

## Teams Open With District Victories

Friona High School's basketball teams opened their district schedule at Hale Center Tuesday night with wins, but for a time it appeared that the Chiefs might be initiated into district warfare on the short end of the score.

Trailing most of the game, and by six points going into the final quarter, the Chiefs survived their early-game jitters caused by Hale Center's defense, to post a 52-50 win. The Squaws took a methodical 56-46 win.

In a girls' B game, Friona

won 42-21, as Pam Turner tossed in 30 points.

The Chiefs, seeking their 10th win of the young season, started off cold, and could not seem to get untracked. Trailing by six at halftime, Friona tried a full-court press, and began to cut the deficit.

However, the Owls still enjoyed a six-point edge going into the final eight minutes. The press began to pay off for Friona in the final quarter, during which Friona scored 21 points to 13 for their hosts.

With a seven point edge and two minutes remaining, Friona was the victim of numerous Hale Center fouls. The Chiefs could not take advantage, though, and the Owls cut the final margin.

The Squaws jumped into the first quarter with an 18-8 lead, and Hale Center was never able to overcome this deficit.

Two players scored all but two of Friona's points, Cindy Ingram getting 32 and Hazel Fallwell 22.

Other District 3-AA scores in Tuesday's opening round included boys: Memphis 63, Abernathy 56; Olton 58, Lockney 53; Dimmitt 66, Floydada 51. Girls Abernathy 77, Memphis 22, Olton 58, Lockney 38; Dimmitt 61, Floydada 51.

### Offices Give Xmas Schedule

Many Friona businesses plan to close Monday, December 26, in observance of the Christmas holiday, it has been learned by the Friona Star.

The city office, along with the post office, Friona State Bank, Southwestern Public Service, Pioneer Natural Gas and Friona Consumers were among those who plan to close at noon Saturday, Christmas Eve, and remain closed until Tuesday morning, December 27.

### Exes Reunion Is Xmas Day

The Friona High School Ex-Students reunion will be held Christmas Day at the High school cafeteria.

The get-together which starts at 4 p.m., that day, will mark the 50th anniversary of the first graduating class from FHS in 1916.

All local ex-students are especially urged to make their plans to attend, says Mary Joyce Barnett, president of the ex-student association.

### Court House Slates Holiday

The Farmer County Commissioners, meeting in their regular session Monday, set the holiday closing dates for the Farmer County Court House.

The Court House will close for Christmas, Friday, December 23 at noon, and remain closed until Tuesday, December 27.

For the New Year's holiday, the Court House will close Saturday, December 31 and Monday, January 2.

## Band, Choir Schedule Musical Program

A special Christmas concert by the Friona High School band and choir and the junior high school band is scheduled at 3 p.m. Sunday at the junior high auditorium.

The high school band will play six numbers: "March Carillon" by Hanson; "Prelude to Act I of La Traviata" by Verdi; "Of Festive Bells and Ancient Kings" by Spinney; "Gesù Bambino" by Yon; "Sleigh Ride" by Anderson and "National Victors" by Olivadotti.

The high school choir will sing "O Come, O Come Emmanuel," arrangement by Kirk; "Gloria In Excelsis Deo," traditional; "Gallery Carol" by Johnson; "Silent Night," traditional; "Deck The Hall," arrangement by Erickson; "Jingle Bells," arrangement by Cook; "White Christmas," by Berlin and "Sing and Rejoice" by Thyngerson.

The junior high school band will play "March of the Skaters" by Polhamus; waltz from "Serenade for Strings" by Tchaikovsky; "It's Beginning To Look Like Christmas" by Wilson; "Christmas Suite" by Walters and "Cheerio" by Goldman.

### Treider Rites Set Friday

Funeral services for George Treider, 75, will be conducted Friday at 2 p.m. at the Friona Congregational Church. Rev. Paul Mohr will officiate. Burial will be at Friona Cemetery, under the direction of Claborn Funeral Home.

Treider, who has been ill for some time, died Tuesday night. He had farmed in the Friona and Lazbuddie area beginning in 1908. Mr. Treider moved her from Iowa.

He is survived by his wife Viola of the home, a son, Dale of Albuquerque, two daughters, Mrs. Gene (Karen) Zinser of Hereford and Mrs. Rex (Phyllis) Wagoner of Sommerset, N.J.

Treider is also survived by a brother, Christian of Lawler, Iowa, a sister, Mrs. John Nutwig of Cresco, Iowa and five grandchildren.

AND I WANT . . . Santa Claus was a popular and very busy figure in Friona Tuesday, as children by the score came by to tell Old Saint Nick what they wanted for Christmas. Santa

gave the youngsters a ride on his sleigh, as part of the promotion sponsored by Friona businessmen. And, as evidenced above, he was well received.

## Third Xmas Give-Away Will Be Held Saturday

The third and next-to-last in the series of four Christmas give-aways by the merchants of Friona is scheduled for Saturday at 2:30 p.m. at the City Park.

Once again, four prize tickets will be drawn. Each winning

ticket will receive several valuable prizes from Friona merchants.

Either a husband or wife must

be present to claim tickets registered under either's name. A child may not answer for an adult. A person may win only one prize in a single week's drawing.

People may scoff at the chances of their name being drawn more than once, but if so, they were not at the second week's drawing last week. Mrs. F.E. Jarecki's name was drawn not just once or twice but three times.

Mrs. Jarecki was the recipient of the week's "third prize" Other winners were Mrs. Gonzalo Blanco, Jr., first; Sue Procter, second and Mrs. J. B. McFarland, fourth.

## AF To Provide Taped Greetings

A special treat is in store this Christmas for servicemen in Southeast Asia whose relatives reside in the Clovis area -- a taped Christmas mes-

sage from their loved ones at home. The project, called "Operation Wrap It Up", was initiated by the Cannon AFB Informa-

tion Office. The idea was presented to local radio stations, who agreed to contribute their services and facilities to make the tapes for the serviceman's family.

Through Operation Wrap It Up, radio stations in Clovis and Portales, N.M., and in Farwell and Friona, tape the three to five minute messages free of charge for the families of servicemen stationed in Southeast Asia. The completed tapes are presented to the relative ready to be wrapped and airmailed.

The program ends Dec. 17, 1966, allowing ample time for the tapes to arrive before Christmas.

All area residents interested in taping a message are asked to call the Cannon AFB Information Office, 784-3311, Extension 2417 or 2487, for scheduling and further information.

## Duggins Awarded Trip To Military Academy

Baker Duggins, head counselor for the Friona school system has been invited for a three-day trip to the United States Military Academy December 18-21.

Duggins will be flown to and from the academy. He leaves Lubbock December 18 and returns December 21.

While at West Point, Duggins will visit with the cadets, and see some of the aspects of ca-

det life. The trip will enable him to better counsel with prospective applicants to the academy. Duggins will serve as a field consultant for this area.

Duggins said he did not know how many educators from the state and area will attend the session, or just how he came to be chosen. "But I'm certainly looking forward to the trip," he said.

NAMES DRAWN . . . The four winners in Friona's Christmas Give-Away program for the second Saturday of December are shown above with Porter Roberts, president of the Friona Assn. of Retail Merchants. Left to right are Mrs. Gonzalo Blanco, Jr., Mrs. F.E. Jarecki, Sue Procter and Mrs. J.B. McFarland.

With Texas' Highway death toll heading for an all-time record, and with two major holidays coming up, we have been given a copy of Governor John Connally's highway safety program for 1967 by Dan Ethridge, local insurance executive.

Governor Connally's program would do the following:

1. Provide additional men and equipment for the Department of Public Safety and increase salaries and benefits to attract and retain qualified personnel.

2. Begin a program of driver education for all young drivers.

3. Revise license law through enactment of Chapter 6 of Uniform Vehicle Code, which would provide for minimum licensing age of 16 with completion of driver education and 18 without driver education.

Also, under the Uniform Vehicle Code, drivers' vision would be re-examined every four years; driver improvement schools would be established for rehabilitation of problem drivers.

A more severe penalty (minimum of three days in jail) would be imposed for driving while license is suspended or revoked.

4. A system of traffic courts of record for the trial of traffic offenders would be implemented.

5. The state would expand the scope of vehicle inspection law to permit inspection of any part of vehicle designated by the Director of the Department of Public Safety.

6. Revise Texas statutes on accidents and accident reporting, equipment of vehicles and "Rules of the Road" to bring them into conformity with the Uniform Vehicle Code.

7. The state would initiate action to study major traffic safety problems in depth to develop sound guides for subsequent action. Studies would include methods of controlling driving while intoxicated.

Also studies of available medical facilities for the treatment of persons injured in traffic accidents.

Governor Connally has called upon the insurance industry to spearhead the program. A brief outline of the program is as follows:

1. Create a temporary coordinating organization for non-official activities, which would direct traffic safety activities designed to help achieve the objectives listed in the suggested governor's highway safety program.

2. Establish local safety organizations which would use evaluation check sheets to determine local deficiencies, and institute corrective actions to eliminate local deficiencies.

3. Draw existing organizations into the program, utilizing their resources and influences, to have them perform certain suitable activities.

4. Law enforcement agency cannot long adhere to a standard of enforcement not desired by the public. It is essential that public support be created for the encouragement of more strict enforcement of traffic laws at state, county and municipal levels.

5. The suggested governor's program calls for additional men and equipment for the Department of Public Safety plus increased salaries and benefits. The voting public needs to be sold on the idea of hiring more men and raising their wages, in order to better do the job.

6. The suggested governor's program urges driver education for all young drivers.

7. Nine revisions to the state's driver license law are contained in the governor's suggested program (number three, above). Comprehensive tabulations of facts and figures must be accomplished in order to form the basis of the needed information programs.

8. The suggested program provides for the expansion of the vehicle inspection law to permit examination of any part of the vehicle designated by the DPS.

The program sounds fine to us. However, the success of any highway safety program depends almost 100 per cent on the individual driver. They need to be challenged to make highway safety a way of life.

## To Present Cantata

A Christmas cantata "Born a King," by John Peterson, will be presented by the sanctuary choir of the First Baptist Church, under the direction of David Campbell Sunday night.

The musical program will begin at 7 p.m. The public is invited to attend, in Sunday morning services, the church's youth choir, as well as junior, primary and beginner choirs and the high school brass ensemble, will perform.

Soloists in the Christmas cantata include soprano, Mrs. Temperatures

DATE	MAX.	MIN.
Dec. 8	68	26
Dec. 9	57	26
Dec. 10	37	11
Dec. 11	43	12
Dec. 12	47	16

Dec. 14	58	18

David Campbell; alto, Mrs. Jerry Hinkle, and Mrs. Raymond Cook; tenors, Bill Burton and Bill Ellis, baritone, Max Field, Raymond Cook.

The program will be narrated by Doyle Elliott.

## Star Offers Lighting Prizes

The Friona Star is once again offering cash prizes for the outstanding residential Christmas lighting display.

Judges will pick the winners Saturday and Sunday. Residents "off the beaten track" who want to make sure of being included should notify the Star at 247-2211.

Prizes will be \$15 for first place; \$10 for second and \$5 for third.

## Management School Begins In January

A Management School planned for residents of Farmer County will start January 10, 1967.

A series of meetings over a six week period has been planned. The school will be held at the Hub Community Center from 1:30 to 3:30 p.m. on each Tuesday for 6 weeks beginning January 10th.

The school is sponsored by the Farmer County Program Building Committee, a group of leaders which places priority and gives direction to informal education and other improvement activities for the county.

Other subjects that will be taught and discussed in this series of meetings on Management will include - Family Business Centers, Farm and Home Records, Tax Management and Credit.

Registration blanks and further information about the school may be secured from the local banks in the county or from the County Extension office located at the County Court House in Farwell. There is no charge for the school.

## Star Reveals Holiday Plans

A change in the publishing routine of the Friona Star for the holiday period was announced this week by Editor Bill Ellis.

Next week's edition, December 22, will be the annual Christmas edition, and will be the last regular issue of the Star for 1966.

No paper will be printed on Thursday, December 29, in order to allow staff members a week's vacation.

EASY WAY . . . The Ross Miller family points out the easy way to send Christmas greetings to everyone in the Friona area -- by donating to "Project Christmas Card," and having your name listed on the giant Christmas greeting in the Friona Star December 22. Deadline for being listed is Saturday -- so better hurry. The Millers are shown with their children, Dana, Curt and Kent.

**AN EDITORIAL**

**Hazardous Toys Worse Than No Santa Claus**

Would you believe - there's no Santa Claus? You would, the Texas Safety Association reports, if you knew how many Christmas stockings are filled each year with hazardous toys.

"Too many shoppers fail to keep safety in mind when selecting toys for children," J.O. Musick, TSA General Manager, said today.

"Often they are lured into purchasing an unsafe toy because of its novelty - price appeal - or simply because it's in vogue."

He also noted that parents often are guilty of purchasing toys - "good or bad, safe or unsafe" - that a child demands.

"It takes a strong-willed and well-informed parent to resist a child's hue and cry for a particular toy," Musick explained.

"Some toy manufacturers direct their sales pitch directly to the highly impressionable consumer - the child himself."

"But what a child sees and wants is not always safe or suitable for his age."

He warned shoppers to be on the alert for cheaply constructed toys which may come apart or be broken under strenuous play. He suggests testing toys for strength before purchasing.

"See how much bending it will take and whether it will last past Christmas Day," he advises.

In commenting on matching toys to a child's physical ability, Musick pointed out that frequently a toy which may be easily handled by an eight-year-old child may not be handled safely by a younger child.

"A toy which is too heavy or complicated for a child can cause a serious accident," he said.

He suggested that shoppers select toys for babies and very young children that are light in weight, washable, large and of non-brittle material. All toys made of lead or colored with lead based paints should be avoided.

Key winding toys should have a strong spring enclosed in a cylinder, and keys should not revolve when the toys in action. Look for and beware of sharp edges and points, small parts that can be removed and swallowed.

Stuffed animals with button eyes which may come loose, whistles with removable mouth pieces, and pull-toys with small removable parts are all dangerous for small children.

Some 850 children under age 5 die each year in the U.S. as a result of suffocation from ingestion of small objects.

Electrical toys of any type are unsafe for the very young. For older children, select electrical toys carefully. They should have the label of the Underwriter's Laboratories (UL) on the cord, and the toy itself.

Inspect such toys for frayed cords or any defect which may cause shock and warn children not to play with electrical equipment with wet hands or when wearing damp clothing.

"Some toys, such as electrical trains, air rifles, chemistry sets, bows and arrow and darts, require special handling," he noted. "Assist children in acquiring skill in using before trusting them alone with such toys."

However, he advises parents not to overburden children with toys that require constant supervision or that encourage dependence on them because the toys are too complicated or because they are not suitable for the child's physical needs.

"Check wooden toys for splinters, wagons for loose wheels and baby's rattle for cracks which may free the little stones inside the rattle," he said.

"If repairs can't be made satisfactorily, discard immediately."

In concluding, Musick added another tip for "year 'round" safety with toys.

"Serious falls may result from toys left on steps, stairways, walks or in the yard. Have a place for toys and teach children to put them away."

**School Lunch Menu**

(Week of Dec. 19 - Dec. 22.)

Monday: meatballs and spaghetti, blackeyed peas, buttered beets, tossed salad, chocolate cake, hot rolls, and butter, milk.

Tuesday: Frito pie, pinto beans, greens, onions, apple cobbler, corn bread and butter, milk.

Wednesday: hamburgers, potato chips, pear halves, relish, chocolate milk.

Thursday: turkey and dressing, giblet gravy, green beans, baked potatoes, cranberry sauce, strawberry short cake, milk, hot rolls and butter.

**Traffic Summary For November Is Reviewed**

The Texas Highway Patrol investigated 10 accidents on rural highways in Parmer County during the month of November, according to Sergeant W.E. Wells, Highway Patrol Supervisor, of this area.

These crashes resulted in one death, 9 persons injured, and an estimated damage of property of \$9,300.00.

The rural accident summary for this county during the first eleven months of 1966 shows a total of 102 accidents resulting in three persons killed, 54 persons injured, and an estimated property damage of \$76,884.00. "The 1966 December traffic cloud hangs very low and dark

over the Texas streets and highways horizon. What does the traffic picture look like for this year-end holiday season? If it is anything like the repeat of the past it is going to be a very sad one for Texas history," says Sgt. Wells.

Since 1960, traffic deaths in Texas have risen from 2,254 to 3,028 in 1965. At the beginning of this present month, the traffic fatality count in Texas was 2,921. Motorists are now driving during the most deadly month of the year. December, 1965 was the most deadly month in the history of this state with 363 traffic fatalities.

**ANCIENT GAME**

The term "checkmate" in the game of chess comes from the Persian *shah mat*, meaning the "king is dead."

**HOLD 'ER STEADY, SNAPSHOTTERS**

The family photographer who hasn't the time or inclination to tote a tripod along on vacation can become as steady as the Rock of Gibraltar by following a simple trick used by professionals.

By holding the camera firmly in both hands and then locking the arms to the side, camera shake is lessened and slides or movies will be crisp and clear every time.

Even with new fast color films like Dynachrome 64, a camera held at arm's length invites blurs, squiggles and wasted film. This same trick will improve home movies too, giving them less the look of scenes shot aboard a rubber raft in the middle of a Monsoon.

Here's another tip: For better slides, gently press the camera shutter release rather than punch it. This trick will avoid cutting the top off the picture you thought you were getting, like the wife's new hairdo for instance.

Faster film speeds can only do so much for you, the rest of the success lies in how the picture is taken. Becoming a "human tripod" is a good start.

**LAZBUDDIE NEWS**

By Mrs. C. A. Watson

The Lazbuddie First Baptist Church is observing Week of Prayer this week at the church.

Mrs. L.M. Hardage visited her son and family the Billie Hardages in Plainview Thursday night.

Guests in the L.M. Hardage home this week are the Adys from Burk Burnett, Tex. She is a sister of Mrs. Hardage.

Mrs. O.F. Davis and granddaughter, Charlotte attended the MMNI football game at Roswell recently to see the Broncos and the Texas Rangers play.

They also visited Charlotte's cousin, Cadet Larry Williams of Roswell. They were house guests of Dr. and Mrs. George Richardson while at Roswell.

Nola Treider and Mrs. Laura Treider visited George Treider, a patient in the Parmer County Community Hospital Sunday. George Treider Mr. and Mrs. Orville Burnett and children visited in Plainview Sunday with his parents Mr. and Mrs. W.E. Burnett.

Mr. and Mrs. Don Martin and children visited Sunday afternoon with Mr. and Mrs. Ronnie Shaffer in Muleshoe.

A meeting of the Parmer County unit of TSTA met Monday Dec. 5 at Lazbuddie school. Sam P. Culpepper was the guest speaker. His topic was on the TSTA program and on the public school education.

The world's most expensive regular cigar is the "Partagas Visible Immensas," which retails in the United States for \$7.50.

**GIFTED PEOPLE SELECT OWN BUSINESS GIFTS**

When giving business gifts, try this new idea suggested by the Specialty Advertising Industry. The giver picks the price range of the gift. Next, notification is sent to the recipient, who then receives a brochure picturing a wide selection of gifts from which he may choose.

When the gift arrives, it is hand-somely wrapped and securely packaged. Any Specialty Advertising counselor (see your Yellow Pages) can help you with the easily handled, always appreciated gift program.

**County Residents Hear "PEP" Presentation**

Approximately 35 men and women from Parmer County attended a Panhandle Economic Program meeting on December 7 in Canyon.

This was the third meeting of a series held in the Panhandle during Dec. 5-8. The purpose of these meetings was to explain the Panhandle Economic Program to key leaders from the 26 Panhandle Counties.

James Murphrey Area Farm Management Specialist for the Panhandle, explained the "P.E.P." Murphy has been the coordinator for the program. He visited many leaders in the 26 Panhandle counties gathering information and ideas concerning this area.

Murphrey said, "The Panhandle has changed rapidly in the past. It will change even more rapidly in the future. Agriculture is the Panhandle industry experiencing the most dynamic changes. Panhandle agricultural products must maintain a favorable competitive position in the market place. This is possible only if resources in the area are used wisely and efficiently."

Eighteen major areas of program emphasis was discussed by Murphrey. These are areas that people in the Panhandle can and need to begin working on. One of the areas Murphrey mentioned was conservation and efficient use of surface water and ground water. Another area mentioned was sound home management and consumer economic practices.

The Panhandle Economic Program is similar to the "Blackland Income Growth" and "Built East Texas" programs. "The B.I.C. and the B.E.T. are two area programs that have worked very successfully to increase income and conserve natural re-

sources.

Murphrey explained that per capita income had reached a low in the Blacklands and East Texas before the B.I.C. and B.E.T. programs were begun. People in the Panhandle should begin working now in order that this area will never be in the situation that the Blacklands and East Texas were in.

The Parmer County Program Building Committee will be the group that gives leadership to the "P.E.P." on a county basis. The County Program Building Committee is made up of leaders from different sections of the County. Leon Grissom of Bovina is the present chairman of the County Program Building Committee.

**ALCOHOL AFFECTS THE BRAIN**

AUSTIN, TEX. - What does alcohol do in the brain? The Texas Safety Association says: First, it depresses the area of higher functions, which includes judgment and social restraint. Next, it attacks the simple motor functions -- reaction time and vision. Balance, coordination and sensory perception are the next faculties to be impaired. Concentrated drinking will eventually lead to stupor, coma, and even (if continued steadily,) death! Studies show drivers do not have the judgment and reflexes to perform the mechanical functions of driving safely -- even after a few drinks. If you drink . . . don't drive!

### CARD OF THANKS

Mere words can never express enough thanks and appreciation for all the kindnesses and services extended to us in our recent bereavement.

We especially thank Rev. Price for his services and comforting words; the choir and quartet for their rendition of the beautiful and soothing songs; the Crusaders class and Rebekah Lodge for the delicious meals served in the homes.

Another special thank you is extended to the Black Community for hosting the two wonderful meals served at the Community House on Sunday and to the W.S.C.S., Circles of Women's Society of Christian Service of Friona Methodist Church and all others who ably assisted.

We thank the pallbearers; our efficient and considerate funeral home personnel; all who sent the lovely floral tributes and contributed to the John Benger Memorial Fund or other memorial funds.

It is with sad hearts that we try to express our appreciation, but with thankfulness and comfort in the presence of so many friends,

May God Bless you, Mrs. John Benger, Mr. and Mrs. Johnie Benger Mr. and Mrs. Noel Benger and Eddie Mr. and Mrs. Harry Green and family Mr. and Mrs. Guy Latta 12-tfc

### CARD OF THANKS

We wish to express our appreciation to neighbors and friends for the many many things which have been done in our behalf during the illness of our loved one and following his death.

We are deeply grateful for the cards, letters, visits, calls, food and money which you have supplied us with and for all other deeds of kindness which you have done. Special thanks to Faith Sunday School class of Calvary Baptist Church. Your concern and expressions of love will never be forgotten.

The family of Eddie Petchinsky Mr. and Mrs. W.E. McGlothlin 12-tfc

### CARD OF THANKS

We take this means of thanking Parmer County Community Hospital staff for their wonderful service and kindness in caring for our loved one. We especially appreciated Dr. Paul and the nurses for their untiring efforts and the many things they did for our comfort. We can never forget it.

The community is certainly blessed to have such a wonderful hospital and a staff of conscientious doctors, nurses and other workers.

Thank you so much, The family of John Benger 12-tfc

**CHIEFTAIN CAGERS . . .** Friona High School's 1966-67 Chieftain basketball team, which has won 10 of their first 11 games, including championships of their own tournament and the Springlake tournament are shown here. Top row, left to right are Bobby Jordan, Eddie Wood, Ray Lynn Murphree, DeWayne Procter, and Delvin Brookfield. Kneeling are Gary Murphree, Rickey Hurst, Johnny Barker, Larry Graves and Lowery Harper.

## Chiefs Take First Place Trophy At Springlake

The Friona High School Chieftains made it two tournament championships in two weekends as they swept through three games and emerged as champions of the Springlake Invitational tournament last weekend.

The Chieftains thus defended their championship at Springlake, having won the tournament there last season. Friona eased past their first two opponents, downing Seagraves, 50-33 and Floydada, 65-44, before getting a battle from Olton in the finals, 58-51.

Three of the Chieftains were named to the all-tournament team: Ray Lynn Murphree, Bobby Jordan and Gary Murphree. The three wins left Friona's season record at 9-1 going into district play.

**Chiefs vs Seagraves**  
Bobby Jordan popped the nets for 10 first period points, getting the Chiefs off to a 14-7 lead over the Seagraves Eagles. The Eagles were slow getting their offense untrack-

ed, and by halftime Friona had increased its lead to 28-12. Seagraves finally got its scoring machine unbound in the third quarter, and began to trim a little off Friona's lead. The Chiefs' 16-point halftime lead was trimmed to 11 at the end of three, 37-26.

However, the Chiefs responded and put the game out of reach in the final quarter. Jordan and Ray Lynn Murphree, with 33 points between them, equalled Seagraves' total. Chiefs 14 28 37 -- 50 Seagraves 7 12 26 -- 33

R. Murphree 6-2-14; Jordan 6-7-19; Procter 0-1-1; Hurst 0-1-1; Graves 1-1-3; Wood 1-5-7; Murphree 1-1-3; Harper 0-0-0; Barker 1-0-2; Brookfield 0-0-0.

**Chiefs vs Floydada**  
Friona ran into little trouble in disposing of a District 3-AA opponent in the semi-final round. Floydada had played a first-round game that morning against Bovina, so it was their second game of the day. Final score was 65-44.

With four of the five starters scoring, Friona had a 13-9 lead after a quarter, and paced by the Murphree brothers' 11 second quarter points, the team increased their margin to 33-18 at halftime.

Floydada matched Friona pretty well during the third quarter, but reserves were able to take over in the finale, as the team built up a commanding lead.

Chiefs 13 33 47 65  
Floydada 9 18 31 44  
R. Murphree 5-3-13; Jordan 9-2-20; Procter 0-0-0; Hurst 0-0-0; Graves 1-3-5; Wood, 6-2-14; G. Murphree 5-1-11; Harper 0-0-0; Barker 0-0-0; Brookfield 1-0-2.

**Chiefs vs Olton**  
The Chieftains did not play as sharp in the finals as they had earlier in the tournament. Friona managed an 11-9 lead after one quarter, but Olton kept the lead most of the second period, holding a seven-point edge at times. Halftime score was 27-24, Olton.

ter lead. However, Frenship came back to score 24 second-quarter points to trail at halftime by only 29-28.

Friona went to town in the third period, however, outscoring their opponents 25-7, and it was all over but the shouting. Cindy Ingram's 37 points, her high for the season, led all scorers.

Squaws 13 29 54 -- 66  
Frenship 4 28 35 -- 54  
Ingram 12-13-37; Taylor 3-0-6; Fallwell 8-1-17; Neill 2-2-6.

**Squaws vs Olton**  
In a rematch of the teams involved in Friona's championship game, the Squaws had another tooth-and-nail battle, just like they did a week earlier at home.

A look at the quarter scores show just how close the game was. The teams battled to a 17-17 deadlock after one quarter. It was 27-26, Friona, at halftime. The Squaws held a 42-38 lead at the third quarter mark, and the final was 57-55. Cindy Ingram, again lead all scorers with 32 points for a

two day total of 69, made 14 of 20 free throws during the game.

Squaws 17 27 42 -- 57  
Olton 17 26 38 -- 55  
Ingram 9-14-32; Taylor 1-5-7; Fallwell 7-4-18; Neill 0-0-0.

**Squaws vs Springlake**  
Springlake asserted their authority in a hurry, grabbing an early lead. It was 20-11 after a quarter, as Friona was having trouble scoring from the field.

Halftime score was 44-32, Springlake, and Friona had over half of their points, 18, on free throws, with just seven baskets from the field.

Friona actually outscored the hosts in the last half, 30-27, but the big cushion the Wolverines had built up in the first portion of the game was too much for Friona to overcome.

Hazel Fallwell scored 41 points, high total for the season for the Squaws.  
Squaws 11 32 47 -- 62  
Springlake 20 44 59 -- 71  
Ingram 4-11-19; Taylor 0-2-2; Fallwell 16-9-41; Neill 0-0-0.

## Dist. Games Slated Here

The Friona Chieftains and Squaws, who opened District 3-AA action at Hale Center Tuesday night continue conference warfare with two more games prior to the Christmas Holidays break.

The teams meet Olton here Friday, and then host Lockney cagers on Tuesday night. All district games begin with the girls' action at 6:30 p.m., followed by the boys' games.

Both the teams have met Olton; the Squaws having played the Olton "Fillies" twice already, holding eleven and two-point wins. The Chiefs won by seven over the Mustangs in the finals of the Springlake tournament last weekend.

Boys and girls high school "B" teams are entered in Springlake's B-team tournament Thursday, Friday and Saturday. Boys and girls freshman teams are entered in Bovina's B-team tournament.

The Mustangs made it five points at 29-24, but Friona rallied to tie the count at 29-all, and from there on the Chiefs were in pretty good shape.

Friona took a 40-35 lead into the final frame. They had a 10-point bulge some of the time in the last stanza, but playing conservatively on defense, Olton was able to trim the final margin to seven points.

Jordan, hitting 11 of 13 free throws, paced the team with 25 points, his high for the season.

Chiefs 11 24 40 -- 58  
Olton 9 27 35 -- 51  
R. Murphree 3-0-6; Jordan 7-11-25; Hurst 2-3-7; Wood 1-4-6; Graves 2-2-6; G. Murphree 3-2-8.

### At Home In Parmer County

By CRICKET TAYLOR  
County HD Agent

#### "KEEP THE HOLIDAYSPIRIT ALIVE"

Here are some tips:  
-Be particularly careful in preparation of stuffing for that bird. This usually contains bread crumbs, seasoning, chicken broth, and fat and perhaps eggs and meats. Chances of bacterial growth are great, because the small pieces of food are handled often when the stuffing is prepared.

Stuff the turkey just before roasting it and combine the ingredients just before cooking time. If pork is to be added to the stuffing, such as sausage, be sure it is thoroughly cooked.

You should never partially cook a bird ahead of time. If you do, the stuffing will only be warm by the time the bird is ready to be eaten. If the stuffing is not thoroughly cooked, bacterial growth will form.

You must be careful to thoroughly cook all holiday food. In five hours, there can be enough toxin to cause illness. In seven hours, at room temperature, the possibility of poisoning is even greater.

Have a safe, pleasant holiday. Don't let undercooked food spoil it.

#### PRETTY PRESENTS

A child's face on a Christmas morning is a wonderful thing to see. The face says, "Pretty presents under the tree and I hope they are full of good things

for me." They will be good, safe presents for your children if you buy them wisely. Safe toys mean happy times. Never over-estimate your child's capability.

A toy that is "child's play" for you, may be a dangerous thing in the hands of a child. If a toy can be of any danger to the boy or girl, take the time to list do's and don'ts for him as he opens the presents then repeat them often enough until you are sure he understands them. An injured eye or broken heart is no way to keep the holiday spirit alive.

Slow down and stay alive is one of the basic things to remember during the year as we drive around the state and nation. It also applies to our other activities and especially during the coming holiday season.

There are many things to be done of course . . . presents to buy, cooking to do, trips to make, and some things that we do only once a year such as trimming the tree.

All these activities will be done a lot better and safer, and give you much more satisfaction in the long run if you take it easy. So, remember to slow down and make this holiday season a safe one for you and your family. It will be one of the easy ways to keep the holiday season alive.

WINNING FEATHERS . . . Gary Brown, left, and Elroy Wilson of Plains Hardware, a contest sponsor, are shown as they arranged the top entries in Friona's longest pheasant tail feather contest. A total of 44 feathers were entered in the contest.

WINNERS. . . The top two entrants in the longest tail feather contest for pheasant hunters are shown with Robert Neelley, center, one of the contest sponsors. On the right is Harrison Gee, named first place winner, and on the left is Rev. Bill Burton, who took second place. Gee's feather was measured at 25 and 1/16 inches, while Burton's came out to 25 inches.

Jan Jameson, member of the Friona 4-H Club enjoys the study center she made in the corner of her bedroom. This was a part of her bedroom improving project work.

### Local Girl Completes 4-H Improvement Work

A member of Friona 4-H Club, Jan Jameson a 15 year old daughter of Mr. and Mrs. Earl Jameson of Friona has completed goals set out in her bedroom improvement project work for 1966, according to Cricket E. Taylor, County Extension Agent, who supervises the County 4-H activities.

The project work started in March of 1966, with a study of guide material furnished by the County Extension Office.

Goals and objectives were set according to needs. This was done after a study of room arrangement by Jan, her mother and the Extension agent.

Since the bedroom was used for study, one of the first needs Jan listed was a place to study which called for a good light, a desk and chair.

The first thing that Jan did was make a floor plan drawing of her bedroom as it was arranged. She began her study by listing the things she wanted to do to improve her bedroom.

After drawing a floor plan and furniture to scale a scrapbook was started on color

schemes, and ideas for bedrooms. Jan learned that providing space for activities in the room, added much to the convenience and attractiveness.

After a review of the principles of good design, furniture pieces were arranged for balance, which is the basis for good arrangement.

Jan said that among all of her bedroom improvements, the improved closet arrangement was one of her greatest achievements. She said "It was frightening when I tried to find things. She made a plan showing where things were to be placed, for ease in reaching, grasping and seeing them. She lowered the rod in the closet making room for an extra shelf above it. This was easy to see and reach. Another shelf was added higher up for out-of-season clothing. Dividers were made for drawers that add convenience, also.

Using the knowledge gained from this project work, Jan improved her brothers' room by improving closet space and making book shelves.

### On The Farm In Parmer County

RONNIE MCNUTT  
County Agent

December is a good month for collecting and submitting soil samples for testing.

At the present time, samples are processed as soon as they arrive at the laboratory and test reports are mailed within ten days. This schedule should benefit you since prompt service is an important requirement for an effective soil testing service.

Sampling well in advance of planting offers the advantage of allowing time to obtain the fertilizers needed. In many instances, wet soil may be encountered during the winter and cause a delay in sampling, therefore, sampling now is available.

If reliable information is to be obtained from a soil test, it is necessary for the sample to be as nearly representative of the field on which informa-

tion is desired as possible. To obtain a representative sample, a composite is made by obtaining a core or slice of soil from 10-15 spots in fields from 20 to 40 acres in size.

Pint boxes, mailing cartons, history sheets, and instructions are available from your county agent's office. Instructions for sampling should be studied and followed as closely as possible.

### Vo-Ag Teams Capture Prizes At State Meet

Friona High School's vocational agriculture leadership teams placed third and sixth in the state FFA leadership contests at San Houston State College Huntsville, last weekend.

The farm radio team in the chapter farmer division placed third, being topped only by Mason, which was first and Willis.

The farm skills demonstration team, competing in the "green hand" division, placed sixth. They were behind Lorraine, Mansfield, East Central, Columbus and Iowa Park.

As in the district and area contests, FFA leadership teams

compete against schools of any and all classifications as to enrollment.

Members of the farm radio team are Mike Smith, Bill Weatherly, Don Ready and Tommy Mars. Members of the junior farm skills team are Mitch Terry, Bobby Thomas, Gary Crump and Wayne Schueler.

#### ILLITERACY

The latest available estimate of illiterate persons 14 and older in Texas (1960) showed that four out of every 100 Texans could not read or write.

## Services Conducted For John Benger

Funeral services for John Baden Benger were conducted Sunday at the Friona Methodist Church. Benger, 78, passed away last Thursday.

He was born in Callaway, Nebraska, on July 1, 1888. His parents were of true pioneer stock, his father and three brothers having come to the midwest from England when young men.

In 1911, Benger was married to Mary Brewer at Fargo, Okla. He was preceded in death by his wife Mary and son Ira, who was killed in a plane crash in 1943.

In 1940, Benger married Miss

Slowly the work continued, stalactite by stalactite, only those being selected that were naturally most tuneful. Sprinkle meanwhile designed a special organ console that would bring music from the stalactites by the playing of a conventional keyboard that operated rubber-tipped hammers that would strike the formations, thus releasing their pure tones. The finished organ produced such amazing results that Sprinkle himself was surprised.

Although electronics experts are astounded by Sprinkle's accomplishment, to the layman the true marvel of his creation lies in the listening. As one stands in the great beautiful Ballroom in Luray Caverns, hung with massive draperies of colorful stalactites, he enjoys completely stereophonic sound.

Leland Sprinkle, Jr., did not stop with his initial success for he has constantly been adding new tones and features to his unusual organ. He has even devised a robot system that plays any pre-recorded melody.

As to tuning the giant organ-well, Sprinkle isn't worrying much about that. "I figure that someone will need to check it about every thousand years," he smiles.

If such an instrument is ever developed in Carlsbad Caverns many of us will make another trip down there just to see and hear it.

A retentive memory may be a good thing, but the ability to forget is the true token of greatness.

Ethel Bridges of Beaver, Okla., and they moved to the Black community in 1945. He was the first president of the Black Community Club and led the community in activities which resulted in the community's first award of second place in the state community improvement contest.

In Oklahoma, Benger served many years on school boards, and helped promote many projects for the improvement of educational facilities for the children.

Benger is survived by his wife, Ethel of the home; two sons, Johnnie of Friona and Noel E. Benger of San Jose, Calif.; and daughters Lucille (Mrs. Guy Latta), Friona and Dortha (Mrs. Harry Green of Canyon).

Also surviving are five grandchildren, Doyle Green, Borger, Hubert Dale Green, San Antonio, Richard Green, Canyon, Mrs. Lee Roy Burrow, Clovis and Eddie N. Benger of San Jose, Calif.

Three great-grandchildren, Jere and Tere Green of Borger and Brenda Burrow of Clovis, and a brother L.M. of Woodward.

Judge Loyde Brewer and a host of other nephews and nieces also survive.

Pall bearers were Bruce Parr, J.R. Braxton, Ellis Tatum, Ralph Price, L.R. Deaton and Paul Fortenberry. Honorary pallbearers were Bert Shackelford, Jack Anderson, David Moseley, J.T. Gee, T.J. Presley and O.F. Lange.

### Anchor Playground Equipment

AUSTIN, TEX. - When Santa delivers play equipment to your house, make sure he solidly anchors such things as swings, see-saws and gym sets. The Texas Safety Association says one way to tell if such equipment is safe for Santa Claus to test it himself. If it's not strong enough to hold "Jolly Old St. Nick," it's not safe for your child.

Tuesday was really a big day for the small fry in and around Friona. Santa and his ponies, sleigh and groom were in town all day and children from far and near were on hand for a ride around City Park. Christmas music filled the air and spirits of the children were lifted. Many parents appreciated the appearance of Santa and one mother of three pre-schoolers said, "This is the nicest thing local merchants have done since I have lived here."

Congratulations are in order for debate coach Mal Manchee and his debate team. He has been working with debate teams for the past several years and many times second places have been won, but last week at Clovis a team composed of Ann Ayers and Susie Carmichael came out first.

The controversy over whether red or green tractors are superior has been going on for as many years as there have been John Deere and International tractors. When I first became aware of the friendly rivalry between dealers, I was an employee of the late Ray Sheffy of Dimmitt. He was the John Deere dealer at Dimmitt and at the same time Edgar "Linkie" Ramey was the International dealer.

After having heard about it for more than 30 years, I thought perhaps the two factions would have to agree on a compromise. However, an incident in Friona early this week caused me to believe perhaps there will be a solution.

If the Santa on the lawn of the Rene Snead residence is seen riding an International tractor which has been painted John Deere green, surely that will signify this grand old man has chosen the IH over the JD and none of us could deny his choice would prove the superiority of the color at least.

Late Monday the jolly old fellow was riding along on a

red tractor, but after over-hearing one side of a telephone conversation, I'm wondering how long the tractor will be that color. Guess time will tell.

Ran across an interesting item in the November issue of "Friendly Chat". Want to share it with you. Hope you enjoy its content as much as I did.

The title is "The World's Most Unusual Organ." It goes like this: "Although the fascinating Luray Caverns near Luray, Virginia, were discovered in 1878 and have attracted multitudes of sightseers ever since, only in recent years has a most unusual feature been added.

It all started back in June, 1954, when Leland Sprinkle, an accomplished organist as well as an electronic scientist, absent-mindedly tapped a knuckle against a slender stalactite and listened carefully, amazed at what he heard. He soon discovered that many of the stalactites had different musical tones.

Suddenly an idea struck Sprinkle with terrific force: Here was an opportunity to create a musical instrument unknown to man - an organ which would electronically derive its musical tones from the stalactites themselves!

Gaining the consent of skeptical cavern officials, Sprinkle began to formulate his plans. He selected one of the larger areas of Luray Caverns, known as the Ballroom, for the organ's tonal area. This was a wise choice, for the wilderness of stalactites provided an unlimited opportunity for his tonal experiments.

At the outset, he could find only two stalactites that were perfectly in tune, so a system of grinding had to be perfected. Sanding discs rotating at high speeds did the job. At first, a set of thirteen English tuning forks were used in perfecting the tones, whereas the final tuning was done with the use of sensitive oscillators.

DEBATE WINNERS. . . Ann Ayers, left, and Susie Carmichael, took first place in their division at the Clovis Invitational Speech and Drama Tournament last weekend. Mal Manchee is debate coach at FHS.

### Debate Team Wins In Clovis Tourney

Several debate teams of Friona High School, which are coached by Mal Manchee, participated in the debate tournament at Clovis High School Saturday. One team, whose members are Ann Ayers and Susie Carmichael, won first place in its division.

In order for the team to win first it was necessary to defeat the top boys team and top girls team of Muleshoe High School in the finals. Other high schools participating were Hobbs, Clovis and Farwell.

A boys team composed of Jim Bob Jones and Mac Hancock made a real good showing. They lacked only four points making the finals.

Other teams competing were David Smith and David Reeve; Becky Coffey and Risa Howell; Gary Shirley and Mike Pavalus.

In the drama division of the tournament several local participants ranked highly even though it was necessary for them to adopt a different style from the one regularly used.

Local students use the manuscript style and in the tournament it was necessary for them to compete using the memorization style.

Grandparents are Mr. and Mrs. Fred Jackson Sr. and Mr. and Mrs. James F. Bailey, Mr. and Mrs. John Allen Sr., Friona, Mrs. Ada Morris, Lubbock and W.H. Bailey, Rotan, are the great-grandparents.

Visitors Depart Mrs. Steve Grundy and daughter Sharon, of Miami, Florida, who have been visiting in the homes of Mr. and Mrs. Oscar Baxter and John, Mr. and Mrs. Boyd Pipes and children and other relatives, left by plane from Amarillo Tuesday morning.

A pre-Christmas dinner in the home of Mr. and Mrs. Troy Young and children in Bovina Sunday was a courtesy for Mrs. Grundy and Sharon. Others present included the Oscar Baxters and John and Mr. and Mrs. Boyd Pipes and children.

Mrs. Grundy is the former Wilene Baxter.

Program theme for the Thursday evening meeting of New Horizons Junior Study Club at Federated Club House was "The Key To Peace Is Understanding."

Mrs. Robert Neelley presented the inspirational thought. Roll call was answered with current events in Viet Nam.

"The Communist Party in the United States," was presented by Mrs. Billy Raybon and Mrs. Jerry Brown presented a pictorial tour of Central Europe.

During the social hour refreshments were served by Mrs. Don Spring, Mrs. Jerry Hinkle to Mrs. Lloyd Wood, a guest, and eleven members.

MRS. Dan Ethridge opened the meeting with prayer. The program consisted of a gift show arranged by Mrs. Dave Thompson, assisted by Mesdames

### Key To Peace Is Program Theme

Modern Study Club held its regular meeting Dec. 6 in Federated Club House Tuesday evening with the president, Mrs. Ernest Osborn in charge.

During the business session a letter of appreciation was read for the club's serving the kick-off breakfast for United Fund Drive workers.

Mrs. Frank Spring, community service chairman, reminded the group the deadline for Project Christmas Card contributions is Dec. 17.

Mrs. Sloan Osborn reported plans for the Christmas Homes Tour Sunday, Dec. 18. Proceeds will benefit the library.

MRS. Dan Ethridge opened the meeting with prayer. The program consisted of a gift show arranged by Mrs. Dave Thompson, assisted by Mesdames

Mrs. J.L. Shaffer, Forrest Osborn, Bill Stewart, Dan Ethridge, Dorothy Hough, Billy Joe Mercer, Raymond Jones, Norman Nossaman, Arthur Drake, Henry Lewis, Lewis Gore, Kenyth Cass, Bill Wooley and C.S. Balmum.

Those attending were Mesdames J.L. Shaffer, Forrest Osborn, Bill Stewart, Dan Ethridge, Dorothy Hough, Billy Joe Mercer, Raymond Jones, Norman Nossaman, Arthur Drake, Henry Lewis, Lewis Gore, Kenyth Cass, Bill Wooley and C.S. Balmum.

Choose Toys With Safety In Mind AUSTIN, TEX. - The Texas Safety Association advises shoppers to choose toys with safety in mind. Make sure the toy you select is suitable for the child's age, and physical and mental abilities.

Select toys that are sturdy and well-made. Cheaply constructed or breakable toys may come apart or be broken under strenuous play. Broken or jagged edges can cause cuts and infection.

When ironing, add the finishing touch of spray-on starch to each article to restore body and freshness. For larger items and heavier fabrics, spray and iron a portion at a time.

For smaller items like aprons and lightweight fabrics like organdies, spray the article completely, roll it up to let the starch distribute evenly throughout, unroll, and iron at once.

If an article is damp dry, press with a regular iron; if it is completely dry, press with a steam iron, as usual.

These finishing touches give clothes just enough body for the soft, casual look that you prefer. And, you'll have the confidence of knowing you look your best from the first holiday party to New Year's Day!

Members present included Mesdames Cordie Potts, Floyd Schueler, Herman Schueler, Floyd Schlenker, Chris Drager, Jack Patterson, Franklin Bauer, Walter Schueler, Jim Parson, Elmer Deyke, Shirley Smith, Norbert Schueler, Jim Dixon, Norman Taylor and Elmo Dean.

Mrs. Rose Pleszewski of Dunkirk, New York is a guest in the home of Dr. and Mrs. Paul Spring and children, Susie and Johnny. Mrs. Pleszewski is Mrs. Spring's mother.

Members of Rhea Home Demonstration Club met in the home of Mrs. Cordie Potts Monday evening for a Christmas party. Eula Mae Madole, home service advisor of Farmers Electric Co-op Clovis, presented a candy making demonstration.

After the program, Santa put in his appearance and distributed gifts. Names of secret pals were then revealed.

Guests present were Mrs. Leroy Widner, Mrs. Tom Paine Mrs. Mary Bass, Mrs. Mardee Crissom, Mrs. Raymondschueler, Mrs. Claude Mears and Mrs. Roy Zieschange all of the Rhea Community, Mrs. Mabelle Hartwell and Mrs. Ralph Wilson, Friona, and Eula Mae Madole.

# Society

## Circle Member Reviews

### "Christmas Is Always"

Highlight of the Wednesday morning meeting of the Mekka Circle of Woman's Society of Christian Service of Friona Methodist Church was a book review by Mrs. Kenyth Cass, a member of the circle. She reviewed "Christmas Is Always" by Dale Evans.

Following the program and closing prayer, which was led by Mrs. Cass, Mrs. Ralph Shelton, in whose home the meeting was held, served refreshments

of coffee and fruit cake to two guests and fifteen members. Guests were Mrs. James Anthony and Mrs. Marcus Houser.

Members present include Mesdames Shelton, Cass, Ed Clark, M.E. Buchanan, J.L. Shaffer, Arthur Drake, Earl Hawkins, Russel O'Brian, Clyde Fields, Robert H. Osborn, Ernest Anthony, U.S. Akens, O.T. Patterson, Howard Fleming and Ed White.

Wesley Foster, Mary Lou Casson, and Weldon Dickson. Displays were by Allen's Jewelry, Mary Lou's Beauty Shop, Foster's, Ruthie's, Ben Franklins, Graphic Arts and Mrs. A.A. Crow.

Special guests were the Trebelaires who sang several numbers directed by Mrs. Roy Miller Sr. and accompanied by Becky Coffey.

Hostesses Mrs. J.G. McFarland and Mrs. Ralph Wilson served refreshments to 23 members, Mrs. D.L. Carmichael and Mrs. Marion Fite.

Special guests were the Trebelaires who sang several numbers directed by Mrs. Roy Miller Sr. and accompanied by Becky Coffey.

Hostesses Mrs. J.G. McFarland and Mrs. Ralph Wilson served refreshments to 23 members, Mrs. D.L. Carmichael and Mrs. Marion Fite.

## Environment, Heredity And Your Child

Everyone has a pet theory about how to raise children. Even the experts don't always agree. Are we creatures of inheritance or just products of environment?

Beginning with the Freudian philosophy of an adult's emotions and actions being determined by early events, and followed by John Watson's studies in the thirties, most child psychologists have believed that environment was the most influential factor in determining potential. Babies were considered a bundle of natural reflexes regardless of ancestry, to be molded into a predictable future depending upon their surroundings.

As any mother can tell you, nothing is less predictable than that small bundle of boundless energy called a child. And bearing this out, recent studies clearly indicate differences among infants believed to be innate. As a more common-sense approach develops, the concepts of heredity and environment, of traits inborn and acquired, are moving together to the point where they merge. Each child is an individual and reacts to a given set of circumstances in an entirely different way from his siblings.

Of course, environment is no small part of childhood. The world is a place of big-eyed wonder, endless investigation, observation and curiosity. It's a squirrel with a nut between his teeth. . . ants building tunnels in the sand. . . a ride on a live pony. . . a building under construction. A child's world is also imagination: he's a fearless cowboy. . . a builder.

What a thrill, for instance, to pretend you are the real-life operator of big and powerful road-building or earth-moving equipment. So — it is understandable that a life-like toy such as this popular scale model "Michigan Shovel" by Nylint Tool & Mfg. Co. can provide endless hours of rewarding backyard (or indoor) engineering while doing its part toward promoting a healthy interest in the future. An interesting note to the theoretical evolution of child psychology has been the elevation of toys from the simplest playthings to the most sophisticated and educational "working" scale models of complicated machinery.

Parties, gift exchanges, unexpected guests, and plenty of excitement round out the winter holiday social circle. It's time for celebration, dances, and good times for all. Whether you're the hostess or the guest, you're always on view, so it's extra important to keep your clothes and hostess aprons bright, fresh, and ready.

For the party circuit, just follow these tips from Virginia White, fashion consultant for the Faultless Starch Company.

When laundering, be sure to separate red and green holiday fashions and other dark colored clothes from white blouses and shirts, so there's no danger of fading or lint transfer.

Follow manufacturers' laundering instructions, then damp dry or dry completely, as you prefer.

When ironing, add the finishing touch of spray-on starch to each article to restore body and freshness. For larger items and heavier fabrics, spray and iron a portion at a time.

For smaller items like aprons and lightweight fabrics like organdies, spray the article completely, roll it up to let the starch distribute evenly throughout, unroll, and iron at once.

If an article is damp dry, press with a regular iron; if it is completely dry, press with a steam iron, as usual.

These finishing touches give clothes just enough body for the soft, casual look that you prefer. And, you'll have the confidence of knowing you look your best from the first holiday party to New Year's Day!

## Mr. Moore Weds Kay McBroom

Wedding vows were exchanged recently between Jenice Kay McBroom and Jesse Wayne Moore, Lubbock. The ceremony was read by C.A. Looney at Sunset Church of Christ, Lubbock.

Parents of the couple are Mr. and Mrs. Ralph McBroom of Route 2, Friona, and Mr. and Mrs. Freeman Moore, Lubbock. Attendants were Jan Teague, Los Angeles, roommate of the bride, and W.O. Moore, Lubbock uncle of the groom.

Mrs. Moore is a 1965 graduate of Friona High School and is a sophomore at Texas Tech, where she is a pre-nursing student. Her husband, a graduate of Three Way High School, attended Metropolitan Technical Institute in Dallas.

Mr. and Mrs. Moore are at home in Lubbock.

## Clubwomen Adopt Training Center

The projects committee of Caprock District, Texas Federation of Women's Clubs, in a meeting Thursday at Plainview, set a goal of a minimum average of \$1 donation annually per district clubwoman, for the High Plains Children's Training Center.

A Challenge to 2500 women who make up the 100 clubs in the district, the Center was adopted as the district's project for 1966-68.

"Several clubs have already indicated that their members expect to add personal service to their money contribution," said Mrs. Louis Cummings of Plainview, district president, in whose home the projects committee held its first meeting.

Presently the center has 28 children enrolled for daily training; 5 teenagers; 18 out patients — those who come for training and therapy to learn to practice in their own homes; and 45 case load children — those who come for counseling.

When the District board inspected the facilities early in November, Mrs. Eleanor Griffin, director, with her staff, and Dr. Mary Davis Buhlis, psychiatrist, explained and demonstrated phases of the Center's daily program. The Center enrolls children from all over Caprock District.

Members present included Mesdames Cordie Potts, Floyd Schueler, Herman Schueler, Floyd Schlenker, Chris Drager, Jack Patterson, Franklin Bauer, Walter Schueler, Jim Parson, Elmer Deyke, Shirley Smith, Norbert Schueler, Jim Dixon, Norman Taylor and Elmo Dean.

After the program, Santa put in his appearance and distributed gifts. Names of secret pals were then revealed.

Guests present were Mrs. Leroy Widner, Mrs. Tom Paine Mrs. Mary Bass, Mrs. Mardee Crissom, Mrs. Raymondschueler, Mrs. Claude Mears and Mrs. Roy Zieschange all of the Rhea Community, Mrs. Mabelle Hartwell and Mrs. Ralph Wilson, Friona, and Eula Mae Madole.

Half the world is hungry — Will you help, for today and tomorrow?

Unless we help the hungry feed and support themselves, their need can never end. CARE does more than feed people. It also uses food to help educate children, to nourish preschool youngsters to full growth, or as pay while villagers build schools, roads, water systems. It adds self-help seeds and farm tools, trade tools, construction materials, school supplies. It sends doctors and nurses to heal the sick and train medical personnel. In all these ways, the money you give saves lives and makes those lives worth living. Mail your check.

CARE 660 First Avenue New York, N.Y. 10016 or your local CARE office. Here is \$ for: Food Self-Help MEDICO service, or CARE to decide (CARE reports how your money is used). From:

**The Library Corner**  
 BY MRS. V.J. ZEMAN

The library board wishes to express appreciation to the Chamber of Commerce for the Christmas Style Show, benefits from which went to the library fund. Mary Kay Everitt deserves a special Thank-You for her enthusiastic work on the project. The participating merchants are appreciated too. All these community efforts make us realize the support the library is getting.

Another project for the benefit of the library is to be Sunday, Dec. 18. Modern Study Club is sponsoring a Christmas Homes Tour, the proceeds to go to the Friona Public Library. Tickets are \$1 and may be purchased from any club member, or at the door. Homes are those of Dr. and Mrs. J.L. Humphrey, Dr. and Mrs. Bob Alexander, The Alton Farra, Mr. and Mrs. Charles Russell, the T.E. Lovetts, George Taylors, and Dalton Caffey's.

The library will be open Thur. Dec. 22 as usual, but will observe the same holidays as the schools. It will be open Jan. 5 for the first day of the new year. Readers are reminded of the

**Alcohol Impairs Driving Ability**

AUSTIN, TEX. - The Texas Safety Association reminds holiday celebrants that alcohol can impair driving ability. The more alcohol there is in the blood, the longer you must wait until you can drive safely. On the average, it takes one hour for each bottle of beer or each ounce of whiskey to be absorbed by the body. Even if you seem able to hold your liquor -- extensive research studies show your driving ability is greatly impaired during this period.
