

THE SANDERSON TIMES

VOLUME 68, NUMBER 36

SANDERSON, TERRELL COUNTY, TEXAS 79848

SEPTEMBER 4, 1975

It Depends on How You Look At It!

In our efforts to more successfully pursue our hobby, we have decided to undertake a more detailed study of limnology. We were convinced in recent perusals that this was necessary.

We received a copy of the proposed revision of the Texas Constitution, comprising 124 pages.

And Texas voters will be asked to approve or reject that document in eight separate sections -- that is eight separate propositions upon which voters will say "yes" or "no".

If Proposition No. 1, revising the Separation of Powers, Legislative, and Executive provisions of the constitution is adopted alone or with other propositions, the legislature will convene in a regular 90-day session on the first Monday in January, 1976, for the limited purpose of implementing the adopted amendments and items submitted by the governor.

If Proposition No. 1 is not adopted, but any of the following propositions is adopted, the governor is mandated to call the legislature into special session prior to July 1, 1976, for implementing (as determined by the governor) revised articles: Propositions 2, 4, 5, 6, 7.

The two paragraphs above are direct quotes from the book sent us by Rep. Susan McBea.

Mrs. McBea was not on the committee preparing the document, so it's not her fault, BUT -- the voters of Texas are expected to vote intelligently on the eight propositions.

What has not been explained yet, is HOW? --- If you want to read the book, it's in the library!

Steve Litton and his fiancée, Miss Renee Nielsen, were weekend visitors here with his mother, Mrs. C.E. Litton, leaving Monday for San Angelo where they are seniors at Angelo State University.

Visitors with Mr. and Mrs. J.W. Carruthers Jr. and family on the ranch were his aunts, Mrs. George Vincent and husband and Mrs. Richard Lewis of Snyder, also his cousin, Mrs. Jack Jackson.

Mrs. Pat Harris spent 10 days in Brady with her father, E.C. Lambert, who is a medical patient in the hospital there. She plans to move him to Fort Stockton when his condition will permit the move.

Mr. and Mrs. Alberto Calzada had as weekend visitors their daughters, Mrs. Gilbert Torres, with her husband and two children of Odessa and Mrs. Roberto Menchaca, with her husband and baby of Del Rio.

A rather large crook-neck squash was brought into the office of The Times by Les Carter and is shown above being held by Mrs. J.A. Gil-

breath. Carter stated that he had another bigger squash that he was going to pull later. This one measured about 36 inches around the crooked neck.

New rates for long distance calls within Texas.

With Discount Periods and a new One-Minute Rate, you may be able to save money.

Rates for Long Distance calls within Texas have just changed.

For you—the telephone customer—it means most rates are going up.

But you may be surprised to learn that rate changes won't necessarily bring higher telephone bills.

Because with our new discount for dialing your own calls, you can better control your Long Distance costs.

In some cases, you may be able to *save* money on your Long Distance bill by taking advantage of these rates.

For example, there's a new one-minute rate on all calls that you dial yourself—without the operator's help.

Under the old rate, the initial rate period was for *three* minutes. Now on One-Plus dialed calls the initial rate period is *one* minute.

That means you can save by reducing the length of your call.

Nights and Weekends there will be a 40 per cent discount.

So, if you call later in the day or night, or on weekends, you're going to get the lowest rates possible.

But if you place calls through an operator, rates for these Zero-Plus calls will be higher, at any time—night or day. These include calls from a coin phone, collect, credit card and calls billed to a third number.

The initial rate period of three minutes will continue for these and other operator-assisted calls.

And, person-to-person calls will cost more than any other type call.

In this case the lower rate applies.</p> <p>*On operator-assisted calls, the same rate applies at all hours on all days.</p>

Simply put, if you dial the call yourself, you are going to get a lower rate. If you place your call through an operator, it will cost more.

Now our new rates offer you a choice.

By dialing your own calls and by taking advantage of our discount rate period, you can still get low rates and fast service.

Also, for the first time we are offering flat percentage discounts for Evening, Night and Weekend One-Plus calls.
