SECTION 1

FOUR CHAMPIONSHIPS

Lazbuddie, Friona Take Hereford Show Honors

Those of you who haven't noticed will have ample opportunity to see my present from the Friona Chieftains. The team surprised us at the school assembly last Friday by making us an "honorary letterman" of sorts and presenting us with a letterman's jacket similar to the jackets received by the coaches.

Coach Don Light remarked that the team wanted me to be "properly attired" while covering athletic contests at Friona High School.

That's why we say that everyone will have ample opportunity to see me in the jacket. I plan to make it a "good luck charm," and will try to never be seen at an athletic contest without having it on.

Truly, it was a much-appreciated gesture, and to all who had anything to do with it, we offer our humble thanks. Our associations with everyone at Friona High School have been a genuine pleasure since we came to Friona, and it's nice to know that your efforts are appreciated.

We don't deny that we put "a little extra" into our sports coverage, possibly because we started out as a sportswriter. But we don't think that we "overplay" athletics. We think that high school sports in Friona are just as interesting, if not more so, to local people, than most things, because it's a form of entertainment which takes the place of other things a larger community might have to offer.

Coach Light tells us the "special letter jacket" custom is one he hopes the team will continue each year. We're as pleased as punch about ours, and like I say, you'll see me wearing it, just to prove it.

While the girls basketball team at Friona High School is having one of its best seasons ever, as far as won-lost records go, the boys team, and especially Coach C. W. Dukes, is about to set a different kind of record.

Coach Dukes, who has been more accustomed to the type of record record being compiled by the Squaws, is laboring through what no doubt will go down as his worst personal won-loss season record with the Chiefs.

Through 18 games, the Chieftains have won just three and dropped 15. The worst a team coached by Dukes has done previously was a "break-even" year his first year at Sundown.

But the new Friona coach isn't letting it get him down. He's already looking to the future. "We should have a good team next year," Dukes points out.

And the roster bears him out. Only two seniors are on the entire squad, S. D. Batze and Gary Renner, and both have played sparingly. Renner came out for the sport after missing last year.

Several promising young players speak well for the future, such as Travis Graves and Gene Weatherly, both sophomores, who have fought their way to the varsity level this year. The rest of the "veterans" who will be back next year are juniors this year, including starters Larry Buckley, Danny Murphree, and Dale Miller.

Friday night is becoming "Dark Friday" for the Chiefs. Two weeks ago in their district opener, Friona played an exceptional game, leading tall Muleshoe for much of the way, only to lose by two points, 65-63.

Then the past Friday, the Chiefs went to Olton. They fell behind early and then staged a second-half rally that finally brought them a seven-point lead in the fourth quarter, but a subsequent Olton rally brought the Mustangs a one-point victory.

It has been the general feeling that if the Chiefs had received a couple of good breaks back up the line rather than this type of bad ending, the season record would be much different.

"The players have worked hard. It's been a hard year for them, since I had to become accustomed to what each one could do, and do a lot of experimenting," Coach Dukes says.

(Continued on Page 2)

By Bill Ellis
Lazbuddie youngsters won four championship trophies, and Parmer County entrants as a whole did well for themselves in the Golden Spread Western Junior Livestock show last weekend in Hereford.

The exhibitors from Lazbuddie, who perennially are in for their share of stock show honors, copped the grand cham-

ption of the barrow division, and three of five championships in the lamb division. Friona exhibitors placed high in the steer division. These two county schools had most of Parmer's entries.

Jimmie Dale Seaton of Lazbuddie exhibited the grand champion barrow, the second straight year for the Seaton to take the top barrow prize.

Last year his sister, Charlotte, had the top entry in the show. Seaton won the championship with his heavyweight Hampshire barrow. Winners in the lamb division were James Koelzer, in the fine wool cross division; Terry Farham, fine wool, and Timmy Foster, medium wool. All are from Lazbuddie.

Other first place winners from Parmer County included

Charlotte Seaton, first in light hampshires; and Theresa Seaton, first in light cross breeds.

The lamb division, especially some classes, looked almost like a Parmer County livestock show, by the domination of county animals in the results. In the medium wool class, Parmer youths won eight of the top ten places, and 11 of the top 13. In the Southdown and crosses division, Parmer county won 10 of the top 15 places.

Friona FFA Members did well in the steer division, entering 12 animals and placing 11 against the usual stiff competition. Top Friona placing was a second place in the lightweight division by Tex Phipps.

Bovina was the only other county school winning laurels in the show. Jerry Roach entered the runnerup lamb in the Southdown division. Other Bovina students placing were Gary Beauchamp, 12th, and Eddie Corn, 13th, in the medium wool class.

In addition to taking the lion's share of honors in the show, Parmer County also won the 4-H Club division in the livestock judging contest Saturday morning. Members of this team

AREA REPORT SHOWS

County's 1963 Traffic Record One Of Worst

Parmer County compiled one of the worst traffic accident records among counties in the Texas Panhandle during 1963, according to figures released this week by the Texas Department of Public Safety.

The county wound up with 130 total rural accidents during 1963, which ranked it sixth among 31 counties in the Panhandle for most total accidents. There were five fatal accidents in the county, resulting in six deaths. Only eight counties in the area reported more traffic deaths during the year.

Parmer County closed out the year with a tragic month in December. Three fatal accidents were recorded, resulting in four deaths. These were the most of any other county in Texas' District 5B, according to the DPS. A total of 14 persons were in-

jured in December wrecks in the county, a figure topped only by Potter County, of which Amarillo is the county seat.

For the year, 58 injuries in rural wrecks were reported in the county during 1963, ranking it seventh among all the counties in the district. Total property damage resulting from the wrecks amounted to \$78,905, placing the county in tenth place among counties in the Panhandle district.

"Old Man 1963 has quietly slipped away into the past forever. His evident scenes, however, will remain with us until the end of time," says Sergeant W. E. Wells, area patrol supervisor.

"Due to scars left beside the roadway, and the hospitals, at the morgue and in the cemeteries, the year 1963 will be re-

membered as the worst year in traffic history," Wells continued.

The sergeant stated that when the final reports are tabulated, we will find that more people were killed in Texas traffic accidents during 1963 than in any previous year. The final count is expected to be about ten per cent more than the 2,421 traffic deaths of 1962.

The Patrol Supervisor reminded all motorists to think about the more than 5,000 people that have been killed in Texas traffic accidents in the last two years, and to join the drive to reverse this alarming trend of death by strict observance of the traffic laws and rules of safe driving.

Credit Union Names Two New Directors

Two new directors were elected by the Friona, Texas Federal Credit Union at its annual meeting Tuesday night at the school cafeteria.

New directors elected were Mack Bainum and Ray Landrum, elected to two-year terms. Holdover directors are Orville Houser, Loyde Brewer and Lucy Jones.

Ralph Roden and Ralph Taylor were re-elected to the Union's credit committee. Holdover member of that committee is Bill Filppin.

Dyalthis Benson, treasurer of the Hereford Federal Credit Union, spoke to the group. A film about the growth of credit unions in the Fiji Islands was shown.

Reports were heard from the credit committee, the treasurer, supervisory committee, and board of directors.

At the close of business December 31, the local Credit Union showed total assets to be \$226,586.13, which was a growth

Tax Deadline Approaches; Response Slow

Residents of Friona were reminded this week by City Manager A. L. (Jake) Outland that the deadline for paying city taxes without penalty is January 31.

That date is also the deadline for payment of school taxes before the penalty becomes effective, and will be the last day for paying poll taxes for 1964 voting.

Payment of the school taxes and poll tax may be made at the office of Ethridge - Spring Insurance Agency.

Not many poll tax receipts had been purchased at the local office as of this week, according to the report.

Voters are reminded that they will need a poll tax to vote in the 1964 elections, and that even if the constitutional amendment against poll taxes is passed, it will affect only national elections, and the poll tax receipts would still be required for state, county, and local elections.

CHANGING THE GUARD. . . Wright Williams and Mrs. Roy Clements are shown during Mrs. Clements' last day of duty as Friona postmaster last Friday. Williams assumed duties as the new postmaster.

PERMANENT APPOINTMENT

Williams Appointed To Postmaster Position

Wright Williams, longtime Friona resident, became Friona postmaster January 16, succeeding Mrs. Roy Clements, who had held the position for the past two and one-half years.

The appointment sets some sort of standard for the Friona office, in that it is a permanent appointment, the first in many years. Williams, a veteran, attained the office as the result of a Civil Service examination given in January of 1961.

Williams moved to Friona in 1929, and with the exception of

three and one-half years spent in the U. S. Coast Guard, has been here ever since.

For eight years, from 1929 through 1937, Williams was manager and bookkeeper for Friona Consumers. Prior to World War II, he worked with Magnolia Petroleum Company in Friona.

After his discharge from the Coast Guard, Williams became City Manager and tax assessor-collector for the city of Friona in 1946. He recalls that at the time he was the only full-time employee of the city.

From 1947 to 1950, he was associated with City Drug in Friona, along with O. J. Beene.

In 1951, Williams, along with J. B. McFarland and Pete Buske, originated the present Chester-Fleming Gin.

Williams has served on the Friona city commission, the Chamber of Commerce, and has been a member of the board of equalization for the Friona School Board the past few years. He has been a member of the Masonic Lodge, American Legion and Lions Club.

GOOD BALANCE. . . Directors of the Friona Federal Credit Union check over the firm's good balance during annual meeting Tuesday. Left to right are Orville Houser, Mack Bainum, Lucy Jones and Loyde Brewer.

PLAY DIMMITT FRIDAY

Squaws Take Lead In District With 3-0 Mark

The Squaws will be shooting to hold onto the District 3-AA lead when they host rival Dimmitt in an important district contest Friday. Three basketball games will be played, beginning at 5:30 p.m.

Friona's girls have assumed sole possession of the district lead with a 3-0 mark, and may be in for a thriller with the Bobbies, who have had their backs placed to the wall by losing two of their first three district games. They will be need-

ing a win to stay in contention for the district crown.

The Chiefs will be faced by the league-leading Bobcats, who have won all three of their district outings so far. Friona will be bidding to repeat their upset practices they began in the final district game against Dimmitt last season.

These games will close out the first half of district play for both teams. They start the round-robin play over again on Tuesday by going to Muleshoe

for games with the Mules and Mulettes.

Olton is currently the team pressing the Squaws for the district lead. Friona handed Olton's girls their only district defeat in a game there Friday, 62-50, turning in a steady overall performance to take the win.

The Squaws broke out front against Olton, and were never headed. Friona took a 6-0 lead midway of the first quarter, and

were Bobby Gleason, Steve Foster and Ronald Mayfield. Gleason and Foster also walked away with showmanship honors in the barrow and sheep shows respectively.

Those winning places from Parmer County were:

STEER DIVISION

Lightweight -- Tex Phipps, second; Lynn Phipps, fourth; Mike Rietmayer, ninth; Don Hoover, 13th (all from Friona).

Mediumweight -- Rex Wells, third; Rex Hand, seventh; Gary Hand, 12th; James Gable, 14th; Danny Parker, 17th. (all from Friona).

Heavy weight -- Tex Phipps, eighth; Lynn Phipps, 12th (both of Friona).

BARROW DIVISION

Lightweight Hampshires -- Charlotte Seaton, Lazbuddie, first; Bobby Embry, Lazbuddie, second; Ronald Mayfield, Lazbuddie, third; Larry Eubanks, Lazbuddie, 10th.

Heavyweight Hampshires -- Jimmy Seaton, Lazbuddie, first (grand champion); Max Eubanks, Lazbuddie sixth; Bobby Sims, Friona, seventh; Gary Eubanks, Lazbuddie, eighth.

Light Durocs -- Jimmie Seaton, fourth; Bobby Gleason, Lazbuddie, sixth; Heavy Durocs -- Theresa Seaton, Lazbuddie, first.

Light Polands -- Larry Johnson, Friona, seventh; Edwin Taylor, Friona, eighth; Heavy Polands -- Edwin Taylor, Fri-

ona, second; Charlotte Seaton, Lazbuddie, third; Linda Gleason, Lazbuddie, fourth; Max Eubanks, Lazbuddie fifth; Larry Johnson, Friona, eighth. Heavy Berkshires -- Mike Rietmayer, Friona, fourth; Lloyd Bradshaw, Lazbuddie, sixth; Gary Coker, Lazbuddie, 10th.

Lightweight Chester Whites -- Buddy Embry, Lazbuddie, third.

Cross breeds (light) -- Theresa Seaton, Lazbuddie, first (reserve champion); Ronald Ashford, Lazbuddie, fifth and seventh. Heavy -- Bobby Gleason, first.

SHEEP DIVISION

(All the following placings are from Lazbuddie unless otherwise indicated.)

Fine Wool -- Terry Parham, first and fourth; Sammy Harlan, eighth.

Medium wool -- Timmy Foster, first; Steve Foster, second; Mac Brown, third; Royce Barnes, fourth; Howard Rhodes, Friona, fifth; Marianna Gammon, sixth; Steve Foster, eighth; Johnny Mitchell, 10th and 11th; Gary Beauchamp, Bovina, 12th, Eddie Corn, Bovina, 13th.

Southdown and Southdown cross -- Jerry Roach, Bovina, second; Glenn Goggans, Friona, fourth; Jerry Don Carlton, Friona, sixth; Mike Wooley, Friona, seventh and 13th; Darrell Mason, 10th and 12th; Richard

Squaws--

(Continued from Page 1)

had a 9-4 lead when the first buzzer sounded. All three starting forwards hit with regularity, giving Friona a 28-18 half-time lead.

Olton tried to cut the lead, but every challenge was answered by the Squaws, who pulled out a 12-point win in the crucial district game.

On Tuesday, the Squaws took time out from district play to spank Canyon of District 1-AA, 63-35. The Squaws weren't particularly pressed intaking their second win of the season over the Eaglettes.

By the end of a quarter, Friona led by 22-10, as Tito Jennings hit a flurry of baskets for 17 big points. Score at half-time was 38-19.

Reserves played much of the second half, and added to the Friona lead. Score going into the final quarter was 50-26. Friona, Jennings was leading scorer in the game, with 25 points, giving her 49 points in the last two games.

(Continued from Page 1)

He pointed out that the team was weak in fundamentals, and this would be something the individuals would have to work to overcome by next year.

"You don't just quit football one day and start playing good basketball the next day automatically. You need to have had a lot of practice somewhere back up the line," Dukes points out.

Gordon, 11th; Mike Hand, Friona, 15th.

Fine wool cross -- James Koelzer, first.

Other breeds and crosses -- Timmy Foster, third; Mike Hand, Friona, sixth.

Am I a good neighbor? For the next several weeks most of us will have more than the usual number of opportunities to answer this question. At this time of year some of our residents are moving to other communities and strangers are moving into our area.

Most of us would like to answer the question in the affirmative, but unless we demonstrate some good neighborliness, will be unable to do so. Is there a new family in your neighborhood that you have not yet met? Have you visited a shut-in recently? Do you demonstrate your concern in those about you by supplying some of their needs?

The only way Friona and the surrounding area can maintain its status as a friendly community is for each of us to do his part.

There seems to be a great deal of concern about the fact that so few Parmer County residents have indicated interest in voting during the year 1964.

Poll tax sales are lagging and time is running out. Several elections of importance will be coming up later in the year and each of us will have ample time to determine how we want to vote, but unless we pay our poll tax before the deadline, we will not be qualified voters.

Friends of Jan Edelman are pleased to know that she is making application of her talents in her job as English teacher in Albuquerque High School.

Apparently Jan has determination to equal if not supersede that of her maternal grandmother, the late Mrs. Mary Officer, who was pioneer teacher in Indian schools

Teams Take Wins

Friona junior high school basketball teams took three out of four games from Farwell teams on Monday.

The eighth grade boys took a 40-22 win, paced by 16 points by Delbert Davis and 10 by Jackie Claborn.

The seventh grade boys won, 24-21, led by Mike Dukes' nine

points.

The seventh grade girls beat the Farwell girls, 22-6, as Vicki Renner scored 11 and Pam Turner seven. The eighth grade girls stumbled, 19-9. Three players scored three points each, Karen Miller, Patti Ragsdale and Belinda Mabry.

Each month our customers will be eligible to participate in the General Electric Small Appliance free drawing. Winner announced monthly.

CHEVELLE! by Chevrolet

One of the things you'll like best about it is 11 models to choose from.

MALIBU S.S. SERIES

These two Super Sport models are Chevrolet's finest. Front bucket seats, door-to-door carpeting and an all-vinyl interior in seven colors. A wide choice of transmissions and extra-cost high-performance engines. Plus a whole host of other options.

MALIBU SERIES

Chevelle's middle-of-the-line series, the Malibu, retains many features found in the two Super Sport models. Like all Chevelles, it's a good foot shorter than big cars, making it easy to park and handle. Yet inside it's surprisingly spacious and comfortable.

300 SERIES

Chevelle's most economical series -- but don't let its gentle price tag fool you. The 300 has all Chevrolet's traditional value and reliability. Full Coil suspension. Body by Fisher. Flush-and-dry rocker panels. Your Chevy dealer will tell you all the rest.

THE GREAT HIGHWAY PERFORMERS Chevrolet • Chevelle • Chevy II • Corvair • Corvette

The Moral Code
There has been in recent days, a most alarming lowering of the moral code in our country. In past years our moral standards have been fairly high and commendable. But today we cannot help but notice a decay of moral standards and principals, which if allowed to continue will eat the very heart out of our country. Like a giant oak tree, which appears to be large and strong, but upon inspection one finds that inside it has decayed and left only a hollow shell. This oak will fall under a much smaller blow than had it remained solid and strong. We look today to other nations that were once strong, but spiritual and moral standards fell, and so has the country. Whereas ours was once an example before nations, today we are being looked down upon by many because of our lowering moral standards. These trends are being caused by many influences, least of which is not the motion picture industry and the T. V. productions. Add to these the filthy pulp magazines and jungle-like music, and it is no wonder our youth and nation is degressing morally. When our people are being offered more so-called "Adult" entertainment than any other type, we can readily see that "bucks" have become more important than moral and national strength. But let us remember, that "public opinion" is not the true standard for morality. The Bible, . . . the Word of God, . . . is. Public opinion changes, but the standards set forth in the Bible never change.

DROP TWO GAMES

Chiefs' Luck Stays Same Way -Horrible

Two losses by the Friona Chieftain basketball team during the past week pushed their current losing streak to six games, and left their season mark at 3-15.

The Chieftains dropped a heart-stopper at Olton Friday in a District 3-AA contest, 54-53. On Tuesday, the Chiefs were routed by a strong Canyon club, 73-36, in a non-district game.

At Olton, the Chiefs lost their bid to take a come-from-behind win, as the Mustangs regained the lead in the closing seconds for the one-point win. Friona fell behind 12-8 after

the first quarter, and although they doubled their point output in the second period, they had a nine-point deficit, 33-24, at halftime.

The Chiefs went to work to erase Olton's lead as the third quarter began. Milton Hargus came in to score five points. Gene Weatherly hit two field goals and three free throws, and Larry Buckley had seven timely points in the rally.

It was Buckley's follow-up basket with 30 seconds remaining in the third quarter that brought Friona its first lead of the game, 43-42.

As the final quarter began, Friona added to its lead. A hook shot by Buckley made it 47-44. Travis Graves and Hargus hit set shots to push the margin to 51-44 with five minutes remaining.

But Friona slowed its scoring spree, and before they could click again, Olton had taken a 52-51 lead. Danny Murphree's two free throws gave the Chiefs their last lead at 53-52, and in a wild finish, Olton scored the only two points of the last three minutes of play to take the win.

The scoring drought hit its peak at Canyon Tuesday, when

the team scored just 36 points, their lowest of the season. Canyon breezed to a 73-36 win.

Accounting for the low score was the fact that Friona scored no points at all during the third quarter. Canyon had a 19-10 lead after a quarter, led 42-18 at halftime, and 56-18 going into the final period.

Young Seeks Second District Attorney Term

Jack Young has authorized the announcement of his candidacy for re-election to the office of District Attorney for the 154th Judicial District, composed of Lamb, Bailey and Farmer Counties, subject to the Democratic primary of May 2, 1964.

The 34 year old attorney is a graduate of Muleshoe High School (1946), Texas Tech (B. A. 1951) and the University of Texas (L. I. B. 1956).

In 1956 he returned to Muleshoe and after a year of private practice was elected County Attorney of Bailey County and

served a four year term. He was elected District Attorney for the 154th Judicial District in 1960.

He and his wife, Martha formerly of Sudan, have two daughters, Prisca 7 and Pamela 17 months. They are members of the First Baptist Church, Muleshoe.

Mr. Young is a member of the Muleshoe Lions Club and now serves as its first vice-president. He is a past Director of the Muleshoe Chamber of Commerce.

"I feel that the experience gained during the past term as

your District Attorney enables me to serve you better in the future," Young said.

"It is my hope to see and talk to as many people of the 154th Judicial District as possible in the next three months, but in the event I am unable to see each of you personally, let me take this opportunity to ask your support in the first primary.

"I would like to express my appreciation to all the citizens of this District for the encouragement and cooperation they have given me during my first term as District Attorney. My sincere thanks to each of you."

Teachers To Meet In Friona

The Farmer County Teachers Association will hold its meeting in Friona on Monday, January 27, Mrs. Elizabeth Little, president of the State Teachers Association, is to be the guest speaker.

The county association holds four meetings yearly, one at each of the four schools in

Farmer County. The coming meeting will be the third this year. Similar meetings have been held in Farwell and Lubbudie. A meeting in Bovina is scheduled for April 14.

School Board members are being issued a special invitation to attend the supper meeting.

"We hope to have 100 per cent attendance of our board members," stated Mrs. O. J. Beene, president of the Farmer County Teachers Association.

Mrs. Beene states that the meeting will mark the first appearance at a county association meeting of a state association president.

Club Meets In Benger Home

Black Home Demonstration Club met in the home of Mrs. John Benger Thursday afternoon for the first meeting of the year. The business session was conducted by Mrs. Gene Welch, president.

Club programs for the year were planned and yearbooks were completed.

Mrs. Kay Lore was a special guest.

Members present were Mesdames Ellis Tatum, Helen Fangman, Rosco Ivis, Travis Stone, Johnny Mars, J.R. Brax-

ton, T.J. Presley, Clyde Hays, Buryl Fish, Lloyd Prewett, Bill Carthel, Harry Lookingbill, Dick Rocky and the hostess.

Next meeting of the club will be February 6 in the home of Mrs. J.R. Braxton. Program will be a book review by Mrs. Calvin Talley, guest speaker.

A quarter of a million people were made homeless in San Francisco in 1906 as a result of the fire following an earthquake.

Son Born To Lubbock Couple

Mr. and Mrs. Mike Davis, Lubbock, became parents of a baby boy January 11 at Taylor Hospital and Clinic in that city.

He was named Phillip Michael and weighed 7 lbs. 4 ozs.

Grandparents are Mr. and Mrs. F. W. Barnett, Friona, and Mr. and Mrs. J. W. Davis, Weatherford. F. E. McMurry, Alamo, is a great-granddaughter.

Of Interest To THE WOMEN

Book Reviewed At Class Meet

"Mary", a book by Sholem Asch, was the subject of a book review given by Mrs. Bill Ellis at the regular meeting of the L.L. Sunday School Class of First Baptist Church last Thursday night. The group met at the home of Mrs. M. C. Osborn with Mrs. Paul Coker serving as co-hostess.

Following the business meeting and the book review, refreshments of hot spiced punch and a variety of cookies were served to the following members: Mesdames Doyce Barnett, Velden Carroll, Dave Allen, Leon Coffey, Jim Dixon, Dale Hart, Fred Kelly, Sam Mears, Clyde Tims, Dale Wiedner, Mrs. Ellis and Mrs. Charles Allen, teacher, and the co-hostesses.

Parties Honor Mrs. R. Fleming

Mrs. Raymond Fleming was surprised with two parties in her home Wednesday. In the morning Mesdames Jim Cocannour, Johnny Hand, John Hand and L. R. Hand were hostesses at a surprise housewarming.

About 35 persons attended. Coffee and doughnuts were served.

In the afternoon Jean McGee, Hereford, Sallie Cocannour, Sue Procter, Phyllis Sanders, Allo Reeve and Zayde Griffith called in the Fleming home.

Book Reviewed

Highlight of the Monday evening of Friona Rebekahs was a review of The Life of Thomas Wilder by Mrs. Fern White.

During the business session reports were made of nine convalescent cards having been sent during the past week and fifteen sick visits having been made.

Refreshments were served to twelve members by Mrs. Pat Fallwell.

COUPLE HONORED - A reception at Federated Club House Sunday afternoon honored Mr. and Mrs. Monroe White, who were observing their Golden Wedding anniversary. Guests were received between the hours of 3 and 5 p. m.

LaVoyce Burrow Shower Honoree

LaVoyce Burrow, who will become the bride of Jeffrey Wofford Saturday was guest of honor at a bridal shower in Fellowship Hall of First Baptist Church Saturday.

Hostesses were Mesdames Bruce Parr, Claude Blackburn, Ralph Roden, Buck Fallwell, Lillian McLellan, Roy Clements, G. B. Buske, Claude Osborn, L. A. Milligan and Jim Maynard.

The bride's chosen colors, green and white, were carried out in the decorations. The

Bake Sale Set

Announcement has been made of a bake sale to be held at Ethridge-Spring Agency Saturday by members of United Pentecostal Missionary Society. Home made cakes, pies and other baked products will be on sale.

servicing table was covered with a white cloth and centered with an arrangement of white mums and silver streamers.

About 125 persons attended or sent gifts.

It's A Girl For Daniels

Mr. and Mrs. Gerald Daniel, Canyon, became parents of a baby girl at Northwest Texas Hospital in Amarillo December 13. She weighed 6 lbs. 14 1/2 ozs. and was named Kelli Lynn.

Kelli's grandparents are Mr. and Mrs. Paul Daniel, Friona, and Mr. and Mrs. J. B. Buffalo, El Reno, Okla. Great-grandparents are Mr. and Mrs. R. P. Slater, Dumas, Mrs. Lillie Daniel, Stephenville and J. T. Daniel, Frankston. She is the first child for the couple.

Golden Wedding Reception Honors Monroe Whites

Mr. and Mrs. Monroe White, who were observing their Golden Wedding Anniversary, were guests of honor at a reception at Federated Club House in Friona Sunday afternoon. Host couples were Mr. and Mrs. Henry White, Mr. and Mrs. L. R. White and Mr. and Mrs. Ray White.

Rev. Bill Burton, pastor of First Baptist Church, read a formal wedding ceremony for the couple as they repeated their vows. Refreshments of cake and punch were served during the receiving hours.

Miss Ida May Westfall and Monroe White, both of Randolph County, Arkansas, were married January 21, 1914 and moved to a farm near West Plains, Mo.

At the time Mr. White had two small sons, Henry and Irvin. Two sons, L.R. and Fay, were born to the couple. They farmed in Oklahoma, Kansas and Missouri before moving to Farmer County in 1929.

In 1937 the Whites moved to Friona and have lived in the east part of town since that time. Since retiring Mr. White has been a dealer in real estate.

All of their children live in Friona except Irvin, who lives at Tacoma, Wash.

Shirley White, granddaughter of the couple, presided at the registration table.

Those attending and sending gifts were Mrs. Mabel Wimberly Reese, Amarillo, Mr. and Mrs. Clyde Sherrill, Hereford, Rev. and Mrs. Bill Burton, Mr. and Mrs. W.E. Smith, Mrs. Allen Stewart, Mrs. L. D. Taylor, Mr. and Mrs. David Moseley and Mr. and Mrs. T. A. Kelley and daughters.

Also Mr. and Mrs. Tom Le-wellen, Mr. and Mrs. C.W. Dixon, Mr. and Mrs. Clyde Hays, R.H. McFarland, Fred Dennis, Mr. and Mrs. J. R. Southward, Mr. and Mrs. Elmer Euler, Mr. and Mrs. E.E. Taylor, Mrs. Ethel Adams, Mr. and Mrs. M.C. Osborn, Paige and Shawn, Mr. and Mrs. Homer Howard and W.L. Key.

Also Mr. and Mrs. George Baker, Mr. and Mrs. L.R. Dilger, Mrs. Rosa Anderson, Mr. and Mrs. W.B. Carlton, Plainview, Mr. and Mrs. George Taylor and Lisa, Mr. and Mrs. T.E. Lovett, Mr. and Mrs. Dan Ethridge, Mrs. J.J. Wise, Mr. and Mrs. Claude Osborn, Bill

Ellis, Mrs. Roy Clements, Mrs. Valton Howard and Mrs. Garcey Harper.

Also Mr. and Mrs. Sloan Osborn, Mr. and Mrs. Curtis Murphree, Mr. and Mrs. Johnny Mars, Mr. and Mrs. Roy Miller, Mrs. Robert Osborn, Mr. and Mrs. G. B. Buske, Mr. and Mrs. Ray Hightlett, Mr. and Mrs. Hop Lewis, Mr. and Mrs. O.B. Moyer, Mr. and Mrs. Scott Weir and Mr. and Mrs. Virgil Nowell.

Also Mrs. Florence Buske, Mr. and Mrs. Gene Medlock, Mr. and Mrs. Wilburn Cordie, Mr. and Mrs. Raymond Shepherd, Mr. and Mrs. W.G. Skip and Jim, Mr. and Mrs. Clifford Bailey, Mr. and Mrs. E. W. Bucke, Mrs. A.A. Crow, Mrs. Lela Gilmer, Mr. and Mrs. J.L. Taylor, and Mr. and Mrs. W.G. Swain.

Also Mr. and Mrs. Will Thornberry, Mr. and Mrs. Ernest Westfall, Mr. and Mrs. Elmer Westfall, Mr. and Mrs. John Key, Mr. and Mrs. Frost White, Mr. and Mrs. Frank Andrews, Mr. and Mrs. Fred Riley and Mr. and Mrs. Joe Wilson.

Also Mr. and Mrs. Virgil Hightlett and Kent Brownfield, Mr. and Mrs. Jimmy White, Ted and Max White and Troy Wayne White.

Club Installs President

Mrs. Demp Foster was installed president of the Lax-buddie Home Demonstration Club at the Monday meeting in the home of Mrs. Joe Briggs. A silver plate was presented to the outgoing president, Mrs. Jimmy Briggs. Members drew for secret pals for 1964.

During a brief business session members of the club voted to assist with the March of Dimes and to continue helping the Children's Home at Portales.

Next meeting of the organization will be in the home of Mrs. Jimmy Briggs, Monday, January 27.

Virginia Rando And Armado Coronado Wed

In a double ring ceremony read by Rev. Joe Rando, pastor of First Baptist Mission, at First Baptist Church recently, Virginia Rando became the bride of Armado Coronado.

The bride, wearing a formal wedding gown of white satin and Chantilly lace designed with a fitted bodice, Sabrina neckline and bouffant skirt, was escorted to the altar by Ramon Rando, Frank Martinez was the groomsmen.

Other attendants were Natalie Marruffo, Betsy Marruffo,

Josie Marruffo and Susie Samaniego, Ruben Villanueva, Santos Rando Jr., Bene Rando and Joe Garcia Jr.

Mr. and Mrs. Coronado are at home south of town. He is employed by Charles Hough.

Mrs. Hough and Mrs. George Brock were co-hostesses at a wedding shower for the couple Thursday afternoon in the Hough home. Refreshments of cake and punch were served.

Jackie Rando was the flower girl and Johnny Rando served as ring bearer.

MR. AND MRS. ARMADO CORONADO

Wayne Schueler Heads 4-H Club

At the Tuesday evening meeting of the Rhea 4-H Club Wayne Allen Schueler was elected to serve as president during the year 1964.

Other officers elected were Dale Schueler, vice-president and reporter and Shirley Schueler, secretary-treasurer.

Mrs. Cricket Taylor, county home beautification agent, was a guest. The beautification of homes was chosen as a club project. Leaders in this project will be Mrs. Raymond Schueler and Mrs. E.A. Blinger.

Mr. and Mrs. Franklin Bauer will serve as organizational leaders and Mrs. Walter Schueler will be the foods and nutrition leader.

Next meeting of the club will be Feb. 7 at Parish Hall, Mrs. Taylor will show slides on parliamentary procedure and home beautification. Dwayne Bauer will be recreation leader and Rhonda Bauer and Vickie Schueler will direct the group in the opening inspiration.

Refreshments were served during the social hour.

Bridal Shower Fetes Mrs. Roy O'Brian

A bridal shower in Fellowship Hall of Friona Methodist Church from 4 to 5 p.m., Saturday was a courtesy for Mrs. Roy O'Brian, who was Paula Phillips before her recent marriage.

The serving table was covered with a white cloth and centered with an arrangement of blue and white daisies. Refreshments of spiced tea and cookies were served.

Guests were registered by Mrs. Joe Reeve.

Hostesses were Mesdames J.R. Bartlett, James Hamilton and Carolyn, T. G. White, Charles Kickerd, Dorothy Hough, Dwight O'Brian, George Jones, Bill Taylor, Bill Kent, Joe Reeve and Hayden Cason.

Those attending and sending gifts were Mesdames L. W. Loafman, Gene Ellis, Allen Stewart, D. C. Herring and Carolyn, Ralph Shelton, Frank Spring, Buddy Lloyd, Doc Savage, M. S. Weir, Wright Williams, Mike Ellis and Wesley Cunningham.

Also Mesdames Jack Nelson, Jim Greeson, Johnny Brand, Glenn Taylor, Loyd Chesher,

Rex Blackburn, Larry Fairchild, Tom Ball, C.L. Mercer, Kenneth O'Brian, Burke Hand, Foister Rector, Ennis Cummings, Doyl Cummings, Bill Buchanan, M.B. Buchanan, G.E. Reed, Joe Douglas and James Pope.

Also Mesdames George Strauss, Leo Ruzicka, Meryle Messie and daughters, Wayne Jones, Fred Barker Jr., Arthur Drake, Glen Williams, Sam Jones, Billy Joe Mercer, Jim Guinn and Carolyn, L.R. Hand, Clyde Weatherly, Jerry Loflin and Phillip Weatherly.

Also Mesdames Thomas B. Mason Jr., Tom O'Brian, Jimmy Cornelius, Ida Wilcoxson, E. B. Fenton and Beverlee, John Allen, R. H. Peel, W. B. Fulgham, Lloyd Battey, Russel O'Brian and Karen, G. B. Buske, Vernon L. White, John Burrow and LaVoyce, Dalton Caffey and Howard Mayfield.

Also Mesdames Clyde Fields, Bobby Gene Mercer, Ernest Osborn, Norma Russell, Montie Phillips, J. A. Loflin, C. D. Dodson, Frank Truitt, Sam Williams, Glenn Reeve Sr. and

Keneth Cass. Also Lola Goodwine, Patsy Bender, Bette Bass, Linda Rector, Mary Ann Rogers, Myrna Bennett, Arvis Phillips, Gene, Bill and James Weatherly and Roy Estep.

The honoree, her mother-in-law, Mrs. Tom O'Brian, and aunt, Mrs. Norma Russell, were in the receiving line. Corsages were presented to them by the hostesses.

Tonya Kaye Hand Born Thursday

Tonya Kay is the name Mr. and Mrs. Burke Hand chose for the baby girl born to them at Castro County Memorial Hospital in Dimmitt at 5:30 p.m. Thursday.

Her grandparents are Mr. and Mrs. L. R. Hand and Mr. and Mrs. Kenneth O'Brian. Great-grandparents are Mrs. T. A. O'Brian, Mr. and Mrs. E. B. Brannon and Mrs. Pearl Hand all of Friona and Mr. and Mrs. Clifford Hogue, Mount Vernon, Ark.

Mrs. Joe Moyer Elected President

During the business session of the Wednesday afternoon meeting of Friona Woman's Club Mrs. Joe Moyer was elected president for the two ensuing years.

Officers elected to serve with her were Mrs. John Bengler, vice-president; Mrs. I. S. Akens, secretary; Mrs. Lillian McLellan, treasurer; Mrs. Wesley Hardesty, parliamentarian; and Mrs. Clyde Hays, reporter.

The program was entitled "Through Six Republics." The quotation around which the program was centered was "To understand all makes us very indulgent."

Mrs. Lillian McLellan discussed mixed races in tropical lands of Central America and Mrs. Wesley Hardesty presented, "Puerto Ricos Seven League Boot Straps."

Hostesses were Mesdames Ed Bogges and Hazel Fendrick,

WSCS Circles Meet

The Maggie Hamlin, Kolvwis and Mekka circles of the Woman's Missionary Society of Friona Methodist Church met jointly Wednesday morning at Fellowship Hall of the church.

Mrs. Keneth Cass directed the business session. The first lesson in a study of "Three Spiritual Classics" was outlined by Mrs. J. G. McFarland. Mrs. Ernest Anthony presented a brief report on the life of Francis Frenelon. This was followed by group discussion of the recently completed study, "Christian Perfection."

Members of the Mekka circle were hostesses. Guests were Mesdames Wesley Foster, Homer Lindeman and Jake

Outland.

Members present were Mesdames Mack Balnum, Guy Latta, Hazel Kendrick, I. S. Akens, A. S. Grubbs, Clyde Fields, Ernest Osborn, J. G. McFarland, Keneth Cass, Ernest Anthony, David Moseley, I. T. Graves and Bill Spencer.

Also Mesdames Andy Hurst, Bill Stewart, James Boyle, Roy Slagle, W. C. Osborn, Russell McAnally, Russell O'Brian, G. E. Tannahill, Earl Hawkins, Mack Ragsdale, Ed Clark, Floyd Rector, Jake Lamb, Dick London, J. K. Anthony, Joe Collier, Bob Owens, Dorothy Hough, J. T. Gee, Frank Spring, Mayo Phipps and H. R. Cocanougher.

CONGRATULATIONS

TO OUR WINNERS

(AND TO ALL WHO PLACED)

Terry Parham, left, and James Koelzer, right, exhibited champion lambs in the Golden Spread Western Junior Livestock show at Hereford. Parham had the top entry in the fine wool division and Koelzer entered the winning fine wool crossbreed lamb.

Jimmie Dale Seaton kept the championship in the family by winning the grand champion barrow trophy with his Hampshire entry at Hereford. Last year Charlotte Seaton had the winning entry, a Duroc.

The Foster brothers, Timmy and Steve, placed 1-2 in the medium wool class of the lamb show at Hereford. Lazbuddie entries won seven of the top 10 places in this class. Mac Brown was third and Royce Barnes fourth.

THE HIGH PLAINS FARM AND HOME

Parmer County Wheat Farmers Differ On Exports To Russia

Parmer County farmers differed in opinions on the sale of American wheat to Russia. Most of the wheat growers contacted this week were against the idea. Congressman Walter Rogers of the 18th District opposes the sale.

A commercial sale of about one million metric tons (approximately 37 million bushels) of U.S. produced wheat was completed on January 3 for export to Russia by March 31. The first sale was made by Continental Grain Company, New York City. It is the largest single commercial wheat sale in U.S. history.

A year's storage payment on this quantity of wheat would amount to about \$5 million. This cash sale for dollars will benefit U. S. balance of payments.

The total value of the 37 million bushels of wheat at domestic prices at port amounts to about \$90 million. The export payment-in-kind to be made on these wheats to price them at world levels will be about \$25 million.

The approximate quantities of wheat by classes, grades, the exporting points, and the export payment rates are as follows:

Hard Red Winter No. 2, 500,000 metric tons, 18.4 million bushels, at 65 cents per bushel, export point East of Gulf Coast; Durum No. 2 Amber, 350,000 metric tons, 12.9 million bushels, at 72-73 cents per bushel, export point East Coast; Hard Red Winter No. 2, 100,000 metric tons, 3.7 million bushels, at 65 cents per bushel, export point West Coast; Western Soft White No. 2, 50,000 metric tons, 1.8 million bushels, at 51 cents per bushel, export point West Coast.

Export payment rates for hard red winter wheat and for white wheat are fixed daily and the above rates were announced Jan. 2 for wheat sold for export during the period from 3:01 EST Thursday, Jan. 2, through 3:00 p.m. EST Friday, Jan. 3.

Export payments are made on wheat to bridge the gap between higher domestic wheat prices received by U. S. wheat farmers and the lower level of world wheat prices.

On September 16, last year, Canada sold the Soviet Union 198 million bushels. This is around \$500 million worth of wheat. It was the biggest wheat deal in Canada's history.

Russia normally exports

wheat and has been worrying wheat producers around the world by breaking out new land and planting it in wheat. Apparently these new lands did not produce the way the Reds thought they would end Russia would not be importing wheat unless there was a drastic cut in other supplies of wheat.

It is hard to assess the sentiment on whether or not we should sell wheat to Russia. One wheat farmer said, "It would just be trading with the enemy for the enemies benefit."

Congressman Rogers pointed out that business is not strictly business where the Communists are concerned. He said the Canadian deal can only strengthen the economic condition of the Soviet and its iron curtain satellites and Cuba.

Food is as much a weapon in the Cold War as in the military, Rogers said. It is a cruel fact of life in the modern world that warfare - hot or cold - involves the total commitment of national resources, populations as well as industrial and agricultural productive capacities.

Some argue that for humanitarian purposes we should

modify our export policies to sell food stuffs to Iron Curtain countries, including the Chinese Communists. It is an appeal that bypasses the dominant fact that these nations are bent on the destruction of free men and their governments, including the United States.

At the moment, Rogers said, the United States is in the same position as would be a sporting goods store owner who sees his competitor across the street sell a basket of revolvers to a gang of known criminals. We wish we'd gotten the dollars in the till, but we know the effect of the sale may be to hasten the day that the gang returns to stage the promised holdup.

Kansas Senator Frank Carlson has urged the "study of proposals for increased trade with Russia in such items as food and non-strategic materials."

The arguments leave out the important thing -- concern for the welfare of the American wheat farmer.

Sen. Hubert H. Humphrey, Wisconsin Democrat, noted that Canada is encouraging farmers to raise wheat, while America is urging farmers to

decrease wheat production by as much as 35 per cent.

Some farm leaders have asked for a re-examination of the United States export policies. Strictly from a business standpoint, Canada's deal makes it possible to move more of our own wheat into foreign markets - some of it to Canada, itself, to replace depleted reserves.

The Soviets have plenty of gold. They can afford to part with some of it in exchange for the grain they must have if Russians and satellite peoples are not to become restive.

Be Ready For The Unexpected

If an emergency catches you unprepared, what you don't know about protecting your home and family could be costly and even fatal.

Tommy Hollmig, Extension specialist in Rural Civil Defense at Texas A&M, points out that in early America, every family had a survival plan. When a fire, flood, or Indian attack threatened, each person had a job to do. Natural disasters, tornadoes, floods, blizzards, fires, hurricanes, still happen. Now, the possibility of nuclear war or even a nuclear accident poses additional threats. If you plan for an emergency before it occurs, your chances of being alive and healthy afterward will be increased.

Hollmig suggests picking the safest place in your home or on your farm. Add shielding to make it better. Be ready to take advantage of the best shelter available at all times. Store a two weeks' supply of food, water and other essentials in your shelter area.

These measures are do-it-yourself insurance against the time your life may be at stake. See your county Extension agent and ask for MF-666, "Family Survival Plan." It is your guide for your family's protection.

Food Outlook For 1964

The food news is good for 1964, says an Agricultural Extension Service consumer marketing specialist with Texas A&M University.

Mrs. Gwendolyn Clyatt reminds that protein foods--including meat, dairy products and eggs--will all be in ample supply. Production of domestic beef, coupled with large supplies of imported beef, point to an increased supply over 1964. Pork supplies also will be greater this year.

Broilers and turkeys will continue plentiful. Dairy products will be greater to some degree--just about enough to keep pace with the increase in population, the specialist

says. Egg supplies will remain plentiful.

Pricewise, homemakers can look forward to many special features on beef and pork during the winter and spring months. Reports indicate that summer months will be a high-price period for red meats, dropping again in the fall. Broilers and fryers will continue to be a regular feature at meat counters, with prices averaging about the same as in 1963.

Indications are that protein foods will be bargains during much of 1964. Careful shopping may be necessary to find these good buys, but the practice can help stretch the family food dollar, Mrs. Clyatt reminds.

Newly elected officers of Busy Bees 4-H Club line up behind president, Arnetta Bryant, left to begin their duties. Other officers shown are vice-president, Polly Dollar, secretary-treasurer, Cheryl Boling and reporter, Vicki Blain. Busy Bees club was organized in Farwell last week with 23 members.

Twenty three girls and several interested adults attended the organizational meeting for a new 4-H Club in Farwell, Thursday afternoon.
 Mrs. John Boling and Mrs. L. C. Herington served as organizational leaders. They will also be leaders of the club with the assistance of Mrs. Beulah Hobbs and Mrs. Bill Garrett, who will be subject matter leaders.
 Name chosen for the club was Busy Bees 4-H Club. Officers were selected and the new president, Arnetta Bryant, appointed recreation and refreshment committees to serve at the next meeting. Officers of the club are: Arnetta Bryant, president, Polly Dollar, vice-president, Cheryl Boling, secretary-treasurer, and Vickie Blain, reporter.
 Time of the next meeting was set for Feb. 18. All regular meetings of the club will be held at the Farwell elementary school immediately following the close of school on the third Tuesday in each month.
 Members of the new club in addition to the officers are: Melody Roberts, Rebecca Martin, Connie Thomas, Patsy Bland, Patricia Ann Garrison, Neila Craig, Gwen Rundell, Irene Bowery, Elsa Solicz, Linda Bland, Vicki Hobbs, Gail Meeks, Kim Snider, Lynn White, Bessie Bowery, Penny Phillips, Jeanette Powell, Terry Garrett, and Carolyn Herington. Also present was Parmer County HD Agent, Cricket Taylor.

FOOTSAVING EDUCATION

by James E. Edwards
 "How Much Are Your Cheapest Shoes?"

There was something about the way the mother asked the above question that tipped me off. Normally I would have said that the cheapest shoes she could buy for her son are our best ones. Instead, I rattled off the prices and set about trying on the various styles. None of them suited her until she had on our best quality shoes. When she said that she would take them I told her the price. "That's all right," she said "last year we got a pair like that for him and they lasted all winter. This year I tried to save some money and he has had five pairs already."
 I'll never know why she started out by asking for the cheapest. I just say "WOMEN!" and forget it but I have to give them credit; they don't mind admitting it when they have made a mistake.

1963 Was Worst Year In Texas Traffic History

"Old man 1963" has quietly slipped away into the past forever. His evident scenes, however, will remain with us till the end of time. Due to the scars left beside the roadway, and the hospitals, at the morgue and in the cemeteries the year 1963 will be remembered as the worst year in traffic history.

The Texas Highway Patrol investigated 20 accidents on rural highways in Parker County during the month of December, according to Sergeant W. E. Wells, Patrol Supervisor of this area.

summary for this county for the calendar year 1963 shows a total of 130 crashes resulting in six persons killed, 58 injured and an estimated property damage of \$78,905.00.

Bad News For Cotton Bollworms

Two of the county's most destructive insects, the cabbage looper and cotton bollworm, have been successfully controlled by mass-produced insect viruses that are harmless to man.

Both insects are well known pests in Texas and as John Thomas, entomologist for the Texas Agricultural Extension Service puts it, just ask any Texas cotton producer about their resistance to chemical controls.

Tests conducted by the U. S. Department of Agriculture's Agricultural Research Service, much of the work was done at the research center at Brownsville, indicate that early-season spray applications of virus will artificially induce epidemics and control the insects before they can damage crops, explains Thomas.

Work is now underway to determine timing, rates and frequency of application of the viruses. Studies indicate only a small amount of insect virus material is needed for effective control. The scientists believe a man probably could hold enough powdered cabbage looper virus concentrate on the nail of his small finger to treat five acres. They also believe the looper and bollworm viruses can be produced at prices farmers can afford.

Research has established these points: both viruses are highly specific. One infects only the cabbage looper. The other bollworms and the closely related tobacco budworm. Both viruses are harmless to man, animals and plants. Fungi, bacteria, insect parasites or predators, and other natural enemies of the looper and bollworm are not harmed. Objectable residues do not occur on treated crops; in fact, ineffective forms of the viruses occur naturally on crops attacked by these two insects.

Thomas says scientists have long the potential of viruses for biological control of insects. Recently developed mass-producing techniques, however, makes it possible to exploit these two viruses, Thomas says.

Ammo Notes

By Wm. F. (Bill) Bennett Fertilizer Use

One of the significant changes in fertilizer use in the Northern High Plains of Texas is the increased need and use of phosphorus fertilizers this past year. This trend in fertilizer use will continue to increase at an accelerated pace.

This increased use of phosphorus has resulted from the depletion of our native soil phosphorus. Our rates of nitrogen over the past four to six years has resulted in high yields of milo, wheat and cotton with a resulting depletion of phosphorus levels in the soil.

A common comment by farmers is that "My nitrogen fertilizer is not doing the job that it used to do." In many cases, this has been due simply to the depletion of soil phosphorus to a critical level. The addition of a phosphorus fertilizer will usually result in better use of the nitrogen which is applied. Proper nutrient balance continues to be one of the most important aspects of fertilizer use.

Many sources of phosphorus are available and several different methods of application are currently being used. Ammonium phosphates, either liquid or dry, such as 7-21-0 or 11-48-0, are excellent sources of phosphorus. Their main advantages are the high degree of water solubility and the fact that they contain a small amount of nitrogen to go with the phosphorus which is supplied. The super-phosphates 0-20-0 and 0-46-0, are adapted to broadcast applications of phosphorus. Various other mixed fertilizers containing phosphorus are available.

Method of application can often be important in phosphorus utilization by plants. A banded application placed approximately four to six inches below the seed and one to four inches below the soil would be considered an ideal method of phosphorus fertilizer placement for most efficient use. A common method of application in this area would be the dual application of liquid 7-21-0 plus anhydrous ammonia is also a good method for fertilizer application.

Broadcast phosphorus normally will require about 50% more phosphorus to be equivalent to a banded phosphorus application. Where 40% of P2O5 would normally be supplied for a milo crop in a banded application, approximately 60% P2O5 should be broadcast for the same results.

Phosphorus moves very little from its point of placement in the soil. Because of this, it is desirable to place it so that it will be within the root system of the young plant, but still sufficiently deep to stay in moist soil throughout the growing season. Since phosphorus moves very little from the point of placement, it can be applied well in advance of planting and still be available for plant use during the growing season. Phosphorus usually should be applied pre-plant so that the young plant will have early access to the fertilizer phosphorus.

Determining whether phosphorus is needed is important from the standpoint of profits from fertilizer use. A soil test to determine level of soil phosphorus is the best way to determine need. If applied nitrogen is not doing the job it should, the odds are that phosphorus is needed.

Soil Bank Contracts Expire On Half Million Acres In Texas

Contracts expired in Texas, December 31, 1963, on a total of 566,571 Soil Bank acres.

Now, points out C. H. Bates, farm management specialist for the Texas Agricultural Extension Service, owners of these acres must decide what to do with them.

No two owners will have the same situation, says Bates, therefore, each must study the alternatives available. Some choices are to sell, rent, hire work done, leave the acreage in a conserving use, or participate in a government diversion program.

Stabilization and Conservation and Extension offices, according to Bates.

Individual situations, existing cover, possible uses of the land, yield prospects, and such considerations as credit, equipment and livestock available will need careful study, says Bates.

Bates points out that Conservation Reserve contracts, totaling 24,068, were in effect in 1963 in 230 Texas counties. Acreage under these contracts totaled 2,680,286 with 566,571 acres released from contracts on December 31, 1963.

Emergency generators are a good investment in preparedness for any possible power failure. They can provide heat, light and power in a natural or "man made" emergency.

On The Farm In Parker County

By DERYL COKER County Agent

Income tax time is here again, and as usual, most of us haven't maintained a real efficient set of records. Once again we will make vows to the effect that we will do better next year, but next year never comes for a lot of us.

Record keeping has and will become more important as farms get bigger and we handle more money.

Our Farm Management Specialist, Tom Prater has set up a set of rules to help us evaluate and determine the best routes to follow as a farmer or rancher.

1. Appraise the total output of our enterprises in dollars and cents.
2. Appraise the level of production in physical "pounds, or bushels per acre."
3. Measure in physical terms the number of days labor, pounds of seed, pounds of feed, etc., items which have dollar and cent cost.
4. Next examine in "detail" the procedure used in handling the crop enterprises and livestock in order to determine if change or alteration will "decrease" expense or "increase" dollar return.
5. Establish goals and procedures to increase yields of crops, beef, etc.
6. Evaluate the use of machinery and other equipment.
7. Analysis of returns from pasture and forage in livestock production is important.
8. Study the relationship of your enterprises: Am I getting the most "dollars" for my investment in land, labor, livestock, and "know-how"?
9. Ask this question: Is there a need to shift my enterprises around?
10. Take a sharp pencil and estimate the costs and returns for the "immediate" years ahead, up to three or five years.

Several people are trying to break or chisel, and the land is breaking up in big chunks or clods, and will be hard to handle until we get some rain or moisture. There are several people thinking of using a new type vibrating chisel which runs deep enough to break up the hard pan. I certainly think this is good, and needs to be done. As many times as we run heavy tractors and equipment over our land, each year we are going to have a hard pan.

Cotton Producers Seek New Products

Lubbock, Tex. - (Special) - Cotton farmers are making progress in research to find new or improved products for consumers, a report from the Cotton Producers Institute indicates.

Renewal of three research projects with this aim was announced by Roy B. Davis, Lubbock; Leroy Durham, Plainview; Roy Forkner, Lubbock; and Jack Funk, Harlingen, Texas as trustees for the voluntary plan to increase cotton markets and profits. The projects were initiated last year.

Support of a project on warm cotton fabrics at Harris Research Laboratories was increased from \$35,000 to \$60,000. Using chemicals and laboratory scale equipment, scientists now are producing cotton fabrics with improved loft, drape and resiliency.

will allow cotton to hold and expand its share of the men's suit and trouser market. It now uses the equivalent of 1.07 million bales yearly.

Stanford Research Institute scientists have demonstrated the soundness of the "reversible crosslinks" principle. Goal of this \$35,000 project is to develop a chemical treatment for cotton apparel and household fabrics that will maintain an unwrinkled appearance, require no ironing, can be given creases where desired, and can be altered for individual customers.

Funds to support such research are made possible by producers who participate in the Institute.

Rhea Club Approves HD Recommendations

The Rhea HD Club approved the recommendations of the standing committees of Parker County HD Council when they met in the home of Mrs. Floyd Schueler, Jan. 13.

During the business session conducted by Mrs. Floyd Schueler, Mrs. Norbert Schueler gave the council re-

port and later the 1964 year books were completed. Refreshments of iced cookies and hot chocolate were served by the hostess to Mmes. Norman Taylor, Cordie Potts, Herbert Schueler and Mike, Norbert Schueler, Dwayne Ridley, members and Mrs. Larry Gresham, a guest.

Herbicide For Grain Sorghum Ready Soon

A new pre-emergence sorghum herbicide for grain grown for feed or seed will be ready for farm use on the Plains this coming season. The herbicide, propazine, will eliminate cultivation under certain conditions, reports A. L. Wiese, Texas Agricultural Experiment Station agronomist. Until late in 1963, the herbicide was approved for use only on grain sorghum grown for seed.

Wiese says propazine will be most useful on irrigated fields where weeds have been difficult to control by mechanical means. The herbicide also will be beneficial to farmers in the Blacklands and Gulf Coast regions.

Propazine is a wettable powder and must be applied in 25 to 40 gallons of water per treated acre. Considerable agitation is required or the material will settle to the bottom of the spray tank. A pump with a return capacity of 10 gallons per minute is satisfactory for agitation with a four-row rig. Application must be made to the soil immediately after planting. Rain then leaches it into the root zone. If rainfall occurs before chemical application, weeds may germinate and grow through the propazine on the soil surface.

The biggest advantage of propazine is it controls both grasses and broadleaf weeds. A second advantage is even if chemical drift occurs during application it is not toxic to cotton. Propazine is dependable, Wiese continues, because it will work well even if rain does not follow soon after application.

This residual action is also the biggest disadvantage of propazine. Susceptible crops cannot be grown for 18 months after application of the herbicide. The only crops which can be grown successfully the year following propazine applications are corn and sorghum. Because of the

long residual period, propazine use is not advised on dryland fields in west and northwest Texas.

Research with propazine on the High Plains was initiated by Wiese in 1958. Since then about 25 chemicals have been tested as possible sorghum pre-emergence herbicides. None have proved as effective as propazine. Because of favorable results in test plots, propazine has been applied to field-size plots on two farms each year since 1961. Average yields of grain were 6090, 5830, and 5620 pounds per acre for areas receiving 1, 2, and 3 pounds per acre of propazine. Where cultivation alone was used for weed control, yields averaged 5710 pounds per acre.

Suggested rates of propazine application for the High Plains area are two pounds per acre on the silty clay loam soils for control of both grasses and broadleaf weeds, says Extension Agronomist Billy Gunter. If careless weed or pigweed are the only weeds present, one pound per acre broadcast is sufficient for season-long control. (Goat heads will not be controlled with one pound per acre.) In fields where the soil type is fine sandy loam or coarser, Gunter says, one pound per acre should be the maximum rate applied. It is not advisable to use propazine on fields of pure sand because serious injury to the crop may result.

The most profitable use of propazine on the High Plains will be for weed control in narrow-row sorghum. Sorghum planted in 10-inch rows is difficult to weed mechanically but will produce up to 1,000 pounds per acre more than sorghum planted in 40-inch rows.

County ASCS News Report

The 1964 Feed Grain Program is much the same as the 1963 program, according to Prentice Mills, office manager of the Farmer County A.S.C.S. Notices will be mailed soon regarding acreage and payment rates, with a pamphlet explaining the main provisions of the 1964 program.

It appears that a 50 per cent or more diversion will appeal to most farmers this year because of the increase payment rate.

Important dates to remember in the near future are: January 31, 1964 is the final date for placing 1963 crop Wheat, Barley, Grain Sorghum or Soybeans under loan.

January 31, 1964 is the final

date to file for a 1963 Marketing Year Wool Incentive Payment on wool or unshorn lambs sold during the 1963 Wool Marketing Year.

February 4, 1964 is the final date for filing an application for an increase in a 1964 cotton allotment from released acreage.

NOTE: It is not known as to whether we will receive any released acreage from "down state," but an application must be filed in order for a farm to be eligible to receive re-allocated acreage should acreage be made available.

February 10, 1964 Sign-up under the 1964 Feed Grain Program will start on this date.

March 27, 1964 Closing date for the 1964 Feed Program Sign-up.

April 30, 1964 Deadline date for placing 1963 crop Cotton under CCC loan.

TODAY is the day to bring in your feed grain yield data for the crop years 1959 thru 1962, if you intend to try to establish a proven yield on your farms.

THOUGHT: The only thing you can be sure of accomplishing are the things you do today.

Pine Tree Seedlings Available

COLLEGE STATION, Texas --Applications for the purchase of pine tree seedlings are still available from the district offices of the Texas Forest Service, County Agricultural Agents, ASCS offices and Soil Conservation District offices, according to Don Young, head, Forest Management Department of Texas Forest Service, College Station.

Tree seedlings this year includes three species suitable for reforestation planting primarily in East Texas; however, some of the pine seedlings are being used for windbreaks.

Slash, loblolly and shortleaf pine seedlings sell for \$5.50 per thousand, plus state sales tax. Slash and loblolly pine seedlings from seed production areas sell for \$6.50 per thousand, plus tax. Prices are f.o.b. the Indian Mound Nursery near Alto, Cherokee County.

"These seedlings are sold only for reforestation, windbreaks and erosion control; none are sold for ornamental purposes."

Pine seedling shipments will continue through the end of February; however, planters are urged to get their seedling orders in now while the supply lasts and the weather is still favorable for tree planting.

A copy of Circular 54, "How to Plant Forest Trees Seedlings," is enclosed with each order.

"Additional information on planting sites and selection of the best species of pine seedling can be obtained from your nearest district forester of the Texas Forest Service," Young said.

The blue krait of India is one of the most toxic snakes known. Its venom is 50 times as potent as potassium cyanide.

Headliners At The Supermarket

Beef and pork are the headliners at supermarket meat counters this week, says Mrs. Gwendolyn Clyatt, Extension consumer marketing specialist.

Some stores are featuring ham, and fryer chickens continue to be good values. Dairy products and eggs remain economical protein choices, the Extension specialist reminds.

There's plenty of frozen and canned fishery products to fill menu needs at reasonable prices.

Citrus fruit prices remain about the same as last week, and the quality is good. "Citrus is about the most economical source of Vitamin C on the market in fresh form now," the home economist reports.

Apples and bananas are in good supply, and there may be some specials on bananas soon.

At vegetable counters, winter standbys are moderately priced. Carrots, cabbage, onions, potatoes, winter squash and turnips will give top eating enjoyment for just a few cents a serving. Lettuce and celery are the tender vegetables in best supply. Check the quality carefully as you shop, suggests Mrs. Clyatt.

Cotton Market

Spot cotton prices quoted on the Lubbock market on Jan. 14, 1964 as reported to the Cotton Division, Agricultural Marketing Service, U. S. Department of Agriculture and comparable Commodity Credit Corporation loan rates.

Schools To Receive Chicken Allotment

Who would be absent from school when fried chicken is on the menu?

And fried chicken will be on the menu often in Texas school cafeterias taking part in the National School Lunch Program, for they will receive 2,430,000 pounds of frozen young chicken from the Agricultural Marketing Service.

This allotment is part of the 50,100,000 pounds of chicken purchased by the U. S. Department of Agriculture with National School Lunch Act funds. About 1,470,000 pounds of this chicken was bought from Texas processors.

The purchase program ended

December 18 and all shipments will be completed by about February 1, according to the AMS southwest area food distribution office, Dallas.

Total USDA purchases represent about 7-1/2 servings of chicken per child for the 16 million school children participating in the National School Lunch Program.

USDA's Agricultural Marketing Service bought only U. S. Grade A fresh frozen, cut up young chickens ranging in weights from 2-1/4 to 2-3/4 pounds on a ready-to-cook basis.

Birds sold to AMS must have been produced in the continental United States.

Springlake Man Named Interim Group Chairman

House Speaker Byron Tunnell has designated Representative Bill Clayton of Springlake as Chairman of the Interim Committee on Protection and Development of Soil and Water Resources.

Previously named to the committee along with Representative Clayton were Representative Menton Murray of Harlingen and Henry Fletcher of Lubbock.

The five man committee was completed with the announcement of the appointment of Mr. Sam Wohlford of Stratford to represent the Texas Water Pollution Control Board, and Mr. A. F. Leesch of Boerne to represent the Texas Soil Conservation Board.

This committee, authorized in a Resolution authored by Rep. Clayton, is directed to study the problems incurring as a result of the growing shortage of water in the State with the responsibility of offering new methods of protecting the vital natural resources of both water and soil within Texas.

On announcing these appointments, Speaker Tunnell commented, "The vital interest of all of these men in the problems of conservation will undoubtedly yield an informative study which will serve as an invaluable aid to the next session of the Legislature in formulating constructive legislation in these fields."

Pears have become known as a glamor fruit, and the winter varieties of Anjou, Comice and Bosc are now on the market. Ripen pears at room temperature until the flesh near the stem end yields slightly to thumb pressure. It may take several days for the fruit to reach eating ripeness. The pears may then be held for several days in the refrigerator. Chilling enhances their mellow flavor. Warm baked pear halves topped with cranberry jelly are an interesting accompaniment for meat.

This is the season of the year when iron-rich dried fruits are readily available and can make a fine contribution to the menu, says Mrs. Gwendolyn Clyatt, Extension consumer marketing specialist. Prunes and raisins account for the greater part of dried fruit consumption, although apricots, peaches, dates, figs and apples are available. One pound of dried fruit is equivalent to about four to six pounds of fresh fruit, the specialist stresses.

The women who learn to sew may create designs and clothes that are right for her and her family. This may be a wonder-

Micronaire Readings Proposed For Cotton Price Support

The U. S. Department of Agriculture has announced it will receive views, data, and recommendations on the proposal that micronaire readings, commonly referred to as "mike" be included as an additional quality test for cotton going under price support loan beginning with the 1964 crop.

The mike test would be in addition to the traditional quality measurements of grade and staple length, it would furnish another indication of quality and it is proposed that a schedule of premiums and discounts in price supports be set up to tie in with the various mike readings.

Mike readings are made by several airflow measuring devices. By measuring the resistance to the passage of air, the fineness and maturity of the fiber can be determined. Both of these qualities affect the spinability and, therefore, the value of the cotton. Mike readings are widely used in commercial cotton transactions, and this move would bring the Commodity Credit Corporation's cotton activities more closely in line with commercial practices.

At Home In Parmer County

By CRICKET B. TAYLOR
County HD Agent

Plans are completed for the basic sewing class that is scheduled to have its first meeting Jan. 29, prior to the workshop to start Feb. 17. Thirteen have registered for the course. Sewing can be creative, and provide clothing that is right for the individual as well as being economical.

More and more emphasis is being placed upon dress. A favorite subject of discussion for a long time has been the question "Do clothes make the man or woman?", and "for whom do women dress?" Perhaps the "why" of women's clothing has been emphasized but regardless of "for whom" we dress clothing is the expression of the person, reflecting their personality, way of living, way of thinking and especially, pride in self or family.

We hear often the expression, "she has good taste," in clothing, as in other aspects of life, good taste implies knowledge is the proper use of our tools - materials, design and color to create the image one seeks to achieve.

Usually the short person wants to look taller, the tall person wants to look shorter and so it goes with most of us - few have the perfect figure.

Lets take color, for instance, and see how it can be used to achieve more height. Too much contrast in color detracts from the whole picture. The important thing is to have the contrast at the point you wish to emphasize. Keep the eye moving in the direction which you wish it to travel - that is upward, in that case eliminate decoration trim or bright color from points at which you do not want the eye to stop (as the too big waistline or hips).

A short person may use repetition of color in her hat to gain more height - or a lighter color, but for her, bright colors would be a mistake as this would stop the movement of eye upward.

The woman who learns to sew may create designs and clothes that are right for her and her family. This may be a wonder-

ful source of satisfaction and achievement in using skills and discovering hidden talents.

1964 Farmer Tax Guides Available

The 1964 edition of the Farmer's Tax Guide is now available, says C. H. Bates, farm management specialist, at Texas A&M University.

This handy, easy-to-read guide contains information applicable to every phase of farm income tax reporting. Bates explains. It shows sample returns completely filled out with an explanation of the figures, he says.

Investment credit, one of the newer features of the tax structure, is fully explained in the new guide. It points out that a reduction in taxes paid for 1963 is based on tangible personal property and real property acquired last year. As much as seven percent of the cost of these items is allowed as a deduction but the percentage varies with the useful life of the

assets, says Bates.

Another feature of the guide is an explanation of how to sell a farm on installments and examples are given to help clarify the procedure for computing taxable gain. Also an explanation of depreciation methods and the additional first year depreciation is given, says Bates.

Other sections of the guide cover the importance of good records, farm business expenses, farm inventories, casualty losses and thefts, an explanation on completing the return, and many more.

Copies of the Farmer's Tax Guide may be obtained without charge from the county Extension offices or those of the Internal Revenue Service. Bates recommends that a copy be kept handy for reference on tax matters concerning the farm.

Chemical Weed Control Recommendations Listed

The use of chemicals for weed control continues to increase in popularity with cotton growers, reports Fred C. Elliott, cotton specialist for the Texas Agricultural Extension Service. The reason -- their use saves both time and labor.

Recommended chemicals for use in 1964 have been listed by Elliott. Those for pre-emergence use are diuron, monuron, herb-an and prometryne. Two materials which show much promise are recommended by the specialist on a trial basis. They are dacthal and treflan.

for use after the cotton is up include diuron plus surfactant and herbicidal oil. Recommended on a trial basis is prometryne plus a surfactant. Lateral oiling -- from the acres treated standpoint -- is the most widely used practice involving chemicals for weed and grass control, Elliott says.

Chemicals for spot oiling Johnsongrass are in wide use in 1964 include naphtha, general contact weed oils or diesel oil fortified with C-56. Dalapon is also recommended for spot treatment use as a foliar spray on Johnsongrass.
