FORTY-FIFTH YEAR

NUMBER 47

SUDAN, LAMB COUNTY, TEXAS

THURSDAY, JANUARY 15, 1970

ANNOUNCED

BY DALTON

SINCE WE'RE still just getting the New Yera underway, this might be a good time for me to express appreciation to those who read this column faithfully. I used to say that only the typesetter and my mother read this stuff, but judging from the letters and comments I receive regularly about the column, I know there are more readers than that. By actual count of these letters and recollection of the comments, I have about 11 readers, possibly 12, although I may have made one or two so angry that they no longer bother

And therein lies the meat of this week's anemic fare. I want to apologize to all those persons whom I have upset greatly by maligning their favorite television or entertainment personalities, or by advocating the extreme opposite viewpoints on such matters as politics, hair styles, food, auto insurance, marching bands, social security, racial issues, and a long list of other controversial subjects.

to see what's being written here.

Not that I'm backing up from any statements I may have made on any of these subjects; my views are unchanged on just about all of these (don't gimme no facts-my mind's made up). But I'm aware that there are many who disagree with what I say, and some may get very angry at my one-sided portrayals. That's okay with me; I respect the views of others on all these topics and invite any letters expressing them. I can disagree with a person and still like them, unless they are unwilling to admit that any viewpoint other than theirs is possible.

SOME GUY named Michael Honig who heads a chain of food outlets, claims that youth of America are turning their backs on hamburgers and hot dogs. Hot dogs, maybe, but not hamburgers, judging from the youngsters I know in this part of the nation. Hamburgers still are quite popular with teens, and the older geezers like me still go for them in a big way, too.

So far as I'm concerned, the hamburger is the greatest of all American inventions.

place in the Farwell tournament Saturday by defeating Farwell 33-26 in the finals. The Hornettes defeated the Nazareth fems 38-25 in the opening game with Connie Lance hitting 18 points to lead the scoring. The scoring was fairly even until the last quarter when Sudan went ahead. Sudan went ahead in the third quarter of the Bovina game to lead 40-25 going into the final period. Final score was 50-32, in the second game putting Sudan in the finals. The first place trophy is ou display at the high school. Connie Lance was chosen outstanding forward in the tournament by officials.

The Hornettes again defeated Farwell Tuesday in a regular conference game. The score was tied 15-15 at the half with Sudan outscoring Farwell by 16 points in the third quarter. Final score was 45-20 with Angela Pickett scoring 22 points for Su-

The B team girls also downed the Farwell fems 31-24 Tuesday night with Val Newell leading the scoring for Sudan with 13

The Hornets varsity team made a good beginning in the Farwell tournament by sqeaking by Nazareth 42-41 after leading the scoring until the final period. Larry Hanna scored 14 points. They came back on Friday to down Bovina 70-57 with Jerry Bellar putting 23 points on the scoreboard. They met Farwell in the finals Saturday night in a wide-open high scoring game with Farwell coming out on top 102-54. Farwell scored 54 points in the last half to win first place

The Hornets met the Farwell Steers Tuesday night in their opening conference game and came out on the short end of the score 78-46. Jerry Bellar scored 17 points for the Sudan boys, but Farwell had five players score in the double figures. Sudan completed 8 out of 32 free throws attempted with Farwell making 8 out of 13 attempted.

in the tournament.

The boys B team also lost to Farwell 63-59 with four of the five Sudan players scoring in the double figures. Sudan led 38-37

The Junior High girls lost their game Monday 36-4 to Bovina. The seventh grade boys won 33-23 over Bovina with Richard Tamplin scoring 16 points. The eighth grade boys came out on top of a thriller with Bovina with the final score 29-27. Sudan led 12-10 at the half. Pierce scored 10 for Sudan with Hanna hitting for 8 and Chester for 6.

Varsity teams will host Bovina here Friday night, with B team games beginning at 5:30 p. m.

The Junior High teams will go to Vega Monday. A Junior High tournament will be held Feb. 5-7. It will be a Round-Robin

completely thawed and dried-

Reed said that repair work will begin on streets this week, as soon as holes can be cleaned sufficiently to be filled.

He said that this was the worse damage to streets by weather, to the best of his knowledge, and contributed this to the long-lasting extreme cold weather. When streets did thaw slightly and cracks fill with water, then they would crack more and buckle when they refroze.

The Texas Highway Department has reported extensive damage to highways from all over. the South Plains.

Here's a happy thought to start the New Year, as if anyone needs one afterworking toward the tax deadlines. As an auto owner, have an easier time getting your new 1970 car license tags. This is due to a revised registration system by the Texas Highway Department which predicts that more than seven million vehicles will be registered this year in the state.

Many auto-owners have already received the new forms and others will receive them this month. However, the registration does not begin until Feb. 1. The application is a three-part form and should not be torn apart. You may take your application and indicated fee to your tax office, or order by mail. You do not need last year's registration slip or certificate of

If you desire your new plates by mail, simply mail the required application and fee (plus \$1 for handling and postage) to the county tax collector. Deadline for mail applications in March 1 although the regular registration deadline is April 1.

This gives Texas one of the most efficient registration system and even the color system is new as this year's plates will be blue on a white background.

SOAP and ELECTRICITY Blackouts and Outages

There's a difference between soap and electricity. There's a difference between blackouts and outages. The famous soap prides itself on being 99 and 44/100% pure. That's pretty close to perfect, isn't it. But does it surprise you when we tell you that electricity—the electricity we provide for you-that you use here has a reliability record-of 99.997%. which is almost 100% pure. That's the difference between soap and the electricity you use. But, you say, what about blackouts? Well, it's this way. We define a blackout as a shortage of power. A situation when you, as a group of people. are using more electricity than the equipment that generates, transmits and distributes it can provide.

We don't have that here. We will not have that in 1970 here. Sure, there might be some isolated service interruptions which we call outages. Despite our 99.997% reliability record, there still may be some lightning strikes on a transformer, or a squirrel getting confused in a substation, or a careless driver knocking down some of our equipment, and, yes . . . we may have an equipment failure or a human failure . . . we're still not perfect . . . even though we try to be. In most cases we'll have your power back within the hour.

We're concerned with reliability and with the cost of our service. That's why we've averaged spending \$20 million a year on new, modern and more efficient equipment. This year we'll invest another \$25 million. We expect to give you all the electric. power you need with more purity than the famous soap and at the lowest possible cost. That's our pledge for 1970.

Is Being Sorry Enough?

By DAVID LLEWELLYN

Repent.

Jesus said to do that. And we understand that to mean something like being selfreproachful or conscience-stricken or, at least, sorry. To "punish again" is the etymological meaning of the word. He didn't. The fact is, most of us have chosen to perform this worthless self-reproach because we are unwilling to produce what Jesus really wanted "Change" was what Jesus really commanded. But since people - all people everywhere. apparently - perceive radical

change as painful, it isn't hard to see why the anguish prior to change was easily substituted for the change-process itself. Now Jesus' command comes through as something like "Fee. real had about what you're doing or possibly "Feel bad enough about what you're doing
