FIFTY FIRST YEAR

NUMBER 33

SUDAN, LAMB COUNTY, TEXAS

THURSDAY, OCTOBER 2, 1975

10 CENTS PER COPY

**THIS IS being written during Fair week in Lubbock, and since I already got in trouble with all the Junior High youngsters last year over the fair, I won't repeat my views on it. There is one thing, though, that area farmers need to know regarding the fair, so they'll put the blame where it rightfully belongs.**

The fair in the cause of all this wet, cold weather. Even the fair people will probably admit that if you check the records all the way back (for at least two years), you'll find that the fair brings bad weather to the South Plains.

Obviously the answer to this situation would be to schedule the fair about the second week in November (I doubt that we could get the fair folks to do the best thing and not schedule it at all). If the fair wasn't held until November, then the cold weather would be just right for the crops.

I hope Mel Skillet and the Foggy Mountain Boondockers had more sense than to sing "Them Old Cotton Fields Back Home" at their show (they probably already have had it by now). If they'd got to that part that says "when them cotton bolls get rotten, there ain't gonna be much cotton" they'd stand a good chance of getting some farmers in the audience riled at them.

A LADY from Saudi Arabia was in the office the other day and we talked briefly about that country. Also we talked with some folks who recently visited in Hawaii and in Europe. All of this talk gets us enthused again about traveling, and we're planning to sponsor a couple or three trips next year. Meanwhile, you might let us know if you're more interested in Mexico in February, Europe or England or Switzerland during the spring break in March, or Hawaii in June.

If enough interest is shown, we may try for the moon next December.

THE CRABBY COUPLE on Crabby St. had a bitter fight, and were not speaking to each other as a result. Upon returning for the night, the husband handed his wife a note which read: "Call me at seven in the morning." When he awoke, it was nine o'clock. As he piled out of bed, he saw a note beside his own: "It's seven. Get up, you bum!"

## Shower Honors Mrs. Lynskey

A pink and blue shower honoring Mrs. Jeff Lynskey of Lubbock was held Saturday morning, Sept. 27, in the home of Mrs. C. C. Ritchie. Some 40 guests attended.

The gift table was covered with a white cloth, and the honoree's mother, Mrs. Bud Provence, Deanna Phillips and Sherri Bob Taylor assisted Mrs. Lynskey in opening gifts.

The hostesses' gifts included a play pen, gown and slippers, diapers, and a yellow and white rose corsage formed of baby socks, ribbon and gold pins made by Mrs. B. A. Beauchamp Jr.

The serving table was covered with a white cloth edged in lace and centered with a miniature cradle decorated with pastel ruffled lace holding a baby doll and surrounded with flowers and greenery. Spiced tea, coffee, miniature cinnamon rolls and nuts were served by Mrs. Dewayne Phillips and Miss Jo Gays Doty, both of Lubbock. Guests also received favors of marshmallow bottles decorated with pastel icing and ribbons.

Special guests included

the honoree's mother, her grandmother, Mrs. Freida Cunningham of Littlefield, Lynskey's grandmother, Mrs. Pearl Lynskey of Three Way, and aunts, Mrs. Betty Funk of Littlefield, Mrs. Margaret Stone and Dana of Anton.

Out-of-town guests were Judy Hale of Three Way, Mrs. Darrell Burge of Spearman, and Nelda Carpenter of Levelland.

Hostesses were Jo Gays Doty and Mesdames Pete Phillips, Kenneth Noles, Phillip Gordon, Bob Edwards, Sara Wood, Don Ham, Tommy Seymore, Billy Chester, Wayne Doty, Dale Hanna, B. A. Beauchamp Jr., Leon Warren, Bill Kuykendall, Harold Ingle, Richard Black, Leonard Pierce, Bob Taylor and G. C. Ritchie.

Mrs. Lynskey is the former Donna Provence.

Mr. and Mrs. Lyle Johnson of Springlake and former Sudan residents are parents of twin girls, Lori Ann and Patricia, born Sept. 11, 1975.

Lori Ann weighed 5 lbs. and 13 cm., and Patricia weighed 5 lbs. and 9 cm. The couple has seven other

## Jaycee-Ettes Planning Starving Artists Sale

The Lubbock Jaycee-Ettes invite the participation of area artists in their fourth annual Starving Artists Sale November 7, 8 and 9. The three-day sale will run from 10 A. M. until 3 P. M. Friday and Saturday and from noon until 6 P. M. Sunday in the former Hemphill - Wells building in Monterey Center on 50th Street.

Any type of original work of art is acceptable, including a variety of oils, watercolors, etchings, sculpture,

carvings, china painting, pottery, jewelry or stichery. There is no age or professional limit to participation.

For the first time, customers will have the privilege of using two major credit cards for charge purchases at the sale. Jaycee-Ettes believe this will increase the volume of sales, even over last year's total.

Each artist will be charged a \$5 entry fee which must accompany an entry form. Those forms plus information sheets may be obtained at any craft or hobby store in Lubbock, or at the Garden and Arts Center on University Avenue.

Two Jaycee-Ettes will also be manning an information station during the day at 792-3923 or 792-1913. All inquiries of any nature are welcome.

November 3 is the deadline for entry forms and artists' fees.

The Jaycee-Ettes chapter will retain 20 per cent of all items sold, 80 per cent of the purchase price going to artists. Profits earned by Jaycee-Ettes will be contributed to charitable organizations.

## SON QUALLS SELLS 125 MEMBERSHIP CARDS FOR BOOSTERS

The Booster Club met for a regular meeting Monday night when 28 members were present. Adrian Martin presided.

During the business meeting, members voted to have Pie, Cake & Coffee concession in cafeteria following the homecoming game, and the Spook House at the Halloween Carnival. Nell Lane will be chairman of the Spook House.

Son Qualls has sold membership cards to 125 people.

Mutt Hanna was winner of the football contest and two football tickets.

Following the film of the game at Springlake-Earth Friday, Coach Stewart said that he felt like we were just out-manned due to S-E's size and that they were the best we have played all season. He stated that the team was high this week with a good spirit about this week's game.

Other coaches also gave reports—Coach Smith on the junior high game with the boys having a good game; Coach Scott was proud of the good job which the JV team did. All teams played S-E. Coach O'Rear also reported on his scouting trip to see Valley play.

The Hornets will journey to Valley Friday for their first district encounter of the year at 7:30 P. M. The coaches encouraged fans to

Devils of Hillsboro.

Great-grandparents are Mr. and Mrs. Ed Dellar and Mrs. Mary Mathman, all of Sudan, and Mrs. Hallman of Adams.

Great-great-grandmother is Mrs. W. T. Cashwell of Grand Prairie.

The couple has two daughters, Leigh Ann and Stacy.

## HORNETS BOMBED BY WOLVES, 25-6

The Sudan Hornets tasted defeat Friday night by old-time rival, Springlake-Earth Wolverines in Wol-

vine territory who were avenging their loss to the locals of a year ago. The Wolverines were a big and strong

team, and according to Hornet Coach Stewart, were the best team that they have met this year. They defeat-

ed the Hornets 25-6.

The big play of the first quarter was a completed pass by the Wolverines during a 60 yard drive in six plays.

## PP&K Contest To Be Held Saturday

Marion Williams, owner of Marion Williams Ford dealership here and sponsor of the Punt, Pass & Kick Competition for Sudan, has stated that registrations for this popular youth activity would be taken through Friday, Oct. 3. The competition will be held at the local football field at 10 A. M. Saturday, Oct. 4.

Contestants need to go by the showroom at Marion Williams Ford, accompanied by a parent or guardian, and fill out the PPK registration form. There is no entry fee or charge of any kind, and that goes for all six levels of competition,

up to and including the National Finals. Contestants must be between the ages of eight and thirteen.

The Ford Dealer pointed out that trophies will be awarded for first, second and third place in the local competition in each of the age groups. Increasing the youngster's chances of winning one of the 18 trophies is the fact that each contestant competes only against others of the same age. And since there is no body contact, an entrant's size is not as important as his ability to punt, pass and placekick for distance with accuracy.

Winners can continue on up through the Zone, District, Area and Division contests to the National Finals. It's possible that one or more of our local winners could wind up in the finals, which will be held at the Super Bowl X in Miami January 18, 1976.

When contestants register, each entrant gets a free PPK Tips Book containing helpful pointers from the pros on punting, passing and kicking. In the 1975 edition are suggestions from NFL stars Ray Guy, Ken Anderson, and Chester Marcol. Complete PPK rules and suggested conditioning exercises for

contestants are also included.

This is the 15th anniversary year for PPK. From its inception, the youth activity has been sponsored by the Ford Dealers of America in conjunction with the National Football League. In that time more than 11.5 million youngsters have taken part in PPK, making it one of the largest and fastest growing activities of its kind in America.

## FTS Change Announced

More than a million telephones will be involved when the U. S. General Services Administration converts its nationwide Federal Telecommunications System (FTS) from a ten to a seven-digit dialing system on December 1, 1975.

Commissioner Theodore D. Packorius of GSA's Automated Data and Telecommunications Service said the conversion is part of a program to modernize the private long distance telephone network GSA provides for the federal government.

"The change to seven-digit dialing will provide significant technological improvements over our existing system," said Packorius. "When fully implemented, the improvements we are planning should result in savings of about a half-million dollars a year."

FTS originated in 1963 to provide low cost official long distance service to federal agencies. It started as a small operator connected network. It has grown to a modern, direct-dial network with traffic of about 150 million calls a year. The FTS system provided the government a cost avoidance of \$135 million in fiscal 1975.

"This will be the largest private network conversion ever carried out by the telephone industry," said Packorius. "It is an example of how government and industry can work together to effect more efficient use of the taxpayer dollar."

## RAYMOND GAGES ATTEND LODGE WORLD MEETING

A one yard run over the goal line by Rodney Geisler for the first TD of the game culminated the drive at 7:15 on the clock. The running try for two extra points failed, and S-E led 6-0. This ended the scoring for the half. However, in a valiant effort, Sudan got the ball to the 11 yard line in the second quarter when it was fumbled.

With 6:45 showing on the clock, S-E QB Mark Barton carried the pigskin 23 yards for a touchdown. Again the two pointer failed, but they jumped to a 12-0 lead now in the third quarter. Then in the same quarter with less than two minutes of playing time remaining, S-E began marching again from their own 80. It took only three plays and a sprint of 75 yards by Larry Dear to add another 6-pointer. The Hornets held again on the run for extras.

The Hornets had not given up yet on scoring, and in the fourth quarter they put it all together and plowed out 65 yards in nine plays with Danny Williams completing the final yard for a TD. Their attempt at two extras was unsuccessful. The Wolverines were not through either and scored again at 5:02 remaining on a two-yard plunge by Jim Furr. They were successful in kicking the football through the uprights for one more point and the last score of the game, and the win.

## Coach Stewart's Comments

"Springlake-Earth was probably the best team we have played this year. They have a 'big' team and they have outstanding quickness to go with their size. I felt like we played well for three quarters, and then their size and physical strength took over.

We showed improvement in a lot of areas, and I was glad to see that. The defense played well for most of the game. We still need to shore up some areas, but I feel like we are starting to improve.

This week we will start district play against Valley. Valley is undefeated this year, and has only allowed six points to be scored against them. Last week they opened district play by defeating Motley County.

I feel like our young men will be ready to take on Valley, and I hope every Hornet booster will support them by traveling to Valley Friday. The game will begin at a new time, 7:30 p. m.

### QUICKY QUIZ ANSWER

False. Even though pretty to look at, such a stream could contain harmful elements picked up from natural sources in the earth.

## Words on Water

TEXAS WATER QUALITY BOARD AUSTIN, TEXAS 78711

### THE WHAT CYCLE?

Did you know that there is exactly the same amount of water on our planet today as there was when Cleopatra floated her barge down the Nile, and even eons before? And that it's the SAME water? And that the same amount will be present in all the years to come?

All true. What happens to water is known as the hydrologic cycle, which simply means that the same water is used again and again and again.

Water evaporated by the sun into the atmosphere becomes clouds which return the moisture to the earth in the form of rain or snow or sleet, only to evaporate again to continue its cycle.

All of which makes a tiny drop of water a mighty interesting thing.

But it is no more scarce today than it has been at any time in the history of our planet. What makes it seem scarce is that so many more people are using it because populations continue to grow, and we continue to find so many new uses for it.

Consider the days 100 years ago or so when a family of 10 used a washtub to take one bath a week, compared with a family of five today, each taking a bath every day—35 baths a week. And that doesn't take into consideration the automatic washers, dishwashers, disposals, and other 20th century conveniences.

So, even though there is no less water than there ever was, there is less water per person, and we need to use it wisely, care for it, keep it clean, so that it will sustain many generations to come.

### Tech sets new enrollment mark

Texas Tech University has set another enrollment record. FINAL registration figures for the fall, 1975 semester, reported by the Office of the Registrar last Thursday, showed an enrollment of 22,500, an increase of approximately 3 percent, or 653, over the fall 1974 figure of 21,827, according to D. ## EDITORIAL BY GOV. BRISCOE

All the talk we hear around town today is about the recession and whether it will clear up.

It can.

But it will take the efforts of the private business people to do it.

Governor Dolph Briscoe recently announced a new program called TEXAS FIRST that we think may be just the incentive. Its goals include identifying 15,000 new jobs and placing workers in them. This can mean more than \$1 billion annually to our Texas economy.

The program calls for individual employers to pledge to hire at least one new employe during the next 12 months. Think what that could mean if every employer in Sudan hired just one new person—or 10!

More information about this program is available from the Texas Industrial Commission. It is serving as the primary agency contact out of a number of state agencies working together to help with wise business expansion. This help takes several forms, including training new employes for specific skills as required by the employer.

So do as the Governor urges, pledge to hire a new employe and then do it! Let's make TEXAS FIRST economically.

The plus and minus factors in the overall cotton picture favor a prediction that the fortunes of cotton are moving up," according to Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc., Lubbock-based cotton producer organization spanning 25 High Plains counties.

"Cotton consumption is moving up, prices have been moving up, and production should move up as well," Johnson said in an address before the annual meeting of the Plains Cotton Ginner's Association in Lubbock on Saturday, September 27. Over 300 cotton ginner and allied-industry people attended the meeting.

Other speakers on the program included Texas Speaker of the House Bill Clayton of Springlake, and Tony Price of Dallas, Executive Officer of the statewide Texas Cotton Ginner's Association. Bill Weaver of Lamesa, retiring President of the area ginner organization, gave the President's annual report.

Quoting figures on both U.S. and world cotton carry over and production for 1975, and referring to other supply-demand factors, Johnson said "There are encouraging facts and discouraging facts, but on the whole I am pretty bullish on cotton, both for the next 12 to 18 months and for the long term."

He said he was especially pleased by the trend in fiber consumption which has surfaced over the past year, and referred to national publications that have recently commented on a strong surge in consumer demand for cotton. He quoted a New York Times article that stated "Consumers are coming back to cotton and the trend is so pronounced that domestic use of cotton is expected to show the first significant increase in a decade for the year that began August 1."

So encouraging is this trend, plus the budding recovery of the U.S. textile industry, he went on, that there is a real possibility of domestic consumption reaching 7 million bales in 1975-76 as compared to 5.9 million in 1974-75.

Referring to the High Plains cotton crop and its recent cold weather damage, Johnson lamented the indication that 1975 will be the second year in a row that the area has failed to produce "even an average crop" and said "It's going to take up another notch or two in our belts, but most of us will survive."

For a U.S. production figure, the PCG executive used 9 million bales in his calculations, but said this "now appears to be a pretty optimistic figure" in view of adverse weather developments in the Plains, in the Mississippi Delta and the Southeast. He said the U.S. carryover on August 1, 1976 might range anywhere from 3.75 million bales to as high as 5 million, depending on which of the diverse production, domestic consumption and export estimates prove correct. But, he said, "either way the carryover will be reduced from the 5.75 million bales we had this year, and that's a healthy sign for cotton prices."

Johnson told the ginner that the relatively new open-end spinning system is presenting the High Plains with opportunities the area has never had before. "Opportunities that can be the catalyst launching the High Plains into a major textile manufacturing area and opening the door for us to markets in which our cotton wasn't even considered before."

Estimating that some 19 million bales will be needed as the raw material for open-end spinning mills in a few years, he said it is the PCG objective to get for the High Plains, through research and contacts with U.S. and foreign mills, as much of

that market as the area can supply. PCG's success in achieving this objective, Johnson said in closing, will depend on "how much of a commitment we are willing to make, what we are willing to do, and how closely we are willing to work together toward our common goal."

### SCHOLARSHIPS ANNOUNCED Betty Crocker

College scholarships from \$500 to \$5,000 are available to all high school seniors through the Betty Crocker Search for Leadership in Family Living, now under way in its 22nd year.

Invitations to enroll in the program have been mailed to high schools across the nation. Schools new to the program may write the Betty Crocker Search, P. O. Box 1113, Minneapolis, Minn. 55440, for information. Enrollment deadline is October 31, 1975.

On Tuesday, Dec. 2, each participating school will administer a 50-minute written examination. Prepared and scored by Science Research Associates, Inc., Chicago, this general knowledge and attitude examination is the first important step of the scholarship program.

From the examination results a Betty Crocker Family Leader of Tomorrow will be chosen for each participating school. School winners are acknowledged with special awards and their examinations are entered in state competition.

Each State Family Leader of Tomorrow receives a \$1,500 college scholarship while every state second-place winner receives a \$500 grant. State winners also earn for their school a 20-volume reference work, "The Annals of America," from Encyclopaedia Britannica Educational Corporation.

State winners, each accompanied by a faculty advisor, will be the guests of General Mills next spring on an expense-paid tour of Washington, D. C. A special event of the tour is announcement of the All-American Family Leader of Tomorrow, who's scholarship is increased to \$5,000. Second, third and fourth place national winners receive scholarship increases to \$4,000, \$3,000 and \$2,000 respectively.

The Betty Crocker Search is on the advisory list of the National Association of Secondary School Principals.

### Bi-Centennial

"Bi-Centennial Seniors", a nationwide \$250,000 scholarship program for high school seniors who will graduate with the Class of 1976, is being launched this month by the National Association of Secondary School Principals.

One national winner will receive a \$10,000 scholarship and 102 state winners will receive \$1000 grants under the program. Winners will be selected first locally, then on a state-

wide level. Two graduating seniors will be chosen in each state and the District of Columbia. Each of the 102 winners will also receive an all-expense-paid trip to Williamsburg, Virginia, from January 16 through 19 to attend seminars and hear noted speakers discuss educational and social issues facing this country today. The national winner will be selected during the Williamsburg conference.

Students taking part in the "Bi-Centennial Seniors" competition must demonstrate an understanding of America's past and possible directions for the future and an involvement in the social and community issues faced by America today.

Competition will include the preparation of a minute-long television script to be patterned after the CBS television network's 200 years ago today "Bi-Centennial Minutes"; a commentary discussing the significance of the "minute" for today and the lessons it contains for the future; and a current events examination emphasizing issues and events from the past year.

High school seniors should see their principal for details on how to participate in this scholarship program. Applications must be filed no later than October 6, 1975.

The program is administered by NASSP and is funded by the Shell Oil Company. "Bi-Centennial Seniors" is endorsed by the American Revolution Bicentennial Administration.

### DKG MEETING HELD IN OLTON

At the September Delta Kappa Gamma society meeting in Olton, Mrs. Mary Tollett received the Epsilon Delta Chapter achievement award for 1974-75. This award is presented annually to a member who has rendered outstanding service to the society and the teaching profession.

Mrs. Tollett has been a member of Delta Kappa Gamma for 23 years and has held various offices in Gamma Iota Chapter and is a past president of Epsilon Delta Chapter. She has served on the state publicity committee and the state research committee.

Neither. There is exactly the same amount as there has always been.

### Pueblo Dish Updated With Tuna

Until the advent of the white man, the only meat in the Indian's diet came from game animals and fowl. But there was fish and seafood aplenty to provide high protein. Even tuna—such a basic food today—was a main dish staple in Peru, at the time of the Incas.

To the Indians, harvest time was very special and called for important "thanksgiving" celebration dishes. The enjoyment they derived from their wholesome dishes can be experienced in this colorful, authentic Pueblo recipe, Indian Harvest Bake. It has alternate layers of vegetables, western-type cheese and, to turn it into a main dish, canned tuna in vegetable oil. It's a tasty casserole with character for all to enjoy.

**INDIAN HARVEST BAKE**  
2 cans (6 1/2 ounces each) tuna in vegetable oil  
1/2 cup chopped onion  
1 teaspoon chili powder  
1 teaspoon dried leaf oregano  
1/2 teaspoon salt  
1/2 teaspoon cumin seed  
2 tomatoes, sliced  
2 medium zucchini or summer squash, sliced  
1 green pepper, cut into strips  
1 package (10 ounces) frozen whole kernel corn, thawed  
2 cups grated longhorn or mild Cheddar cheese

Drain 1 tablespoon oil from tuna into a flameproof 2-quart casserole; add onion and cook until golden. Mix together chili powder, oregano, salt and cumin seed. Layer 1/3 of each vegetable, 1/3 of tuna and 2/3 cup cheese over onion in casserole, sprinkling each layer with a small amount of seasoning mixture. Repeat layers 2 more times. Cover and bake in 350°F. oven for 1 1/2 hours. YIELD: 6 servings.

### THE BIBLE SAYS

By Art Lynch

Come now, ye that say, To-day or to-morrow we will go into this city, and spend a year there, and trade, and get gain; where-as ye know not what shall be on the morrow. What is your life? For ye are a vapor, that appeareth for a little time, and then vanisheth away." (James 4:13-14) This will I do: I will pull down my barns and build greater; and there will I bestow all my grain and my goods. And I will say to my soul, Soul, thou hast much goods laid up for many years; take thine ease, eat, drink, be merry. But God said unto him, Thou foolish one, this night is thy soul required of thee; and the things which thou hast prepared, whose shall they be?" (Luke 12:18-20) Inasmuch as it is appointed unto men once to die, and after this cometh judgment. (Hebrews 9:27) Come unto me all ye that labor and are heavy laden and I will give you rest. Take my yoke upon you and learn of me; for I am meek and lowly in heart; and ye shall find rest unto your souls. (Matthew 11:28-29) And the Spirit and the Bride say Come. And he that heareth, let

### School News

All classes of Sudan High School had meetings this week with projects discussed. Rusty Gore presided during the meeting of the Senior Class with an attendance of 24 members.

They decided to sponsor the Cake Walk at the annual Halloween Carnival with a charge of 50¢ per walk per person.

The group also decided to sponsor an enchilada supper Friday, November 7, prior to the homecoming football game here with Motley Co. Matadors.

The sophomore class also discussed projects. Bert Byerley, president, presided.

All school pictures other than senior pictures arrived this week. These were of individuals. Group pictures were taken just recently. The seniors will each have theirs remade next week.

(Revelation 22:17) He that believeth on the son hath eternal life; but he that obeyeth not the Son shall not see life, but the wrath of God abideth on him. (John 3:36) I am the resurrection and the life: he that believeth on me, though he die yet shall he live; and whosoever liveth and believeth on me shall never die. (John 11:25-26) My sheep hear my voice and I know them, and they follow me: and I give unto them eternal life; and they shall never perish, and no one shall snatch them out of my hand. (John 10:27-28) If ye love me ye will keep my commandments. (John 14:15) For this is the love of God, that we keep his commandments. . . . (1 John 5:3) And he said unto them, Go ye into all the world, and preach the Gospel to the whole creation. He that believeth and is baptized shall be saved; but he that disbelieveth shall be condemned. (Mark 16:15-16)

GOVERNOR'S OFFICE OF TRAFFIC SAFETY

### DeJarn & Good Sense

This time of year, much time is spent sprucing up the yard. And many people use power tools to help with the work. But you must pay for the added convenience with extra caution.

Hedge trimmers can cause serious injury, and the accidents always seem to happen when the operator becomes careless.

The foremost rule is this: Keep both hands on the trimmer at all times. Many accidents happen when the operator uses one hand to hold a branch out of the way of the blade.

Here are a few other rules to remember:

Don't pull the trimmer through a hedge by the cord. It could accidentally be switched on and cut you.

Don't stand on an unstable chair or table while cutting high branches. Use a sturdy ladder, preferably with someone holding on to it.

Don't use the trimmer long enough so that you become tired or careless.

Always unplug the trimmer before cleaning.

Also, a word of caution about electrical cords. Make sure your extension cord is the same gauge and type as the trimmer's cord. Also make sure the plug and socket fit snugly together and won't come apart. And check the insulation frequently for cuts and breaks.
