## State Health Officer Urges Spring Clean-up

AUSTIN, April 30.—A good old fashioned spring house cleaning in every city and community in Texas would do a great deal toward furthering good health in this state, according to Dr. Geo. W. Cox, State Health Officer, who said in Austin today. "From a practical standpoint the old adage, 'Cleanliness is next to Godliness' is still well worth emphasizing."

A general clean-up program of state-wide proportions with the objective of bettering health condition for our citizenship should include the surface cleaning of streets and alleys, proper drainage or fill-in of low areas, cleaning all parks and playgrounds, and the clearing of weeds and rubbish off of vacant lots.

"The destruction of mosquito breeding places and rat harborage, the proper disposal of garbage and trash and the general cleaning up of all premises will be," said Dr. Cox, "of inestimable value in helping to keep down summer health hazards such as dysentery, typhoid, and poliomyelitis. Good community house-keeping and ordinary sanitary measures require the prompt removal of all waste matter in and around yards and homes in order to abate the danger of such diseases, and insure good health protection throughout the state."

Dr. Cox stressed the fact that many dangerous diseases are filth-borne, and the only possible way to control them is to eliminate the insanitary conditions responsible for their spread.

## Changes In Social Security Act As Of January 1st, 1947

An important change in the method of handling lump-sum payments under the Social Security Act was effective on Jan. 1, 1947, according to an announcement made today by G. D. Clark, manager of the San Angelo office of the Social Security Administration.

Lump-sum death payments are made when an insured worker is leaving no survivor immediately eligible for monthly payments. In the past, lump-sum death payments have been made to the spouse, child, grandchild or parent—in that order. Burial expenses were considered only if there was no survivor in any of these classes.

In the case of a worker who dies on or after Jan. 1, 1947, a lump-sum death payment will be made to the husband or wife who is living with the worker at the time of his death. If payment cannot be made on this basis, the lump-sum payment can be made only to repay or partially repay the person or persons who have paid the funeral expenses. If no person is living with the worker at the time of his death, a lump-sum payment may be made to a child, grandchild, or parent if that individual paid the funeral expenses.

Any questions arising from this change in the law should be directed to the Social Security Administration in San Angelo, Texas.

**FIRE'S CHALLENGE**

A release by the President's Conference on Fire Prevention, which will meet May 6-8 in Washington, D. C., clearly details the extent of the fire menace.

Losses for the 12 months which ended on Feb. 28, it points out, came to \$581,347,000—the greatest the country has ever known. This is nearly \$20,000,000 more than the highest annual loss yet recorded.

On the loss of life side the picture is equally somber. No fire disaster in 1947 has taken a toll of lives to compare with the Wirecuff and LaSalle hotel fires of last year. Yet the death toll is mounting steadily because of the increase in the number of smaller fires throughout the country.

The President's Conference will be the first organized national effort ever made to combat the fire menace. Fire protection experts, state and municipal authorities, scientists and others will join to study ways and means to reduce the loss—and to enlist the aid of the entire public.

It is forecast that if fire losses follow the same trend as they did after World War I, destruction will reach a billion dollars a year by 1953. Here is a challenge to us all.

**WHAT FREE ENTERPRISE MEANS**

President Truman recently gave one of the best descriptions ever made of what the free competitive enterprise system means when he said: "Under that system each man is free to go where he likes, to follow the calling of his choice, and to be rewarded in proportion to the productivity of the effort or the property he contributes."

That is an extremely accurate definition, and it covers a great deal of ground in a very few words. Under free enterprise, the man who invests capital as well as the man who invests his labor in an enterprise is entitled to whatever reward he is able to earn. Under free enterprise, every man is entitled to pursue any lawful undertaking, free of dictatorship and coercion by capital, labor or government. Under free enterprise, the freedom of the individual must be inviolate.

Carrying the definition farther, it obviously means that government shall not unnecessarily interfere in the affairs of its citizens. Its function is to establish and enforce a set of rules to fit the conduct of our economic life—and then to permit the players in the game to do whatever they may please with those rules. If a man loses, he must accept the loss. If he wins, he has a right to the gain.

Finally, under this or any workable definition of free enterprise, government must keep out of business. Socialized enterprise and free enterprise cannot long exist side by side. The first will swallow the other, and then all basic freedoms will be lost. That fact is implicit in President Truman's fine statement.

**What Is Management?**

Management is as old as the hills. There is nothing complicated about it at all. It is a natural function of human society.

A man and a woman marry, set up housekeeping, and raise a family. Both are managers.

They manage as they buy a home, educate the children, plant a garden, pick out a car, a refrigerator, a piano. A hundred decisions a day around the house are management decisions.

Management occurs at all levels in government, charity, education, lodge. It is the plumber with his helper, the elevator starter, the superintendent of schools, the master of the grange.

But in America, management probably has had its most scientific application in business.

Business management, even before World War I, helped build up a volume of production surpassing that of any other nation. In World War II, the results were even more spectacular. America outproduced all other countries combined.

By 1941, the value of an hour of work in terms of the staple necessities of life, bread and butter, had so been raised that an American could buy from two to eight times as much as a man in Europe. This didn't just happen. Neither the men and women in industry nor the money in industry can be effective without good management. Nothing else is so important to the workers' welfare, the investors' welfare or the public welfare.

**Weekly SURPLUS NEWS WAA**

World War II veterans will get a chance to buy 534 government surplus trailers and trucks at the Red River Arsenal, Texas, May 8. Veterans will determine their own order of purchasing by a drawing following registration at the sales site. No advantage will be gained by arriving in advance of the sales date. WAA officials pointed out. All of the vehicles will be sold individually to both veteran and other buyers on a fixed price basis.

Government surplus coal helped fill in the gap line mine holiday mine production in North Texas. Ten thousand tons of bituminous coal was sold to a large distributor through the Grand Prairie regional office of WAA. The coal had been stored at Camp Maxey, Paris, Texas, and the sale closes out the last supply of fuel at that camp.

A forward step in line with WAA's policy of releasing rented warehouse space in 178 disposal centers was taken when in a single day a stock in excess of \$700,000 value was disposed of out of Disposal Center No. 2 in Fort Worth. This made available to private industry by May 1 over 244,000 square feet of closed warehouse space and three acres of open storage space which the government agencies have been occupying since the early days of the war.

A special three-way bid offering covering 585 surplus aircraft has been announced by WAA. The sale offers 95 aircraft on individual bid, on which no priorities are necessary, nine planes on individual bids on which priority holders will get first chance to buy, and three lots of salvage totaling 481 assorted aircraft. Bids on all three phases of the sale will be opened at noon on May 12.

With bidders attracted from as far away as South Dakota, over 700 automotive vehicles were awarded mostly to World War II veterans in a high bid sale conducted recently at the Warehouse of the Grand Prairie regional office of WAA. Ex-G.I.'s purchased over nine-tenths of the vehicles before the residual was turned over to commercial dealers for purchase. Sold were trailers, trucks, scooters, motorcycles, jeeps and ambulances.

**Facts About The American Legion**

The American Legion is enrolling 1947 members nationally at a rate that averages one for every 9 seconds for 24 hours a day and 365 days a year. The 1946 enrollment of 3,326,556 in 15,975 posts averaged a member every ten seconds.

This was announced here today by Com. Earle C. Schuhmann of Price Pool Post No. 421 of the American Legion here as the local organization's 1947 membership drive went into high gear.

The national 1947 membership of the American Legion is 3,979,174. The local post's share of this quota is 125 members.

The American Legion has grown into the world's largest veterans' organization because it is enrolling annually a majority of the servicemen and women of World Wars I and II," Post Com. Schuhmann said. "There is a good reason for that. The American Legion offers the ideal vehicle to every war veteran for making his service to community, state and nation count the most."

"An Army Air Force colonel once asked Past National Com. L. U. Stambaugh, "What advantage would there be for me to belong to the American Legion?" Stambaugh saw that the colonel was a strong, healthy, resourceful young American in full possession of his faculties, and replied, "The American Legion has no advantage to offer you, colonel. You have come out of this mess with no disabilities. You do not need the Legion. All the Legion could offer you would be an opportunity to work your head off for the fellows who were less fortunate than you in the outcome of their service."

"That's the kind of veterans The American Legion welcomes into its ranks, who want to work their heads off for the welfare of their disabled comrades, of

the war widows, of the war orphans, of all underprivileged children, for national security, for 100 per cent Americanism and for making their community a better place in which to live.

**Interest in Sewing On Increase Among 4-H Girl Members**

Interest in sewing is steadily increasing among rural girls. This is reflected in an announcement that 1,345 counties in 45 states named winners in the 1946 National 4-H Clothing Achievement awards program, or a gain of 144 counties over the preceding year.

The 1947 program comprises special training for 4-H Club girls in planning, selecting, constructing, repairing and caring for clothing. They learn to dress appropriately, becomingly and healthfully, in keeping with the family budget. The girls are also encouraged to make useful articles of wearing apparel and accessories by crocheting, knitting or other needlecraft arts.

Outstanding records of achievement in this activity are again being recognized by the Spool Cotton Educational Bureau with merit awards. County winners receive gold-filled medals of honor. The state winner gets an all-expense trip to the National 4-H Club Congress in Chicago next December. Twelve state winners selected for national honors each receive \$200 college scholarship.

Last year's state winner in Texas was Jeanette Metzger of Converse. County winners were named in Bastrop, Cameron, Comal, Eastland, Fisher, Grayson, Gray, Hidalgo, Jim Wells, Liberty, Lubbock, McLennan, Medina, Nolan, Scurry and Travis counties.

**News From Veterans County Service Office**

**VETERANS SHOULD DESIGNATE BENEFICIARIES**

Veterans who hold National Service Life Insurance policies are urged by the VA to check beneficiary designations to make certain that at least one beneficiary and if possible a second has been named, and that such listings are kept up to date.

If the insured is not survived by a designated beneficiary, the proceeds of his insurance will be paid in a single sum to his estate at his death, and as part of an estate insurance loses its identity as such and is subject to all laws governing estate, including claims of creditors, administrators fees, and court expenses.

In those cases where insurance is payable to the insured's estate, it is possible that those whom the insured otherwise would have chosen will never realize the benefits. In any event, the veteran who does not designate beneficiaries may expose his dependents to the risk of unnecessary expense and delay thru court settlements.

The VA reminded veterans that all restrictions on the choice of beneficiaries which were imposed by the original National Life Insurance Act have been removed. Formerly, the insured was permitted only to designate beneficiary who were near relatives. He now may designate any person or persons, a corporation, or his estate as the beneficiary of his insurance policy.

Veterans who have not designated beneficiaries for their GI Insurance, or those who wish to change their present beneficiaries, may obtain the necessary forms from your County Service Office here in McCamey.

**NATIONAL SERVICE LIFE INSURANCE EXTENSION**

House Resolution 1353 was unanimously approved by the House Committees on Veterans Affairs. This bill provides an additional period within which World War II veterans may reinstate their National Service Life Insurance policies upon the payment of two monthly premiums and a declaration by the applicant that he is in as good health at the time of application as he was on the date of the insurance contract lapsed. The House passed the bill, which has been sent to the Senate. This bill is worthy of

### Questions, Answers For The Veterans

**Q.** I am an honorably discharged World War II veteran, and would like to know what benefit is a guaranteed loan if I purchase a home under the G. I. Bill?

**A.** The guarantee provides or increases the security you have to offer for a loan by the amount of the guaranty; it tends to induce the lender to lend more nearly the full purchase price of the property and to give you a better rate of interest, and finally 4 per cent of the amount guaranteed is paid to the lender by VA and is an outright gift to you.

**Q.** My wife and I plan to purchase a \$9,000 home. We are

both World War II veterans. Can we acquire the property jointly and so increase the amount which may be guaranteed?

**A.** Yes. You may acquire the property jointly, but the maximum guaranty may not exceed 50 per cent of the loan.

**Q.** I have a GI loan on my home and would like to know if I can have the loan extended?

**A.** Yes, you can have the loan extended if the lender is willing to give you more time, but the extension must provide for complete payment of the loan within the 25-year maximum period provided by law.

Roy Lee Bell, who underwent an appendectomy in a McCamey hospital on last Wednesday, is getting along very well.

**"LEILA RANSOME"** is back! One of radio's most fascinating ladies, the eligible young widow with a Southern drawl, portrayed by Shirley Mitchell, has returned to the NBC "Great Gildersleeve" program. When Shirley left the comedy-drama last November to be married, "Gildy," played by Hal Peary, lost his big love interest, and hum-dred of fans wrote in to protest. At last Mrs. Julian Frieden—Shirley to you—has been persuaded to rejoin the show.

Dolores Gillen is a baby to millions of radio fans. But the "baby" has just recently adopted a baby. Miss Gillen portrays the infant offspring of "Chichi and Stephen Hamilton," the two principal characters in "Life Can Be Beautiful," popular NBC weekday serial. She also enacts child parts on several other airshows. In real life she's the wife of a lawyer, and they have a newly adopted little girl.

Vaughn Monroe now commands the highest prices of any bandleader on tour. On "location" dates he gets \$15,000 a week, and for one-nighters he receives \$4,000 a night against a percentage. His Saturday CBS show plus numerous hit recordings helped catapult him to the top.

### Weekly Swing of Southwest Farm Markets

Weak spots showed up all thru the farm markets the past few days; but many items strengthened, and only hogs, feeds and corn registered sharp declines, according to the Production and Marketing Administration, U. S. Dept. of Agriculture.

Butcher hogs dropped \$1.25 to \$2.30 per hundred for the week, and sows \$1.50 to \$3. Closing bulk of good and choice butchers sold at \$22.50 at Texas markets; and \$23 to \$23.50 at other SW terminals. Sows turned mostly at \$18 to \$22.50.

Cattle moved higher at Houston and San Antonio; and vealers and calves gained at Oklahoma City. Other SW cattle prices receded to slightly lower levels last week. Common to medium steers and yearlings cleared at \$13.50 to \$17.50 at Houston; and \$14 to \$19.50 at Fort Worth. Medium to low grade kinds moved at \$19 to \$21 at San Antonio; \$18 to \$22 at Oklahoma City; and mostly \$19 to \$22 at Wichita. Numerous load of good and choice steers cashed at \$23.75 to \$24 at Denver.

Spring lambs climbed mostly 50c to \$1.50 during the week; while old crop lambs and aged sheep held generally steady to strong. Good and choice spring lambs brought \$18.50 to \$21 at San Antonio; and mostly \$20.50 to \$22.50 at other SW markets.

Hens held firm last week, and fryers advanced to 35c per pound at Dallas. Eggs weakened at some points. Egg prices averaged 38c per dozen at San Antonio; 39 at Oklahoma City; 40 at Fort Smith, Amarillo and Ft. Worth; 41 at Denver, El Paso and New Orleans; 42 at Houston and 43 at Shreveport.

Indifferent trading last week left most grains little changed. Liberal offerings of corn stepped prices down several cents; and oats also appeared in plentiful supply. Corn closed Friday at \$1.90 per bushel in Fort Worth and Galveston; and oats \$1.03 to \$1.05. Sorghum ranged from \$3.17 to \$3.20 a hundred.

Slightly larger quantities of rice moved into domestic trade channels last week. Rice seeding proceeded haltingly between rains. Feeds registered moderate to drastic declines, as new crop harvest approached. Rapidly diminishing supplies of hay failed to meet daily needs at firm prices. Peanut planting made good progress. Treated shelled seed

peanuts sold around 21c per hundred, and farmers' stock about 15. Some well grown Texas Delaine wools sold at 46 to 46 1/2c per pound to the grower.

Vegetables in the Lower Rio Grande Valley found fairly good demand at mostly steady prices last week. Farmers about cleared their fields of the season's onion and cabbage crops, as cabbage and carrots went up sharply the first of the week. Tomato movement gained volume, and growers got around 10 to 15c per lb. Onions came in strong from the Laredo and Coastal Bend districts in good demand. Louisiana strawberries hovered about \$5 per 24 pint display crate in auction sales. Colorado asparagus, green onions, and spinach weakened on Denver's farmer market.

Sharp early-week rise in cotton markets encouraged spot selling, as demand picked up for some grades. After a midweek slump, prices closed Friday at \$2.75 to \$4.25 per bale higher than a week earlier.

### 'The Old Maid's Club' Pronounced Success

The home talent production, "The Old Maid's Club," which was produced by the PTA of Rankin in the High School auditorium on last Thursday night, was a big success, both in entertainment and financial results.

As one patron expressed it, "The costumes would have been worth the price of admission had they not even opened their mouths." The show was a big laugh from beginning to end, with all characters excellently portrayed, and netted \$80 for the association.

### Santa Fe Railroad Re-elects Directors

Misses Joan Edwards, Charlene Taylor, Johnnie Anderson and Mary Ann Workman, all of Midland, spent the week end in Rankin. Miss Anderson was a guest in the Tom Workman home.

### We Got to the Fish Fry After All

That community fish fry was sure a great success. There were plenty of appetizing extras, and Will Dudley did a right wonderful job of frying the fish—soft and flaky inside—brown and crisp around the edges.

But we didn't get to go. The missus was tired after working in the yard, and we just didn't want to leave her.

Then how did we know the fish was so good? Because the folks didn't forget us. They sent Skippy Henderson over with two steam-

ing covered plates of fish, and a pitcher of cool, sparkling beer. And we finished them off in front of our own fire.

From where I sit, that's one of the things that makes our town so nice a place to live in: a spirit of share and share alike. That plate of fish and glass of beer weren't just great eating, they were symbols of the thoughtfulness that makes for better living!
