

WELCH NAMED CHAIRMAN

Lewellen, Moseley Are
Winners In Demo Vote

This is "Soil Stewardship Week," and a lot of our soil (or New Mexico's has been celebrating the week in high fashion.

At least the soil in the air has been very prominent lately, and volleying for its share of the attention.

Days like we have had this spring makes it easy to see how that federal scout, in a special report to Washington, said after an expedition to this part of the country some time last century: "This is just a wasteland. It is not feasible for development."

But, of course, days like those we have following the dust storms or "big blows" are usually even the more beautiful.

And, as someone has pointed out recently, it's a lot easier to clean up after a dust storm than either a tornado or an earthquake.

Hope everyone's favorite candidates won last Saturday, although while saying that we realize that would be an impossibility, since no one candidate got all the votes.

Friona candidates did right well by themselves, Nelson Welch retained the Democratic county chairmanship, and ex-Frionan Hugh Moseley won election as tax assessor-collector.

Also, Jim Dixon, Frionan - by - way - of - the - Rhea - community, was elected county Republican chairman. Dixon was unopposed for the seat. Former county Republican chairman, Les Bruns, has moved into Muleshoe, and while he still farms south of Friona, isn't as active in county politics as before.

We had decided prior to the election that with all the turmoil over the U. S. Senate race, referring to the Democratic primary where voters had to choose between the most desirable of two relatively undesirable candidates, that perhaps the best thing to do would be to revert to the Republican primary, and vote for someone like George Bush, who at least had a good television personality.

Apparently that's exactly what many people did. At least Bush ran a surprisingly strong race in the Republican primary, almost defeating veteran campaigner Jack Cox and two others without a runoff.

So, if Bush defeats Cox in the runoff and opposes Ralph Yarborough in November, an interesting race could develop, and Texas might very well have both senators from the Republican camp, if Bush gets as many anti-Yarborough votes as did Gordon McLendon.

We've had an opportunity to thoroughly inspect the latest edition of the "Chieftain," Friona High School yearbook, and would like to offer our congratulations to the yearbook staff and sponsor for a job well done.

Some of the school officials commented that the yearbook was the best "that they remember."

We were particularly impressed by the amount of copy, or historical content in the yearbook. This is something which yearbook judges in contests always stress (the use of more copy), and we think the yearbook staff members are to be commended for compiling quite a "running story" of the 1963-64 school year at Friona High School.

Naturally, being a newsman, I like to see a lot of writing in such books. It will come in handy in the future for reference purposes time and again.

Our own personal experience with yearbooks with a lot of "copy" content goes back to Texas Tech in 1958-59 where we were co-editor of the first college yearbook in the nation to publish with a "magazine format," -- actually printing our yearbook in a series of individually - bound "magazines," which were then contained in a large binder.

It was quite a job that first year -- convincing everyone on something new. However, we notice that in the ensuing five years, it has become increasingly popular at Tech, and now several other colleges and universities are patterning after the idea.

Tom Lewellen, commissioner for Precinct 1, and candidate for re-election, was given the Democratic primary nomination, and five other county officials bidding for re-election passed the primary test in last Saturday's voting.

Lewellen defeated Forrest Osborn, 413-211, and now will face Republican Thomas Parson in the November general election.

Winning his job back as county

Democratic executive committee chairman was Nelson Welch, who topped Bovina's Dolph Moten, 782-608 in fairly-close balloting for the county chairmanship.

Hugh Moseley, who had been appointed to the job of tax assessor-collector last August following the resignation of Lee Thompson, was elected to a full term over Mrs. Bill Moss, by a vote of 1028-462.

Ernest O. Northcutt, judge

of the Court of Civil Appeals for this district, was successful in re-gaining the nomination without opposition were Sheriff Charles Lovelace and County Attorney Hurschel R. Harding. District Attorney Jack Young of Muleshoe also fit this category.

Lewellen had overwhelming support in Friona and Black, as well as most of the absentee votes. But he lost the Lakeview box, 22-21, to his brother-in-law, a former commis-

er.

Welch won majorities at Black, Friona, Farwell, Rhea and Lakeview, as well as holding an 11-10 margin in the absentees, Moten, publisher of the Bovina Blade making his first attempt at a county-wide position, won his hometown Bovina precinct, as well as Lazbuddie and Oklahoma Lane.

Moseley won every voting box, his closest test being at Lakeview, where he won by 24-19.

TOM LEWELLEN

NELSON WELCH

Friona Voters Go
Along With Trend

Friona voters pretty well stayed with the favorites-or winners-in both the Democratic and Republican primaries here the past week.

Voters of the local precinct joined those statewide in giving Governor John Connally a majority. Vote here for Connally was 349, to 143 for Don Yarborough, Ralph Yarborough, who had a better margin statewide, barely edged out his opponent, Gordon McLendon, in the U.S. Senate race, 254-241 in Friona.

Friona gave Joe Pool a majority of the votes, 261, in his race for re-election to the congressman-at-large spot.

Lieutenant Governor Preston Smith of Lubbock was given a huge vote of confidence, receiving a more than 10-1 vote over his opponent, Albert Fuentes of San Antonio, or 458 to 46. This was the largest number of votes received by anyone in the primary voting.

All the other winning candidates were given good majorities, including John C. White for Commissioner of Agriculture, Jerry Sadler, Land Commissioner, Jim Langdon, Railroad Commissioner, Jack Pope, Supreme Court, and Ernest Northcutt, judge of Civil Court of Appeals.

Countywide, Connally also received an overwhelming vote of 1,001, compared to 445 for Don Yarborough. Smith took Parmer County by a vote of slightly less than nine to one, 1307 to 149, Ralph Yarborough topped McLendon, 835 to 626, and Joe Pool had a majority of the votes in his race, 766.

In the Republican primary, Friona, as expected, gave "county son" Frank Hinkson a margin of 48-22. Hinkson carried the county easily, 138-27, although dropping the race for U.S. Representative to Pampa's Bob Price.

In the Republican senatorial race, battling to oppose Ralph Yarborough, George Bush received 44 votes in Friona to 18 for Jack Cox. Bush also led county voting, with 88 votes, to 39 for Cox.

Barry Goldwater, as he did statewide, by far outdistanced all opponents in the presidential preferential vote. Goldwater received 59 votes in Friona of 70 votes cast, and had 143 in the county, of 165.

A total of 598 voters cast ballots in the two primaries in Friona, which compared to 610 two years ago in the primary. There were 1707 voters in the county as a whole, compared to 1789 in the 1962 primary.

Commissioners Name
New County Agent

Joe Van Zandt, 28, a native of Wheeler County, has been employed as Parmer County Agricultural Agent, filling the void left recently by the resignation of Deryl Coker.

Van Zandt, who is married and is the father of two daughters aged one and four, is a

1959 graduate of Texas A&M. While in college, he was chairman of the state 4-H Club Council, and also participated on A&M's livestock judging team.

The new county agent has served as assistant county agent in Travis County (Austin), and recently has been county agent in Live Oak County (George West). He was a 4-H Club leader while in high school.

Mrs. Van Zandt is a native of McLean. The appointment was made at a meeting of the Parmer County Commissioner's Court April 24, and is effective May 21.

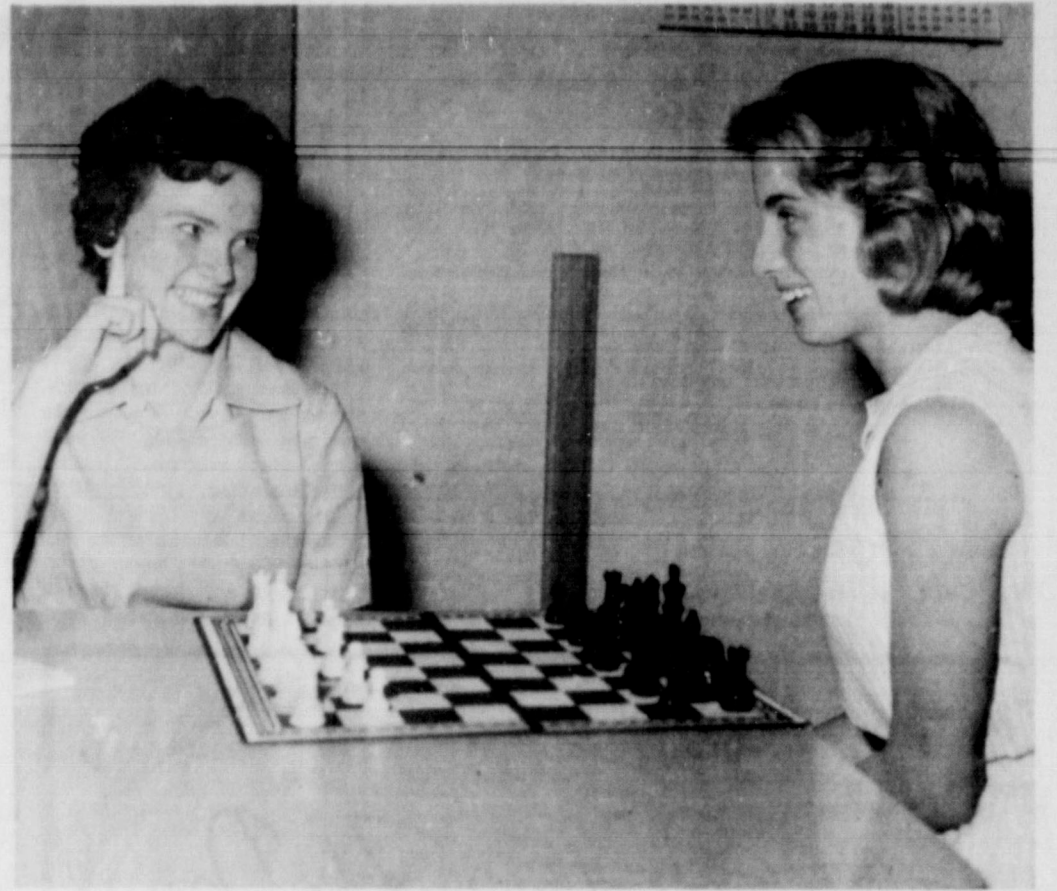

DRAKE, BAXTER

New Directors Named
By Friona Consumers

Earl Drake and Billy Dean Baxter were elected to the board of directors at the annual meeting of Friona Consumers last Saturday afternoon.

A crowd of 96 stockholders attended the meeting, held at the American Legion Hall.

Johnny (Uncle Jay) Linn, manager of Radio Station KDHN, Dimmitt, entertained the group with witty characterizations. The Trebelaires, under the direction of Eva Miller, sang several folk songs, Jack Cane

A BATTLE... Belinda Mabry, left, "won the battle" against Kara Beth Sides, left, for scholastic honors among the Friona eighth grade graduating class.

KARA BETH SIDES SECOND

Belinda Mabry Named
Jr. High Valedictorian

Belinda Mabry and Kara Beth Sides are the honor students for the eighth grade graduating class, according to an announcement this week by Tom Jarboe, Junior High School principal.

Miss Mabry, daughter of Mr. and Mrs. W. R. Mabry, is the class valedictorian, compiling an average for the year of 95.91. Miss Sides, daughter of Mr. and Mrs. Billy Sides, had a grade average of 95.41.

Both of the honor students have been quite active with extra-curricular activities, both this year and throughout their junior high school years.

Belinda was selected class favorite of the eighth grade, along with Ronnie Altman. She participates in basketball, hand, the Pep Club, Science Club (which she served as secretary) and was reporter for her home room for the school newspaper. Belinda entered the second-place exhibit in the school's science fair recently.

Kara Beth is also a member of the junior high band, and is a member of Rainbow, as well as the Methodist Youth Fellowship at her church. She, too, is a member of the Pep

Club. The two top students had a battle for the class honors. Two other class members had averages of 95 or better, John Bill McFarland and David Reeve tied for third highest honors with identical averages of 95.33. Following those four stu-

dents, in order, came Becky Coffey at 94.91; Crista Evans, 94.66; Larry Frank Truitt, 94.00; and Mike Reznik, 93.41.

The honor students will have special duties at the class graduation exercises on May 30.

GIRLS HONORED

Lazbuddie Honors
Are Announced

Gayla Roxann Seaton, daughter of Mr. and Mrs. R. B. Seaton, has been named valedictorian of the Lazbuddie High

shoe Assembly of God church, Gayla served as Lazbuddie's Co - Ed correspondent her sophomore year.

Miss Gallman has also participated in class plays and the Interscholastic League contests. She has been a Student Council and Library Club member. Twila has served two years as a class officer. She has been a member of FHA four years, serving as president and secretary the past two years.

Twila has been a member of the pep club, and was winner of the biology award her sophomore year, and the English and shorthand awards her junior year. She served as art editor for the school yearbook. She is a member of the Lazbuddie Methodist Church.

The two honor students will give addresses at commencement exercises May 15. Baccalaureate services are to be held Sunday, May 10, at the High School Auditorium.

Church Plans
Special Service

Sunday night at the First Baptist Church, the service will be given over to a sacred music concert, featuring the combined youth choirs of the First Baptist Churches of Canyon and Hereford, under the direction of Bud Lovell, Canyon, and Duane Barrett, Hereford.

The young people will be feted to a fellowship hour following services.

At the close of school, these choirs are to make a tour of the West and Northwest, singing in churches in Arizona, Nevada and California.

Soil Film Set
At Bank Today

As a highlight to Soil Stewardship Week in Friona, the Board of Supervisors of the Parmer County Soil Conservation District will hold a meeting at 10 a.m. today in the Community Room of Friona State Bank.

A 15-minute film in connection with Soil Stewardship Week will be shown.

Some Friona churches observed Soil Stewardship Sunday in their services the past Sunday. Others will do so on the coming Sunday.

ON ITS WAY... A letter to President Johnson and his family is being handed to Postmaster Wright Williams by James Bartlett, a member of the third grade section taught by Mrs. Aubrey Rhodes. A field trip downtown Tuesday afternoon and tour of the post office was directed by Mrs. Rhodes following completion of the letter by members of her class.

COUNCIL BUSINESS

City Awards Contract For New Water Well

The City of Friona awarded a contract for drilling a new water well to Walco Drilling Company of Hereford in action Monday. The Hereford firm was low bidder with a bid of \$11,268 for the job.

The new well is to be completed by July 1, in time to help the city during its peak water usage months of August and September. Drilling is to start around May 25.

In other business at the city council meeting Monday night, city employees were given a better group insurance pro-

gram, at a cost to the city of about \$15 additionally per month.

Parmer County Pump Company was awarded a contract to renovate water well number 4, a job consisting of rebrushing and resleeving of the main drive shaft.

Expenditure of \$522.55 for three additional oversized water meters, "Husky" valves and associated water equipment was authorized, from Western Industrial Supply Co.

The council also went on record as favoring the hiring of a second full-time patrolman for the police force, giving the force three full-time men. This, as outlined by Police Chief Bill Morgan, would enable the employees to work three eight-hour shifts daily for full 24-hour police protection for the city.

As it now stands, there is a "dead" period of four to five hours per day, since the force operates with two full-time men, a part-time man and a dispatcher.

City Manager A. L. (Jake) Outland was given authorization to attend the Texas Municipal League's spring meeting at Odessa June 7-9.

In his monthly summary of activities for the city office, Outland reported that there were 22 changes of ownership in city property as reported by the County Clerk's office during April.

Ten building permits were issued, seven for new residences (\$118,700), one for a new commercial building (\$35,000), and two for additions/alterations (\$1,650), for a total building value for the month of \$155,350.

Six new water meter services were installed during the month, bringing the total active services at the end of the month to 941.

Water usage during April totalled 17,008,100 gallons, an average of 566,937 gallons per day - almost a 100 per cent increase over the previous month.

A pump went out at the sewage department early in the month, but repairs were made on April 22. Four new sewage taps were made to bring the total to 864 as of April 30.

Seven fire calls were made during April—all outside the city limits with one exception. Greatest single loss was at the Johnson Simms farm 36 miles north of Friona, estimated at \$10,000.

Police officials reported 19 arrests during the month. Four accidents were investigated, although none involved serious injury.

Special effort was made during the first week of April to get the remainder of the street intersection signs installed.

Reynolds' Kin Passes Away

Herbert L. Miller, son-in-law of Mabel Reynolds, county treasurer, died in Houston Monday. The funeral services were to be held Wednesday at 3 p. m. Miller's wife is the former Geraldine Reynolds.

Church Dedication Is Planned Here Sunday

A dedicatory service for a church building recently moved to the Mexican Mission property has been planned for 3 p.m. Sunday. The building will

serve as an auditorium and will provide seating capacity for about 250 persons.

Rev. Argus Burnett, Amarillo, superintendent of missions of Amarillo Baptist Association, will deliver the dedicatory address. Rev. Truett Fogle, co-ordinator of Latin American work in the association, will also have a part on the program.

A history of the local mission, which was organized in 1955, and is sponsored by First Baptist Church will be read. Membership, which was very small, at the beginning, has increased to a figure slightly over one hundred. Sunday School attendance averages about 100.

Kenneth Nell, chairman of the mission committee, will lead the prayer of dedication.

Rev. Joe Garcia, pastor, invites everyone to attend the dedication service and reception which is to follow.

OFF TO THE CONVENTION . . . Nine persons were in Friona High School's delegation to the state FHA Convention in Austin last weekend. Pictured here are Mrs. Ernest Osborn, Linda Outland, Linda Rector, Lois Ann Moyer, Karen Sue Osborn, Nergis Yazgan, Mrs. O. B. Moyer and Diana Taylor. Mrs. Dalton Caffey, chapter advisor, and Mrs. Folster Rector also attended the convention.

Donald Woods Buried Tuesday

Funeral services for Donald Allen Woods of Richmond, Calif. were conducted there Tuesday, May 5. He was born November 21, 1952 and died May 1, 1964 at Children's Hospital in Oakland, Calif., after a long illness.

Survivors, besides his parents, Mr. and Mrs. T. W. Woods, include a twin brother, Thomas, and a sister, Pam, both of the home.

Mrs. Woods, the former Louise Parker, is the daughter of the late Willis Parker, and a former Friona resident.

Court Discusses Right-Of-Way For Projects

The Parmer County Commissioner's Court authorized an appraisal of the Sunset Terrace Cemetery near Farwell to arrive at a state-approved value for right-of-way purposes. The action is in anticipation of possible "protective" right of way purchasing for the eventual widening of Highway 60 between Farwell and Friona.

Also, the court authorized the county attorney to proceed with condemnation proceedings against Robert Leach of Muskogee, Oklahoma.

This latter item is in regard to right of way for Farm Road 2013 in the northwestern part of the county, which is to be extended northward.

John Avery Lomax, one of the founders of the Texas Folklore Society, traveled 200,000 miles and visited all except one of the states while collecting folk songs.

Donald Woods Buried Tuesday

Funeral services for Donald Allen Woods of Richmond, Calif., were conducted there Tuesday, May 5. He was born November 21, 1952 and died May 1, 1964 at Children's Hospital in Oakland, Calif., after a long illness.

Survivors, besides his parents, Mr. and Mrs. T. W. Woods, include a twin brother, Thomas, and a sister, Pam, both of the home.

Mrs. Woods, the former Louise Parker, is the daughter of the late Willis Parker, and a former Friona resident.

OFF TO THE CONVENTION . . . Nine persons were in Friona High School's delegation to the state FHA Convention in Austin last weekend. Pictured here are Mrs. Ernest Osborn, Linda Outland, Linda Rector, Lois Ann Moyer, Karen Sue Osborn, Nergis Yazgan, Mrs. O. B. Moyer and Diana Taylor, Mrs. Dalton Caffey, chapter advisor, and Mrs. Foister Rector also attended the convention.

Court Discusses Right-Of-Way For Projects

The Farmer County Commissioner's Court authorized an appraisal of the Sunset Terrace Cemetery near Farwell to arrive at a state-approved value for right-of-way purposes. The action is in anticipation of possible "protective" right of way purchasing for the eventual widening of Highway 60 between Farwell and Friona.

Also, the court authorized the county attorney to proceed with condemnation proceedings against Robert Leach of Muskogee, Oklahoma.

This latter item is in regard to right of way for Farm Road 2013 in the northwestern part of the county, which is to be extended northward.

John Avery Lomax, one of the founders of the Texas Folklore Society, traveled 200,000 miles and visited all except one of the states while collecting folk songs.

BEST DRESSED HOBOS. Marsha Thompson and Tommy Mars were judged best dressed hobos at a party for members of Junior II training union of First Baptist Church at the home of Mr. and Mrs. Wesley Hardesty Friday afternoon. In the picture the two appear to be ready to "head for the jungles."

Training Union Group Entertained With Party

Mrs. Wesley Hardesty entertained the junior II training union department of First Baptist Church with a hobo party at her country home Friday afternoon. She was assisted by Mrs. O. J. Beene and Lucy Beth Miller.

Awards for best dressed hobos were given to Tommy Mars and Marsha Thompson.

It's A Boy For Whites

Mr. and Mrs. James Lee White, Farwell, became parents of a baby boy at 3:19 p.m. Tuesday, April 28 at Farmer County Community Hospital. He was named Jerry Leonard.

Paternal grandparents are Mr. and Mrs. Henry G. White, Friona.

Refreshments were served by the hostesses.

Those present were Gayetta Gable, Denise Buske, Rex Talley, Richard Dickson, Becky Neill, Marsha Thompson, Mike Dukes, Ramey Beene and Tommy Mars.

Also Paula Fortenberry, Barbara Latham, Mary Ellen Scales, Patricia Roberts, Connie Stone, Myra Sue Day, Mr. and Mrs. Johnny Mars and Mr. and Mrs. Bill Ellis and Laura.

Attend Opening

Mr. and Mrs. Claude Osborn and Mr. and Mrs. C. W. Dixon spent Sunday afternoon in Dimmitt.

They attended the opening and dedication of the new Plains Hospital in the Castro County capital city.

Hobo Day Planned For Eighth Graders

Members of the eighth grade will have a "Hobo Day" Friday. Each class member will dress as a hobo and will attend regular classes until 11:45 a.m.

A king and queen of the day will be elected and a class parade led by these two students through the downtown section will begin at 11:50. The king and queen will be riding in a cart pulled by a donkey.

Following the parade students will go to the Hub Community Center by bus and will be served a barbecue meal by mothers. Games and other activities will highlight the afternoon and students will return to the school building at 3:30 p.m.

Jay D. Houston Born Recently

Mr. and Mrs. Owen Houston of Canyon became parents of a baby boy at 2:40 p.m. Saturday, April 25. He was named Jay Donald and weighed 7 lbs. 3 ozs.

The Houstons, who have a daughter, Robin, 4, will be moving to Morton about the middle of the summer. Houston, who will receive his degree from West Texas State University at Canyon later this month, has accepted a position as industrial arts teacher in Morton High School.

Mr. and Mrs. J. T. Gee and Mr. and Mrs. T. L. Houston are grandparents. Great-grandparents are Mr. and Mrs. T. F. Rodgers, Lubbock, Mrs. J. S. Jackson, Carbon, Texas, and O. G. Glover, Honey Grove, Texas.

Mrs. Leon Coffey and children, Roger and Janice, spent the weekend visiting relatives and friends in Snyder, Texas.

MRS. JOSEPH S. GREEN JR.

Rozell Auburg Weds Joseph S. Green Jr.

Miss Rozell Auburg, Dallas, became the bride of Joseph S. Green Jr., Irving, in a double ring ceremony Friday evening. Marriage vows were exchanged between the couple in the home of Mr. and Mrs. Don Phillips, Dallas.

Rev. James Gatlin was the officiating minister.

The bride is the daughter of Mr. and Mrs. D. M. Auburg, Friona. Mr. and Mrs. Joseph S. Green Sr. of Chestertown, Maryland, are parents of the bridegroom.

For her wedding the bride wore a street length gown of white silk organza over taffets designed with a scoop neckline outlined with seed pearls and iridescent sequins. The bouffant overskirt was embroidered to match the neckline and fastened with a bow at the waistline.

Her shoulder length veil of illusion was attached to a crown of white silk organza over taffets designed with a scoop neckline outlined with seed pearl embroidery. She wore her mother's wedding band as something old and borrowed with the traditional blue garter.

She carried a cascade of miniature white Sweetheart

roses. Mrs. Green, a graduate of Turkey High School and Southwestern Junior College, Waxahachie, is employed by Kay Engineering Co. in Dallas. Her husband, a graduate of Chestertown High School, served four years in the U. S. Navy and is now an employee of Texas Instruments in Dallas. Following a wedding trip Mr. and Mrs. Green will be at home at 1010 North Nursery in Irving.

Past Matrons Elect Officers

Mrs. U. S. Akens was elected president of Kinsley Past Matrons Club at the Friday afternoon meeting in the home of Mrs. Ed Boggess. Officers elected to serve with her were Mrs. Boggess, vice-president; Mrs. Mack Bainum, secretary-treasurer.

Next meeting of the club will be in the home of Mrs. J. T. Guinn June 5.

During the social hour refreshments of coffee, cake and ice cream were served.

Coloradoans Visit In Friona Homes

Mr. and Mrs. Jack Clark and Mrs. Herman Bettger all from Brighton, Colorado and Mr. and Mrs. H. L. Jeffers, Aurora, Colorado were weekend visitors in the home of Mr. and Mrs. Scott Weir.

Other weekend visitors in the Weir home were Mr. and Mrs. Sam Weir, and family, Seminole and Mr. and Mrs. Charles Davis, Hereford.

Nat Jones and daughter, Mrs. Neva Raybon of Springfield, Colo. spent several days last week visiting in the homes of Mr. and Mrs. Billy Raybon and Mr. and Mrs. Arthur Drake.

Mrs. Edna Jeffers, Brighton, Colo. spent the weekend visiting in the home of Mr. and Mrs. Howard Mayfield, Mrs. Jeffers and Mrs. Mayfield are sisters.

Sunday Guests

Guests in the home of Mr. and Mrs. D. M. Auburg Sunday were Mrs. Austin Boatright and Dian and Mrs. Lyndle Bates and daughters, Pam and Beverly, of Morton and Mickey Thompson, Levelland.

Mrs. Boatright is Mrs. Auburg's sister and Mrs. Bates is her niece.

Music Program Set For Friday

Pupils of the first, second and third grades will present "Music Through the Seasons" Friday evening.

Mrs. John R. Cook, elementary music teacher, will direct the program.

The program, which begins at 8 p.m. will be open to the public. Everyone in the area is invited to attend by Principal J. T. Gee.

Mrs. Tommie Parker and Ronnie Reed spent Sunday visiting in the homes of Mr. and Mrs. Joe Carlisle and Craig and Mr. and Mrs. Johnnie Parker and Dan.

Suzann Harper Elected Editor

Suzann Harper, a 1962 graduate of Friona High School and daughter of Mr. and Mrs. Newell Harper of Route 1, Friona, was recently elected editor of the college clubs section of Colorado Home Economics Association.

SUZANN HARPER

This publication is made up of activities of all college home economics clubs in the state of Colorado and the editor's duties are to publish a minimum of four newsletters during the regular session and sending them to all member clubs.

Miss Harper, a junior home economics education major at Colorado State College at Fort Collins, has also been elected president of the home economics club of that school and will be installed May 13. She

has served as American public relations officer and historian during the current school year.

Mother of Frionan Honored Wednesday

Mrs. Alvah Lynch was honored with an afternoon tea Wednesday in the Dan Hunter room of Empire Electric at Cortez, Colo. She was recently named one of Colorado's 10 most outstanding mothers for 1964.

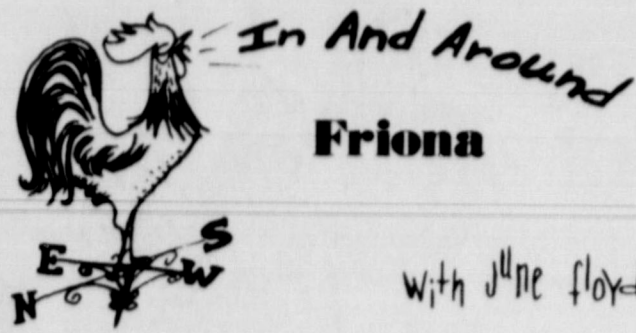

She and her husband, Rev. Lynch, pastor of First Baptist Church at Cortez, went to Denver for a luncheon for Mothers of the Year at Park Lane Hotel May 2.

Mrs. Lynch is the mother of Mrs. Joe Lewellen, Friona, and has seven other children.

Mr. and Mrs. Lewellen flew to Cortez for the tea Wednesday afternoon.

MRS. ALVAH LYNCH

Operation "Exodus . . . presented a devotional at the Tuesday evening meeting of Modern Study Club that was very inspirational and included a recipe for help in growing a spring garden. It went like this: First, plant five rows of peas. . . Preparedness, Promptness, Perseverance, Politeness and Prayer.

Del Lewis, a talented musician and actor, has appeared in several off Broadway musicals in New York City in recent years. He is a graduate of Friona High School, Midwestern University at Wichita Falls and studied at Columbia University.

Before school starts this fall a number of Frionans plan to take in the World's Fair. Some of those making tentative plans are the Steve Struves, David Carsons, Mr. and Mrs. Tommie Paris and Mrs. Rene Snead.

While visiting with a local subscriber and advertiser recently, I learned that the Star classified section is the first part of the paper several persons read. This particular person said, "Next time I have something I want to advertise, I'm going to run it in the classified section. Everyone I know reads everything in the classifieds."

Friona residents aren't the only ones who read the classifieds. Recently Jinni Landrum Konis ran a classified advertising her apartment for rent. A reader in New Jersey read it and rented the apartment for the time she and her party plan to be in New York City.

It would probably be interesting to know the number of Friona residents who have reservations for the Konis apartment before the summer's end. Jinni and Ben take to the water every summer and spend three months living in a boathouse.

Most of us are aware that youngsters are instinctively honest. With this idea in mind, a farmer, who wanted to buy a cow, quizzed a young boy about the amount of milk a certain cow produced. He began by asking, "Son, how much milk does the old spotted cow give?"

"I don't know what you mean," was the reply. "I mean how much milk do you get from the spotted cow in one day," the would be purchaser replied. "Well," the boy began hesitantly, "I don't really know. We haven't ever milked her all day yet."

Mrs. Grace Whitefield, a local second grade teacher,

presented a devotional at the Tuesday evening meeting of Modern Study Club that was very inspirational and included a recipe for help in growing a spring garden. It went like this: First, plant five rows of peas. . . Preparedness, Promptness, Perseverance, Politeness and Prayer.

Next to them plant three rows of squash: Squash gossip, Squash Criticism, Squash Indifference. Then, five rows of lettuce: Let us be Faithful, Let us be Loyal, Let us be unselfish, let us love one another, Let us be truthful.

No garden is complete without turnips: Turn up for Church; Turn up with a Smile; Turn up with a new idea; Turn up with Real Determination.

Mr. and Mrs. E. M. Jack, long time farmers in the area, who have lived north of town for a number of years, will soon be moving to town. Construction of their new home is underway and soon they will be next-door-east neighbors of the Herschel Johnsons.

New residents of Friona that are not really new are Mr. and Mrs. Bailey and children, Bill and Beverly and Mr. and Mrs. Harold Balls and Jeannette.

There is an old saying that anyone who has worn out a pair of shoes here will never be content to live anywhere else. Apparently these two families had worn out more than one pair of shoes.

At any rate, the Baileys moved to Houston several months ago and the Balls family moved to Hale Center. Now, they are all back and everyone is happy to have them residing in our community again.

At one time our section of the country had the name of having no wild life except rattlesnakes, jack rabbits and coyotes and anyone who has lived here 30 years or more can remember that such was the case.

Things have changed since then, though, and we should advertise the change to friends and persons living in other sections of the state. Recently I walked about one half mile across the pasture and saw three cottontail rabbits, two pheasants and several quails. Later I counted four different kinds of birds in a tree near the kitchen window.

Then on my way to town I observed a flock of small black birds with reddish orange colored spots and five different

Honor Former Residents

Guests of honor at a reception in the home of Mr. and Mrs. C. W. Dixon recently were Rev. and Mrs. Joe Wilson, Lubbock, who were houseguests of Mr. and Mrs. Claude Osborn.

Rev. Wilson served as pastor of First Baptist Church about 25 years ago. Those attending were Mr. and Mrs. C. A. Turner, Mr. and Mrs. Elmer Euler, Mr. and Mrs. Ray Landrum, Mr. and Mrs. J. R. Southward, Mr. and Mrs. L. R. Dilger, Mr. and Mrs. Ralph Smith, Mrs. Leon Hart and Mrs. Sloan Osborn.

School Menu

May 11-15, 1964
Monday -- chicken pot pie, corn, tossed salad, chocolate cake, milk, hot rolls and butter.

WSCS Meeting Features Guests Luncheon Galaxy

Members of the membership committee of Woman's Society of Christian Service were hostesses for a "Guest Galaxy Luncheon" in Fellowship Hall of Friona Methodist Church Wednesday at noon.

Mrs. Kenyth Cass, president,

presented the welcome address and introduced the 19 guests present. Lifetime membership pins were presented to Mrs. Andy Hurst and Mrs. Mack Bainum.

The program "In Search of a Crown" was presented in the

sanctuary with Mrs. Guy Latta serving as director. Mrs. Russell McAnally closed the meeting with prayer.

Guests signing the register were Mesdames Grace Harrington, E. L. Fairchild, James Anthony, V. J. Zeman, Newman Jarrell, Frank Smith, Jerry Brown, Danny Smith, Glen Herring, Olaf Rankin and Kenneth O'Brian.

Also Mesdames Rob Osborn, Charles Mercer, Bill Nunn, T. J. Presley, Wesley Hardesty, James McLean and Jake Outland and Rev. Russell McAnally.

Members attending were Mesdames U. S. Akens, Ernest Anthony, J. K. Anthony, Bill Baxter, E. H. Bradshaw, Arthur Drake, Clyde Fields, I. T. Graves, A. S. Grubbs, O. C. Jones, R. L. London, W. H. Long, Billy Raybon, Dick Rocky, J. L. Shaffer, A. W. Anthony, J. W. Baxter II, Mack Bainum and M. B. Buchanan.

Also Mesdames Dorothy Hough, Guy Latta, Howard Love, Joe Moyer, C. M. Phipps, Floyd Rector, Ralph Shelton, G. E. Tannahill, Tom Shelton, E. S. White, H. R. Cocanougher, Joe Collier, A. A. Crow, Earl Hawkins, Andy Hurst and George A. Jones.

Also Mesdames Homer Lindeman, H. C. Kendrick, Jerry London, David Moseley, Russell McAnally, Russel O'Brian, Billy Sides, W. M. Stewart, Mack Ragsdale, Kenyth Cass, Bill Buchanan, Baker Duggins, Joe Falwell, Thomas Jones and Howard Ford.

Former Friona Teacher Honored In Oklahoma

Mrs. Eunice Ratliff, Mountain Park High School home economics teacher was recently chosen to represent Kiowa County Oklahoma in the state

Teacher of The Year contest at Oklahoma City.

Mrs. Ratliff, a former Friona High Home economics teacher, has taught in Texas and Oklahoma a total of forty years and taught home economics at Mountain Park before resigning to join her husband, the late Harry Ratliff, here.

In recommending Mrs. Ratliff for the candidacy, the Kiowa County OEA committee, submitted the following resume of her qualifications.

"She holds a BS and a MS degree from Oklahoma State University at Stillwater and has taught a total of forty years in southwestern Oklahoma and west Texas. On three occasions she has been hired to teach home economics in Mountain Park High.

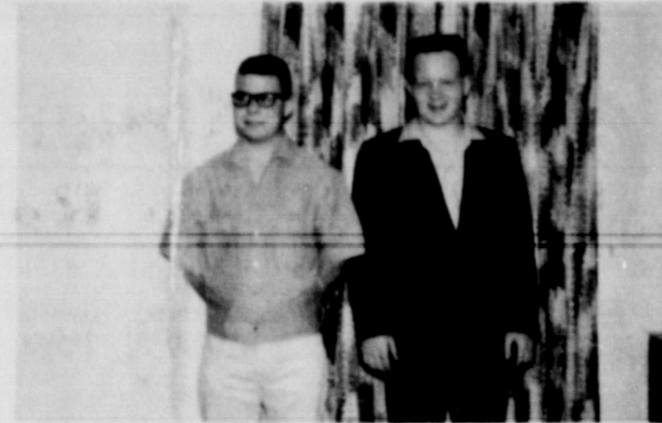

This fact alone speaks of the high esteem her community holds for her. This great respect she has won for herself as a teacher comes from her skill in human relations, her intellectual integrity, her emotional stability and her love and understanding of youth."

Mrs. Ratliff is a member of the Baptist church and serves as pianist and teaches an adult Sunday School class. She is also a Past Matron of Order of Eastern Star.

Shackelfords Return Home

Mr. and Mrs. Bert Shackelford returned home late last week after a tour which lasted several weeks. They visited points of interest and visited relatives and friends at Klinger and Winsboro, Texas, several places in Oklahoma and Malvern and Little Rock in Arkansas.

Highlight of their trip was a visit in the home of Mr. and Mrs. Ray Hurst and children at Houston. Mrs. Hurst is the daughter of the couple.

GUEST ENTERTAINERS... Tim Rhodes and John Bill McFarland appeared on the Tuesday evening program of Modern Study Club at Federated Club House. Tim presented a monologue and John Bill presented a declamation.

Guests Appear On Study Club Program

Two guests, Tim Rhodes and John Bill McFarland, appeared on the program of Modern Study Club at Federated Club House Tuesday evening. Tim presented a monologue "Limitations of a Teenager" by Jenie Gray and John Bill presented "Creation" by Johnson, a Negro preacher.

The program began with a devotional by Mrs. Otho Whitefield. Stress was discussed by Mrs. Wright Williams. Mrs. Ross Ayers spoke on tranquilizers. Mrs. Howard Ford outlined duties and responsibilities of the Food and Drug Administration and antibiotics were discussed by Mrs. Dan Ethridge.

During the social hour refreshments were served by hostesses, Mrs. Roy V. Miller Jr. and Mrs. Lois Miller, to guests on the program and Mrs. Baker Duggins, delegate to the recent convention at Levelland, gave a convention report. Others attending this meeting were Mrs. Lee Cranfill, Mrs. Newman Jarrell Jr. and Mrs. Thomas Rhodes.

Refreshments of tea, salad and crackers were served by the hostesses, Mrs. W. R. Riethmayer and Mrs. Hells Houston Jr.

Americanism Studied At Study Club Meeting

Theme of the Tuesday evening meeting of Progressive Study Club at Federated Club House was "Americanism." Mrs. Travis Harrell presented the devotional. Flag etiquette was discussed by Mrs. M. C. Osborn.

Mrs. Stan Benge presented a study of The Peace Corps. Membership in the Democratic or Republican parties was discussed by Mrs. Tom Jarboe.

During the business session resignations of Mrs. Homer Lindeman and Mrs. Mack Ragsdale were accepted. Mrs. Ray Dean Fleming and Mrs. Rob Osborn were accepted as new members.

TURBO JET AUTOMATIC CAR WASH (coin operated)

TURBO JET CO. INC. has revolutionized the car wash industry in developing a new type coin-operated car wash. The factory has developed a three-in-one combination machine that washes, rinses and dries off an automobile while the car stands still. It is the only ceiling suspension automatic car washer of its type in the world. We install the machine in such places as super market parking lots, shopping centers, discount stores, large apartment buildings, super gas stations and motels. We have a firm commitment for the installation of these machines on the premises of the leading motel chains in the country. These franchises are now available in your local or regional area. Previous experience is unnecessary. We install the equipment and then provide good locations in high volume areas. Local city or statewide franchises are available at this time. However, some major cities in your area may have already been franchised.

If you are sincerely interested in a money-making business the amount of investment required is from \$4,500.00 up. As for city and statewide distributors, financing would be available. The manufacturer of these machines has been in business almost 4 years. Only high quality individuals or companies need apply. Write our company and give a brief resume of yourself. We will arrange for a personal interview in the very near future.

CASUAL—Styled for both sun and soggy weather is this dashing coat of sturdy cotton poplin. Durably water repellent, the Alligator design has raglan sleeves, slash pockets, and a bold plaid lining.

If this has ever happened to you you know about The Big Difference in insurance

If you insured your car through an independent insurance agent, you remember how he helped make sure you were paid not just promptly but fairly as well.

If you bought your policy directly from some companies, you probably never again saw the man who sold you the insurance. You almost certainly had nobody on your side to help you.

If you've never had an acci-

dent, why wait until it is too late? Insure your car—and your home or business—through us today. We're independent agents. As such, we represent not one but several strong insurance companies. And we're free to be on your side! Stop in... or call. We'll give you The Big Difference in insurance—continuing, personal attention.

Jet-smooth Luxury Chevrolet makes crooked roads feel like going straight

Chevrolet's Full Coil suspension makes the crookedest S-curve seem on the level. With a double-acting shock absorber in each corner, it takes the jumps out of bumps. With 4-link leveling control, you get away with Jet-smooth acceleration.

With built-in anti-dive control, you come to Jet-smooth stops. And with low-friction Ball-Race steering, you waltz over twisting roads as gracefully as a ballerina.

All seven Chevrolet engines are precision balanced for smooth operation. And because your Chevrolet has over 700 insulators and sound deadeners, you don't have to shout to have yourself heard.

It's "Trade 'N' Travel Time at your Chevrolet dealer's—the perfect time to try the Jet-smooth ride. Find the meanest stretch of road you can. Then see for yourself how straight a crooked road can feel.

RANKS SECOND

Friona's Response To Bookmobile Rates High

Friona's response to the Texas State Library's bookmobile was among the best during its first "circuit run," according to bookmobile librarian, Georgia Pena.

As a matter of fact, by the 211 books checked out at Friona were the most for any other stop during the first run with the exception of Olton. This is considering "town stops" as opposed to "school stops." Several schools are on the bookmobile's schedule.

Farwell ranked third among the towns showing the greatest response. Both Parmer County cities outranked Muleshoe, home base for the bookmobile.

In usage at a scheduled stop. Over 2,000 books were checked out by the bookmobile during its first "run." The bookmobile makes 44 stops in Bailey, Cochran, Lamb and Parmer counties.

So far, the bookmobile has proven such an overwhelming success that special orders have been necessary to keep the mobile library stocked with books.

Several Friona and Parmer County residents visited the library's permanent headquarters at its open house in Muleshoe last Sunday.

It has been pointed out that the library headquarters at-

fords the same availability and privileges as the bookmobile. In other words, if a person goes to Muleshoe, he may check out or return books the same as he may at the bookmobile.

The bookmobile schedule for the month of May has been released (see chart below) Next stop in Friona will be Saturday, May 16, from 1 to 4 p. m.

Republicans To Hold Convention

The Parmer County Republican convention is scheduled for Saturday night at the Courthouse in Farwell. The meeting will be in the County Courtroom at 8 p. m.

Delegates to the state convention in Dallas will be elected, and resolutions will be passed, according to Jim Dixon, county chairman.

The U. S. Army Signal Corps in 1907 offered to buy a flying machine that could travel at 40 miles per hour with two men aboard.

Mount Robson, the highest peak in the Canadian Rockies, rises 10,000 feet from base to summit on its south side, as high as the north face of Mount Everest.

'Phone Company Installs New Friona Equipment

Completion of the new General Telephone Company exchange building in Friona was reached this past month according to R. E. Saunders, District Manager for General Telephone Company of the Southwest. Installation of the new modern electronic switching equipment has been underway for the past few weeks.

Installation of the new equipment is being made by factory installers from the Automatic Electric Company, a subsidiary of the General Telephone and Electronics Corporation. Much

work on the outside cables has been observed by people in Friona as telephone company workmen place lines between the old and the new offices and makes splices of additional cables where needed throughout the community.

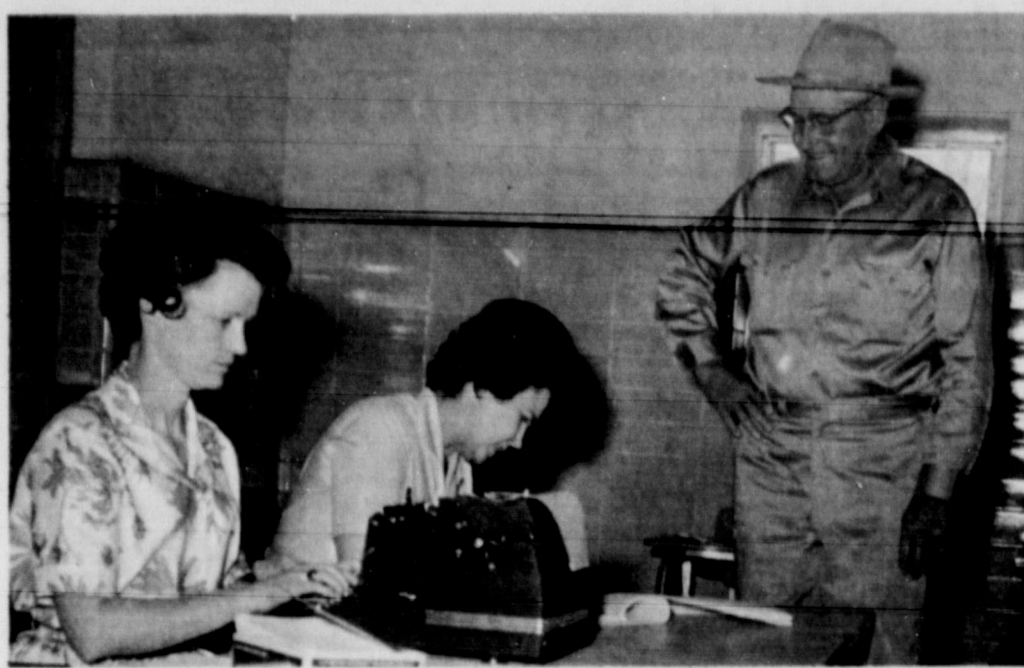

Upon completion of all of the work presently underway, Friona will be enjoying the most modern of telephone facilities.

Before the cut-over to the new equipment, new telephone numbers will be assigned to all customers, said Saunders. This is known as the "ANC

numbering plan," where each telephone in Friona will have a three-number prefix followed by four additional numbers.

The new prefix will assign Friona to the national designation plan and nowhere else in this area will the prefix combination be found. Supplements to the present directory, containing the new numbers, will be distributed just prior to the cut-over to the new equipment.

The date of the cut-over to the new modern exchange facilities is tentatively planned for July 15, 1964.

POLLSTERS AT WORK. . . Workers at the Friona Democratic precinct last Saturday are shown tabulating the voting list as a voter waits his turn.

Demo Convention Set Saturday

Delegates to Farmer County convention of Democratic Party were elected at precinct conventions which were held Saturday afternoon.

The county convention is scheduled for Saturday at 3 p. m. in district courtroom at the courthouse in Farwell.

Farmer County can send three delegates to the state convention. They will be elected at the Saturday meeting.

The county's eight voting precincts have a total of 36 delegates to the county meeting. Friona has 11, Bovina eight, Farwell six, Lazbuddie five, Oklahoma Lane three, and Black, Lakeview and Rhea one each.

Delegates elected from Bovina were Bob Wilson, Durward Bell, Norvell Strawn, Mario Trevino, Johnie Horn, Dolph Moten, Wendell Garner and Travis Dyer.

Friona delegates are Frank Spring, Dan Ethridge, Hollis Horton, Nelson Welch, Bill Sheehan, O. J. Beene, Earl Chester, Jay Claborn, John Blackburn, Steve Messenger and H. K. Kendrick.

Lazbuddie delegates include Mrs. Wyle Bullock, who is state committeewoman from this senatorial district, Albert Fuller, Mrs. C. C. Matthews Jr., Don Shuman and Joe Bullock.

Representing Farwell Democrats will be Ruth Berggren, Sam Aldridge, Hazel Gast, Bob

Anderson, Mrs. Bob Anderson and Mrs. W. H. Graham.

Oklahoma Lane delegates are Wendol Christian, Jack Roach and Harold Carpenter.

Cordie Potts is Rhea's representative.

Delegates from Black and Lakeview were not elected.

THANK YOU... VOTERS

Thanks, Friends, For Giving Me The Democratic Nomination For County Commissioner In Precinct 1. My Special Thanks To The County Road Employees Of The Precinct. Their Devotion To Their Jobs Undoubtedly Is Helping In My Bid For Re-election.

I Hope You Will Continue To Support Me As We Work Toward The November General Election.

Tom Lewellen

TOM LEWELLEN

Each year about a million acres are going out of agriculture, primarily to urban uses.

Our requirements for recreational space and facilities are multiplying sharply—especially near centers of population.

Yet in the face of these prospects, there are disturbing signs. As a nation, we are still losing 500,000 acres a year as a result of erosion and other forms of land damage. After a quarter-century of conservation effort, more than two-thirds of the conservation job on the land remains to be done. Ninety percent of the development work for watershed protection and flood prevention on the watersheds of the country is yet to be started.

Clearly, there is opportunity—and need—to increase the brotherhood of practicing Stewards. The task is too large and too vital for the few. To each among us, God has given a share of the responsibility. For some there is work to be done on the land. For all others—consumers and users, as well as producers—there is also work to be done in understanding the needs and problems about resources and in accepting the duties of Stewardship.

The Challenge of The Land

Can Be Met If Each Man Does His Share Toward Conserving Our Great Natural Resources.

SOIL STEWARDSHIP WEEK May 3-10

We At Friona Feed Yard Urge Each of You To Accept Your Responsibility of Soil Stewardship, In Order That Future Generations May Enjoy The Same Rich Heritage of The Land That We Now Know.

"Let Your Light So Shine Before Men That They May See Your Good Works, And Glorify Your Father Which Is In Heaven. Matthew 5:16

Highlights and Sidelights From Your State Capital

HIGHLIGHTS AND SIDELIGHTS
By—Vern Sanford
Texas Press Association

AUSTIN — Gov. John Connally has moved into the plush working quarters ever occupied by any of this state's governors.

Last week workmen put finishing touches to the first overall remodeling of the offices in 76 years. Until now Texas gov-

ernors have been tending to state business in cramped and poorly arranged offices.

Construction has been under way since last January. Capitol visitors once again are welcome all day in the mirrored and flag-draped gubernatorial reception room.

The governor occupies a large, gold-carpeted, crystal-chandelier-hung office. He also has an adjoining room, small

kitchen unit and shower cabinet. Gold carpeting runs throughout the second floor suite.

Modern ceilings, lighting and air conditioning have been installed, and the fine old wood-work sanded and refinished to its original state.

Redecoration of the governor's downstairs offices will not be complete for 30 days. Meanwhile, part of his staff will continue to occupy temporary quarters on the Capitol's first floor.

APPOINTMENTS — Mrs. Richard M. Kleberg Jr. of Kingsville and Dr. Hesiquo Rodriguez of Harlingen were named by Governor Connally to six-year terms on the Texas A&I College board of directors. Connally re-appointed John F. Lynch of Houston to a new term on the board.

Mrs. Kieberg and Dr. Rodriguez succeeded J. H. West of Bishop and the late O. E. Van Berg of Mercedes.

SCREW WORM ERADICATION — The financial fate of the Southwest screw worm eradication program should be apparent by May 8. That's when the appropriation bill embracing eradication plans is supposed to come out of the agriculture subcommittee of the U. S. House appropriations committee.

Pierce Johnson of Austin, attorney for the Southwest Animal Health Research Foundation, says the bill was written to provide \$2,750,000 in federal funds, to be matched by local funds. But SWAHRF officials have asked Congress to put up all \$5,500,000 since the screw worm has been eradicated in Texas, and maintenance of a barrier to prevent migration of screw worm flies from Mexico is an international program.

SOIL CONSERVATION — Planning costs for watersheds on Upper Bosque River, Hondo

TEACHERS, FUTURE TEACHERS... Mrs. Tommy Paris and Mrs. Harvey Neal, center, outline plans for activities on visitation day for next year's beginners to Frieda Floyd, Mary Ethel Wilson, Mary Ann Roberts and Janet Rushing. Approximately 100 students were present for pre-registration Thursday. Other Future Teacher club members assisting first grade teachers were Kay Neal, Donna Fulks, Carolyn Herring, Lydia Buske, Sandra Schilling, Carol Struve, Shirley Phipps and Cheryl Neill. Mrs. O. J. Beene, Mrs. Maurine Dunn, Mrs. Betty Barclay and Mrs. Mabel Jones are other first grade teachers.

Creek and Donahoe Creek cost the Texas State Soil Conservation Board \$134,938, according to State Auditor C. H. Cavness' report on the past two fiscal years.

Cavness said the Board spent a total of \$552,930 on its continuing efforts to conserve state soil resources and reduce effects of flooding in small watersheds.

Legislative appropriations of \$572,579 were provided during fiscal 1962 and 1963. Biggest outlay was \$215,001 for almost 200 soil conservation districts which the board administers around the state.

MOSQUITO ERADICATION PLANNED — First allotment of federal funds — \$174,198 — in a five-year, \$750,000 program aimed at wiping out the mosquito in Texas was received by State Budget Director Bill Cobb.

Texas State Department of Health will administer the program. The federal government, co-signee of a Pan American Health Organization agreement to stamp out yellow-fever-carrying mosquitoes, is underwriting the plan in a nine-state area. Puerto Rico and the Virgin Islands.

Mosquito abatement and education teams now are being organized for assignment in key areas of Texas. Dr. James L. Goddard of the U. S. Public Health Service said the mosquito must be eliminated from the U. S. to prevent its spreading to other western hemisphere nations.

BUILDING BOOM SLACKS — Despite a spring boom in apartment building, issuance of building permits in Texas in March dropped 8 per cent from March, 1963.

UT Bureau of Business Research thinks a slump in non-residential construction accounted for the overall drop.

TOURISM EXPANDING —

Two Texas officials predicted tourism in the state is going to start booming.

Governor Connally said tourism (Continued on page 12)

*Absolute knowledge I have none
But my aunt's washerwoman's
sister's son
Heard a policeman on the beat
Say to a laborer on the street
That a medicine man in Borneo
Knows of a man who claims
to know
A Chinese coolie in Timbuctu
Who said that the heathen in
China knew
Of a college man in a southern
town
Who got it straight from the
circus clown
That he had a son who had
a friend
Who knows the HAIL season
is about to begin*

"HE... SAID, I WILL NOT; BUT AFTERWARDS HE... WENT" (MATT. 21:29)
They say the man who hesitates is lost. But that saying does not always hold good. Manifestly, it does not hold good in the case of a soul for whose repentance God waits long and patiently, overlooking repeated delays and refusals. But at least it is true that his soul has run great risks. Only through the intervention of God's measureless mercy has disaster been prevented, only because He is infinitely kind and gracious does He consent to enter when the door is finally opened.

To say that we habitual sinners do not deserve this mercy is to say too little. God's patience with us seems quite beyond reason - as indeed it is. No merely human virtue could extend so far, could last so long. The elder brother in the parable, who grew indignant at the father's tenderness for the prodigal son, pointed out true facts and strong arguments to justify his resentment. But God's ways are not our ways. Facts and arguments do not reveal the hidden secrets and the inexhaustible depths of His love. Well for us that this is so.

Today, then, I may dwell upon the comforting assurance that although so consistently weak, I have not yet been shut out from the kingdom. Tomorrow, indeed, it may be too late. But it is not late today-an hour from now, possibly, but not at the present moment. Already I have run great risk; but God's mercy is still holding the gate ajar. Whatever I have done or left undone in the past, my fate as yet has not been settled. What if once I did say, "I will not". Let me eat my words. Let me confess that I was wrong. Dear Lord I will go.

Mrs. Boatman

Dead At 82

Mrs. Luther Boatman, 82, a Bovina resident since 1937, died Monday at 11:35 p.m. in Parmer County Community Hospital in Friona.

Funeral arrangements are pending. Claborn Funeral Home of Friona will be in charge of arrangements.

Mrs. Boatman had been in the Friona hospital for the past week.

Survivors include her husband; a daughter, Mrs. Eula Newton of Bovina; three grandchildren, Mrs. C. W. Carter, Odessa; Jerry Newton, stationed with the U. S. Navy in Japan and Roberta Vanderver of Phoenix, Ariz.

Seven great-grandchildren also survive.

Cemetery Association Is Electing Officers

Announcement was made early this week by J.C. Claborn, president of Friona Cemetery Association, that a president, a secretary-treasurer and two directors are to be elected for the association. Forms have been mailed to members to be marked and returned to Mrs. Herschel Johnson, secretary-treasurer, indicating choice of candidates for the offices. Nominees are Loyde Brewer, president; Mrs. Fay Reeve, secretary-treasurer; and Mrs. Cordie Potts and Roy V. Miller, directors.

Contributions for maintenance of cemetery property are also being solicited. Plans are being made to apply fertilizer to the grass and shrubs and possibly do some more landscaping. Since organization of the association, the grounds have been beautified and a caretaker has been employed. W.J. Nazworth has been employed as caretaker and began work April 15. A spokesman for the association would like to remind non-

members who are interested in upkeep of the cemetery property that any contributions will be accepted and appreciated. Those now serving on the official board of the association are Jay Claborn, president; Mrs. Herschel Johnson, secretary-treasurer; J. E. McFarland, Jack Moseley, Mrs. Russell O'Brian and Mrs. Cayson Jones, directors.

Two month's production of a West Coast mineralization factory, valued at a million dollars, can be loaded into a standard station wagon.

The strongest wind ever measured was 231 miles per hour on April 11, 1934, on Mount Washington, N.H.

California has a difference in elevation of 2,8 miles between the lower and the highest point. The burrowing wasp uses a pebble to pound down the earth over its subterranean nest to conceal its location.

HIGHLIGHTS---

(Continued from page 9)

ism will become the "fastest-growing Texas industry." He called the state's new advertising program "one of our soundest investments in the economic and recreational future" of the state.

J. Weldon Watson, executive director of the Parks and Wildlife Department, said the fact that a Texan's President makes Texas more popular with visitors. Many of them want to know "how close such and such a park is to Johnson city," said Watson. He sees tourism and park use as having a "mighty impact" on the Texas economy.

BANKING-LOAN HEARINGS SET -- State Banking Board will hear application on May 13 for charters of Peoples State Bank of Marshall; Southwest State Bank of Brownwood; and Expressway Bank and Trust of Dallas. Action is due at that time on applications of Texas State Bank of Abilene and Royal Bank and Trust Company of Dallas.

Savings and Loan Commissioner James O. Gerst set a June 17 hearing on the application for Trinity Valley Savings and Loan Association at Madisonville. Proposed directors are from Midway, Normangee, North Zulch and Buffalo, as well as Madisonville.

TOO SLOW FOR PENSION-- Some long-time Harlingen firemen who recently decided they want to participate in the firemen's pension plan waited too long, according to Attorney General Waggoner Carr.

Carr ruled that the 1957 Firemen's Relief and Pension Fund Act provides that a fireman forfeits his right to participate if he failed to enroll, and the 1963 firemen's pension law covering full-paid firemen in part-volunteer departments embodies the same terms.

GOLIAD MEMORIAL PLANNED -- Governor Connally named a Texas committee to work with a Mexican group on plans and financing for a suitable memorial at Goliad to Gen. Ignacio Zaragoza. The general's victory over French forces on May 5, 1862, is celebrated throughout Mexico. General Zaragoza was born in Goliad.

The Texas Legislature in 1961 accepted the birthplace of Zaragoza as a state park historical site but provided no funds for developing it.

Good Neighbor Commission Director Glenn Garrett heads the Texas planning group. Other members are Parks and Wildlife Director J. Weldon Watson; Tourist Development Agency Director Frank Hildebrand; and Historical Survey Committee Director George Hill.

COURTS SPEAK -- Supreme Court in a 7-2 decision refused to direct that military servicemen who enlist out of state be permitted to vote in Texas.

The majority held servicemen have no "federally-protected right" to vote where they are stationed. El Paso-based Sgt. Herbert N. Carrington, who enlisted in Alabama, brought the suit, challenging a state constitutional provision which limits servicemen stationed in Texas to voting in the county where they resided when they entered the service.

In a dissenting opinion, Chief Justice Robert W. Calvert and Associate Justice Clyde E. Smith said the ruling denies some servicemen the right to vote in all elections. They further contended the state constitution violates the equal protection clause of the 14th amendment to the U. S. Constitution.

Same issue is soon to be tried in federal court at San Antonio where two other servicemen have filed suit.

Third Court of Civil Appeals upheld district court ruling against an AFL-CIO suit charging Texas Employment Commission with "pro-employer lobbying." Court's new opinion said TEC members have a duty to advocate needed changes in unemployment compensation laws. Court also held former Commissioner J. J. Pickle (now congressman) acted within his authority in recommending amendments.

Supreme Court agreed with lower courts which nullified incorporation of Mayhill near Denton.

Court of Criminal Appeals ordered a new trial for ex-Railroad Commission engineer L. D. Murphy. He has been sentenced to two years on a charge of conspiring to bribe a fellow worker to make a false report on a slanted oil well.

Salt was the first and has remained the most continuous produced mineral in Texas.

Diamonds of industrial quality were discovered recently near Jerseyville in Illinois.

Community Planning And Available Training

By Tommy Hollmig and Bobye Riney

Fallout protection preparedness is both a family and community job. Every citizen should know about his community civil defense plans and how they fit into county plans. The responsibility of the local government is to provide warning systems and radiological defense as well as name persons to be in charge. In case of attack, individuals must depend on local civil defense and government officials to inform them on when to take shelter, when to leave and the situation in general. The community must also be prepared to assist those who have evacuated heavily stricken areas.

It is each individual's duty to support government officials in developing and carrying out the plan of the community. Where there is no community plan, people have an obligation to themselves to develop one. There are many educational programs or training opportunities to familiarize families with civil defense preparedness needs.

Most of the programs are free to the public and are offered throughout the state. The Texas Education Agency sponsors the Civil Defense Adult

Education Course through public schools and the State Department of Health sponsors the Medical Self-Help Course through local medical societies. The Agricultural Extension Service is involved in an educational civil defense effort at state and local levels. Courses in shelter management, radiological defense and other areas are offered by the recently or-

ganized Texas A&M University Extension Civil Defense Program.

Additional information about civil defense training opportunities may be obtained from county agents or by writing to the Extension rural civil defense specialists at Texas A&M University, College Station, Texas.

At Home In Farmer County

By CRICKET B. TAYLOR
County HD Agent

Now that the County and District 4-H Contests are over, we may settle down to planning for future work to be done in 4-H.

Food Project groups will be finishing up that project soon. The leaders of these groups have done a good job teaching the subject matter in the Favorite Food guides, and have found their efforts rewarding. We will be starting cloth-

ing project work soon and 4-H Clubs need to organize work groups for the different age groups and there again Adult Leaders in Clothing Projects are needed. If you have some time to devote to this work, please let me know or contact your organizational leaders. Mrs. Ralph Broyles is the Organizational leader in the 4-H club in Lazbuddie, Mrs. John Boling is Farwell Busy Bee Club and Mrs. Johnnie Rundell and Mrs. Leon Billingsley in the Farwell Country Club, in Rhea Mrs. Franklin Bauer is the leader.

I am planning a meeting of clothing leaders in May, and I will need to have a list of those who will work with 4-H girls in clothing. Training will be given leaders in this project. The District 4-H Dress Revue will be held July 24, so that work must get started soon. Call me at 481-3619 or come by my office for information if you want to be a clothing leader in 4-H work.

Fresh strawberries by the crates, shortcake by the hundreds of pounds, unusual baked and frozen dishes featuring strawberries, and sparkling jams, jellies and preserves made from strawberries were in the spotlight of Potet recently as home demonstration club women, members of the Farm Bureau and Grange, Rotary Club and other area leaders and berry growers paid tribute to the community's top money crop during the 17th annual Potet Strawberry Festival. The festival traditionally ushers in the area's strawberry harvest. Yields are expected to be better than average if the weather continues favorable for the next month, says Hollis Duke, Atascosa county agent.

There's no chemical difference between cane and beet sugar, food specialists with the U. S. Department of Agriculture report. The two kinds of sugar may be used interchangeably in cooking.

How Strong Is "Farm Vote"?

The general opinion in some political circles today is that the farm vote as a power at the polls is a thing of the past. And in this election year, the question on farm vote strength is a timely one.

It is true that the farm vote now represents only about 9 percent--and maybe less--of the registered voters on a national scale. But this figure does not present a true picture of agriculture strength or importance.

Actually, a total of 63 percent of our population is directly connected with the buying, selling, manufacturing or processing of our farm products. Legislative matters important to agriculture are also

vitaly important to all these persons.

If everyone who buys the raw products of the farm would vote with the farmer, the strength of the rural vote would increase

New Wheat Sign-Up Under Way

As per schedule, farmers in this county started signing up in the new voluntary wheat program this past Friday, May 1. At the close of the second day (Mon. May 4,) of the sign-up period 163 farms had been signed up to participate.

On the average farm that is participating in the program, the average acreage of wheat is 90 acres and the average diversion (lay-out) is 10 acres. The average payment earned on this size farm is \$1,506.00. These payments are, of course, in addition to the price that will be received for the wheat that will be marketed from each of these farms.

It would appear that most of the wheat producers in this county plan to participate in this program. Therefore, wheat producers are reminded that the final date for signing an intention to participate in this program is May 15, 1964. Participation (as this is a voluntary program) is not automatic.

Persons having questions concerning the program are invited to contact the ASCS office for an explanation of its provisions.

to 14 per cent. If those who pass these products through the channels of trade were counted, the total goes up to 24 per cent. The processors and manufacturers of these goods would swell the total to 37 per cent.

Retailers of the ultimate product increases the strength to 56 per cent. And finally, those who sell the farmer only those tools and materials needed to produce his crop brings the grand total to 63 per cent of

our voting strength. Of course, all of us rely on agriculture for our daily needs. Hardly another single industry affects the entire population so directly.

The primary conclusion to be drawn from this is that the fate of agriculture, its leaders and its legislation, is of concern to us all. For this reason, it is vitally important that every citizen know the men and issues which will guide and affect our agricultural outlook--and then VOTE!

Changing Agriculture Seen In Statistics

How times have changed! Not too long ago, when you thought of the agricultural industry, you thought of the farmer, Kenneth Wolf, Extension economist-agribusiness, points out that today, the agricultural industry is a network of interdependence. In fact, of each 10 Texans employed, four are in agriculture; but three of the four are off the farm.

On one side of the farmer and rancher, Wolf explains, are such businesses as chemical, farm equipment, fertilizer, financial, utility and many others. Each year, in Texas, they supply agricultural producers with \$1.8 billion worth of things needed to grow the products. The products grown are then sold for about \$2.4 billion.

On the other side of the farmer and rancher, he adds, are those businesses engaged in

marketing the product. A few of these are storage warehouses, textile plants, railroads and trucking lines, packing plants, wholesale grocers and supermarkets. These off-farm businesses add about \$3.9 billion to the value of the products raised by the farmers and ranchers.

This changing picture of agriculture has resulted in changes not thought possible 30 years ago. In 1930, for example, one farm worker produced enough to feed 10 people. Today he produces enough to feed 28. The average wage earner had to work 60 hours 15 hours ago to buy a month's food supply for his family. Today it takes him 38 hours, Wolf says.

Business management in our present agricultural industry has played a major role in making the industry so efficient, believes the economist.

YOUR BEST BET IS P-A-G 665

If you're looking for a hybrid grain sorghum seed that will produce top yields, heavier grain, more profits per acre, and backed by a proven company, then by all means plant P-A-G 665. When 665 is planted with adequate moisture and fertility, you'll get a sorghum crop you can count on.

SCIENCE SKETCHES

WHALES, largest animals ever to inhabit the globe, come in many varieties including sperm, killer, humpback, narwhal and bottlenose.

A POSSIBLY EXTINCT animal is being tracked in the rugged forests of Tasmania, an island Australian state 200 miles south of the mainland.

'INSTANT' citrus juice crystals will be processed for the first time in South America at a 500-ton-per-day Argentine processing plant.

Beef Stands At Top Of May Plentiful Foods List

'Flowers that bloom in the spring, tra la' are being joined by an abundance of beef for tasty menu attractions.

Beef heads the list of May plentiful foods, reports the Texas Agricultural Extension Service.

The five-item list also points to huge supplies of turkeys, canned ripe olives, salad oils, milk and all dairy foods.

All cuts and grades of beef will be plentiful all month, as the cattle inventory on farms stands at the peak of a six-year buildup.

So watch for special values in beef as retailers provide attractive displays and prices.

May will be an excellent time to serve beef often and generously.

The Service suggests starting the outdoor barbecue season with beef.

olives, dressings and canned ripe olives. Supplies are huge.

Count on turkeys, too, to provide the light touch to spring days.

Marketings in May will run about one-fourth greater than a year ago.

March storage holdings were up 12 million pounds.

Milk and all the delicious dairy foods will be abundant as production reaches toward its early-summer peak.

In January and February, milk output ran slightly higher than a year earlier.

USDA's Agricultural Marketing Service compiles the list of monthly plentiful foods as a guide for consumer buying.

Items listed usually are available in a wide choice of quality at attractive prices.

Sometimes, even extravagance can be a blessing in disguise. . . . It proved to be exactly that for Dr. Edward Robinson Squibb, founder of the mammoth drug-manufacturing complex known as E. R. Squibb & Sons.

In 1857, Dr. Squibb, a physician in the United States Navy, was experiencing great difficulty in making ends meet on his annual salary of \$1,800.

That was because his wife—whom he adored—insisted on living beyond their means by buying expensive furniture, imported clothes and a summer house.

Among other costly things. . . . In order to increase his income, Dr. Squibb was forced to resign his commission and take a post in a commercial drug laboratory in Louisville, Kentucky.

But even the higher income he derived there was not adequate to meet his wife's spending proclivity and he felt that the only solution was to go into business for himself.

He established his own small laboratory in Brooklyn, New York, and at first experienced all manner of hardships.

On three different occasions his plant had disastrous fires and he was badly burned in one.

He refused to accept defeat and eventually managed to get his company started on the upward climb that was to win it a place among the world's leading drug manufacturers.

Dr. Squibb's success was principally due to the extreme care his company used in the preparation of their drugs.

and his insistence that only the purest of ingredients be used.

He was an unrelenting foe of quackery in medicine as well as in the concoction of drugs and played a prominent role in the fight for enactment of pure food and drug regulations in the states of New Jersey and New York.

These statutes served as models for the comparable federal act which became law in 1906, six years after Dr. Squibb's death.

The top four communities in the Texas Community Improvement Program will be known by the latter part of May.

The judging process, first on the county basis, then on the district and finally on a state basis will determine the winners.

Reports Reagan Brown, Extension rural sociologist, He said 251 communities participated in this year's program.

Awards to winning communities on each of the three levels of competition will be provided by the electric utility companies operating in Texas.

GARDEN SCHEMING

Annuals may be used for garden scheming just as may the larger trees and shrubs.

Many people sow seeds of annuals in rows for cutting. While this may serve their purpose, annuals have a far wider use in garden scheming—that is planning a garden design using annuals for their height, form of plant and flower, and color of bloom.

In the picture above thought has been given to the forms and colors of annual flowers used in a border planting in front of a woven fence.

Powderpuff hollyhocks are used in the background because they are tall. Their rounded, double flowers are borne in clusters along the stems and show off well, with their bright shades of white, yellow, pink or red against the dark brown of the fence.

The next row, as you see, is of Rocket snapdragons which are not so tall as the hollyhocks nor as short as the petunias used as a border.

Snapdragon form is upright, each plant growing several stems and resembling a small bush. Flowers are borne in spikes thus offering a contrast in form to the hollyhock flowers.

Colors are red, pink, rose, yellow, tawny apricot and white.

The petunias are the newer hybrids, loaded with flowers. The plants are low and spreading, ideal for the front of a border.

As you know, petunia colors now are legion. They may be lavender, lavender-blue, purple, many shades of pink and rose, scarlet, salmon, cream-velvet and white.

When such a wide choice of colors is offered in three different flower forms just a little thought to placing them and to creating a color scheme will make your garden a show place.

Try to choose the day on which you transplant seedlings. A sunny or windy day should be avoided as sun and wind dry plant tissues.

Clouded skies and still air make a day ideal for transplanting. Or, of course, you can move plants in the early evening which will at least give them the dark, cool night during which to recuperate after transplanting.

If the winter in your area was mild, you may find snapdragon plants growing where they did last autumn. This is because snapdragons are really perennials, grown as annuals in the north where winters are too cold for them to survive.

Fertilize each plant and you'll have another season of flowers from it.

Consult An Architect

Using the copyrighted slogan, "Consult An Architect," the National Association for Indiana Limestone of Bloomington, Ind., is scheduling an expensive national advertising campaign in 1963 and 1964.

Initial insertions will begin this fall although the bulk of the budget will be scheduled for 1964.

Trade publications will get the bulk of the square promoting architecture and Indiana limestone, according to Fred M. Barrett, president, Matthews Bros. Company, Bloomington, a director and promotion chairman for the association.

Although not in the architectural trade only recently, the theme brought many letters of congratulations from all over the nation. One "official" expression of appreciation came from one of the largest organizations of registered architects.

The campaign will be expanded in advertising in 1964.

Advertisement for First Federal Savings & Loan, featuring a large image of a coin and text about investment and savings.

Advertisement for Johnson Abstract Company, featuring text about fast and accurate services.

Large advertisement for Deaf Smith County Electric Cooperative Incorporated, listing names of patrons and contact information.

Ask \$6.5 Billion Slash In Johnson Spending Request

The National Association of Manufacturers has called for a \$6.5 billion cut in spending authority requested by President Johnson in his recent budget message to Congress.

Such a reduction in spending authority would result in a drop of \$3.9 billion in presently estimated expenditures for fiscal 1965.

The NAM proposals would bring the President's new spending authority down from \$103.7 billion to \$97.2 billion, and his 1965 administrative budget down from \$97.9 billion to an even \$94 billion.

In urging the slash in federal spending the NAM said it is gratifying that President Johnson had submitted a budget estimating actual spending in fiscal 1965 slightly below the estimate for 1964.

But the Association said it is disturbing that the President requested new authority which, if granted, would result in significant increases in spending totals after 1965.

The NAM pointed out that the spending cuts should be made in order to:

1. Compensate for the tax reduction that has just been enacted;

2. Prevent a build-up in spending in fiscal years after 1965;

3. Assure final spending in fiscal 1965 below the President's estimate.

The Association emphasized that its economy proposals covering 127 line items in the budget did not involve the appropriations for national defense.

The NAM proposed deepest spending cuts in foreign aid, agriculture, space, education, public health, and welfare.

The Association urged that government economy moves be based on:

1. Stringent congressional screening and reduction of executive requests for new

Is The Boll Weevil Marching North?

There is a grave possibility that the destructive cotton boll weevil has developed enough strength to push into previously uninfested areas of the Texas Panhandle, Agriculture Commissioner John C. White said this week.

The threat is serious enough to launch a proposal for a federal - state program that may cost an estimated two million dollars.

In the 50 years since the boll weevil first came into Texas from Mexico, the insect never migrated beyond a natural barrier known as the Caprock which marks the beginning of the Great Plains. Last summer and fall, the insect was discovered to have penetrated into cotton fields several miles beyond this barrier.

Commissioner White said a number of the boll weevil pupae have been collected in the newly infested area. The hibernating insects are being kept in traps to see if they will survive the winter weather. If they do survive, it may mean that the insect has developed enough strength to get a foothold in the Great Plains area which is the biggest producer of cotton in the state.

The destructive history of the boll weevil is a well known story. The insect is believed to have first entered the southernmost tip of Texas around 1914. Within five years, it had pushed north and east along the Gulf coast as far as Florida, nearly ruining the cotton industry in parts of Georgia and Alabama.

Strangely, it did not move west at first. The first boll worm was not found at Presidio until about five years ago, and it did not arrive in El Paso until three years ago. Commissioner White said studies have not yet proved that the boll weevil can survive the winter in the El Paso area but that it may migrate into the fields in the summer and fall.

The battle lines are being drawn on the Great Plains in an effort to half any threatened spread. A million dollar appropriation is being sought from the federal government, to be matched by farmers in the area and by state help. This year, the plan is to spray the fields three times

at 20-day intervals at about the time when the insect normally starts accumulating fatty tissue to carry it through the winter. About 175,000 acres of cotton land are involved in the program. It is hoped that the northward march can be halted in this manner and that new techniques of boll weevil prevention will be learned for use in areas where the pest is already an annual problem.

Texas 4-H Members To Travel

European agriculture will be the primary course of study for a group of Texas 4-H Club members this summer. The Texas youth will participate in a 21-day Goodwill People-to-People tour of agricultural areas in Northern Europe June 23-July 13.

Marshall Crouch, assistant state 4-H Club leader, will act as leader and host for the Texas delegation. While in Europe the 4-H members will visit members of their counterpart youth organization and participate in numerous meetings with U. S. and foreign government representatives. The members will see England, France, Belgium, Czechoslovakia, Hungary, Berlin, Scotland and Denmark.

Purpose of the mission is to give agricultural youth of Texas an opportunity to carry a message of goodwill to farm youth and associated trades people in Europe. Also, it will give them a chance to inspect, in person, typical foreign agriculture and learn something of conditions that exist on foreign farms. Through such programs, American youth can do much to improve foreign relations and feelings toward American people and the American government, Crouch believes.

Interested 4-H youth should contact their county agent for more information or submit letters of application to Marshall E. Crouch, assistant state 4-H Club leader, College Station, Texas.

Boll Weevil Control Measures Planned

Operational plans for carrying out next fall's giant "Diapause" boll weevil control program on the High Plains were laid in Lubbock April 16 at a meeting of the boll weevil Steering, Area-wide and Technical Committees, sponsored by Plains Cotton Growers, Inc., of Lubbock.

Entomologists at the meeting reaffirmed their statement that such a program is an urgent necessity for the Plains area, and discussed plans on exten-

sive surveys this summer for determining the extent of acreage to be sprayed this fall. Forty-five persons attended the meeting, including entomologists and other top officials from both State and Federal levels. The boll weevil experts have recommended the Diapause program to the Plains as the best known method to keep the weevil from invading the entire High Plains as he has other areas, and they are working closely with area

committees and Plains Cotton Growers to assure the program's success.

In a report on the progress of weevil overwintering research, W. L. Owen, Entomologist at the Texas Agricultural Research and Experiment Center, said a total of 35 live weevils have been recently collected from the weevil "cages" that were installed last fall. Of the total, 16 were found in Crosby County, seven in Garza, nine in Dickens and three in cages on top of the Caprock near Close City. According to Owen, research so far has given the definite indication that Shiner Oak is the habitat in which most weevils hibernate below the Caprock.

Early "trap" crops of cotton are being planted to give more information on weevil overwintering, and the information should be complete before commercial cotton crops begin to square, Owen said.

Dr. J. C. Gaines, head of the entomology department at Texas A&M emphasized the importance of in-season weevil control below the Caprock. He explained that this would reduce the number of weevils migrating to the High Plains and thus minimize the acreage needing treatment this fall. Donald Johnson, Executive Assistant of Plains Cotton Growers said PCG is laying plans for an educational and informational campaign in this area that will touch as many people

in as many ways as possible.

Committee members also discussed some of the details of contracts that will be made for chemical suppliers and applicators with Archie Geiser, Chief Pilot for the Plant Pest Control Division, Agricultural Research Service, U. S. Department of Agriculture. Geiser stated that contracts would be let on a competitive bid basis and that the area would be divided into units, with contract applicants being allowed to bid on one or more units. He said the method and time for bidding would be widely publicized when details were complete.

Vinyl plastics that stay flexible even at low temperatures have been made of chemicals prepared from fatty acids of crumbe. Crumbe is a member of the mustard family and is now under development by USDA and state agricultural experiment stations including the Texas Station as a new oilseed crop potentially valuable for both oil and meal. A USDA chemist said that many of these crumbe chemicals called plasticizers, proved equal to best commercial products for use in making polyvinyl chloride (PVC) sheets.

Cotton Quiz

Beef heads the USDA's plentiful foods list for May. The five-item list also includes turkeys, canned ripe olives, salad oils, milk and all dairy foods.

European agriculture and its farm youth will be the primary course of study for a group of Texas 4-H Club members this summer. They will participate in a 21-day Goodwill People-to-People tour of agricultural areas in Northern Europe from June 23-July 13.

By Vern Sanford
George Fin, an Ohio bait processor, says post mortem prove bluegill will eat anything that moves or fits into its mouth.

"Furthermore," says Finn, "the bluegill is hungry all the time and you don't have to wait for a special lunch period to feed him."

The bluegill, in this instance, takes in all the perch family. Most of us call 'em perch, but others like the name of bluegill. And still others call 'em bream. But by whatever name, ounce for ounce, there is nothing quite as rewarding for an afternoon of fast and furious pleasure than taking bluegill.

Mainly, the bluegill is a worm fish. Perhaps more of them have been caught on worms than all other baits combined. We used to dig worms in the back yard. Now we buy them put up in ice cream containers.

Some fishermen string a whole worm on their hook. Others break the worm into bits and put only a small part on a small hook to be sure and catch the bait stealers.

If You're Interested In Buying FARM MACHINERY Call Big Nick Trienen at Machinery Supply Hwy. 60 Bovina Phone 238-4861

Now, thanks to scientific breakthroughs, there are methods of preserving natural baits, such as garden worms, crickets, grasshoppers, grubs and grass shrimp. All these are ideal bluegill baits and will help you catch a basket full with very little trouble.

Biologists encourage bluegill fishing. They urge you to take as many as possible and not throw any back. Reason is impoundment silt can become overrun with them.

Although most of us picture bluegill fishing with a cane pole and a small float, there are other methods that will prove as much or more fun.

For instance, there is nothing better than a flyrod for catching them, especially if you are working from a boat. A light flyrod or ultra-light spincasting outfit is ideal for tossing the various baits close to the rock banks, which seem to be the best spot to catch bluegill.

I know two fellows in Austin who sometimes forget about their big bass fishing and take out after those fighting bluegills with casting equipment. They fish a great deal on Lake Marble Falls, where there are high rock banks. By casting directly against the rock banks and jiggling the lure a time or two after it hits the water, perch will attack it.

I've seen them bring in perch smaller than the lure they cast. During the course of an afternoon they'll fill a wire basket with bluegill the size of your hand. And who can deny these are not good eating!

Others using spin or casting equipment carry along several of those little plastic bubbles. They are fastened to the line about two feet from the end.

On the terminal there will be one or two small hooks. These can be baited with worms or some of those preserved baits. By casting the bubble near the rocky shore, the bait is sure to attract fish.

Sometimes when fishing in this manner for bluegills you will come up with a crappie or even a big bass.

This type of fishing is especially good on short float trips down some of the streams of Texas. You get a mixed creel on trips of this kind. Many of them however, are various subspecies of perch. Sometimes you get those big goggle-eyed ones.

And don't sell perch short as to their eating qualities. Just scale 'em, clean 'em and toss them into a skillet with plenty of hot grease and let them cook until they are thoroughly brown. This way, on the smaller fish at least, you are not bothered with the bones. You chew them along with the meat.

On the larger ones you can peel off the very delicious flesh and throw the bones away.

Perch fishing isn't just for the kiddies. Growups find it equally as enjoyable.

Agricultural Adjustments Must Continue

Farming and ranching are dynamic businesses and as long as our economy continues to grow they will constantly change, say agricultural economists at Texas A&M University.

Farmers and ranchmen must make changes in their operations for a number of reasons, according to Cecil A. Parker, and Rex Kennedy, farm management specialists with the Texas Agricultural Extension Service, and Dr. K. R. Teffertiller, associate professor, Texas Agricultural Experiment Station.

They list several areas where change may occur. The price producers get for the crop or livestock they produce, the cost of their production items, technology, or institutional arrangements such as control measures or rental

agreements are among them. Farmers can react to these changes in several ways, the economists point out. The first adjustment that may be made

is to increase the size of the operation. Trends toward larger machinery capacity, decreased profit margins, and technology breakthroughs point

to larger farms and ranches. Though the size may be increased by purchasing or renting land, renting may be impeded by long established customs associated with the practice.

Another adjustment in production would be indicated by a relatively high price for a commodity where little or no in-

crease in the production cost was found. This situation would call for more production of this commodity, the economists say. Improvements in technology for particular crops also suggest a shift toward these crops.

Two other changes that can be made are to change production methods, and employment of the operator off the farm. Though the economists predict little change in the acreage

farmed in the state, they say that added income from agriculture of the coming years will be received by fewer farmers.

In the future, banks and lending institutions will demand more responsible use of credit. Thus, it will become more important for ranchmen and farmers to be good financial managers. To do this, they will need to be willing and able to change, the economists say.

Quality Beef Remains A Good Headliner

Now's the time to "beef up" your menus, says Mrs. Gwendolyn Clyatt, Extension Service consumer marketing specialist.

Ample supplies of top quality beef will be available for the next few months, and should be one of the best values at the supermarket.

Large supplies of fryers also are on the market.

Consumers are enjoying what economists call a "buyer's market" with plenty of competition for food dollars tending to drive prices downward.

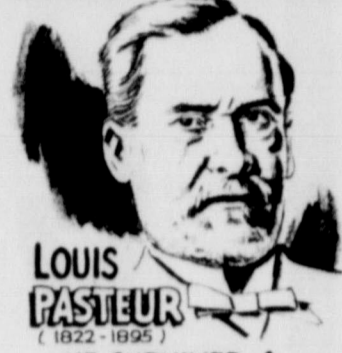

Owners of home freezers may want to give consideration to current low meat prices. Ind-

cations are that as the year advances, prices will go up to more normal levels.

At the vegetable counter, look for good values in carrots, cabbage, beets, green onions, dry yellow onions, mustard, collards, turnips and greens. Head lettuce and celery are other good choices. Asparagus, broccoli and cauliflower are available at moderate price levels.

Apples, coming from storage, continued to be moderately priced. Good quality strawberries are available, but prices vary. Other fruit choices are pineapples, bananas and pears.

FACTS ABOUT STROKE

HE SURVIVED A "BIG STROKE" AT 45 - THEN WORKED PRODUCTIVELY 27 MORE YEARS DURING WHICH HE HAD 50 "LITTLE STROKES"

Dine On Duck Orientale

FROZEN MIXED FRUIT AND FROZEN PEACHES combine in an exotic sauce that is marvelous with roast duck or other fowl. A rice stuffing for the duck would carry on the oriental theme. When it comes to the accompanying vegetable, go modern with one of the new combinations. Frozen peas with pearl onions is an excellent choice.

CURRIED FRUITS

- 1 package (12 ounces) frozen mixed fruit, thawed
- 1/2 teaspoon curry powder
- 2 tablespoons brown sugar
- 1 package (12 ounces) frozen sliced peaches, thawed
- 1 tablespoon vinegar
- 4 teaspoons cornstarch
- 2 teaspoons butter

Place fruits, curry powder, brown sugar, and vinegar in saucepan. Blend cornstarch with a little of the fruit liquid to form a smooth paste. Stir into fruit mixture. Cook and stir over medium heat until thickened and clear. Stir in butter until melted. Serve hot as an accompaniment to duck, roast pork, or beef. Makes 3 cups.

Senate Weighs, House Votes Fallout Shelters

The Nation's military leaders gave strong support to an expanded fallout shelter program in recent testimony before a special subcommittee of the Senate Armed Services Committee.

Speaking for the Joint Chiefs of Staff, General Earle G. Wheeler, Army Chief of Staff, backed a House-passed bill authorizing Federal support for 11 million more fallout shelter spaces. He told the subcommittee, headed by Sen. Henry M. Jackson of Washington:

"A FALLOUT PROTECTION-oriented civil defense is clearly a necessary element of the total United States national security effort. Our potential enemies have a clear capability for nuclear warfare, and we cannot discount the possibility that such a war may occur. . . . An adequate program of civil defense should give our population a reasonable degree of protection as well as increasing the credibility of our military deterrent posture."

General Thomas S. Power, Commander-in-Chief of the

Air Force's Strategic Air Command, sent a statement to the subcommittee describing civil defense as "one of the most important aspects of our overall deterrent posture."

The Senate subcommittee's hearing on the pros and cons of the fallout shelter bill was completed in December, 1963. If committee and Senate action to authorize the program is favorable, as it was in the House, Stuart L. Pittman, Assistant Secretary of Defense for Civil Defense, has indicated that he will seek a supplemental appropriation from Congress to get the program underway.

THE BILL would amend the Federal Civil Defense Act of 1950 to:

1. Enable the Federal Government to contribute up to \$25 per individual shelter space to incorporate public fallout shelters for about 10 million persons in buildings owned by nonprofit institutions, such as schools, hospitals, and state and local government facilities. It authorizes, but does not appropriate,

\$175 million in this fiscal year toward the program.

2. Require incorporation of public fallout shelters in most new and existing Federal structures. The bill authorizes \$15.6 million in this fiscal year to shelter about a million persons.

3. Remove Federal legal restrictions on the use of state and local civil defense personnel and equipment, established with Federal financial aid, in meeting natural disasters.

The bill was passed by a voice vote in the House after a move to send the measure back to committee was defeated 172 to 67. Its passage came after the House Armed Services Committee had approved the bill by a 32-4 vote, with nearly all members reversing their stand on fallout shelters after comprehensive testimony last summer from 108 witnesses.

In floor debate, the bill was widely backed, including speeches by Speaker John W. McCormack of Massachusetts and Rep. Carl Vinson of Georgia, Chairman of the House Armed Services Committee.

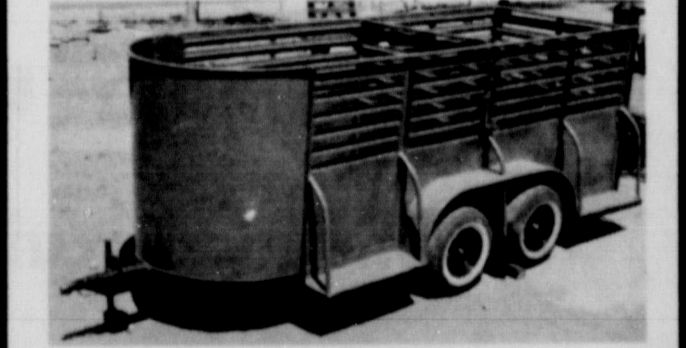

FIRST SUPPLIES for fallout shelter areas sanitation supplies, and radiation detection kits, Puerto Rico are loaded aboard a van at Brook when over 200 vansload are placed in shelter in N. Y. Army Terminal for shipment to Sanareas, will be enough for about 260,000 persons for Juan. The civil defense food, water, medical and 14 days in fallout shelters. Dept. of Defense Photo

Doctor of Science Honorary Degree To Pfeiffenberger

For only the twentieth time in its 29-year history, Texas Technological College this spring will award an honorary degree.

The degree, Doctor of Science, was voted by the Board of Directors to George W. Pfeiffenberger, Executive Vice President of Plains Cotton Growers, Inc. of Lubbock, for outstanding service to the High Plains cotton industry, to Texas Tech, and for his accomplishments in cotton research and marketing. Presentation will take place during the 1964 spring graduation ceremonies at Tech.

According to Harold Hinn, Tech Director of Plainview and Dallas who nominated Pfeiffenberger for the singular honor, "he has, through his work, brought about hundreds of millions of dollars of additional funds into the South Plains economy." He pointed out that through the investigation of light spot cotton utilization the local executive was largely responsible for area cotton producers getting from \$18 to \$24 more per bale for cotton in that grade since 1958.

After an extensive background in cotton technology, during the course of which he developed new methods and new instruments for use in the cotton industry, Pfeiffenberger assumed his present position as head of the giant Plains producer organization in 1956. Since that time he has had full responsibility for PCG's research programs, legislative vigilance, educational programs and other activities in behalf of the High Plains cotton producer. He majored in chemistry at the University of Dayton, Ohio in the city of his birth and studied textile courses at Texas A & M University.

As Cotton Research Director for the Chicopee Manufacturing Corporation of Lubbock and Chicopee Falls, Massachusetts, he was charged with the setting up and operation of a pilot spinning plant at Texas Tech. The spinning laboratory was operated until 1953 carrying out large-scale research operations and converting the results into commercial mill operations in five Chicopee mills in New England and the Southwest. As Executive Vice President of Plains Cotton Growers, Inc., Pfeiffenberger has maintained a keen interest in Texas Tech's Textile Research Laboratory and partially as a result of this interest and financial support from PCG the Tech Pilot Plant is now one of two completely modern spinning laboratories in the United States. The Textile Research Laboratory at Tech is used extensively by Plains Cotton Growers on a contract basis in conducting investigations of High Plains cotton fiber qualities and spinning performance. The results of these investigations are an integral part of PCG's promotion program for the area's cotton.

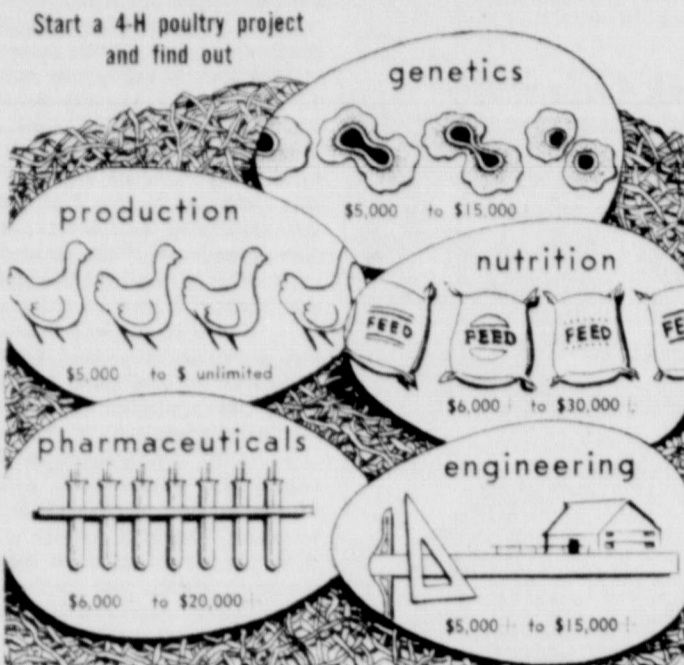

He began his cotton career in 1930 as one of the first technologists in the newly formed cotton fiber laboratory of the U. S. Department of Agriculture. He was with the Department of Agriculture in various positions connected with cotton technology and research until 1945, and has since served as a member of the National Cotton Advisory Committee. In 1963 he acted as cotton producer representative to the International Cotton Advisory Committee in Bangalore, India, a meeting of delegates from 47 countries.

In his connection with Chicopee Manufacturing, later as Re-

search Director for Otto Goedecke Company of Hallettsville, Texas, and recently as Executive Vice President of PCG, Pfeiffenberger has become known around the world as a writer and lecturer on cotton

and cotton technology. He was chosen "cotton's Man of the Year" in 1961 by Cotton Digest Magazine, and many of his lectures and articles have been translated into three languages for foreign use.

Will Your Chicken Lay a Golden Egg?

Shown here are starting salaries and potential earnings in five of the poultry sciences

The 4-H Club members enrolled in a poultry program soon learn that to raise even a small flock successfully requires some knowledge of the poultry sciences related to feeds, breeds, disease control and production.

They get this information from extension poultry bulletins, from the local 4-H Club leader and from the extension worker. And applying what they learn often produces the "golden egg" that discloses a future career.

Project Determines Career
High school students say that experience gained in tending a flock of birds determined their choice of college courses to prepare them for a career in the poultry industry.

The \$6 billion industry in the United States involves scores of specialized fields such as engineering, genetics, nutrition, pharmaceuticals and large-scale production. And, according to a recent survey made by the Western Poultry Congress, there is a shortage of college trained young people to fill these jobs.

Among 500 commercial firms surveyed recently, the lowest starting salary for college graduates was \$5,000 (see illustration above) and potential earnings over \$30,000.

Jobs Go Begging
What's more, the survey reveals that in one year less than 100 students were graduated with a bachelor's degree in poultry science. There were more than 250 jobs waiting to be filled.

One prospective employer, Heisdorf & Nelson Farms, Inc., helps to get 4-H'ers started in a poultry project, and offers incentive awards along the way.

Through arrangements made with the National 4-H Service Committee and the Cooperative Extension Service, the firm annually provides six national \$500 college scholarships, educational trips to the National 4-H Club Congress and medals for high ranking poultry members in the county.

Statistics forecast that many boys and girls will leave the farm to earn a living elsewhere. There appears to be a golden egg in the poultry industry.

SPORTS AFIELD

By Ted Kesting

Blue geese, which are simply a color phase of lesser snow geese, are increasing their numbers at the rate of two percent a year. Fifty years ago blue geese were a rarity and mostly of eastern distribution.—Sports Afield.

While the kit fox is usually regarded as a vanishing species, it is currently undergoing a population explosion in parts of Southern California. In Kern County especially, this diminutive fox has reached an all time high.—Sports Afield.

The Arizona Cooperative Wildlife Research Unit has recorded the calls of female bobwhite and scaled, Gambel's and Mearns' (or Massena) quail. The recordings lure in the bachelor birds. This system of locating males has good potential in census work.—Sports Afield.

Why a deer should calculate to kill a house cat is hard to say. But it happened in Berks County, Pennsylvania, and Dr. John Focht was there. Driving out of his lane, he saw the doe chasing the cat and striking with her hoofs.—Sports Afield.

The common sand flea is a jumping bug, which is usually found in the sea wrack and under the debris at the high-tide mark.—Sports Afield.

The first lures used in sea fishing consisted of a spoon-type device, made from a shell, and a jig, made from bone.—Sports Afield.

Choosing a boat can take time, but it need not be a chore; if properly done, it can pay rich dividends in safety, sport and satisfaction.

First, it's important to examine the boat ashore. Then ride in it and drive it. But for best results, we must realize just what can and what can't be checked should be recognized. A test ride or drive, particularly, should be planned beforehand.

This examination and trial of the craft should be done only after you have decided the type you need. The first considerations should be the size and nature of the waterways on which you plan to use the boat, the load to be carried, what sort of fishing is planned and what else the boat may be used for. These will determine your choice of boat size, type and power; and your examinations will then seldom include boats varying greatly from one another.

Much information about the strength of a wood or metal boat and its durability, can be gained from examination, according to Willard Crandall, Boats Editor of Sports Afield Magazine. Check on the frequency and size of rivets or screws and nails; the number of frames or substitutes; the thickness of the material used for planking. Check on fore-and-aft framing as well as the crosswise ones. Don't worry about getting a boat that is needlessly strong; that's better than getting one too weak.

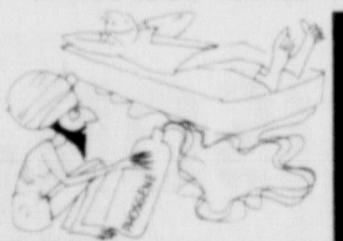

Boats are no longer used principally in calm water; they meet many more waves from other boats now. And today's higher speed means that a boat hits each wave harder. The simplest way for a manufacturer to meet price competition in today's boat market is to use fewer frames or fastenings, or thinner material. So be on the watch. Check neatness of construction details, too; if the builder insists on quality in the parts you can see, you can be pretty sure he'll insist on quality in the parts you can't see.

Judging from evidence of prehistoric stone tools, primitive man was right-handed.

SCIENCE SKETCHES

FAMILY LIFE, says the Population Reference Bureau, is more popular than ever. Nine out of 10 Americans—177 million out of 190 million—live in the country's 47 million families. (The Bureau of the Census defines a family as two or more people living together related by blood, marriage or adoption.) Average family size in 1960 was 3.7 persons, up from 3.5 in 1950 and reversing a downward trend of more than 150 years' duration.

PHOSGENE, a colorless gas that smells like new-mown hay, plays an important role in the manufacture of polyurethane foams which have rapidly growing insulating and cushioning applications, reports Chemetron Chemicals, Chicago, a major phosgene producer. The name comes from the Greek words for "light" and "to produce" since it was first made in 1812 by the action of light on a mixture of carbon monoxide and chlorine.

HARDENING of the arteries is being studied in hogs by the University of Illinois because a swine's circulatory system is similar to man's. Half a group of hogs get regular workouts on a treadmill; the others do not. Theory being tested: exercise increases the size of certain blood vessels reducing the danger of arterial disease.

KIRBY VACUUM CLEANER
Sales and Service—Rebuilt Cleaners and parts for Most Makes. Box 612-909 W. Plains or Phone 762-2121 for Free Showing in Home. Clovis, N. Mex.

Justin McCarty

FASHION... Fat out! Yes, you can unbutton this young summé shift at shoulder and side. So easy to get into. Waffle weave cotton and Arnel triacetate in white, pink, black or wheat. 8 to 13.

THE FASHION SHOP

6th and Main, Clovis

Farming and ranching are dynamic businesses and as long as our economy continues to grow they will change constantly, say Texas A&M University agricultural economists.

If You Have **FARM MACHINERY** TO SELL Call Big Nick Trienen at **Machinery Supply** Highway 60 Bovina Phone 238-4861

Complete Automotive Machine Shop SERVICE

Valve Work - A Specialty
Crankshaft Grinding
MOTOR LAB

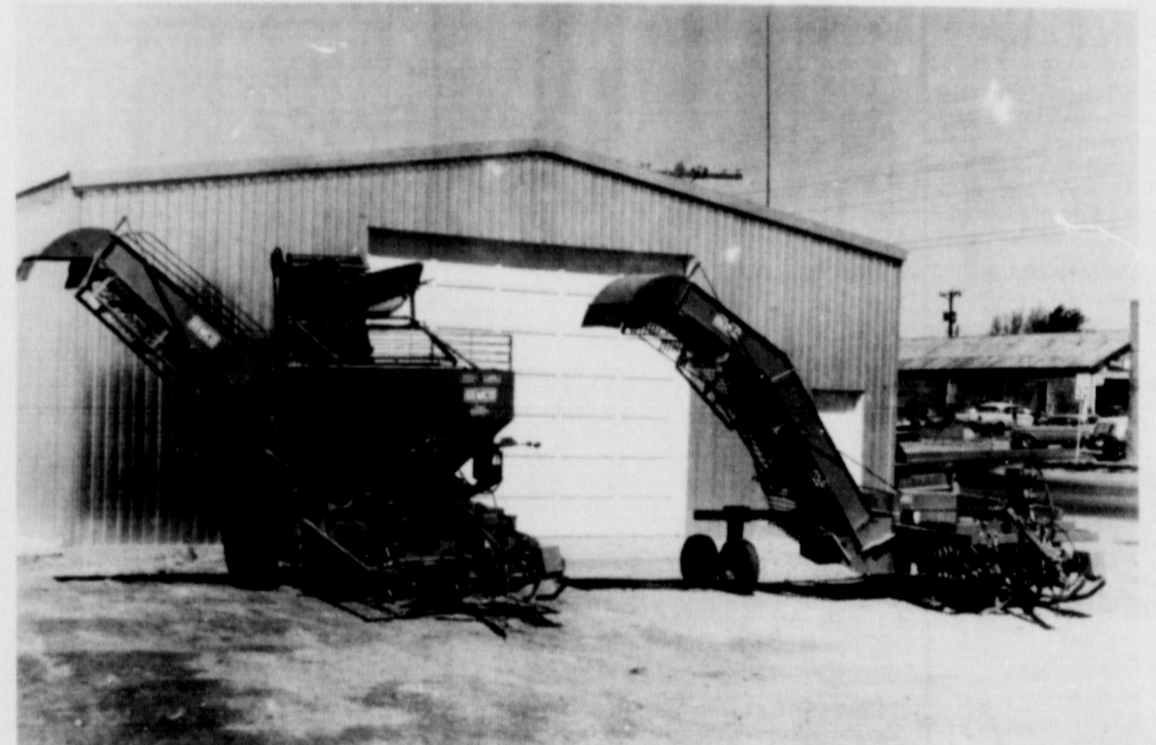

At Rear Of Elliott Auto Parts
311 W. 7th. Clovis

ATTENTION BEET GROWERS

We are happy to announce that we have been appointed the exclusive dealer for All Of West Texas and Eastern New Mexico for the famous

GEMCO BEET HARVESTERS

The Oldest Multiple-Row Beet Harvester Company
In The Business

These Models Are Now On Display At Our Location.

We Are Also Headquarters For.....

- **SPEEDY** Weeders and Thinners
- **CISCO** Bed Shapers
- **BEZZERIDES** Barring-Off Attachments
- **Other Cultivating Attachments**
