XXX—NUMBER 29

RANKIN, UPTON COUNTY, TEXAS

THURSDAY, JULY 21, 1955

School Opening Date Is Scheduled Board For Monday, August 29

Monday, August 29, for all school children their summer vacations will be the opening day of the school year, according to Joe Scrivner.

August 29, will be a day with busses running the same routes as last year.

for high school students earlier than the opening date of school with Friday, August 25

is held each month and brings together leaders from the Per-

and 26 having been designated as registration days for these students.

Juniors and Seniors will register on the 25th while Freshmen and Sophomores will sign up on the 26.

To be held in the office at the high school building, hours for enrolling will be from 9:00 to 12:00 a.m. both days.

All Junior High and Elementary pupils will register on Monday, August 29.

Among other activities that have been scheduled for the opening days of school is a faculty meeting at 10:00 a.m. on Saturday, August 27, at which time teachers and school officials will discuss the coming term and lay special plans. Holidays that will be observed

4-H CLUB MEMBERS TO YELLOWSTONE PARK

Members of the Upton County 4-H Club were scheduled to leave Rankin on Tuesday, July 19, for a lamb buying trip that would also include a pleasure stop at Yellowstone National Park.

Monday members of the organization were busy giving the club van a cleaning job and preparing for the trip. Some 26 members and sponsors, including County Agent Dub Day, are expected to make the outing.

After a visit to the famous park for an undetermined number of days, the group will then return home, picking up lambs which they will begin feeding for next year's show time. For the past several years, the organization has purchased their lambs in Colorado and have been very successful in growing them into championship material at stock shows throughout Texas.

DIAL TELEPHONE USE

Subscribers to the new dial telephone system which will go into effect here on August 11 are reminded to notice the advertisement appearing in this week's News concerning the proper use of the dial system.

Termed the very latest by Bell Telephone Co., the new system will be somewhat different from the old style crank phones now in use. Users will be required to know the number they desire and will no longer be able to pick up the receiver and say, "Gimme old so-and-so if he is at home."

Mr. and Mrs. R. L. Bell were visiting their children in Midland over the week-end.

Mr. W. W. Pettit of Yocham, Texas, is visiting in the home of his sister, Mrs. Maud Frazier, and his brother, Oscar Pettit.

for the new term have been designated as:

Sept. 5—Labor Day
Nov. 24-25—Thanksgiving
Dec. 21-Jan. 2—Christmas
March 9—Teachers' meet, El Paso
March 30-April 2—Easter
May 18—Close of school.

CROSSKNO RESIGNS

Carl Crosskno, jovial teacher in elementary school and probably one of the best liked teachers in the Rankin school system, has submitted his resignation in order to take a coaching position with the school at Devers near Liberty, Texas. According to the Crossknos, they will be leaving Rankin the last week of August.

Moving from the 4th grade to replace Mr. Crosskno will be Johnnie Ruth Gary. Taking her place and moving up from the 2nd grade will be Miss Carolyn Hopkins. This leaves only one vacancy in the entire Rankin school system—that of the second grade position. Compared with McCamey where there are 9 posts to be filled, and Iraan with 12, Rankin's teacher situation is in good condition at the present time, according to the superintendent.

REV. LYNN McADEN NAMED TO DELEGATION

Rev. Lynn McAden, pastor of the Rankin First Methodist Church, has been named a delegate for the San Angelo district to the Town and County Conference of the Methodist Church.

Held in Bloomington, Indiana, this year, the conference is a nationwide affair and being named as a delegate is usually considered an honor.

Filling the pulpit for Rev. McAden this Sunday will be Durwood Langston of McCamey. Langston a vice-president of the Security State Bank in McCamey, is a layman in the Methodist Church there.

County Auditor's Report

In this issue of the News is published the second quarterly report of the Upton County Auditor.

This report is published each quarter, as ordered by the commissioners court, for the benefit of tax payers. From a study of the audit, they can determine how their tax dollar is being spent and how various funds now stand as to amounts owed, etc.

Everyone is invited to examine the report and to take up any questions they might have concerning it with their county commissioner.

Area Ranchers Describe Rain As "Best In Number of Years"

Described by a majority of the area ranchers as the best rains to fall in the area in some time, showers that began last Friday evening and were continuing Tues-

IT'S FUNNY — BUT IT'S TRUE

It is said that the grass always looks greener on the other side of the fence.

And perhaps that is true and might account for the fact that in almost every small town, residents always try to go to the big cities when they are looking for bargains. Rankin is no exception. Numerous citizens travel to Odessa, Midland and San Angelo looking for those "super" bargains they see advertised in the newspapers. As often as not, they return home without making a purchase.

For a change now the shoe is on the other foot.

After spending almost two days shopping in Odessa and Midland, looking at all the "bargains," a family from Odessa came to Rankin and bought almost \$1,300 worth of furniture from a local store. It seems that they found the best bargains—not in the big towns—but out here "in the country."

Mrs. Ed Kole returned Saturday from an extended vacation in California where she visited friends and relatives. She reported a very enjoyable time.

day night had brought from 1 inch to 3½ inches of moisture to the lands around Rankin.

Falling very slowly without any wind, practically all the rain has been absorbed with very little runoff. Grasses were already improving and should be growing well within the next week.

In Rankin proper a total of 2¼ inches had been measured with ¾ inch falling early Sunday morning and 1½ inches Monday night.

Just east of Rankin at the headquarters of the Henry Neal ranch, approximately 3½ inches had been measured in 3 days. Tommy Workman, southeast of town, reported 1¾ Saturday and ½ inch up to dark Monday evening.

On the west, Preston Patton estimated that from 1½ to 2 inches had fallen over a majority of his land while ½ inch had been reported at the county line between Rankin and Midland.

Motorists who were on the highway between Rankin and San Angelo Monday stated that extremely heavy rains fell between Big Lake and Barnhart with good rains all the way to San Angelo.

A party including the J. B. Pettit and "Sully" Sullivan families were fishing at Chandlers on the Pecos the past week-end. They brought home enough fish for a "Fry."

Red Devils Open Football Drills Tues., August 23

Football practice for the 1955 season will get underway here Tuesday, August 23.

Ted Kirby, new head coach for the Rankin Red Devils, was due to arrive in Rankin with his family this week-end. They have purchased the former home of the Jeff Ray McSpaddens.

Assisting Kirby with coaching duties this year will be Bill Cook, high school assistant and Mike Hughes, Junior High coach. Both Cook and Hughes held similar positions last year in the football set-up. Cook will continue as head basketball coach and Hughes will continue to coach baseball and track.

Some 30 boys are expected to turn out when the uniforms are issued August 23 with seven starters back from last year's line up. Several new prospects who have moved to Rankin will join the club this season.

Kirby comes to Rankin from El-

Colorado where he has held a teaching position for the past several years. Prior to that he had coached a number of successful teams, including Eldorado in 1950 when that team won all eleven of their regular games and beat Marfa for bi-district and Eden for regional. At that time, that was as high as Class B teams could go.

Opening tilt for the season will be with Rochelle here on September 2.

A complete schedule of games to be played follows:

Sept. 2—Rochelle, Here
Sept. 9—Iraan, There
Sept. 16—Big Lake, There
Sept. 22—Odessa Jr. Varsity, Here
Sept. 30—Sonora, There
October 7—Ozona, There
October 20—Odessa Soph. Varsity, Here
October 28—Open
Nov. 4—Van Horn*, There
Nov. 11—Grandfalls*, Here
* Denotes conference games

AUSTIN. — Second-round polio shots for Texas first and second graders were to begin this week.

Enough Salk vaccine for 299,700 inoculations arrived in Austin last Wednesday and was put in the State Health Department's refrigerated vaults. Local officials began arriving at once to pick up their portions.

Only those who stated they were prepared to use the vaccine were given allotments, said Dr. Henry Holle, head of the Department.

Eli Lilly Company of Indianapolis the same company which supplied the shots given Texas school children in April, sent the shipment. Preparation was reportedly under the rigid new safety standards which went into effect May 26.

Half a million Texas school children received first shots last spring. Summer vacation absences are expected to cut the figure on the second round.

Polio cases over the state had risen to 618, the Health Department reported last Thursday.

Bank Deposits Held Taxable

Taxation of bank deposits and cash has apparently been forced on state and local taxing agencies by a Texas Supreme Court decision.

In a Harrison County case, the high court ruled that money in bank accounts, cash registers, personal safes or safe-deposit boxes must be assessed right along with other property to avoid discriminatory taxation.

Two lower courts were overruled by the decision. New trial was ordered for the defendants to grant them the lower taxes they sought on their property because taxing agencies had failed to assess the \$10,000,000 on deposit in Harrison County banks.

Presumably the same complaint would be good elsewhere in the state where bank deposits are not being assessed for property taxes.

Giles Trial Drags On

Testimony in the Bascom Giles theft trial dragged so monotonously at one point last week it became

necessary for the judge to caution jurors against dozing.

In its third week, the trial appeared headed for a fourth unless the defense should cut short presentation of its side of the case.

Only one indictment is involved. It charges Giles with theft and abetting theft of \$6,800 in a Kinney County land deal under the veterans land program. Testimony has nevertheless touched on many other aspects of the program and its transactions.

One witness testified he heard Giles was to get a \$75,000 cut in the \$358,000 Kinney County deal.

Another testified he heard Giles say in a telephone conversation he would take \$15,000 as his share in a transaction in Dimmit County.

Giles originated the \$100,000,000 program and until Jan. 1 administered it as chairman of a three-member board that included also the governor and attorney general.

Names of the other two officials have come in for frequent mention in examination of witnesses, particularly in cross examination by the defense.

At one point, defense counsel charged a witness had made a deal with the attorney general to smear Giles. The witness denied it.

Shivers Shuns Conservatives

Gov. Allan Shivers declined to participate in a meeting of conservative Democrats last week in Dallas.

Vacationing in Woodville, Shivers released through his Austin office the text of a telegram to Fort Worth attorney Hamilton Rogers, chairman of the gathering.

Declaring himself opposed to "splinter political parties," Shivers asked the group to work with him to strengthen the Democratic party.

Rogers denied any splinter party plans. He also denied the meeting had anything to do with recent criticism of the governor for his moves toward replacing Wright Morrow of Houston, Democratic national committeeman, with someone acceptable to national party leaders.

Purpose of the Dallas meeting, said its leaders, was to "solidify conservative thinking." One result was a sweeping denunciation of desegregation plans for the University of Texas and El Paso public schools.

Parr Tax Trial Postponed

Date of the Austin trial of George Parr on an income tax evasion charge was changed last week from July 16 to Sept. 6.

Postponement was because one of Parr's attorneys was busy with another case.

Parr had petitioned the Fifth Circuit Court of Appeals at New Orleans for a dismissal, contending

the trial should be held in Laredo instead of Austin. The appeal was denied.

Johnson Hearing Delayed

Hearing on an application to take additional water from the Pedernales River to irrigate U.S. Sen. Lyndon B. Johnson's farm has been postponed. August 8 is the new date set by the State Board of Water Engineers.

Twenty-four downstream ranchers protested the application when it came up last week. They said water already being diverted to the

Johnson land deprives them of stock water and leaves so little natural flow that fish are dying and polluting the stream.

Martin Harris, attorney, asked for the later hearing. He said Johnson's wife desired to be heard personally if there were objections. She is now in Washington where the senator is recuperating from a heart attack.

Mr. and Mrs. Charlie Green and children returned this week from vacationing in New Mexico, Arizona and parts of Texas.

Engine Wear Reduced 40% with Trop-Artic Motor Oil

(THE DIFFERENCE IN WEIGHT IS A DIFFERENCE IN WEAR!)

In an engine test equal to 2500 miles of driving, piston rings lubricated with ordinary oil lost weight, showing extensive wear.

In an identical test piston rings lubricated with Phillips 66 Trop-Artic Oil showed scarcely any wear at all.

IT'S PERFORMANCE THAT COUNTS!

The difference in piston ring wear illustrated above proves an important point about the performance of motor oils:

Most engine wear occurs when you first start your car or under stop-and-go driving conditions with an engine that hasn't warmed up. It takes a very special kind of oil to flow quickly and protect your motor when you start, and then to protect moving parts from sludge and varnish after the engine heats up. TROP-ARTIC All-Weather Motor Oil gives you this double protection. Compared to older types of oils, it can even double engine life.

In a motor oil it's performance that counts. And TROP-ARTIC gives super performance! You'll get easier starting . . . save gasoline . . . and you can save 15% to 45% on oil consumption. Get TROP-ARTIC from your Phillips 66 Dealer.

country a fellow can
case of mildew around
ly easy. It looked for a
Rankin was going to
distinction of being the
place in West Texas but
gave in. Another thing
like that one is that

they're very educational. Just lots of grown folks and hardly any kids at all can remember having experienced as gentle a rain as that. Reminds us of when we used to be with our dear Uncle Sam and some of his boys over in the rain forests in the Phillipines. Yes sir, it really rained—why we must have gotten two inches at least.

It probably won't be too important to any large number of folks, but the Rankin Golf Club now has their new club house in place and are preparing to remodel it. As

we said, those who are interested in the game are not too numerous but it is good for a town to have as many varied recreational facilities as possible. We now have a good lighted roping arena and rodeo grounds for those who enjoy that sort of sport, we have an excellent little league ball park, good football field, swimming pool and park and are building a number of new tennis courts.

All these things add up to giving Rankin residents at least as much, if not more, in the way of outside recreational grounds as is found in towns of much larger size. Since it seems that the trend now-a-days is to get outside more and more, we're setting pretty good.

In mentioning the golf club and their new house, a word of appreciation should be passed on by the members to their president, T. L. Stephenson. Tomie has been the driving force and most of the plain old working force behind the project that brought about the purchase. As anyone knows, when a person is elected president of anything, that means that most of the work and all the headaches are dumped into his lap. This has been no exception and he has certainly earned a bottle of suntan oil or something by way of commendation from the membership.

This week seems to be the week for the good rumors to make the rounds in Rankin. As you know, one week all the rumors will be bad while the next you can hear nothing but good in the way of things in store for Rankin.

The past week not only brought rain, it brought a batch of rumors that Rankin is soon to see better days and for a long time, due to a possible workover of the Spraberry field area and a few other assorted happenings.

All of this may be true and we hope it is but we were talking to Mayburn Harris, former county judge and now head tax man for Magnolia Oil Co. in Upton County, and he expressed several opinions concerning the future of the oil business in Upton County. Since Mr. Harris is well known and liked around Rankin and is considered to know wherefore he speaks concerning oil, we will pass on at least one of his opinions even though he was probably speaking "off the record" and at the time did not realize that he was talking to a newspaperman of sorts.

According to the way he figures it, Rankin and Upton County will not likely experience another oil boom such as that several years back when there were over 100 rigs running in the county. In the first place, there probably isn't as large an area of undeveloped production left in the county and probably more important, according to Harris, is the fact that with present restrictions and drilling costs, it does not pay for an oil company to rush in and try to develop a field all at once. Rather they drill only a limited number of wells each year and thus avoid tying up large sums of money all at once.

The former county judge went on to say that this does not mean that Upton County will not prosper in the future, in fact, he felt that there is very good signs indicating that a steady pace in the oil business will be maintained here

for a number of years. New production just west of Rankin has proven to be a very good area and should be of vast importance to us here.

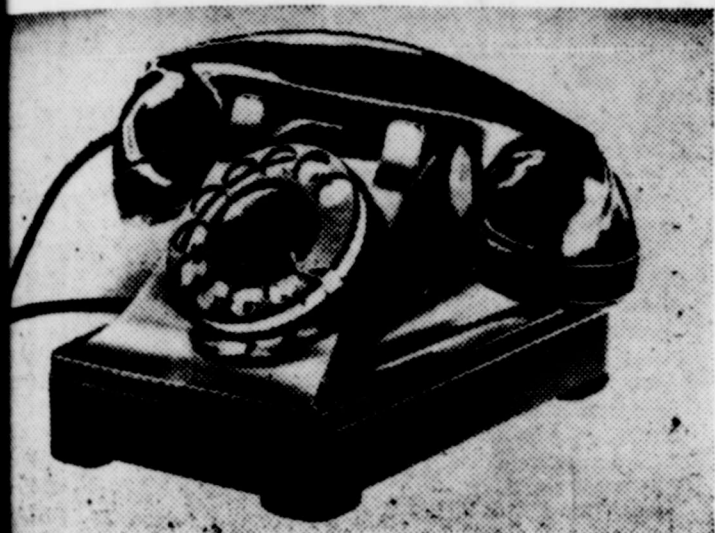

And in considering his opinions, we have come to the conclusion that he is about right about the boom prospects at least and that it is a good thing. Since we are not versed too well in the fine arts of knowing how to run everybody else's business but do get paid for knowing something about our own, we believe that a steady business is to be preferred any time over a

"boom" situation.

We had much rather have advertisers who did a little advertising every week than to have them try to do it all at once and it probably works the same for everyone else.

Since we have been in Rankin, almost two years now, there hasn't been a month when we couldn't look around and if we tried hard enough, find where some improvements have been made. If the housing construction alone will continue for the next two years as

(Continued to back page)

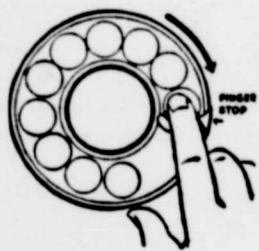

HOW TO USE YOUR NEW Dial Telephone

August 11 is "Dial Day"
Until then, continue to give
your calls to the operator

YOU'LL FIND IT'S EASY TO DIAL — HERE'S HOW

Place the receiver to your ear and listen to the steady hum of the dial tone.

Suppose you want to call number MYrtle 3-9106. Place your finger in the dial opening where you see the letter "M". Turn the dial around until your finger strikes the finger stop.

Remove your finger and let the dial spin back freely.

Next dial the letter "Y" in the same manner.

Do the same for each of the numerals, in order — "3, 9, 1, 0, and 6."

When you have finished dialing, you should hear a burr-rr, the ringing sound. If the line is busy, you will hear a fast buzz-buzz.

If you hear the busy signal, or if you hear either sound, hang up. Wait a few moments, then try the call again.

We know you will like the speed, convenience, and dependability of dial service. When the new dial system goes in operation here on August 11, Rankin will have the best, most modern telephone service available anywhere.

**OIL FLOWS HEAVILY
AT UPTON WELL**

Oil flowed on a third consecutive drillstem test in the Ellenburger at Hunt Oil Co. No. 1 Rosa Half Barnett, assured 3/8-mile northwest extension and second producer in the King Mountain field of Upton County, 15 miles west of Rankin.

On the 50-minute test between 11,899-11,970 feet, water blanket surfaced in 25 minutes and oil in 32 minutes. The well flowed for the remainder of the test at the rate of 110 to 120 barrels per hour. Flowing pressure was 3,975-5,000 pounds. Recovery above the tool was 450 feet of salt water and below the tool, 270 feet of salt water plus 90 feet of oil-cut mud.

The well flowed oil at the estimated 70 to 80 barrels of oil per hour on a drillstem test between 11,844-950 feet and at the rate of 30 barrels per hour on a drillstem test between 11,710-11,845 feet.

Operator was preparing to set casing and complete.

**Upton County Auditor's
Second Quarterly Report**

Rankin, Texas

PAISANO CAMP OPENS JULY 25, THRU JULY 31

July 25 is opening date for the 25th consecutive session of Paisano Baptist Encampment in the Davis Mountains, with two well-known preachers, Dr. Perry Webb of San Antonio and Dr. F. B. Thorn of Wichita, Kan., to fill the pulpit at morning and evening services in the big tabernacle.

Morning, afternoon and evening programs for the week's session of the general encampment will find West Texas Baptists filling dormitories, privately-owned cabins and tents on the camp grounds. Meals will again be served cafeteria style, with no charge except a donation at the close of the weeks meeting.

Young people's activities will be under direction of Sam Allen, Wichita, Kan.

Sunday School and Training Union courses will be in charge of Dr. Andrew Allen of Dallas, and Bible teacher is Dr. W. R. White, Waco.

Troy V. Campbell of Houston is music director.

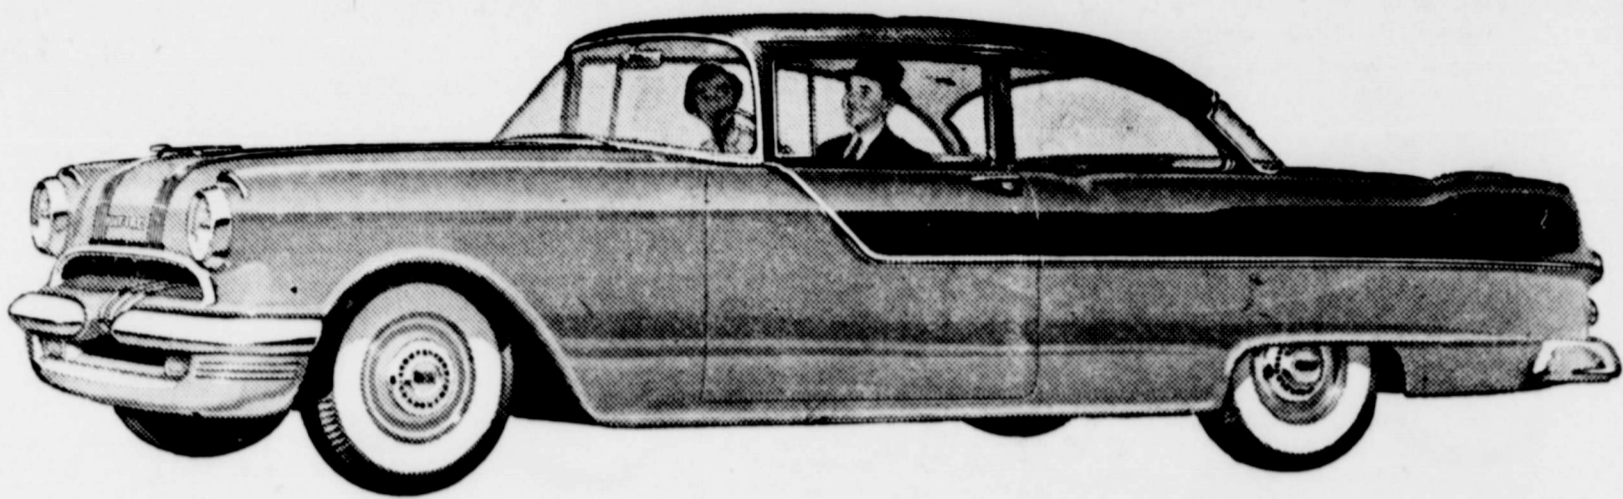

Morning preaching services will be conducted daily from 11 to 12:15 and evening services at 8 o'clock. Bible and Sunday School training classes will be held each morning. Afternoon programs will include a quiet hour followed by a recreation and Talent Hour. A Friendship Circle will be held each night after the evening service.

Dallas Fashion Center Photo

Utter simplicity is the keynote of these separates from Thelma Gay of Dallas. Proper placement of the large imported buttons down one side of the wrap-around skirt and on the sleeveless, scooped-neck blouse give trim functional finish. The fabric is Wm. Lind's Moonglow. Sizes 10-16.

BREAD
right into picnic
summer living.
at home, go trav-

eling, into the lunch box, or grace
an elegant tea table.

Try making the sandwiches with
frozen bread if they are not to be
eaten immediately. Bread is eas-
ier to spread when frozen. The
chill from the frozen slices put
together in closely wrapped sand-
wiches keeps the filling fresh—
even lettuce will keep crisp for
several hours. Why not try it next

time you pack a lunch box or start
on a trip and plan to have the
first lunch at a roadside park.

UP TO DATE CANNING

We were lucky Saturday—found
some blackeyed peas to can. That
reminded us that there have been
a lot of changes in canning meth-
ods during the years, so the time
table you had a few years ago is

probably all out of date. If you're
lucky enough to get anything to
can, we'll be glad to furnish you
with the latest time tables and in-
structions.

EAT WELL FOR LESS

Is the title of a new bulletin just
released by the extension service.
It provides a section on planning
and buying food, a section on food

BIGHORNS FOR BREWSTER SNUB TRAPPING SET-UP

Game and Fish Commission ef-
forts to trap bighorn sheep in
Arizona for stocking the Black Gap
Wildlife Management area in
Brewster County face possible fail-
ure this year.

The Assistant Director of Wild-
life Restoration for the Commis-
sion said the fleet Bighorns have
failed to frequent a watering area
where a special trap was built. Un-
less they do so soon, he added, the
late summer wet season will ar-
rive and the novelty of water will
fade.

The Commission got an author-
ization for twenty-five head of the
Bighorn from the United States
Fish and Wildlife Service which
operates a big game refuge in the
Kola mountain region of south-
western Arizona.

Preparations to receive the ani-
mals already have been completed
in the Black Gap area where the
bighorns once roamed in great
herds. They were decimated by
construction crews and then fi-
nally exterminated by disease
caused by contact with domestic
sheep.

The site in Brewster County in-
cludes a one mile square area en-
closed with lion-proof fence and
caves blasted out of overhanging
rocks to protect the sheep from
summer sun and winter cold.

The Assistant Director said big-
horns were spotted watering at an
old mine shaft on the side of a
mountain. Traps could not be
placed there so water was piped
from the shaft almost 2000 feet
to a level area.

The trap comprises a high fence
of rope net with a drop gate which
is sprung by a biologist concealed
in a blind at considerable distance
from the enclosure. When he trips
the trigger, the gate drops closing
the trap.

If the quota of bighorns is not
filled this year, the trapping pro-
ject will be renewed next year,
said the Assistant Director.

AMERICA'S NEW RAILROAD

Quarter-mile lengths of welded steel rail curve around a foothill like wire cable.

Not a "clickety-clack" in a carload

It's Santa Fe's new continuous welded rail...

Fewer joints mean a smoother ride for you

onal little click—that's all
of the old "clickety-clack"
le over stretches of new con-
lded rail on the Santa Fe.
ese stretches will be growing
more frequent on Santa Fe.
laying more all the time—
of it this year.

we're using a new electric
rocess (for the first time by an
railroad) to help bring Santa
smoother ride to more people,
a.

's only part of the story.
railroad is no better than its
ck itself is no better than
erneath it—the roadbed, the
ballast. So we've been busy

with new improvements here, too.

For instance, our own specially-de-
vised ballast "dry cleaner." This unique
machine cleans our ballast, keeps it
more resilient so the track lies flat and
even.

And today we're replacing old ties
with longer and stronger new ones—
specially treated to stay strong and
sturdy for 30 years and more.

Day after day, something new is be-
ing done to make "America's New Rail-
road" even newer and better. Santa Fe
is spending many millions of earned
dollars every year for new roadway and
new equipment. And not one penny
comes from the taxes you pay.

SANTA FE SYSTEM LINES

What about expansion
in these quarter-mile rails?

Near Newton, Kansas, where yearly
temperatures vary from 20° below to
114° above, we laid a 5-mile experi-
mental stretch of welded rail. Here we
found that anchoring the rail to every
other tie restricted expansion to the
area between anchors. Thus, overall ex-
pansion was reduced to the merest frac-
tion of an inch between rail ends. In
other words, expansion is no problem
whatsoever.

storage, and menus and recipes.
We have a copy for you if you'll
give us a call.

RECREATION

The Extension Recreation Spec-
ialist reminds us that every person
needs three kinds of recreation:
Family recreation with those at
home; neighborhood recreation
with others of like ages and in-
terests; and individual recreation
alone.

SCHEDULE 2ND GOLF TOURNEY AT IRAAN

The Iraan Golf Club will sponsor their first Bag Boy Golf Tournament August 6-7. Four prizes will be awarded in each flight. Bag-Boy carts, seats, pro-golf balls will be the prizes given.

Now in good shape after having the traps all worked and all grass and weeds cut from the fare way, the course will be open to the general public the week of August 1.

The greens have been worked over in addition to getting new markers and having the benches repaired.

BIBLE SCHOOL

According to Rev. R. L. Shannon, Vacation Bible School at the First Baptist Church is proving to be a big success with attendances running as high as 106 last Tuesday.

Though not as large as some of the schools in the past, the amount of work and its quality is by far the best seen in some time for a Vacation Bible School, according to the pastor.

Mr. and Mrs. J. B. Hutchens were in Levelland, Slaton and Snyder over the week-end visiting relatives. They brought their children home from Levelland where they have been staying with an aunt.
