A TISKET, A TASKET! — Summer-clad Mary Patton puts the lid on a basket she uses as a summer purse and carry-all for scripts, make-up, engagement book and assorted trinkets. Mary portrays Rose Brown on NBC's "Life Can Be Beautiful" program and also plays dramatic roles on television shows.

God and Country Award Presented Bobby Bell

Eagle Scout, Bobby Bell, son of Mr. and Mrs. R. L. Bell, received the God and Country award at the regular Baptist Church services Sunday night. This award is given by the National Council of the Boy Scouts, working thru the church, for regular attendance in Sunday School and the church services, rendering service to the church through the tenderfoot, second class, and first class rank.

Scoutmaster R. L. Bell, Asst. Scoutmaster Herman Calcote, and the candidate, Bobby, were seated together facing the audience, the scout committee and pastor behind them. Rev. R. L. Herring, pastor of the First Baptist Church, gave a summary of the requirements that a scout must do to receive this award. R. L. Bell then introduced Bobby with a few good remarks. Rev. Herring made a short talk to Bobby and called on his mother who pinned the medal on his shirt, which was bedecked with the Eagle Scout Medal Badge and other medals of honor.

It is thought that this is the first God and Country award to be given in this district, a very high honor for any scout to receive and it is hoped that many other boys will receive this award.

ONE OF NINE—Helen Malone, player in NBC's "Curtain Time," comes from a family that could provide a girl's baseball team. She's one of nine sisters.

Housing Available For Boarding Students At College of Mines.

EL PASO, Tex., July 9.—Housing of boarding students on the campus will not be a problem at the Texas College of Mines and Arts, a branch of the University of Texas at El Paso, President D. M. Wiggins said this week, in announcing that two new dormitories for men and women will be completed by the opening of the fall semester.

The new dormitories and a dining hall which will seat 300 students at a time will be completed at a cost of approximately \$800,000.

Housing facilities on the Mines campus for the fall will include two dormitories for women, four dormitories for men, 72 one- and two-bedroom apartments and 20 furnished house trailers for veteran students.

Parents Teacher Assn. Meets Last Tuesday

The executive committee of the Kathryn Secrest Parent Teacher Assn. met in a called meeting in the High School building Tuesday, July 8, at 3 o'clock.

The president, Mrs. R. C. Schlagal, presided.

The following officers were appointed:

- Mrs. Ross Wheeler, publicity chairman.
- Mrs. Geo. Stephenson, Literature and Publications.
- Mrs. Jack Walcher, Summer Round-up Chairman.
- Mrs. Ralph Daugherty, Mrs. D. O. McEwen, Mrs. W. O. Adams, and Mrs. Still, Budget and Finance.
- Mrs. E. G. Branch, Hospitality Chairman.

A motion was made and carried to have the program preceding the business meeting.

It was suggested that special recognition for parents who attend the meetings regularly be made.

It was also suggested to have a chart in each room to register each parent who attends.

The meeting was closed with a prayer by Mrs. Ross Wheeler.

TAAF Tournament Set for Aug. 4-10; To Be Held In Midland

Word was received this week from A. T. Pierce, President of the Midland Amateur Softball Park, that the District TAAF Softball Tournament would be held in that city from Aug. 4 to 10. The tournament is to decide an entry for the state meet to be held in San Angelo to be staged Aug. 28, 29 and 30.

Teams from 29 counties in District Seven will be eligible to take part in this meet. Entry of \$15 is required for each team and should be paid with the letter of acceptance. Deadline for entering this tournament is July 26, when the pairing and bracketing will begin.

Texas Amateur Athletic Federation rules will be in effect and any further information on this subject may be obtained by writing Mr. Hugh Welsh, San Angelo Standard-Times, San Angelo, Texas.

Each team that enters will be notified not later than Aug. 1st, when their first game will be played and also a complete list of the bracketing and pairing. Teams coming the greatest distance will be given preferences as to time they had rather play. The first game will start Aug. 4 at 7:15; second game 8:25; third game, 9:35. Three more games each night will be played thru Aug. 8, with the semi-finals coming on Aug. 9, and the finals to be held Aug. 10, Sunday afternoon at 4:45.

Mr. and Mrs. Ray Boggs and Mr. and Mrs. Shorty Titsworth, Charles Hall and Duffin Bert Huffman spent the 4th of July holidays fishing on Independence Creek.

SCORING 5 1/2! — Composer Don Gillis goes over the score of his "Symphony 5 1/2," with conductor Frank Black, who will direct the radio premiere of the light-hearted orchestral work on Sunday, July 13 on the NBC Summer Symphony program. Gillis also is producer of the NBC Symphony broadcasts.

Bert Ridgley, Jr. Dies in Motorcycle Mishap

Bert Ridgley, Jr., 18-year-old son of Mr. and Mrs. Bert Ridgley of McCamey, was killed in a motorcycle accident near the city limits north of McCamey late last Saturday afternoon.

Ridgley was returning home from the Rio Pecos Power Plant where he was employed when he was unable to avoid hitting a dog which ran in front of his motorcycle. Reports say that he was thrown some 20 feet after the impact. He died shortly after arrival at the hospital.

Funeral services were held at 2 o'clock Monday afternoon from the First Methodist Church. The Rev. C. J. Mann officiated.

Bert Ridgley was born March 2, 1929, in Long Beach, Calif., and moved with his parents to McCamey ten years ago from Jennings, La. He was a graduate of McCamey High School in 1946 and attended Sul Ross State College last semester.

Survivors include the parents, Mr. and Mrs. Bert Ridgley, Sr., and a sister, Mrs. Martha Jean Ridgley Pauley of Galveston.

Funeral services were held at 2 o'clock Monday afternoon from the First Methodist Church. The Rev. C. J. Mann officiated.

Arrangements were in charge of the Jacobsen-Locklin Funeral Home.

The Small Retailer

What chance has the independent retailer to compete with the chains and hold his own? That old question was recently given a modern answer by Wade G. McCargo, who described himself as a small retailer from Richmond, Virginia, in a speech at the annual meeting of the C. of C. of the United States.

"After the first World War," he said, "the prophets of doom told us we were going to be put out of business by the chains and big stores. Throughout the year, this prophecy has been repeated. I don't believe it. I know I am going to have to work harder in the months and years to come, but I repeat, the small retailer has a very definite place in our American economy and will remain and prosper if he is willing to work hard enough and is flexible in his thinking, willing to adopt the new methods as they prove themselves to be worthwhile, and carry on a real modern business. Many retailers blame the chains for failure when the fault rests at their own doorstep, their unwillingness to meet changing times and conditions."

Independent merchants do the majority of the retail business of this country—and the proportion of business done by independents and the chains has tended to hold remarkably constant. This simply means that the independents, most of whom have relatively small stores, give their customers the kind of service that keeps them coming back. Far from dying in the face of chain store competition, they have met it, and advanced. There is a place in this country for every kind and size of business—and the progressive small retailer has an assured and profitable position.

"Deep Water Oilmen"

The search for oil goes on—in strange places and with the use of new techniques which would have seemed fantastic a very few years ago.

The bottom of the ocean is now being explored, off the shores of Texas and Louisiana, where "deep water oilmen" are seeking the outlines of salt domes—buried mountains of salt that were pushed up from deep in the earth ages ago, in the process upheaved overlying rocks which created natural traps for oil.

Deep water prospecting for oil is a postwar phenomenon. The prospectors' equipment includes retired navy sub-chasers, shrimp trawlers, converted army air-sea rescue boats, and a 77-foot yacht. Their instruments included gravity meters, seismographs and radar. The gravity meter measures variations in gravity caused by changes in the underwater rock structures. The seismograph records on paper the time it takes shock waves from an explosive charge to hit rock layers below and bounce back to the surface, thus indicating the depths of various rock formations and providing pictures of oil traps if any are present. Radar has proven invaluable in fixing a boat's position, particularly in bad weather.

The information so far gained indicates that the prodigious oil fields of the Louisiana-Texas Gulf Coast may extend far out under the sea, and a practical test is soon to be made in deep-water drilling. This is simply one part of the oil industry's program to completely chart our oil resources—and to put them to work for the benefit of this country and the world as rapidly as possible.

An Open Letter From Judge Randolph

TO THE JURORS OF UPTON COUNTY:

Jury service is one of the highest duties of citizenship, for by it the citizen participates in the administration of justice between man and man and between the state and the individual.

The juror's duties are defined by laws which are the product of some centuries of experiences, an experience which has taught us that they are essential to the impartial administration of justice by jury trial. Unless the juror scrupulously observes them he is himself a lawbreaker. By his neglect he may in some instances subject himself to severe penalties. In all he will fail in his duty as a citizen and inflict injury on his fellow man because through his failure law and justice fail in the appointed task.

As a citizen you are a partner and shareholder in the state and nation. You have long enjoyed the privileges and protection of your government. Now you may be called into service, you may be summoned to serve for a short time as a juror.

It is an honor, a duty and a privilege to serve one's country, both in peace and in war. All true patriots welcome the opportunity.

In a country where the life, liberty and property of each of us is safe and secure, it is necessary that there be courts of justice in which disputes that arise between people can be settled justly and peaceably. It is necessary that persons charged with crime shall be fairly and justly tried, that the public safety and welfare be protected on the one hand and private rights and liberties be safeguarded on the other.

It is the business of every citizen to see that this is done, and it is a duty which the people must do for themselves if life, liberty and property are to be kept secure for yourself and your children.

This article is written for the purpose of encouraging and stimulating the jurors of the 112th Judicial District of Texas to do their duty as jurors when called into service.

112th Judicial District of Texas.
Respectfully yours,
J. B. RANDOLPH
Judge.

Fish Bites Woman!

Willie Wells was coming home from Seward's Creek the other evening with a string of trout, when a stern looking lady (visitor at the Boxwood Inn) stops him, and tells him a man his size could be better occupied than catching fish.

Willie tells her off real good-naturedly by saying: "Perhaps you're right, but if these fish had kept their mouths shut, they wouldn't be here." (At that, says Willie, laughing out loud, she looked just as if a fish had bit her!)

anything but trouble. Nobody who knew the facts would ever criticize Willie's right to go fishing on his one day off—any more than they'd deny his right to come home to a mellow glass of beer.

From where I sit, the slower we are to criticize—and the quicker we are to recognize another's tastes, the better we'll get along together—whether those tastes apply to beer or fishing.

HAVE YOU HEARD...

THE SPORT OF GREYHOUND RACING IS 1000 YEARS OLDER THAN HORSE RACING!

As early as 329 B.C., Egyptian Pharaohs enjoyed the sport of "coursing", as greyhound racing was called. For this purpose they used the African Saluki, a hound with tufted ears and tail.

Horse racing began in the 12th Century in England. A champion greyhound, fastest dog living, can run neck-and-neck with a race horse for 1/8 of a mile.

***WHO WILL RUN THE NATION'S LARGEST BUSINESSES IN 1974?**

YOUNG MEN back from war wonder about the country's future and their own future. What will they be doing 27 years from now?

The 143 top men who manage 50 of the nation's largest businesses can help answer that one.

Twenty-seven years ago, most of them came back from a war, too.

All of them, after the war or before, began their business careers at the bottom.

One started work for \$1.50 a week—11 others for less than \$5 a week. 43 others started work for less than \$10 a week.

Eighty-one others received between \$10 and \$25 a week. Only 7 received more than \$25—the highest getting paid \$69.23 a week.

The average first wage of all 143 was \$13.40 a week.

Who will manage the nation's largest businesses in 1974? Exactly the same kind of men.

Then, as now, they will be leaders with courage, ambition and initiative enough to come up the business ladder, rung by rung.

Neither the men and women in industry nor the money in industry can be effective without good management. Nothing else is so important to the workers' welfare, the investors' welfare, or the public welfare.

Totalitarian Great Britain Visualized by Sumner Welles

Grave danger that Great Britain may become a totalitarian nation is seen by Sumner Welles, former Under Secretary of State, and one of the keenest contemporary students of international affairs.

Whether the present Labor government can remain in power in Great Britain and what form of government will take its place if it fails are two questions of great importance for all Americans, Mr. Welles-believes.

"There is growing danger that if the present British government fails, its liberal democracy may be replaced by extreme left wing totalitarianism," he states in an article which he wrote for the July issue of Cosmopolitan magazine.

"The safety of the United States depends upon the triumphant vindication of our form of democratic government in the eyes of the world," Mr. Welles declares. "A blow against democracy in Britain will weaken our safety. In fact, democracy in Britain today is as much of a bulwark for our security in the postwar world as the military resistance of Britain was a rampart of our military security during the Hitler blitzkrieg."

Mr. Welles points out that there are many indications that the left wing of the Labor Party is constantly gaining recruits, and that the independent voters are withdrawing their support from the government, and that if this cleavage persists the present Attlee cabinet cannot stand.

"In that event what are the alternatives?" Mr. Welles asks. "There are two," he declares. "Notwithstanding the denials from both Labor and Conservative headquarters, if the world situation continues to be as grave as it is today, and if Britain's economic situation continues to deteriorate, a national coalition government may yet be formed to meet a new national emergency, only this time under a

Labor Prime Minister. It would be composed of the chief figures in the present Attlee cabinet, together with some of the more progressive of the Conservative and Liberal leaders.

"If the voters reject the solution afforded by a national coalition, power would then pass into the hands of the left-wing Laborites. These could call for the cooperation of the British Communist Party, which is ably organized and directed by Harry Pollitt. Britain would then drop her American alignment. She would embark upon a form of socialism ostensibly national, and designed to meet the peculiar prejudice of the British people.

"However the policy of such a 'popular front' would undoubtedly favor the creation of a Communist-dominated Europe and bring about the establishment of a British state based upon political, social and economic authoritarianism. "The short range prospect is altogether dark. The British have no longer any ground for hope that the present crisis can give way within any brief period to a brighter future. There is apparent in England, as there is throughout Western Europe, an increasing and fatalistic discouragement on the part of the masses of the population, and a willingness to try almost any expedient in exchange for the assurance that they can thereby obtain physical and economic security."

PIANOS

Piano prices are reasonable here—why delay. The most discriminating piano buyers want good action, tone and looks. Armstrong's have what you want. Spinets are scarce. Have some very fine MirrApianos. See them! Several uprights worth the price. Price on tag includes delivery, tuning and all servicing 12 months! **ARMSTRONG MUSIC CO.**, 808 N. Adams, Ph. 2523, Odessa.

Double 4-H Sectional Awards In National Meat Animal Program

Sectional awards in the National 4-H Meat Animal Program have been doubled this year, the National Committee on Boys and Girls Club Work has announced. As a result, the two highest scoring state winners in this Southern Extension section will each receive an educational trip to the National 4-H Club Congress in Chicago next December. Previously only one state winner in each of the four extension sections was awarded the trip.

The county, state and national awards of medals, gold watches and \$200 scholarships, respectively, provided by T. E. Wilson, a Chicago meat packer, remain the same. This is the 18th consecutive year of the activity, which is conducted under the direction of the Federal and State Extension Services.

Last year's state winner in Texas was Duane Boenig of Converse.

County winners were named in 157 counties. This brought last year's total number of county medal winners in 45 states to 1,339.

THE RANKIN NEWS

Weekly SURPLUS NEWS WAA

Veterans cleaned out the stock of surplus vehicles at a pre-4th of July sale at Red River Arsenal by grabbing them off at the rate of approximately one and a half vehicles a minute. During the opening five hours of the WAA sale, the vets bought 420 vehicles originally costing \$300,000. The remaining vehicles were disposed of early on the sale's second day.

Employing "cash and carry" sales tactics to surplus Texas real property for the first time, WAA will offer 100 buildings of the Dalhart Army Air Field on a spot bid basis July 15. The streamlined type of sale was adopted as the most expedient means of providing additional storage facilities to wheat growers in the Panhandle area. The buildings will be sold at Dalhart singly with bids acceptable from any one present, and awards announced as fast as bids are sorted.

WAA has decided to donate several thousand surplus dynamotors to schools and other public institutions. About 2,000 institutions in the Grand Prairie region are eligible. The inventory is located at the Belmont Radio Corp., Lockland, Ohio, and inquiries should be directed to WAA officials there or to Mr. Logan, care State Educational Agency for Surplus Property, at Austin, Texas. Dynamotors are commonly used as power sources for radio and communications equipment.

Pistons, gears, engine assemblies, lamp bulbs, drive shaft flanges and bearings are being included in lots of automotive parts and equipment placed on sale through Customer Service Center of the Grand Prairie office of WAA until July 16. Both priority and commercial groups are invited to bid, with encour-

agement given to auto parts jobbers, dealers, service garages, and fleet owners.

Household furniture now goes on the WAA market until July 14 through the Customer Service Center at Grand Prairie, Texas, included are single side wood beds, steel cots, curled chicken feather pillows, coil springs, rotary type chairs and double pedestal desks. These items will be sold on a competitive bid basis.

294 buildings at the Pecos Army Air Field are on sale until Aug. 5 for removal from the premises. Included are barracks, mess halls, infirmaries, latrines, a post exchange, recreation buildings and warehouses.

Ammunition igloos at Pantex Ordnance Plant, near Amarillo, have been leased by WAA to farmers for the storage of wheat. Eight small and two large surplus oil storage tanks at Cactus Ordnance Works near Dumas, Texas, were sold for wheat storage.

Weekly Swing Of Southwest Markets

Cotton and some grains dropped sharply last week, and easy spots appeared in livestock and vegetables.

Volume movement of the new crop punctured recently ballooning sorghum markets, and prices collapsed to levels 70 to 80c per 100 lbs. lower last week; quotations at Fort Worth and Galveston on Thursday stood at \$2.61 for No. 2 milo. White corn gained 22c to reach \$2.83 per bushel, and yellow corn dropped 6c to sell at \$2.29. Other grains changed very little from a week earlier.

Rice trade reporter offers for sale after June 30 at prices far above former ceilings. Rains delayed prairie harvest in the SW and damaged alfalfa in the Central West. Peanut markets saw light trading, but new crop prospects continue good. Good staple 12-months Texas wools sold at 47c to 55c per pound.

Spot cotton markets quoted \$2.50 to \$7.25 per bale lower prices last week. High and medium grade cotton continued in demand. Most cotton areas enjoyed favorable growing conditions.

Eggs held firm last week, and even advanced slightly in some areas. Better qualities found especially good demand. Current receipts brought mostly 37 1-2c to 38 1-2c at Ft. Worth, 39 to 42 at Denver, and 38 1-2c with rots candled out at Dallas.

Shipping point prices of Texas tomatoes held their own last week. US No. 1 6x6 and larger sizes loaded at \$2 to \$2.15 in East Texas, and \$2.35 to \$2.50 in North Texas. Watermelons and peppers weakened at New Orleans, Denver and Kansas City, as the shipments increased. Oklahoma corn went lower at Kansas City.

Most cattle sold steady last week, but Oklahoma City paid 25 to 50c higher prices, while cows and bulls went lower at Houston, as did calves, bulls and low grade cows and heifers at Denver. Common to medium cows bulked at around \$12 to \$15 at most places, and canner to cutter grades at \$8 to \$12. Common to medium stocker steers and yearlings brought \$13 to \$16 at Houston, while medium and good kinds moved at \$16 to \$20 at Fort Worth.

Texas hog markets held about steady for the week, but other SW terminals dropped around 50c more or less. Closing bulk of choice butcher hogs brought \$24.75 to \$25 at Fort Worth. San Antonio's late-week top was \$24.50.

Most sheep and lamb markets held fully steady, and some classes gained up to 50c, but slaughter and feeder yearlings dropped \$1 or more at Ft. Worth.

San Antonio bought medium to good fat yearlings at \$14 to \$16.25, while Ft. Worth paid \$13.50 to \$17 for short lots.
