THERTY-HENTH YEAR

SUDAN, LAMB COUNTY, TEXAS

THURSDAY, AUGUST 15, 1963

NUMBER 24

I'M A YEAR inte, but I promised myself that someday I would get around to answering a letter written last year by one K. K. Miller, chief of the New Mexico State Police.

Mr. Miller was sent a clipping of an article I wrote concerning some friends who felt they were hijacked by the New Mexico State Police and a justice of the peace who was hauling in the the dough around 4 a. m.

Mr. Miller said, in a letter to a Clovis man who west him a copy of the Beacon-News

"... we wonder just how many people would be guiltible enough to believe such a biased article." Miller imiticated a beltef that the entire incident was fabricated, and challenged in to name the town and complainants involved.

Well, Mr. Miller, the town was Vaugha, and the complainant were Mr. and Mrs. Burn Mahan of Graham, Texas, accompanied by Mr. and Mrs. Bill Carter of Bunger Route, Gentum, Texas. The incident occupied last August, about the middle of the mouth. At the time I received the letter, those people had gone on home, and it was some time later before I now them again to ask what town it

Anyway, they probably would appreciate a photostatic copy of the officers citation deposition. And certainly they will confirm that we didn't make up the whole thing.

THERE are more cows than people in the area right now. To unfortuned this, you have to as-

wthat there are thousands at the Sulan Livestock eding Co. pens, which at reported the largest f cattle on hand in hisa total of 19,206.

"Although this is a record high since the feeding operation was set up more than 20 years ago, we understand the place could accommodate as many as 22,000.

Recently someone asked me how many cattle they had out there, and I couldn't even guest. [I think I hemanded about two or three thousand]. It seems hard to realize they could have that many critters out there, but I guest we'd know it peetly quick if they turned them all loose to stampede down the main street of Sudan or Amberst.

It's a weather to me they can heep track of hew many they have, Seams like one or two persons would stay busy all the time counting them. (I always wondowd what Bobby Newman and him. Wallace did out there). For a seal idea of the value of all those cours, countier this: 19,205 convenuabl make 7,680,

ROSE CAPITAL — Municipal Rose Garden at Tyler is one of the finest in the nation with 26,000 bushes and 375 varieties which bloom from May until November. Upwards of 50,000 persons visit the garden each year. The 1963 Tyler Rose Festival will be held October 18, 19 and 20.

Football Drills Open Monday

The Sudan Hornets, co-champions with Hale Center last year, will open practice Monday for the coming season,

The Hornets will find themselves with one new assistant coach, Richard Potter, in addition to assistant Dempsey Watkins and head coach R. L. (Hank) Brown. The coaches will find themselves with a good nucleus of eight boys who were regular performers last year, plus several boys who were on the squad last year who can be expected to be regulars this season. In addition, a couple of boys who worked out all last year on the B team are being counted on heavily, and, with integration this fall, the Homets may pick up some help from boys who come over from Collins school.

dates for the football team meet him at his home tomorrow (Priday) at 1 p. m. to go to Mule-thoe to have mouthpieces fitted by a dentist. A new state requirement is for football players to wear teeth protectors.

Also, all football prospects are to report to the field house at 8 a.m. Monday, Aug. 19, for the first day of practice. Equipment will be issued at that time, Brown said.

Although the Hornets beat three of four district opponents last year, they are rated no higher than third or fourth in most preseason polls, but they remember that last year, pre-season dopesters had them or Hale Center in the cellar.

Sudan faces its traditional opening foe, Class AA Morton, here on Sept 6. The remainder

of the 10-game schedule is the same as last year, and includes two more Class AA foes, Priona and Priendship, and one Class B opponent, Amherst.

SUDAN SCHOOL MAY SEEK \$3,000 GRANT

A\$1.5 million assistance grant to schools across the country to encourage creative teaching was announced this week by Minnesota Mining and Manufacturing Co.

hennis Baker, The Baker Co., Box 910, Lubbock, local 3-M distributor, said the grant would provide \$3,000 worth of visual communications equipment to each of 500 schools from coast to coast. At least one school in the area covered by Mr. Baker, which includes Sudan will re-

The schools will be selected on the basis of a written proposal submitted by principals and administrators which will briefly describe new techniques of employing visual aids in the classroom, now and in the future. Proposals must be submitted by Nov. 15.

SCHOOL TAX RATE BOOSTED TO \$1.75

Tax rate for patrons of the Sudan School district was increased to \$1.75 per \$100 valuation, effective with school tax bills to be mailed out in October, in action by the school board Monday night,

The board, acting on authority given them in a recent vote on

Senate Bill 116, increased the

Registration Schedule For Schools Reported

The 1963-64 school term in the Sudan Schools will begin at 8:35 a.m. Supt. 3. There will be a general assembly in the high school auditorium for high school and eighth grade students at this time and regular class schedules will begin immediately afterwards.

Registration of high school students will be according to the following schedule: seniors 9 a. m. -12 noon, Aug. 27; juniors 1 p. m. -4 p. m., Aug. 27; sophomores 9 a.m. -12 moon, Aug. 28; and freshmen 1 p.m. - 4 p. m., Aug. 28. All these registrations will be in the high school library. High School Principal Ralph Stewart urged students to register at the scheduled times as the first day of school is filled with so many problems that it is almost impossible to register any students during this day, "tudents will have two weeks in which to change their schedules and no schedule will be changed after

The eighth grade will register in the high school library Friday, Aug. 29 from 9 a, m, until noon.

All elementary students will register from 9 a, m, to 2 p, m. Friday Aug. 30, at their various classrooms, B, M, Wilson, elementary principal, said.

Wilson noted that all first graders should have their smallpox vaccinations before starting to school, and that any first graders who have not previously brought birth certificates to school should bring them Aug. 30.

"There still seems to be some confusion in regard to the high school requirement regarding physical education," Stewart said. "The State requires that you have two years of physical and health education, which is to include 1 1/2 years of physical and a half year of health education. Band and sports may be substituted for the physical edu-

cation requirements, but there is no substitute for the health requirement. Should a student quit sports or band then he must meet the physical education requirement.

Beginning this year physical education will count as a whole unit per year whereas it has only counted as one half unit per year. A student's physical education and health education credits cannot be counted as a part of his 16 basic credits, and only two physical education credits may be counted toward graduation from high school.

The physical education requirement in regard to the half unit in health education will have to be met by students entering high school in 1962-63, or after, which means this years' juniors are seniors may graduate without the health course.

This will help juniors and seniors who will have trouble in arranging their schedules. It was urged that all freshmen and sophomores take the health course during their first two years in high school.

Beginning Sept. 1, 1963, students will be classified according to the following number of credits: Seniors 14; Juniors 9; and, Sophomores 4 1/2. There will be no exception to these requirements. Since we have no mid-term graduation of seniors there cannot be any changing of classifications during the school year. Should you be in one classification at the beginning of the school year, that will be your classification for the

The interior of the High School has been completely redecorated, Stewart reported, "Students should be proud of its appearance and the improved look will make a more pleasant surnounding for the students attending Sudan High School this coming school term,"

STATE FAIR KIDS Cindy and Marla Hill swap hot

dogs for chop sticks and rice with the little Japanese sisters, Nacko and Mari Iwada, in a miniature version

of the largest-ever Texas International Trade Fair to be featured at the 1963 State Fair of Texas October 5

through 20 in Dallas. Countries from around the world

will take part in the Trade Fair with Japan the largest

rate from the former \$1,50 total, with the expressed intention of paying off the long-standing school deficit within one year.

The increase voted Monday might put the rate at the maximum allowed for local maintenance. The new financing setup permits a maximum of \$1.50 to be levied for maintenance (operation of the school), with the interest and sinking fund rate (now 25 cents) to be added on top of that.

The interest and sinking fund levy is determined by the amount of bonds to be retired each year, and is itself limited by law to a maximum of 50 cents. (It cannot, however, be increased in this district without another bond vote by the people).

Board members noted Monday night that the new tax rate would bring an additional \$36,000 a year into the school's coffers, and would enable them to pay off in one year the deficit. At the end of this school year, the school will be about \$35,000 in the red, Supt. W. E. Hancock reported.

A proposed budget calling for expenditures next year of \$320, -061 was discussed, and a public budget hearing set for 8 p. m. Sept. 9 at the school. Next year's income was estimated at \$356,161, which would leave enough to pay off the existing debt, it was reported.

The board approved hiring of Roger C. Hebebrand for high school social studies and speech, and of Mrs. Suzanne Hebebrand for first grade. Charles Rich was employed as custodian.

Wylie prepares for more growth

When Wylie, Texas planned civic improvements, its progressive citizens went all the way. Showing a population increase of 34% over 1960 census figures of 1804, Wylie set out to prepare for even more growth.

They launched a street paving program, downtown business moderniza tion, construction of a new school, new bank building, new residences and a new post office.

This combination of public and privateimprovement is well under way today,

as shown in the "before and after" facelifting photos above. The Wylie story is another reason we say big things are happening in General Telephone towns.

These towns are on the move. Community improvements are under way, local resources are being developed, new businesses, new industries are coming in.
