Cancer Drive Slated Here

PROBABLY during one season of baseball, more major league outfielders catch around 200 flies. But nearly anyone with a quick eye and hand could catch that many in one day around here.

Someone labelled the latest breed of flies "holocausts" because they never seem to land, a quick which just about renders the fly swatter useless. However, some housewives are getting adept at knocking them out of the air with the swatter.

Spicy would seem to be a natural for them, but another housewife said they seem to fatten up on insecticides.

I have personally found something that works fairly well, but doesn't get rid of more than one at a time. Take a towel and pop it at them. It makes a heck of a racket in the shower, where I first tried it, and also kinda messes up the towel, but it's fun.

A LOT OF people are hollering for the abolition of boxing, particularly in California, where chances are good that it will be abolished following the death of Davey Moore. Two boxing champions have been killed in a year and another is still unconscious from a knockout weeks ago.

I like to watch a good prize fight as well as most, but I honestly believe it probably is a sport we would be better off without.

I could do without it, too, but at least never gets hurt with their leg.

BE DAY PARTY HONORS

Mrs. Billy Gage was entertained with a birthday party Saturday evening at the home of her parents, Mr. and Mrs. Ves Patterson.

Games of forty-two were played and refreshments served. Guests were Mr. and Mrs. Dean Slaughter, Mr. and Mrs. Lewis Fields and family, Miss Ruby Mince, and Mr. Gage and children, Tim and Tracie.

Mr. and Mrs. Dean Slaughter and son, Dix, were in Morton Sunday to visit her mother, Mrs. Leota Martin.

Mr. and Mrs. Cleo Whitman were fishing at Lake Brownwood last week.

Mrs. S. D. Hay, assisted by Mrs. Bob Drake will head the Sudan drive for the Cancer Crusade, scheduled April 11-19.

Workers will attempt to contact each person here, with each dollar collected locally to be divided as follows: 33 cents for cancer research; 20 cents for professional education and services; 23 cents for public education; 11 cents for service patients; five cents for development of program and administration, and eight cents for campaign.

FILM ON CANCER TO BE SHOWN HERE

All women from the Sudan community are invited to view a film on cancer which will be shown at 8 p. m. Monday, April 1, at the Sudan Community Center.

Sponsoring the film is the Sudan Young Homemakers Assn.

IMPROVING SKILL - Members of 4-H club are improving their skills as homemakers for tomorrow through weekly meetings and practice at home. They must set the table for family meals at least 10 times, plan, prepare and serve three complete meals, and exhibit at least one food they have learned to cook through 4-H. They also must start a recipe file of food they are learning to prepare. Above, Vickie Ray shows how to measure dry ingredients; in the center panel Lonna Sue Horn, Rita Munger and Vickie display fried chicken, and at right the three demonstrate a table setting. These girls plus Jeanne Baker, Mickey Lou Logan and Shelia Blackwell will display their favorite foods at the 4-H Favorite Foods Show Saturday, March 30, at the Sudan Community Center. Nancy Williams will be judge.

Sudan FHA Offers 'Favorite Recipe' Book

The Sudan FHA Chapter is conducting their annual sale of the famous cookbook, *Favorite Recipes of Home Economics Teachers*. The 1963 edition features desserts and party beverages. These cookbooks are sold only for fund raising. The 1962 edition featuring meats can also be obtained from the chapter.

Homemakers will find in this book the most complete collection of dessert recipes ever printed. It contains over 7,000 recipes submitted by home economics teachers.

The "Desserts Edition" contains a separate section for cakes, cookies, pies and candies.

Other sections feature frostings and fillings, puddings and custards, frozen desserts, fruit desserts, shortcakes, jiffy desserts, dessert sauces and toppings and desserts for large groups. "Low calorie, foreign, and convenience recipes contained in separate sections are worth the \$2.95 price alone," said a spokesman.

Scripture: St. Mark 8:34-38;
St. Luke 9:51.

"Whoever will come after me, let him deny himself, and take up his cross, and follow me."

What does it mean to follow Jesus? Will you follow Him and in joy, peace, light and love, live forever? Or will you go your own way and die, in hell and darkness forever? You have a choice of only two ways—Your way, which leads to death; or Christ's way which leads to eternal life. If you say "I just won't make a choice," you have already done so.

So what does it mean to answer the seeking Lord Jesus, who died that you and I might live, when He calls "Follow me?"

First, of course, we must believe Him—take His word that He is the Son of God who came to seek and to save man who was lost (separated from God by sin) and, accept Him as our sin-offering to God by confessing Him as our Savior and Lord.

Then, in trusting Jesus, believing that He has the power to keep His promises, we start out to do as He says, as He directs,

as He leads. We begin by turning from our way to find out what He says for us to do, the way He says for us to go. And where can we find out? From the Bible, for as we read God's Word, the Holy Spirit of God guides us to understanding through our prayer for His help and in our obedience to get up and "follow" when we get directions for the way, even one step at a time.

Jesus said in the Scripture which we are using for this writing, that we were to do three things once we had chosen to come after Him. First, "let him deny himself." To deny yourself, your own wants, your own work and plans, your own way is not easy, but it becomes easy when we see our human selves in the presence of our Crucified and Risen Lord. For He made us, when we became lost He came and died to pay off our death sentence for sin, then Arose victorious over death to show us all the way back to the Father. Still He did more than that! Jesus sent back the Holy Ghost to comfort and guide us so that we will never be left to find our way alone!

The second step at Jesus directions is to "take up his cross." Well, how do we do that? What is taking up my cross? Your cross of service for Christ, leaving off the things that glorified you and counting them as nothing for the privilege of service for Jesus that will be for His glory. And the service for Jesus is to do and say, as well as you can, what He would do and say if He had not given up His body for you. In other words, to be a willing and obedient instrument for Christ to use, in humble gratitude that He can and will do the work through you. Take one step at His bidding, and He will lead you on to another.

Governor John Connally signs a proclamation designating the week of April 1-7 as Texas Industrial Week as Richard White, President of Mission Manufacturing Company of Houston and 1963 President of the Texas Manufacturers Association looks on. The Governor urged Texans to show appreciation to Texas industry for its contributions toward the economic development of the state.

itude that He can and will do the work through you. Take one step at His bidding, and He will lead you on to another.

The third direction Jesus gives, "and follow me," is easy to do only after the first two have been done.

Will you take Jesus? The joy and delight of mind, the assurance of His eternal love and life the peace of a soul and spirit that has again been reconciled through Jesus with the Maker and Almighty Father; all this now is mine, and can be yours if you will only Believe Jesus!

The time you have to make a choice is now. Don't reject Him! Don't say "no" to One who loves you so much that He would even die to give you eternal life. Say "Yes," and follow Jesus!

CITATION BY PUBLICATION

THE STATE OF TEXAS
TO: Nancy F. Duke, Defendant,
Greeting:

YOU ARE HEREBY COMMANDED to appear before the Honorable District Court of Lamb County at the Courthouse thereof, in Littlefield, Texas, by filing a written answer at or before 10 o'clock A.M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 6th day of May A.D. 1963, to Plaintiff's Petition filed in said court on the 22nd day of March A.D. 1963, in this cause, numbered 5313 on the docket of said court and styled

Jimmie W. Duke, Plaintiff,
vs.
Nancy F. Duke, Defendant.

A brief statement of the nature of this suit is as follows, to-wit:

This is a suit for divorce alleging cruel treatment, alleging that there is no community property, real or personal, owned by plaintiff and defendant, alleging that there was one child born of the marriage of plaintiff and defendant, said child being Starla A. Duke, a girl, approximately one (1) year of age, alleging that it would be to the best interest of said child for the defendant to have the care, custody and control of said child, with plaintiff having the right of reasonable visitation. Praying for divorce and for gen-

eral relief, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates herof, and make due return as the law directs.

Issued and given under my hand and the seal of said court at Littlefield, Texas, this 22nd day of March A.D. 1963.

Austin Report

By BILL CLAYTON
State Representative

One half of the time for the regular session of the legislature has been completed and there have been approximately 1,000 bills introduced in the House and approximately 500 bills introduced in the Senate.

The Appropriations Committee of the House, for the first time in recent history, reported the appropriations bill, House Bill 86, to the floor of the House within the constitutionally required 60 days. The House passed the bill after a full day of discussion and debate in its original form and with only nine dissenting votes. This bill meets

the requirement of being certified by the comptroller, as being within the estimated income of the State for the next biennium. The Senate has not finished their work on the Senate finance bill, but as soon as they do and it is passed in the Senate, then a Conference Committee of the two houses will be appointed and work can be begun on the final appropriation bill. It is hoped, that if the Senate does not up the bill too much, we can get a final bill within the estimated income.

The various committees continue to meet daily and hear the

various bills. As of this time the Labor Committee has not reported a bill for floor debate.

House Joint Resolution 44, which would have frozen the sales tax at the present 2%, failed to pass the House. I voted against this resolution because I felt that this left the door open for a State income tax or a corporation income tax, and certainly I do not believe the people of my district want either. I also voted against the bill, and it was defeated, that would have provided for four year terms for members of the House of Representatives. I believe that the Representative is the closest voice the people of Texas have in their State Government, and I believe they should have an opportunity to vote for their representative every two years.

Two of the major pieces of legislation proposed by Gov. Connally passed last week. One created the Committee on Education Beyond the High School Level, and the other created the Texas Tourist Development Agency.

The House and Senate passed the insecticide inspection bill, which is a protective measure for the farmers. It provides for the inspection and chemical analysis of insecticides that are sold to farmers.

The House passed the bill which related to the automobile safety responsibility law, and put more teeth into the law affecting drivers who drive without liability insurance.

I hope you will continue to let me hear from you as legislation in which you are interested is being considered.

When The Mental Patient Comes Home

"At the present time, it is no exaggeration to observe that the major problem in the field of mental illness is not the hospitalized but the formerly hospitalized patient."

Moreover, while the past several years have shown a decline in the number of hospital beds being occupied by mental patients, and the length of hospitalization has become increasingly shorter, "readmission rates have increased."

These observations were made by Professor Howard E. Freeman of Brandeis University and Professor Ozzie G. Simmons of the University of Colorado, noted sociologists, who have collaborated on a new book, "The Mental Patient Comes Home," just published by John Wiley & Sons, Inc.

The findings presented in the book may well rock the foundations of practices and beliefs held by professionals and laymen alike. The result of a ten-year undertaking known as the "Community Health Project," initiated at the Harvard School of Public Health in 1953, it is a comprehensive examination of the post-hospital experiences of former mental patients, many of whom return to their communities only to reside in "one-person chronic wards," failing to participate in the occupational and social life of their community.

Current treatment programs and rehabilitation efforts are ineffective, for the most part, in preventing rehospitalization and promoting a high level of post-hospital occupational and social performance. As pointed out by the authors, this level is critically determined by the patient's family and their expectations.

"Can and do most mental patients recover, and are men-

tal hospitals and treatment programs really to be evaluated favorably?" Professors Freeman and Simmons explore these and other controversial topics in their study, examining objectively and authoritatively such vital topics as: Patients and Their Treatment Experiences; Personality Characteristics of Relatives; Social Class Values and Rehabilitation; Symptoms, Management Problems, and Attitudes Toward Mental Illness.

A major contribution to the fundamentals of understanding human behavior, "The Mental Patient Comes Home," priced at \$7.95, challenges much of the current thinking in the field, presenting data that will be incorporated in the further development of rehabilitation programs.

The NEW Santa Fe Trail

A report on some of Santa Fe's newest milestones

BY THE PRESIDENT OF THE SANTA FE

In 1963, Santa Fe is investing some 80 million dollars on new equipment and improvements.

All this money is being used to keep the Santa Fe up-to-date in every way. As a matter of fact, so many new and exciting things are happening on the Santa Fe today that some people are calling it "The New Santa Fe Trail."

Here are just a few highlights of the many improvements.

- 3545 new homes.
- 500 Mechanical Temperature Control cars.
- 500 covered hopper cars.
- 154 double and triple deck autovehicles.
- 121 flat cars.
- 50 new diesel locomotives.
- 24 hi-level passenger cars.
- 21 semi-lightweight mail and baggage cars.
- Increasing our microwave communication system to 2004 route miles.
- Experimenting with new and more efficient freight cars such as computerized cars for automobile parts.
- Advancing our piggy-back operations to include joint rail-truck rates.

And we haven't been standing still up until now. We've invested over a billion dollars in progress since World War II. For example:

- The new cut-off line into Dallas.
- Major line realignments in Arizona.

- Equipped 2500 new freight cars with "Shock Control" devices for damage-free shipment of fragile freight. (More of these cars are on order.)
- Equipped 1745 freight cars with roller bearings.
- Designed and built the first multi-level automobile transport cars—the autovehicles—which are now used by all the major railroads.

To keep pace with changing times and with the rapid growth of the areas we serve, we keep constantly on the move toward a better way to serve you and to strengthen a vital part of our national defense.

It is our aim to keep the Santa Fe Trail always new.

Squirrel-Hunting Trick

Squirrels are mighty bulky to carry in the pockets of a hunting coat.

Also, they may overheat and spoil the meat if carried in the pocket too long.

Prevent this by taking along on your next hunt a couple of home-blanket spider pins. When a squirrel is bagged, run a pin point through a leg tendon, snap the pin shut and attach to your belt.

By repeating the process, a number of squirrels can be carried this way on one pin. Should you expect to bag a large number of bushy-tailed better carry along several pins.

How To Hold A Shotgun

Nearly every novice — and many an old-timer — has trouble hitting a target with regularity.

Many misses can be avoided if the shotgun is properly held.

Watch a novice next time he shoots. Does he hold his gun with his left hand between the slide grip and the magazine (pumps and autos) and with his left elbow bent? If he does, he's wrong.

The left arm should be extended straight from the shoulder with hand gripping slide (if pump). This gives a firm support and better control of the gun.

Practice this hold until it is done subconsciously and your shooting will vastly improve.

Each day we turn
another page.
While years are adding
to our age
We're making history
every day
Through deeds and acts
that we display.
Each day we write
a little more,
Just adding to the

I wonder if it all
will be,
An interesting
history.

Masten, Sudan, was selected by the United States Olympic Committee along with Laura Switzer, McLean, (left) and Betty Scott, Tonkawa, Okla., (center) to represent the United States in the Pan American Games in Sao Paulo, Brazil, April 20-May 5. Next week Miss Masten will fly to St. Joseph, Mo., with the Queens to play in the National Women's AAU Basketball Tournament. Coached by Harley J. Redin, the Flying Queens, six-times National Women's champions, will be trying to regain the National crown after losing it last season to Nashville Business College, defending champions. The tournament is set for April 2-6. Miss Masten, a defensive specialist, is a senior two-time All-American for the Queens. She will graduate in May with a B. S. degree with a major in physical education. A 1959 graduate of Sudan High School, this season she has been co-captain for the Queens.

IMOGENE COCA RETURNS TO TV NEXT SEASON

IN A NEW COMEDY SERIES, Grindl, in which she will play an itinerant housekeeper. NBC has ordered 26 episodes from Screen Gems, will air the show Sunday nights, replacing Car 54, Where Are You? ... There is talk of Anthony Quinn and Peter Ustinov co-starring in a 90-minute dramatic special for producer David Susskind, the plot to deal with Italian politics ... Frank Sinatra, Jr. makes his dramatic bow in a Sam Benedict episode titled "More Seldom Than A Wave Is Wet" ... A loosely knit "network" of some 96 stations will pick up an hour-long weekly news-and-commentary show, Pulse of the Nation, to be hosted by Walter Winchell ... Twilight Zone is on the CBS schedule for 1963-64 (Fridays at 9:30), but it reverts to its original half-hour format.

NBC IS CROWDING ABOUT A BIG COUP FOR NEXT SEASON: The network has collared Bob Hope for a weekly Friday night series—48 shows (five comedy hours and a 90-minute Christmas-with-the-troops film, plus 40 dramas which Hope will host and two in which he'll star). Chrysler will ante up \$18,000,000 to sponsor the series, in what NBC describes as the biggest one-season, one-series deal ever consummated ... The Hope series displaces Sing Along With Mitch, Friday nights at 8:30. Next fall Sing Along will move to a new night and a later hour: Monday, 10 P.M. ... In other moves NBC will rewrap its Thursday and Friday schedules. Harry's Girls, half-hour series to be filmed in Europe (the star: Larry Rhyden), goes in Fridays at 9:30, to be followed by Joey Bishop's new hour-long variety show. Jack Paar, now telecast Fridays at 10, will switch to the same hour on Thursdays.

ONE OF LORETTA YOUNG'S TWO SPONSORS FOR THIS SEASON has not given up entirely, is currently negotiating for her to do at least 10 hour-long film dramas next season on a once-a-month basis ... Dixie Dean and Pee Wee Reese have both recovered from midwinter illnesses and will return as announcers for CBS's Baseball Game of the Week ... End of an era: The Untouchables will not be back on the air come fall. Its four-year run ends this spring ... ABC's new Hootenanny show, replacing Mr. Smith Goes to Washington, will be hosted by Jack Linkletter ... The Price Is Right moves from NBC to ABC in the fall ... The weekly two-hour Jerry Lewis show will inherit the lead-in audience of Lawrence Welk ... CBS's 29-year-old radio show "Let's Pretend" is being turned into a half-hour TV film series by producer E. Charles Struss. (All rights reserved—TV GUIDE)

Getting Ready for Spring
The other day, I walked past my neighbor's house and found him busy in his garden. Though still early, there was plenty of pre-spring work to do.

First step was to "feed" the trees. He sunk two-foot holes in the water curtain (circle at the outer spread of Z tree's branches where most feeding takes place) about three feet apart, and filled each with a quart of fertilizer.

Next, he covered the lawn with fertilizer and lime. By working on frozen ground he avoided damaging the turf, which often happens once the ground is softened by sun and spring rains. When the velvet-green carpet starts sprouting, his Lawn-Boy power mower will make an easy job of the frequent cuttings.

We then went over his proposed garden layout—a simple, scaled-to-size landscape plan. He chose low-growing trees and shrubs to frame his one-story

house. A small perennial garden will be set in the back yard near some large shade trees, for protection from hot summer sun.

Re-modeling a yard is a big job, but new power tools have simplified the process. My best friend in the garden is the Lawn-Boy Hobby Gardener—it hoes, weeds, edges and tills ... all on one machine! My neighbor feels the same way, for he's the proud owner of a 63 model.

Having the nearest garden on the block isn't an accident ... it takes planning and hard work. But, your own satisfaction, plus the admiring glances of envious neighbors, make it all worthwhile.

"Congratulations! You have just made our one millionth request for a raise!"

STRIPED FAVORITE: Old-fashioned cotton gingham taken on a peppy new look in navy and white stripes. Encircling the full-skirted dress are bands of solid navy emphasizing butterfly bows. White cotton lace edging the semi-wrap neckline. By Trade of California.

April 7, 1927—An audience gathered in an auditorium in New York City watched the first successful long-distance demonstration of television. Secretary of Commerce Herbert Hoover, seated in his Washington office, was both seen and heard clearly by the spectators in New York.

April 18, 1934—The era of the "Laundromat" was born in Fort Worth, Texas, when a local resident opened his "Washeteria," a new type of service where electric washing machines could be rented by the hour.

YOUR FAIR SHARE...

Most Texans, we believe, are fair-minded folks. They believe in fair play, square dealing, and mutual respect for personal and property rights. Those who want to take advantage of their neighbors are the exception. Sometimes it may be hard to define "a fair share." This can occur in dividing oil or gas production, when two or more landowners are involved.

As we all know, oil and gas don't pay any attention to fence lines.

Here in Texas many wells have been allowed to produce more oil or gas than they should have because they were drilled on very small tracts. That extra oil or gas came from under the neighbors' land.

Some oilmen made a regular practice of this type of operation. Obviously, one owner got more than his fair share—others, less.

People in 26 out of 29 oil-producing states have found a way to divide their oil and gas so that each owner gets what is rightfully his. They simply put their small acreage together and share the costs and income. This system is known as POOLING.

Such a system is needed in Texas. It is proposed in a bill now before the Legislature, HOUSE BILL 510. When the neighbors cannot agree, the Railroad Commission would set up a drilling block and see to it that the rights of all owners are protected... all costs and proceeds equitably divided.

Oilmen who have made fortunes at the expense of others could not be expected to support House Bill 510. They are bitterly opposing it. But the responsible oilmen of Texas are overwhelmingly for it. So are the informed citizens who want to see justice done.

Ask your Senator and Representative at Austin to support House Bill 510—so Texas, too, will have a reasonable and legal way to assure to each landowner his FAIR SHARE.
