JERRY RAY GOES WASHINGTON, D.C.

A local Farm Bureau leader will get a first-hand look at federal government operations when he attends the Texas Farm Bureau's 1975 County Presidents' Conference April 22-24 in Washington, D. C.

Jerry Ray of Tulsa, president of the LeFlore County Farm Bureau, will fly from Dallas on April 22 and return on April 24. He will be among some 200 Texas attending the meeting.

While in Washington, the local leaders will meet with Congressman George Wadsworth, representing this district, and the two Texas Senators.

The leaders will also see the usual sights in Washington, attend a banquet featuring American Farm Bureau Federation President William Hadden and the Washington office staff in a discussion of "The Washington Situation," and will be conducted on a special guided tour of the Department of Agriculture.

For LeFlore County to qualify for the trip, the county Farm Bureau had to have 55 per cent of its last year's total membership and 50 per cent of last year's new members certified by March 31. The state agency also had to meet a membership goal.

LeFlore County Farm Bureau qualified by signing up 90 new members and had over 1,100 members certified by the required date.

Inside Business Suez Canal Reopening Brings Mixed Blessings

By Ross Wilhelm In April, assuming no new war in the Middle East, the Suez Canal will reopen. The canal has been closed since 1967 and the American and British governments and private contractors have been clearing it for the past year.

It is also very doubtful if such an investment would pay for itself. As a consequence many people in the shipping trade are doubtful if much money will be spent to modernize the canal if it reopens.

If the canal does reopen it will have an important impact on non-oil cargoes going from Europe to the Middle East. Ever since the Arab countries raised the price of oil and made themselves rich they have been buying goods around the world in large quantities. The purchases have included military hardware, industrial and consumer goods.

The Suez when reopened will greatly shorten the trip from Europe or the United States, by ship, to the Middle East.

In anticipation of the added cargoes to the Middle East, shipyards and ship repair facilities throughout the Mediterranean are being expanded and modernized. In addition, port facilities in France and Italy are preparing for added business.

Some signs indicate the reopening to be a certainty. Egypt is preparing to move large numbers of people back to the cities along the canal which were evacuated because of war. They are rebuilding the cities now and behaving as if the reopening were assured.

But it is still in question. Another war could prevent the reopening. Signs can be misleading and only time will tell.

Dr. Ross Wilhelm is a professor of business economics, University of Michigan. The Inside Business, is sponsored by the Business Roundtable.

IN CASE YOU MISSED IT, here it is again, and it is worth repeating. Texas wheat crop this year is forecast at 140 million bushels. That's up 20 per cent from the Dec. 1 projection. That's a stark contrast to the puny 1974 crop of only 52,800,000 bushels of wheat produced in Texas.

By Art Lynch
This column today is dedicated to the young men of Sudan, Texas. All you older folks and girls can stop right now. (That's an old trick I learned in school to get people to pay attention) I have just had the rare privilege of being the substitute "teacher" for the High School Ag. class the past two days. I want to warn you now not to step up to me and say, "What is happening to the youth of America," or "The kids today are gone to the dogs." I never before liked that statement,

but now statements like those walk on the fighting side of me. Why? you say? What about our kids? Well I'll tell you about our kids. (Thanks for asking) They are full of pranks, mischief, anything for a laugh, fun and games. BUT, they are also intelligent, industrious, innovative, and sharp as a tack! There were times I had to discipline. Smartness, right? Backtalk, right? Trouble, right? **WRONG!** Respect and good humor was the result. That only comes from the right kind of attitude. And another thing, they have learned something we need to learn as adults. They have learned to laugh at **THEMSELVES**. Some of the stunts they pull on each other would make the average adult pull his hair out! What do they do? **THEY LAUGH!** Not only at the joke, but at the one the joke was pulled on, themselves. Hey, Sudan parents, so your kid likes a loud car and riding up and down main street blowing his horn. What was it when you were young? Maybe it was wearing "bobbie sox and tennis shoes", but it aggravated your parents just as much. There is only one thing I have to say to the young men of Sudan. "Remember thy creator in the days of thy youth..." Ecclesiastes Investigate this man called Jesus. Was he really God in the flesh? It doesn't matter what you have been told, **INVESTIGATE FOR YOURSELF!** I challenge you to seek Jesus, see what you find, and keep that **POSITIVE ATTITUDE**.

'Light' at End of Tunnel Is Really the 'Bullet Train'

The Japanese National Railways (JNR) now provides direct, super express train service between the nation's capital, Tokyo, and Hakata on Kyushu Island. Sleek trains named "Hikari" (meaning "light" in Japanese) cover the 730-mile distance between the two cities in 6 hours and 56 minutes. The end of the line is the Kammon Tunnel, linkage between Honshu and Kyushu Islands. Popularly called "bullet" trains because of their missile shape as well as their speed, the Hikari travels at 130 m.p.h., reducing the former travel time by three and a half hours, and eliminates tedious transfers. The new service has 45 daily departures—23 westbound from Tokyo and 22 eastbound from Hakata. Each run consists of 16 interconnected coach cars with a total seating capacity of 1,400. In addition to a buffet car serving light snacks, the Hikari includes a diner offering full sit down meals. An enlarged boarding area enables passengers on wheelchairs easy access as well as space in the coaches for storing equipment for the handicapped. The link up of Tokyo and Hakata on Japan's southernmost island of Kyushu represents a giant step toward the completion of a nationwide network of super express rail service by JNR. It greatly enhances tourist access to resorts in Kyushu such as Beppu, Nagasaki and Mt. Aso—and for native residents it's the fast way home.

Elected to the society which honors scholastic achievement was Harry Williamson, Sudan.

MRS. INGLE IN CHARGE OF HEART MEMORIAL FUND

In response to numerous requests from families and individuals, The American Heart Association, Lamb County Division has begun a Memorial Fund in Sudan to which families and friends of victims of cardiovascular diseases may contribute, according to Mrs. Verna Ingle, volunteer memorials chairman. "Contributions made in memory of a friend or a member of the family are acknowledged by the association, and a memorial card is sent to the family stating that a memorial has been received and giving the name of the donor.

More deaths result from heart disease than all other causes combined, but gains in heart research have been significant in recent years. Rheumatic fever is yielding to drug therapy, and advanced surgical techniques are enabling patients to live normal, healthy lives. Some of the most dramatic developments have been made in heart research centers in Texas," Mrs. Ingle said.

"Memorial funds are received throughout the year and added to the association's annual Heart Fund receipts," she stated.

Memorials should be sent to The American Heart Association, Lamb County Division, c/o Mrs. Verna Ingle, Box 278, Sudan, Texas 79371.

TAX REPORT DEADLINE SET

Comptroller Bob Bullock reminded 225,000 retail businesses Friday that April 30 is the deadline for sending in quarterly sales tax reports.

"It's just around the corner," Bullock said. "Tardy returns mean nothing but trouble to both us and the taxpayer."

Reports due April 30 cover the January-March quarter. Forms for the reports were sent to all sales tax permit holders by Bullock's office in March.

Bullock said that most delinquencies "are strictly oversight—but the consequences are the same."

Personals

Dr. and Mrs. Roy McClung invited women from Women for Wayland following their last meeting for the semester, to be their guests at a 10 o'clock tea Friday morning, April 18, in the Presidents home in Plainview. Miss Ruby Mince was among those attending.

Daryl Rasco, nephew of Mr. and Mrs. Elray Rasco, was severely injured in a high school rodeo at Spearman over the weekend when he fell beneath the animal he was riding and was stomped. He received internal injuries including a punctured lung, and three bro-

ken ribs. He was on the Muleshoe High School rodeo team and is the son of Mr. and Mrs. O'Dell Rasco who lived at Sudan several years ago. He was reported to be improved Wednesday.

Mr. and Mrs. Tim Nix and Mr. and Mrs. Don Harper attended the wedding of their cousin, Darla Sinclair, in Amarillo Saturday.

LCCAB TO ELECT REPRESENTATIVE

At 3 p. m. Sunday, April 27 in the Sacred Heart Catholic Church located at 1300 West 8th Street in Littlefield there will be an election of representatives of the poverty sector to the Lamb County Community Action Board of Directors. The election will follow a meeting which will be conducted by Mr. Luis Perez, Director of Social Services for the South Plains Community Action Association. Three members will be elected at the meeting. Perez will answer questions concerning the duties of the board members and other questions regarding the Lamb County Community Action Agency. Bill Powell, Director of Human Resources for the seven-county agency, stated that this would be an important meeting and everyone is urged to attend the session. Another meeting to elect representatives of poverty will be held soon after the meeting Sunday to allow for six representatives of the Poverty Sector to serve on the Lamb County Community Action Board of Directors. Charlie Duval is chairman of the Lamb County Board of Directors. There are six members elected from the Poverty Sector. County Judge Bill Angel will head the Public Sector representatives for the coming year. The composition of the board is in accord of the mandate of the National Community Services Administration, Washington, D. C.

Choosing A Lawn Mower
If you're like many people, you know the time has come for you to stop struggling with your old, man-handled reel-type or ancient power lawn mower, to turn over a new leaf and get a new grass cutter that can cut your work in half, but, you may not know what to look for to make sure you're putting the best blades to your grass blades.
1. Be sure to buy a brand of mower that's been around long enough for you to know the company and their product are reliable on sales, and service.
2. Look for heavy-duty construction, so you can be more sure of getting a lawn mower that will last longer.
3. Check out the position of the grass bag. On the side

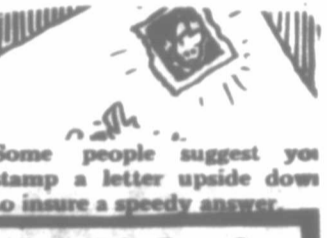

God seldom makes Our loads in life Too great for us to carry He's always there To help us out — So "let thine heart be merry!"
He knows when we Have need of Him, He knows the loads we carry, So trust in Him, Hope for the best — And "let thine heart be merry!"

it could cause hang-ups going around corners and into small spaces. You're better off if the bag's in the back, between the handles.
4. Size up the size of the bag. It's a good idea to get one that will hold between 2-1/2 and 6 bushels, depending on the amount of grass you'll have to stash.
5. Don't be a sucker for work. A powerful vacuum action can clean your lawn while you mow, you can stop raking and start relaxing.
6. There's one way to be pretty sure you'll be getting all these assets — see if you see the name Snapper written on the front of the mower, or write to Snapper for a free brochure — McDonough Power Equipment Co., Dept. NA, McDonough, Georgia 30253.

NEW INVENTION THE PERIMITECTOR
Nationwide Scientific, the nation's leader in line-carrier (ac transmission) alarm equipment was recently awarded a U.L. listing for the new PERIMITECTOR alarm system. This unique system provides perimeter protection that scares-off intruders before they set foot inside. The PERIMITECTOR will provide professional security for the first time at an extremely low price by eliminating internal wiring and large labor bills. This new concept is achieved by transmitting the violation signal over the buildings existing ac wiring through new plug-in transmitter-receiver modules. Result — an extremely effective very low cost alarm system for home or business that accepts all fire and burglar alarm detection devices available.
