

# Bank Deposits Set New Record In County

## \$14.8 Million In 3 Banks

A new record in deposits at a "call date" was established by the three Parmer County banking institutions, according to figures released this week by the banks.

According to figures on the three banks' quarterly statements, there was on deposit in Parmer County banks on March 18 a total of \$14,827,095.85.

### FSB Sets New High

The deposit figure compared to that of \$14,317,385.51 reported on December 31, 1962, the last call date, and \$13,478,134.19 for the first quarter's statements a year ago.

That means that bank deposits in Parmer County are up a total of \$1,348,961, or roughly nine per cent over the same time a year ago.

Two of the three banks, Security State of Farwell and Friona State Bank, reported their highest deposit figures on record for a call. The third, First National Bank of Bovina, had its deposits fall somewhat from the last quarterly report, which was a record for deposits there.

Security State Bank of Farwell showed the largest increase, from \$5,416,856.28 at this time last year to \$6,398,495.27. This represented a gain of \$981,638.99 in deposits in the one-year period, or over 15 per cent.

"We were up by about a half million dollars from our December 31 statement," said Bob Anderson, vice president of the bank, who credited sales of farm commodities after the first of the year as being mainly responsible for the big jump.

Friona State Bank went from \$6,718,150.25.

### Calvary Baptist To Begin Revival Sunday

Evangelist Dan Vestal of Fort Worth will lead the Calvary Baptist Church in revival meetings beginning Sunday.

"Rev. Vestal is a much sought-after evangelist of our day. He has averaged 21 revivals a year in eight different states with an average of 1,000 conversions each year in his services," said Rev. Audye Wiley, pastor.

Before he entered full-time evangelism, Vestal was pastor of the LaVega Baptist Church and during the 27 months he was with the church there were 527 additions. During closing another revival meeting, Vestal will not arrive in Friona until Monday so the pastor will conduct the Sunday services.

Clyde Powell, who is music director for the First Baptist Church of Farwell and a science teacher at Farwell High School will lead the singing. Powell at an early age in life contracted polio which affected his throat and at this time he dedicated his life for special service and has since been very active, working with young people and leading the singing for revivals.

Weekday services are scheduled for 10 a.m. and 8 p.m. with Sunday services at the regular time. Each night the church will recognize a special group. Monday night all of the Juniors will be recognized and will furnish the church with special music. Tuesday night all of the Sunday School and Training Union teachers and officers will be recognized. Church loyalty night has been scheduled for Wednesday and a special effort will be made to have all members of the church present. Thursday night will be "Pack the Pews" night and Saturday night is designated as "Good Neighbor Night" when the church will emphasize bringing your neighbor.

The church extends a cordial invitation to the services.

SECTION I

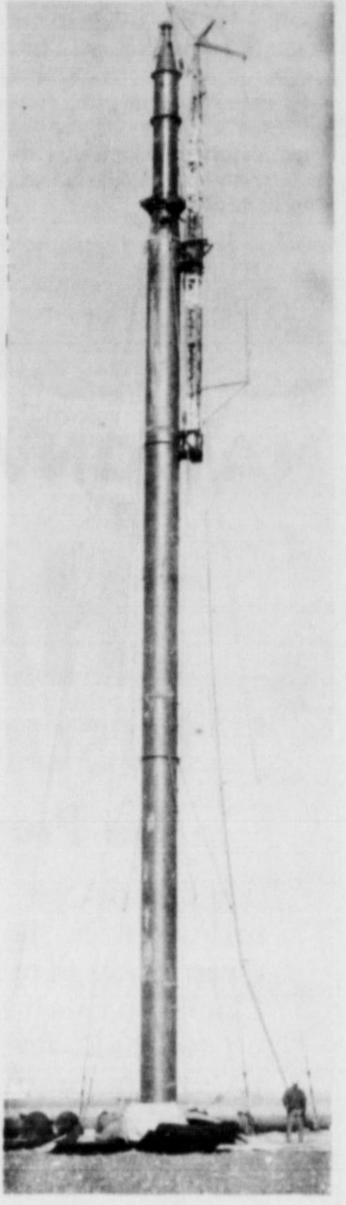

Last week, I stated my belief that drivers of city vehicles should be provided liability insurance coverage by the city. At the time of writing such a proposal, I did not have any real idea of what reaction I could expect from the town populace. I did expect some reaction, both for and against the idea. Instead, all I have heard is a few low mutters as if people are not sure yet whether they want to be for or against such a proposal.

Here is another good reason why I support liability coverage for city drivers: Most residents of Friona own or drive at least one vehicle of some kind. If they do not have sufficient property to post adequate bond, they are required by law to maintain a liability policy in case of accident which may be credited to them.

Now we know that city vehicles are driven in town almost constantly during the day. Chances for a city and private vehicle becoming involved in an accident are not very minor when exposure factor is considered.

BUT, in such a case, unless the driver had seen fit to purchase liability insurance on his own, the owner of the private vehicle would have little or no chance of having the damage to his vehicle repaired except out of his own pocket. -- even if the accident was in no way his.

### Local Girl Is All-State Band Entry

Diana Taylor, daughter of Mr. and Mrs. J. B. Taylor of Friona, won a spot in the state band contests in Austin June 10-11 by winning a division I rating at the regional band contests last Saturday at Canyon.

Diana, a junior at Friona High School, qualified for the state contest by getting a division I rating for her clarinet solo in class I.

Two other Friona students received division I ratings, although they were competing in class II and will not be eligible for the state meet. They are Ann Prewett, daughter of Mr. and Mrs. Lloyd Prewett, with a trombone solo, and Lonnie Ellis, son of Mr. and Mrs. Eugene Ellis, also a trombone solo.

Other high school students who participated in the regional contests, with their ratings included Sharon Reeve, flute solo (III), Merylene Masie, flute solo (III), Mary Lynn Short, clarinet solo (III), Darrell Anthony, trombone solo (II) and Jay Beene, trombone solo (III). Competing in class III, the flute quartet composed of Nan Lillard, Sheryl Long, Merylene Masie and Carol Struve won a division II rating.

Lowell Bynum is high school.

(Continued on Page 2)

TOP BANDSMEN . . . Three members of the Friona High School band made division I ratings at the interscholastic league band contests last week. From the left are Ann Prewett, Lonnie Ellis and Diana Taylor. Diana scored her top rating in class I, which qualifies her for the state band contests later this year.

### MAIN SESSION TODAY

## P-TA District Meeting Underway In Friona

The 40th Annual District 8 Parent-Teachers Association Conference was kicked off last night with meeting of the Board of Managers of the district.

The group convened at the Friona Federated Clubhouse for a dinner meeting, courtesy of the Friona Chamber of Commerce, after which a business meeting of the board was held, working out final details of the conference, which has its main day today.

The conference is being held at the First Methodist Church, Leadership training workshops are to be held from 10 a.m. until 12 noon today. Lunch will be served at 1 p.m. at the school cafeteria. Around 400 persons are expected for the meet.

Mrs. L. O. Mayo of Galena Park will present the state theme after the conference convenes in the afternoon. Mrs. Jay Claborn will give the attendance award as part of the session.

The conference will adjourn at 3:15, followed by refreshments. Another Board of Managers meeting is scheduled following the afternoon session.

At last night's function, Porter Roberts, manager of the Friona Chamber of Commerce, introduced Mrs. Doyle Cummings, local unit president and general chairman of the conference.

Mrs. Cummings presented Mrs. Woodrow Killingsworth of Dimmitt, District 8 president, who in turn introduced the other officers.

Officers attending included Mrs. Ross Ayers, Friona (vice president); Mrs. Sam Singleton, Dalhart (vice president); Mrs. B. H. Rogers, Kress (vice president); Mrs. Melvin Anderson, Amarillo (vice president); Mrs. Glenn Unsell, Amarillo (Recording secretary); Mrs. Helen Richardson, Dimmitt (corresponding secretary); Mrs. Ernest Sheets, Texline.

(Continued on Page 2)

### NEXT SATURDAY

## Schools Set For Elections

The four Parmer County school districts will elect school board officials Saturday, April 6.

Two trustees will be elected at Bovina, Farwell, Friona and Lazbuddie.

Lazbuddie will have the most candidates on its ballot, six, while there will be five at Farwell, four at Bovina and three at Friona.

At Bovina, incumbent trustees M. H. Carson and Grady Sorley are on the ballot, along with Richard Vaughn and Don Murphy. Joe Wilson is up for re-election as county school trustee, commissioner's precinct 2.

Farwell will elect two trustees from among Melborn Jones, Preston Martin, W. D. (Bill) Prince, Sterling Donaldson and James W. (Pat) Patrick. Terms of Clay Henson and Walter Kaltwasser are expiring, but neither announced for re-election. Clyde Mag-

ness is candidate for county trustee.

D. C. Herring and W. M. Masie are up for re-election at Friona, with Charles Howell, a farmer, as the third man on the ballot. J. L. Shaffer is the candidate for county trustee at Friona.

Lazbuddie voters will have the biggest choice. Of the six candidates, Alton Morris is up for re-election.

E. T. Ford is the other board member whose term is expiring, but he did not come out for re-election. Others besides Morris on the Lazbuddie ballot include Hoyt Eubanks, C. W. Bradshaw, Don McDonald, Fred Burch and R. B. Seaton.

At Friona, the election will be held at the primary school building, as opposed to the high school, where it has usually been held.

Voting will be from 8 a.m. until 7 p.m. in each of the elections.

THERE SHE GOES . . . All eyes are on the new water tower project in the northern section of Friona. Construction began in earnest last week, and completion of the tower is expected in a few weeks. This is part of the crew of Chicago Bridge and Iron Company, which is building the tower.

### CRIM'S FORECAST

## 1963's Crop Outlook About Same As In '62

Our weather outlook for Parmer County in 1963 as benefits the crops is about the same as last year, according to J. W. (Indian) Crim, the county's official weather prophet.

Crim made his annual prediction last Friday morning, March 22 at sunup, the first morning after spring's arrival.

"We won't have any general rain -- it will come in streaks, followed by dry spells," Crim said. "But we shouldn't have as many hail storms either," he added.

Crim makes his forecast by observing a burning pile of boards at sunup each year on March 22. He said the steadiness of the wind indicated that there should not be many storms during the year, such as hail storms and tornadoes.

Crim said he expected the current dry spell to continue probably through June. "We definitely won't have enough moisture to planton, so the boys had better keep their irrigation engines in running order," he said.

He commented that it was usually the case that after a dry fall season such as we had in Parmer County, that the drouth would be broken in January. But, this year has been sort of a "freak," Crim said.

The Lazbuddie farmer has been making his traditional predictions public since 1962. "We've been trying to come up with a good prediction moisturewise for the past 12 years," Crim said. It was pointed out that the last ideal crop year as far as moisture was concerned was in 1949, with 1957 coming in as a "fair" year.

Although he's been making his predictions public for only 12 years, Crim has carried on the tradition from his father each year for nearly a half-century.

He said he remembered the annual "weather test" as far back as 1913. "And as far as I know, our observations have never been rained out in those 50 years," he said.

As is customary, the Crims used the occasion for a family reunion. Five of the family's six children and their families were present for the event.

Those present were Mr. and Mrs. Buck Crim, Mr. and Mrs. Max Crim and Mrs. Weldon Crim, all of the Lazbuddie area; Mr. and Mrs. Earl Monroe of Magdalena, N.M., and Mr. and Mrs. Fred Curtis of Farwell.

Another daughter, Mrs. Lovel Johnson of Garland, was unable to attend.

CRIM CLAN . . . Seven grandchildren of J. W. Crim are shown with their grandfather at an early-morning hour on March 22. The Crims gather annually at the home of Mr. Crim near Lazbuddie, where he annually makes his weather forecast for the coming crop year.

# Bank Deposits Set New Record In County

## \$14.8 Million In 3 Banks

A new record in deposits at a "call date" was established by the three Parmer County banking institutions, according to figures released this week by the banks.

According to figures on the three banks' quarterly statements, there was on deposit in Parmer County banks on March 18 a total of \$14,827,095.85.

### FSB Sets New High

The deposit figure compared to that of \$14,317,385.51 reported on December 31, 1962, the last call date, and \$13,478,134.19 for the first quarter's statements a year ago.

That means that bank deposits in Parmer County are up a total of \$1,348,961, or roughly nine per cent over the same time a year ago.

Two of the three banks, Security State of Farwell and Friona State Bank, reported their highest deposit figures on record for a call. The third, First National Bank of Bovina, had its deposits fall somewhat from the last quarterly report, which was a record for deposits there.

Security State Bank of Farwell showed the largest increase, from \$5,416,856.28 at this time last year to \$6,398,495.27. This represented a gain of \$981,638.99 in deposits in the one-year period, or over 15 per cent.

"We were up by about a half million dollars from our December 31 statement," said Bob Anderson, vice president of the bank, who credited sales of farm commodities after the first of the year as being mainly responsible for the big jump.

Friona State Bank went from \$6,718,150.25.

## IN SPECIAL MEETING

### Council OK's Purchase Of New Trash Truck

The Friona City Council, meeting in special session last Thursday night, approved the purchase of a new trash truck for the city, at a total cost of \$7,507.22.

Bids were presented from three local dealers on a truck chassis for a new trash truck and bids from two agents on rear-end loader-packer bodies.

After lengthy discussions as to the needs for an additional trash truck and reviewing all possibilities of the bids along with the merits of the types of equipment, the mayor and city manager were authorized to enter into contract with Calloway Implement Company of Friona for a GMC truck chassis at the low bid of \$2,707.22, and with the Truck Equipment Company of Amarillo for an 18-cubic yard Daybrook Power Packer Body at a net price of \$4800.

The council also passed a resolution inducing summer water rates for consumers of the City of Friona. The new rates, which became effective

March 20 and will be in effect through September 20, are as follows:

From 15,000 gallons through 30,000 gallons; 15 cents per thousand gallons; 30,000 gallons through 50,000 gallons; 10 cents per thousand gallons; and over 50,000 gallons, five cents per thousand gallons.

In other business, the council completed the non-payment contract for disposal of sewage effluent with I. T. Graves of Friona. Other interested parties, Dr. J. G. Morris and Criville Stewart entered into the contract with Graves, the receiver.

Consideration of finalization

#### Deposit Record--

(Continued from Page 1)

\$6,307,398.91 in deposits last March, its former all-time high for a call, to \$6,547,180.73 at present, an increase of \$239,781.82.

The Bovina Bank showed deposits on March 18 of \$1,881,419.85, which was \$121,389.92 below its December 31 figure of \$2,002,709.77, but was still \$127,540.85 more than it had on deposit at the same time last year.

Total assets at the three banks likewise set a new all-time record for the county. That figure on March 18 was \$16,111,987.84, which compared to \$15,456,498.85 on December 31, and \$14,584,075.69 at this time last year.

#### Castin--

(Continued from Page 1)

Think about this for a minute. What if your car was parked at the curb and was sideswiped by a dump truck or some other city vehicle. If you were faced with the choice of fixing it up yourself -- when you were nowhere near the empty car when the accident occurred -- or supporting city financed liability coverage for its drivers, what would you choose? I say insurance -- and I am not in the business and detest the necessity, a necessity it is.

--TH--

### Jaycees To Canvass City

The Friona Jaycees plan to put house numbers on all houses in the city that need them tonight.

Members will begin a canvass of the city at 6:30 p.m. today, and if anyone's house is missed, they are asked to contact any member of the Jaycees. A \$1 donation for each house that is numbered will be appreciated.

At the regular meeting Tuesday, new officers for the year were installed. John Banks was installed as president replacing Ronald Smiley.

Other officers are Jimmy Maynard, first vice president; Billy Nazworth, second vice president; Glen Reeve, secretary and Smiley, treasurer.

Members of the board of directors are Grover Houston, Joe A. Walters, Joe Tongate and C. H. Veazey.

Our six-year-old son listened attentively as his church-school teacher explained how important it is to ask God's blessing upon our meals.

"Mark," she asked, "don't you think the blessing makes the foot taste better?"

"Well, he answered, "it may help some things, but it sure don't do much for stew!"

## Action Needed If We Benefit From Project

Parmer County will have to do some fast work if it is to realize any civic or recreational benefit from the proposed dams to be built on Running Water Draw.

Jimmy Smith, Work Unit Conservationist for the Parmer County Soil Conservation District, says that any plans along this line must be taken care of ahead of time.

According to Smith, this would have to be taken care of in the very near future, possibly by the last of April, if it is to be included in the original plans.

This means that if any part of the county is to develop a particular dam on the draw (and preliminary plans call for three to be built in the county) for recreational purposes or for municipal water, someone or some group needs to co-sponsor the additional size of the structure (dam) which would have to be built.

Under the Flood Control Act, the Federal Government will pay 100 per cent of the cost for structures on watersheds which it approves through the Soil Conservation Service.

For any addition to a structure which the government should plan to erect, private or local funds must pay 50 per cent of the cost for the additional size which will be necessary for increasing the size of the body of water. The Government then would pay 50 per cent of the additional cost.

The only requirement, according to Smith, is that the height be increased at least double of its original specifications.

In addition to paying 50 per cent of the cost for the addition to the structure, the government will also pay half of the costs for such things as roadways, picnic tables, golf courses, or whatever "luxuries" a local community might care to add.

Smith doesn't know what the local "share" for such an installation would cost, but estimates it at around \$50,000.

It will probably be hard to get the communities of the county to get together on sharing such an expense, although it might be well worth it to secure "fringe benefits" from the Running Water Draw project.

So, if anyone has \$50,000 they don't know what to do with . . .

### Absentee Limit Set

Deadline is Friday for voting absentee in the Friona City election, which will be held Tuesday, April 2.

Deadline is next Wednesday for voting in the Friona School Board election, which is set for Saturday, April 6.

Candidates for the three city council positions which are expiring are J. E. Hicks, Joe Talley and Glen Stevick, Councilmen whose terms expire Bill Nichols, Wright Williams and Kenneth Williams.

Those running for school board posts are D. C. Herring, Charles Howell and W. M. Massie, Herring and Massie are up for re-election.

The city election will be held at the City Hall from 8 a.m. until 7 p.m. Tuesday. Nelson Welch is election judge, with George Baker as assistant, Mrs. Rose Lange and Mrs. Ira Holt are clerks.

The school election will be held at the primary school building between 8 a.m. and 7 p.m. next Saturday.

## The NEW Santa Fe Trail

A report on some of Santa Fe's newest milestones  
BY THE PRESIDENT OF THE SANTA FE

In 1963, Santa Fe is investing some 90 million dollars on new equipment and improvements.  
All this money is being used to keep the Santa Fe up-to-date in every way.  
As a matter of fact, so many new and exciting things are happening on the Santa Fe today that some people are calling it "The New Santa Fe Trail."  
Here are just a few highlights of the many improvements.  
• 2548 new boxcars.  
• 500 Mechanical Temperature Control cars.  
• 550 covered hopper cars.  
• 194 double and triple deck autoveyors.  
• 181 flat cars.  
• 58 new diesel locomotives.  
• 24 hi-level passenger cars.  
• 31 semi-lightweight mail and baggage cars.  
• Increasing our microwave communication system to 2084 route miles.  
• Experimenting with new and more efficient freight cars such as compartmentalized cars for automobile parts.  
• Advancing our piggy-back operations to include joint rail-truck rates.  
And we haven't been standing still up until now. We've invested over a billion dollars in progress since World War II. For example:  
• The new cut-off line into Dallas.  
• Major line relocations in Arizona.

• Equipped 3560 new freight cars with "Shock Control" devices for damage-free shipment of fragile freight. (More of these cars are on order.)  
• Equipped 7745 freight cars with roller bearings.  
• Designed and built the first multi-level automobile transport cars—the autoveyors—which are now used by all the major railroads.

To keep pace with changing times and with the rapid growth of the areas we serve, we keep constantly on the move toward a better way to serve you and to strengthen a vital part of our national defense.  
It is our aim to keep the Santa Fe Trail always new.

FOR SQUAWS

# Jennings Leads Season Scoring

Sophomore Annette (Tito) Jennings was the scoring leader for the Friona Squaws, according to final statistics compiled this week. All three starting forwards finished with averages well in the double figures. Jennings edged junior Charlotte Nettles in the scoring average department, with an 18.5 final average to 17.2 for Nettles. Senior Janet Buckley rounded out the top three with a 12.4 average.

Jennings scored the most field goals, 244, and had a total of 634 points, playing in all 34 of the Squaws' regular season games. Nettles, who took most of Friona's free shots on fouls

to Squaw defensive players, scored 549 points, with over half of her points, 277, coming from free throws.

Buckley scored 423 points. Her average climbed considerably after a slow start, and was hurt somewhat by appearing in two games in which she scored six and seven points while not at full strength. In one game, against Stratford, she played only four minutes, scoring six points, but was taken out because of illness. She also played in every game.

Jennings and Nettles came up with the season's high single point total, each scoring 35 points in their high game. Jennings' high score was against Dimmitt in the Happy Tournament finals. Nettles scored her 35 against Tulla in the regional tournament. Buckley's high point total was 27, and luckily for the Squaws also came in the Tulla game at the Region I tournament at Lubbock.

The Squaws, in winning 26, and losing eight, averaged 52.6 points per game, as to 43.4 for their opponents. Their highest score came against Tulla at regional, 82 points. Their lowest score was 31 points in a 41-31 loss at Happy.

Highest number of points scored against Friona also came in the Tulla game in the first round of the regional tournament, 80. Lowest number scored against Friona was 12 by Canyon in the season opener here.

Tulla and Canyon also shared other "highs" and "lows"

TITO JENNINGS

against the Squaws. Tulla scored the most field goals (23), and free throws (34) against Friona by any single team, and Canyon scored the fewest field goals (3) and fewest free throws (5), the latter coming in a game at Canyon.

Friona's high field goal output of the year was 25 against Okton in the Happy Tournament (56-45), and their highest number of free throws scored was in the Tulla marathon, 40 (of 52 attempts).

## DPS Warns Of Sticker Inspection Deadline

The Director of the Texas Department of Public Safety in Austin today reminded the 1,300,000 motor vehicle owners who haven't secured their 1963 inspection stickers that they only have two weeks to do so.

Col. Homer Garrison Jr. said that as the April 15 deadline for inspections approaches, waiting lines will begin forming at the 5,000 official inspection stations.

highways. We hope that through the continued cooperation of the people of Texas, these accidents can be further reduced."

"Under the law there can be no extension of the deadline, and motorists who fail to display the new sticker on and after April 16 are subject to arrest," he said.

Authority for the enforcement of the provisions of the Motor Vehicle Inspection Act is vested in law enforcement officers of the Texas Department of Public Safety, any sheriff or deputy sheriff and any city policeman.

Garrison pointed out that in the remaining weeks of the inspection period, there is sufficient time for the remaining vehicles to be inspected without inconvenience provided the owners act promptly.

"We are very well pleased," he said, "with the contribution that the vehicle inspection program has made toward reducing accidents on our streets and

Mr. and Mrs. Guy Welch and Mr. and Mrs. Gary Welch, all of Abilene, were weekend guests in the homes of Mrs. Nora Welch and Mr. and Mrs. Eugene Boggess and other relatives.

## Students Enter Stock Show

Ten Lazbuddie students entered animals in the annual Fat Stock Show at Plainview this week.

The students are: Glendale King, Jerry Mac Brown, Richard Gordon, Darrell Mason, Johnny Mabry, Gary Eubanks, Mike Burreson, Charlotte Seaton, Thresa Seaton, Linda Gleason.

Scotty Windham is vocational agriculture instructor at Lazbuddie.

## Farwell Hosts Volleyball Meet

The Farwell Junior High School girls basketball team is sponsoring a volleyball tournament for outside teams, both men and women, to be held April 25, 26, and 27. All entries should be returned with entrance fee and names of players by April 12 to James Craig, Farwell Junior High School.

Eight players will be allowed on each team. Trophies will be given to first, second and consolation winners in both men's and women's divisions.

Admission price will be 25 cents each night to everyone, including players. Proceeds

from the tournament will go to buy new basketball uniforms for the junior high girls.

Mrs. Lucy Welch and Mrs. Nora Welch spent Sunday night in the home of their sister, Mrs. Della Allen at Lockney.

Mrs. Otis Neel and Kay attended Abilene Christian College's annual high school day Saturday.

Sam Weir and daughters, Jeannie and Mary, were Sunday guests in the home of his parents, Mr. and Mrs. M. S. Weir.

## Country Club Starts Season

The Friona Country Club will officially open its 1963 golf season with a Scotch foursome Sunday April 7, and will host a West Texas PGA pro-am tournament May 6, according to club pro, Joe Coronado.

The club will announce dates for its city tournament and club tournament at a later date Coronado said. The city meet will probably be the last two weekends in May.

Coronado also issued a request for members who have clubs at the clubhouse without making locker arrangements to please pick them up. He said he had 10 or 12 sets of clubs on hand, which were more or less cluttering up things at present.

## Country Club Meets Friday

Friona Country Club will hold a "games night" Friday March 29, beginning at 8 p.m. All club members are urged to attend.

Card games, as well as dominoes will be featured, according to a spokesman for the Country Club said.

## Chiefs Enter Kress Meet

The Friona Chiefs will enter the Kress track meet this weekend instead of the Amarillo Relays as planned originally.

Those who will enter events include: sprint relay -- David Carson, Bob Welch, S. D. Balze, and Everett Gee. 220-Yard dash -- Gee, Balze and Jerry Parker; 880-yard run -- Dwight Bates, George Rushing; mile run -- Numan Loafman, Ronald Awrey and Eric Rushing.

Shot put and discus -- Max Reeve, Doug Dodd and Dale Milner; high jump -- Milner and Dodd. 100-yard dash -- Gee, Carson, Balze; low hurdles -- Parker; high hurdles -- Wayne Jones; mile relay -- Bates, Renner, Parker, Phipps.

Last week the sprint relay team was fifth in the Panhandle relays. Gee took sixth place in the 100 and 220.

Only about one-fourth of South America ever has been surveyed.

REGIONAL PARTICIPANTS . . . A group of high school students who participated in the regional interscholastic league band contests last Saturday are shown above. Front row, left to right are Sharon Reeve, Nan Lillard, Sheryl Long and Mary Lynn Short. In the back are Jay Beene, Merylene Masste, Carol Struve and Darrell Anthony.

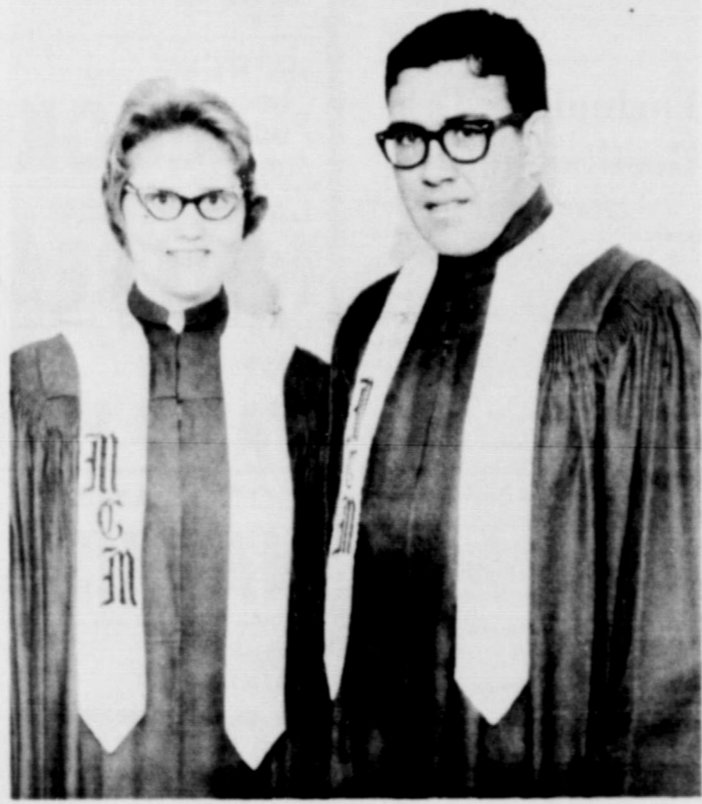

ENSEMBLE ENTRIES . . . Here are two ensembles which entered band contests at Canyon last week. In front is a flute trio composed of Belinda Mabry, Kara Beth Sides and Terri Sue Cummings. In the back is a quartet made up of Sharen Awtry, Kathy Jones, Becky Coffey and Susie Carmichael.

# Deadline For Buying Car License April 1

Parmer County residents are reminded that the last day they will be able to buy license for their cars, commercial and farm vehicles without a penalty is April 1. All licenses must be on such vehicles by midnight April 1. For the convenience of county residents, the assessor-collector office in the Parmer County Courthouse will remain open Saturday, March 30 until 5 p.m. All such license must be bought at the office of the tax assessor-collector. On March 26, clerks in the office of assessor-collector, Lee Thompson, reported a total of 2505 passenger car license sold, commercial tags total 527, and farm vehicle tags 1240. April 1 sales last year were car tags, 3190, commercial vehicle 685 and farm vehicles 1498.

# McMurry Chanters Appear Here

The widely-known McMurry College Chanters, making their annual spring tour, will perform next week at Friona First Methodist Church April 4, at 7:30 p.m., according to the Rev. Russell McAnally, minister of the church. Under the direction of Dr. Richard C. von Ende, chairman of McMurry's Fine Arts Division, the 55 voice choir from Abilene will sing sacred music for worship services and secular songs for high schools along the route of their 900-mile-tour. Among the members of the Chanters is Jimette McLean, Friona High School graduate who is the daughter of Mr. and Mrs. James McLean of Friona. The sacred-music programs presented by the Chanters in the church visits are in five groups. In the first group they will sing "Venite," "Let My Prayer Come Up Into Thy Presence," "Let All the Nations Praise the Lord," "Benedictus" and "Sing to the Lord a New Song." Jerry Spurlin from El Paso will be cantor for "Venite." Three songs in the second group include "Jesus, Now to Thee I Turn Me," "How Shall I Fily Meet Thee" and "Washington." "Glory Be to God," "Nicene Creed," and "Our Father" are the third group. Jerry Spurlin will be cantor for the "Nicene Creed." In the fourth group are "Wonderful Counselor" with solo by Reginald Brown and "Rock-a-My Soul". Men of the choir will sing "In Heavenly Love Abiding" to open the fifth group. Steve Riley will be soloist for "This Is My Commandment" by von Ende and soloists for "Kingdom of God" will be Jane Griffin and John Edwards.

McMURRY COLLEGE CHANTERS . . . Jimette McLean, daughter of Mr. and Mrs. James C. McLean of Friona, and Lyndall Fletcher, son of Mr. and Mrs. Lynn Fletcher of Farwell, will be among the members of the McMurry College Chanters when they sing at the First Methodist Church April 4. Miss McLean is a graduate of Friona High School, and Fletcher graduated at Muleshoe High School.

# Mrs. Vera Day Buried Tuesday

Final rites for Mrs. Vera Day, who died at her home on North Main Street Saturday evening, were conducted at First Baptist Church at 3 p.m. Tuesday. Survivors include a daughter, Mrs. Gereldene Sumerall, El Paso; a sister, Mrs. Annie Lee Hamilton, Dallas; two brothers, T. L. and Lee Miller, Dallas; two half-brothers James V. and Frank Oliver, both of Garland. Burial was in Friona Cemetery under direction of Claborn Funeral Home. Mrs. Day had lived in Friona about 18 years and was the mail carrier for Route 1.

**Skip the sulphur and molasses— get a CHEVROLET SUPER SPORT**

Chevrolet Super Sports\* have a charm that soothes your springtime yen for romantic adventure as fast as you can slip into a bucket seat. (Especially the Impala's, with its adjustable new Comfortilt steering wheel\*) Front bucket seats are a great start, but Super Sports also feature plush all-vinyl interiors, special interior-exterior trim in tasteful touches, and a veritable feast of goodies we call performance options\*. Chevrolet and Chevy II Super Sports invite adventure in convertible or coupe form. That same Super Sport zing applies to the Corvair Monza Spyder, very breezy with its air-cooled 150-horsepower rear-mounted engine, and 4-speed shift\*. Ditto for the new Corvette Sting Ray, a magnificent thoroughbred among pure-blood sports cars with not a single sacrifice in comfort. Both Spyder and Sting Ray come in coupe or convertible styles. All Chevrolet Super Sports are like spring days—you've got to get out in them to savor them. So catch yourself a passing zephyr and waft on down to your Chevrolet showroom.

**YOUR FAIR SHARE...**

Most Texans, we believe, are fair-minded folks. They believe in fair play, square dealing, and mutual respect for personal and property rights. Those who want to take advantage of their neighbors are the exception. Sometimes it may be hard to define "a fair share." This can occur in dividing oil or gas production, when two or more landowners are involved. As we all know, oil and gas don't pay any attention to fence lines. Here in Texas many wells have been allowed to produce more oil or gas than they should have because they were drilled on very small tracts. That extra oil or gas came from under the neighbors' land. Some oilmen made a regular practice of this type of operation. Obviously, one owner got more than his fair share—others, less. People in 26 out of 29 oil-producing states have found a way to divide their oil and gas so that each owner gets what is rightfully his. They simply put their small acreage together and share the costs and income. This system is known as POOLING. Such a system is needed in Texas. It is proposed in a bill now before the Legislature, HOUSE BILL 510. When the neighbors cannot agree, the Railroad Commission would set up a drilling block and see to it that the rights of all owners are protected . . . all costs and proceeds equitably divided. Oilmen who have made fortunes at the expense of others could not be expected to support House Bill 510. They are bitterly opposing it. But the responsible oilmen of Texas are overwhelmingly for it. So are the informed citizens who want to see justice done. Ask your Senator and Representative at Austin to support House Bill 510—so Texas, too, will have a reasonable and legal way to assure to each landowner his FAIR SHARE.

(This ad paid for by Committee for Equitable Development of Texas Oil & Gas Resources, 341 Mallie Esperson Building, Houston 2.)

Some folks are like that . . . but others take good advice and check on their car BEFORE it happens. Check that battery right away . . . drive in and see us.

## A Report From Bill Clayton State Representative 91st Dist.

One half of the time for the regular session of the legislature has been completed and there have been approximately one thousand bills introduced in the House and approximately five hundred bills introduced in the Senate.

The Appropriations Committee of the House, for the first time in recent history, reported the appropriations bill, House Bill 86, to the floor of the House within the constitutionally required sixty days. The House passed the bill after a full day of discussion and debate in its original form and with only nine dissenting votes. This bill meets the requirement of being certified by the comptroller, as being within the estimated income of the State for the next biennium. The Senate has not finished their work on the Senate finance bill, but as soon as they do and it is passed in the Senate, then a Conference Committee of the two houses will be appointed and work can be begun on the final appropriation bill. It is hoped, that if the Senate does not up the bill too much, we can get a final bill within the estimated income.

The various committees continue to meet daily and hear the various bills. As of this time the Labor Committee has not reported a bill for floor debate.

House Joint Resolution 44, which would have frozen the sales tax at the present 2 percent, failed to pass the House. I voted against this resolution because I felt that this left the door open for a State income tax or a corporation income tax, and certainly I do not believe the people of my district want either. I also voted against the bill, and it was defeated, that would have provided for four year terms for members of the House of Representatives. I believe that the Representative is the closest voice the people of Texas have in their State Government, and I believe they should have an opportunity to vote for their representative every two years.

Two of the major pieces of legislation proposed by Governor Connally passed last

## Brown Retires

Senior Master Sergeant Glenn F. Brown of St. Paul, Minn., has retired from the United States Air Force after more than 20 years of active duty. Sergeant Brown, is a former aircraft maintenance supervisor.

Sgt. Glenn F. Brown

or in the 7th Organizational Maintenance Squadron at Carswell AFB, Texas. A veteran of World War II, he has served as crew chief on the C-47 aircraft and as a gunner and flight engineer on a B-29. During the course of his career, he has service tested the B-47 aircraft, and served a tour of duty in Japan.

The sergeant is the son of Edwin E. Brown of 960 Conway St., St. Paul, and is a graduate of Harding High School. He entered the service in February 1941.

He and his wife, the former Euradean F. Scott, and their two children, Lanny and Jerry, are living in Fort Worth. Mrs. Brown is the daughter of Mr. and Mrs. J. Ray Scott of Friona.

"Give special thanks to Almighty God for the bounty which He has bestowed upon our land."  
--President Eisenhower

## Clayton Authors Bill Against Disarmament

Representative Bill Clayton of the 91st district of Texas introduced a resolution in the Texas House of Representatives recently opposing the disarmament policy of the U. S. Arms Control and Disarmament Agency.

The text of the resolution follows:

HOUSE SIMPLE RESOLUTION  
By Clayton and Moyer

WHEREAS, The U. S. Arms Control and Disarmament Agency, created by Act of Congress in September, 1961, has supported and promoted the "U. S. Program for General and Complete Disarmament in a Peaceful World," which could result in complete disarmament in the United States in less than 10 years; and

WHEREAS, History has taught us that peace is only achieved when a free people stay militarily strong; and

WHEREAS, Khrushchev has sworn he will bury us, but he intends to bury our freedom, take our children and place us in slavery; and

WHEREAS, Personal freedoms and economic security can be enjoyed only by those who possess the power to protect their citizens against the invasions of other systems of government; and

WHEREAS, An understanding of the disarmament policy of our Administration, Congress, and the State Department is the most crucial issue facing our citizens today; now therefore be it

RESOLVED, By the House of Representatives of the State of Texas, That the House of Representatives of the Fifty-eighth Legislature wishes to go on record in opposition to the disarmament policy of the U. S. Arms Control and Disarmament Agency; and be it further

RESOLVED, That copies of this Resolution be prepared and sent to members of the Texas delegation in the National Congress and to Vice-President Lyndon B. Johnson as an indication of the views of this House concerning our present disarmament policy as proposed by the U. S. Arms Control and Disarmament Agency.

## Revenue Checks Should Be Properly Identified

Every day the Internal Revenue Service receives unidentified checks. Often, we receive payments with no explanation as to what they are in payment for, Ellis Campbell, Jr. said today.

When this happens, these checks are placed in a suspense account. Every effort is made to identify these payments, but this takes time and additional clerical help -- help which could be used to process refunds. Sometimes the senders of such checks are not located and Internal Revenue has a large number of checks just waiting to be credited to some taxpayer's account.

Campbell has this timely advice to taxpayers sending in checks or money orders in payment of taxes. Attach the bill

The midnight ride of Paul Revere was only one of that patriot's contributions. He cast bullets and cannon during the Revolutionary War, designed and printed the first issue of Continental paper currency, and built the first copper-rolling mill in the United States, according to World Book Encyclopedia.

or notice to your payment. If you do not have a bill or notice, attach a note stating what the payment is for, the year of tax, and the type of tax owed. Please be sure to include your name and address and social security number.

It's also a good idea to keep your money order stub or cancelled checks in case you ever have to verify your tax payments.

## Lazbuddie To Host Schools

The District 4-B literary contests will be held at Lazbuddie High School Saturday, beginning at 9 a.m.

The events will include speaking events, number sense, slide rule, science, ready writing and spelling.

The district athletic events will be held on Saturday, April 6 at Springlake. Schools in district 4-B which will compete in the literary contests Saturday are Hart, Happy, Bovina, Nazareth and Lazbuddie.

James G. Ward, superintendent of schools at Lazbuddie, is district chairman.

JUNIOR HIGH SOLOISTS . . . Friona Junior High students who participated in the regional interscholastic league band contests in the solo division last week are (front, l to r) Joe Murphree (II), Pat Tannahill (II), Linda Stone (II), and David Reeve (II). In the back are Billy Burton (II), Mike Wooley (II), David Smith (I) and John Bill McFarland (II).

## Contract Let For Roadwork In Bovina

A contract for 1.9 miles of construction on SH 86 and FM 1731 in Farmer County has been awarded to a Lubbock firm, it was announced in Austin this week by the State Highway Commission.

James C. Kerr submitted the low bid of \$119,815 on the project. Grading, flexible base, and three course surface treatment from west to east city limits of Bovina and from US 60 to south city limits in Bovina, is expected to take 100 working days, according to O. L. Crain District Highway Engineer at Lubbock.

Rhea Bradley, Resident Engineer at Littlefield will be in active charge of the project while it is under construction.

ENTERPRISE: "If our old Uncle were a private citizen, it isn't improbable that some of his nieces and nephews would be asking that he be declared incompetent and a guardian appointed."

H.

E.

F.

G.

A. The basic black dress will be in vogue this Spring, as modeled by Elizabeth Drager and Mrs. O'Neil Greeson. These two young ladies were featured in the dress-up division of last Friday night's big event. B. From a by-gone era are the clothes modeled here by Mrs. Jay Claborn, Mrs. Glenn Reeve, and (seated) Mrs. Weldon Dickson. The clothing was donated to the style show by the women of the Hospital Auxiliary. C. Tip Nunn and Jeanlene Jarboe take a moment out from modeling in the pre-school division to chat with the bunny rabbit. They are the children of Mr. and Mrs. Bill Nunn and Mr. and Mrs. Tom Jarboe. D. Sister look-alikes are modeled by Tracy and Kathy Horton, daughters of Mr. and Mrs. Hollis Horton. Behind the bunny mask is Mrs. Wesley Barnett who aided with small-fry morale during the pre-school division of the style show.

E. Ready for any sporting occasion are Jan Wells and Sharon Awtry, who modeled attractively in the style show's sportswear division. F. Pert 'n pretty in her Easter frock is Andrea Hurst who modeled in the dress-up division. Her parents are Mr. and Mrs. Andy Hurst. G. Narrator, Mrs. John Fred White, poses here with two members of the decorating committee, Mrs. George Taylor and Mrs. Alton Farr. H. The latest thing in sportswear for tiny tots is modeled by Tammy Williams, daughter of Mr. and Mrs. Dale Williams.

### Courtesies Honor Miss Jana Goodwin

A gift coffee in the home of Mrs. W. A. Finn Jr., 1836 West Avenue D, Muleshoe, and a linen shower in the home of Mrs. Nelson Welch, 1001 Maple Friona, recently were courtesies to Miss Jana Goodwin of Muleshoe, who will become the bride of Gerald Floyd, Friona, April 6.

Hostesses with Mrs. Finn for the gift coffee were Mesdames Roy Jordan, W. O. Stacy, Paul Scott, Douglas Bales, Albert Carroll, W. B. Wagon

Jr., Troy Atkinson, Jack Lenderson, Evelyn Autry, Joe Mack Wagon, A. R. McGuire, Cayle Reed, F. W. Watts, Sherman Sweetman, D. O. Burelsmith, W. O. Casey, and Robert Blackwood.

Decorations were in the bride's chosen colors, A bride and groom surrounded by white and yellow flowers centered the serving table. Assorted fruit breads, fruit canapes, punch and coffee were served by Mrs. Jerry Smith and Mrs. Norman Brantley.

### Club Members Make Plans

Hub Home Demonstration Club met in the Community Room of Friona State Bank Thursday afternoon. Mrs. Jack Shirley, president, had charge of the business session during which plans were made for the District Home Demonstration Convention, which is to be held here April 11.

Mrs. M. T. Hukill, hostess, served refreshments to Mesdames Shirley, John Hand, John Renner, Albert Cannon, A. L. Black, W. H. Long, Leroy Johnson, Paul Daniel, Ted Ingram, T. I. Burleson, Gilbert Wenner, and Buck Fallwell and Julie Ann Johnson and Shirley Wenner.

Mr. and Mrs. Terrell Elliott of Hereford have announced the engagement and approaching marriage of their daughter, Donna Kay, to Teddy Forrest Osborn, son of Mr. and Mrs. Forrest Osborn. Wedding vows for the couple will be read at 8 p.m. Saturday, June 8, at Central Church of Christ at Hereford.

### Shower To Fete Marilyn Brandon

Miss Marilyn Brandon, bride elect of Bobby Neal Fulks, will be guest of honor at a bridal shower and reception in the home of Mrs. A. M. Wilson of Bovina between the hours of 3 and 5 Friday, April 5.

### Marriage Licenses Issued

March 5 -- Douglas Gaines, Friona, and Jeanen Wiley, Clovis, N.M.

March 7 -- Thomas Charles Hartwell, Bovina, and Gwendolyn Otekah Newbrough, Bovina.

March 14 -- Pedro Martinez Ballin, Friona, and Irma Guerrero Florez, Bovina.

March 15 -- Indalicio Benzoa, Dimmitt, and Leonora Rando, Friona.

March 23 -- Richard Lee Ridinger, Texico, N.M., and Kristina McLean, Bovina.

March 23 -- Pedro Quiroz, Jr., Bovina, and Mary Rosa Diaz, Bovina.

### Boy Born To Larry Fairchilds

Mr. and Mrs. Larry Fairchild became parents of a baby boy at Deaf Smith County Hospital in Hereford at 10:30 a.m. Saturday. He weighed 9 lbs., 4 1/2 ozs., and was named Jeffrey Neel.

Jeffery has an older sister, Tammy. His grandparents are Mr. and Mrs. E. L. Fairchild and Mr. and Mrs. Otis Neel. Great-grandparents are W. E. Fairchild, Medford, Okla., Mrs. T. A. C. Brian Sr., Friona, and Mrs. Mattie Neel, Petersburg.

### Mrs. H. Blackstone Hosts Club

The Lazbuddie Home Demonstration Club met March 14 in the home of Mrs. Harvey Blackstone with nine members

and one visitor, Mrs. Herbert Howell, president.

The program, which was presented by Jill Mimms, a 4-H Club member, was entitled "How to Conduct a 4-H Club Meeting."

### Angela Lea Jesko Born Saturday

Mr. and Mrs. Lee Jesko became parents of a baby girl at 10:10 a.m. Saturday at Farmer County Community Hospital. She was named Angela Lea and weighed 7 lbs., 5 ozs.

Grandparents are Mr. and Mrs. James B. Collier, Friona, and Mr. and Mrs. A. J. Jesko, Lazbuddie. Mrs. William Schmitz of Canyon 45 Angela Lea's great grandmother.

During the business session it was voted to send all funds left over from expenses of polio clinics to the Gonzales Warm Springs Foundation at Gonzales, Texas.

Gifts were brought by club members for Vicki Mertel of the Postales Christian Childrens Home. Assistance with Vicki is a club project.

Next meeting of this organization will be March 28 in the home of Mrs. Andrew Brown.

### People Asked For Donations

Various organizations are asking that area residents donate goods for the Nolan Morris family, which lost its possessions in a fire Monday when their home burned.

The Calvary Baptist Church will accept donations of money, clothing, household goods, savings stamps, etc. The family has five children, boys 15 and 8, and girls 9, 11 and 12.

The Black Community House will be open all day Friday to receive donations of clothing and other items. There will be someone at the community house all day to receive the articles.

Claude Millsap, Dimmitt, surg.; Leesa Mercer, Victor Barrera, Odessa Ivy, Mrs. Phillip Cassidy, Sue Barrett, Jo Sharp, J. W. McCarver, Nelson Pearce, Mrs. Margaret Ketchel and baby boy, Arthur Haseloff.

Billie Hammonds, Mrs. Johnny Hand, Evelyn Hart, Edith Blackstock, Mrs. Jerry Northcutt and baby boy, Mrs. Monroe Young and baby boy, Mrs. Bill Lookingbill and baby boy, Bill Hancock, Agnes Mayhew, Ruth Carter, Bessie Wilkerson, Floyd Reeve, Deborah Hawkins, Kim Buske, Wilbur Charles, Dewayne Coker, Erma Stark, Mrs. Lee Jesko and baby girl, Mrs. Jimmy Page and baby boy.

### Hospital Badges Earned By Scouts

Members of Girl Scout Troop 93 have completed requirement for hospital badges. In recognition of work done by these girls in recent weeks they were treated to a trip to Lubbock Saturday.

Lubbock's Girl Scout Troop 176 accompanied local Scouts on a tour of the city after meeting them at the Girl Scout Hut. First stop was the museum on the Texas Technological campus where they were given a guided tour.

From the museum they went to the Student Union Building for lunch. In the afternoon the group visited the new 3 1/2-million dollar library and the planetarium.

Mothers accompanying the Scouts to Lubbock were Mesdames W. R. Riethmayer, troop leader, Lloyd Mings and W. D. Buske.

Girls making the trip were Kelly Barber, Vonnie Brooks, Jenisu Fallwell, Carla Mana, Janet Mings, Sherry Phillips, Maria Ramos, Romalee Rector, Kay Riethmayer and Melva Rule.

Dependable every year... Advance AMAX GOLD TAG HYBRID SORGHUMS

### Class Meets In Clyde Hays Home

The regular monthly business and social meeting of Gleaner's Sunday School class of First Baptist Church was in the home of Mr. and Mrs. Clyde Hays Monday evening.

Mrs. Bill Burton was a special guest. She presented the devotional. Class members present were Marie Roberson, Mrs. John

Wright, Mrs. Ed Hicks, Mrs. John L. Ray, Mrs. L. R. White, Mrs. Grover Goggans, Mrs. Wesley Hardesty, Mrs. J. T. Carroll and Mrs. Spencer Hough.

### Trebelaires Guests In Johnson Home

Mrs. Eva Miller and members of the Trebelaires were honor guests at a supper in the Herschel Johnson home Wednesday evening. Mrs. Johnson and her daughter, Kay, were hostesses.

Others present were Karen Osborn, Sandy Beene, Patsy Hough, Pat Burton, Janell Daniel, Carol Ray, Andrea Milligan, LaVoyce Burrow, and Sharon Reeve.

### FLOWERS ON HIS GRAVE

"See that old woman at the cemetery? Every year at this time she puts flowers on old man Packard's grave." said Sue. "Yes," she explained, "you see, when she was young, with a house full of children, her husband died, and she was about to lose her home. Mr. Packard then loaned her money to save the place."

"But not everyone would show their thankfulness like that," said Sally. How right you are, Sally. Some people don't even show their thanks when someone dies for them. How do we know? Take yourself, for instance.

Jesus Christ died for you. What do you do to show that you are thankful? Don't we all forget about His love?

To help us remember, our church observes Lent, with special sermons and songs about the suffering and death of Christ. It's one way of saying our thanks, and it's also a way of keeping close to God.

Come and worship with us at our next Lenten worship. Immanuel Lutheran Church, Rhea Community, Lenten Worship on Wednesday evenings, 8:00 P.M., Redeemer Lutheran Church (in the Legion Hall) Friona, Lenten Worship on Thursday evenings, 8:00 P.M., Rev. Ervin A. Binger, Pastor

Something To Think About 6th. Street Church of Christ Box 515 -- Friona, Texas

Any effort to walk by sight, instead of faith, is responsible for some of the division that exists in the religious world today. Paul said, clearly and authoritatively for all who accept the Bible, "we walk by faith, and not by sight." (2 Cor. 5:7) A failure to understand what this means has led unbelievers to ridicule the Christian faith as a system of superstition which one is called on to believe for no reason at all; in fact, that he is asked to believe it against reason. Not only has it been misunderstood by unbelievers but also by some who profess to be believers but are trying to walk by sight. Our Lord never asked anyone to believe against reason and evidence that He is the Son of God. On the contrary, He appealed to truth. He appealed to the testimony of John, whom the people accepted as a prophet (Jn. 8:33). He appealed to His works (Jn.8:36); to the Father's witness (Jn.8:37); to the witness of the word (Jn.8:38); and to the witness of the scriptures (Jn.8:39). All these things and many more, testify for Christ. His credentials are presented to men and they are exhorted to examine them closely. When one believes in Christ he is not asked to throw away his reasoning power and accept just anything which claims to be of God, but rather to "Prove all things; hold fast to that which is good." (1 Thess. 5:21)

Eve Braunschweiger, Heather Gordon and Frank Hergert presented lectures concerning their native homelands at the Tuesday evening meeting of Modern Study Club. Miss Braunschweiger is from Switzerland, Miss Gordon's home is in Johannesburg, South Africa and Hergert is from Germany. They are all foreign exchange students.

### Cordelia Parr Feted With Bridal Shower

A bridal shower in Fellowship Hall of First Baptist Church from 2:30 to 5:30 p.m. Thursday honored Cordelia Parr, who became the bride of C. B. Eddins Wednesday.

Hostesses were Mesdames Ralph Price, T. A. Sherley, Ellis Tatum, Ed White, Joe Moyer, G. H. Brock, Fred Dennis, Earl Chester, Ernest England, Sloan Osborn, G. B. Buske, John Burrow, Tom Lewellen, Bee Westbrook, Cayson Jones, I. V. Day, O. B. Moyer, Clifford Crow, Harry Hamilton, Milburn Bennett and Lucy Jones.

An arrangement of red carnations and white stock centered the serving table from which cake and punch were served. Decorations carried out the bride-elect's chosen colors, red and white.

Those attending and sending gifts were Mesdames G. E. Reed, J. O. Latham, George Grove, Ralph Durstine, Dick Habbings, R. L. Duke, Bill Burton, Earl Drake, J. B. Williams, Doyce Barnett, W. F. Buske, Buddy Lloyd, H. H. Lloyd, Wesley Hardesty and C. A. Turner.

Also Mesdames Bruce Parr, Ira Miller, Ira Parr, J. R. Varner, Sam Jones, C. W. Dixon, E. S. Euler, Ed Hicks, Forrest Osborn, T. E. Wood, John Benger, L. B. McClain, L. L. Deaton, Cary Goetz, Sam Williams, W. O. Thompson, Fern Barnett, Bill LaFavers and Pearl Kinsley.

Also Mesdames Maurine Dunn, Buck Fallwell, Glendel Jones, O. F. Lange, Raymond Jones, C. S. Baunum, Frank Truitt, T. E. Lovett, Waymon Wilkins, Mabel Jones, Pat Busby, A. L. Black, Ronny Armstrong, Joe Lewellen, Delton Lewellen, Fred White, Floyd Brookfield, Glenn E. Reeve, Lillie Taylor, Charles Allen and Earl Graham.

Also Mesdames Jack Anderson, Ray Landrum, Joe Talley, Bill Coghill, N. E. Wood, Hop Lewis, L. R. White, Truett Pool, Clyde Hays, Bill Sheehan, Ernest Osborn, Leon Hart, Jimmy Buckley, Edgar Fletcher, W. E. Smith, Johnny Brand, T. I. Burleson, Guy Latta, Granville England, Hayden Cason, Charlie Wise and Bill Flippin.

Also Mesdames Henry White, J. E. Knight, Kate Brookfield, Edgar Carney, J. R. Braxton, A. S. Curry, John Wright, W. S. Crow and J. T. Gee.

LEADS REVIVAL . . . Rev. Dan Vestal, left, and Clyde Powell, right, are to lead in the revival at the Calvary Baptist Church which begins Sunday.

### Exchange Students Present Club Program

Highlight of the Tuesday evening meeting of Modern Study Club at Friona Federated Club House was a program by Evelyn Braunschweiger of Switzerland,

Heather Gordon of Johannesburg, South Africa, and Frank Hergert of Germany.

Miss Braunschweiger resides in Friona and Miss Gordon and Hergert reside in Hereford. These foreign exchange students were introduced by Lilah Gaye Gee.

Plans were made for the family night program, which will be Saturday night. Each family attending is asked by Lauretta Brookfield, Noble Grand, to bring a covered dish.

Announcement is being made that any Rebekah or Oddfellow who wishes to make a contribution to the Nolan Morris family is to leave items at the Pat Patterson home.

Report was of 34 sick visits being made and 26 cards being sent. Addie Moyer served refreshments to the 17 members present.

### Lodge Delegate Gives Report

Mrs. G. E. Reed, delegate to Grand Lodge at Houston, gave a report at the Monday evening meeting of Friona Rebekahs at Oddfellows Hall.

Plans were made for the family night program, which will be Saturday night. Each family attending is asked by Lauretta Brookfield, Noble Grand, to bring a covered dish.

Announcement is being made that any Rebekah or Oddfellow who wishes to make a contribution to the Nolan Morris family is to leave items at the Pat Patterson home.

Report was of 34 sick visits being made and 26 cards being sent. Addie Moyer served refreshments to the 17 members present.

CONTEST ENTRIES . . . These junior high students entered the regional band contests at Canyon last week. In the front are Debbie Hays, Jo Ann Jennings, Judy England and Lou Cochran. In the back row are Karene Milner, Diana Wilson, Kathy Cook, Cindy Ingram and Shirley White.

### Final Rites For Cayce L. Dunn

Funeral services for Cayce Lee Dunn, 55, formerly a salesman for Reeve Chevrolet, were conducted from First Baptist Church in Friona at 10:30 a.m. Tuesday with Rev. Bill Burton, pastor, officiating.

He was born October 21, 1907 at Duncan, Okla. and died at Parmer County Community Hospital Sunday afternoon after an illness of about eight months. Survivors include his wife, Maurine; two sons, Harris of Dallas and Cayce Lee Jr. of the home; one daughter, Mrs. Richard E. Hall, Amarillo, and two grandchildren.

Also two brothers, R. E. Dunn, Rush Springs, Okla., Glenn Dunn, Muleshoe and Byron Dunn, Oklahoma City; and two sisters, Mrs. Bessie Mock and

Mrs. Dora Overby, both of Marlow, Oklahoma.

Mr. Dunn was a member of Friona Masonic Lodge and masonic rites were performed at the cemetery. Burial was in Friona Cemetery under direction of Claborn Funeral Home.

### LOCAL CHURCH SLATES PRE-EASTER SERVICES

Announcement is being made by Rev. Russell McAnally, pastor of First Methodist Church, that pre-Easter services have been planned for April 3, 4 and 5 in the sanctuary.

After a one week vacation it is nice being back on the job and getting into the swing of things. Several persons have asked, "Where did you go?" Since having a vacation usually means going somewhere, the question is not out of place and it is good to know you have been missed.

However, the answer is different. I went home and stayed most of the time and thoroughly enjoyed it. Everyone seems to agree that there is always so much work to be done in a home that it is no place to spend a vacation, but this doesn't have to be the case.

There is such a thing as leaving the work undone until your vacation is over and staying at home has one definite advantage over taking a trip. That is, you don't have to drive until you are completely exhausted getting home in time to go back to work.

Although I was gone last week and didn't get to put in my two cent's worth about the Friona Squaws being in the state basketball tournament, I am real proud of them. Winning third place in a state the size of Tex-

as is quite an honor, but the greatest honor these girls received was the words of commendation from various quarters for being such good sports. Congratulations Squaws and Coach Duggins. You did a good job and we are proud of you and the record you made.

Requests are still coming in for copies of the special section which ran in the Star week before last and which was distributed at the tournament in Austin. Some persons from other towns received copies at Gregory Gym then misplaced them before getting home and have written for replacements.

In the near future there will be a "Country Store" in operation at Oddfellows Hall. It will be possible for residents of the area to purchase many hand made items which will be suitable for home use or for graduation. Mother's Day or special occasion gifts.

Some of the Rebekahs are real gifted when it comes to doing hand work, so those wishing to patronize the "Country Store"

### Sharon Reeve Gains State FHA Degree

Sharon Reeve, daughter of Mrs. Fay Reeve of Friona, has gained the state Future Homemakers of America degree. It was announced this week.

Sharon, senior student at Friona High School, has been an FHA member for four years.

SHARON REEVE

and is president of the Friona chapter this year.

In order to qualify for the state degree, a girl must not only be outstanding in FHA, but also in community and school activities, according to Mrs. Ernest Osborn, FHA sponsor.

Miss Reeve entered her record book, which has to pass certain standards for the state committee. She gained junior and chapter degrees previously.

Sharon is a member of the Future Teachers Association, National Honor Society, Bank of the Treblebats, Rainbow, and is president of her MYF group at the Methodist Church.

Miss Reeve is the fourth Friona girl to gain the honor in the last three years. Last year Beth Akens, Brenda Deaton and

#### In And Around--

(Continued from Page 3)  
will have an opportunity to purchase some beautiful items.

During World War II it was quite a common thing to hear a person from the Deep South talking, but until Monday I had almost forgotten the southern accent.

A phone call came through from Atlanta, Georgia for a representative of a supply house who calls on Plains Publishers. He wasn't here and the operator left a message for him. Before she'd finished the message it was quite evident that she was from Atlanta even before she gave me that bit of information.

Now I'm wondering if Virginia Patton Boyd has been in Atlanta long enough to adopt the native manner of speech. Her mother, Janice, is expecting a visit from the three Boyds, Virginia, Earl and baby son, in the near future, so guess I will have an opportunity to find out.

Friona had a distinguished visitor Monday afternoon, but apparently he arrived without fanfare. In the middle of the afternoon coffee drinkers in Bi-Wize Drug chatted with Cotton John as informally as if he had been a local farmer.

Haven't learned yet what prompted his visit. Perhaps he was just passing through town or maybe Ed Young is his income tax consultant. He and Ed came into the drug store together.

This is merely speculation, of course, but it was good to see this well known radio and television man who travels so much and to visit with him briefly.

Real soon now results of last year's tulip bulb promotion will be visible all over town. The first spring flowers may not be the most beautiful, but they always seem to be. Signs of early spring blooms are visible in yards any where you care to look.

Ask advice, but use your own common sense in taking it.

Mike Welch got the award. The year before Gayle Knight achieved the degree. Prior to that it had been several years since an FHS girl won the state FHA degree.

**FOOTSAVING EDUCATION**

by James E. Edwards

**Why We Won't Compete With Discount Stores!**

Drastic price cuts would prohibit us from giving you the quality products and services you want and have come to expect from our shoe department. For instance:

1. **REPUTABLE BRAND NAMES.** We would not be able to offer you the quality materials, workmanship, and long wear that you get with our carefully selected, established brand names. Likely as not you would end up spending the money you "saved" by buying new shoes more often.

2. **SKILLED FITTING.** You would not have the benefit of the years of experience and knowledge of our skilled, professional shoe fitters. You would be on your own to find your size. Your youngsters would take the brunt of this hit-or-miss fitting, because proper fit now is vital to good foot health in later years.

3. **COMPLETE SIZE RANGES.** There is no such thing as an "average" foot, but a price cut would demand that we stock just a limited number of the so-called "popular" or "average" sizes. Your exact size might not be there.

4. **NEWEST STYLES.** A style selection means a bigger investment, so we couldn't offer you much of a style choice in men's women's, or children's shoes. Our reputation is at stake with every pair of shoes we sell. And that's something we will not gamble away by selling cheap, "bargain" shoes. It makes good sense to us, and we're convinced it will to you, too. May we serve you?

**THE HIGH PLAINS FARM AND HOME**

**Weed Control Conference At Hub Was Well- Attended**

A conference on chemical control of weeds was well-attended at the Hub Community Center last Thursday. The meeting was sponsored jointly by the County Extension Service and the Texas Experiment Stations.

Three representatives from the experiment stations gave the gathering of farmers the latest findings on chemical control of weeds, and pointed up its efficiency and economy over hand labor.

"Farm labor is becoming more difficult to obtain, and in the future it may be necessary to eliminate hand hoeing if we are to continue row crop production," stated E. B. Hudspeth Jr., agricultural engineer with the U. S. Department of Agriculture, Texas Experiment Station, Lubbock.

"The real benefits in eliminating hand hoe labor in the immediate future would be the possibility of lowering the cost of production," Hudspeth said. He pointed out that the use of post-emergence herbicides

offers a good possibility of reducing or eliminating altogether hand hoeing in cotton grown on the High Plains.

"Cotton in 40-inch rows was produced without hand hoeing at the Lubbock station in 1962," Hudspeth said. He said the cotton was planted May 1 and the weeds were controlled with a rolling cultivator from the time of emergence until July 9.

On July 9 a multi-purpose, wheel-type post-emergence spray applicator was used to apply Diuron and a surfactant in a 10-inch band across the drill row. On July 19, the same applicator was used to spray the middles and ten days later a second broadcast application was made.

A cultivator or hand hoe was not used in the plots after July 9. Total cost of the chemicals used throughout the season was less than \$5 per acre, and could have been less, Hudspeth said.

A. P. Wiese, agronomist with the Southwestern Great Plains Field Station in Bushland, dis-

cussed the pre-emergence application of diuron.

In pre-emergence application, rainfall must activate the chemicals. It was pointed out that weather records show that pre-emergence applications of diuron will be activated by rainfall two years out of three.

Under favorable conditions, diuron reduced hoeing costs in weedy fields, and the cost was only about \$1.50 per acre.

Weed control in sorghum has also been studied since 1950 at the Bushland station. Early studies have shown the feasibility of using 2,4-D for broadleaf weed control. Later studies showed that the chemical could most safely be used near sensitive crops when applied in high carrier volume and low spray pressure.

Later trials have shown that propazine is the most promising for a pre-emergence herbicide for sorghum which control both grasses and broadleaf weeds and not be toxic to cotton.

The specialists recommended that good seedbed preparations prior to planting, along with cultivation, rotary hoeing or harrowing, is probably the cheapest way of controlling weeds in sorghum.

In discussing close-row spacing of cotton, Hudspeth said a five-year study had shown that yields averaged 10 per cent higher on close-spaced rows than on conventional 40-inch rows.

"No special difficulties were encountered in the planting and weed control operations, and mechanical stripper harvesting could be adapted to close-row planting," Hudspeth reported.

He said that general observations showed yield increases ranging from six to 25 per cent; lint yield increases as high as 165 pounds per acre. Fiber quality measurements and the results of close-spacing are as yet inconclusive. Fertility and water relationships and the effects, if any,

**Clovis Man Named Conference Prexy Lazbuddie FHA**

New president of the Southwestern Savings and Loan Conference is Lynn L. Martin, executive vice president and director of the First Federal Savings and Loan Association of Clovis, New Mexico.

Martin's election to office was announced last Wednesday night at the annual banquet of the 41st Annual Convention of the Conference in Corpus Christi. Other officers announced along with Martin include: W. Marlon McGough, first vice president, Greenville, Miss.; J. B. Douglas of Tecumseh, Nebraska, second vice president; and Herschel J. Rogers of Brownsville, secretary-treasurer, Robert G. Lake of Pratt, Kansas, is immediate past president of the Conference.

Martin is active in business, civic and religious affairs in Clovis. He is a member of the

U.S. League Committee on Federally Chartered Savings and Loan Association, and is immediate past president of the New Mexico Savings and Loan League.

**Attends Meeting**

By Jan Nowell

The Lazbuddie Future Homemakers of America attended the Area I FHA convention at Lubbock March 16. Gayla Seaton ran for the office of treasurer of Area I, but was defeated in a run-off.

The chapter is very proud of member Mariana Gammon, who will represent Lazbuddie High School in the state chorus in Dallas, one of four altos going from the area.

After the meeting, the girls went bowling before returning home. Mrs. Charley Walton, the chapter's advisor, accompanied the girls on their trip.

Use a curved, pointed grapefruit knife to remove soft-boiled eggs from their shells.

**Harts Buy Bull**

**From Kepley**

Dale and Laura Hart, Friona, have purchased Red Buddy PZ8-2763, a three-year-old bull, from F. E. Kepley, Farwell, Texas.

The new animal is a registered Milking Shorthorn and the record of the transfer of ownership has been made by the American Milking Shorthorn Society at Springfield, Missouri.

TRAINING FUTURE FORECASTERS in the art of forecasting weather the way the Indians did it years ago is J. W. Crim of Lazbuddie. In this case the future forecasters are Crim's

grandsons, who attend the family ritual each year. Crim noted that the smoke was carried almost due north by the southerly wind, promising "no more" rain than we had last year.

## The HAPPY HOMEMAKER

BY JUNE FLOYD

At this time of year most homemakers begin thinking of planting seeds indoors for transplanting later in the season. Several Parmer County homemakers have cabbage plants, tomato plants, pepper plants and several varieties of flowers already growing in boxes and cans.

Annual flowers and vegetables that dislike being transplanted may be sown in individual plant containers or in peat pots. By using these containers and pots it is possible for any gardener to transplant all plants without disturbing the root systems.

Some plants that will profit by using this method are cantaloupes, watermelons, lima beans and some varieties of flowers. Individual containers are quite small and a large number of them may be placed on a small space.

After the tiny plants come up and all danger of freezing is past the container is placed in the soil and there is no shock or set back for the root systems.

Knowing when to plant vegetables and flowers is of utmost importance to anyone interested in growing them.

Some vegetables are called "hardy" because seedlings and small plants will live even if a light frost should occur when they are growing. These are the vegetables you can plant as soon as frost is out of the ground.

In alphabetical order, they are: asparagus, beet, cabbage, carrot, chard, kale, lettuce, onion, parsley, parsnip, pea, radish, spinach, turnip and New Zealand spinach.

"Half-hardy" vegetables, to be planted when danger is a heavy frost is over, include broccoli, cauliflower, celery, endive and kohlrabi.

"Tender" vegetables, which must wait until all danger of frost is past, are bean, corn and potato; while cucumber, eggplant, lima bean, melon, okra, pepper, pumpkin, squash and tomato are "extra tender" and soil temperature should reach 60 degrees before seeds are sown.

Larkspurs are one of the annuals that grow best when the weather is cool, even cold. That's the reason their seeds should be sown just as early as it's possible to do so. It even may be better to sow on soil that hasn't been carefully pre-

pared than to wait for weather which permits tilling.

Certainly larkspurs are among the most beautiful of annual flowers. Their long spikes of bloom in deep or sky blue, pink, red, salmon or white give a lift to the late spring or early summer garden. They are exceptionally good cut flowers and, even when there isn't a bud in sight, the dark green, finely cut foliage is a pretty sight.

Two salads which are tasty and yet a little different are Pineapple-Cottage Cheese Mold and Kidney Bean Salad.

**Pineapple-Cottage Cheese Mold**  
 2 tablespoons gelatin  
 3 tablespoons cold water  
 1 cup pineapple juice or pineapple juice plus water  
 2 tablespoons lemon juice  
 2 tablespoons sugar  
 pinch of salt  
 1/2 cup drained crushed pineapple (9 ounce can)  
 1/3 cup finely chopped celery  
 1/3 cup cottage cheese  
 Sprinkle gelatin on cold water and soak a few minutes. Heat fruit juices, add sugar, salt, and gelatin. Stir until gelatin is dissolved.

Chill until thick enough to hold solid food in place. Stir in the pineapple, celery, and cottage cheese.

Pour into small loaf pan or individual molds.  
 Chill until firm.

**Kidney Bean Salad**  
 2 cups drained cooked or canned kidney beans  
 1/3 cup thin tart dressing  
 1 small onion sliced in rings  
 1/3 cup chopped celery  
 1/4 cup chopped sweet pickles  
 Salt and pepper to taste  
 Mix beans and dressing; chill an hour or more. Turn beans in the dressing occasionally so they will absorb the flavor.

Just before serving, add rest of ingredients. Mix lightly. Season to taste.

Serve in lettuce cups, garnished with slices of hard-cooked egg.

If you haven't tried a Spiced Prune Cake, you have missed an adventure in good eating. Clip the following recipe and add it to your collection:

## Hinn, New Variety Soybean Is Introduced

HALFWAY -- A new variety of soybean was introduced Saturday during the semi-annual meeting of the board of directors of the High Plains Research Foundation.

The new variety, Hinn, was named by Dr. Earl Collister, breeder and developer of the strain, to honor Harold Hinn, chairman of the executive committee and board of trustees. Mr. Hinn has been one of the strongest supporters of the Foundation since before its conception.

Hinn variety has already been approved by the state board of certification. Its development has come about over the past two years at the Foundation by Dr. Collister.

Field production of certified seed will be carried out this year. The Foundation will make contracts with cooperating farmers over the area. The seed will then be turned over to seed companies next year for sales and expanded production.

Because of its charter, the Foundation will not participate in the sales of the seed. Production of seeds this summer will be overseen by the staff, but only for certification and proper cultural practices.

When asked about the seed's characteristics, Dr. Collister said simply, "It's good."

The plant breeder and director of the High Plains Research Foundation stated the Hinn variety virtually does not shatter. The lack of shattering and increased yields will make the Hinn variety superior to the Lee and Hill varieties now considered the only adapted varieties for growth on the High Plains.

Yields by Hinn at the Foundation the past two years have averaged about 45 bushels, Collister said, adding "We've not had good conditions here either year, with hail almost wiping us out in both."

NEW SUB STATION  
 A sub station will be established by the Research Founda-

tion in the Valley this year, with approval being voted at the meeting.

The station will be established between Edenberg and Harlingen. No land is dedicated to the station, but work in flame cultivation, as in the past two years, will be carried on with cooperating farmers of the area.

Don Staggs, recently promoted from field assistant to laboratory assistant, will handle the operations in the valley.

Farmers in the Valley area requested the sub station. Because of the very successful work carried out there the past two winters, they decided they wanted more of the same, so year-round work will now be carried on.

Valley supporters guaranteed complete financial support for all personnel and equipment needed for the work down there.

FIELD DAY SET  
 The Foundation's annual Field Day will be held Sept. 10 this year. It will combine the two field days held annually in the past, the flame cultivation and annual crops demonstration.

REQUESTS GRANTS  
 Among the grants requested for research at the Foundation are one for \$73,400 for a four-year period from the Cotton Producers Institute and one for \$36,000 from the Plains Cotton Growers. It was pointed out at the meeting.

The DuPont Chemical firm has

82.2% NITROGEN

A PRODUCT OF THE SHAMROCK OIL AND GAS CORPORATION

## NITROGEN FERTILIZER

**TIME** The period of greatest utilization of nitrogen by all crops is the 6 to 10 weeks following germination. By the end of that period the die is cast and any deficiency in nitrogen cannot be overcome by later application. The plant and its fruit will reflect that deficiency regardless of how well cared for otherwise. This means that for maximum effect on the quantity and quality of the crop, the nitrogen should be in the soil waiting when the crop is planted, available from the first day the plant can utilize it. There is much to be said for Fall plow-down and side dress applications of nitrogenous fertilizer. But the single most important consideration is that nitrogen be available during the plant's early growth. It means that if you haven't fertilized with a high-nitrogen fertilizer since harvest, it would be wise to do so as soon as possible.

Your Nitromite dealer is ready now to put this profit maker to work in your fields. Call him right away. He has all the information on the Shamrock Farm Credit Plan.

COUNTY AGENT Deryl Coker displays a handful of beet seeds from the 50-pound sack which he received recently from Holly Sugar Corporation. Coker will give the seeds to as many farmers who care to plant some beets on an experimental basis this year.

## Call Screwworm Headquarters When Infestation Is Found

Knowing immediately where every screwworm case in the Southwest is located has become so important to the eradication program that arrangements have been made so livestockmen can call the Mission headquarters collect when an infestation is detected.

When a screwworm case is found, officials would like producers to do two things: (1) collect about 10 worms from the wound, place them in water or alcohol and hold for further instructions and (2) report the infestation to eradication officials by calling collect to Justice 5-1646 (Mission). No telephone call should be made unless a sample is available.

The following information should be available at the time the call is made:

1. Name; 2. Address and telephone number where producer can be contacted; 3. Date when sample was collected; 4. Location of farm or ranch where case was found; 5. Location of wound on animal.

Producers are urged to call day or night, whenever the infestation is found. At night or on weekends, the information will be relayed to eradication officials, who will contact the producer for further information and instruct him to either mail the sample or hold it to be picked up by a livestock inspector.

From the information received, a determination can be made as to the action that is necessary. In many cases, a screwworm livestock inspector will be sent to the premises to pick up the sample and obtain additional information. If the sample is identified as a true screwworm, sterile flies will probably be dispersed in the area.

The key to the system, officials said, is that sample of worms be collected at the time the wound is detected. Without the sample, they won't know whether the infestation was from a screwworm or from some other maggot, similar in appearance and characteristics. Screwworm infestations are now at a minimum, the eradicators said, and through

prompt reporting, action can be taken to prevent the infestation from mushrooming into a large scale outbreak.

to come by the County Agriculture Agent's office in Farwell and secure beet seeds for experimental plots in 1963. Holly Sugar Corporation, which is to begin construction of its \$18 million sugar refinery near Hereford in the next few weeks, sent a 50-pound sack of seeds to the county agent's office, for use by anyone who might want to try them. "For those farmers who have never planted beets, we will try to give them what information we can, although at present we are like most every-

one else -- we are inexperienced in growing beets," said County Agent Deryl Coker.

Coker emphasized that the extension service office would work with Holly Sugar Corporation and the area farmers in keeping farmers abreast of developments regarding signups for acres and so forth.

There will be no limit on the amount of seeds farmers can have -- they may have whatever they care to plant, Coker said.

### FIRST ICE IN TEXAS

Ten cents per pound was the cost of ice in Texas in 1875. That's the year the first ice plant was established in Texas.

Site of this first ice plant is on the present Marion County Court House grounds in Jefferson, Texas, in the North East part of the state.

Later, this ice plant was moved to Harrisburg. Had ice plants flourished more rapidly in Texas, who knows, we might be larger than Alaska today.

### To Trap A Fox

You fox trappers can make more and faster catches by using bacon.

Just place one or more strips of raw bacon on an overhanging limb, or on a pole with cross stick, about three feet above a stump. Set the trap on the stump.

Fox will be caught as he leaps for bacon.

'WE WON'T WASH OFF THIS FIELD, IT'S TERRACED.'

# New Polyethylene Pipe May Boost Water Conservation

Farm and ranch owners who are faced with the problems of water conservation and the need for a more economical method of supplying water to livestock, may find their best answer in a new coil-type high density polyethylene pipe which has been recently field and laboratory-tested and approved by the National Sanitation Foundation, according to A. J. Brumbaugh, agricultural marketing authority of the Southwestern Plastic Pipe Company, Mineral Wells, Texas.

"Polyethylene not only has become one of the most reliable types of water system piping available, but high density polyethylene meets the United States Department of Agriculture requirements for Practice B-8 plastic piping," Brumbaugh stated. "This is a very important factor. It is a comparatively new type of polyethylene, which is made of first-quality basic ingredients. NSF-approved polyethylene pipe can be safely used for drinking water systems, notably in stock watering lines, but it is equally suitable for domestic systems serving the farm and ranch home."

It was also pointed out that one of the principal advantages of using this type of plastic pipe for farm and ranch watering systems is the fact it has a high tensile strength, and generally will withstand even the lowest temperatures. It is resistant to minerals and acids, which sometimes deteriorate metal piping. This means it will not rust or corrode, Brumbaugh said.

"There are a number of other types of plastic pipe on the market today, but for a good low-cost watering system, high density NSF - Approved polyethylene pipe will prove to be a sound investment for any farm or ranch owner," the Southwestern Plastic Pipe official concluded.

A packet of applications bulletins and descriptive information on how to select and install plastic piping for farm and home water systems is offered, without charge, by the company, Brumbaugh said. Address Southwestern Plastic Pipe Company, P. O. Box 340, Mineral Wells, Texas.

### Hinn, New Variety--

(Continued from Page C)

been contracted for a research grant on the company's weed chemicals and herbicides.

The board gave voted permission to the executive committee to sell the land on which the original office building and equipment shed once stood, should a reasonable offer be made. The house would be moved.

Plans for a new steel equipment shed were shown to the board. It is hoped by the board a grant requested from the Clayton Foundation for \$18,490 would pay for the U-shaped structure. A gin building for testing gin unit would also be figured in on the construction.

Present location ideas for the buildings would be near the new Foundation office building.

Delbert Langford pointed out that in the very near future the Foundation would be needing additional acreage to conduct experiments, should requests continue to flow in. "At present we have almost 6,000 plots on the 310 acre farm," he said. "We must have uniform soil conditions for crops, but using various amounts of fertilizers and chemicals and having so many tests, this is hardly possible any more," he pointed out.

Langford said many plots are now being planted on neighboring farms through cooperation of the farmers.

# SPORTS AFIELD

By Ted Kesting

It's true; real landlubbers are rare today. But the sportsman who goes out only in the boats of friends is likely to get just a passenger's viewpoint and, if each friend has a different sort of boat, he may get no real insight into any.

If you have yet to buy your first boat, there is one big, important point to remember: there are rules for good, safe boat buying, rules for any boat buying. You must follow them all; being a beginner is no excuse. Only experts can make exceptions — they alone can figure out a calculated risk.

A boat must be chosen to suit both the waterway it will be run on and the load it will carry; that is the basic consideration you as a first-timer must never lose sight of. Nothing can reveal sheer imbecility better than buying a boat smaller than what the waterway calls for, simply because as is often said, it is easier for a beginner to handle. Only proper size can combat

steep waves, in a powerboat, and it's a genuinely safe bet no waves will ever level down because a novice is out in them.

This does not mean you have to buy a big boat, says Willard Crandall, Boats Editor, Sports Afield Magazine. The waves of the ocean, Gulf and large lakes, such as the Great Lakes, will not offer any problem, for you won't be going out on them. Not only are sheltered waters safer for those getting their experience, but also they afford quicker and more fun-filled chances to get that experience.

Of course, it is quite evident that circumstances vary for any first boat. Sheltered waters are of all kinds: swift rivers, tidal bays, quiet ponds, and so on; and they offer a variety of places on which to keep the boat as well as to run it.

An outboard of about 16 feet is about the most popular boat in America today; it's well-suited to a trailer, to one of intermediate size that's the easiest of all to learn to handle. For a first boat, you're wise to choose something outstandingly popular — since there's obviously less chance of going wrong in view of your inexperience. Besides, a 16-footer is a remarkably versatile boat. It's as good for the fun of family or guest cruising as for fishing.

# Texas-Southwestern Cattle Raisers Re-Elect Officers

All officers were re-elected and five new directors were elected at the 86th annual convention of the Texas and Southwestern Cattle Raisers Association in San Antonio, March 18-20.

Officers are Leo Welder of Victoria, president; Fred Wulf of Brady, first vice-president; Ben Carpenter of Dallas, second vice-president; Joe Clarke of Fort Worth, treasurer; and Joe Fletcher of Fort Worth, secretary-general manager.

New directors elected to the TSCRA Board are William C. Donnell of Marathon, Benjamin Eshelman, Jr., of Corpus

Christi, Jay Pumphrey of Fort Worth, Ray Smyth of Aledo, and Oscar Evans of White Castle, La.

In his report to the convention, President Welder pointed out that membership in the Association stands at an all-time high of 12,562 members and that membership increased more than six per cent last year.

Secretary-general manager Joe Fletcher reported that the

Association, in cooperation with local and state law enforcement officials, developed 214 theft cases during the fiscal year ending February 28. These resulted in 283 years in the penitentiary plus one life sentence being assessed. Of these, probation sentences accounted for 97 years, and suspended sentences, 26 years. Thirteen cases were dismissed, and there presently are 150 cattle theft cases pending.

Fletcher said the Association's inspectors had inspected more than five and one-half million cattle during the past fiscal year. The field inspectors investigated the ownership of 1,535 cattle which appeared to be in improper hands. Of this number, 1,508 head, or the proceeds of same, were turned over to the rightful owners. The ownership of 27 head is still pending. The value of the returned cattle computed at the average price of those which passed through the markets amounts to \$145,779.45.

Fletcher emphasized the value of the Association in preventing cattle theft in these words: "Doubtless, our cattle theft problem would be much greater were it not for the fact that our market inspectors daily send in reports to headquarters describing all cattle sold on

posted markets in Texas, and listing the license number of the vehicle in which they were delivered and other pertinent facts which help in the apprehension and conviction of cattle thieves."

In a featured address, Senator Clinton Anderson of New Mexico said cattlemen in Texas and the southwestern quarter of the United States should have a great interest in every phase of water resources activity. "Serious shortage of water to

sustain growth—yes, to sustain even the present population—now exists in the extreme southwestern corner of the nation, the shortage area, and is moving steadily eastward," he cautioned.

Governor John Connally complimented the cattlemen for their efforts in raising funds through voluntary contributions to be used in the screwworm eradication program and said he was vitally interested in this program.

Dallas was selected as the site for next year's convention.

## Club Entertains Home For Aged

Lazbuddie Future Homemakers chapter visited King's Manor, the Methodist home for the aged at Hereford on March 24.

The girls presented a short program for the residents, and afterwards were taken on a tour of the home. Refreshments of homemade cookies and punch, brought by the girls, were served to the residents, and gifts were presented.

Spinning reels were first used in England, around 1900.—Sports Afield.

Food chains with two or more stores had a sales volume of \$27,535 billion last year, according to Chain Store Age—a gain of 3.8 per cent over the previous year.

## Shorthorn Journal Carries Hart Story

By Dale Hart, Friona, Texas

ON March 23, 1962, we entered our herd of Polled Milking Shorthorns in Performance Registry International, Denver, Colo. This was our first record as ours was the first Milking Shorthorn or any dual-purpose breed to be entered in PRI. So far we have weighed and qualified three calves for PRI certificates.

Hartdale Texas Master WR 22 was weighed and qualified for a PRI certificate on November 9, 1962. He scored our second first for the breed by being the first Milking Shorthorn or dual-purpose animal to qualify for a PRI certificate.

Our three calves to qualify so far are Hartdale Texas Master WR 22, weaning at 249 days of age at 610 lbs. with a 2.45 lbs. per day of age, 217 lbs. of adjusted daily gain, 315 lbs. adjusted 205 day weight. Hartdale Texas Royal, weaning at 245 days of age at 600 lbs. with a 2.45 lbs. per day of age, 216 lbs. of adjusted daily gain, 313 lbs. adjusted 205 day weight.

Our heifer, Hartdale Texas Regina, qualified, weaning at 223 days of age at 500 lbs. with a 2.24 lbs. per day of age, 1.93 lbs. adjusted daily gain, and 466 lbs. adjusted 205 day weight. The PRI standard for heifers is 1.73 lbs. adjusted daily gain and 425 lbs. at 205 days.

Now for the conditions that these records were made under, neither the cows nor the calves had a bite of protein or concentrates. They were just running out and under poor grazing conditions much of the time at that. They were grazed on over-grazed native grass, stalk fields, cot-

ton fields and what have you, just out roughing it. Also, the cows had two calves on them for about the first three months to take care of the extra milk.

Even under these conditions our calves made better gains than the average of the beef breeds where the calves were creep fed and the cows caked.

David McVey, our Friona Vocational Agriculture teacher, who certified our test was very surprised at our records. He said that these gains were as good or better than many of the club calves that were being fed out for the shows, they being on nurse cows and a very high grain ration.

Also, the county agent was very impressed with these gains. What would the gains have been under irrigated pastures, supplemental feeding of the cows, and creep feeding such as many of the registered beef breed calves were receiving while on test?

Some of the aims of PRI are to measure "growth-ability" rate of gain, efficient conversion of feed to meat, desirable carcasses, the searching out of superior herd bulls and brood cows and many others.

Our two bulls were also entered in our own Gain Registry program. Yes, we think we have a true dual-purpose breed.

(Editor's note: This article was featured in the March issue of the Milking Shorthorn Journal, a copy of which was sent to Parmer County Newspapers by Ray Schooley, managing editor of the Journal.)

TEXAS Betty Crocker Home-maker of Tomorrow is Mary Lois Wilson of Abilene Christian high school, Abilene. She will receive a \$1,500 scholarship from General Mills for gaining the highest score in the state in a written home-making examination.

# OUTDOORS IN TEXAS

By—Vern Sanford

Lake Travis is that long one in the Highland Lakes chain that stretches from Austin far back into the Hill Country of Central Texas. Lake Buchanan looks bigger on the map because it's wider, with a sort of tadpole shape. But—Lake Travis is stretched out more like an earthworm and it's really BIG in the statistics department. Mansfield Dam, which backs

up 42,000 surface acres of Lake Travis water, is 270 feet tall and 6,810 feet long. The huge lake is 65 miles long—but never gets much over three miles wide. Travis, like a worm in action, is no straight line. Travel the length of it in a boat, and at one time or another your bow will be headed in every direction of the compass. And no telling what kind of water activity you'll see around the next bend. It could be any recreation

from boating and skiing to fishing and skin diving. For that matter there's a variety of outdoors sports ashore too, ranging from horseback riding on the dude ranches to barbecuing in the public parks. One of the newest attractions is Highland Lakes Marina, located at Volente (Dodd City). This is a showplace of gaily colored steel and aluminum docks, specially designed to satisfy every whim of boaters. The Marina can accommodate 125 boats. It is located at the mouth of Big Sandy and is constructed so as to provide a break-water and insure a calm surface even when the lake outside is rough. Facilities include a swimming pool, cafe, fishing lounge, fuel dock and a ship's store. Stairway leading to the slips is mounted on pneumatic-tired wheels. As the docks ride up and

MAKING HIS ANNUAL weather prediction as concerns crops in the area for the coming year is J. W. (Indian) Crim of Lazbuddie, as the sun peeped over the horizon the morning of March 22, Crim studies the flames from the burning pile of

lumber, and checks wind direction in determining whether it will be a wet year or dry. "About like last year," was the verdict.

If the motor won't stay in gear, or won't shift smoothly, normally the "clutch dog" is the part at fault. After testing the motor (always run one ten minutes or more to allow for normal heating), remove the protective cowling and examine each part individually. First look for cracks, especially in cylinder heads and block. If either of these parts is faulty, the motor is in poor condition and should not be purchased. Replacement of either is an expensive operation. Foot and hold brackets (the parts that attach to the boat transom) are other pieces where cracks are apt to show up. Occasionally the foot may receive a severe operational jolt against some submerged obstruction, causing it to crack. Also the twin holding brackets, subjected to continuous vibration and sometimes severe knocks when the motor is laid to rest on the transom, often become cracked. Check the gasoline tank for dents and be sure there is no leakage at these depressions. On large motors examine the electrical starter and connections. Make doubly sure the generator is functioning properly. Work the starter cord several times. If the motor is in acceptable running shape, it should kick off on the first or second yank of the cord. If you can't afford the price of a new outboard, don't be afraid to invest in a second-hand unit. Just be sure you get what you pay for. How good a motor you get depends largely on how much you are willing to pay. To double-check a second-hand motor is only a matter of being sure of what you are getting for the price you are asked to pay. This is that time of the year when people who don't have a boat get the years. And those who have a boat want a new one! So, whether you're a boat owner or an owner to be—read on. We want to tell you about the newest sensation to hit the Texas market. It's not a large boat—in fact only a little over 13 feet in length. Big enough for a small family outing—yet small enough for ideal lake fishing. And it can be used for skiing if equipped with a 25 h.p. or larger motor. (Actually, it'll take a 40.) So, it has a three-fold usefulness—family, fishing, and skiing. What appeals to everyone is its unsinkable features. You can saw it in half, right across the middle, from gunwale to gunwale, and she'll still float. Now you know we're talking about the new Boston Whaler. At least you do if you've seen the demonstration pictures which show a man at the bow rowing off with the fore part of the boat, while another cranks up the motor in the stern and speeds away with the aft portion. Reason it's non-sinkable is this—it has an outside and an inside hull. Between the two is four (4) inches of liquid polyurethane foam flotation. Flootation is not just in the bottom either. It extends two inches thick up the sides. With the Boston Whaler, the flotation is poured in, in liquid form. When the liquid cools, it solidifies, and expands . . . to fill all the space between the two hulls. This helps strengthen the boat as well as keep it afloat. Ever forget to re-insert the drain plug in your boat . . . and have it sink while launching? Ever have rain fill your boat 'til it sinks? These things do happen! But not with the Boston Whaler. Its great buoyancy will keep it afloat even if both drain plugs are out—and a heavy motor hangs on the transom. Smooth riding is assured with the Whaler's triple-V-bottom—which also makes it virtually impossible to tip over. Great for swimmers—wonderful for skin divers! And what a boat for children! All in all it's a beautiful, practical rig. Seldom do you find a boat so ideally built . . . designed efficiently for the fisherman, the skier, and all around family use. But here's one that all can use and all will enjoy. Only a few Boston Whalers are to be seen on Texas waters—as yet. But they are beginning to appear here and there. Wherever one is found, you'll find an admiring crowd gathered around it.

# New Fertilizer Plant For Plainview

Plainview has been selected as site for a new fertilizer manufacturing plant. The site was secured through Leroy Elmore, Lubbock realtor and land development specialist. The facilities will be capable of producing 250 tons per day of sulfuric acid, as well as a complete line of dry, pelleted fertilizers which company officials describe as being especially well suited for improving crop production in the Southern Great Plains area. Anhydrous ammonia will also be sold for direct field application.

The chemical complex will manufacture anhydrous ammonia, ammonium phosphate, super-phosphate, ammonium sulfate and other industrial chemicals. In addition, a sulfuric acid manufacturing plant will be included as a subsidiary to the fertilizer production. This plant will have a capacity of 250 tons of sulfuric acid per day.

This is the second fertilizer manufacturing plant to announce building plans on the High Plains in the past two months. Another plant for making anhydrous ammonia will be built at Dimmitt this year. Completion of the new \$6.5-million plant is expected by Best Fertilizer officials to be somewhat late this year. Upon completion the plant will be capable of producing 200,000 tons of chemical fertilizers and industrial chemicals annually.

Equipment and machinery have been ordered and construction will begin in about 30 days. Credited with coordinating Best's location in Plainview are four members of the Plainview Chamber of Commerce: J. M. Collins, Chairman of the Industrial Development Committee, Mayor M. B. Hood, Hall Nall and J. B. Wheeler.

The Best Fertilizer Company of Texas announced Monday of its taking option on a 119-acre tract of land northwest of town, on the Dimmitt Highway. The plant will use only 50 acres of the tract, however.

The Best Fertilizer Company of Texas has headquarters at Houston. Operations are directed by R. C. Dellinger, President. Kenneth Winborn is Vice President of Sales. The company markets its products throughout Texas and surrounding states through distributors and applicator-dealers.

Paul Lowry is Sales Manager for the West Texas area, and Dr. Gaylord Haynes is in charge of the upper Panhandle and Oklahoma. Haynes is especially well-known for his work with Oklahoma State University where he did extensive work on increasing crop production through the proper use of fertilizers.

The Disappearing Indians, Texas once had 46 principal tribes of Indians, ranging from the Ais (who lived along the Brazos and Colorado Rivers) to the Xarambe, who lived where San Antonio now stands. The only tribe left is the Alabama Coushatta. They live on a 1,280-acre reservation in Polk County and have since 1928.

# Beef, Pork Are Featured On April 'Plentiful' List

April will be a good time to eat "high on the hog," both literally and figuratively. Texas consumers also may well choose the better cuts of beef, because both pork and beef are on the nine-item April list of plentiful foods, reports the Texas Agricultural Extension Service.

The list features pork and carrots, as April supplies of each promise to run far above usual trade needs. Beef rates a spot on the list for the first time in one and one-half years. Prices on both pork and beef are noticeably lower than last winter. Also plentiful are milk, eggs, potatoes, peanuts and all peanut products, including peanut butter, canned freestone peaches and canned ripe olives.

The monthly list is prepared by the Agricultural Marketing Service, a part of the U. S. Department of Agriculture, in cooperation with producers, processors and the food trade. When supplies of any food exceed expected demand, it is eligible for official listing as plentiful.

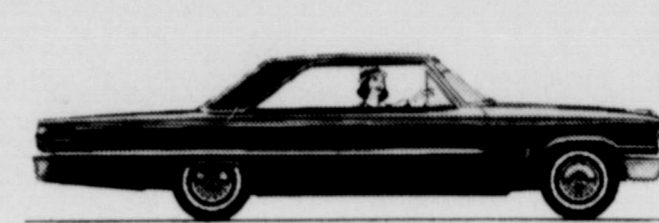

Distributors and retail grocers cooperate in the Plentiful Foods Program by providing special promotions, including lower prices on many items. Extension home economists suggest that consumers will find it to their advantage to serve plentiful foods often, as foods in abundance usually provide economy, ready availability and wide choice in quality.
