property of a Gentleman" Gaskin
 "Storm's End" James

Rubio was born in Sanderson August 19, 1944. He was graduated from Sanderson High School, and married Yolanda Calzada, daughter of Mr. and Mrs. Antonio G. Calzada, before moving to San Antonio.

After a few words exchanged between the two, Rubio ran into the house and was chased by his assailant. He later fled the house after having been stabbed by the man and after a chase, was caught by the assailant and fatally stabbed. His body was taken to a hospital there and pronounced dead on arrival. Mrs. Rubio was summoned to identify the body and told of the murder of her husband.

The body was taken to Don's Funeral Chapels in Del Rio and brought to Sanderson Tuesday afternoon where it lay in state at 208 East Pine until requiem mass was held at St. James Catholic Church at 4:00 p.m. Wednesday. Rev. John Pierce, priest, was in charge

 TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — The whopping state surplus expected to be available to the legislature will permit \$500 million in new spending without generating tax bills for another eight years.

This was the good news handed a House revenue and taxation sub-committee last week.

However, Texas Research League added the warning that spending all the billion dollar surplus in sight would make a \$1.43 billion tax bill necessary in 1977.

Legislative Budget Board has told lawmakers present spending levels, plus mandatory increases for state employee salaries and emergency school aid, will "leave over" \$1.502 billion at the end of fiscal 1977.

A TRL projection handed the legislative sub-committee discussed creation of a tax stabilization fund as one alternative for dealing with the unprecedented surplus.

Creation of the fund would make it possible to avoid new state taxes for at least eight years and still permit new program spending of \$250 million a year increasing to \$500 million a year by the 1982-1983 biennium, TRL calculated.

However, TRL conceded: "It may be unrealistic to suggest that the next three sessions of the Texas legislature might be willing to hold in trust such a large surplus

solely for the purpose of avoiding tax increases in future years. There is no historic precedent for such restraint."

SCHOOL AID ALTERED — An attorney general's opinion, hailed as one of the most significant in recent months, signaled a new approach to state formulas for finance aid to schools.

Atty. Gen. John Hill held the Commissioner of Education should require county tax assessors to report the percentage of market value used in determining assessed property value.

And he said the commissioner should use that data in "computing the county economic index to achieve uniformity of property values of each county as compared with every other county."

Education Commissioner Dr. M. L. Brockett last week wrote all county tax officials requesting the data, and said it will be used for computing the 1975-76 economic index to be considered by the State Board of Education next March.

NEWSMEN OUT — Rep. Bill Clayton of Springlake, expected to be named speaker next January, said consideration is being given to barring news reporters and other non-legislators from the House of Representatives floor.

No firm decision has been

made, however, Clayton stated.

Meanwhile, the House administration committee named a three-man sub-committee to consider what facilities may be made available for reporters covering the legislature if they are banned from the floor during legislative debate.

Clayton said he considered the move only in the interest of promoting "decorum" in the legislative process. He said onlookers at the capitol are dismayed by what they see on the House floor, and anything that helps restore order may be a public service.

COURTS SPEAK — Failure to buckle a seat belt is no legal cause to cut down compensation to accident victims, the State Supreme Court held.

In another case, the High Court directed a fullscale trial of a lawsuit by the widow of a crane operator against an oil company in a controversy over safe working conditions.

A retrial was ordered for a \$250,000 alienation of affections suit filed by a Brazoria County man against a chiropractor.

The Court of Criminal Appeals held that a person's presence in a house where LSD is discovered is not enough grounds for conviction of possessing the drug.

The same court concluded that former House Speaker Gus Mutscher and associates convicted of conspiracy to accept bribes must start serving five-year probationary sentences, although they have taken further steps to appeal.

AG OPINIONS — A police officer may not break into a dwelling to execute a court seizure writ on personal property, Atty. Gen. Hill held.

In other recent opinions, Hill concluded:
 • University land lease

record files (except for sealed bids) are public information no matter who requests access.

• Questions concerning validity of a proposed inter-agency government agreement should be submitted initially to the Board of Control.

• Student records are available to educational institution personnel, the student, parents, guardians or spouse.

REGULATION SOUGHT — Nine organizations banded together to support legislation calling for a state regulatory agency to deal with utility rates.

Spokesmen indicated cities would be offered an option whether they wanted a state board to regulate their rates and services.

APPOINTMENTS ANNOUNCED — E. Hartley Sappington will be new assistant deputy commissioner of community services of the Texas Department of Mental Health and Mental Retardation, effective January 1.

Angelina County District Attorney John Hannah, former state legislator, will succeed Randall B. Wood as general counsel and lobbyist for Common Cause, "the people's lobby."

Randall Meyer of Houston is chairman of Texas Research League for 1975, and Ed R. L. Wroe Jr. of Austin is treasurer.

QUICK ONES
 Atty. Gen. Hill proposed creation of an underground water conservation district to deal with the subsidence problem in the Harris County area.

Gov. Briscoe requested declaration of Reeves and Hill counties as disaster areas due to losses to farmers and ranchers because of adverse weather conditions.

Plans were announced for a \$155 million expansion of the International Paper Com-

pany's pulp and paper mill in Texarkana.

Teachers will ask the legislature for a billion dollar salary raise—providing \$8,200 starting minimum, and an average \$595 above the national median.

Cotton production dropped 40 per cent from 1973.

"Politicians who shake your hand before the election and your confidence after, are a bit too numerous."

To the Voters of Terrell County

I am most appreciative of your overwhelming support in the General Election. The results could not have been more gratifying. I look forward with enthusiasm to serving my constituents in Austin and hope that you will feel free to contact me at any time with your suggestions and opinions.

Cut-Back In Fly Production Put Off

A cut-back in sterile screw-worm fly production scheduled to begin November 11 has been postponed until December 1, according to officials of the U.S. Department of Agriculture. The reduction from the present level of 200 million flies per week to a new level of 75 million flies a week was announced earlier. The reduction would have involved furloughing over 280 workers at the sterile screwworm fly production plant in Mission. The Mission plant has been producing sterile screwworm flies for dispersal since 1962 when the program to eradicate screwworms in the southwestern U.S. began.
