Successful Tiger Coach Chosen To Replace Smith

Kenneth Miller, 28-year-old head coach at Groom High School, was selected from 15 applicants Monday night to become Friona High School's head football coach for next year. Miller has coached the Groom Tigers to two consecutive Class B district championships. In 1960, his team won bi-district over Lazbuddie and was defeated for the regional championship by Anton in the finals. Miller replaces Earl Smith who resigned to enter private business.

The new coach is a graduate of Howard Payne College in Brownwood, where he played football all four years. He has a total of seven years experience in the teaching profession. His coaching record includes four years as an assistant mentor at Roby, and one year as assistant coach at Memphis.

Mrs. Miller has taught in elementary school, and the couple has a seven-month-old daughter.

Miller will also assist with the basketball squad and will

be head track coach. Interviewing coaching prospects made the school board meeting a long one, and the night's business was barely completed before midnight.

The trustees canvassed the recent election results and the new member Glynn Don Hughes took the oath of office. He replaced board secretary Arthur Drake, who did not seek re-election.

C. V. Potts and C. W. Weatherly, who were returned to a new term of office, were both elected school board officers. D. C. Herring was re-elected school board president, Potts was named vice president and Weatherly assumed Drake's vacated position as board secretary.

Other members of the board are W. R. Mabry, John L. Ray and W. M. Massie.

The trustees authorized purchase of two new school buses for use next year and heard the monthly tax collection report from assessor-collector Dan Ethridge. Ethridge's report showed \$1,292 was collected in March.

TOP JUDGING CONTEST--This is the Friona FFA land judging team that won first place at Muleshoe Saturday. Left to right, Joe Reeves, with trophy for high individual; Lynn Baxter, Danny Smith and Bobby Daniel.

Friona Team Grabs Top County Honors

A Friona FFA land judging team took first place in the county contest held Tuesday at Hub, while its counterpart was placing third at Cooper in a similar contest.

Friona won the Parmer County Contest with a total of 682

points. Lazbuddie with 545, Farwell, with 541, and Bovina with 453 trailed in that order.

Bob Sanders, of Friona was high individual in the contest. The winning team was composed of Floyd Reeve, Tommy Massey, and Sanders.

The team that went to Cooper was made up of Bobby Daniel, Joe Reeve, Reggie Hayes and Donald Bushy.

Cooper, the host team, won the contest, followed by Patton Springs and Friona.

The Parmer County Contest was not an elimination event. It was sponsored by the county soil conservation department.

Saturday at Plainview, a Friona team made up of senior boys will compete for a berth to the state contest which will be held on April 29 at Stephenville.

Another tune-up contest Friday at Dimmitt will have a Friona team competing.

Cage Practice Begins Monday

Basketball coach Vernon Scott has announced that spring basketball drills will begin next week.

The Friona Chiefs will have back almost all of their young squad of players that finished in the District 1-AA cellar last season.

Drills will be held once each day.

KENNETH MILLER--will guide Chiefs next year.

Vern's Views

Land Team Wins First At Muleshoe

Sooner or later even the most talented conversationalist must at last turn to the weather for fodder for his chatter.

The spring blizzards have stored up plenty of material for just such occasions, but before we decide it's time to start degrading the weather conditions, let us remind everyone that one year ago last week, a small tornado hit Friona and a devastating one struck the Sunnyside Community.

The only thing worse than going through life without making any friends, is going through life without making any enemies. Perhaps the reason this writer believes in this doctrine so completely is that he has never been faced with a scarcity of the latter.

But as a consolation for the amount of persons I discover who would like to have my reputation, job or even scalp taken from me, I like to think about fellows like Abraham Lincoln, Franklin D. Roosevelt or even Jesus Christ who were certainly adept at making a good number of both friends and enemies. Far be it from me to compare my accomplishments with those of these famous individuals, but we do have something in common.

The discovery last week that "Red Stars" pamphlets are circulating in Friona drove home the fact that the threats to American liberties are not something that lie far away in some large community, but are always near.

Even the reddest Red on the entire list of names listed in this little piece of smear propaganda is entitled to due process of law that will prove how red he is.

The persons responsible for publishing and distributing this literature seek to do away with the due process clause of our constitution.

That section of the constitution is found in the bill of rights in the fifth amendment. It is part of the amendment that has come in for a considerable amount of discussion in recent years because of its use by witnesses before federal investigation sub-committees.

The clause says plainly that no citizen shall "be deprived of life liberty or property, without the due process of law."

The intangibles which the publishers of this pamphlet wish to take away from the charged individuals do not fall under the heading of life, liberty or property in these exact terms, however the latter could apply in a related sense, especially in regard to the show business people who may cease to be famous personalities if the propaganda being published about them is ever taken seriously by a large segment of the population.

The thing the publishers of this pamphlet are doing is similar to the action taken by the old New England witch-hunters in early colonial days.

We feel it is profitable to our readers that a national problem and situation has been drawn down to the local level so that we may examine it

(Continued on page 8.)

The land judging team representing Friona's FFA Chapter walked off with first place in the Invitational Land Judging Contest at Muleshoe Saturday.

The four individuals who made up the team annexed high individual honors also.

Joe Reeve was high individual in the contest. His teammates followed in this order: Danny Smith, Bobby Daniel and Lynn Baxter.

Tom S. Lubbock High School was runner-up in the event, followed by Muleshoe and Monterey of Lubbock.

Friona's team compiled 572 points to Lubbock's 497, however, J.C. Lane, team coach said the boys will have to improve over that mark to win future meets.

Mrs. Crow Buried Sunday

Funeral services for Mrs. Lillie Collier Crow, 68, were conducted from the First Baptist Church here at 2:30 p. m. Sunday by Rev. Bill Burton, pastor of the church.

Mrs. Crow, long time employee of Parmer County Community Hospital, died there Friday afternoon. She was born Lillie Mae Blythe at Kemp, Texas September 9, 1892 and was married to G. A. Collier Sr. there September 8, 1908.

Mr. and Mrs. Collier later moved to Collingsworth County and then moved to Friona in 1928. Mr. Collier died November 27, 1954. One son, Eugene, also preceded his mother in death.

She and L. M. Crow, who

survives, were married June 19, 1958.

Other survivors include three daughters, Mrs. Chas. Cason Sr. of Wellington, Texas, Mrs. Herman Tedford of Fayetteville, Ark., and Mrs. Johnny Mars of Friona; five sons, George C. Collier of Denver, Colo., John L. Collier, James B. Collier, Robert E. Collier, and G. A. Collier Jr. all of Friona; eighteen grandchildren and nine great-grandchildren.

Pallbearers were C. S. Crow, W. S. Crow, Glenn Harrelson, Albert Cannon, Curtis Murphree and Clarence Cason.

Burial was in the Friona cemetery under direction of Claborn Funeral Home.

Selling Course Begins April 18

The market for consumer goods indicates this country will have a \$46,000,000 economy by 1970. One hundred seventy million people will have needs and wants to be satisfied. Taking these two predictions into account, a 17 per cent increase in sales is forecast for the next ten years.

Will we get our share? These were the words of Retail Merchants Association and The Chamber of Commerce when they announced a special training program for Friona Businessmen. The University of Texas will offer the sales training course entitled "Dynamics of Selling" at School Cafeteria from 8 to 10 p. m. on April 18 to 21. This course will help people who sell.

During the four-day program discussions will be held on how to secure and hold the customers' attention, how to satisfy the customers' wants and needs through the use of proper job knowledge, and finally, how to help the customer make the proper buying decision.

Francis A. Flynn, instructor from The University of Texas Distributive Education Department, has had extensive experience in retailing and has

conducted similar programs for the University during the past three years. Individuals or groups desiring to attend should contact the local sponsors of the program.

BEST BETS FOR CHIEFS--These two hurdlers have an excellent chance to advance to the regional track competition in Lubbock according to Coach Earl Smith. Tommy Barker, right, runs the highs and Jobey Claborn, left, the lows.

Coach Hopes For Three Gold Medals

Friona will take one of its best track teams ever as-

sembled since joining the AA ranks to the district 1-AA track meet in Amarillo this weekend.

"We hope to take, at least three medals and send several boys to the regional track meet in Lubbock," said track coach Earl Smith. "We think we can count on strong showings in the sprints, hurdles and sprint relay events unless some bad breaks such as tripping over a hurdle or dropping the baton

occurs.

Jobey Claborn and Floyd Reeve will run the 100-yard dash, with Reeve also running the 220. Smith hopes for a first and second place finish from Claborn and Tommy Barker in the low hurdles, and thinks Barker is a good bet to capture first place in the highs.

The sprint relay team is

composed of Floyd Reeve, Ranza Boggess, Larry Anthony and Claborn.

"Our team showing will depend on the remainder of our entries in the field events and the distance races." The coach continued "Our 880 boys (Dwight Bates and Charles Ray) will probably pick up some points.

The Chiefs were scheduled to journey to Lazbuddie

Wednesday for a meet that will include the athletes from Muleshoe. Smith said that lack of actual meet competition this season has hurt his athletes.

"We have practiced enough and the kids are in good shape, but they lack the experience of running in meets that may hurt us Saturday," the coach said.

About 15 boys will compete in the Amarillo meet Saturday.

System Slated For Test

If weather conditions are favorable, a mock tornado alert will be set off in Friona at 2 p. m. Saturday.

The warning will be a series of long blasts on the siren at city hall. If there is threatening weather which might include the possibility of a real tornado situation, the alert will be postponed.

"We will try to give the people ample time to seek shelter if tornadoes come," said Fire Chief Ralph Shirley. "As soon as we receive an alert that a twister may be headed our way or that conditions are right for one to develop here, the alert will be sounded."

Shirley also said the fire department hopes to have another warning siren set up in the west part of town in the near future. "If we can get some county funds for fighting rural fires, we will probably get the siren," Shirley continued.

The fire chief pointed out that to function properly, the warning must be sounded when the wind is high, just before the calm as the vacuum forms where the twister develops.

After the calm has begun, it is too late to sound any warning, and too late for anyone to try

(Continued on page 8.)

Third Time Ain't Charm

For the third year in a row, The Friona Star brought home a plaque for second place in general excellence awarded in the Panhandle Press Association Convention last weekend.

The Star tied the State Line Tribune of Farwell for the honor. In 1958 and 1959, The Star also brought home the runner-up plaque for general excellence.

An honorable mention for best editorials was also awarded The Star.

The Canadian Record won the first place plaque for general excellence ahead of the Star and Tribune.

Attending the convention at Amarillo and accepting the plaque was Vern Stewart, editor.

Strong Chief Squad Enters District Meet In Amarillo

Coach Hopes For Three Gold Medals

Friona will take one of its best track teams ever as-

sembled since joining the AA ranks to the district 1-AA track meet in Amarillo this weekend.

"We hope to take, at least three medals and send several boys to the regional track meet in Lubbock," said track coach Earl Smith. "We think we can count on strong showings in the sprints, hurdles and sprint relay events unless some bad breaks such as tripping over a hurdle or dropping the baton

occurs.

Jobey Claborn and Floyd Reeve will run the 100-yard dash, with Reeve also running the 220. Smith hopes for a first and second place finish from Claborn and Tommy Barker in the low hurdles, and thinks Barker is a good bet to capture first place in the highs.

The sprint relay team is

composed of Floyd Reeve, Ranza Boggess, Larry Anthony and Claborn.

"Our team showing will depend on the remainder of our entries in the field events and the distance races." The coach continued "Our 880 boys (Dwight Bates and Charles Ray) will probably pick up some points.

The Chiefs were scheduled to journey to Lazbuddie

Wednesday for a meet that will include the athletes from Muleshoe. Smith said that lack of actual meet competition this season has hurt his athletes.

"We have practiced enough and the kids are in good shape, but they lack the experience of running in meets that may hurt us Saturday," the coach said.

BEST BETS FOR CHIEFS--These two hurdlers have an excellent chance to advance to the regional track competition in Lubbock according to Coach Earl Smith. Tommy Barker, right, runs the highs and Jobey Claborn, left, the lows.

Hughes Joins School Board

Glenn Don Hughes joined in-cumbe and Clyde Weathers on the list of trustees that were selected Saturday by Friona School District Voters.

Potts, veteran trustee and

local farmer auto dealer, polled the largest number of votes with 214. Weatherly was next with 209 and Hughes polled 125. Curtis Murphree was only five votes behind Hughes with 120. Other candidates and their votes were U.S. Akens, 103; John W. Renner, 90; Newman Jarrell Jr. 85; and Danny Mac Bainum 44 votes.

The new trustee will take office Monday night April 10 at the school board's regular meeting.

Hospital Notes

Patients admitted March 28th thru April 4, 1961

Mrs. Bobby Crooks, Lazbuddie, OB; Mrs. Bob Merrell, Bovina, OB; Wanda Motes, Lazbuddie, medical; Ruth Terry, Friona, medical; Mrs. Jerry Morris, Hereford, OB; James Schlenker, Friona, Surgery; Gloria Beth Brown, Friona, T & A; Terry Mabry, Friona, T & A; Jerry Mabry, Friona, T & A.

Susan Martin, Friona, accident; Lloyd Killough, Bovina, medical; Frances Gober, Bovina, medical; Pearl Grissom, Bovina, medical; Mozelle McDowell, Clovis, medical; LaVelle Lillard, Friona, surgery; Nettie McGuire, Friona, medical and Mrs. Thomas Ware, Texico, OB.

Elias Barajas, Bovina, medical; Francisco Sales, Bovina, medical; Mary Lou Gibson, Friona, medical; Agnes Mae Mathis, Plainview, accident; Mrs. Ken Harrison, Friona, OB; Mrs. Seferino Leal, Bovina, OB; Peggy Martinez, Friona, T & A; Lucille Rockey, Friona, surgery; Joe Jones, Bovina, medical and Janice Patton, Friona, surgery.

Dismissed March 28th thru April 4th.

John Hand, Richard Stengel, Tom Bill Shelton, Sherri Rector, Betty Timmons, Mrs. Jimmy Parson and baby boy, Roy Don Rector, Mrs. Bobby Crooks and baby girl, Richard Adkins, Gloria Brown, Terry and Jerry Mabry and Lloyd Killough.

Mrs. Bob Merrell and baby boy, Wanda Motes, James Schlenker, Mrs. Jerry Morris and baby girl, Pearl Grissom, Nettie McGuire, Ruth Terry, Frances Gober, Mozelle McDowell, and LaVelle Lillard.

Announcing

The Newest Developments in HYBRIDS

SCOTT 500

Here is a short-stalked, red grain hybrid with great yield potential and wonderful stand ability. Stalk height is about 12 inches shorter than RS 610. Red Grain (darker than RS 610 grain) on very large medium-dry heads. About same maturity as TX 660 and outstanding in ability to stand and to yield. Adapted to dryland or irrigation, 110 days to mature.

SCOTT 450

An early grain hybrid of about the same maturity as RS 590. It is very similar to Scott 500 (above) but earliness makes this an outstanding hybrid for areas seeding this factor. Red grain, large heads, high yield and shorter stalks make Scott 450 a highly desirable early grain hybrid. 95 days to mature (12 to 18 shorter than 610).

-- A GREAT PAIR OF TRUE COMBINE HEIGHT HYBRIDS.

Leading Texas and RS Hybrids -- all grown on our own farms -- used in our own plant, winter grown in Mexico.

RS 590 TX 601 RS 608
RS 610 TX 660

Christesson Released On \$5,000 Bond

Bert Christesson, who was convicted in district court recently on an intent to murder charge, has been released on a \$5,000 bond pending appeal by the Court of Criminal Appeals in Austin.

After Christesson was convicted on the charge, and sentenced to seven years in the penitentiary, his attorney appealed to District Judge E. A.

Bills for a new trial. The judge overruled the motion for a new trial and Christesson's attorney then appealed to the next higher authority.

Christesson will be out on bond until a decision is reached by the appeals court.

The convicted man also posted \$1,000 bond on a personal property damage charge,

which he has not yet been tried for.

The personal property which Christesson allegedly damaged was the car belonging to Elton Venable of Bovina. The car was being driven by John Hartwell, the man Christesson was convicted of assaulting with intent to murder.

.....

The Parmer County Sheriff's

Department also announced this week that Billy Machen, 17, Clovis, had been charged for his part in the State Line Food Mill burglaries, which recently occurred in Farwell.

Machen was released by Curry County authorities and turned over to Parmer County. His bond was set at \$1,000 and the case was bound over to the grand jury.

Two other men involved in the Farwell burglaries, William Clapper and Jackie Knight, were convicted of similar offenses in Curry County and are now serving time in New Mexico penal institutions.

The fourth man involved in the break-in, Carl E. Copeland, is ill and in an air force hospital at Alamogordo. He will be returned to Clovis to face charges when released.

The state line burglaries were solved several weeks ago by Parmer and Curry county authorities, and since the men were arrested in Clovis they are facing charges in that city first.

In other activity for the sheriff's department, Cora Crawford, 22, Amarillo, was returned to Farwell to face charges of burglarizing Gibbs Cleaners in Friona on March 7. Her bond was set at \$1,000 and the case was bound over to the grand jury. Harold Eugene Peters, 32, also of Amarillo, had previously been charged with the same offense. He posted bond and was bound over to the grand jury.

D. F. Pierce of east of Farwell, was arrested last Wednesday for drunkenness by Deputy Tom Atkins, and was fined \$22.50 in Justice of Peace J. R. Thornton's court.

K. D. Pool, alias C. L. Colvier, of Clovis, was charged Tuesday with an attempt to bribe one of the state's witnesses in the Bert Christesson trial.

Pool was released on \$1,000 bond and was bound over to the grand jury.

The story of man is closely related to the story of the dairy cow. It's a story that dates back to the very beginning of recorded history. In this nation, the dairy industry has made steady progress since the first 100 cows arrived at the Jamestown colony in 1611. As man moved westward across the continent, the cow was tied to the tailboards of the covered wagon and her brothers, the oxen, furnished the pulling power.

FRIONA DISTANCE MEN Dwight Bates and Charles Ray will carry the Chiefs' hopes for points in the 880-yard run in the district track meet in Amarillo this weekend.

God's free gift is the Life of the Ages, bestowed upon us in Christ Jesus our Lord. —(Acts 6:23)

As He promised in the days when He walked among men, Christ Jesus is with us today when we open our hearts to Him in faith and devotion, when we love Him as He loved us, sacrificing our self-will and self-indulgence as tiny tokens of the sacrifice He made for us on the Cross.

Sue: So you worked your way through college? Your father must be proud of you. Bill: Not much! He's the man I worked.

EYE OPENERS
"Come all of you from other parts, Both city folks, and rural, And listen while I tell you this: The word "you-all" is plural. When we say "you-all" must come down, Or "we-all" shall be lonely. We mean a dozen folks, perhaps. And not one person only. If I should say to Hiram Jones For instance, "You-all's lazy"; or, "Will you-all lend me your knife" He'd think that I was crazy. Now if you'd be more sociable And with us often mingle, You'd find that on the native tongue, You-all is never single. Don't think I mean to criticize, Or act as if I knew all; But -- when we speak of one alone, We-all say "you" like you-all. --From Card of Patricia Inn, Washington, N. C.

If we are wise, let us prepare for the worst --Washington

WITH JUNE

J. Vernon Stewart, Editor

Entered as second class mail matter July 31, 1925, at the post office in Friona, Texas, under the Act of March 31, 1897. Published each Thursday.

In Parmer County \$3 Per Year
Elsewhere \$4 Per Year

What's In A Name?

Does anyone recall Morgan C. Hamilton, E. J. Davis, J. W. Flanagan and J. J. Reynolds?

Few Texans know who these individuals were. They and their group were responsible for Texas becoming a one-party state, where one man can run for two offices in one election and win them both; where a political party's primary serves the same purpose that general elections do in other states; where the mere name "Republican" tagged to a man's political hopes dooms his efforts regardless of his principles.

These men and their activities almost 100 years ago have forced Texans with different political views to attempt to wear the name of the Democratic Party, yoking them together with individuals who have ideas as adverse to their own as Abraham Lincoln's were from those of Jefferson Davis.

In last week's senate election for example, William A. Blakley and Maury Maverick were both listed on the senate ballot. Both carry the name of Democrat.

In the campaign, Maverick said he is a Franklin Roosevelt, John Kennedy, Ralph Yarborough, Lyndon Johnson Democrat. Maverick therefore endorsed completely the "New Frontier" legislation of the Kennedy administration.

Meanwhile, Blakley went about the business of campaigning on the Democratic ticket, all the while vowing that he will battle the welfare statism of the Kennedy administration down to the wire. Both men are Democrats, so a Texan could vote for either and not lose his right to elect state and local officers in the primary or his chance at a

political office such as Postmaster. But another fellow named John Tower (it would have been more appropriate for his name to be Maverick) took the bull by the horns and said "I am a Republican candidate for the United States Senate." With that one statement, he lost the votes of thousands of Texans. Why, . . . well there were E. J. Davis, J. W. Flanagan and Morgan C. Williams back during the days of reconstruction. They were radical Republicans whom Texans very justly despised.

The burden of this article is not to convert Texans who believe in and wholly support the Democratic Party of the United States in the year 1961. It is offered instead in an effort to make some Texans see that when they curse the Republican party as it operates in the United States and has made weak efforts to do in Texas, they are following the party line of their ancestors, who had a better reason for damaging the Republicans of that era.

Unless Texas people have progressed further in the past six months than they were able to do in the 96 years prior to this year, Republican Tower will meet a resounding defeat in the run-off this June.

If voters would admit to the political realignment that is apparently necessary, they could see that the Liberals can't win and the Conservatives can't lose in the run-off, and that whether Tower or Blakley goes to the senate will not effect the representation that Texas will have in Washington.

J. V. S.

One of the favorite weather sayings of West Texans is "If you don't like our weather, just stay around a few minutes and it will change."

This has been so true during the past week that is beginning to be very un-funny. Temperatures have gone from below freezing to the upper eighties, there have been sunny hours followed by wind, snow, rain and sleet. It seems like mid-summer one day and mid-winter the next.

Sure signs of spring are everywhere though. Early spring flowers always seem brighter than later blooming ones. Foliage on flowering shrubs has never been more beautiful and grass is beginning to turn green all around.

Several new homes are currently under construction. Mr. and Mrs. Charles Doak are building in the northwest part of town and the V. R. Jordans are building on their farm southwest of town. Mrs. Jordan insisted all winter that they wait until spring to begin construction.

Early this week, she said, "We thought spring was here before we started the house, but the weatherman had different ideas."

Forrest Osborn has an interesting pig story to tell. He did have a pig, but now he doesn't. One evening recently as he was driving in the country he ran onto a small pig a great distance from any house, so decided to pick him up and take care of him until he could find the owner.

After making inquiry at nearby farms without finding anyone who would claim ownership, he brought the pig in and put him in a cotton trailer.

Apparently the pig appreciated the ride but didn't like his new home. He crawled out of the trailer and hasn't been seen since.

Members of the Parmer County Hospital Auxiliary are interested in informing everyone in the area that the time of the formal opening of the hospital addition will be Sunday afternoon from three to five. This addition is modern in every respect and will enable

staff members of the hospital to serve needs of patients more efficiently.

Showing the added facilities will be a pleasure for auxiliary members who urge everyone to attend the opening.

If you doubt the effectiveness of Star classifieds, check with Noyle Wood or Winston Wilson. It seems that Lorena Wood, like a lot of other readers, never fails to read the classifieds.

Recently she read one that was of interest to her husband. A cow strayed to the Wilson farm several months ago and no one ever came looking for her, so Wilson decided to run an ad in the paper.

Wood came to claim the cow the same day the paper was printed.

Mrs. Bud Reed overheard some small boys talking in front of the tailor shop one afternoon recently. One said, "What would you do if we were to meet a bunch of lions?"

"I'd start praying, what would you do?" said the second boy.

"Well, said the first, 'I'd climb a tree then start praying.'"

For a long time I've been trying to figure out why the Star receives news releases about some Friona men, who are in the armed forces, and none about others. After making some inquiry on the subject, I had reached the conclusion that the filling in of blanks answered the question.

However, after personally quizzing Gary Bradley on the subject last week, I find that I jumped to the wrong conclusion. Gary, home on leave from the Marines, says he definitely remembers listing the Friona Star as his home town newspaper and we've received no release concerning him.

Since it is the earnest desire of every member of the Star staff to print all the news about all Frionans, we would appreciate it very much if each of our

News From RHEA

MRS. FRANKLIN BAUER

PRENTICE MILLS TO EXPLAIN GRAIN BILL
Prentice Mills, Farmer County A.S.C. manager, will be at the regular Farm Bureau

meeting Friday, 8 p.m. at the Parish Hall, to explain the Grain Sorghum Bill. Similar meetings are being held throughout the county. The Farmer County Natural Gas Users Association will also be explained. A short Farm Bureau business session will be held preceding these discussions.

HD MEETS IN JARECKI HOME
Mrs. Florian Jarecki was

hostess to the H.D. club which met in her home on April 4th. Mrs. Shirley Smith, Vice President, presided at the business session. Entries for the style show to be held in May at Oklahoma Lane were discussed.

The evening was spent in playing games, since the demonstration leader was unable to attend.

Refreshments were served by the hostess to two visitors: Mrs. Nina Ashton of Darlington, Maryland and Mrs. Charles Gore of Clovis. Also to members Mesdames: F. T. Schlenker, Harman Schueler, Shirley Smith, Herbert Schueler, Floyd Schueler, Franklin Bauer, Roy Huddelston, Ray Martensen, Walter Schueler, Leland Gustin, and Elmo Dean.

The next meeting will be held on April 18th at the home of Mrs. Shirley Smith. Miss Ettie Musil will be present to give the demonstration on "Freezing Foods."

Those from the community attending the meeting in Bovina explaining the Grain Sorghum Bill were: Ray Martensen, Leland Gustin, Franklin Bauer, Carl Schlenker, Jack Patterson, Gilbert Schueler, Claud Mears, Richard Vaughn, E. O. Johnston, Ernest Woodruff, Chris Drager and Herbert Schueler.

Pastor Stroebel left from the Convention in Austin on his vacation. Reading services and Sunday School will be held at the usual time during his absence.

Visiting in the Shirley Smith home Sunday were: Shirley's mother, Mrs. J.W. Smith, and two brothers and their wives, Mr. and Mrs. Terrell Smith, and Mr. and Mrs. Doyle Smith, all of Portales.

Mr. and Mrs. Gilbert Schueler and children recently vacationed in various points of Texas, New Mexico, and Old Mexico.

Mr. and Mrs. Edd Thleme of Indiana visited in the Robert Schueler home Sunday.

Mrs. Charles Gore of Clovis recently visited in the Roy Huddelston home. Mrs. Gore is Mrs. Huddelston's mother.

Attending the Parmer County Natural Gas Users Association meeting held in Bovina the past week were, Carl Schlenker, Jack Patterson, Richard Vaughn, Claud Mears, Franklin Bauer, Floyd Schueler, Walter Schueler, and Ernest Woodruff.

Mrs. Cordie Potts attended the District T.H.D. meeting held in Dumas. Other delegates from Parmer County attending with here were: Mrs. Olive Massie

of Friona and Mrs. Velma Magness of Oklahoma Lane.

Mr. and Mrs. Max Neeley of Clovis visited Sunday in the home of Mr. and Mrs. Dwayne Ridley.

Mrs. Malinda Schlenker is in California visiting with her daughter and other relatives and friends.

Mr. and Mrs. Elmo Dean and Lindy have moved into the C.L. Calloway home.

Jack Paterson recently fished at Belton Lake, although he had poor luck fishing due to the cold weather.

Mr. and Mrs. Walter Schueler, Mr. and Mrs. Herbert Schueler, Mr. and Mrs. Raymond Schueler and their families spent the day in Clovis Sunday.

Several couples from the community attended the Chamber of Commerce Banquet held in Friona. Those attending were: Mr. and Mrs. Chris Drager and Mr. and Mrs. Cordie Potts.

Punctuality is a fine virtue, if you don't mind being lonely.

The new teacher in a backwoods area was recording pupils' names on the first day of school when she came to "Annamarielinda Jones."

"My, that's a long name," she commented to the parent. "We're not city folks," the mother shrugged. "We've got time."

The college students were asked to comment on the course they had just completed. One student said, "It seems to be a well-rounded course. Everything not given in class during the semester was included in the final examination."

A youngster returning from his first day at school was greeted at the door by his eager mother. "Did you learn anything at school today?" she asked.

"You bet I did," he replied. "All the other kids get an allowance but me."

The class assignment was to illustrate the song, "America, the Beautiful."

On looking over Johnny's illustration, the teacher recognized the flag, the map, the purple mountains, even the idea of the "sea to shining sea." But she was stumped by an airplane in one corner, covered with red and yellow balls.

"What's this supposed to represent?" she asked. "That," Johnny said proudly, "is the fruited plane."

SPORTS AFIELD

By Ted Kesting

Twenty-foot boats are a lot more like 14-footers than they used to be. What's the significance of that? It means the sportsman who is going to shift from river and small-lakes angling to larger lakes or coastal fishing, has much less to learn about operating the new boat he buys for the new waters. It's easier and quicker to become a safe bigger-waters skipper.

Twenty-footers used to weigh perhaps ten times as much as the 14s; they had a heavy inboard engine in the center. They handled by means of a rudder, and were vastly different from the narrow, often rowed, lightweight 14-footer with its outboard and steering handle at the stern. Today, the average 14-footer is much wider, has more power on the transom, and is wheel-controlled from forward—and the same words can be used to describe a 20-footer of the Sixties. Even a 20-foot inboard, if it has an outboard drive, handles and steers like an outboard, and is like it in other ways, as in location and weight of engine. Willard Crandall, Boats Editor of Sports Afield Magazine, suggests that the prospective buyer of a bigger boat make the following considerations.

First, when thinking about a larger boat, play down the lightweight angle that's always to the forefront with the smallest

boats. You won't be doing any lifting of the new boat. You can get a good trailer to handle the heaviest, best-constructed boat. Durability must be emphasized when you get a larger boat. Not only because you'll bang the boat on larger waves, but because you'll be doing it more often. Why? Suppose waves get bad or the wind begins to blow when you're out on sheltered waters. You can turn a bend in a minute or two to where it's a lot less rough, or you can go ashore quickly. But once you're out on big waters, you will have to ride out the waves.

Beam is important. Lots of it. Check what the beam is all along on the boat you're considering, not just at the widest point. It's the most important factor in size, and so in seaworthiness. The smallest boats are sometimes narrow, for maneuverability afloat as well as to make them light and portable. For a bigger-waters boat, this doesn't work. Waves you'll meet now cannot be trifled with. You cannot take the risk of one of them outmaneuvering you, no matter how nicely you may have maneuvered by tiller and throttle work through the preceding hundreds that rolled at you. It's much better to depend on stability and size.

Something To Think About

16th. Street Church of Christ
Box 515 -- Friona, Texas

The main issue between Christianity and all opposing systems is that of the Lordship of Christ, it is a matter of authority. Everyone who has learned about Christ is either against Him or for Him, for He said, "He that is not with me is against me; and he that gathereth not with me scattereth." (Matt. 12:30) The difference then is conversion. A person converted to Christ considers Him the absolute Lord of his life, a complete saviour from all sin, and a perfect mediator with God the Father. A true Christian is loyal to Christ. He may not understand all about Him; no one does. But he does look to Christ as the one having "all authority" and submits to His will without reservation.

This must not be considered trite because there are many professed Christians who have little faith in the Bible and frankly scoff at much of it. They have a "reconstructed" Christ based partly on the Gospel but mostly on the writings of speculative authors who have tried to produce a "modern Christ" designed to suit their own ideals. These false teachers have discounted the miracles, the creation, the virgin birth of Christ, and even the simple plan of salvation delivered by the Lord in Matthew 28:18-20. They do not represent true Christianity, but an opposing force, "Having a form of godliness, but denying the power thereof" (2 Tim 3:5) and in the same verse Paul admonishes "from such turn away."

Many persons get a big boost out of a new automobile, especially jaywalkers.

come to church sunday

"Then answered Peter, and said unto Jesus, Lord, it is good for us to be here;" (Matt. 17:44). These were the words of Simon Peter upon the Mount of Transfiguration. There were a number of reasons why Peter made this great declaration. First, because the fellowship was so sweet and wonderful. Second, because of those who were present, Peter, James, and John who accompanied the Master to the Mount of Transfiguration but there also appeared on the scene Moses and Elias. Third, God expressed Himself as being well pleased with His Son and commanded the disciples to "Hear Him." Fourth, and perhaps one of the greatest reasons was because Jesus was revealed in His glorified state thus preparing His disciples for the experience of the Cross and His Resurrection. To the disciples who were on the Mount of Transfiguration that day it was truly a great experience. However we too may share a similar experience by taking advantage of the opportunity afforded us each Sunday at the church where we worship. We can enjoy the sweet Christian fellowship, find His Will for our lives and feel His Divine Presence.

Announcing
The Newest Developments In HYBRIDS

SCOTT 500
Here is a short-stalked, red grain hybrid with great yield potential and wonderful stand ability. Stalk height is about 12 inches shorter than RS 610. Red Grain (darker than RS 610 grain) on very large medium-dry heads. About same maturity as TX 660 and outstanding in ability to stand and to yield. Adapted to dryland or irrigation. 110 days to mature.

SCOTT 450
An early grain hybrid of about the same maturity as RS 590. It is very similar to Scott 500 (above) but earliness makes this an outstanding hybrid for areas needing this factor. Red grain, large heads, high yield and shorter stalks make Scott 450 a highly desirable early grain hybrid. 95 days to mature (12 to 18 shorter than 610).

A GREAT PAIR OF TRUE COMBINE HEIGHT HYBRIDS.
Leading Texas and RS Hybrids — all grown on our own farms — produced in our own plant, winter grown in Mexico.

Good Seed Doesn't Cost... It Pays.

Where will you find a handsomer hardtop than this Impala Sport Sedan!

MORE PEOPLE ARE BUYING CHEVROLETS THAN ANY OTHER MAKE!

When one car outsells all the rest the way this new Chevrolet is doing—there's got to be a reason. And we can think of some pretty good ones. The clean-etched looks of the new Body by Fisher, for example. The eager brand of "git" that's under the hood. The easy way it handles. Plus the added advantage of extra-cost options like triple-turbine Turboglide.

But to sample all these reasons together, you have to get a Chevrolet out on the road. And there's where that Jet-smooth ride takes over with its own gentle kind of persuasion. If you weren't absolutely sure, you'd imagine you were riding in a far costlier car.

No wonder people are buying more Chevrolets than any other make! Chevrolets have more of what it takes to please people!

AND JUST ONE JET-SMOOTH RIDE WILL SHOW YOU WHY!

*Official R. L. Polk & Co. registration figures show full-sized Chevrolets outsold the second-highest make by a record-breaking margin in 1960—and Chevrolets continue to set the pace for the industry this year!

See the new Chevrolet cars, Chevy Corvairs and the new Corvette at your local authorized Chevrolet dealer's

**Commissioners
Canvass Votes,
Okay Bridge**

The Parmer County Commissioner's Court Monday canvassed the votes of last week's special senate and school election and also accepted a bid for a new bridge.

A bid of \$9,240 of Ivan Dement, Inc., Amarillo, was accepted for the construction of a new concrete bridge on Running Water Draw north of

Wilsey Switch.

The bridge, which is to be completed 60 days after construction starts, will replace a wooden bridge which is currently in use at the site.

The commissioners also okayed a \$1,175 claim of Shafer Gin, Lariat, for payment of right-of-way damage on the proposed widening of Highway 70-84 in the county.

In other business, the court approved the treasurers' quarterly financial report, paid bills and accepted a jury of view report.

The jury of view report was from George W. Jones, et al, on the opening of a north and

south road five miles west of Friona. It was the opinion of the jury of view that opening of the road would result in excessive costs to the county.

The new road, if opened, would have resulted in damage to an irrigation well, telephone lines, and gas lines. The request for the road, which had been submitted by property owners in that area, was turned down.

surgery in the Parmer County Community Hospital on Monday morning.

Guests of Mrs. Gene Welch Saturday afternoon were Mrs. Weldon Stephan and girls of Hereford.

Mr. and Mrs. Nelson Coon visited with her parents, Mr. and Mrs. M. C. Holcomb, in Seagraves Sunday.

Visiting in the Travis Stone home Sunday afternoon were Mr. and Mrs. Gene Welch and family.

Rex Hand visited with Jeffery Price during the weekend.

The Fern Barnetts were fishing last week at Bull Shoals, Arkansas.

Mr. and Mrs. Travis Stone and family had supper with Mr. and Mrs. Harlan Frye Saturday night.

Mrs. Bill Carthel attended an announcement for Miss Ky-lene Hodges at the home of Mr. and Mrs. Norman Hodges in the Jumbo Community.

A pink-and-blue shower was given for Mrs. L. L. Deaton in the Black Community House on Friday afternoon. Ladies who attended were Mesdames Harry Lookingbill, Bill Carthel, Lester Dean, Travis Stone, Everett Balls, T. J. Presley, Clyde Hays, J. R. Nazworth, Fern Barnett, R. E. Barnett, Delton Lewellen, Joe Lewellen, Pete Braxton, and Mrs. Wall. Several who were unable to come sent gifts.

Mr. and Mrs. Harvey Shapley of Amarillo visited in the Delton Lewellen home on Saturday night and Sunday.

Sunday dinner guests in the home of Mr. and Mrs. Tom Lewellen were Mr. and Mrs. T. A. Kelley, Audrey Ann and Randle Lou of Plainview, Mr. and Mrs. Joe Lewellen and family, Mr. and Mrs. Delton Lewellen and girls, Mr. and Mrs. Harvey Shapley, Mr. and Mrs. Jim Madock and family of Plainview, and Gary Goetz.

Mr. and Mrs. Roscoe Ivie were guests in the home of Mr. and Mrs. Otey Hinds on Sunday.

Mrs. Ester Bomar of Spring-lake visited in the home of her daughter, Mr. and Mrs. David Grimsley and sons on Sunday.

Mr. and Mrs. E. D. Maltcock of Plainview were supper guests in the home of Mr. and Mrs. Tom Lewellen and Tommy Lou on Thursday evening last week along with Mr. and Mrs. Forrest

Osborn and Carl, Mr. and Mrs. Joe Lewellen and family, Mrs. Henry White and Donnie, Mr. and Mrs. Delton Lewellen and girls and Gary Goetz.

Mr. and Mrs. Fred Wall and family of Dimmitt visited in the home of Mr. and Mrs. Jim Buckley on Saturday evening.

Mr. and Mrs. Glenn Stevick and family enjoyed Sunday supper in the home of Mr. and Mrs. Jim Buckley and family.

Black News

The Black Home Demonstration Club met Thursday, April 6, at the home of Mrs. Beryl Fish. The program, on the cleaning of rugs and upholstery, was given by Mrs. Roscoe Ivie. Those present were Mesdames Fern Barnett, Helen Fangman, Roscoe Ivie, Bill Carthel, Ralph Price, Gene Welch, Clyde Hays, and Beryl Fish. Refreshments of coffee and strawberry tarts were served.

Mr. and Mrs. J. R. Coker were fishing in Stamford last weekend, accompanied by Mrs. C. B. Burgess and Melvin and by Mr. and Mrs. Clint Lundry of Hereford.

Mr. and Mrs. Pete Braxton visited the Gene Southalls in Amarillo.

Mr. and Mrs. Lester Dean were in Muleshoe during the weekend with Lester's parents.

Weekend guests of Mr. and Mrs. Dick Rocky were Mr. and Mrs. Cecil Vandiver of Dimmitt, the Rev. and Mrs. Hugh Blaylock of Dimmitt, Mr. and Mrs. Roy Slagle of Friona, Mrs. Finley Pearson of Muleshoe, and H. V. Rocky of Albuquerque.

The Ralph Prices were visiting in Phoenix, Arizona, during the Easter holidays.

The Les Gibson family was fishing at Buchanan Dam, near Austin, during the Easter season, with Mr. and Mrs. J. H. Plemons, Randy, and Terry, from Lubbock.

Mr. and Mrs. Bruce Parr spent last weekend in Lubbock. While there they attended the Texas Tech Band Concert. Their son Ira is a member of the band.

Mrs. Dick Rocky underwent

Household Hints

Some of the most delicious fall meals are those which are prepared from the "plentiful" on the market. Roast chicken teamed with candied sweet potatoes, creamed parsnips, and a green salad makes a good menu for Sunday noon meal.

If the cook has any leftover mashed sweet potatoes, make them into croquettes next day. Mix the potato with well-beaten egg, shape into patties and dip in a little egg and bread crumbs. Fry until golden-brown on both sides. Sweet potato patties are good with ham or boneless smoked pork shoulder butt.

If you use the sweet potato for pie making, and plan to freeze it for future use, here is a hint to the wise: Give an open-faced pie a quick freezing before wrapping for longer storage in the freezer. It is easier to handle this way.

Some of the new paper napkins look so much like cloth ones it is hard to tell which is which at first glance. While most of the new cloth napkins are made of easy to laundry fabrics, the paper ones, of course, mean even less work. The cloth napkin was an almost indispensable aid to eating in Colonial America. Antique experts say that the napkin was put to good use because forks were unknown and hands had to be used constantly to hold the food.

The word "bath" comes from the Greek word meaning "to drive sadness from the mind." Here is a tip to drive gloom from the minds of mothers faced with getting children off to school in the morning. After they have had their scrubbing, dress the youngsters in spotlessly fresh COTTON clothing.

HUMI-CITE

WHAT IS HUMI - CITE?

HUMI-CITE is a natural liquid soil conditioner which creates humus and helps break down and balance the natural minerals in soil to produce healthy plants. Healthy plants are far less susceptible to insects and diseases.

Most of us know about plant chemistry—we have in years past tried many formulas, some with great success, and some with little results. We are putting our money on HUMI-CITE and believe we have the answer to our plant food needs. We firmly believe the addition of HUMI-CITE

to your plants including COTTON will give the greatest results in lowering damage from diseases and insects. Plant chemistry is just common sense — the same common sense every mother uses to try to give her family balanced meals to produce good healthy bodies. HUMI-CITE is a balancer—a Soil Conditioner which counteracts alkali and salts to per-

mit good germination of seeds planted in our land in Parmer County.

DIRECTIONS FOR USE: HUMI-CITE should be applied to all crops in irrigation water at the rate of 10 gallons per acre. Homeowners will be happy to know it brings marvelous results to flowers, shrubs, fruit trees and lawns. Available in small amounts for home use . . . We also have mineral water for cattle — easily applied in regular drinking water to give cattle all the minerals needed for healthy growth.

Track Meet, Contests Keep Students' Attention

SPRING RELAY TEAM lines up as they will run at Amarillo this weekend. Left to right are: Floyd Reeve, Ranza Boggs, Larry Anthony and Jobey Claborn.

A busy weekend of interscholastic league contests, and a track meet saw Friona high school students bring home an assortment of awards.

Jobey Claborn and Floyd Reeve led the Friona Chiefs in the Amarillo Relays Saturday. Claborn and Reeve made it to the semifinals in 100 yard dash. Claborn took fourth place in the broad jump and first in low hurdles while Reeve picked up a fourth place in the 220 yard dash.

At Canyon Saturday, where the District I-AA Interscholastic League Contests were held, Friona High School had two first place winners.

Mary Lemmond and Dianne Jennings won firsts in the senior girls and junior girls declamation respectively. Joe Ayers placed second in senior boys declamation.

Other Friona students and their placings were Bob Welch, second in junior boys declamation, Bob Sanders, second in extemporaneous speaking; Brenda Deaton, second in extemporaneous speaking for girls, Tommy Roberts, third in poetry reading, Karen Turner, third in typing; and Margaret Hudson, second in shorthand.

Tommy Lewellen won the girls singles tennis championship and the right to advance to regional competition. Dean Nazworth placed third in boys singles, and the doubles entry of Carroll Bennett and Joe Ayers placed fourth.

SHERLEY GRAIN TOURNAMENT BOWLING TEAM that bowled in the State Tournament at San Antonio last week is shown following completion of the tournament. Left to right are Chris Ivy, Levina Brown, Betty Smith, Dimple Hand, Shirley Steinbeck and Earlene Bullock.

Plans Completed For WTSC Rodeo

Plans have been completed at West Texas State College for the T-Anchor Rodeo Club's annual spring National Intercollegiate Rodeo Association rodeo, set to open April 13.

The three night regional meet is expected to draw teams from ten Southwest area colleges and universities to compete in six men's and two women's events. Trophies will go to top teams and best "all round cowboy and cowgirl," and points may be earned for NIRA regional standings.

Teams are expected from New Mexico, State University,

University of New Mexico, Sul Ross, Texas Tech, Lubbock Christian, South Plains Junior College and San Angelo Junior College.

Mr. and Mrs. Ray Dean Fleming spent the weekend in Amarillo visiting with Mr. and Mrs. Don Reeve.

Sherley Grain Bows In State Tourney

The Sherley Grain Bowling team returned this week from San Antonio where they bowled in the State Tournament.

Earlene Bullock led the team with a 552 scratch in Class C. Singles.

The bowlers reported a good time and said they feel some people down that direction have an idea now where Friona and Bovina are located.

"I can't work," complained the husband. "My wife broke a leg."
"What's that got to do with you?"
"It was my leg she broke."

Cotton Quiz

HOW MANY FARMS IN THE UNITED STATES GROW COTTON?

MORE THAN 850,000 FARMS GROW COTTON IN THE 14 COTTON-PRODUCING STATES

USDA Home Economists report that furnishings in the average U. S. farm home in 1959 were worth twice as much in dollar value as those 12 years ago.

"If you criticize the wealthy these days, you may be accused of being anti-labor."

The Hawk's An OK Bird

AUSTIN, April--Of all the predaceous birds, the hawk family is the most persecuted and the least understood, according to Jerome Kasten in his article, "Hawk, Friend or Foe?" in the April issue of TEXAS GAME AND FISH magazine. This includes hawks, kites, harriers, and eagles.

The good these birds do far outweighs the bad. For instance, the major part of a kite's diet reads like the role of the scourge of the land (beetles, moths, locusts, dragonflies, crickets, wasps, caterpillars, and other insects.) Farmers would have a greater appreciation for these birds if they knew of this diet, writes the author. "No excuse can be made for the extermination of kites. They are harmless, helpful, and easily recognizable. Yet, their numbers are ever diminishing in the state."

Kasten's article is taken from a study he made in Texas. His

A Texan touring Italy was shown architectural and artistic masterpieces, but he always countered that the courthouse in Eastland or the murals in the Lubbock postoffice or some other marvel back home was superior.

The guide had saved his greatest spectacle for the last. As they stood on the brink of Vesuvius, the Italian pointed down into the vast cauldron of molten, smoking lava and asked triumphantly, "Have you anything in Texas that will beat that?"

The Texan hesitated only a moment. "Well, I'm not sure. But we have a fire department in Houston that could put the darned thing out in ten minutes."

findings reveal some interesting facts about the hawk family. For instance, the farmer who is lucky enough to have an osprey or two nesting on his land need never worry about other hawks. The osprey never eats poultry and makes a habit of keeping other hawks well away from its nesting grounds. And the sparrow hawk is almost exclusively insectivorous, and therefore a benefactor to the farmer.

"One bad act, such as a hawk making off with a chicken," writes Kasten, "causes many persons to conclude that all hawks should be killed. They fail to consider this same hawk may catch field mice as well. A reduction in the number of hawks will certainly remove one effective check on rodents."

ENGAGEMENT ANNOUNCED—Mr. and Mrs. Thomas Lewellen announce the engagement of their daughter, Tommy Lou, to Gary Christian Goetz, son of Mr. and Mrs. Chris Goetz of Friona. Wedding vows will be exchanged by the couple at the First Baptist Church at 7 p.m. Saturday, June 10. Formal invitations are not being mailed locally, but friends of the couple are invited to attend.

Roberts-Sherley Marriage Announced

Miss Rosamond Sherley, daughter of Mr. and Mrs. W.M. Sherley, presently of Anna, Texas, and Jack Roberts, son of Mr. and Mrs. J.W. Roberts, Friona, were married recently in the First Methodist Church of Littlefield. Rev. Alby J. Cockrell, pastor, read the double ring ceremony.

Home Economics Ex-Students Meet

The annual luncheon meeting of the Texas Tech Home Economics Ex-students will be Saturday, April 22, at 12:00 noon at the Student Union Building on the Texas Tech Campus.

Mrs. Arnold Maeker will present a book review, and a report by the Scholarship Committee will be given. The price of the meal and dues are \$2.50 -- payable at the door.

Officers serving this year are Mrs. Russell Bean, president; Mrs. J.G. Keys, vice-president; Mrs. Billy Phillips, secretary-treasurer and Mrs. Bill Crume, reporter.

Of Interest To THE WOMEN

Bridal Shower Fetes Mrs. Jack Roberts

Mrs. Jack Roberts, the former Rosamond Sherley, was guest of honor at a bridal shower, April 6, in the Fellowship Hall of the Labyrinth Baptist Church.

Decorations were in pink and white with arrangements of spring flowers throughout the hall. The serving table was covered with a lace cloth over pink and was centered with a crystal punch bowl from which Mrs. Raymond Treider Jr. served fruit punch. Assisting her in serving the sand tarts, toasted nuts, and mints were Mrs. Frank Hinkson.

The honoree was assisted in opening her gifts by Mesdames Andy Fuqua and Raymond Treider Jr. Mrs. Jack Smith made pictures for the recent bride.

Hostesses for the event were Mesdames N. M. McCurdy, Ben Foster, Raymond Treider, Joe Frank Paul, Perry Barnes, Jack Smith C. D. Gustin, Raymond Treider Jr., Andy Fuqua, Mae Mahon, John L. Seaton and Frank Hinkson.

Guests registering in the bride's book were Mesdames E. V. Grain, H. L. Ivy, J. L. Ivy, E. L. Clark, Lena Menefee, F. W. Greene, Glenn Scott, J. B. Jennings, Bill Curry, Wesley Barnes, Carrie Withrow, Melvin Treider, Opal Bewley, Leonard M. Smith, Hubert Elliott and Karen Scott.

Also Beverly and Jack Finley Smith of Lazbuddie, Mrs. J. W. Roberts and Mrs. D. C. Herring of Friona, Mrs. G. D. Anderson Jr., of Bovina, and the hostesses. Many who were unable to attend sent gifts.

Miss Sherley who is the daughter of Mr. and Mrs. W.M. Sherley now of Anna, Texas.

and Jack Roberts, son of Mr. and Mrs. J. W. Roberts of Friona, were married recently in the First Methodist Church at Littlefield. Rev. Alby J. Cockrell, pastor of the church, performed the double ring ceremony. The couple are now living in the Sherley home in Lazbuddie.

American Legion Auxiliary To Have Spring Convention

Twenty eight countries are expected to be represented by delegates from 31 Units at the Spring Convention of the 18th District American Legion Auxiliary in Shamrock, Texas, April 29 and 30.

The program will begin with registration at 1 p.m. Saturday at the Legion building. The Auxiliary will have a work shop in the Country Club Building at 3 p.m. featuring the Girls State and County Government Youth Program.

Ladies will be guests at a tea at 4 p.m., courtesy of the Shamrock Unit. Saturday evening activities will be those planned by Shamrock Legion Post.

Sunday, at 9 a.m. the Auxiliary and American Legion will have a joint meeting. The business meeting will be conducted at 1 p.m. Mrs. Otis Aaron of Dallas will be the guest speaker.

All Units of 18th District American Legion Auxiliary are the first of 26 districts in the State to reach membership quota. Special district awards will be presented at the convention.

Mrs. Carol Zetzache is the president of the local Auxiliary Unit 206 of Friona.

Frionans Visit During Holidays

Mr. and Mrs. W.L. Edelman and Mrs. Mary Officer returned home Monday of last week after spending several days visiting relatives. The Edelmans visited in the home of Mr. and Mrs. Von Edelman and children at Dallas.

Other guests in the Von Edelman home were Mr. and Mrs. A.B. Palmer of Houston and Mrs. Frank Andrews III of Albuquerque. The Palmers are Mrs. Edelman's parents and Mrs. Andrews is her sister.

Mrs. Officer spent several days visiting in the home of Mr. and Mrs. Kenneth Poss at Plainview. Mrs. Poss is her daughter.

Jan Edelman, daughter of the W. L. Edelmans, spent the Easter holidays with Judy Nelson in Pasadena, Calif. Miss Edelman and Miss Nelson are roommates at the University of New Mexico at Albuquerque.

Mr. and Mrs. Jesse Sinclair from Littlefield visited friends in Friona Monday evening.

Guests in the home of Mr. and Mrs. W. D. Buske last week were Mr. and Mrs. Neff Turner and Mr. and Mrs. Charles Evans of Abernathy and Mr. and Mrs. B. G. Hughes and sons, Randall Ross and Steve from Lubbock.

YEARROUND—Wear cotton knits for fun in the sun now and for indoor lounging this winter. This awning-striped overbustle and the coordinated pants are styled by Zanzen for comfort and easy care.

Gwen Green - O'Neil Greeson Double Ring Ceremony Unites

In an impressive double ring ceremony, Gwen Green, daughter of Mr. and Mrs. George Green of Friona, became the bride of O'Neil Greeson of Route 3, Friona, in the First Methodist Church Saturday, March 25, at 8 p. m.

Rev. Wallace Kirby, minister, read the wedding vows. A white satin kneeling bench was placed in front of the altar decorated with candelabra and baskets of white gladioli.

Miss Suzanne Taylor sang "Because" and "I Love You Truly" accompanied by Mrs. Dorothy Hough, organist.

The bride was given in marriage by her father. Her gown of white chantilly lace and net was floor length with lace trim in front and back. The scalloped neckline and fitted bodice accented the bouffant skirt. Elbow length gloves complemented the short sleeves. A net veil of illusion fell from a tiara of iridescent sequins and she carried a white Bible topped with a bouquet of white orchids.

Miss Lavana Houlette, Dumas, attended the bride as maid of honor. Bridesmaids were Miss Peggy Taylor, Mrs. Thomas Gibson, Miss Erma Lou Drake and Miss Rose Ann Greeson. The attendants wore identical frocks of lavender cotton satin with high necklines, three-quarter length sleeves and full skirts gathered with cummerbunds. Each carried bouquets of white gladioli with lavender streamers.

Larry Fairchild served as best man. Groomsman and ushers were Nolen Johnson, Joel Landrum, Jim Greeson and Maynard Greeson.

Miss Rita Green was flower girl.

MRS. O'NEIL GREESON

Following the ceremony a reception was held in the Fellowship Hall. Miss Billie Rae McKee and Miss Lotyia Howell presided at the serving table. Guests were registered by Miss Virginia Fulk.

Out of town guests attending were Mrs. Kenneth Houlette, Mr. and Mrs. Harmon Lindley, Mrs. S. J. Greeson, Mrs. Francis Lawson, Mr. and Mrs. Elza Warrick, Miss Phyllis Warrick, Mr. and Mrs. Ivan W. Heaton and Stanley, J. B. Shirley and children, Don Warrick, Lynn Cox, Miss Norma Warrick, Miss Mary Skypala, O. C. Buckmaster and girls, Miss Jenney Roberts and Miss Sharon Newman.

For a wedding trip to points of interest in New Mexico and Colorado the bride chose a suit of baby lamb's wool, featuring a small tailored collar and flap pockets on a hoxy jacket.

The bride and bridegroom are graduates of Friona High School. Mrs. Greeson is employed at the Friona State Bank, and he is employed at Friona Consumers.

The couple will be at home at 408 Ashland in Friona.

Dinner Honors The Trebleaires

Mrs. Herschel Johnson and daughter, Kay, honored The Trebleaires with a dinner Wednesday, April 5, in their home.

Attending were Beth Akens, Janet Smith, Carol Coffey, Jere Buske, Karen Turner, Donna Blackburn, Judy Taylor, Nelda Douglas, Suzanne Taylor, Jimette McLean, LaVoyce Burrow, Sharon Reeve, Mr. and Mrs. Roy Miller, Mrs. Jim McLean, Mrs. John Burrow and Herschel and Joe Bob Johnson.

Third Grade Students Show Creative Ability

Members of a third grade language arts class, taught by Miss Jo Phillips, demonstrated their ability to creative writing in recent themes that were written. Subjects suggestions were placed on the blackboard and each student chose his subject.

"The Mule Was a Singer" written by Rhonda Ragsdale. Once upon a time there was a mule. This mule wasn't just any ordinary mule. Unlike other mules this mule could sing. He went all over the world singing for people. This mule would travel, and travel until he got to the place he wanted to be. Once he went to darkest Africa. He had quite an experience with the natives. He started out with the scale, but when he got to "so" it was quite another matter. The Natives didn't like this sound, and so the chief got up and just stared at the mule for a moment. Then he signaled for people to take him away.

Well, the mule had some ammunition himself. He kicked the 2 people up so high that when they landed they made the ground rumble, and a hunk of Africa fell off, and that is why Africa looks like a part of it is missing. Freddie Bailey wrote "A Tall Tale."

Once there was a man and he was walking down the road and he had to climb a big, big mountain. So he climbed until he reached the top. But there was a big cloud in his way. So he kicked and water came out like a water spout. He laughed and laughed until he was out of laughs. So he kicked it again but he did not laugh because he was out of laughs.

So he cried and cried until he was out of tears. Then he said there is no use crying. Or there is no use laughing. So just always be gay.

Another story was written by David McFarland.

One Monday morning Miss Kate went to the well to get a drink of water. She saw that the well was dry. So she went back into the house and on the way she saw that her flowers needed water or they would die. She also saw that the dog, horse, rabbit, duck, birds, pigs and other pets around the farm wanted a drink.

But she still could do nothing about it. Then she called the giant that kicked clouds into rain. He came right away and kicked a big cloud. It rained and rained and rained. And so the pigs, hens, cows, horses, dogs, cats, ducks, birds and rabbits had rain and so did the flowers.

WAIT !
Don't Buy Any Water Heater Until You've Seen The Finest. **Coleman**

Why glass and stone when many heaters use just one or the other?
TO FORM THE LOGICAL LININGS... because each material is used for its own particular characteristics.

GLASS LINING
Not one, but two thick coatings of waterproof glass cover heating surfaces to prevent rust for lifetime of heater and to give rapid transfer of heat. The logical lining.

STONE LINING
The thick rock lining on the tank wall and top is virtually shatter-proof. Can't rust or corrode. Nothing to chip, crack or craze. The logical lining.

PLUS THESE FEATURES
Fiber Glass Insulation holds the heat in.
Magnesium Anode gives extra protection against corrosion.
"Flue Gas Director" puts more heat into water, speeds heating.
100% Automatic controls and safety shut-off.
Pressure Tested at 355 P.S.I. for maximum strength.

Vern's Views--

closely and feel more urgency to act than if the same thing were happening on the East Coast somewhere.

If any of you local politicians ever want to assure success in a race for any office, I can tell you where to get a sure-fire campaign manager.

My old friend and former boss editor at Bovina, one Dolph Moten showed in the recent senate election that he can swing voters to his candidate, regardless of the handicaps.

Dolph supported Maury Maverick in last week's senate election. Maverick was pretty well ignored out in this section, which went conservative in a big way for Tower and Blakley.

The official vote count for Parmer County showed Maverick strongly, on 86 ballots in fact.

We conservatives ribbed Moten pretty strongly about the showing his man made in the state and even pointed out that under fair conditions, without Dolph's endorsement, probably wouldn't have pulled a hatful of votes in Bovina.

"Were it left to me to decide whether we should have a government without newspapers, or newspapers without a government I should not hesitate a moment to prefer the latter."

—Thomas Jefferson

HOURS ARE 3-5 P.M.--

Hospital Opening Set For Sunday

Preparations are nearing completion for the open house ceremonies that will mark the

Huntley--

Angeles newspapers and also make public apology.

Huntley also disclosed that in 1949 while a member of the CBS Radio broadcasting team, he "invited the hatred of Fagan" by an expose article.

The letter also stated that Huntley enjoys the highest security status with the Department of Defense, Atomic Energy Commission and other government departments. Practically every month, Huntley is subjected to new investigations because of this freedom and cleared over again.

The veteran newsman said his life has been threatened by communists and once in Singapore Huntley's colleague Gene Symonds was beaten to death by communist while Huntley managed to escape.

Concerning the pamphlets, Huntley said "It contains the names of some, who I am sure, either were or are communists; but it is a deliberate kind of blackmail in respect to myself and others."

The Rev. Phillips said he sent his inquiry to Huntley about four or five weeks ago just before the commentator left on an overseas tour.

"I am not ashamed of the intense hatred directed toward me by these sunshine-and-fair-weather patriots," Huntley says. "Some of them seek profit from professional anti-communism. Others are simply misled. But in any case, I am convinced they do a tremendous service in behalf of communism, which they purportedly oppose. They are communism's best agents. Communism breeds on suspicion and mistrust. Communism, in order to capture this nation must first weaken and destroy our institutions including those of due process."

The pamphlet in question is entitled Red Stars are back in Hollywood. Many of the biggest names in show business are listed in it as card-carrying communists.

WITH THE COUNTY AGENT

JOE JONES

All details on the 1961 "Feed Grains Program" should be in the hands of our ASC office manager before long. Enough information has been received to date for you to begin making plans for the '61 crop. Hope each of you was able to make your decision as to whether or not the program will benefit you as soon as you receive your established normal yield. The established normal yield for the county must be in the hands of the ASC before farm yields can be established. This yield had not been received Monday afternoon.

The 20 per cent you divert will enable a lot of you to follow and clean up some of your badly Johnson grass infested land and can also be used to advantage in your wheat program. I suggest you take advantage of the opportunity, if you plan to comply, and eradicate Johnson grass on every acre possible. This is a real opportunity for some of you who were getting behind on your Johnson grass work.

I want to invite all of you to the two meetings planned for next week. The first meeting to be held is the monthly management meeting in the Community Room of the Friona State Bank, beginning at 2 p. m. on Monday afternoon, April 17. Mr. James Murphrey, Farm Management Specialist will be present to discuss "Income Tax Management for the Farmer." Everyone is invited to this meeting.

The next meeting is Wednesday, April 19, at 2 p. m. in the Hub Community Center. This meeting will be on cotton and production and the Feed Grains Program. Mr. Fred Elliot, cotton specialist, Mr. B. G. Reeves, cotton gin specialist, Mr. John Box, extension agronomist and Mr. John Thomas, entomologist, all with the Texas A&M College Extension Service will be on hand to present this program.

Mr. Prentice Mills will discuss the 1961 Feed Grains Program.

Demo Contest Winners Announced

The Parmer County 4-H Method Demonstration Contest was conducted Saturday at the courthouse in Farwell, with 25 entries in the twelve divisions. All demonstrations were conducted by teams except public speaking, which was individual. All first place winners in the contest will go to the district Method Demonstration Contest, which will be held at West Texas State College in Canyon on April 29.

Winners in the various divisions are listed below:

- FARM & HOME SAFETY--junior division**
1st. Patricia Tannahill, Susie Carmichael, Friona.
2nd. Janis Billingsley, Peggy Lesly, Farwell.
3rd. Sherri Tannahill, Karene Milner, Friona.
- 4th. Carolyn Annear, Jill Mims, Lazbuddie.**
5th. Linda Asford, Jackie Seaton, Lazbuddie.
- VEGETABLE PRODUCTION--junior division**
1st. Terry Travis, Roger Patrick, Farwell.
PUBLIC SPEAKING--junior division
1st. Marsha Adudell, Lazbuddie.
2nd. Terri Sue Mabry, Lazbuddie.
3rd. Carolyn Morris, Lazbuddie.

- ELECTRIC--junior division**
1st. Brenda Tanner, Marquita Seaton, Lazbuddie.
ELECTRIC--senior division
1st. Linda Lesly, Linda Gleason, Lazbuddie.
- POULTRY--junior division**
1st. Karen Johnson, Jan Mitchell, Lazbuddie.
- POULTRY--senior division**
1st. Bruce Billingsley, Judy Billingsley, Farwell.
2nd. Katie Blackstone, Marcella Mayfield, Lazbuddie.
- FARM MANAGEMENT--junior division**
1st. Bobby Gleason, Johnny Gully, Lazbuddie.
2nd. David Nelson, Kirby Burch, Lazbuddie.

Planting time is just around the corner so let me remind you we should plant cotton with the soil temperature as the guide instead of the calendar. Get you a soil thermometer and check the soil temperature at a depth of eight inches at 8:00 a. m. each morning. When the soil averages 61 degrees over a 10 day period at this depth go ahead and plant. Your seed will be placed at a depth considerable less than this, but the eight inch depth is the guide to use. The temperature at this depth fluctuates less and tends to have a greater influence on the soil temperature than at a more shallow depth.

It is going to be more important that we hold our stand of cotton this year due to the feed grains program. In the past we have been able to fall back on grain sorghum when we lost our cotton, but this will not be permitted if you cooperate in the feed grains program. So make plans now to get and hold a stand of cotton.

- 4-H Club News**
- Etzie Musil, Parmer County home demonstration agent, gave a demonstration on sweet dough cinnamon rolls to members of the Farwell girls 4-H club when they met on April 10.
- Mary Coffey called the meeting to order, and the 4-H pledge and motto were led by Janis Billingsley.
- A report was given that both teams who entered the method demonstration contest won second places. Peggy Lesly and Janis Billingsley demonstrated "packing a first aid kit," and were presented with a blue ribbon for their efforts, while Reba and Viane Lesly gave a demonstration on "our part in farm management," winning a red ribbon.
- Girls attending Monday's meeting were Janis Billingsley, Reba Lesly, Kathryn Gober, Connie Dennis, Martha Coffey, Mary Coffey, Laura Gray, Viane Lesly, Patty Tatum, Jacque Gast, Vicky Kaltwasser, Peggy Lesly, Gandy Meeks, and Deborah Hargrove.
- Next meeting date for the group will be April 24.

RADIOLOGICAL MONITORING INSTRUMENTS NOW AVAILABLE - Three instruments pictured with men who spent three days at Pampa learning to use them are now available in case of an atomic attack. Jay Sanders, Bob Crozier and Bill Liston, members of the Soil Conservation Service work unit, are now able to measure fallout from an atomic attack.

HD Agent's Gossip

BY MISS ETTIE MUSIL

Wish you could have all seen the remarkable teamwork of the 4-H club boys and girls practiced in the County 4-H Method Demonstration Contest conducted last Saturday.

Can you imagine the high interest of 25 entries in the many different subject groups! This is positive proof that 4-H'ers are interested in far more subjects than cooking and sewing for girls and swine and beef cattle for boys' projects. We do hope each of the other boys and girls will be encouraged by their parents, adult leaders, friends, and on their own interest to enter the Awards Demonstration Contest next year. But don't stop with this year or next year, but try every year.

It was a thrill when several of the boys and girls came up to me to tell me how happy they were to have received a blue or red ribbon. Johnny Gully told me as he beamed over his blue ribbon he won with Bobby Gleason. "And this was the first time I ever gave a demonstration."

Another incident I'll never forget is when Pat Tannahill cried because she and her team mate Susie Carmichael had won first place in the Farm & Home Safety Contest. This is just one of the many reasons we need adult leaders to help the 4-H boys and girls. They are each very interested, but they need encouragement from parents, and assistance from trained adult leaders.

In briefing the afternoon group before the contest I reminded each 4-H member to do the best he and she knew how. Of course, we all have to be gracious winners as well as good losers. This is the purpose of these contests in 4-H. We can't win always, but we should not give up when we lose.

Each winner and all losers seemed very gracious about this or her outcome. I do hope the parents and adult leaders are just as gracious as the boys and girls are since we set good examples for them.

Cotton Production Meeting Scheduled

A joint meeting on cotton production and the new feed grains program is scheduled for next Wednesday, April 19, at 2 p. m. in the Hub Community Center.

Four area agriculture experts of the Texas A&M Extension Service will be present at the meeting, as will Joe Jones, Parmer County Agent, and Prentice Mills, office manager of the Parmer County ASC.

Here is the schedule of activities for the meeting:

2 p. m.--Cotton research work to be conducted in Parmer County in 1961, Joe Jones, county agent.

2:05 p. m.--Cotton fertilization, its application and why.

2:30--Early and late season insect control, John Thomas, extension area entomologist.

3:00--Ginning and quality preservation, B. G. Reeves, cotton ginning and mechanization specialist.

3:30--Weed control and machine harvesting, Fred Elliot, extension cotton specialist.

4:00--The 1961 Grains Program, Prentice Mills.

FOOTSAVING EDUCATION

By James E. Edwards

Why Do Shoes Have Heels?

To assume that our feet need heels one must assume that God gave us a heelbone that is too short. It is hardly a safe-assumption to make. Children get around beautifully in their bare feet. Their heelbones are just as long in winter as they are in summer.

Primitive man had the best reason for wearing heels. He or Mrs. Primitive made his foot covering of skins, as we do, except that the only way they had to tan the leather was to chew it. In no time at all the heel wore through and once it was worn out it was difficult to patch. Some jaw-weary caveman put the patch on when he made the shoe and when the patch wore through he still had a shoe that could be fixed. From that common sense beginning we have drifted upward until we raise the heel of a three year old a half inch, a six year old an inch, and the really stylish shoe for women hit three inches.

One and a half inch heels used to be considered as necessary as a good strong corset. Fortunately young people have their feet on the ground. They wear heels for dress occasions but most of the time they are in their stocking feet around the house. They will miss the exquisite torture of bunions, corns and hammer toes. It is too bad that boys do not go for freedom of feet as the girls do.

Faster, Cleaner Start for Your Crops with a WINPOWER ROTARY CULTIVATOR

Model NV-4 — 15' wide 4 flexible sections

CROSS-CUT ACTION KNOCKS OUT WEEDS

Better Cultivation Pays Off in Yields

The WINPOWER Rotary Cultivator is the best insurance toward a bigger safer harvest. The flexible sections, with offset cross-cut action knocks out weeds, breaks up crust and clods, and saves the moisture for growing crops.

End sections fold up. Coupling is adjustable for close turns. Hitches can be reversed for transport and crust breaking only. Construction is rugged for years of trouble-free service.

Come in and see for yourself how this WINPOWER Rotary Cultivator will make money for you. It's the cultivating tool that gives your crops a faster, cleaner start to the biggest yields ever.

THE HIGH PLAINS FARM AND HOME

700 Farmers Attend Feed Grains Meetings

About 700 farmers, landlords and other persons interested in the new feed grains program, were on hand at two meetings this past week to hear Prentice Mills, Farmer County ASC office manager, explain the new program.

Mills explained how the new program will operate and answered questions of the more than 450 persons who attended Friday's meeting in Bovina and the 250 persons who attended Monday night's meeting at Hub.

Since all of the details of the program have not yet been announced by the Department of Agriculture, Mills dealt mostly in generalities and was unable to answer all questions that arose regarding the program.

One of the key points not yet released is the county average index, from which each individual farmer's average yield will be arrived at.

There have been several rumors via the grapevine regarding the county average, which was to have been decided by the agricultural marketing service, and the most discussed figure has been 4200 pounds.

When official word is received, and when farmers can start signing up for the program, they will be notified by the ASC office and given a certain amount of time in which to decide whether or not to comply with the government proposals.

Mills says that the county index should be released within the next few days, and that farm-

ers should be notified of their individual average yields by next Friday, April 21.

All producers of corn and grain sorghum are eligible to take part in the feed grain program under which the acreage of corn and grain sorghum is reduced at least 20 per cent and diverted to conservation uses.

These conservation uses, as outlined by Mills, will have to be one of the following:

1. Permanent-type rotation cover of grasses and legumes.
2. Temporary cover of grasses, legumes, or small grains.
3. Water storage.
4. Wildlife food or habitat plantings.
5. Trees or shrubs.

6. Cropland in volunteer natural cover or in protected summer-fallow if the county committee determines that the establishment of cover is impracticable within this general classification. The county ASC committee will establish an approved list of conservation practices for this county.

By complying with these conservation practices, on 20 per cent lay-out land, a farmer will be eligible for payment equal to 50 per cent of the normal yield in relationship to the new price support (which on grain sorghum will be \$1.88).

If he lays out 40 per cent, he will be eligible for 60 per cent payment on the second 20 per cent.

As soon as the program is put into effect, and farmers sign up, they will be eligible for negotiable certificates on half of the amount they are to receive for the laid-out acreage.

These certificates can be

cash immediately at the ASC office for cash, or can be used for payment-in-kind of Commodity Credit Corporation grain. No information has been released on when a farmer would be eligible to turn in the negotiable certificates for payment-in-kind.

If a farmer chooses to plant his diverted acreage into one of four soil-building crops—castor beans, safflowers, sesame or sunflowers—he will still be eligible for the price support on grain sorghum or corn but not for conservation practice payments.

Here are some of the other key points that Mills made in regard to the new program: After the county average yield is set, the county ASC committee will pick several farms that are average and they will be classified as 100 per cent. Other farms, depending on what the local community committee decide is the average yield in comparison to the county index, will be set upwards or downwards, and each farmer will be eligible for price supports on only this much grain produced on the allotted acreage.

All grain produced over the amount will be sold on the open market at the market price.

Farmers who had only a grain sorghum base established for the years 1959 and 1960, will not be permitted to grow any corn this next year. Or, if they had only a corn base, and comply with the program, they will not be permitted any grain sorghum acreage.

Mills also stressed that farmers who plan to comply with the program should measure their acreage carefully. The ASC office will not have men available for pre-plant measuring.

When measuring starts, both the idle acreage and the planted acreage will be measured.

If by chance, a farmer's wheat or cotton was hailed out last

A LARGE CROWD was on hand at both the Bovina meeting Friday night and the Hub meeting Monday night, to hear a report on the new feed grain bill, recently enacted into law by congress. This picture, taken at the Hub Community Center, shows some of the more than 250 farmers present at the meeting.

EXPLAINING FEED GRAIN PROGRAM to Farmer County farmers at two meeting this past week was Prentice Mills, county ASC office manager. Here, he points to a chart that explains how a farmer can be eligible for the price support on grain sorghum this year under the one-year emergency program.

year, and he replanted the land in grain sorghum, and submitted this extra acreage in his report to the ASC office, he will have the opportunity to withdraw this acreage from his base. Most farmers will want to do this, it was pointed out, because their laid-out acreage will have to be 20 per cent of their overall base. If they still have the same wheat and cotton allotments for this year, the larger report could cut down on the number of acres of grain sorghum a farmer is permitted to grow.

If a tenant farmer wants to sign up for the program, it will take the signatures of both the farmer and the landlord on the agreement. Negotiable certificates for laid-out acreage will be made to both the tenant and the landlord.

Farmers who have any other specific questions regarding the program are asked to contact their community ASC committeemen.

My ancestors came over in the Mayflower... "It's lucky they did; the immigration laws are a little stricter now."

Meeting On Income Tax To Be Monday

James Murphrey, area farm management specialist, will discuss "Income Tax Management for the Farmer" at a meeting Monday, April 17, in the Friona State Bank building, beginning at 2 p. m. The meeting is being sponsored by the Farmer County farm management committee, and every interested person is invited to attend.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

It seems necessary that we re-state the fact that Farm Bureau opposed every facet of the administration feed grains bill. Farm Bureau did not endorse any part of the bill. Farm Bureau was not responsible for the limiting of production per acre for support payments in the bill.

Farm Bureau proposed a feed grains program formulated by

I Get 5% Dividends On My Money At...
FIDELITY SAVINGS & LOAN
5th at Mitchell PO 3-5581
Clovis, N. Mex.

its membership and made every effort to get it passed, but was unsuccessful, although seven legislators presented the bill. The bill would have limited production of all feed grains, including wheat, to the percentage of acreage determined by the secretary of agriculture to be necessary for production of all feed grains. There would have been no acreage allotments on any of them (nor production allotments). Support prices would have been the average of the preceding three years, but not less than 65% of parity. The floor is the same as that under the administration program.

Farm Bureau has never advocated dropping the farmer from government aid completely and suddenly. Farm Bureau has always, and still is, advocating working toward the

end of orderly marketing programs that will enable farmers to operate with more freedom of choice in the management of their farms. This does not mean that the million and one half and more Farm Bureau members want less income for farmers. They want more, and in sound dollars.

The Farm Bureau Weed Committee held their first meeting of the season the last Monday night of March and laid plans for this year's operation. Interest will grow, as usual, when the noxious weeds get thicker. J. T. Jones serves as chairman of the committee.

CONSIDER THIS: There is a generation, whose teeth are as swords, and their jaw teeth as knives, to devour the poor from off the earth, and the needy from among men. Proverbs 30:14

A PROFITABLE COMBINATION . . .

LIQUID FERTILIZER Applicator-Cultivator

GAUGE-WHEEL DRIVE UNIT—This is just one of the many types of Liquid Fertilizer Applicator-Cultivator units you'll find at your local Liquid Fertilizer Dealer. A highly versatile piece of equipment—with it you can fertilize before you plant, you can rig-up to fertilize and plant at the same time, side-dress and cultivate, and you can even apply insecticides as you cultivate and side-dress. See your local Liquid Fertilizer dealer and let him show you how easy it is to own a multiple-use unit.

THE WORKHORSE—This tank takes the work out of fertilizing. It is loaned to the farmer to haul his fertilizer to the field. Mounted on the tank is a pump and gasoline motor. The nozzle, which weighs about fifteen pounds, on the end of the hose, is the heaviest thing the farmer has to lift when he is loading his Liquid Fertilizer applicator. Why be old fashioned in modern day farming . . . use Liquid Fertilizers and let pumps and motor do the work for you. Liquid Fertilizer is never under pressure and it is not dangerous to handle.
