

THE RANKIN NEWS

VOLUME NO. 23—NO. 27

RANKIN, UPTON COUNTY, TEXAS

FRIDAY, JUNE 25, 1948

IN AND OUT AND AROUND THE TOWN

Mr. D. L. Wheeler, Sr., is here on business and visiting in the homes of his sons, Haralson and Miss Wheeler.

Mrs. Paul Jacobs and son David of Big Lake were visitors with her mother, Mrs. Gentry, and her sister, Mrs. Sam Holmes, Sunday.

Misses Marlene Holmes and Janet Yocham spent the past week in McCombs in the Eddie Yocham home.

Mr. and Mrs. D. L. Wheeler, Sr., have been visiting relatives in Rankin after an extended vacation to points of interest.

Mr. C. G. Taylor and Miss Maggie Taylor went to Kerrville Wednesday to visit their brother, C. G. Taylor, who is ill. He has recently been moved there from a sanitarium.

Mr. and Mrs. Clay Taylor spent Sunday in San Angelo.

Considerable damage was reported from the lightning and high wind storm that hit here about 2 a. m. Tuesday, uprooting trees, causing electrical damages, blowing down fences and other minor damages.

Mrs. Ralph Daugherty has been in a San Angelo hospital for two weeks. She is reported as improving now.

Mr. and Mrs. James Mims of Garland and Mrs. Al Owens and daughters of Crane were visitors at the R. L. Bell home, for Father's Day.

Mr. and Mrs. J. L. Woolsey and daughter left for San Antonio Friday for a two week's visit. Mr. Woolsey is manager of the Cox Appliance Co.

Mrs. I. C. Elliott was brought home from a Dallas hospital the last week, where she had been in treatment for some time. She is reported as being very ill.

Mrs. Ross Wheeler and sons, Charles, Cox Norman and Bobby, and daughter, Sharron, have been in Goldthwaite and Mullen the last weekend.

W. D. Price, engineer with the Humble Oil Co., has been transferred by the company from Houston to Cisco. He spent the past weekend in Rankin with his parents and other relatives.

Mr. and Mrs. C. G. Taylor were in Lubbock and Odessa Sunday and Monday.

Mr. and Mrs. H. Wheeler spent the weekend in Dallas with their daughter, Mrs. Lewis Norris and Mr. Norris. When returning home Monday, they had the misfortune of a slight wreck with their car. Mrs. Wheeler received only minor injuries and Mr. Wheeler was not hurt.

Mr. and Mrs. Jack Young and daughter, Guila Bettis, arrived Tuesday for a visit with relatives. They are now ranching near Isbell, S. D.

Visiting in the home of Rev. and Mrs. D. G. Hardt the past week were their daughter, Mrs. Milburn McNeil, from Corpus Christi, their son, Earl G. Hardt, M.C.A. Abilene, Texas, their daughter, Mrs. Jim Williams and grandson Albert Sidney of Paducah, Texas, and Mrs. Hardt's sister, Mrs. L. H. Sommermeyer of Houston, Texas.

Rev. and Mrs. Hardt and Mrs. Bob Johnson attended a church meeting in San Angelo last week.

James P. Hart in Runners Campaign

AUSTIN, June 22. — For a weekend campaigner, Associate Justice James P. Hart, of the Texas Supreme Court, has been covering a lot of ground these past three months.

Running for his first state office and his first elective term on the Supreme Court, Judge Hart has campaigned in more than 85 counties and made speeches in some 25 Texas cities.

Meanwhile, he has attended every formal session of the Supreme Court, when arguments are heard and decisions handed down, since his appointment to the bench in October.

Ken Regan Hospitalized

Congressman Ken Regan was admitted to the US Naval Hospital, NMMC, Bethesda, Maryland, on June 14, 1948 for treatment of a moderately severe jaundice (acute infectious hepatitis). His course has been entirely satisfactory; however, several weeks further hospitalization will be required prior to his return to his home in Texas.

Ex-Marine Killed in San Angelo

A 16-year-old youth identified as an ex-Marine, was killed instantly in San Angelo at 3:40 o'clock Sunday morning when he was struck by an oil train.

The youth was identified as Alvin Hale, 16, whose relatives say he entered the service when 13 years of age, and who served overseas.

The body was found about 5:32 o'clock Sunday morning by a local cafe operator who was on his way to work.

Bernard P. Taylor, claim agent for the Santa Fe, said the body was about an equal distance from the intersections on Spaulding and Koberlin Streets. Taylor said that the train crew was unaware the youth had been struck.

Young Hale's body was at the Johnson Funeral Home from Sunday until Wednesday.

Funeral services were held at the First Methodist Church in Rankin, Wednesday at 3 p. m., with the Rev. D. G. Hardt in charge.

Survivors include the parents, Mr. and Mrs. W. F. Hale of San Angelo, five brothers, Edgar of Rankin, Jim of Corpus Christi, Charlie of Ozona, Clyde of San Angelo and W. F., Jr., of Fort Ord, Calif., and a sister Mrs. Hazel Cavened of San Antonio, Texas.

The burial was in the Rankin cemetery, under the direction of Johnson Funeral Home of San Angelo.

Bishop Garber Speaker on Methodist Hour

Bishop Paul Neff Garber of Geneva, Switzerland, will be the speaker on the Methodist Hour Sunday morning, June 27. Bishop Garber will use for his subject, "New Doors To Old Homes."

Bishop Garber, a native of Virginia and a former Dean of the Divinity School, Duke University, Durham, N. C., has for the past four years been in charge of the Geneva Area of The Methodist Church. His work has been that of re-establishing the work of The Methodist Church in Europe.

These churches, most of the ministers and almost all of the buildings felt the damaging effects of the recent World War. His was the responsibility of working with men who had been imprisoned for their faith, who carried on their backs the scars of beatings and concentration camps, yet who had in their hearts the love of a living Christ for all mankind, even their enemies.

Bishop Garber's Episcopal Area covers the work of The Methodist Church in Belgium, Czechoslovakia, North Africa, Switzerland, Bulgaria, Hungary, Italy, Yugoslavia, Poland and Spain.

This sermon of Bishop Garber's closes the series of Methodist Hour sermons on the Southern Religious Radio Conference for the year 1948.

Programs on this independent network will be presented during July and August by the Presbyterian Church in the U. S., with other denominations being heard during the fall.

This broadcast may be heard over Radio Station WOAI at 7:30 on Sunday morning.

State School Supervisor Reports On Rankin Public Schools

The following letter was received from L. A. Woods, State Superintendent, State Department of Education, Division of Supervision, Austin, Texas:

Report of School Supervisor on Rankin High School, Superintendent Hamilton Still, date 5-6-48; Pres. of Board Walton Poage, Supervisor Joe Umphries.

The work of classifying and accrediting the public schools of Texas is under the direction of the State Committee composed of 21 members representing the elementary and secondary schools and colleges of the state. This committee, by establishing educational standards, determines the conditions upon which high schools are classified and accredited and is interested in encouraging schools to attain these standards and in certifying those that have attained them so as to facilitate the transfer of students to any other secondary school or college.

The regulations as prescribed by this committee are administered by the State Department of Education through high school supervisors. In the visits of the supervisors and in their reports to school authorities, recommendations and helpful suggestions are offered in the spirit of cooperation, with the earnest desire that school authorities will join with the State Department of Education in their efforts to maintain the established standards of secondary education in Texas.

In order that schools may be properly certified, it is essential that minimum requirements be met. To that end the supervisor who recently visited your school makes the following report:

1. Credits Added: C1.
2. Credits Dropped: ASI.
3. Observations, Recommendations, and Comments:

Commendations:

1. The curriculum is well planned for a small school.
2. The school is well organized and supervised and, with the exception of poor harmony existing within the faculty, a good program is being carried on.
3. Most of the building is being kept clean.
4. The exhibits on file are well above average.

Recommendations:

1. The rest rooms are unsanitary and should be repainted and the fixtures should be replaced.

2. The conditions in the Latin American school are most disappointing and must be improved. The Latin American School should be combined with the Elementary as there are only enough students for one teacher in the first six grades. Not over two grades are permitted in a room in an affiliated school. (See page 28, Bulletin No. 476).
3. Rankin is not meeting the minimum enrollment of 60 in the high school, but if the above recommendations are carried out, the deputy recommends that the school continue to be carried on the affiliated list.

The deputy enjoyed the visit. JOE UMPHRIES, Deputy State Supt., San Angelo, Texas, Dist. 9.

Cox Explains Causes Of Athlete's Foot

AUSTIN, June 24. — "Few, if any, people have escaped the inconvenience and annoyance of athlete's foot. It is said to be the third most common skin disease of the summer, and, contrary to popular opinion, the fifth most prevalent disorder in the winter."

So says Dr. Geo. W. Cox, State Health Officer, in a recent press release. Dr. Cox explains that athlete's foot is due to a small, mold-like growth or fungus which thrives on moist, warm parts of the body such as the feet.

"The infection of athlete's foot is usually gotten directly or indirectly from some one else," Dr. Cox says, cautioning that the most likely places to contact the infection are around bath houses, locker rooms, and other public places where people go barefoot.

Those enjoying this outing were: Myrna Holman, Home Demonstration Agent, Shirley Ewell, Laura Rosignol, Mary Sullivan and her two daughters, and three guests, Lena Keller and two children, Lucille Simpson and two children. One out of town guest was present with her son, Era O'Brien and Junior.

Rev. and Mrs. Hardt attended the wedding in San Angelo of Miss Nettie Brucks.

Robert Matherne (right) of Baytown, newly-elected president of the Texas Press Association, is shown receiving from Paul M. Fulks (left) of Wolfe City, retiring president, the golden diamond-studded key to the Texas Treasure Chest at the State Fair of Texas upon his election by the press group last week in San Antonio. Witnessing the ceremony is Millard Cope, Marshall News Record, who represented the Texas Newspaper Publishers Association at the convention. The golden key, which is being passed down from president to president, will be used 38 years hence to open the treasure chest on the 100th anniversary of the State Fair. Embedded in 1938 in a monument to the founders of the State Fair, the chest contains historical documents and copies of more than 100 Texas newspapers. Mr. Matherne is publisher of the Baytown Sun, and Mr. Fulks is publisher of the Wolfe City Sun.

W. O. Adams Advises Fruit Tree Growers

A great many people of the county, especially in the McCarty area, have called to my attention the unhealthy condition of their peach trees. They have the characteristic yellow leaves with a darker green color veins.

In addition, many of the trees have little bunches of leaves along the limbs not like a healthy leaf would be, but narrow and lace-like and sometimes curled and crinkled along the edges. When both conditions are present the tree is affected with a combination Chlorosis disease and Mosaic. The Chlorosis is caused from a high lime content of the soil and a low amount of available iron. This can be overcome by treating with a pound of soil sulfur and three shovels of barnyard fertilizer, mixed together and worked into the soil around the tree, then water thoroughly.

If both of the above conditions are present, dig up the trees and haul them away as soon as possible, I regret that there is no known cure for Mosaic. It is spread from tree to tree by small insect and the tree itself does not spread the disease nor does it infect the dirt around the tree. So new trees can be planted in the same soil where the old ones were pulled up. I strongly recommend the use of resistant varieties. These are Burbanks Early, July Elberta, Frank and Dr. Barton. These varieties are fairly resistant to Mosaic and are adapted to this West Texas Area. I shall be glad to work with you if you are having any of the above trouble.

Applicants will be received continuously until further notice. Positions for which examinations will be conducted are: Junior, Assistant, Associate, Full-grade, Senior, and Principal Bacteriologists, Chemists, Entomologists, Immunologists, Parasitologists, and Serologists. Qualifications required include graduation from an accredited college or university with major emphasis in appropriate sciences and experience in public health laboratory specialties. Preference will be given those candidates who have college training in advanced sciences and public health laboratory experience. Entrance salaries range from \$1800 to \$4200 according to classification.

Application blanks may be obtained from Russell E. Shrader, Merit System Supervisor, Littlefield Building, Austin, Texas.

HARRY HOWARD BUYS LEASE FROM MRS. SMITH

Harry Howard, Rankin ranchman and for many years a consistent winner in calf roping contests, has bought the lease on a 22-section ranch 27 miles north of Rankin from Mrs. Jack Smith. He bought 2,000 ewes, 55 head of cows and some saddle horses in the deal, it was reported. He took delivery of the ranch and livestock last week-end.

Young Matron's H-D Club Holds Picnic

The Young Matron's Home Demonstration Club held their annual encampment at Ft. Stockton Park, June 17th. All met at the Rosignol home at 2:30 p. m. then motored to Ft. Stockton.

The entire afternoon and evening were spent bathing in the pool and sunning on the decks.

Refreshments were a picnic supper, after which several quizzes were held. The lucky winners were Miss Myrna Holman, Len Keller and Mary Sullivan. The prizes of handkerchiefs were given by Laura Rosignol, the Recreation Chairman.

Those enjoying this outing were: Myrna Holman, Home Demonstration Agent, Shirley Ewell, Laura Rosignol, Mary Sullivan and her two daughters, and three guests, Lena Keller and two children, Lucille Simpson and two children. One out of town guest was present with her son, Era O'Brien and Junior.

Rev. and Mrs. Hardt attended the wedding in San Angelo of Miss Nettie Brucks.

Oil Carriers Due To Test Next To Around 11,814

Oil Carriers, Inc., No. 1 Max Pray-State, eastern Upton County wildcat three miles west and three-quarters of a mile north of Slick-Urschel and Plymouth No. 1 D. L. Alford opener of the Benedum (Ellenburger) field, drilled ahead early Wednesday at 11,743 feet in Ellenburger lime. It was expected the next drillstem test would not be made until a depth of approximately 11,814 feet was reached.

Recovery on the first drillstem test of the Ellenburger, from 11,600-714 feet, lasting 2 1/2 hours, was 1,800 feet of the 2,100-foot water blanket cut with gas; 720 feet of gas-cut drilling mud and 420 feet of slightly gas-cut salt water. No oil was reported.

No. 1 Alford, which drilled 1,001 feet of Ellenburger to 12,022 and was completed approximately from the bottom 100 feet through casing perforations, was reported to have obtained pay beneath some sulphur water. The Oil Carriers test entered the Ellenburger at 11,535 feet, 8,832 feet below sea level, 480 feet lower than in No. 1 Alford. It is 60 from the south, 1,134.4 feet from the west line of section 38-Y-TCRR.

Republic Natural Gas Co. No. 1-E-A Mrs. Rosa Half Barnett, CSE NW 40-Y-TCRR, 2 1/2 miles northwest of No. 1 Alford, drillstem tested from 9,664-9,744 feet for 2 3/4 hours. Recovery was 960 feet of water blanket cut with gas and a scum of oil and 45 feet of gas-cut drilling mud. Drilling continued at 9,801 feet in lime and shale.

Humble No. 1 Barnett, farther northwest, had reached 10,987 feet in lime and chert. Humble No. 1 B Barnett had set surface pipe after spudding 358 feet.

Offsets to the Benedum discovery, Slick-Urschel No. 1 Standifer was making hole at 10,728 feet in lime and shale, Slick-Urschel No. 1 Gordon at 9,790 in lime and shale, Plymouth No. 1 Wallace at 9,778 in shale and Plymouth No. 1 Taylor-Sadler at 9,624 in lime and shale.

Plymouth No. 1 Elliott in Reagan County, 1 1/4 miles northeast of the Benedum discovery, was drilling at 3,724 feet in lime.

Wilshire No. 1 McElroy Ranch Co., western Upton wildcat, was drilling at 12,148 feet in lime and chert.

Real "Tarzan" Pops Up In England

LONDON (U. P.) — Sydney Shaw's hero is Tarzan.

Police found out in court how 17-year-old Shaw's hero worship paid off.

Shaw, arrested for breaking a traffic law, got tired of waiting for his bail lunch. He tore off and broke a two cast iron feeding hatch of his cell.

"I get impatient. I get hold of things like that or this," he said, grabbing the edge of the witness box.

"Stop that," said the magistrate's clerk. "We don't want you pulling the dock to pieces."

Shaw's mother said:

"He can eat a two-pound loaf made into four sandwiches at a sitting. If he fails to eat three plates of potatoes, we wonder what is wrong."

"When he was 10, he saw Johnny Weissmuller as Tarzan and since then he has not missed a Tarzan film. After the first film he climbed a big tree in our back garden and built himself a wooden hideout."

"Within a few weeks he was swinging from the branches, uttering cries."

"He never knocks on the door when he comes home. He opens the letter box and sends through a special Tarzan scream."

"Since he was about 14 he has been using a hundredweight bar to develop his muscles and he throws it up and catches it without any effort."

Sydney said: "I climb trees because I like it and it seems to do me good. I think it's natural. As for girl friends, Tarzan's Jane is my ideal."

Tarzan was freed after he paid a small fine and the cost of the cast iron gate he broke in two.

Vaccinate Horses Says W. O. Adams

It is in order at this time to remind all ranchers and horse owners that the season of Equine Encephalomyelitis, commonly known as Sleeping Sickness, is at hand. Last year Texas had a real epidemic of this disease and there were a few cases where it was transmitted to humans. The particular type that was prevalent last season refused to respond to any treatment so it would be wise to vaccinate all horses against the disease. Fortunately, there is a very effective vaccination and if done early will afford good protection. The vaccination work should be done by a good veterinarian as the method used demands skill and a faulty injection will not give protection.

Workmen Urged To Tell Families Of Benefits

Newspaper clippings are often the keys that lock the door to substantial social security payments for young widows and their children, according to Geo. Clark, manager of the San Angelo office of the Social Security Administration.

Few days pass during which his office fails to receive one or more letters enclosing a clipping from daily or weekly newspapers. In other instances the widow brings the clipping to the office. What she wants to know is, "Does this mean me?" "Can I get benefits?" In a high percentage of these instances, the Social Security office is able to tell her, "It does mean you. You CAN get benefits for yourself and your children."

Mr. Clark said his office had long recommended that every worker tell his family about the survivors benefits in the Social Security Act, and that the family get in touch with the nearest office in case of the worker's death. There are still, however, a very substantial number of widows and other survivors who do not realize their rights until a newspaper item calls social security to their attention.

"Social Security," Mr. Clark concluded, "can do the greatest good for the greatest number of people when everyone has a full understanding of his rights and duties under the law. The newspapers of this area are playing a very important part in making this general public understanding possible."

Rural Ministers Meet At A&M June 28

COLLEGE STATION, June 22. —When rural ministers of Texas meet at Texas A&M College on June 28, to begin a five-day all-faiths conference, it will be a matter of true sons of the soil getting together. Most of the ministers and most of the experts who will address them were born on farms or in rural communities.

Rev. J. C. Boyd of Spurper, who will talk at one of the sessions, entered college on the proceeds of selling a cow, calf and pig that he had raised.

Rev. H. C. Ziche of Taylor is the son of one rural pastor and the son-in-law of another. He is also a member of "Friends of the Land," which is fighting for conservation of soil.

Rev. R. H. Kuretsch of Geonimo, near Seguin, was born on a farm in Falls County and has fought successfully against the abandonment of rural churches. He will preside at one of the conference sessions.

Dr. T. F. Gullixson, president of Luther Theological Seminary, St. Paul, Minn., was born on an Iowa farm. He will make several addresses at the conference.

Msgr. Hubert Lerschen of Rayne, La., who is vice president of the National Catholic Rural Life Conference, was born in a rural sector of the Netherland (Holland).

Rev. G. C. Schurman, state rural church evangelist, Christian Church, Fort Worth, was born on Prince Edward Island, Canada, an agricultural district.

Dr. J. D. Freeman, director of rural church work, Southern Baptist Convention, Atlanta, was born on a farm near Allene, Ark.

Supreme Court Ruling On Overtime Explained

DALLAS, June 23.—Many employers who have paid time and a half for work performed on Saturdays, Sundays or holidays, or at hours outside the normal or regular working hours, and have treated the extra pay as an overtime premium, are in many cases protected by the Portal Act from any resulting back-wage liabilities.

This statement was made today by W. J. Rogers, Regional Director, in the five Southwestern States for the Wage and Hour Public Contracts Divisions, U. S. Department of Labor, in commenting upon the recent decision of the U. S. Supreme Court in the so-called "overtime on overtime" case.

"The Portal Act protects such employers who have acted in good faith and followed the interpretations of the Divisions in treating such extra pay as an overtime premium," he said at his headquarters, 1114 Commerce Street.

"However, under the Supreme Court decision, employers can no longer follow the Administrator's interpretations expressed in paragraph 69 and 70 of Interpretive Bulletin No. 4 and elsewhere, insofar as such extra payments are made because of the undesirable hours when the work is performed rather than because the hours are in excess of a specified standard.

"For the future, therefore, some employers will have to

make necessary adjustments in their overtime pay practices in order to come within the scope of the Supreme Court's opinion. The opinions of the Administrator expressed in the two paragraphs of the interpretative I have mentioned have been withdrawn, insofar as they relate to extra payments of the kind described.

"In order to give affected employers a reasonable opportunity to make any necessary changes in their practices, the Divisions will begin enforcement on the revised base on next July 1.

"Under the Supreme Court decision, extra pay by contract or statute for hours worked in any day or week in excess of a bona fide standard is not part of the base wages on which the overtime must be computed under the Fair Labor Standards Act (Federal Wage and Hour Law). Such excess payments can be credited toward the overtime compensation required by the Act for work beyond 40 hours in a work week.

"This can be illustrated by collective bargaining agreements calling for bona fide overtime pay at time and one half for work after seven hours a day or 35 hours a week. The decision explicitly approved this interpretation, which has been the Division's interpretation.

"The essence of the Supreme Court's decision is that an employee who receives higher wage because of undesirable hours or disagreeable work is entitled to be paid for work beyond 40 hrs. a week at one and one-half times

The 1949 Ford station wagon is new and revolutionary in every respect. It is the first to use two extra-wide safety doors; the first full-size eight-passenger wagon to employ all-steel construction. Wood panels are bolted directly to the steel frame. Extra strength built into chassis and body assure quiet, trouble free operation.

his actual pay, but that extra pay received for working hours is not a part of the regular rate and can be credited against the overtime pay required by the Wage and Hour Law.

"Except for the longshoring industry, there should not be any significant back-wage liabilities growing out of the decision. Even in the longshore industry the amount of liability would not be nearly as much as feared because of a number of factors. Among these are the fact that most longshoremen have not worked over 40 hours a week for any single employer in any significant number of weeks, and the fact that there is, in most instances, a good-faith defense under the Portal Act insofar as payments for Saturdays, Sundays and holidays is concerned. Another factor is the two-year statute of limitations under the Portal Act."

Oliver Cromwell, who ruled England between 1649 and 1658, was a commoner.

Weekly SURPLUS NEWS WAA

Wheat ranchers and others in the Texas Panhandle area will soon be able to reap a harvest of surplus camp buildings from the Amarillo Army Airfield. WAA is announcing this week plans for staging a spot bid, location sale of about 700 of these airfield buildings July 7 and 8. No priorities will be needed to buy any of these buildings, which include many suitable for conversion to gain storage and other agricultural usage. Public inspection of this property is scheduled to open June 28 and continue thru July 6.

The government is so concerned with keeping an accurate record of what happens to every part of its war surplus that sales

slips, descriptions of materials, and many other documents are required to be kept in permanent storage. This poses a big problem for WAA employees charged with filing away thousands of such documents resulting from disposals. One employee in the WAA Grand Prairie office arrived at a time saving solution thru construction of a simple rack for holding record boxes. The design, submitted in a WAA employees' suggestion campaign, won an award of \$100 and is being adopted nationally.

Cities, counties and other eligible priority claimants will get a chance to acquire another fine piece of airport property now up for disposal in WAA inventory. The property is the Sommerville Auxiliary Field No. 1 which originally served Bryan Air Field, and is located 16 miles south of Bryan, Texas. Applications must be directed to the Grand Prairie regional office of real property at Box 6030, Dallas. Houston will be spotlighted by

disposal activity during the next two weeks. Auto parts, electrical, valve and pipe fittings will go on sale at the Sheffield Steel plant June 30 and July 1. The following sites in Houston will be cleared in another WAA bid sale July 9: Reed Roller Bit plant, WAA Warehouse 6, Hughes Tool Strut plant, Goodyear Rubber Co., Converted Rice Factory and the former WAA Customer Service Center. Hands tools, portable phonographs, aviator bags, furniture and marine equipment originally costing nearly half a million dollars are being assembled for this big clearance.

Surplus airfield buildings at A-loe Airport, Victoria, and Jefferson County Airport, Beaumont, are currently up for disposal to priority applicants or other buyers who will use them in place. At the A-loe Airfield, the priorities have until July 5 to submit offers on 36 buildings with their attached fixtures and utilities. Offers from the priority claimants and the general public will be considered for various buildings and improvements at the Jefferson County Airport until June 28. Awards will be made by WAA's Grand Prairie office.

EAGLES MATCHED IN AIR

DEL RIO, Tex.—The Eagle Club, a protective group of ranchmen along the border, bagged 88 golden eagles during 90 days of hunting. The ranchmen hired a small plane and pilot and shot the birds from the air with shot guns. The eagles raid lamb crops.

OIL NEWS OF UPTON COUNTY

Oil Carriers, Inc., No. 1 Max Pray-State, eastern Upton County district, obtained slight shows of gas and a good blow of air throughout a drillstem test taken from 11,600 to 11,714 feet Tuesday.

A strong blow of air was noticed for 30 minutes before the tool was closed. The tool was reopened and left open two hours. A good blow of air was obtained throughout. Of the 2,120-foot workblanket used, 1,800 feet of gas water blanket, 720 feet of gas drilling mud, and 420 feet of water cut with mud and a light show of gas was recovered. There were no shows of oil. The test is drilling ahead.

The wildcat is 660 from the north, 1,134 feet from the west and section 38-Y-TCRR.

TWO LOCATIONS

The McCamey field in Upton County obtained two new locations early this week when Gulf Corp. filed application at the

District 7-C offices of the Railroad Commission for its No. 25 J. H. Shirk.

No. 25 Shirk will be 2,310 from the east, 330 feet from the south lines of the north half of section 1-3-MK&T. The test is contracted to 2,690 feet with cable tools, to start today.

Ritter and Wilbanks Bros. of El Paso have filed application for their No. 1 G. H. Rogers test, 330 feet from the west and south lines of the northwest quarter of the northeast quarter of section 4-3-MK&T.

The test is contracted to 2,600 feet and will start with cable tools at once. Elevation is 2,836 feet.

The McCamey field also added two producers when No. 12 J. A. Palmer No. 12, Reese Acct. 1, produced 64.2 barrels of oil on a 24-hour pumping test.

ACID TREATMENT

The well was treated with 2,500 gallons acid with top of pay at

County H-D News

QUALITY FROM HOME FREEZERS

Peas and snap beans frozen in home freezing cabinets proved as fine in flavor and color and as high in vitamin content as any frozen by more rapid commercial methods according to recent tests made by the New York State Experiment Station. Vegetables in pound packages may take two hours to freeze solidly by commercial methods but require as much as eight hours in home freezers. Yet the tests showed no difference in appetizing qualities and nutritive value after cooking.

Vegetables frozen in eight hours have much larger ice veins throughout the tissues but there seems to be little or no difference after cooking.

The experimenters however, caution against slow handling of the vegetables and against packing a large number of unfrozen packages closely together in the freezer. In a 15 cubic foot box, from 20 to 25 pints may be frozen at one time. These should be placed on bottom and sides of freezer and air space left between to hasten freezing.

2,630 feet and total depth at 2,685 feet. Location is 330 from the north, 990 feet from the east line of section 2-2-MK&T.

Reno Oil Co. No. 15-A Baker pumped 55 barrels of oil cut seven per cent water on a 24-hour test after treatment with 4,500 gallons acid. Top of pay came at 2,335 feet with total depth at 2,450 feet. Location is 934 from the northwest and 900 feet from the southwest lines of the lease.

UPTON WILCAT WILL TEST ENTIRE ELLENBURGER SECTION

Oil Carriers, Inc., No. 1 Max Pray-State, eastern Upton County wildcat, was preparing late Monday to take a drillstem test of the entire Ellenburger section topped at 11,535 feet. This will be the first test in the Ellenburger and it will be carried on with the wildcat bottomed at 11,714 feet.

The Oil Carriers wildcat is 660 from the south, 1,134 feet from the west line of section 38-Y-TCRR.

Offsets to Slick-Urschel and Plymouth No. 1. D. L. Alford, Benedum discovery, Plymouth No. 1 Taylor-Sadler had reached 9,520 feet in lime and shale and total depth of 9,701 feet in lime and shale, was trying to regain lost circulation.

Northwest outposts, Republic Natural Gas Co. No. 1-E-A Barnett was drilling past 9,698 feet in lime and shale, and Humble No. 1 Barnett was below 10,945 feet in chert and lime, Richardson & Bass No. 1 H. F. Neal and A. D. Neal, seven miles northwest of No. 1 Alford, was making hole at 7,754 feet in lime and shale.

Wilshire No. 1 McElroy Ranch Co., western Upton wildcat, C NE SW 148-E-CCSD&RGNG, was below 12,100 feet in Devonian lime and chert.

Slick-Urschel No. 1 Standifer, offset to No. 1 Alford, was drilling at 10,640 feet in lime and chert and Slick-Urschel No. 1 Gordon another No. 1 Alford offset, was below 9,679 feet in lime and shale.

THE RANKIN NEWS

ONION CONCENTRATE

Onion juice, concentrated by a freezing process, is a new food product developed as a use for good onions which may not otherwise have a market.

The concentrate keeps the characteristic onion flavor well in ordinary storage. It is an economical and convenient flavoring for soups, sauces, pickles, and other foods. A few drops go a long way in furnishing onion flavor.

PEANUTS FROM SOUP TO DESSERT

Peanuts and peanut butter can be used in every type of dish from soup to dessert and then be used as the nuts. Peanut and vegetable combinations are among the less familiar dishes, yet recent tests show that people liked the flavor of peanuts with such vegetables as cabbage, celery, egg plant, onions and potatoes.

Besides giving special flavor to a dish, peanuts add some protein, B-vitamins and fat. Using them often in meals, therefore, builds up nutritive value and makes for a good diet on a reduced meat ration.

Try peanut butter sauce. It is particularly good on cooked cabbage, onions, cauliflower and is easily made. Very little flour is needed since the peanut butter thickness.

For about one cup of peanut butter sauce, use 1 tablespoon fat; 1-4th cup peanut butter; 2 teaspoons of flour; 1/2 teaspoon of salt and pepper, and 1 cup of milk. Make as any sauce or gravy adding the peanut butter with the fat.

COUNTY ENCAMPMENT

Upton county 4-H club girls will leave next Tuesday morning for the annual encampment to be held at Ft. Stockton on June 29-July 1. During the past week the girls have mapped out a program for their camp consisting of handicraft, camp cookery, recreation, swimming and programs put on by the girls themselves. Any who want to be of real help to the girls might offer transportation either to or from Ft. Stockton. They are to return Thursday afternoon.

Australian Rabbits Now Climbing Trees

ADELAIDE, Australia. — The drought conditions in south Australia are so bad that rabbits are climbing trees to get the moisture in the bark and leaves. They climb to a height of eight or nine feet and strip bark from the upper branches. Meanwhile, other rabbits wait under the trees for the leaves to drop.

The state agricultural minister, Sir George Jenkins, said he would not believe that rabbits could climb trees if he had not seen them doing so during a tour of dry sheep country where no rain had fallen in seven months.

Wool men are marveling at the evolutionary phenomenon which is making tree dwellers of their imported enemy, the burrowing, grass-hungry rabbits.

MANILA. — Ricardo Lorenzo paid with his life for refusing to accept a cocktail. Another guest at a luncheon party offered him a drink. Lorenzo refused. The guest with the cocktail was so angered that he stabbed Lorenzo fatally.

Maestro Mark Warnow, above, salutes the great state of Texas with a new march on his U. S. Army-sponsored radio show, "Sound Off" with Mark Warnow, on Monday, June 28 at 7:00 PM, CDST, over the ABC Network. Cowboy Star Gene Autry, a native of Tioga, Texas, will write the music for the special Texas March. Dale Evans, native daughter from Uvalde, will take part in the Texas salute as star vocalist on "Sound Off".

Tex. Cowboy Reunion Meets In Stamford

When Texas Cowboy Reunion Association members meet at the 18th annual Texas Cowboy Reunion in Stamford July 2, 3 and 5, there will be many distinguished guests and members on its roster.

E. O. Thompson, Bill Murray and Olin Culberson, Texas Ry. Commissioners, will be among the guests at the annual affair.

The Texas Cowboy Reunion Association was first organized at the original Texas Cowboy Reunion on June 28, 1930, and is now incorporated. It is the largest cowboy organization in the world. The membership is made up of cowboys required to be 50 years of age or over, and to have been actual cowboys 35 years prior to registration. Its roll at one time listed 1,500, but time has reduced the ranks to a regular membership of 650. Widows of deceased members have the right to succeed to the membership of their husbands, and many take advantage of that privilege. Several of them have served on the board of directors. Many distinguished ranchers, colorful trail drivers, authors, artists and professional men who rode the range for years, have graced the Texas Cowboy Reunion rolls.

Tex Moore, official Texas cowboy artist, now a resident of Wichita, Kan., will return for this

year's reunion. From Los Angeles, Calif., will come Frank King, cowboy author, and ranch editor of Western Livestock Journal. Slim Holder, California rancher, will accompany Mr. King.

The organization was among the first to revive the square dance, schottisch, heel and toe polka, new shoes, and other old time dances, and holds its own dances July 1, 2, 3 and 5 at its Round-Up Hall.

Judge C. E. Coombes, Stamford, who has served as the Association's secretary since 1931, has announced that the Association is expecting 500 of its members for the Reunion this year. G. C. Carothers, prominent Stamford rancher, is the Association president; H. C. Coffey, Pampa, is first vice president, and J. E. Swenson, Spur, is second vice president.

A. C. Humphrey, mayor of Stamford, and Cecil Eager, pres-

ident of the Stamford C of C, will welcome the old timers at their opening meeting Saturday morning, July 3, at 9 o'clock, at the Bunk House. There will be an election of officers at the same meeting. On Sunday a memorial service will be held.

Members who have already notified Judge Coombes that they plan to attend the 18th annual reunion include F. M. Greer of Roosevelt, Ariz.

Ashel Arnold, Fort Stockton, Texas.

Mrs. W. R. Chapman, Abilene, Texas.

R. E. Cleveland, Portales, N. Mex.

E. W. Cowden, Midland, Texas.

Leonard Dickson, Fort Worth, Texas.

From where I sit... by Joe Marsh

They let the Wives in!

The ex-G.I.'s of our town entertained their wives the other night at one of their "feeds" of hamster sandwiches and ice cold beer. (The girls had hinted that they'd like to see what went on when their husbands got together!) Being wary, the boys provided beer sandwiches and cake and coffee—for these wives who might be a little bit grumpy. But though they were grateful for the choice, most of the wives agreed that hamster sandwiches and beer were a mighty pleasant combination.

After the "feed" the husbands took their wives on a game of darts, and later they played "indications." The party broke up around ten, with the boys agreeing that it was mighty successful.

From where I sit, it's this companionship among young couples today, and their moderation in a sensible beverage like beer, that's won the younger generation such a wholesome reputation.

Joe Marsh

WE PUT "PLEASURE" IN YOUR TRIP !!!

VACATION
ENJOY TROUBLE-FREE SAFE DRIVING

It's no fun to get miles and miles away from home... with a broken down car... that just won't run a mile farther. Especially now, when the roads are crammed with cars... headed for Vacation land. And, the garages along the way, so jammed up with work that you may be laid up for a week or so. Matter of fact, you may spend your entire vacation in some little jerkwater hole, waiting for parts and your turn to get your car fixed up.

Spend your "time" before you go—and have plenty of time to spend on your trip.

Let Us Check Your Car Before You Start! DRIVE IN NOW!

BUDGET YOUR AUTO REPAIRS

We will take your car into our shop NOW and REBUILD IT complete... and by this we mean, overhaul the motor, put in new rings... or even a NEW MOTOR. Thoroughly clean out the radiator, reline the brakes, tighten up the steering... and replace wornout parts. We will take out that old sluggish power and rejuvenate your car with NEW POWER that insures Pep and Economy.

We will repaint it with late duo-tone colors... of any color... put on NEW TIRES, NEW BATTERY, NEW SEAT COVERS, and do a thorough and complete job... then, instead of you paying for this work in one lump sum, we will split up the payments in small EASY MONTHLY or WEEKLY PAYMENTS... to suit your pocketbook.

DRIVE IN FOR FREE ESTIMATE—ALSO EASY BUDGET PAY TERMS

MINIATURE RACING IS NEW SPORT

Miniature auto racers that top 100 miles-per-hour are the latest creations of mechanical craftsmen and the once spare-time hobby has grown into a new sport that engages attention from coast to coast.

The cars, with an average weight of five and one-half pounds, are precision built from the builder's own design. They are powered with the latest and finest miniature motors that hit 14,000 rpm when the car travels at 100 mph.

The world speed record for a car of this type now stands at 125 miles per hour. Tracks used are concrete ovals 75 feet in diameter.

Conditions Slightly Improved In Public Schools This Year

AUSTIN, Texas, June 16—Conditions improved slightly this year, but nearly half of the 1,500,000 public school children in Texas are still being taught in badly over-crowded classrooms.

A survey announced today by the Texas State Teachers Association indicates that 46.7 per cent of the children are getting inadequate educations due to a shortage of teachers and buildings.

Many schools, among them larger cities such as Amarillo, Corpus Christi and Galveston, are on a half-day schedule so acute is the situation, according to Joe Humphrey of Abilene, vice-president of the Teachers Association.

over-crowded. The senior high schools have 32.9 of their students in over-sized classes.

"Texas needs a minimum of 2,500 additional teachers and thousands of additional classrooms to relieve the heavy congestion in our public schools," said Humphrey. "It is a very grave problem which, somehow, must be solved."

"All educators recognize the fact that it is impossible for pupils to get the attention they need and adequate instruction in classes of more than thirty students."

"Large classes rob children of part of their American heritage, the right to obtain a thorough education."

Humphrey said some way must be found to interest more young people in preparing for a teaching career.

"Even with the increase in pay granted teachers by the legislature, the inducements to enter the profession apparently are not sufficient," he declared.

"Our colleges are not training enough teachers to take care of the usual replacement needs, let alone add to our staffs."

Humphrey also said many schools do not have enough money to construct additional or new buildings.

"Others have voted bonds, but are reluctant to build during these times of high costs, when they can get only about half as much for their money," Humphrey said.

SOUND EFFECTS DIFFER

MEMPHIS, Tenn.—Mrs. H. E. Bruche, in charge of an advertising campaign for the local horse show, feared the worst when fire engines let loose their sirens passing her parked horse and buggy.

Old Dobbin didn't budge. Then when Mrs. Bruche played a record of "Old MacDonald Had A Farm," the horse bolted at the sound of the whinnying on the record.

Russians Now In Hot Search For Uranium In Europe

By WELLINGTON LONG
United Press Staff Correspondent

BERLIN.—The Soviet Union employs up to 40,000 workers in a gigantic treasure hunt for uranium in Germany and Czechoslovakia, according to allied observers here.

The hunt is said to be almost fruitless. Although they are Europe's richest, the Czech uranium mines produce a maximum of only 15 tons of uranium metal each year, according to State Department sources.

The German mines are said to produce about half that.

The Russian search for the stuff of which atom bombs are made is centered in the Erz Mountains, in a circular area roughly 20 miles in diameter, which bulges out on either side of the German-Czech border.

Russian youth and trusted Germans go into abandoned silver and salt mine shafts with uranium detecting apparatus.

When the detectors show the presence of uranium, German and Czech miners go to work on the veins.

Samples are taken into one of the several Russian geological stations established in the area. The remainder is shipped to a processing plant between Chemnitz and Dresden for "rough cleaning," then flown to Russia.

So anxious are the Russians for uranium that uranium detector operators are going through old piles of waste ore thrown away when the mines were still producing salt and silver half a century ago.

Working conditions in these mines are reported to be bad. Miners often work in knee-deep water, and wear hip-high rubber boots for protection. The Russians have not enough pumps to handle the water which seeps in from hidden springs above the mine shafts.

Although most of the equipment is old, it was recently reported that the Russians plan to increase daily ore production in the Czech mines from 24 tons this year to 140 tons in 1952, and 340 tons in 1957.

Workers on the German side are paid many times the salary of a Ruhr coal miner. The food ration, which the Russians force the German government to provide, is said to triple that of the ordinary German heavy worker. In addition, schnapps is sold freely and workers receive a liberal cigarette ration.

In Czechoslovakia, anti-Communists are sent to the mines.

The Russians have tried to stop desertions by forcing deserters' wives to take their husbands' jobs. But deserters from both the Czech and German mines continue to turn up in Berlin and western Germany.

HOLLYWOOD FILM SHOP

By PATRICIA CLARY
United Press Staff Correspondent

HOLLYWOOD.—When a director wants a band to play like Tommy Dorsey, Benny Goodman or Guy Lombardo, he seldom hires Tommy Dorsey, Benny Goodman or Guy Lombardo. He sends for short, round Manny Harmon.

"I can imitate 25 famous orchestras," Harmon declared. "My men not only look like anybody, they can sound like anybody. In a movie, you can't tell the difference."

Harmon also knows where to find 100 bagpipers on short notice, the favorite songs of stars and directors and how to tell a non-musical director, diplomatically, all about sharps, flats and seating arrangements.

For instance, in RKO Radio's "Weep No More," director Robert Stevenson wanted a dance band to play New Year's Eve at a country club. In jig time Harmon rounded up a dozen men, schmaltzy Lombardo arrangements and maroon jackets and cummerbunds for all.

"Routine," Harmon shrugged. "My toughest job was finding 100 authentic Scottish bagpipers for 'Gunga Din.'"

There weren't nearly enough card-carrying bagpipers in the musicians' local. Harmon spent weeks uncovering amateur talent.

"They were glad to play," he recalled, "too glad to play. They played when they were supposed to and whenever they felt like it as well. Have you heard 100 bagpipers going full steam in a jam session?"

After hearing bagpipe music on the bus, during scenes, between scenes, at lunch and dinner and far into the night, Harmon put his foot down.

"I put those awful squeaking, squeaking instruments under lock and key for the rest of the film."

Most directors leave all the music retails in Harmon's hands. But one was different.

"He insisted that the bull fiddle be placed and played in the front of the band," Harmon said. "He wouldn't take no for an answer."
