XXI—NUMBER 30

RANKIN, UPTON COUNTY, TEXAS

THURSDAY, JULY 26, 1956

Polls To Be Open From 8:00 a.m. Until 7:00 p.m.

Voters To Polls Saturday 28 In First Democratic Primary

With the polls opening at 8:00 a.m. and remaining open until 7:00 p.m., Rankin voters will vote at three places. In precinct one, voters who cast their ballots in box 1 will vote in the commissioners court room at the courthouse with E. C. Higday as presiding judge. In precinct 1, box 3, voters may cast their ballots at the Phillips Gasoline Plant office with J. M. Tippet as judge. For voters in precinct 2, there will be one box at the Park Building with Norman Elrod as judge.

Most observers have expressed the opinion that this has been one of the quietest Democratic Primaries in the county in a number of years. No major issues have been raised by the candidates with a more or less popularity vote being indicated. Principal interest on a county-wide basis lies in the Sheriff, Tax Assessor-Collector race where H. E. (Gene) Eckols is opposed by Buck Jones.

In state races there seems to be little interest in any office other than that for governor where most voters who were asked to comment on the race expressed the opinions that no candidate would win without a runoff and that probably Price Daniel and W. Lee O'Daniel would lead the six-man ticket.

In precinct one, two races—the commissioner and constable posts—are expected to produce run-offs. There are four candidates for each of the two positions.

ABSENTEE VOTE HIGH

Absentee voting in Upton County is considered to be running very high this year with 192 ballots having been marked or mailed out as of Wednesday morning.

EXPENSES FILED

A check on records in the county clerk's office Wednesday morning showed that the big end of most of the candidates' expenses had been their filing fees. J. O. Lee and Steve Preslar showed the least amounts spent on their races with Lee listing \$4.00 and Preslar \$10 in expenses above their filing fees. Buck Jones listed the largest expenses with a total of \$703.19.

Following is the expenses of candidates as listed on July 25:

W. O. Adams	\$468.92
Joe Baker	164.75
E. K. Buford	459.60
Gene Eckols	628.00
W. L. Gotcher	463.00
Sammie Hodges	160.75
Jimmy James	140.75
Buck Jones	703.19
J. O. Lee	123.25
Steve Preslar	516.25
A. A. Morgan	Incomplete
Bill Moore	131.25
Joe Powell	526.25
Malcolm Reimers	150.05
W. A. Russell	134.75
L. Z. Titsworth	217.34
H. Wheeler	464.90
Pete Williams	541.50

No candidates have listed any donations or gifts thus far in the campaign.

J. T. RUTHERFORD TO MAKE TV TALK FRIDAY, JULY 27

Congressman J. T. Rutherford will fly to Texas from Washington Friday and will make two television talks to West Texas audiences.

His first appearance will be from 8:30 to 8:45 p.m. over KOSA-Odessa and from 9:45 to 9:55 p.m. over KMID-Midland.

During these talks he will answer all charges made against him by his opponent in the congressional race.

Mr. and Mrs. Leon Houchins returned Thursday from a two weeks vacation trip to Houston, Bridgeport and Bryan. While in Bryan, Mr. Houchins attended the Firemen's Convention.

BLANTON ASKS FOR CONGRESSMAN IN 16TH DISTRICT

William W. Blanton has announced as a candidate for Congress from the 16th Congressional District of Texas.

He is a 45-year-old attorney who has practiced law in Odessa since January, 1947. The Blantons, Bill and Minnie Belle, have three children, Tom 9, Elizabeth Anne 7, and Mary 5. They are members of the Presbyterian Church, in which both were raised.

Blanton has a rich political heritage from his father, Thomas L. Blanton, who was the last congressman to serve from the old "Jumbo" District which stretched from Mineral Wells to El Paso. After this district was changed, the elder Blanton served as a congressman from the Abilene District, chalking up a total of 20 years in Congress.

Bill Blanton was born in Abilene in 1910 and grew up in an atmosphere of government. He is a graduate of Princeton University and studied law at the University of Texas. He was licensed to practice in 1935.

From his earliest years Blanton spent his summers on a West Texas cattle ranch, and during his high school and college years he earned his wages as a cowpuncher during vacation, doing all types of work necessary on a ranch.

The Congressional candidate served as county judge of Shackelford County in 1941, 1942 and 1946. He served with the Army from 1943 to 1945 as an agent in the Counter-Intelligence Corps concerned with espionage, subversion and sabotage

ELECTION RETURNS AND CAKE WALK SATURDAY NIGHT

Among the highlights by way of entertainment Saturday night for both young and old will be the bi-annual cake walk and election returns staged by the Rankin Lions Club.

Location for the event has been designated as the area between the Ford Theatre and the First State Bank. Eighth street will be roped off for the cake walkers while a large election board will be erected beside the theatre for posting returns. A running tabulation will be kept on state offices as well as those in the county.

With the voting polls set to close at 7:00 p.m., activities at the cake walk should be getting into high gear around 7:30 or 8:00 p.m. Music will be furnished by record player while refreshments will be on sale by the Beta Sigma Phi sorority. These usually consist of sandwiches, cold drinks, etc.

EARLY RETURNS EXPECTED

In past elections returns from the county races have been rather slow coming in from one box in McCamey but this is expected to be somewhat eliminated this year with a light number of offices up due to the four-year term arrangement. All county offices returns (Continued to back page)

paid poll tax and there ought to be that many votes cast Saturday. You be sure you vote and make sure that your friends vote. Let's take advantage of our opportunities.

Well, as is the custom when one is in New Mexico, we went out to the resort city of Ruidosa during our little trip last week.

And, as we suppose the custom is, we came home with a bill fold that would fit under a pancake and a change purse that could just barely rattle—and we didn't have to go to the horse races to get took, either. After feeling our way around through the Cadillacs up there, we

discovered that those good people could not even make change for anything less than a \$20 bill and were very nice and friendly while putting the bite on you for \$12 a night for a "cheap" place to stay.

The young daughter wanted to catch a few fish so we stopped at a trout lake that advertised fishing at 10 cents an inch. When you say that right fast, it doesn't sound like much but she cost me \$1.70 before I could get her hook out of the water. After digging around in our golf tees and finally finding enough money to pay the man, we decided that he had caught a much bigger sucker than she did trout.

But, the weather was nice and cool, and it was free and no tax.

With football fixing to get started again very soon, we ran across a bit of information for Rankin fans that might be of interest.

Every since Wink joined our district last fall, we have all heard that it was because the school was falling off in enrollment and that they would not have much of a football team. In fact, rumors had stated that Wink schools were getting so small that they were going to consolidate with Kermit.

This is definitely not the case. The Wink Bulletin, their counterpart to the Rankin News, reports that school enrollment has been steadily climbing the past few years and that they were dropped from Class B because of the new regulation requiring schools to play in their classification regardless of whether or not the members in the higher bracket invites them to come up or not.

Editor Melvin Dow in Wink reports that enrollment for the coming year will be enough to put Wink back in Class A within the next year or two at the most.

So, for those of us who have been guessing that the Wink Wilcats

might have lost some of their former punch, this will force us to think of some other reason why we should not worry much about the former "powerhouse" joining our district. Our personal opinion on the matter is that the Red Devils will be able to handle the Wink crew but will probably have their hands full with Van Horn.

And we pick up this one little item from the Wink Bulletin: Children would all be brought up perfectly if families would just swap kids. Everybody knows what ought to be done with their neighbor's.

Whether it's of importance or not, we do not know, but for the first time since we have been in the newspaper business in Rankin, an oil company has notified us of a discovery of new oil. A letter reaching us last week is as follows:

The Texas Company
Tom F. Brawner

is necessary in or-

der to curb the inordinate power of the socialist and racketeering union leaders of the North and East, who are in a fair way to gain dictatorial control over our country through the dictatorial control they have over working men through the union shop system. In the North and East, working men can't quit a union without losing their jobs, no matter how rotten it becomes or how much they hate it.

"This is a sharp issue in this campaign. Although no vote on regulation of unions has come up in Congress since our present representative has been there, when he was in the Texas legislature he voted in favor of a move towards repealing our Texas right-to-work law, and he voted against a move to strengthen it.

"As reported in the Dallas News of July 7, a group of union leaders in Washington, in picking the slate of candidates they wanted sent up there from Texas, picked our present Congressman in this race and endorsed him. The Labor Advocate of El Paso has been backing him strongly. Those men do not back a candidate unless they know what he will do on any measure affecting labor unions. The union bosses know where he stands. The rest of us should know too.

"I am against the overseas boondoggling operations conducted at our expense. Our present representative has voted against it too. But I wish to point out that it does little good for him to vote against it when he goes along with the union shop system, because the union shop system is the foundation of the power of such men as Walter Reuther, who are moving to increase economic foreign aid tenfold, to extend it for 25 years, and to give it to the United Nations to spend.

These "Irresponsible" Teen-Agers!

Them's "fightin' words" for us right now—at least so far as one group of teen-agers are concerned. Some of the senior 4-H girls from McCamey came over Friday to help us out after the fire. And they worked! They cleaned the yard, scrubbed household equipment and fixtures, cleaned house, scrubbed dishes, cleaned and polished shoes, cleaned books, polished furniture, and anything else that came to hand.

The girls came at their own insistence, worked hard—and cheerfully, and left us with a glow of pride in a group of "responsible" teen-agers. They were accompanied by their leader, Mrs. C. A. Skains, and Mrs. M. B. Hambrick, both of whom worked hard at the scrubbing job then took a mountain of laundry home to iron.

The girls taking part in the "scrub-up" day were Mary Alice and Joyce Skains, Jacquelyn and Joan Lucado, and Pat Fell. When the girls left they were almost made

up well enough for a minstrel show—and were as cheerful as if they had been preparing for that purpose. Thanks girls, for a job well done.

TAILORING

A tailoring class will be started in McCamey on Monday, August 13. That's the first day for actual sewing. The pre-tailoring class was held last week. This will be the last class we'll be permitted to teach in this community for some time to come so any one interested in taking the course please contact us. Each class member will make a lined wool suit or coat. The group will meet one day a week for about six weeks and should have their garments ready in plenty time for winter wearing.

happy vacations begin in a Chevrolet

You'll love to travel in it, because it loves to travel! When you get this Chevrolet out on the road, you'll want to keep going—and so will the whole family.

America's largest selling car—
 2 million more owners than any other make.

Of course, even in a Chevrolet the happiest vacations may involve one or two minor problems. Like fidgety small fry who want gallons of water and keep asking if you're almost there. The big things, though, are beautifully taken care of by this roomy Chevrolet's smooth and easy way of going. That's for sure.

The fact is, few cars at any price hold the road with Chevy's grace, with its solid feeling of stability. And with horsepower up to 225, Chevrolet moves out like a whiplash, for safer passing. It's no wonder that so many people who used to buy higher priced cars are changing to Chevrolet. Stop by soon for a ride.

Proper Storing Of Rain Given

As we look forward to possible rain, our thoughts turn to ways and means of receiving the most benefit from them. As is known, a good protective ground cover helps to give the best results from any amount of moisture that may fall. Although the hillsides lack depth of soil for much water storage, the deeper soils on the wide flat draws are capable of storing large amounts of water, if the water is slowed and spread allowing it to penetrate and cover more land.

This slowing and spreading process can be done by a diversion or series of diversions. There are two types of diversions to be constructed, the earthen and net wire.

The earthen diversion is usually built with a bulldozer. This means tearing up any grass already there. It will take some time to re-establish grass over the area with the main body usually remaining bare. Having more drainage area than can be adequately controlled by the diversion, large rains may frequently wash them out or render them ineffective. In most cases the earthen diversion benefits only the area above it, while starving out an area of equal or larger size below it. Economically, this type is the more expensive of the two.

In comparison, the net wire diversion, or spreader, can be built with a minimum of labor as no

machinery other than a post hole digger is required. They can be built as close together as wanted, usually with a foot or two drop in elevation. Regular fence wire can be folded in half and tied to short posts, and a net wire spreader of 12 to 16 inches high can easily be put in. Neither the soil nor grass are greatly disturbed in constructing this type of spreader. Trash and drift from floodwaters aid in plugging the wire so that it follows the grade to areas that may not have otherwise received extra water. At the same time, a part of the water goes on through so

that both sides receive moisture.

There are many uses for these net wire spreaders. Several of them just above an earthen tank make an excellent desilting area. Small gullies that are formed, or forming, may be stabilized by them. A series of them at the upper side of a pasture will act as a stopping place for noxious weeds that would otherwise spread further down the draw.

For further and more detailed information and assistance, contact your local Soil Conservation Service office in Rankin, Texas.

BACK TO THE BIBLE

Christ taught that humility is a positive factor in business and the only road to true exaltation. What is humility? It is proverty of spirit — the opposite of self-righteousness and conceit. Humility always is unselfishness and consecration to God. Pride and selfish arrogance have no place in the Kingdom of God for they are the opposite of humility. The moral principle of humility, though a stabilizing factor in society, has no place in the Kingdom of Christ through morality alone. Such a principle is fundamentally selfish and egotistical at heart. It presumes that all the blessings God has promised to his children should go to him as a matter of debt because of his goodness. Arrogantly he presumes that the Kingdom of God is needed, but only for lesser creatures than himself. Arrogantly he assumes that his own goodness is efficient and thus deprives God of honor and himself of eternal life.

Confused "Sit"-uation

Been meaning all week to tell you about Curley Lawson's "baby-sitting" experience.

His Mrs. left him in charge, about seven p.m., with instructions not to let the children come downstairs. So Curley read his paper and whenever he heard footsteps on the staircase he ordered the culprit back to bed. Happened three or four times.

Little while later, Mrs. Miller from next door came over to inquire if Curley had seen her Sonny. "Here I am, Mom" came a voice from upstairs, "But Mr.

Lawson won't let me go home."

From where I sit, jumping to conclusions like Curley did, doesn't always make for an amusing story. I'm reminded of the people who—without due consideration—have concluded that I'm wrong to like an occasional glass of beer. Well, to my way of thinking, that's not only intolerant ... but, what's more, "minding" the other fellow's business is not the American way.

RANKIN LEAGUERS DUMP McCAMEY 2-0 LOSE TO CRANE

Rankin's Little League all star team representing the five Little League teams in Rankin and playing in Area 3 competition last Monday night dumped a similiar McCamey team 2-0.

Led by the stout pitching of Tom Aguilar, who struck out fifteen batters and gave up only one hit, the Rankin boys managed to go into the finals against Crane who beat Big Lake the same night.

In the playoffs last Tuesday night Crane took a one run lead early in the game but found themselves behind 2-1 when Gilbert Vickers polled one out of the park with a runner on base.

The local lads held onto this lead until the fifth inning when Crane, with two men already out, got a runner on base and their star slugger came through with a home run over the center field fence. Following that, their very accurate left hander struck out five of the next six men he faced and iced away the game while his batsmates brought in another run to make the final score 4-2 in favor of Crane.

With their runner-up position in Area play under their belts, the Rankin Little Leaguers will resume home play competition this week to determine the winner of the local league. At the present time the Dodgers are ahead by 1½ games while both the Giants and the Cardinals could come through and make competition tough for the front-runners.

With the regular schedule calling for most of the 5 teams to play only 2 more games, there could possibly be a tie that would force playoffs. Should the Dodgers win 1 more of their 2 games, it would assure them of 1st place.

MEET THE BILL BLANTON FAMILY

From left to right, sitting, are Minnie Belle, 37, Mary, 5, Bill, 45 and Elizabeth Anne, 7. Standing is Tom, 9. In January 1947 the Blanton family moved to Odessa from Albany, Texas, where Bill was County Judge before and after his military service. He

has been engaged in the private law during the nine and a half years. The Blantons live at 1111 Golder. They are members of the Methodist Church, in which both Minnie and Bill were raised.

This is what The El Paso Times had to say in its editorial of July 8, 1956, endorsing Bill for Congress:

Elect A \$22,500 Man To Congress

"Members of Congress now receive an annual salary of \$22,500.

"That is just about right. The Times has contended all along that members of Congress were entitled to a salary that would enable them to live decently in Washington.

"But—

"The people back home are entitled to representation that is worth \$22,500 a year.

"The Times feels that the 16th Congressional District of Texas does not have a \$22,500 man in Washington now.

"This newspaper does not intend to hurl any unfair verbal brickbats at the incumbent, Rep. J. T. Rutherford. He was elected in 1954 by a majority of 149 votes out of a total of 50,277 cast, according to the Texas Almanac.

"That was a victory by a slim majority indeed. But he won just the same.

"We have had an opportunity to watch him in action in Congress for 18 months. He was one of those who voted to raise the salary of a congressman to \$22,500. That was all right.

"But we still say that the people back home are entitled to a \$22,500 man.

"It looks as though the people of the 16th Congressional District have an opportunity to vote for a \$22,500 man. He is Judge W. W. (Bill) Blanton, who hails from Congressman Rutherford's home town of Odessa.

"Judge Blanton announced that he would run for Congress because he was dissatisfied with the showing made by Rutherford.

"Judge Blanton is a successful, practicing attorney. He is a man with a distinguished background. He is fearless in stating his stand on any issue that may present itself.

"The Times urges its Texas readers to vote for Judge Blanton in the Democratic primary July 28.

"The people of the 16th Congressional District are entitled to the best representation they can get.

"The Times is convinced that Blanton would be a decided improvement over our present representative in Congress."

This is what Bill's home paper, The Odessa American, said of him in its editorial of July 18:

A Man You Don't Have To Watch

"Bill Blanton may not be a politician, but are politicians what we want or need in Congress?"

"He may step on people's toes and then. But, don't we need toes stepped on in Washington?"

"We may not agree with the time. But at least we know he stands and that he puts a determined fight to preserve the dignity of man..."

"He may not talk much. He may be a poor orator. But when he says something in hearing..."

"He may sometimes walk down on concentrated thought and pass you by seeing you. But, he is a scholar with a mind, which isn't occupied with trivia. His is the kind of fundamental need in Congress."

"He may sometimes talk slowly and carefully. But lawyers who have crossed him in the courtroom or in briefs know the experience."

"He may not be a hale-fellow met. But, when you know him, you find humility, understanding, common sense, and firmness of principle."

"Altogether, Bill Blanton is a candidate for Congress. FOR HIM!"

"We believe that with him as our Freedom champion and that he is a man you don't have to watch."

If you want able, effective representation in Washington Vote FOR Blanton For Congress.

4-H CLUB LAMBS FOR '57 BROUGHT IN THIS WEEK FROM COLORADO RANCH

County Agent Dub Day returned from Colorado this week with a load of lambs which will be used

by 4-H Club members in the coming year's lamb program. Day said that the lambs were about average and that it would depend on the club feeders as to whether or not they could be made into the type of show animals that have won so many ribbons and awards in the past for the Upton 4-H Club.

In connection with the new lambs the club members and Day did

shearing work on the lambs at the Walton Harral place last Monday night. Most of this group of animals have already been sold to feeders who will enter the program for the coming year.

Willie Boyd, who has been spending a few days with his sister in Odessa, returned to Rankin Monday.

Elementary School Is Considered For Area In "Hadicol Corner"

A delegation from Rankin Independent School District met one night last week with interested parties from the Midkiff area to consider proposals for an elementary school for children living in that end of the county. Plans and specifications were discussed with no definite decisions being reached.

For some time now, residents in "Hadicol Corner" comprising parts of Reagan, Midland, Glasscock and Upton Counties have felt that there should be a school in that general area. At various times they have discussed the possibility of forming a school district or having one of the present school districts construct a school that could be used by children from all four counties.

Rankin Independent School District has been reported considering an elementary school under these circumstances but the various districts in the other three counties have been opposed to such a matter.

At the present time, all parties concerned are investigating additional aspects of the situation.
