WOODWORK Church To Hold VBS

BY DALTON

IN NEVADA the other day, a dentist was fined \$50 for slapping a patient. The judge fined the dentist for slapping a young woman whom the dentist said "acted like a three-year-old child." The woman said she was slapped because she said "ouch" when the dentist stuck an instrument into her mouth and touched a bad tooth.

Anyone who has been to a dentist, and most of us have, can applaud this ruling, because going to the dentist is usually at best an unpleasant experience. And quite often it is a hour or more of pure torture. Dentists like to point out that they have all these pain-killers and modern equipment in contrast to the old days when teeth were pulled with pliers and without anesthetics. Okay, that must have been pretty horrible, but let's face it--dental work of any kind hurts these days.

Actually it's kind of a stereo operation; it hurts in two places at once--your mouth and your pocketbook. Some dentists do everything but put their knee on your chest while they yank at your teeth with a pecan picker. And then they send you a bill that makes you grind your teeth until you're in danger of causing some new kind of complication. Of course, it must be said that dentists perform a valuable service. All this agony they put you through is supposed to keep you from having worse agony later on, and unquestionably it does. Otherwise none of us would ever submit to such pain and indignity.

I hope my own dentist never reads this. He'll kill me next time I get my teeth cleaned.

Templeton-McNabb Vows Exchanged

Leonard Tittle, minister of the church, officiated for the ceremony.

Parents of the couple are Mr. and Mrs. Pete Templeton of W. L. McNabb of Sudan.

The Church of Christ singers of Littlefield presented selections of "Twelfth of Never", "One Hand-One Heart", the traditional "O-Precious Love", and the "Wedding Prayer".

Given in marriage by her father, the bride wore a gown of embossed organza. Her shoulder-length veil was held by a bow headpiece of bridal satin. She carried a bouquet of white carnations with an orchid center atop a white Bible. For "something old" she wore her grandmother's pearls. Her dress was "something new". "Something borrowed" was the Bible and

"something blue" was the traditional blue garter. A penny with the bride and groom's birth date was in each shoe.

Reba Franks attended the bride as maid of honor. She was fashioned in a formal length gown of orchid and white dotted swiss with a deep orchid velvet sash and a white lace garden hat.

Immediately following the ceremony a reception was held in the Fellowship Hall of the church. Presiding at the serving table were Cindy Crosby and Carolyn Byrum.

For their wedding trip the bride chose a white dress with long lace sleeves and white accessories.

The bride is a Senior at Amherst High School, and the groom is a graduate of Sudan High School.

The couple will be at home in Amherst.

**CARE OF PLANTS
DURING SUMMER MONTHS**

If the foliage on plants in the garden are turning mottled yellow and dropping off the plants,

there is a good chance that the spider mite may be the cause. Check your yards for insects and other problems now. The spider mite is one of the most troublesome pests during the hot summer months. Kelthana, Diazinon and Cygon

will aid in controlling the spider mite. Use as directed on the label. Continue to pinch mum plants to obtain compact bushy plants. To protect roses from black spot spray with Phaltemor Maneb to both upper and lower leaf surfaces. Remove old flowers and flower clusters to encourage new growth and more flowers on roses and crepemyrtles. Container grown or balled and burlapped plants can be set out anytime to replace dead plants or to renew the landscape.

Berlin Museums Rich in World Art

This exquisite limestone sculpture of Queen Nefertiti of Egypt who lived around 1372-1350 B.C. is famous as one of the most lifelike works of ancient Egyptian art: it also accounts for her fame as perhaps the most beautiful woman of antiquity. About 19" high, it was found at the Tell el-Amarna site excavated by the German Oriental Society in 1911-14. The bust is now part of the great Egyptian Collection in the Stueler Pavillion facing Charlottenburg Palace (itself a museum) in West Berlin.

Berlin has some 50 other museums and special collections that contain some of the world's most exciting artistic treasures. In paintings alone, these include 200 works from the 19th and 20th centuries at Berlin's New National Gallery, and some 600 Old Masters of the 13th-18th centuries at the Dahlem Museum where 26 canvasses by Rembrandt include his "Man with the Golden Helmet." Among the Spanish masterpieces are El Greco's "Mater Dolorosa," and "The Three Musicians" by Velasquez.

In other fields, the collections cover everything from ancient Americana to zoology, botany to watches, coins to Venetian glass. German history to scientific instruments. Whatever else interests you is also there, be it arts and crafts or mineralogy, antique objects or musical instruments; engravings, porcelain, silver and gold; history of radio or of the post office. Suffice it to note that there is also an aeronautical collection, and even a museum of carburetors!

Hull's Angel

To the profound astonishment of at least one American manufacturer, a lot of boatmen are still playing the shell game with barnacles—getting into one unnecessary scrape after another!

Barnacles are a costly nuisance. When hordes of these tiny, shrimplike sea creatures attach themselves to the bottom of a pleasure craft, they can add enough weight and drag to dramatically cut the ship's speed... while increasing its fuel consumption. The only way to remove their shells is to scrape them off in dry dock.

You can, however, save yourself a lot of time, effort and muscle limbering by using a paint that guarantees to keep a hull free of marine growth below the water line for a full year.

The "Hull's Angel" that makes this possible—with the only replacement guarantee of its kind in the country—is "Super Dripless No. 8," available by mail order from Chilton Paint Company, College Point, N.Y. 11356. This no-drip, no-splatter and run-proof bottom covering is keeping barnacle bills down to zero for boat owners in the know.

And from all indications, this paint really deserves the most stirring ovations—because in the four years since its introduction... only one replacement per year has had to be made.

to a survey by The Travelers to statistics compiled by The Companies. Speeding accounted for 19,700 persons killed and 988,000 injured.

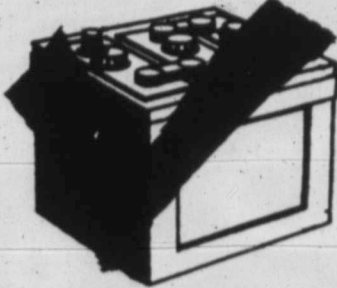

Nearly half of all auto deaths and injuries occur on weekends, and well over 50 percent of all highway deaths occur between 6 p.m. and 6 a.m., according

EMPLOYMENT ADVICE

Competition in the job market has never been more intense. In 1971, more than ten million people, seeking from \$10,000 to \$60,000, will circulate resumes. Only a small fraction, however, will receive a single job offer—and even fewer will make significant financial gains.

Two major reasons for these disappointing results are the archaic methods of bringing people and jobs together, and

the lack of understanding on the part of the job seeker in planning and executing an effective campaign.

Overcoming both obstacles is relatively simple, though, as explained in a new book called "The Professional Job Hunting System." Designed to give individuals a published source of professional job hunting knowledge, the book prepares the reader to go after a better future like an expert—at less cost than personal counseling for similar information.

"System" is available in three-ring workbook form or cloth hardcover for only \$24.50 and \$14.95, respectively. The publisher, which has a 30-day moneyback guarantee, is Performance Dynamics Inc., 17 Grove Avenue, Verona, New Jersey 07044.

We ought to watch the words we choose,
The type of speech we daily use,
Because my friends we really owe
More kindly words for friend or foe,
And we should be much more alert
In what we say that tends to hurt,
When saying what we really should,
Then what we say is always good.
