Rankin to Host Owls Friday Night

Friday night, the Rankin Red Devils will attempt to make it three in a row—Class AA—at the expense of the visiting Big Lake Owls. Rankin defeated Marfa 30 to 8 in their opener and gave the McCamey Bedgers a 31-0 shelling last Friday. In their opener, the Owls defeated Iraan 28 to 6 but lost to the terrors of Crckett County—Ozona—last week to the tune of 33-0.

In years past, the Rankin-Big Lake game has been something

like an Independence Day celebration in Rankin with speeches by numerous dignitaries and much urging of the football team to wallop the daylight out of the Owls. The fact that these tactics in the past have never paid off

Aerial Spraying for Rankin-McCamey

Scheduled this Week

A joint city-county mosquito spraying has been scheduled for Rankin and McCamey sometime this week, according to county and city officials. An airplane out of McCamey has been hired to do the work and application with the Federal Aviation Agency has been made for a permit. This is a formality that allows pilots to fly over towns in their spraying work. Ordinarily, they are barred from such practices.

Weather conditions will determine exactly when the spraying will take place. It will be either early in the morning or late in the afternoon of Thursday, Friday or Saturday of this week.

The chemical used will not be harmful to either humans or animals and it will not be necessary to try to keep it out of the home or avoid direct contact with

the spray. "Big Lake has already had some trouble from the mosquitoes and since the recent rains, they are getting bad in Rankin and McCamey," said county judge Allen Moore. City portable spraying units have been in operation in Rankin but a number of residents still report mosquitoes. This will be the first undertaking to control the pests with aerial spraying and results will be watched closely.

Some recent-year scores between the two squads are:

- 1950: Big Lake 32-Rankin 14
- 1961: Big Lake 8-Rankin 8
- 1962: Big Lake 44-Rankin 8
- 1963: Big Lake 20-Rankin 18
- 1964: Big Lake 33-Rankin 6
- 1965: Big Lake 18-Rankin 8

In the above, it will be noted that Rankin has never scored more than three times in any one game with Big Lake and has a grand total of 62 points for six years or an average of a little over 10 per game.

Expected to be rated about even by most area daily newspapers, the Red Devils have learned that newspaper ratings don't necessarily win football games. Their attitude is that they can take the Owls Friday night.

Junior High Wins: "B" and Junior Play in Iraan Sept. 29th

In their opening efforts against Sanderson last Saturday, Rankin Junior High Seventh Graders played their opponents to a 0-0 tie with neither team seriously threatening the goal line of the other.

Such, however, was not the case for the Eight Grade as they ran about the field for considerable yardage and a 14-0 win over their visitors.

There was no "B" game since Sanderson did not have enough boys out for football in high school.

Next week at 5:30 on Thursday September 29, the Junior High will play their second game of (continued to center sect.)

Mrs. Nix and 30-year Award

Eddins-Walcher Oil & Butane Company honored Mrs. Bill Nix of Rankin with a retirement dinner on Thursday, September 8, commemorating her thirty years of service with the firm—all of it in Rankin. She was awarded a 30-year pendant with the numeral "30" surrounded by pearls and an engraving on the back reading: "Eddins-Walcher 1936-1966, OPAL NIX."

The dinner was held at the Blue Star Inn, Midland.

Mrs. Nix and company president, Mr. Stanley Eddins, are the only personnel who have served continuously with the company since 1936. Sixteen were present at the dinner and the presentation.

Mrs. Nix retired from active service with the Company last May 12.

Rebekah Lodge Sets Sara Coventry Party

Rankin Rebekah Lodge will host a Sara Coventry jewelry party at the Lodge Hall Thursday evening, September 22 at 8 o'clock. There is no charge for admission and the public is invited.

Refreshments will be served and proceeds will go into the Rebekah building fund.

Association. The Mitchells have two daughters, Natalie and Valerie.

Mrs. Mitchell says she is fond of tennis, of sewing and of—naturally—watching football. She says she finds the community to be most friendly.

LETTERS—

This past week, the Scoop received a letter from a reader in which there was a clipping that spoofed LBJ a little. Now the Scoop always appreciates getting letters and helpful articles from readers and is not at all against spoofing Lyndon a bit but the letters must be signed—this one was not—and the articles that happen to be enclosed must be from a source that permits reprints.

In the writing business, if you are so amined, you can copywrite your editorials, news, etc. and make it sorta rough on anyone caught using them without proper authority—like paying. I believe that in this case, the writer has sent a clipping from a column that—despite the fact that it pretends to be a letter to the editors—is a syndicated thing that is not reprintable without permission.

Besides that, the letter had no stamp on it and it cost me 4c to get it out of the post office. It was well worth the price but under the circumstances, it looks like the time to pass.

to task. Sometimes
sometimes not.
rage is over infla-
tioned out that the
does not buy as much
dollar of 1939. My
why 1939? Why not
190 or 1865 or some

such date? The dollar bought a
lot more in those by-gone eras
than it did in even good ole 1939.

Actually, you can pick almost
any date in American history and
compare it with a date some 30
years later and you will find a
considerable difference in many
things—the purchasing power of
the dollar included. What most
of us are saying when we talk
about the value of the dollar in
1939 is that we would like to
make our present wages and at
the same time be able to buy at

1939 prices. Who wouldn't.

It could be that one of the
little ironies of the American
scene is that most of us have
moved into the plutocrat side of
the economic life. Ninety percent
of us were not very well off in
1939. In fact when they talk of
how grand it was in those days
and how much the dollar would
buy, I am reminded that I knew
durn few people who made a
decent living in those days, much
less a prosperous one. We have
a pretty good segment of folk

now living sorta high on the
hog—they would have been con-
sidered rich folk in '39—and they
are beginning to think like and
talk like a J. P. Morgan.

In politics, they are very con-
servative and speak in terms of
not going for this business of
sharing the wealth. Well, I'll buy
that—up to a point. But in A-
merica today—under what many
call a socialistic, shore-the-wealth
society, I would venture to esti-
mate that there are fifty times
more millionaires than there was
in '39 and a vast hoard of people
who have moved from the relief
rolls to the fat side of life. I do
not know of one single big for-
tune that has been ruined in
the United States within the
last thirty years except by its
owners own stupidity. In fact, if
anything, there has been some
pretty hefty bankrolls accumu-
lated by their owners through
transactions carried on with the
Federal government.

No—when you want to knock
the American way—seriously—I
am not your boy. I don't give a
hoot about a man's party affilia-
tion. He can be called a liberal
or a conservative but unless he
believes in and works for the
America that has proven time and
again to be the best all-round
form of government that has ever
come along—and unless he does a
little flag waving on its behalf,
then to me, he's just another two-
bit politician, out to fatten his
own purse and not at all inter-
ested in serving the people who
may elect him. Sure, I get after
Lyndon pretty regular and in-
tend to keep on doing so. I think

we have too much government—
at least for my taste. But I also
think that we will continue to
grow and prosper in this nation
as far into the future as it is
possible to see today. All those
who would sell us short and who
hollar "waf" at every shadow
are not listening to the same
drum-beat as are the vast ma-
jority of citizens.

We will continue progressing—
with social security, with medi-
care, with the poverty program,
with the great society—maybe
not because of them—maybe in

spite of them, but we will con-

Big travel bargains are back on the Santa Fe!

What's the gimmick?

Simple. It's the off-season. From September 15th through
May 15th, you can save up to 20% (sometimes even more)
on round-trip rail fare.

First class or coach, either way it's a travel bargain.
And not just on special days, but any day of the week.
Your return ticket is good for 30 days—on any Santa Fe
train. There's no tax on Santa Fe tickets.

So you see, there's really no gimmick. Just savings. This
time, why not take a vacation on the way? Travel Santa Fe.
And save.

Ask your local Santa Fe agent for full details on Bargain

in most stores.

You may apply new math or the old fashioned—the answer is the same—a tremendous saving.

Many other bargains in wholesome foods may be found by studying your local market ads, your local seasonal surplus.

Potatoes fresh are about as cheap now as they will be this fall. The late summer crop has been harvested. These fresh new potatoes are not cured and therefore will keep only a short time. If a surplus is bought, keep cool, dry and in a dark place. Refrigeration changes some of the starch to sugar and gives them a sweet taste. Good baking potatoes cannot be refrigerated—it makes them sticky when baked.

Freezing is not a safe procedure.

French fries Method (1) Cut the potatoes in 1/4-inch squares. Pre-heat sticks in boiling water for 2 minutes. Cooling: Cool in cold running water. Three Minutes Pack: Pack dry without any water.

Method (2) French Fries:

with

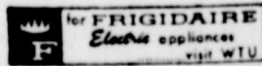

Flameless
electric heating

...the **heart** of total electric living!

Your present electric cooling system may be the basis for adding a flameless electric heating system. If not, West Texas Utilities can put you in touch with Reddy Kilowatt recommended dealers to show you the many choices of electrical heating equipment. Another advantage of electric home heating—economy! During the winter months, when you heat electrically, you only pay WTU's low 1¢ per kilowatt hour rate. After the first basic step of 500 KWH, all the electricity you use for all purposes costs only 1¢ per kilowatt hour plus taxes and fuel adjustment.

Now is the time to get ready for this economical home heating to avoid the rush! Live better and heat better—electrically!

New valuations would not become effective until January 1, 1968. Increasing costs of operation, requests to the Commissioners' Court for improvements, plus the increase in our interest and sinking fund due to the hospital bond issue were the reasons given by the members of the Court for taking this action.

Rankinites Mother Buried on Monday

Mrs. John F. (Minnie) Faught, 78 - year-old mother of Mrs. J. T. James of Rankin, was buried at 2:00 p.m. Monday, September 19. Services were held at the Briggs-Gamel Funeral Chapel in Lampasas with burial in Faught Cemetery in Lampasas.

Born July 31, 1888 at Fredericksburg, Mrs. Faught died September 17 at Santa Anna Clinic Hospital. She had lived in Lampasas, Mertzon and Coleman and was a member of the Primitive Baptist Church. She was preceded in death by her husband to whom she was married on November 3, 1912 in Doss, Texas.

Survivors include four other daughters, four sons, seven sisters, five brothers, thirty-two grandchildren and seven great-grandchildren.

Mrs. Gossett Hosts Exemplar Meeting

The Xi Epsilon Chi chapter of Beta Sigma Phi met Tuesday evening in the home of Pauline Gossett.

Mrs. Alma Adams and De Alva Snell were in charge of the program. As their guest speaker, Mrs. C. B. Davis gave a very interesting talk on the Navajo Indians; their religion, customs and mode of life.

After a short business meeting the chapter planned a trip to the Beta Sigma Phi area convention to be held in Midland on October 1st.

Mrs. Adams won the door prize. Coffee cake and kokes were served to the members and guests by Mrs. Gossett.

ON YOUR OWN TWO

* Being a Column Dedicated to the Proposition that only a Nut would try to predict Football Scores in Advance.

OWL HUNT—

Comes now into the Red Devil barbecue pit, the Big Lake Owls. Locally, there is the feeling that Friday night will be a good one for Rankin. But those who were around back then may recall in about 1955 when the "sports" were turning down Big Lake and 14 points and Rankin was rated a sure thing . . . we went over and they murdered us—by about 35-0.

In football, there are no sure things.

Against the Badgers last week, the Red Devil offense looked like title contenders—at times. The rest of the time they looked like it was their first game—ever.

And it might be pointed out that in commenting on offense and defense in relation to the Red Devils, there is no reflection intended against the team. For all practical purposes, the offense and the defense is the same boys. Last Friday night's game has to be awarded to the defense. They, alone scored more than enough points to have won the game and kept the Badgers in their own end zone all night, making most of the scores come easy—well, fairly easy for the offense. Only one time—on the pass play—did the offense manage to move the ball for much yardage in any one series of downs.

Again, however, this is not intended as a criticism of the Red Devils as a team. As a team, they are a dandy. The fact remains that they are perhaps the best defensive unit ever fielded by Rankin while there has been stronger offensive units. That is at this point in the season. With improvements showing up almost every week, it may well be that when we get down to the end of the row, this may be the best team—period.

It's always interesting to get the area daily papers on Thursday and Friday and see their pickings. In about ninety percent of the selections, Rankin—if they are mentioned—are always set up for a thumping—according to our daily sports writers. There is, however, a rumor about that the Rooster paper in Angelo is going to give Rankin a 50-50 chance of beating Sanderson when we get to that game.

And the Odessa-American. For some five years now when McCamey beat Rankin, the American has always headed their report to the effect that the Badgers won the Upton County championship. What did Rankin get last Saturday morning. No championship.

And as for Dub Day and his of Midland . . . well, who ever said that bunch knew anything about football to begin with.

And as for Dub Day and his cottin picking picking—I don't

tell him how to raise sheep and I'm not going to let him tell me how to pick football games. If I didn't know better, I think he bought off the whole Big Lake team last week in order to get another win out of Ozona. The reason I know he didn't it that county agents don't make that kind of money.

THIS WEEK—

This week is not so easy. There are several that don't figure.

RANKIN 28-Big Lake 12. The Red Devils owe the Owls a good thrashing for past services rendered. Come on bunch, let's not have it said we don't pay our bills.

ROBERT LEE 20-Eldorado 14. This one is tough. Robert Lee is apparently coming on and is going to be a Class A team to watch.

McCAMEY 13-Iraan 12. How's that for sticking your neck out—picking a team to win that has not scored this year? But Ozona beat Big Lake worse than they did McCamey and Big Lake beat Iraan. Right? Maybe.

SONORA 21-Mason 12. One has to stick with the Bronchos until somebody proves him wrong. Mason could do it.

JUNCTION 14-Eden 0. Junction was strong last week against a Mason team that has defeated a Class AAA contender in Fredricksburg.

GRANDFALLS 12-Sanderson 6. Until Sanderson beats somebody, you have to go with their opponents. This may be their day.

JIM NED 14-Menard 13. Who in thunder is Jim Ned . . . but with a name like that for a school they ought to beat somebody.

OZONA 34-Bronte 20. It may not be so easy this time.

ALPINE 21-Ft. Stockton 12 Another toughie but Alpine has the winning habit.

MONAHANS 24-Crane 14. The word still has it that Cane does not but it's hard to believe.

PECOS 18-Marfa 12. Pecos is not strong but they're playing in Pecos.

And if 4th and 10 gets out of that mess with half right, he will promise never to miscount his golf strokes again.

LAST WEEK—

Rankin 31 — McCamey 0
Ozona 33 — Big Lake 0
Crane 21 — Eldorado 7
Stanton 14 — Iraan 14
Eden 18 — Menard 14
Van Horn 19 — Sanderson 7
Alpine 33 — Pecos 14
Mason 26 — Junction 3

Mosquitoes are a major problem in Texas, and conditions resulting from the widespread rainfall have increased their numbers.

These insects are a menace to man and animals alike. They cause farm animals to lose weight through continual biting and

annoyance, and several kinds of mosquitoes transmit diseases such as malaria and yellow fever to man, encephalitis to man and horses, and heartworm to dogs.

Mosquito control can be expensive and complex, but if certain precautions are observed by each individual much of the complexity and expense can be a-

voided.

For the home owner there are three basic precautions that can be used to control mosquitoes.

- (1) Dripping outdoor faucets and leaky pipes should be repaired.
- (2) Puddles resulting from evaporative cooler drainage should

be eliminated and (3) Tin cans and other articles which might trap and hold even a small amount of water should be destroyed. Proper use of insecticides around the farm and home can also be helpful in controlling the pests.
