It Depends on How You Look At It!

There were some who noticed our remarks about the tumbleweeds last week, and some who noticed the tumbleweeds.

We would like for everyone to know that our efforts along this line are not ridicule, condemnation, high-handed, or anything else except well-intended remarks to try to call attention to something that some may not have noticed previously.

Tumbleweeds can grow up chin-high to a tall giraffe and hide the town and you and I and others who do not read The Times can either tolerate such a condition or do something about it. Our interest in doing something about such things is directly related to our interest in the appearance and condition of other things--we either care or we don't! We either cut them and try to get rid of them, or we don't. And the price of eggs in Bialistock will not be affected greatly by what we do or don't do about them. But there are some other things that will be affected.

Cutting down tumbleweeds and trying to get rid of them solely for the sake of one's pride is ridiculous, too! Our pride is not the only thing that is to be considered. Tolerating the tumbleweeds is akin, in a sense, to tolerating an accumulation of trash, or ignoring the inability to dispose of plastics, or thinking there is no need for ecological interest. If you ignore it, it doesn't go away.

Another thing that is a pest and we can't ignore is the hordes of gnats that plague anyone who tries to stay outside for any length of time. Their bite is like a hot needle for days after for some people.

Anything that is done to try to get rid of the gnats has our whole-hearted support. The same thing might - just might - get rid of some flies and mosquitoes, also.

The publication of official and/or legal notices in The Times in one of our privileges and obligations. Some things are required to be published by law, such as financial statements of the school, county, water district, soil conservation district; applications for liquor and beer licenses, etc.; advertisements for bids, and many other things. We do not have the right to change the wording of legal publications to suit our whims, knowing that something is wrong, but we do have the responsibility of calling some things to the attention of persons involved, and trying to see that some things are done properly. Neither is this a high-handed act on our part, but trying to see that publication laws are called to the attention of the responsible parties or party, and pushing

Four Retire From Railroading July 31st

Jack Laughlin

C.H. Stavley

J.M. Jones

O.D. Gray

It would be a very unusual occurrence that four railroad men in one division would retire in one year, so the retirement of four railroad men working between Sanderson and Valentine retiring in one month or on the same day is a very exceptionally extraordinary occurrence.

J.M. Jones, a brakeman, and Jack Laughlin, C.H. Stavley, and O.D. Gray, all conductors on the Southern Pacific Railroad and working between Sanderson and Valentine, retired effective July 31, 1975.

Jones began working for the Southern Pacific Railroad on February 17, 1943, in Ennis. He came to Sanderson August 28, 1944, and moved his family here in August of 1952. He has had no reportable accidents during his entire time of employment with the railroad. He served as president of the Brotherhood of Railroad Trainmen for almost 12 years a post he held at the time of the conversion to United Transportation Union. The family will move to Hope-well community, near Teague, in the very near future, where they own 50 acres of land that has been in the family for many years. He stated that he had no plans at all for the immediate future except to do nothing.

Howard Stavley started work on the Southern Pacific Railroad here in 1942 as a brakeman and has been a conductor since July 1945.

The Stavleys have a place near Brownwood where they plan to move to in the next few weeks and he plans to stay busy working on the stock farm near Brownwood

to which they plan to move. The trainmaster, W.J. Linam, will move his family from Marfa to reside in the Stavley home on Highway 285. They sold their pecan farm here to O.T. Sudduth.

O.D. Gray began his railroad career as a brakeman June of 1937 at Big Spring for the Texas and Pacific Railway. He went to work at El Paso October 16, 1940, for the T&NO and was sent to Sanderson on the 26th of October in 1940 as a brakeman. He was promoted to conductor on June 23, 1943, and for the past six years has worked on passenger service between Sanderson and El Paso at different times. He served as secretary-treasurer of the Order of Railway Conductors and Brakemen. Gray said he had no definite plans for the immediate future, but he will not "just sit and rock".

Jack Laughlin started working for the railroad in Sanderson July 8, 1941, as a brakeman. He began working as a conductor in 1945 and for the past 19 months has been a passenger service brakeman between Sanderson and El Paso. He served for two years as president of the Brotherhood of Railroad Trainmen, and was vice-chairman of the local for about 10 years, he said. Laughlin said that he didn't plan to be "tied to anything" for a while and planned some traveling, some fishing, and taking it easy.

Mr. and Mrs. J.L. Shurley of El Paso returned home Saturday after visiting their son, Kenneth Shurley, and family.

Free Clinic For Immunizations For Pre-Schoolers Set

Wednesday, August 6, there will be a free immunization clinic for all area children two years old and up.

Michael P. Longley, M.D., will conduct the clinic at the elementary school from 9:30 to 3:00 in the afternoon and his office will not be open for the practice of medicine that day. There will be no charge for the immunizations, but donations will be gratefully accepted and used to buy furniture for the clinic building.

Immunizations will be given for DPT, oral polio, diphtheria and tetanus, measles (rubiola), and German measles (rubella).

Dr. Longley asked that all parents bring their children to the clinic at the elementary school as soon as possible so that there will be no long waiting period to complete the project.

Two More Showers Add To Moisture Received Here

Sanderson has had two more showers of rainfall during the past week.

Wednesday night of last week local rain gauge readers found from .3-inch to .9-inch of moisture in their gauges. Friday night a light shower left about .2-inch of rain in most local gauges.

Both of the showers were only local and were accompanied by some lightning and thunder.

Hytech Well Potential Told

Hytech Energy Corp. finalized a calculated absolute open flow potential of 1,008-million cubic feet of dry gas daily for its No. 1 Frank Rashap Jr., Terrell County Pennsylvania gas discovery, 11 miles south of Sheffield.

Production was through perforations at 10,336-427 feet which had been acidized with 6,250 gallons.

Hytech Energy reported a calculated absolute open flow potential February 28 of 950,000 cubic feet daily through Devonian perforations at 11,243-212 feet and the above potential May 28 without reporting the project has been plugged back to 10,520 feet.

It also tested the Fusselman through perforations at 11,143-212 feet, making gas at the rate of 950,000 cubic feet daily.

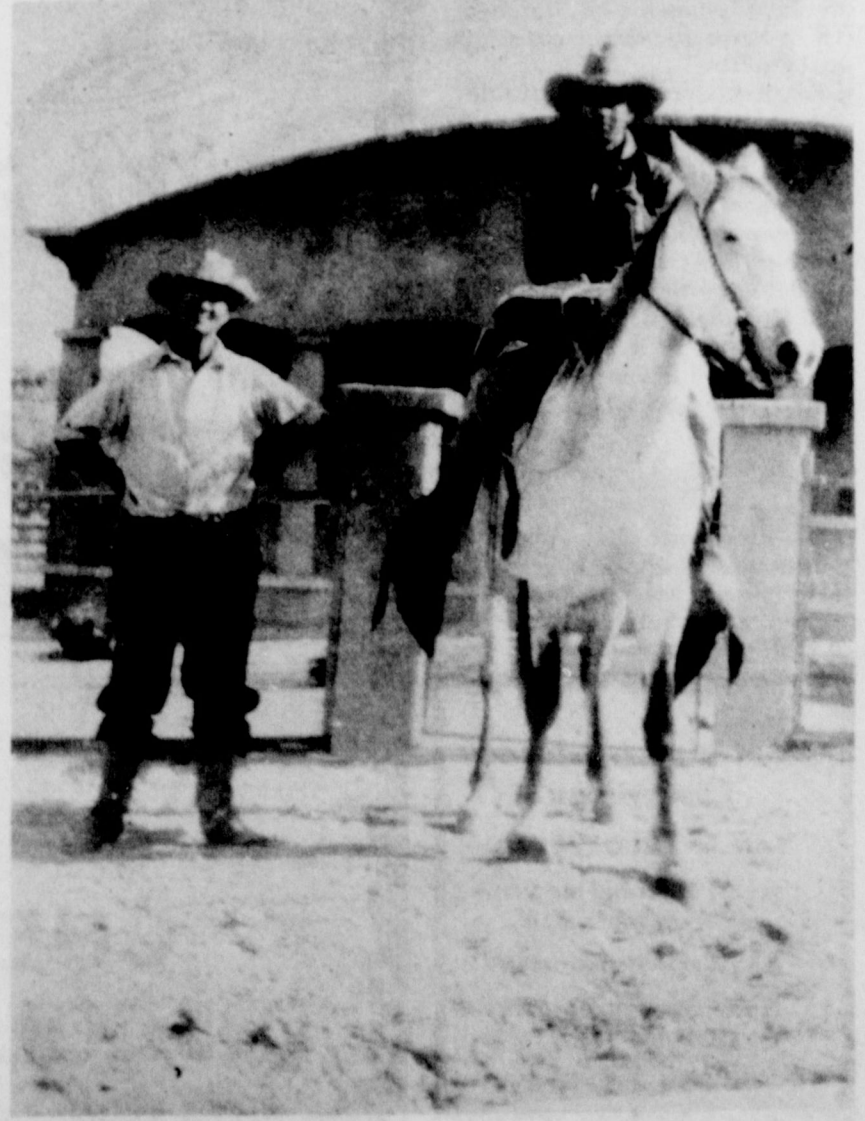

A re-entry operation, it originally was drilled by Rodden Oil Co. (now HNG Oil Co.) to 12,756 feet and abandoned March 8, 1962.

Location is 660 feet from the north and 489 feet from the west lines of section 3, Block 176, TMRR Survey.

Working Women Have SS Rights

"A working wife has social security rights not available to a non-working wife," according to Erven L. Fisher, Social Security manager in Odessa.

Working women are treated the same as working men under social security. They are eligible for the full protection that social security offers to workers: retirement insurance, survivor's insurance, disability insurance and Medicare.

If a working woman has enough work credit under social security, she and her dependents will be entitled to monthly cash benefits when she reaches retirement age or becomes disabled. If she dies, her dependents are eligible for benefits.

A non-working wife can also get benefits from social security on her husband's record, when he gets retirement payments and she is already 62 or older. If he becomes disabled and receives disability benefits, she can get payments too, if she is 62 or older. Regardless of her age she can collect benefits on her husband's work along with him if she has his child under 18 in her care who is entitled to benefits.

Payments are also available for widows. If her husband dies, a lump sum payment of \$255 is paid. Widows can also receive monthly cash payments at three different times: (1) At age 60 or later; (2) Between the ages of 50 and 60 if she is totally disabled; (3) At any age if she is caring for his child under 18 (or disabled) who is entitled to benefits.

J.L. Fletcher of San Angelo was a weekend visitor here with friends. He was formerly employed as butcher at the Double-T Grocery here.

Mrs. H.E. Ezelle Leads Program For U.M.W. Meet

The United Methodist Women met Monday morning in the home of Mrs. W.W. Sudduth with the president, Mrs. H.E. Ezelle, presiding and opening the meeting with a devotional on "The Father".

Following the reading of requests for funds for the Ayers Building at Sacramento, the Houchen Center and Newark Hospital, the group voted to contribute \$5.00 to each of the latter two.

Mrs. David Treat gave the program on "Creativity" and she had each one present display something she had created and a large variety of things were shown. Mrs. Treat read I Corinthians 12:4-7 and the Mizpah Benediction closed the meeting.

Announcement was made of the Presbyterian-Methodist Vacation Bible School and cookies were requested for refreshments.

Mrs. Kenneth Snow read an article concerning a project of the United Methodist Women of Shelby, Tenn., in which they provided yarn for the women in jail and also taught them to knit and crochet, encouraging them to sell the articles which they were making to be able to buy more yarn and also provide funds for themselves.

A cassette with the recording of the hymn "Many Gifts, One Spirit", made by Mrs. T.J. Stewart and Mrs. Irvin Robbins, was played and the group joined in singing the refrain.

Mrs. Sudduth invited the ladies into the dining room for refreshments served from a table covered in a cloth which she had created from a quilt top centered with a large star which had been a gift from her grandmother. Finger food, nuts, punch, and coffee were served.

Also present were Mmes. W. O. O'Rourke, Mark Duncan, Irvin Robbins, W.H. Taliaferro, Clyde Higgins, L.G. Hinkle, J.C. Halbert, L.H. Gilbreath, W.H. Grigsby, and Miss Eva Billings.

Mr. and Mrs. Roy Deaton visited in Harper last week with her mother, Mrs. J.J. Rogers, and other relatives. Mr. and Mrs. J.N. Davis of Boerne visited here for several days with their son, J.N. Davis, and family, returning home Monday.

Mrs. W.R. McDonald Named By Sorority For Possible Honors

The Board of Advisors for the Outstanding Young Women of America Awards Program has announced that Mrs. W.R. McDonald has been selected for inclusion in the 1975 edition of "Outstanding Young Women of America".

Mrs. McDonald, along with approximately 6,000 other young women in the United States, are being considered for further state and national awards. One from each state will be named as their state's Outstanding Young Woman of the Year, and from the state winners, 10 will be selected as outstanding in the nation.

Mrs. McDonald's name was submitted for the program by the Alpha Theta Alpha Sorority of which she is a member. She is the mother of two teen-age sons, Rocky and Russell, and is a member of the Band Boosters, Eagle Boosters, and Church of Christ. She has been in the employ of Riggins Jewel & Gift Shop in recent months.

VISIT IN HILL COUNTRY

Mr. and Mrs. Tony Calzada Sr. and daughter, Mrs. Yolanda Rubio, and children left Thursday for Burnet where they were met by their other daughter, Mrs. Alex Romo, with her husband and children of Monahans for the open-house ceremonies at Inks Dam National Fish Hatchery where the Calzadas' son, Tony Jr., is one of the YCCers attending camp. Guest speakers were Rep. Camm Lary Jr. of the Texas House of Representatives and Bob Stegman, regional YCC coordinator.

The presentation of all of the YCC enrollees followed and then a project tour was made to exhibit all of the things they had accomplished, including the landscaping of the LBJ Lake waterfront, slide presentation, terrarium and snake presentation, etc., and a tour of the boys' and girls' dormitories. Refreshments were served to conclude the program with relatives and parents of the 20 enrollees attending. There was also a group of boys and girls from Harlingen visiting the camp.

The Calzada, Rubio, and Romo families left for Marble Falls and Johnson City where they toured the LBJ Ranch and then they went to Austin

where they visited with Mr. and Mrs. Fred Fuentez and son. After visiting the Longhorn Caverns and Kingsland, they came back to the Inks Dam Hatchery where Tony Jr. is stationed and will remain until August. The Romo family left for San Angelo before returning to their home and the remainder of the party came to Sanderson Monday.

Mrs. Freda Brown of Fort Stockton was a weekend visitor with her sister-in-law, Mrs. W.W. Sudduth, and Mr. Sudduth.

Howard Dishman was a medical patient in Fort Stockton for several days, returning home Monday.

Mr. and Mrs. Roy Deaton visited in Harper last week with her mother, Mrs. J.J. Rogers, and other relatives. Mr. and Mrs. J.N. Davis of Boerne visited here for several days with their son, J.N. Davis, and family, returning home Monday.

Mrs. W.R. McDonald Named By Honorary For Possible Honors

The Board of Advisors for the Outstanding Young Women of America Awards Program has announced that Mrs. W.R. McDonald has been selected for inclusion in the 1975 edition of "Outstanding Young Women of America".

Mrs. McDonald, along with approximately 6,000 other young women in the United States, are being considered for further state and national awards. One from each state will be named as their state's Outstanding Young Woman of the Year, and from the state winners, 10 will be selected as outstanding in the nation.

Mrs. McDonald's name was submitted for the program by the Alpha Theta Alpha Sorority of which she is a member. She is the mother of two teen-age sons, Rocky and Russell, and is a member of the Band Boosters, Eagle Boosters, and Church of Christ. She has been in the employ of Riggins Jewel & Gift Shop in recent months.

VISIT IN HILL COUNTRY

Mr. and Mrs. Tony Calzada Sr. and daughter, Mrs. Yolanda Rubio, and children left Thursday for Burnet where they were met by their other daughter, Mrs. Alex Romo, with her husband and children of Monahans for the open-house ceremonies at Inks Dam National Fish Hatchery where the Calzadas' son, Tony Jr., is one of the YCCers attending camp. Guest speakers were Rep. Camm Lary Jr. of the Texas House of Representatives and Bob Stegman, regional YCC coordinator. The presentation of all of the YCC enrollees followed and then a project tour was made to exhibit all of the things they had accomplished, including the landscaping of the LBJ Lake waterfront, slide presentation, terrarium and snake presentation, etc., and a tour of the boys' and girls' dormitories. Refreshments were served to conclude the program with relatives and parents of the 20 enrollees attending. There was also a group of boys and girls from Harlingen visiting the camp. The Calzada, Rubio, and Romo families left for Marble Falls and Johnson City where they toured the LBJ Ranch and then they went to Austin

where they visited with Mr. and Mrs. Fred Fuentez and son. After visiting the Longhorn Caverns and Kingsland, they came back to the Inks Dam Hatchery where Tony Jr. is stationed and will remain until August. The Romo family left for San Angelo before returning to their home and the remainder of the party came to Sanderson Monday.

Mrs. Freda Brown of Fort Stockton was a weekend visitor with her sister-in-law, Mrs. W.W. Sudduth, and Mr. Sudduth.

Howard Dishman was a medical patient in Fort Stockton for several days, returning home Monday.

*Miss Rosalinda Lopez
Named Queen Of
St. James Festival*

The annual St. James Festival was observed at St. James Catholic Church Saturday. A dinner served in the parish hall beginning at noon opened the day's festivities sponsored by the Children of Mary Sodality.

An out-of-town orchestra provided music for the dance in the parish hall that evening, beginning at 9:00 o'clock, with a large crowd attending.

The highlight of the evening was the crowning of the Queen of the Festival, Miss Rosalinda Lopez, daughter of Mr. and Mrs. Frank Lopez Jr. She was escorted by Johnny Zepeda and was crowned by Miss Yolanda Rodriguez, the 1974 queen, and presented with an arm bouquet of white carnations.

**102 Dog Tags
Sold By Tuesday;
Deadline Today**

Only 102 dog tags had been sold as of Tuesday afternoon, according to H.A. Mullings, dog control officer appointed by the Terrell County Commissioners Court. He begins his duties on August 1.

Mullings stated that he would appreciate the support and cooperation of the dog owners and citizens of the county in controlling the dogs in Sanderson and nearby.

Mullings said that he was going to soon have a pen to hold stray dogs for a while after they were found, and that every effort was going to be made to do a good job of control locally.

All persons who do not have a tag for their dogs are advised to get one immediately and to obey the other points of the law concerning stray or unlicensed dogs to prevent them being picked up. Anyone who has a dog they do not want to license and want to dispose of it, is asked to contact Mullings.

VISITORS HERE

Mrs. Mario Cantu, the former Janie Sanchez, her son, Mac and Miss Rosie Sanchez, daughters of Mr. and Mrs. Otilio Escudero, left Bensenville and Aurora, Ill., on July 18 and drove to Texas. Applicants For Student Grants Needed

Students looking for ways to finance their education after high school (and how many aren't these days?) may be able to receive up to \$1,400 a year in Federal grants in time for the next school year.

Under the Basic Educational Opportunity Grants (Basic Grants) program sponsored by HEW's Office of Education eligible students may be awarded anywhere from \$200 to \$1,400 a year to help meet their educational expenses. The U.S. Government does not require repayment of such awards.

Students who have begun their post high school education after April 1, 1973, and attend at least half-time can qualify. They may attend any one of the over 5,000 eligible schools. These include not only traditional colleges and universities, but also vocational, technical or business schools, and hospital schools of nursing.

To apply for a Basic Grant a student must first complete and submit an "Application for Determination of Basic

Grant Eligibility" for the 1975-76 academic year. These forms are available from high schools, colleges, libraries, or by writing Basic Grants, P.O. Box 84, Washington, D.C. 20044.

Within 4 to 6 weeks the applicant will receive a "Student Eligibility Report", which tells whether the student has qualified. When the report is received it must be submitted to the financial aid officer at the school in which the student is interested in enrolling. The financial aid officer will then calculate the amount of the Basic Grant Award.

A Basic Grant may not cover more than one-half of the total cost of education. This includes tuition, fees, room and board, books, supplies and miscellaneous expenses.

In addition to qualifying for a Basic Grant, a student may also be eligible to receive any one of four other financial aid programs sponsored by the Office of Education. The financial aid officer is the best source in checking out these other forms of aid.

Uninsured Drivers May Be Subject To Cancellation of Driver's License

Uninsured motorists involved in traffic accidents resulting in death, personal injury or property damage in excess of \$250 may be subject to suspension of their driving privileges and vehicle registrations under a revision to the Texas Safety Responsibility Law.

Colonel Wilson E. Speir, director of the Texas Department of Public Safety, said the new law -- which was enacted during the recent legislative session -- requires DPS to evaluate traffic accidents (meeting the above criteria of seriousness) to determine if there is a "reasonable" probability of judgement" against one or more of the drivers. If such a finding is made, and if the driver or owner has no liability insurance meeting the state's minimum requirement of \$10,000/\$5,000, then the DPS must require the uninsured motorist believed at fault to satisfy the security provisions of the law. This may be done in one of the following ways:

- By submitting a written release signed by the other damaged parties.
- By filing an installment agreement made with the other damaged parties involved.
- By depositing security in a sufficient amount to take care of damages sustained by others and maintain proof of financial responsibility for a period of five years from the date of the accident.
- By filing copies of civil damage judgement obtained against other parties involved in the accident, or a judgement of non-liability.

When the security provisions of the law are not satisfied by the uninsured owners and operators, and the DPS determines there is "a reasonable probability of judgement" against such persons, the following provisions of the law become applicable:

- A written notice of future driver license and motor vehicle registration suspension must be forwarded to such persons by certified mail. Such a notice will advise that a hearing will be granted upon request.
- Upon receipt of a request for hearing, the DPS will notify the persons requesting same to appear before the traffic court judge in their precinct of residence, and it will become the responsibility of the traffic court judge to determine whether or not there is "a reasonable probability of judgement" and, if so, the amount of security to be deposited with DPS by the uninsured persons.
- Any suspension invoked by the DPS in motor vehicle accident cases of this type will be stayed by a request

for hearing until such time as the matter is finally resolved through administrative hearing or the courts.

Speir said the new law was enacted to enable Texas to comply with a U.S. Supreme Court decision. The decision had invalidated portions of the previous Texas Safety Responsibility Law because of a lack of "due process" provisions of the old law.

Speir said the new law was signed by the governor on June 20, and uninsured motorists involved in accidents since June 21 can be affected by its provisions.

CONTRACT AWARDED

Big 3 of Fort Stockton was awarded the contract for drilling a water well for the Terrell County Water Control & Improvement District No. 1, at their meeting of the directors of that organization on Monday night. The bid was \$7,125 for drilling a 500-foot hole 10" in diameter, setting 8" casing.

The hole will be drilled on the McCue property near existing water wells operated by the water district, and drilling is expected to begin in about two weeks.

Sheep, Goat Tally In County Told

Terrell County was in the top 10 in the state in the number of sheep and Angora goats, according to information released by the Texas Department of Agriculture.

The total number of sheep and lambs in Terrell County as of January 1 was 94,000, according to John C. White, Commissioner of Agriculture, and 22,779 Angora goats.

Terrell County's wool production reached 875,000 pounds, while mohair production was 210,000 pounds.

Production of sheep and lambs in 1974 totaled 111,205,000 pounds, wool production reached 23,900,000 pounds, with a total gross income for the industry in Texas at \$46,236,000 last year.

Angora and other breeds of goats is estimated to be 1,150,000 head, with a total value of more than \$15-million. Texas produced 8,400,000 pounds of mohair last year and was valued at \$11,508,000.

Complete county statistics concerning wool, sheep, goat, and mohair production have been included in the 1974 Livestock Statistics book recently published by the Texas Crop and Livestock Reporting Service. Free copies of the report may be obtained by writing to Commissioner John C. White, the Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711.

When they return today, the girls will have a house guest, Dannette Dunagan, of Eldorado who has been attending the academy also.

YOUR LOCAL FILLING STATION.

Very often you hear people sanctimoniously talking about "Houses of God." And they're right! Because that's just what these places are—houses. Buildings. And they are no more "holy" than the outside acts of the people who use them. In fact, it might be a lot better if we thought of our church as a spiritual "filling station"—a place not sheltering us from the world, but giving us the fuel to go out into the world.

This week, in your church, don't just sit there. Think about how far you can go during the week on the spiritual fuel you're taking in. Could you be doing something, for instance—no matter how small—about the agony of our cities? Could you right a wrong? Could you be strong enough to take a stand on a moral issue where the "popular" thing would be to remain silent? Could you do a simple act of kindness with no hope of return, for the most unloved person you know? This week, don't let your Faith idle. Step on the gas.

STATE CAPITAL Highlights AND Sidelights

by Lyndell Williams

AUSTIN — Inflation closed in on Texans from two more fronts within the last week.

A court order lifting a 90-day medical malpractice insurance rate freeze (see story below) may boost medical bills \$50 million to \$200 million a year, according to Texas Hospital Association.

One medical official estimated hospital costs will increase \$2 to \$8 a day due to the increasing insurance charges for doctors and hospitals which are passed on to patients.

Meanwhile, Texas Department of Highways and Public Transportation launched a 90-day study to determine how it can trim payrolls and services in the face of rising costs.

Engineer-Director Luther DeBerry of the Department of Highways and Public Transportation said there is no way of knowing how many jobs will be knocked out due to the study.

He indicated the reduction may be as much as 20 per cent over a two-year period, however.

"Watchdog" Job Mapped

"Common Cause," the citizens' lobby, and a coalition of other consumer-oriented groups will monitor work of the new Public Utilities Commission.

The group warned that utility monopolies will try to "capture" the regulatory group. A non-profit, tax-exempt organization will be formed to protect consumer interests in rate and service disputes.

At about the same time, the Texas Coalition for Utility Regulation urged Governor Dolph Briscoe to make public names of persons he is considering for appointment to the Commission. Briscoe's appointments assistant, George Lowrance, said the governor has no intention of doing so.

CIA Funded Research

The Central Intelligence Agency funded \$436,702 worth of research in six projects at the Texas Research Institute for Mental Sciences at Houston.

Projects were criticized by Rep. Lane Denton of Waco who claimed studies were "only remotely related" to the state institution's job of research in treatment of mental illness.

Most of the funds apparently went to efforts to improve the polygraph or lie detector. The scientist in charge of the project said polygraphs are used widely in evaluation of mental illness.

Courts Speak

An Austin district judge blocked State Board of Insurance plans to freeze medical malpractice insurance rates at the June 3 level, leaving them unregulated until September.

Fourth Court of Civil Appeals declined to reinstate ousted Duval County Judge Archer Parr. Parr is appealing to the Supreme Court.

The State Supreme Court

agreed to reconsider lower court decisions that rules requiring unmarried undergraduate women students at Texas Woman's University to reside in dormitories are unconstitutional.

Former all-American football player John Kimbrough succeeded in getting a Supreme Court order to try his \$1 million lawsuit growing out of use of his picture in a Coca-Cola ad.

The Supreme Court agreed to review lower court findings that uncorroborated testimony of an accomplice is sufficient to judge an Ector County youth a delinquent.

Right of a state agency to stop savings and loan associations from giving premiums to attract deposits was upheld by the Supreme Court. The finding backed up trial and intermediate courts.

AG Opinions

A school board is not required to reveal identity of employees discussed and evaluated in a properly-closed meeting, Attorney General John Hill held.

In other recent opinions, Hill concluded:

Persons committing crimes while under 17 years of age are within exclusive jurisdiction of juvenile court.

Individual teacher retirement records are not subject to disclosure under the open meetings law.

Insurance Boost Asked

A 13.8 per cent average hike in homeowners insurance coverage will be the subject of a State Insurance Board hearing August 4.

The industry is also seeking an increase of 4.7 per cent in fire coverage for dwellings.

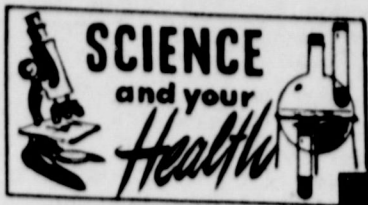

Texas Insurance Advisory Association is further seeking elimination of 10 per cent discounts on three-year fire and extended coverage policies.

Short Snorts

Governor Briscoe approved 77 action grants and 25 planning grants totaling \$5.9 million to reduce crime and improve the criminal justice system.

Senator Tati Santiesteban of El Paso served as acting governor of the state part of last week, due to absence of both Governor Briscoe and Lieutenant Governor Bill Hobby.

Comptroller Bob Bullock continued shutting down businesses in Fort Worth, Hurst, Irving, Dallas, Mineral wells and Killeen for

Aspirin-Sensitive?

Are you sensitive to aspirin? You may be, without even knowing it. After years of research, doctors have learned for sure that aspirin does produce unwanted side effects for some people under certain conditions.

"Persons with allergies or asthma, for example, are particularly prone to aspirin allergy, with reactions ranging from relatively mild skin eruptions to severe asthmatic attacks or even anaphylactic shock. Frequently the sensitive patient is unaware that aspirin is causing or contributing to his problem," says Dr. John C. Maerz of McNeil Laboratories, where extensive aspirin-sensitivity studies are continuing.

If you have an inherent bleeding disorder, peptic ulcer or other gastrointestinal lesions capable of bleeding, you should avoid aspirin. Persons with a tendency toward anemia are also quite prone to aspirin-induced bleeding, Dr. Maerz notes.

You can probably take aspirin safely and effectively if you don't fall into any of these categories — it's still the world's leading pain relief drug. But if they do apply to you, or if you're doubtful, doctors now widely recommend Tylenol as a safe, effective non-aspirin alternative without the unwanted side effects of aspirin.

In many hospitals it is now routinely prescribed instead of aspirin for post-operative pain relief.

Mr. and Mrs. Johnny Black and son and Mr. and Mrs. David Shoemaker and son made a vacation trip to Corpus Christi and Port Aransas and other points on the Texas Coast last week, stopping by Alamo Village at Brackettville en route home.

Mrs. Ola Penney is in a hospital in Midland after fracturing her leg in a fall in that city Monday. She had gone with Mrs. T.H. Sumrall on a business trip and fell after leaving a store, according to reports. She had orthopedic surgery for a bad break in her ankle.

failure to pay back state and city sales taxes.

Texas Water Rights Commission approved a proposed Corps of Engineers plan to control natural salt pollution in the Brazos River Basin, but disagreed over financing it.

The State Treasury Department as of June was earning interest on \$1.16 billion in time deposits at annual rates of more than \$81.4 million a year.

State spending soared to an all time high of \$962.1 million during May.

FOOD MARKETING ALERT

USDA
Agricultural Marketing Service

Terminology used: PLENTIFUL — More than enough for requirements. ADEQUATE — Enough to meet needs. LIGHT — Less than adequate; not enough for normal needs.

As of mid-July, the supply situation in August is expected to look like this . . .

RED MEATS —

Beef . . . adequate. Production rates are expected to be about 5% above Aug. 1974 level and moderately ahead of 1972-74 average for Aug. Grass and other forage-fed beef continues to account for all increases from year earlier. **Pork** . . . light, with production rates seasonally low. Aug. output rates will likely average 18-20% below year earlier and well under 1972-74 average for month.

POULTRY & EGGS —

Broiler-fryers . . . adequate. Aug. production probably to be unchanged from Aug. 1974, and slightly under 1972-74 average for Aug.

Turkey . . . adequate. New-crop marketing forecast at 14% below Aug. 1974, and 16% under 1972-74 average for Aug. Aug. 1 cold storage holdings to be well below record stocks of Aug. 1974, but near average for 1972-74.

Eggs . . . adequate, with output likely to be 5% less than year earlier, about 7% under Aug. 1972-74 average.

MILK & DAIRY PRODUCTS —

Fluid milk, dairy products . . . adequate. May production was below 1972-74 average for that month. Examples: **Milk**, down 2.1%; **butter**, 4.7%; **American cheese**, 5.2%; **non-fat dry milk**, 0.5%. June milk production continued 2.1% below June 1972-74 average. Commercial stocks of butter, nonfat dry milk, and American cheese in May were well below very high levels of May 1974, but butter stocks about equaled — and cheese holdings were somewhat higher — than their 1972-74 averages.

FRUITS, VEGETABLES, NUTS

Fresh peaches . . . plentiful. Total U.S. production — except for California clingstones, used mainly for canning — is estimated at 13% above last season, 15% ahead of past 3-seasons' average. **Plums and nectarines** (major fresh fruits from California) . . . adequate. Plum output for 1975 is pegged at 20% under last year's record crop but 3% above past 3-seasons' average. Nectarine pro-

duction in 1975 should be 13% below record 1974 crop but 5% more than past 3-seasons' average. **Fresh Bartlett pears** (in California, Oregon, and Washington) . . . plentiful. Crop is reported to be 2 weeks later than normal — is forecast at 5% above last year's, 8% more than average of past 3 seasons.

Canned non-citrus fruits . . .

plentiful. Examples: June 1 stocks, compared with year earlier and June 1972-74 average) **canned peaches**, 256% larger than 1974, 118% above 3-year average; **canned pears**, 109% greater than 1974, 41% above average; **applesauce**, 55% more than both 1974 and 3-year average; **canned apples**, 34% bigger than 1974, 53% above average.

Fresh oranges . . . adequate.

Valencias remaining for harvest July 1 were 29% above year earlier but 4% less than 1972-74 average. **Lemons** . . . adequate. July 1 supplies were 6% larger than year earlier, 29% above 1972-74 average. Florida **limes** . . . plentiful, with 1975 production 5% above last season and 6% above past 3-seasons' average. **Citrus juices** . . . plentiful. June 30 stocks

of Florida frozen concentrated **orange juice** just under record holdings of year earlier, 25% above most recent 3-seasons' average. Supplies of Florida frozen **grapefruit concentrate** June 30 were same as year before. Florida canned single-strength **grapefruit juice** stocks were 30% less than year earlier.

Raisins . . . plentiful, with 1974 output about 9% greater than large 1973 crop. Good prospects for a record 1975

grape crop. **Dried prunes** . . . plentiful. The 1975 crop is expected to be slightly larger than last year's but 29% under the 1973 output, the largest since 1930's.

Potatoes . . . adequate. Summer crop is forecast at 13% less than last year's, 7% under 1972-74 average.

Frozen vegetables . . . plentiful. Total stocks of frozen items May 31 were 9% greater than year earlier, 45% more than 1972-74 average. Supplies of **frozen green peas** at May's end were 79% above year earlier, and **green bean** and **sweet corn** inventories each were about one-fifth higher. **Frozen potatoes** . . . plentiful. May 31 stocks were record high, 45% greater than year earlier and one-third above 1972-74 average.

Canned green beans . . . plentiful. Cannery stocks June 1 were more than double those of June 1, 1974 and the 1972-74 average holdings for that date. **Other canned**

vegetables . . . adequate, with increased supplies in offering as '75-crop packing gets moving.

Peanuts . . . plentiful. May 31 stocks from record 1974 crop 38% above year earlier.

Walnuts . . . plentiful, with record 1975 crop estimated 22% ahead of last year and 9% larger than previous record crop of 1973. **Almonds** . . . plentiful, due to record 1974 crop. The 1975 output is expected to be about 27% under that of 1974.

GRAINS & LEGUMES —

Wheat . . . plentiful, with total production expected to exceed last year's record crop by 22% — and to be 30% greater than 1972-74 average.

Rice . . . plentiful. Planted acreage as of June 1, up 7%, indicating probable record 1975 crop.

Dry beans, dry peas . . . plentiful. The 1974 dry bean crop topped year-earlier yield by 27% and 1971-73 average by 23%. Dry pea output in 1975 more than doubled that of 1973 and was 36% larger than 1971-73 average.

Corn . . . plentiful. The 1975 crop was forecast in July at record 30% above 1974 production.

Among those attending Paisano Baptist Encampment last week were Mmes. James Word and Felix Harrison for two days, Mrs. A.D. Brown, and her great-grandchildren, Toni and Jerry Andrews. Mrs. Brown and her great-grandchildren were brought back to Sanderson Monday by her daughter, Mrs. Ed Foley, of Alpine.
