First news of a vital scientific triumph that will bring untold beauty and happiness to millions of anxious women.

2nd Debut for Mother

Since She Had Her "Face Lifted" at Home Without Surgery

From Germany—
The "Wiesbaden Discovery" that Makes Older Faces Look Younger
WIESBADEN, GERMANY
—April 28—Since news has leaked out concerning a carefully guarded top secret discovery by a small but mighty important group of skin physiologists, women in this part of the world have been waiting with bated breath for official announcement that the real "fountain of youth" has at last been found. Such, however, is not quite the case, but scientific authority has it that a way is now known whereby facial skin is actually made to drink minute but sufficient quantities of water, to quickly gain an appearance of fresh, smooth youthfulness it hasn't had in years. Facial lines, particularly around the eyes, and the throat creases that so deeply mark the face of women whose birthdays are said to more or less "get hot" as this water beneath the skin's surface pushes them out of sight. It's something like a "face lift"—but no surgery. While this research was not conducted in the interest of beauty, but for the sole purpose of furthering scientific knowledge of skin functioning, it appears that a preparation for millions of unhappy women is a real, though honestly not intended, result. By special arrangement with the discoverers of this technique for at least partially reversing the aging process, a skin care preparation has been formulated which makes home application of the Wiesbaden discovery easy, pleasant and effective. The name of this preparation is 2ND DEBUT.

2ND DEBUT with CEF is for women of all ages. It helps nature prevent and eliminate tattle-tale lines and wrinkles. Its benefits are gradual, subtle and lasting.

CEF, the remarkable biological ingredient in 2ND DEBUT, is absorbed by the skin, taking with it countless tiny droplets of natural moisture to replace those time and the elements have taken away.

As the moisture accumulates, it pushes lines and wrinkles upward and out. Signs of aging are smoothed away as the face is "lifted", naturally, without surgery.

2ND DEBUT is formulated with CEF 600 for normal skin care, and with CEF 1200 "double potency." So, start using 2ND DEBUT today.

2ND DEBUT Liquid Cleanser is for women who are bothered by a ruddy complexion, blackheads, or large pores. All these problems are due partly to improper cleansing.

Deadline Nears For Absentee Vote

Bailey county absentee votes increased by nine during the day Friday, Hazel Gilbreath, county clerk stated. The total number of absentee votes tallied 21 late Friday afternoon, with eight of these returned by mail, Mrs. Gilbreath said. Deadline for absentee voting is November 4th, next Friday. Persons who paid their poll taxes or obtained an exemption are eligible to vote in the up-coming Nov. 8 general election here.

In the meantime, Jean Lovelady, county tax collector, has been taking registrations since October 1st for 1967 voting requirements now required by law. Persons over 21 must be registered by January 31, 1967 in order to vote in next year's elections. Those over 60 are not required to register, Mrs. Lovelady said. Mrs. Lovelady also said that county taxes are coming in

fairly well, with persons mailing in before October 31st deadline to obtain three per cent discount early-payment bonus. Discounts decrease until Jan. 1, 1967, when taxes net are due. Penalty fees are charged after Feb. 1st. County Judge Glen Williams reminded that MISD allows the early-payment school tax discount. Three Way Independent School District does not, Bailey county allows the discount for early payers while the City of Muleshoe does not.

Clay Moves To Houston For Title Fight Training

World's heavyweight boxing champion Muhammad Ali, formerly known as Cassius Clay, moved to his Houston training headquarters Friday, Nov. 4, in the Hotel America to prepare for his title fight against Houston's Cleveland Williams on Monday, Nov. 14, in the Astro-dome. And by the time that Ali and his entourage get to that Cullen Center headquarters promoter Earl Gilliam expects the advance ticket sale to already be near a record number for an indoor audience to a boxing match, anytime, anyplace. The previous largest indoor crowd to a boxing match was 23,306 on Jan. 17, 1941, in Madison Square Garden, New York, for the Henry Armstrong-Fritz Zivic fight. Advance ticket sales have been good, said Gilliam, President of Texas Boxing Enterprises, promoters, but there still are plenty of good seats at all price ranges. Seats are \$50 at ringside, \$20 at field level boxes (red) \$15 for mezzanine, pavilion and club level (coral, tangerine, brown and oack) \$10 logs (purple) and \$5 upper level (yellow and old gold.)

1966 Muletrain Rated 'A'

THE ANNUAL'S "A" TRADITION- Checking over the 1966 Muletrain which was sent to National Yearbook Association and received a Gold Certificate of Award, are this year's Muletrain annual staff members Larry Meyers, co-editor Debbie Bryant, and sponsor Wayland Ehridge. Ransom Jones, co-editor for '66-'67 with Debbie, is not pictured.

In keeping with the tradition of Muleshoe High School yearbooks, the 1966 Muletrain annual scored a grade of "A" from the National School Yearbook Association, reports Wayland Ehridge, yearbook sponsor.

Editors of the 1966 edition were L. T. Green III, and Karen Black. Other members of the staff were John Thompson, boy's sports editor; Carolyn Nowlin, Willoughby, photographer; Janie Crane, business manager; Carolyn Allison, fine arts coordinator; Larry Meyers, photographer; and Junior class coordinator; Dennis Barrow, feature and theme editor; Lyne Barrett, advertising editor; Judy Elliott, freshman and sophomore coordinator; and Sandra Garlington, girls' sports editor.

Although highly praised for extensive coverage of school activities, it was pointed out that improvement could be made in photography and general layout. This edition of the Muletrain was the eighth yearbook produced in M.H.S. to score

an "A" rating, according to Mrs. Horace Blackburn, sponsor of seven of the "A" books. This was the first book sponsored by Wayland Ehridge, who replaced Mrs. Blackburn upon her retirement. This spring, the book will be entered in the West Texas Journalism contest held at Canyon, Muletrain has captured the Canyon trophy for the past six years.

Dedictees of the "Shifting Sands of Time" edition was L. R. Stegall, a math teacher of Muleshoe High School. Interesting facts occurring in his life that were stressed in the writeup are his being a member of the F.B.I. as undercover agent during the prohibition

days, his participating in politics, his working in the oil fields, his participation in professional Oklahoma, being a professional photographer, and being a teacher for 42 years. Mr. Stegall was completely unaware of the dedication until awards night during the spring semester of 1966. The dedication was presented on a double-page spread with pictures inset on black pages. One of the photos pictured Mr. Stegall at his ranch, "The Rebel", in Oklahoma.

Editors of this year's Muletrain are Ransom Jones and Debbie Bryant. Other members of the staff include Aurilio Cuevas, photographer; Hal Anderson, Ben Olier, photographer; Pat Clair, treasurer; Beria Elizarraraz, Larry Meyers, Ann Phelps, Susan Pendergrass; Carol Haire, photographer; Beverly Phipps, Jerry

Redwine; Lydia Wolfe; Patsy Myers, and Pat Malone.

Theme for this year is, of course, a secret. Members of staff have concluded advertising sales, and with the arrival of school day pictures in about three weeks, everyone will be fully underway producing another edition of the Muletrain. All that can be made public at the present time, reports Ehridge, is that the book will have 240 pages and a picture of the entire student body will be printed in color on the front and back endsheets.

Subscriptions for the Muletrain went on sale Oct. 15 and will continue through Dec. Prices, the same as last year, are \$5, or a \$2.50 deposit is required to reserve an annual.

Morton Defeats Mule Freshmen

By Trevor Ford

Our freshmen went to Morton Thursday, Oct. 27. At the half-time score was Morton 28, Muleshoe 0. In the fourth quarter, Muleshoe got the ball on their own 40 yard line. They ran it to the one yard line, where Ronnie Barrett scored on a Quarterback sneak. The pass for the extra point from Jim Putman Roy McCormick fell incomplete.

Morton outweighed Muleshoe 35 pounds in the line, Morton had three boys weighing over 205 pounds. Even though the Mules were outweighed, they managed to make eight first downs.

The final score was Morton 44-Muleshoe 6.

Band, Twirlers Bring Honors Football Show Favorites On Tap

The Muleshoe Mighty "M" Marching Band went to UIL Marching Contest at Buffalo Stadium in Canyon Oct. 25. The band was judged by three outstanding band directors from colleges in the United States and high schools in Texas. The judges gave the band two II divisions and one I division. The resulting division became a II. The band and spectators from Muleshoe were quite proud of their performance. Some bands receiving I divisions were Hereford, Levelland, Littlefield and Tulla. Perryton received a II division and Dumas received a III.

The MHS twirlers entered an ensemble and solos at the contest and again came out on top. Val Moore and Diane Bryant placed first with their duet; Val placed second, and Diane placed first with their solos. Congratulations to you, Val and Diane.

The MHS band's candidate for Halloween Queen is Val Moore. Val is a twirler for the band and is an active member, one of the best spirit leaders and best marchers, and is active in other band organizations. Cast your vote for Val (She's a junior, too).

This upcoming week the band is presenting a new type of football show, using the show music to "The Sound of Music." We hope that all the spectators will enjoy this halftime show. Band favorites will also be crowned at the performance. The candidates are to be elected this week.

This week we would like to recognize the senior members of the band and thank them for their guidance and hard work. They are Hal Anderson, Marsha Blackman, Nancy Lee, Lynn Erickson, Terry Bryant, Marcie Williams, Brenda Tanner, Kenneth Whitte, Stephanie Peery, Neil Finley, Pat Malone, Tom Jones, Billy Kelley, Gal Lockerman, Ann Phelps, Pam St. Clair, Lindell Wilson, and Gay Seagraves.

Mrs. John (Elizabeth) Watson, then 8th grade teacher at MHS, was the first sponsor. She served for several years until becoming Curriculum Director of Schools. Mrs. James (Betty) Jennings also acted as FBI sponsor in the past.

So now remember the "FBI Story" is Muleshoe Junior High's "Feed Bag Information" - a clever and newsy paper too!

FBI Story Told By MJH Reporters

Last week's MULE'S TALE announced Mules Junior High FBI staff, and news from the junior high newspaper, including MHS band news and Miss Personality and Mrs. Personality of the first six weeks.

By request, this week we announce the background and history of the "FBI story."

MJH 8th grade language arts classes prepare and edit the stories and features for FBI each six weeks under the direction of Hollie McNatt, sponsor. Each section of the six 8th-grade English classes elected staff members, including editor and reporters. The paper is mimeographed by the school. Moaey from the paper sales (five cents a copy, please) goes to the Junior High School Fund.

After the contest, the Muleshoe contestants went to Clovis under the chaperoning of Mr. and Mrs. Leasel Richardson, and ate a delicious supper at Denny's Cafe.

Newspapers Add Book Chapters

By David Dillman

"How the Newspaper Has Made a Difference in My Life"

As I take a long look at the newspaper, I see it is really a huge book to which a chapter is added each day. It's true beginning has faded from sight and it's ending is lost in the future.

It is hard to say how the newspaper has affected my life as I have never been without it. The newspaper has become a daily routine in my life. Since I am an avid sports fan, the sports page has the greatest appeal for me. No doubt this page has influenced me being this way. It keeps me up to date on all scores and happenings in the world of sports and provides many interesting stories. If the paper has a good sports editor, I enjoy reading his column. This page makes it easier and more enjoyable to follow my favorite players and teams throughout the year.

Maybe I should not admit it, but the most enjoyable section is the comics. What would life be like if we could not know what happened to Dick Tracy, Little Orphan Annie, and L'il

Newspapers Add Book Chapters

Abner each day? This page is able to lift me up after the front page knocks me down. It is able to bring laughter and happiness into a dull day.

Probably my biggest downfall is not reading the actual news as I should. Half the time I do not know what the headline says and I do not keep up with current events.

The source from which I receive my ideas on America and current events is from the front-page editorial and the editorial page. For me it is more enjoyable to read this type of newspaper writing. The editorial is perhaps the most efficient form of freedom of speech. To see a writer writing against my ideas and beliefs wakes me up and lets me see both sides of a story. On the other hand, an editorialist writing from my point of view, strengthens my beliefs and enriches my ideas.

The newspaper is the most efficient and thorough means of communication in the world. It would be impossible to know what our lives would be without it. Next to school, the newspaper has added more to my knowledge than any other source. It is the prime textbook of the American people.

THE PSALMS

By Jan Creamer MHS-9th grade

The monster is my teacher-I shall not pass. He maketh me to face the blackboard; He destroyeth my love notes He putteth my gum in the trash;

He maketh me from sleep and leadeth one to the office for conduct's sake-

Yea, though I walk through the halls of knowledge, I have great evil, for I have forgotten to read!

His face hardeneth before me - He maketh me to write 600 words;

He filleth the blackboard with assignments

My notebook runneth over-- Surely mischief and misfortune shall follow me all the days of my schooling. And I shall dwell in the 9th grade forever!

Show, Choir Ready

The Muleshoe High School Choir is readying itself for its annual Halloween show which will be given tomorrow night in the bus garage at the high school.

The title of the show is "Ye Old Shipwreck Singing Show Down by the Shore." Now if that isn't a tongue-twister, we don't know what is!

There will be a variety of enjoyable acts and pink lemonade and salt water taffy will be available for your pleasure. The admission price for the show will be 50 cents and believe us, it's well worth your money.

The choir has chosen it's Halloween Queen candidate and she is Marsha Blackman. Marsha is a senior and sings in the alto section of the choir. She is active in Folk-singers and is a major character in the musical this year. Every vote cast for Marsha will be greatly appreciated. One penny is one vote. Thanks!

Newspapers Are Interesting

By Marcus Puente

I have been reading the newspaper since I was in the fourth grade.

It was in September, 1963 that I found out how interesting a newspaper can be. It was late afternoon and I did not have anything to do so I picked up the newspaper that my grandmother had just put down. I had never really looked at a newspaper before, but I read the headlines and they seemed pretty interesting so I read on. I read until I had read almost every article in that newspaper. I read the comics, I read the sports and I read the news. And so the newspapers make a big difference in my life because now I can just pick up a newspaper and read about something I didn't know had happened. Newspapers can be very interesting if you read them.

Beautification of Campus Begins

Tuesday of this week MHS Student Council's Beautification Plan was begun -- but with original plans, tabbed at \$500, for the project now doubled.

The expanded plan will include beautification of the entire high school campus, with first work this week completed with planting trees and shrubs on the front lawn.

The ambitious and commendable project, which has become a major club and organization project at MHS, will be carried out over a two-year period.

Not only the students, but the Muleshoe citizenry, will be rightfully proud of this most needed and worthwhile civic project.

In other council news, the student council is also working on the variety show for Monday night's Halloween carnival. Acts planned include Sam and the Gringos, a band, the Brass Ringers, a Tiajuana Brass group, and the Playmates, a folk-singing group, and others.

For MHS homecoming, the week preceding Nov. 11, the council is sponsoring the annual hall decorating contest. Each of the classes at MHS will compete against the other in decorating a portion of the halls at the high school. Council President Larry Meyers added.

STAGE ONE COMPLETED MHS students (l to r) Lydia Wolfe, Debbie Bryant, Jerry Redwine, Larry Meyers and Aurilio Cuevas investigated a group of shrubs before they were planted on MHS front lawn this week. The shrubs and trees complete Stage One of the expanded \$1,000 beautification plan for the entire MHS campus. This is a Student Council directed project, in which many clubs and organizations will participate in the next two years.

Voter Apathy Is Costly

Nine days from today we trust that the qualified voters of Bailey county will not abdicate their rights to the minority by not voting November 8th.

As Dwight D. Eisenhower has said "politics ought to be the part-time profession of every citizen." We believe so strongly in citizen participation in our various branches of government that we take this opportunity to extol the merits and responsibilities of voting.

"All of us... must delve deeper into governmental and political affairs," the former US president said. The Journals agree.

One important thing to remember this election day is that the number of votes cast for either candidate in the governor's race Nov. 8th will determine the number of votes our Bailey County Democrat and Republican parties will have at their respective 1967 state party conventions. The Election Code in Texas states that we shall have one delegate for each 300 votes or major fraction thereof, cast in the governor's race in the preceding general election.

"Even though you may wonder why it is so important to have a large vote in state party conventions, we feel it is most important. We know that it is not the president or the congress but the party in power that runs this country. If you do not believe this, you look at the platforms adopted by the parties, which the president is bound to uphold, and see the many planks of this platform that become law. This platform is drawn not by Congress but by the party in convention assembled. This platform has its beginning in the precinct conventions held throughout the country and its fruition at the national convention," editorialized the Littlefield County-Wide News.

Furthermore, when the politicians in power begin consideration of legislation, appointments or other political matters that affect a particular county or part of the country, they take a look at that area's record for turning out votes. If it is bad, they reason that too much of a backlash will not develop if their actions are unfavorable to the people in this area. On the other hand, if the area under consideration has a reputation of turning out in force to vote, the politicians are much more hesitant in taking any action detrimental to such an area. This may not be fair and morally right but, nevertheless, it is a fact.

We know some of our readers may not like being reminded

Chamber Corner

(Editor's note: This is the first of a series of articles of interest to area citizens, chamber members and visitors about city, county, chamber, state, nation, and world events, to appear in cooperation with Muleshoe and Bailey County Journals. Prepared by Chamber President Charles Lewis and Manager Bob Janca to be published in the Journals, topics may include ideas of civic improvement, industry, agriculture or tourist information.)

Muleshoe area are responsible for area development. I believe that area economic development should be our most serious concern, especially when our own personal future is at stake. Area economic development means better living conditions, more and better jobs, leading up to more people and more money for the community. This development just doesn't happen; it must be worked for by each individual, not only separately but in united effort. We have such effort in Muleshoe through the Industrial Foundation and Chamber of Commerce.

Economic and social forces are at work with increasing intensity today. They can be so directed as to benefit or they

of community citizenry apathy. But we remind our Bailey County Citizens to plan to vote Nov. 8th. Then there is a famous story from Duval county, which reminds:

It seems a young boy was sitting by the side of the road crying bitterly. He was asked why the tears. His reply: "My uncle Jose (who had been dead for years) came back to vote yesterday and didn't stop by to see me."

Amendment Number 7 will be a simple For or Against "Repealing the Poll Tax as a requirement for voting." However, in the full text it specifies that any voter registration statute enacted shall be an "annual" voter as distinguished from a "permanent" registration statute. Your vote on these matters is needed. We must not forget to make our first annual registration at the courthouse before Jan. 31, 1967. Don't you agree?

It can be so ignored as to injure. It is up to the individual to decide in which direction these forces are to flow.

Area development is strictly a matter of sound business practice. As such it becomes the personal responsibility of every citizen; not merely a matter of civic duty, to survive in a cruel world of economics.

This, in reality, is the process by which the forces of change are harnessed to produce the maximum good... to produce sound, prosperous economic growth in an area whatever its size may be.

The real ingredients of area development are research, planning, development of ideas and promotion, with each being dependent upon the other.

The research process will give an evaluation of the potentials and identify the opportunities at hand. It reveals both the good and the bad.

The planning ingredient takes the material from research and so organizes it to direct the use of our resources in the proper directions.

The development aspect is merely the action involved in the implementation along workable channels of the facts gathered.

Promotion is the educational process necessary to indoctrinate leadership and educate citizenship with facts at hand. All of these can best be done by private enterprise, because here is the true responsibility of building communities into industrial giants on the town-

The Sandhills Philosopher

Editor's note: The Sandhills philosopher on his Johnson grass farm may get himself into hot water, the latter part of his letter this week indicates. That's his worry.

Dear editor: I went for three days last week without finding a newspaper around this Johnson grass farm and finally gave up and went into town and bought a copy, and now discover I may be further behind the times than I realized.

According to one item on an inside page a college professor discussing the great strides he claims man has made in the past few years said "If you haven't been back to school in the last 10 years you're already behind the times."

I don't know what school he was talking about, but I have a notion you can pick out any college you want to and find therein professors who've been to school all their lives and are still behind the times.

Actually, of course, I don't know what being behind the times means.

While it's true there are dozens of countries on this earth I don't know anything about, never even heard of, you've got to remember on the other hand they've never heard of me either. It all comes down to who's times you're behind, or whose clock you're watching.

I have a notion that if a man sets out to keep abreast of the times all over the world, he'll wind up knowing something about nearly everything but not very much about anything. On the other hand, you can know not very much about anything and nothing about the rest of the world. I've tried it, and it works.

To change the subject, I've been reading about those women in cities picketing the grocery stores over high prices.

Quail Clan Gets Extra Sotex Hunt

AUSTIN—Upland game hunters will have one of those rare opportunities afield that ordinarily is left for the imagination when the expanded quail season opens in twelve south Texas counties November 1. An amazingly abundant crop of bobwhites and blue quail prompted the Texas Parks and Wildlife Commission to advance the opener 12 days.

Land owners and biologists had observed the extraordinary quail population and agreed that only an extended harvest would prevent loss to natural attrition of many of the field birds. The field surplus counts were so great that it was even suggested that the shoot in twelve counties be set forward to Oct. 15.

But the Commission already had set up the machinery for the special season, and there was not time to reconsider. Sportsmen meanwhile have been alerted on the changes made necessary in the official Department hunting guide previously published.

Department biologists said the longer harvest would mean legitimate taking of quail that simply would not survive. They explained that quail is the most explosive game bird, populationwise, and is also very susceptible to a short life span.

One veteran technician said "the quails' natural mortality begins at birth." He described the quail increase as "from 45 to 100 percent" in the twelve counties. The counties are Bee, Aransas, Cameron, Dimmitt, Frio, Hidalgo, Jim Wells, Live Oak, Starr, Webb, Wilbrey and Zavalla. Bag limits are 12 per day and 36 in possession.

Irene Splawn Is Elected PPCA Officer

Irene Splawn, County Sheriff's Bureau of Southwestern Communications Association meeting in Dalhart.

Mrs. Splawn, accompanied by her daughter Pam, attended the PPCA meeting and dispatcher school as representative of Muleshoe dispatchers.

The PPCA was organized about four years ago in Amarillo "... to initiate and maintain a uniform system of Police Communications. . ."

In reviewing the history of the organization, Mrs. Splawn told that "the problems that confront those of us who are connected with police communications are unique in that by adding or omitting a single word, we may save a life or take one."

Featured speaker for the morning session was Larry Fuller, manager of Southwestern Public Service office in Amarillo, who gave pointers on how dispatchers can communicate with the general public. He stressed the value of being a good listener.

Two dispatchers from Amarillo's Dept. of Public Safety discussed weather bulletins during the afternoon workshop. Dispatchers are expected to

More Wilderness Areas Sought For Wild Study

Eighty-two roadless areas on 67 National Wildlife Refuges have been selected by the Department of the Interior as qualifying for study and possible inclusion in the National Wilderness Preservation System, the Department announced today.

The areas, managed by Interior's Bureau of Sport Fisheries and Wildlife, vary from 2.3-acre islands off the coast of Maine to the 8,900,000-acre Arctic National Wildlife Range in Alaska. They are found in 23 states and Johnson Island in the Trust Territory of the Pacific Islands and total 20,438,379 acres.

The Wilderness Act of 1964 and subsequent regulations of "know all the answers "even when it is going to rain," Claud White of Amarillo stated in the workshop.

A change in weather, dispatchers agreed, brings more calls than any other news. "It takes one snowstorm and you know what you're working with," a dispatcher from Garden City, Kansas added.

Wayne Spencer of Liberal, Kan., was elected president of the association. He also won the bid to have Liberal be the host for the next meeting in the spring.

PRICE IS RIGHT FOR U.S. CONGRESS

BOB PRICE... the family man

Bob Price is a man whose interests are centered around his family. It's his desire to help create a better America for his children that led Bob Price into seeking the office of Representative to Congress. Bob and his wife Marty, along with their children, Janice, Carl and Grant, are a family we can be proud to send to Washington.

BOB PRICE... wants to stop inflation

Food, clothing and house payments must be paid out of take home pay after taxes. Inflation makes this more and more difficult for every family in the Panhandle. As a man operating his own business, Bob Price knows the effect of inflation on earnings.

BOB PRICE a man known for his vital interest in water

Bob Price's family started ranching in the Panhandle in 1907. Following in his father's footsteps as a businessman and rancher, Bob Price knows that we must use greater water conservation to raise food and to attract new industry to the Panhandle.
