

Morton Tribune

TEXAS' LAST FRONTIER

VOLUME VIII.

MORTON, COCHRAN COUNTY, TEXAS, THURSDAY, AUGUST 14, 1947.

NUMBER 24.

Tax Collector Notified Motor Vehicle House Bill 75 Effective Immediately

Cochran County Tax Assessor-Collector has been notified by the Texas Highway Department that House Bill 75 passed at the regular session of the Fiftyeth Legislature of the state of Texas providing for the reinstatement of registration transfer is now in effect.

This new law sets forth specific steps in the sale or transfer of used or secondhand vehicles. The Bill stipulates that all pertinent papers must be executed in full at the time of transfer and must be filed by the transferee with the County Tax Assessor-Collector in the County where the transaction was executed within ten days from the date of transfer. Fines ranging up to Two Hundred Dollars may be imposed on violators of the Article.

Dealers will still be permitted to demonstrate used cars under a dealer's license plate without violating the Article. The new law is intended primarily to prevent the transfer papers from being wholly or partly executed in blank.

Another provision of the new law requires vehicles to carry current registration under the laws of Texas.

Bybee Daughter Patient at Scottish Rite Hospital

Little Miss Signora Ann Bybee, 5-year old daughter of Mr. and Mrs. Omer E. Bybee of this city, was admitted to Texas Scottish Rite Hospital for Crippled Children in Dallas for treatment on Wednesday, August 6.

The Scottish Rite Hospital, which is supported by individual contributions, offers the best possible medical care and attention free to Texas crippled children who are accepted for treatment.

Grade Improvement Offers Cotton Belt Farmers Additional Profits

Additional cotton profits are within the reach of every Cotton Belt farmer through grade improvement, according to the National Cotton Council, which urges growers to plan now to pick their seed cotton while it is dry and to keep it clean of trash.

The difference in price between high-grade and low-grade cotton is too great to go unnoticed, the Council points out. Extra cotton cash can be gained with the same size crop by extra care in picking seed cotton and transporting it to the gin.

The Council recommends that farmers try to pick seed cotton while it is as dry as possible, keep trash out of cotton both in picking and handling, pick cotton before it is damaged by exposure to the weather, and keep good cotton separate from lower grades.

"In spite of the heavy weevil infestation and adverse weather conditions in many parts of the Cotton Belt, hard-working growers are doing a magnificent job in bringing this year's crop to maturity," said Claude L. Welch, the Council's production and marketing director.

"Cotton Belt farmers richly deserve every cent of profit they can make from the 1947 cotton harvest, and grade improvement is one means of reaping maximum benefits from cotton."

Principal factors determining cotton grades are color, leaf trash, other foreign matter, and ginning preparation.

At the beginning of the harvest season, unpicked cotton usually is of high grade, bright in color, and carries no great amount of leaf. Cotton left in the field very long after the bolls open becomes darker and dull in color as a result of exposure, thus lowering the grade.

Spinners are concerned over the presence of foreign matter in cotton, since there is much less waste to cotton containing little or no foreign matter. Plant leaves, notes, seed coat fragments, and sometimes sand and dust also lower the grade.

Cotton should be picked and ginned as dry as possible. Ginning seed cotton when wet or damp tends to lower the value of the lint by one or more grades.

Methodist Church Revival Slated To Start August 20

Rev. A. A. Kendall, Pastor of the First Methodist Church, will assist in a revival scheduled to begin here on Wednesday, August 20.

Evangelist, Rev. H. L. Thurston, pastor of the First Methodist Church, Brownfield, Texas, will conduct a revival service at the First Methodist Church in Morton from Aug. 20 through Aug. 31.

Rev. W. M. Culwell, Abilene, Texas, will be in charge of music for the 11 day revival at the First Methodist Church, starting here next Wednesday.

Phillips 66 Wholesale Jobber Agency Purchased By L. M. and A. J. Smith

Two Weeks Left To Sign Up For Free Bangs Test

Two weeks left for farmers who desire to sign agreements for free Bangs Test. To date thirteen farmers have signed the Bureau of Animal Industry Livestock Commission Agreements for a total of 120 cows and calves to be tested. Calves between four and eight months of age will be given the serum when tested.

This work will begin in Cochran County in September so those who sign up now will get their papers approved in the Ft. Worth office by the B. A. I. Department before the work begins. It is important to get these agreements in soon, hence the two weeks deadline.

Come to the County Agent's office now and sign these papers if you desire a free test this year, advises the County Agent, Homer E. Thompson.

Mrs. Louis Smith Seriously Ill In Carlsbad Hospital

Louis M. and A. J. Smith, owners of the Smith Brothers Implement Company, have purchased the Phillips 66 Wholesale Jobber Agency here from Ed Foreman, who is moving to Lovington, New Mexico.

The agency will continue business under the new name of Smith Brothers Oil Company. A. J. Smith will be in active charge of the business.

H. D. (watermelon) Tarlton will remain with the new owners and will continue rendering prompt and efficient service to old and new customers of the firm. Tarlton, well known in this area, has been delivering gas and oil in Cochran county for several years, and is well known for his honest and courteous delivery service.

Many Farm Products Gained Prices On Southwest Markets Last Week

Newly ginned cotton from South Texas found good demand, and most offerings graded strict middling or better. However, spot prices netted losses of \$1 to \$2.

With hotter weather, top quality eggs became even more scarce, and markets held firm. Prices stayed up fairly well on liberal offerings of medium to lower grade eggs. Demand for poultry slowed some, but prices remained generally firm on moderate receipts. Heavy hens brought mostly 22 to 26 cents, and fryers 32 to 37.

Hog markets generally overcame early-week losses to close mostly 25 to 50 cents higher. Closing bulk of good and choice medium weight butchers sold at \$27 at San Antonio, \$27.50 at Fort Worth, \$27.75 at Oklahoma City, and \$26.50 to \$27.25 at Wichita. Week's top at Denver was \$30, within 25 cents of all time high.

Many cattle classes brought lower prices last week. Most stocker and feeder types, as well as slaughter cows, calves, vealers, and bulls dropped from 50 cents to \$1.50. Steers and yearlings weakened at some markets. Common and medium cows brought \$11.50 to \$14.50 at Houston and Fort Worth, and \$12 to \$15 at San Antonio and Wichita. Medium and good kinds moved at \$13 to \$15.50 at Oklahoma City, while common to good kinds sold at \$15 to \$19 at Denver.

Church of Christ at Pettit will conduct a gospel meeting beginning August 15th and continuing through the 24th, according to an announcement by A. H. Guthrie of that place. Preaching services will be by Wm. A. Brown of Morton, who will be the evangelist.

Pettit Church of Christ Meeting Starts August 15

Morning worship will start at 10:30 o'clock, and evening services will commence at 8:15.

MRS. IDA NEEVES of San Angelo, has returned to her home after a weeks visit with her sister, MRS. J. R. RUSH and family.

MR. and MRS. CARL RAY and ELSIE FAYE returned Tuesday from a vacation trip in central Texas.

ACA Approvals Being Issued At Local Office

According to G. C. Keith, Chairman Cochran County ACA Prior Approvals for Conservation Practices carried out on farms and ranches for 1947 are being issued at the ACA office. Anyone who has not secured approval for all of the Practices they plan to carry out, and expect payment for, should come in at their earliest convenience and sign up.

Aug. 29th, is the final date for issuing Prior Approvals for Contour Farming; a few farmers have neglected to secure these Prior Approvals.

Payment will be made for all of the acreage on which stalks or stubble of Grain Sorghums are left on the land as protection against wind erosion; the rate of payment is 25c per acre, and the stalks or stubble must be not less than 10 in. high. Payment will be made for this practice even though the crop is grown on the contour and application for payment on the Contour Farming is made on the same acreage.

No payment can be made for practices carried out without Prior Approvals.

EMPLOYED AT MORTON ELECTRICAL SUPPLY

Miss Katherine Graham has been employed by the Morton Electrical Supply Company, owned by Mr. and Mrs. Fred Morrison, and is in charge of the record shop.

BIRTH ANNOUNCEMENT

Born to Mr. and Mrs. Gehrome Holloway, a son, William Edward, Aug. 3, in Phillips-Dupree Hospital in Levelland.

Cotton Insect Control Urged For Cochran

Cotton insects have started getting the one bale out of every seven that they usually get in Texas. Insect control is necessary if the farmer gets that extra bale to the gin.

Our big damage in Cochran County is the cotton flea-hopper, because he gets the small buds that make the square. They are difficult to see except you just see where he has been because of the lack of forms and squares that should be on the cotton which is not there.

Get this little fellow with sulphur dust or five per cent DDT and seventy-five per cent Sulphur, apply ten or more pounds per acre at weekly intervals until he is gone. Then comes the leaf worms. If you are able to control the early flea-hopper, this leaf-worm pest may not do so much damage. However, when he attacks the damage is done in a hurry. You can see their first appearance by little whitish looking millers (moths) flying over the field; they lay eggs that cause the leaf-worms. (The boll-worm miller is brownish with one dark spot on each wing.)

The leaf-worm can be controlled by spraying, and it is about the only one that can be effectively controlled this way. This control is not recommended for the boll-worm, so again dust is the big control for all cotton insects. If you do spray for leaf-worm use 4 lbs. Calcium Arsenate in 100 gallons of water.

The dust is again recommended for boll-worm, leaf-worm and other chewing insects. Three mixtures: (1) DDT, 10 per cent and at least 75 per cent Sulphur; 10 lbs. or more per acre at five day intervals. (2) Lead Arsenate or Cryolite at the rate of 8 to 10 lbs. per acre. (3) Calcium Arsenate, 12 to 15 lbs. per acre at five day intervals.

Apply dust immediately after worms appear; do not wait until boll-worms enter the boll or leaf-worms eat all the leaves; it is too late then. Repeat if rain washes the dust off within twenty-four hours.

Fred McNabb Flew In Monday From Lynn County

Fred McNabb, brother of Mrs. W. J. Weeks, flew his light plane in from Lynn County Monday afternoon, landing at the Weeks Gin, six miles west of Morton, just a few minutes before the sandstorm struck.

Mr. McNabb, a member of the Flying Farmers of America, farms two sections near Meadow. Five irrigation wells are insurance against insufficient moisture. Mr. McNabb uses his plane to inspect his farms, rush in needed repairs, urgent business trips and for pleasure. One plane is specially equipped for dusting.

Morton Golfers Visited Denver City Sunday

Morton golfers were invited to meet in matched play with golfers in Denver City, Texas last Sunday. Those attending were: Tom McAlister, Willard Cox, E. L. Willis, Bill McAlister and Paul Adams of Lubbock.

Morton golf players have been invited by Denver City to play in a tournament in Denver City on August 24th.

Paulk Home Scene Of Family Reunion

Mr. and Mrs. Jesse Paulk entertained their children, grandchildren and members of Mrs. Paulk's family at a reunion in the Paulk home here last weekend.

Present for the family get-together were: Mr. and Mrs. Sol Cleveland and three sons, Jim, Bill and Bob of Lamesa; Mr. and Mrs. L. B. Dean and daughter, Carol Ann of Graham; Mr. and Mrs. Jesse Paulk and twin daughters, Janice and Janet of Lubbock; Mr. and Mrs. M. H. Sneed and their daughter, Mrs. Bud Tepe and Mr. Tepe of Amarillo.

Mrs. Sneed and Mrs. Paulk are sisters.

ARRANGEMENTS COMPLETED FOR METHODIST CHURCH REVIVAL TO START AUG. 20

Rev. and Mrs. A. A. Kendall and daughter, Barbara Jo, were in Hereford and Friona, Monday of this week, completing arrangements for the revival meeting that will start here at First Methodist Church on Wednesday, August 20.

MR. and MRS. CARL RAY and ELSIE FAYE returned Tuesday from a vacation trip in central Texas.

Contest Winner "Brands" His Prize

A pioneer of the auto industry, hunted throughout the nation in a contest to discover the oldest Chevrolet truck in America, turned up, appropriately, in the possession of a Montana homesteader. The venerable vehicle, a Montana homesteader, vintage of 1918, was still serving Rancher Leslie A. Storey, of Jordan, Mont., whose ranch lies 18 miles from a typical "last frontier" town. The award for owning the oldest licensed and operating truck was a new Chevrolet

"advance-design" model, which Storey "brands" here with his distinctive Circle-Heart brand. It was presented to him by J. W. Burke, manager of Chevrolet's truck department, as Mrs. Storey and Montana cowgirl Merle Spears (right) look on. Nearly 7,000 old-time Chevrolet trucks were entered in the contest won by this vehicle, which was one of 384 built by the division in 1918, its first year of truck production.

A Great Oil Company introduces a Great NEW Oil!

Phillips Research brings you the finest motor oil for your car ever to bear Phillips 66 trade-mark!

When a great oil company brings out a completely new, different motor oil—that's news!

And when that oil company is willing to stake its reputation—to come right out and say, "This is the finest motor oil for your car ever to bear the Phillips 66 trade-mark"—

That's food for thought for every man who owns a car!

This new Phillips 66 Premium Motor Oil is the result of extensive research, conducted over a number of years by Phillips research scientists. It is of the modern detergent (self-cleaning), oxidation-resistant type. Lessons learned in developing heavy duty lubricants for Army tanks and trucks, the experiences of others who have developed detergent-type oils, and demands of engine manufacturers for their higher-speed, higher-pressure engines, have all been taken into consideration.

The base stocks from the Oklahoma fields, which oil men now recognize as among the finest in the world, are another contributing feature of this great new oil.

This new Phillips 66 Premium Motor Oil is now on sale at all Phillips 66 Dealers. We urge you to provide your car with our finer, newer automotive lubricant.

Chevrolet Division Waging Campaign To Keep New Cars From Black Market

Chevrolet Motor Division and its dealer organization from coast to coast are waging a continuous and relentless campaign to prevent new cars from entering the so-called black markets of the used car lots, and are making strenuous efforts to see that new car deliveries are in accordance with an equitable and orderly program based upon the dealer's prewar volume of business, T. H. Keating, general sales manager of Chevrolet, said here today.

"It must be kept in mind that Chevrolet dealers are independent merchants and that the Chevrolet Motor Division is not in a position to regulate or interfere with the normal operation of their establishments. Nevertheless, the Chevrolet Motor Division has the moral obligation to protect the good name and public goodwill of Chevrolet, and cooperates closely with dealers in this respect," Mr. Keating continued.

"Chevrolet has 6,200 direct dealers in the United States and we are proud to state that to Chevrolet's knowledge, only an infinitesimal percentage of this vast organization violated the common sense rules of good business and good public relations recommended by the Chevrolet Motor Division and practised by the overwhelming majority of their fellow dealers.

School Children Should Be Free Of Physical Defects

AUSTIN—School days will soon be here again. Thousands of Texas boys and girls and teachers will be returning to the schools. Each child entering school should be free as possible of any physical defects which can be corrected. The earlier these are corrected the better chance the child has for academic progress and for good social and emotional development, says Dr. Geo. W. Cox, State Health Officer.

Urges Livestock Industry to Keep Up Bovine TB Work

Unless continuing effort is made to keep bovine tuberculosis out of cattle herds in the United States, this disease may again become a major livestock and public health problem. This is the view of Dr. A. E. Wight, recently retired chief of the tuberculosis eradication division of the U. S. Bureau of Animal Industry.

Dr. Wight said that since the United States began its nationwide campaign in 1917 to eradicate bovine tuberculosis, some 280 million cattle have been given the tuberculin test and that of this number about 4 million have been condemned to slaughter because of the disease. "Over \$250 million has been spent by the federal government, states and counties to bring this plague under control," Dr. Wight declared, "but the tuberculosis freedom we bought with that money may easily be lost if federal, state, and county funds are not made available to continue this work and if the livestock industry does not give wholehearted support to the testing program."

Dr. Wight pointed to the fact that the United States now has a very low incidence of bovine tuberculosis, but he quickly added that "perhaps we are talking ourselves into false security by acclaiming this achievement." He said that a very small number of cattle are still infected and that as long as any tuberculous cattle remain, herds will never be completely free of danger.

Minutes Saved, Hours Saved

Hidalgo County housewives are finding that modern household methods can save minutes which mount up to hours of extra time, even when it comes to ironing a shirt.

Mrs. J. R. Hefner, Hidalgo home demonstration club member, last month saw a demonstration on "a simple way to iron a shirt," demonstrated by Mrs. Florence Low, home management specialist of the Texas A. and M. College Extension Service. Mrs. Hefner's home demonstration agent, Vida Holt, reports that the housewife has adopted the new method and now saves four minutes on each of the 18 shirts she irons every week for her husband and teen-age son. By spreading the information on to her neighbors, Mrs. Hefner figures she has knocked many hours of time off Hidalgo County household chores, just from the one demonstration by the home management specialist.

The home demonstration agent plans more work simplification demonstration in the country.

NAGGING BACKACHE

My Wife's Disordered Kidney Action Don't Neglect It

Modern life with its ceaseless hurry and worry, irregular habits, improper eating and drinking, exposure, contagion, whatnot, keeps doctors busy, hospitals crowded. The after effects are disturbing to the kidneys and oftentimes people suffer without knowing that disordered kidney action may cause the trouble. After colds, fever and similar ills there is an increase of body impurities, the kidneys must filter from the blood. If the kidneys are overtaxed and fail to remove excess acid and other harmful waste, there is poisoning of the whole system.

Symptoms of disturbed kidney function may be nagging backache, persistent headache, dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of strength and energy. Other signs of kidney or bladder disturbance sometimes are burning, scanty or too frequent urination.

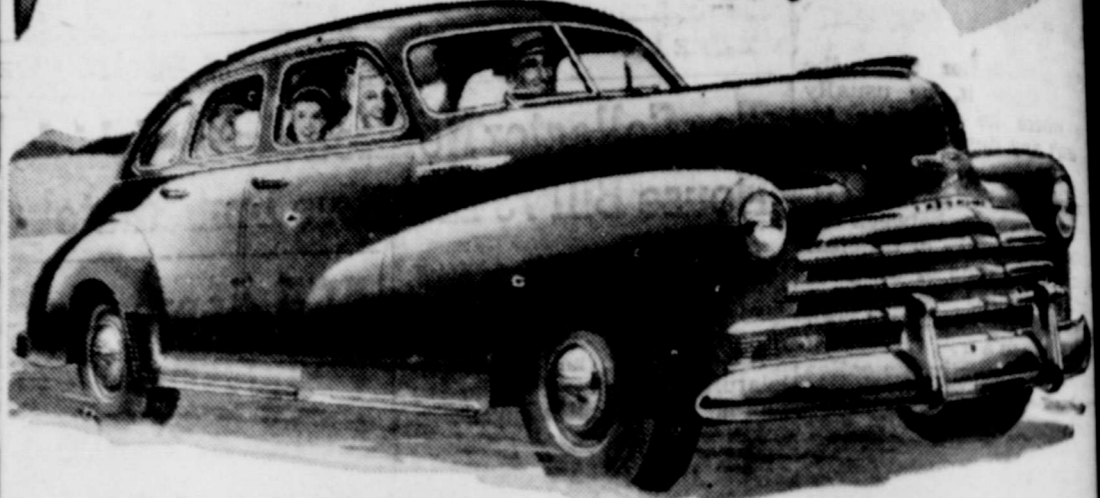

In such cases it is better to rely on a medicine that has won world-wide approval than on something less favorably known. Use Doan's Pills. They have been winning new friends for more than forty years. Be sure to get Doan's. Sold at all drug stores.

THE REASON DOAN'S ARE FAMOUS All over the country grateful people tell others: "Doan's helped me; I recommend them to you." That is why we say, Ask your neighbor!

DOAN'S PILLS

You can't match the "heart" of BIG-CAR QUALITY AT LOWEST COST

World's Champion Valve-in-Head Design!

The new Chevrolet is the lowest-priced motor car with a Valve-in-Head Engine—the type of car engine which holds all records for efficiency—for giving maximum power from every ounce of fuel. Moreover, Chevrolet's Valve-in-Head Engine is the "champion of champions" on all these counts: (1) Valve-in-Head performance at lowest prices; (2) billions of miles of service to owners; and (3) number of owners served. In fact, this sturdy Chevrolet Valve-in-Head Engine has delivered more miles, for more owners, over a longer period, than any other automotive engine built today, regardless of type, size or price!

Chevrolet gives you the BIG-CAR styling of Body by Fisher—exclusive to Chevrolet in the lowest-price range. Chevrolet also brings you the safety of Fisher Unisteel body construction, the Knee-Action Ride and Positive-Action Hydraulic Brakes—a combination of safety factors found only in Chevrolet and higher-priced cars.

You can't match Chevrolet's BIG-CAR COMFORT at lowest cost, either—the outstanding comfort of its Knee-Action Gliding Ride—for this, too, is exclusive to Chevrolet in its price range.

Be wise! Keep your present car in good running condition by bringing it to us for skilled service, now and at regular intervals, until you secure delivery of your new Chevrolet. Come in—today!

We Believe the BIBLE

In this Book God has spoken—fully, finally. It is His complete revelation . . . summed up in the person of His Son.

On these pages is found the path to God through Christ. The way to live now. And reassuring intimations of a better future life for the believer.

In the search for peace through generations . . . man has turned to the Bible. For the things men live by are found in this book that is the Word of God.

Always, in its pages . . . men have found help for their deepest needs. Comfort for their shattered spirits. Light for their darkest hour.

Now, a bruised world needs this book for its lessons of mercy, humanity, tolerance, charity. For a restoration of the spirit torn with grief.

And here in its pages to seek the flame that lifts men's souls. The courage to face tomorrow. The faith that brings God's peace to the hearts of men.

ashamed to ask them over.

• Morton was DDT logged again
last week. It certainly is a big
help in controlling the fly popu-
lation. So far we haven't heard
of a ny serious communicable
disease outbreaks either.

• Bill Harris came in to help us
in the front office for three days
each week until he can get his
photo shop to going. Some one
suggested that we ought to be
very happy with all men in the
office.

• We still haven't figured out
whether that was meant as sarcas-
m or not. Since we have always
fancied that we get along equal-
ly well with either sex.

• Movies made of Mickey and
Bill's wedding turned out exceed-
ingly well—as did the ones made
at White Sands National Monu-
ment. It is funny the feeling one
has upon seeing himself in ma-
tion for the first time. Mrs. E. D.
Garrett said, "Oh, my, is that
me?"

• Altho we had planned all a-
long to have a little party for
Mickey we were made to realize
how slow we have been when
C. B. Markham accosted us in the
postoffice with this query, "Is
any one going to have a party
for Mickey? I don't want her left
out of anything, and if some of
you women folks don't have a
party for her, I will."

• Around here we are pretty
fond of Mr. M and when he sug-
gests something we get busy.

• While getting an ad at Cobb's
this week we saw them unload-
ing hats all over the place. It
looks as if Jack bought enough
hats for every man in the county
to have at least two.

• Heard the spouse ask Bill,
"Does love make the world go
around?" Bill's reply was, "No,
it just makes people dizzy, and
they think the world is going
around."

• We still think lots of argu-
ments are sound—ALL SOUND.

Help Solve Your Kitchen Problems

If potatoes don't seem as white
as they should be when you are
mashing them, beat a small a-
mount of baking powder into
them.

Use a hot blade for slicing
fresh bread, a wet blade for cut-
ting fresh cake, and a very thin,
sharp blade for slicing cookie
dough.

Keep the inside of your coffee
pot clean by boiling a solution
of soda and water in it at least
once a week. This removes stains.

Place paper or paper toweling
on table when paring vegetables
and fruits, breaking eggs and
measuring so that you can just
fold it up and have a clean
working surface when finished.

Keep seasoned flour in a bag
already for seasoning chops,
vegetables, chickens, et cetera.
Greased muffin cups are ideal
when baking tomatoes, apples,
green peppers and stuffed on-
ions. These cups may be set in a
large pan or cookie sheet to
make them easy to move in
oven.

VISITED HERE TUESDAY

Mr. and Mrs. Harold Brown and
son, Harold Pharis IV of Snyder,
Texas, visited with the Carl Eng-
lands Tuesday enroute to Ruo-
doso, New Mexico on a vacatio.
trip.

Weekly SURPLUS NEWS WAA

Five Red River Arsenal ware-
houses containing 200 lots of
automotive parts and a variety of
other surplus property will be
open to the public next Monday
and Tuesday, August 18 and 19,
for a competitive bid sale. Pros-
pective buyers will find bus
transportation waiting for them
at the east gate of the Texarkana
installation for a tour of all in-
spection sites. Bids on the lots of
automotive supplies, furniture,
hardware, bar steel and brass as
well as quantities of other mater-
ials will be opened at 1 p. m.
Tuesday, August 19, and awards
will continue to be announced
until everything has been sold.

Further information regarding
the veterans' sale of 480 automo-
biles at 17 Texas installations
was announced this week by the
WAA at Grand Prairie. All of the
actual selling will take place at
the Grand Prairie sales ware-
house immediately following a
drawing to be participated in by
all veterans present at 1 p. m.
Monday, August 25. Honorable
discharge copies or other proof of
World War II service will qualify
the veterans as buyers. Veterans
will continue to make their selec-
tion from the shiny sedans, sta-
tion wagons, and other vehicles
by inspection daily through Aug-
ust 22, and the buying will con-
tinue until August 27, with certi-
fied veteran dealers scheduled to
buy on August 28.

A farm-like expanse of every-
thing from doll buggies to port-
able conveyors is greeting visi-
tors to the air conditioned inter-
ior of the Grand Prairie War As-
sets Administration plant this
week. The three million dollars
worth of war surplus on display
there for a giant bid sale August
21 and 22 covers an area of ap-
proximately 20 acres. Complete
lists of the 5,000 items contained
in the 1,000 lots will be posted on
the lots so that prospective buy-
ers will not have to sort through
each of the displays. Inspection
and acceptance of informal bids
for the sale is continuing Monday
through Friday and until 4 p. m.
Tuesday, August 20.

A sealed bid sale of automo-
tive truck parts has been an-
nounced by War Assets Adminis-
tration and will be offered in a
catalogue sale until 11 a. m.,
August 26, the Grand Prairie
WAA office has announced. A-
mong the automotive parts are
main bearing shells, fuel pump
links, suspension springs and top
assemblies. The majority of the
material, located at the Red River
Arsenal, near Texarkana, is un-
used. A complete listing may be
obtained from the Customer Ser-
vice Center at Grand Prairie.

VISITED ELMER AKIN

Dudley Monticue of Lorain,
Ohio was a guest last week of
Elmer Akin. They served together
in the 2nd Armored Division in
Germany during World War II.

Notice

Any person or persons selling, trading or transferring any vehicle
from one person to another in the State of Texas, MUST
execute all papers and documents in full and dated as of the
date of such transfer. Failure to do so constitutes a misde-
meanor and the guilty shall be fined in any sum not less than
\$50.00 and not exceeding \$200.00.

Registration License receipt for the current year and Certificate
of Title MUST be filed with the Tax-Collectors office within
10 days of the transfer of any second-hand or used vehicle.
Person or persons failing to do so shall be guilty of a misde-
meanor and upon conviction fined in any sum not exceeding
\$200.00.

This notice published in accordance with House Bill No. 75, pass-
ed by the Fiftieth Legislature.

A Great Oil Company introduces a Great NEW Oil!

Phillips Research brings you the finest motor oil for your car ever to bear Phillips 66 trade-mark!

When a great oil company brings out a completely new, different motor oil—that's news!

And when that oil company is willing to stake its reputation—to come right out and say, "This is the finest motor oil for your car ever to bear the Phillips 66 trade-mark"—

That's food for thought for every man who owns a car!

This new Phillips 66 Premium Motor Oil is the result of extensive research, conducted over a number of years by Phillips research scientists. It is of the modern detergent (self-cleaning), oxidation-resistant type. Lessons learned in developing heavy duty lubricants for Army tanks and trucks, the experiences of others who have developed detergent-type oils, and demands of engine manufacturers for their higher-speed, higher-pressure engines, have all been taken into consideration.

The base stocks from the Oklahoma fields, which oil men now recognize as among the finest in the world, are another contributing feature of this great new oil.

This new Phillips 66 Premium Motor Oil is now on sale at all Phillips 66 Dealers. We urge you to provide your car with our finer, newer automotive lubricant.

Chevrolet Division Waging Campaign To Keep New Cars From Black Market

Chevrolet Motor Division and its dealer organization from coast to coast are waging a continuous and relentless campaign to prevent new cars from entering the so-called black markets of the used car lots, and are making strenuous efforts to see that new car deliveries are in accordance with an equitable and orderly program based upon the dealer's prewar volume of business, T. H. Keating, general sales manager of Chevrolet, said here today.

"It must be kept in mind that Chevrolet dealers are independent merchants and that the Chevrolet Motor Division is not in a position to regulate or interfere with the normal operation of their establishments. Nevertheless, the Chevrolet Motor Division has the moral obligation to protect the good name and public goodwill of Chevrolet, and cooperates closely with dealers in this respect," Mr. Keating continued.

"Chevrolet has 6,200 direct dealers in the United States and we are proud to state that to Chevrolet's knowledge, only an infinitesimal percentage of this vast organization violated the common sense rules of good business and good public relations recommended by the Chevrolet Motor Division and practised by the overwhelming majority of their fellow dealers.

School Children Should Be Free Of Physical Defects

AUSTIN—School days will soon be here again. Thousands of Texas boys and girls and teachers will be returning to the schools. Each child entering school should be free as possible of any physical defects which can be corrected. The earlier these are corrected the better chance the child has for academic progress and for good social and emotional development, says Dr. Geo. W. Cox, State Health Officer.

August is the time for a complete medical and dental check-up. Eyes, ears, nose, throat, and teeth should be carefully examined, and all remediable defects corrected. If such defects are neglected, they may result in serious damage to growth and development.

Dental corrections often take time, but a person is repaid many times over for good dental care. Healthy teeth lend attractiveness to the personal appearance, enable thorough chewing of food, and promote general good health.

In schoolrooms, children expose each other to many communicable diseases, especially the common cold and diseases such as measles, scarlet fever, whooping cough, and diphtheria. Protect the child from diphtheria and whooping cough, as well as smallpox, by safe and dependable immunization.

Parents, see that your child has complete protective treatment against preventable diseases; a clean healthy throat and mouth; the best possible vision and hearing; adequate diet, sleep and rest to build up resistance against disease. It will pay good dividends, and your child will be Ready For School.

Minutes Saved, Hours Saved

Hidalgo County housewives are finding that modern household methods can save minutes which mount up to hours of extra time, even when it comes to ironing a shirt.

Mrs. J. R. Hefner, Hidalgo home demonstration club member, last month saw a demonstration on "a simple way to iron a shirt," demonstrated by Mrs. Florence Low, home management specialist of the Texas A. and M. College Extension Service. Mrs. Hefner's home demonstration agent, Vida Holt, reports that the housewife has adopted the new method and now saves four minutes on each of the 18 shirts she irons every week for her husband and teen-age son. By spreading the information on to her neighbors, Mrs. Hefner figures she has knocked many hours of time off Hidalgo County household chores, just from the one demonstration by the home management specialist.

The home demonstration agent plans more work simplification demonstration in the country.

Urges Livestock Industry to Keep Up Bovine TB Work

Unless continuing effort is made to keep bovine tuberculosis out of cattle herds in the United States, this disease may again become a major livestock and public health problem.

This is the view of Dr. A. E. Wight, recently retired chief of the tuberculosis eradication division of the U. S. Bureau of Animal Industry.

Dr. Wight said that since the United States began its nationwide campaign in 1917 to eradicate bovine tuberculosis, some 280 million cattle have been given the tuberculin test and that of this number about 4 million have been condemned to slaughter because of the disease.

Over \$250 million has been spent by the federal government, states and counties to bring this plague under control," Dr. Wight declared, "but the tuberculosis freedom we bought with that money may easily be lost if federal, state, and county funds are not made available to continue this work, and if the livestock industry does not give wholehearted support to the testing program."

Herd Not Free of Danger
Dr. Wight pointed to the fact that the United States now has a very low incidence of bovine tuberculosis, but he quickly added that "perhaps we are talking ourselves into false security by acclaiming this achievement."

He said that a very small number of cattle are still infected and that as long as any tuberculous cattle remain, herds will never be completely free of danger.

NAGGING BACKACHE

Modern life with its ceaseless hurry and worry, irregular habits, improper eating and drinking, exposure, contagion, crowded hospitals, and the effects of these things on the kidneys and oftentimes people suffer without knowing that disordered kidney action may cause the trouble.

After colds, fever and similar ills there is an increase of body impurities the kidneys must filter from the blood. If the kidneys are overloaded and fail to remove excess acid and other harmful waste, there is poisoning of the whole system.

Symptoms of disturbed kidney function may be nagging backache, persistent headache, dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of strength and energy. Other signs of kidney or bladder disturbance sometimes are burning, scanty or too frequent urination.

In such cases it is better to rely on a medicine that has won world-wide approval than on something new favorably known. Use Doan's Pills. They have been winning new friends for more than forty years. Be sure to get Doan's. Sold at all drug stores.

THE REASON DOAN'S ARE FAMOUS
All over the country grateful people tell others "Doan's has helped me; I recommend them to you." That is why we say, "Ask your neighbor!"

DOAN'S PILLS

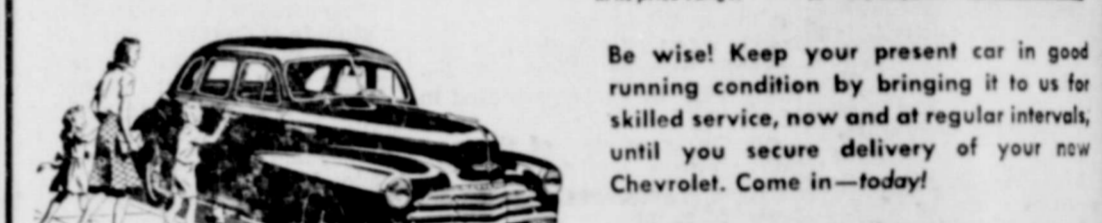

You can't match the "heart" of BIG-CAR QUALITY AT LOWEST COST

World's Champion Valve-in-Head Design!

The new Chevrolet is the lowest-priced motor car with a Valve-in-Head engine—the type of car engine which holds all records for efficiency—for giving maximum power from every ounce of fuel. Moreover, Chevrolet's Valve-in-Head Engine is the "champion of champions" on all these counts: (1) Valve-in-Head performance at lowest prices; (2) billions of miles of service to owners; and (3) number of owners served. In fact, this sturdy Chevrolet Valve-in-Head Engine has delivered more miles, for more owners, over a longer period, than any other automotive engine built today, regardless of type, size or price!

Chevrolet gives you the BIG-CAR styling of Body by Fisher—exclusive to Chevrolet in the lowest-price range. Chevrolet also brings you the safety of Fisher Unisteel body construction, the Knee-Action Ride and Positive-Action Hydraulic Brakes—a combination of safety factors found only in Chevrolet and higher-priced cars.

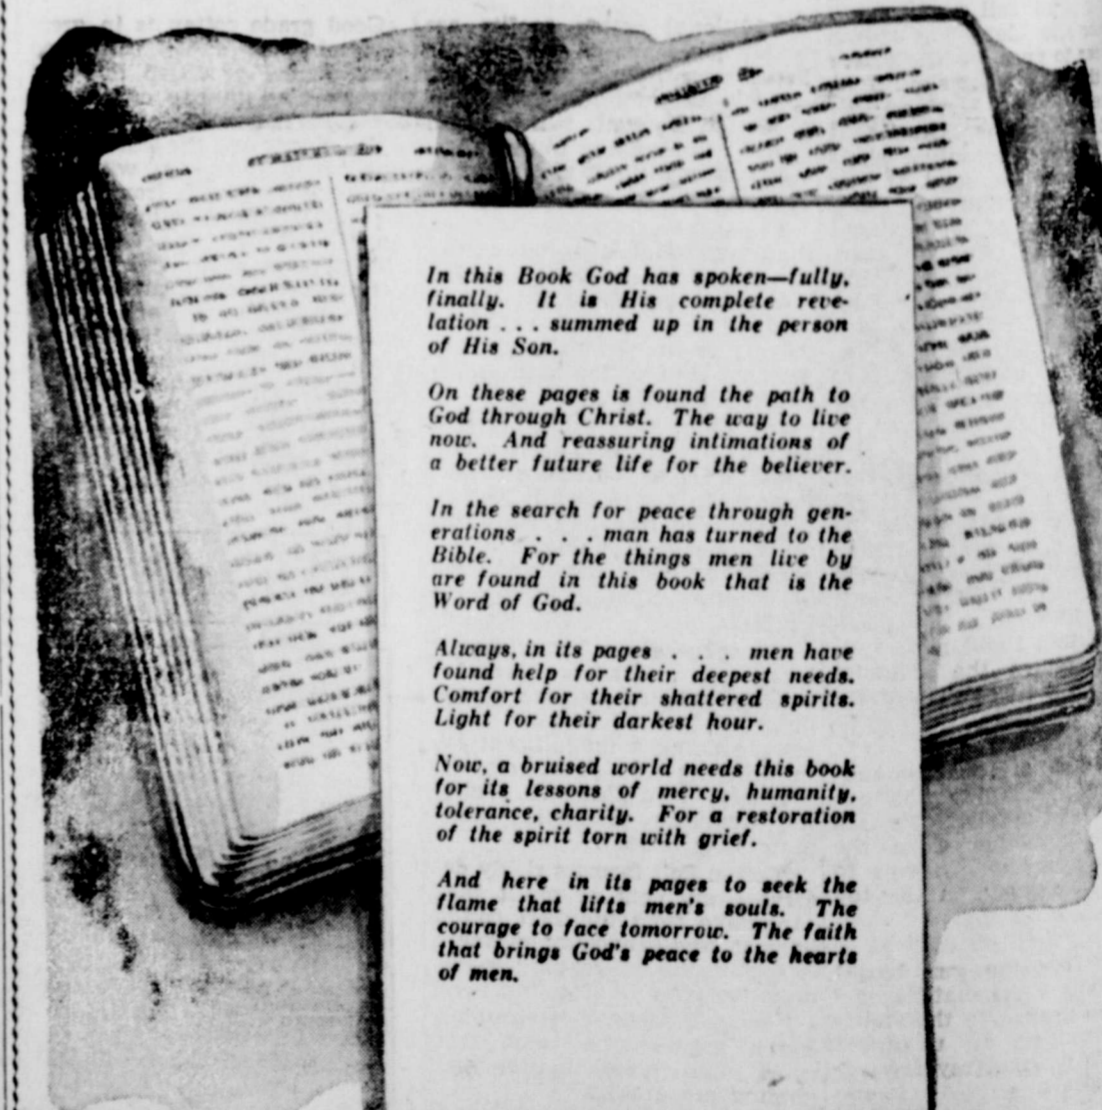

Be wise! Keep your present car in good running condition by bringing it to us for skilled service, now and at regular intervals, until you secure delivery of your new Chevrolet. Come in—today!

We Believe the BIBLE

In this Book God has spoken—fully, finally. It is His complete revelation . . . summed up in the person of His Son.

On these pages is found the path to God through Christ. The way to live now. And reassuring intimations of a better future life for the believer.

In the search for peace through generations . . . man has turned to the Bible. For the things men live by are found in this book that is the Word of God.

Always, in its pages . . . men have found help for their deepest needs. Comfort for their shattered spirits. Light for their darkest hour.

Now, a bruised world needs this book for its lessons of mercy, humanity, tolerance, charity. For a restoration of the spirit torn with grief.

And here in its pages to seek the flame that lifts men's souls. The courage to face tomorrow. The faith that brings God's peace to the hearts of men.

ashamed to ask them over.

Morton was DDT fogged again
last week. It certainly is a big
help in controlling the fly popu-
lation. So far we haven't heard
of any serious communicable
disease outbreaks either.

Bill Harris came in to help us
in the front office for three days
each week until he can get his
photo shop to going. Some one
suggested that we ought to be
very happy with all men in the
office.

We still haven't figured out
whether that was meant as sarcasm
or not. Since we have always
fancied that we get along equal-
ly well with either sex.

Movies made of Mickey and
Bill's wedding turned out exceed-
ingly well—as did the ones made
at White Sands National Monu-
ment. It is funny the feeling one
has upon seeing himself in moti-
on for the first time. Mrs. E. D.
Garrett said, "Oh, my, is that
me?"

Altho we had planned all a-
long to have a little party for
Mickey we were made to realize
how slow we have been when
C. B. Markham accosted us in the
postoffice with this query, "Is
any one going to have a party
for Mickey? I don't want her let
out of anything, and if some of
you women folks don't have a
party for her, I will."

Around here we are pretty
fond of Mr. M and when he sug-
gests something we get busy.

While getting an ad at Cobb's
this week we saw them unload-
ing hats all over the place. It
looks as if Jack bought enough
hats for every man in the county
to have at least two.

Heard the spouse ask Bill,
"Does love make the world go
around?" Bill's reply was, "No,
it just makes people dizzy, and
they think the world is going
around."

We still think lots of argu-
ments are sound—ALL SOUND.

Help Solve Your Kitchen Problems

If potatoes don't seem as white
as they should be when you are
mashing them, beat a small a-
mount of baking powder into
them.

Use a hot blade for slicing
fresh bread, a wet blade for cut-
ting fresh cake, and a very thin,
sharp blade for slicing cookie
dough.

Keep the inside of your coffee
pot clean by boiling a solution
of soda and water in it at least
once a week. This removes stains.

Place paper or paper toweling
on table when paring vegetables
and fruits, breaking eggs and
measuring so that you can just
fold it up and have a clean
working surface when finished.

Keep seasoned flour in a bag
already for seasoning chops,
vegetables, chickens, et cetera.

Greased muffin cups are ideal
when baking tomatoes, apples,
green peppers and stuffed on-
ions. These cups may be set in a
large pan or cookie sheet to
make them easy to move in
oven.

VISITED HERE TUESDAY

Mr. and Mrs. Harold Brown and
son, Harold Pharis IV of Snyder,
Texas, visited with the Carl Eng-
lands Tuesday enroute to Rudi-
doso, New Mexico on a vacatio-
trip.

Weekly SURPLUS NEWS WAA

Five Red River Arsenal ware-
houses containing 200 lots of
automotive parts and a variety of
other surplus property will be
open to the public next Monday
and Tuesday, August 18 and 19,
for a competitive bid sale. Pros-
pective buyers will find b u s
transportation waiting for them
at the east gate of the Texarkana
installation for a tour of all in-
spection sites. Bids on the lots of
automotive supplies, furniture,
hardware, bar steel and brass as
well as quantities of other mater-
ials will be opened at 1 p. m.
Tuesday, August 19, and awards
will continue to be announced
until everything has been sold.

Further information regarding
the veterans' sale of 480 automo-
biles at 17 Texas installations
was announced this week by the
WAA at Grand Prairie. All of the
actual selling will take place at
the Grand Prairie sales ware-
house immediately following a
drawing to be participated in by
all veterans present at 1 p. m.
Monday, August 25. Honorable
discharge copies or other proof of
World War II service will qualify
the veterans as buyers. Veterans
will continue to make their selec-
tion from the shiny sedans, sta-
tion wagons, and other vehicles
by inspection daily through Aug-
ust 22, and the buying will con-
tinue until August 27, with certi-
fied veteran dealers scheduled to
buy on August 28.

A farm-like expanse of every-
thing from doll buggies to port-
able conveyors is greeting visi-
tors to the air conditioned inter-
ior of the Grand Prairie War As-
sets Administration plant this
week. The three million dollars
worth of war surplus on display
there for a giant bid sale August
21 and 22 covers an area of ap-
proximately 20 acres. Complete
lists of the 5,000 items contained
in the 1,000 lots will be posted on
the lots so that prospective buy-
ers will not have to sort through
each of the displays. Inspection
and acceptance of informal bids
for the sale is continuing Monday
through Friday and until 4 p. m.
Tuesday, August 20.

A sealed bid sale of automo-
tive truck parts has been an-
nounced by War Assets Adminis-
tration and will be offered in a
catalogue sale until 11 a. m.,
August 26, the Grand Prairie
WAA office has announced. A-
mong the automotive parts are
main bearing shells, fuel pump
links, suspension springs and top
assemblies. The majority of the
material, located at the Red River
Arsenal, near Texarkana, is un-
used. A complete listing may be
obtained from the Customer Ser-
vice Center at Grand Prairie.

PLEASURE TRIP

OR
 PRECIOUS TIME WASTED?

Summer Motor Trips Can Be Either

"Make mine a pleasure trip," you say—but it's largely up to you. We can help, though—if you'll bring us your car for a tuning-up and adjustment before you start touring.

Remember, it's a lot better to have your car put in good shape here at home than to be stopping at garages all along your vacation route to have the work done piece-meal. Long-distance, high-speed, driving has a way of making little faults into major troubles. Your best assurance of an enjoyable trip is to have us correct those little faults in advance.

Sweet Revenge Planned By Dorothy Lamour

Dorothy Lamour, who has been the sarong-clad heroine of many Bob Hope-Bing Crosby "Road" movies is looking forward to the time the two stars visit her NBC "Front and Center" program (WOAL 6:30 p. m. Sundays) sometime this summer.

"For the first time since we three have been working together," Dorothy says, "I will be the one in the driver's seat. And what I'm planning for these two boys shouldn't happen to Peter Lorre."

ARMY USING HYDROPONIC GARDENS OVERSEAS

Fresh vegetables for use with Army rations in overseas installations where they cannot be otherwise supplied, are being produced successfully and in large quantities by the employment of hydroponic gardening.

This process, also known as nutriculture, water culture, and chemi-culture, consists of beds of gravel, stones, cinders, or other inert materials in which vegetables are grown by supplying them with water and the nutrient chemicals necessary for their growth. This supply of fresh vegetables in this manner is contributory to high morale among the troops.

VISITED IN FT. WORTH

Mrs. C. L. Taylor, Mrs. F. F. Roberts and Mrs. Joe Gipson have returned to Morton after a few days visit in Ft. Worth.

Mr. and Mrs. DALE KEY of Ft. Worth are visiting her parents, MR. and MRS. C. M. WARTER.

TCU Students In Christian Youth Picture

TCU students are figuring prominently in the Christian Youth picture this year.

Ray Bristol, Marfa, and Wanda Campbell, Sulphur Springs, were recently elected secretary and worship chairman, respectively, at a meeting of the International Christian Youth Fellowship Commission at Emporia, Kan.

Clifford Taylor, Jr., San Angelo, has sailed for Oslo, Norway, where he will represent the Texas United Christian Youth Council at an international youth meeting this month.

President of the Fourth State Youth Convention of Christian Churches, to be held in Austin Aug. 27-29, is Connie Mac Hood, TCU student from Breckenridge. Other state officers who attend TCU are Lawrence Bridges, Fort Worth, vice-president; Miss Campbell, treasurer; Taylor, editor of the CYF News; Bristol, student work chairman; and Mark Randle, Lockhart, service chairman. President M. E. Sadler will address the convention.

The three past presidents of the organization are also from TCU—Jimmy Farrar, Dallas; Frank Crow, Fort Worth; and Alfred Ellis, Tyler.

MR. and MRS. TOM ARNN spent the week-end in Ruidoso, New Mexico.

MR. and MRS. T. K. WILLIAMSON and MR. and MRS. TOM ARNN Jr. were Sunday visitors in Lubbock.

Lehman News

Mrs. J. W. Pond, Reporter

Mr. and Mrs. Olton Blair of Hobbs, New Mexico, spent last week in the home of Mr. and Mrs. Freeland.

Charlie Trap, of California, Mr. and Mrs. W. L. Rice, of Sudan, Mr. and Mrs. R. G. Henry and family, of Tyler, and H. O. Tucker of Graham, all visited in the home of Mr. and Mrs. Orville Taylor and son during the week-end.

Mr. and Mrs. Dale Pond, spent the past week with relatives in Winters, Abilene and Red Wine.

Mr. and Mrs. W. G. Freeland are visiting relatives in Colorado. Mr. and Mrs. Bert Darland and baby of Dimmit, New Mexico, are visiting in the home of the former's parents, Mr. and Mrs. N. Darland.

Mr. and Mrs. Nile Weed and children of Morton visited in the home of Mr. and Mrs. J. W. Pond Sunday afternoon.

Robert Wallace and Robert McCary of Spade, spent Saturday night in the home of Mr. and Mrs. Dale Pond.

Mr. and Mrs. Phillips of Lubbock were Sunday guests in the home of their daughter, Mr. and Mrs. Huckabee.

The little daughter of Mr. and Mrs. Marlar had her tonsils removed at the West Texas Hospital in Lubbock last Tuesday.

The Lehman H. D. Club met in the home of Mrs. Charlie Sanders last Wednesday, August 6. All enjoyed games and a book report given by Mrs. W. G. Freeland, a delicious meal was served of cake, punch, fruit cocktail and sandwiches to the following guests: Mrs. Fred and daughter, Donna, Mrs. Charlie Hickman, Mrs. Lyles, Mrs. Buck Huckabee, Mrs. Orville Taylor, Mrs. J. W. Pond, Mrs. Clappitt, Mrs. R. J. Vinson, Mrs. Rayford Maston, Mrs. W. G. Freeland, Mrs. Lee Castle, Mrs. Nuet Darland. Next meeting will be in the home of Mrs. W. G. Freeland, Aug. 20.

THREE-MINUTE SERMON

By T. L. (Jack) Bullard, Pastor
 Missionary Baptist Church

Jack Bullard

"WHY THE BLOOD"

The question has been asked repeatedly, why did Christ have to shed his blood in the cross? If only the world would become interested enough in this one issue that they would seek the truth on the matter, the entire human race would be better off. I think that every one would agree that life is in the blood. Without blood there is no life and where there is no life there is no blood. The fact that life is in the blood, is established in Gen. 9:4. Lev. 17:14. and Deu. 12:23.

Let us consider this fact too; It takes the shedding of blood to protect life. If you remember when Adam and Eve were placed in the garden of Eden, God told them what to do and not to do; what to eat and what not to eat and said that the day that you do this or that or eat this or that then something will happen. After Adam and Eve had eaten of the forbidden fruit their eyes were open and they saw that they were naked. They took fig leaves and made aprons to hide themselves. Brother, that did not stand with the Lord. After they were able to secure garments made of skins of animals they were able to stand before God. It took the shedding of blood that they might have this covering. The shedding of the animal's blood protected human life. In Egypt, if you remember, a lamb was slain and the blood was placed on the door post in every home of the children of Israel. At midnight when the death Angel came He saw the blood and passed over that home. The blood was for protection of that home. Every home that did not have the blood, the first born of that home was stricken dead. Thus we find that it takes the blood to have life and to protect life.

Through the blood we live with Christ. It is through the blood of Christ that we are saved. We know that Christ died on the cross for a purpose and that purpose was the souls of men. Paul said in Rom. 8:3, that Christ came to do what the law could not do in that it was weak. Peter said that we were not redeemed with corruptible things, such as silver and gold, but with the precious blood of Christ. Paul said again in the Ephesian letter that we are redeemed by the blood of

Christ. John the Revelator seeing the many souls around the altar was asked what they were. He said, Sir, thou knowest. John was told that they were the ones that had come out of great tribulation and had their robes made white in the blood of the Lamb. Many today hoot at the idea of blood Salvation. You can do that here in this life and seemingly get by with it but when you come to the Judgement bar of God what then? The Christian path is a blood bought path.

TOP and LIVESTOCK ROUND-UP

Increased planting of hybrid cotton in the Cotton States is helping to improve the relatively low yields per acre. The next higher yields is indicated by the fact that the cost of producing a bushel of cotton in the Southern States averages about 60 cents per bushel higher than in the Cotton Belt States, although the Cotton Belt has higher costs per acre.

Supplemental feeding of cottonseed meal to offset reduced grazing from pastures during August and September is usually profitable to dairymen and other livestock producers.

Dehydrated sweet potato meal compared favorably with corn meal in dairy rations in Georgia tests, and the butter from cows fed sweet potato meal had a richer color and was higher in vitamin A content.

Louisiana Experiment Station studies show that the increase in the calf crop, alone, will usually pay the cost of improving pastures, to say nothing of weight gains or milk increases.

A Few Pointers On Planting Of Fruit Trees

Letters of inquiry from Texas fruit growers have prompted Extension horticulturists at Texas A. and M. College to offer a few pointers on selecting a site for planting a new orchard this fall, winter or early spring.

Big point to remember, say the horticulturists, is getting the soil in good shape early enough that late summer and fall rains can put the finishing touches on the ground so that it will be ready when planting time comes around.

Drainage and soil type are two things to watch in selecting that orchard location now. Since fruit trees don't like "wet feet", both top and subsoil must have good drainage. Land with a slight slope to the northeast is good, since such a slope protects the trees from prevailing winds and still offers thorough drainage.

Growers have found that good orchard soil has these qualities: moderately rich (over-rich soil may cause too fast a vegetative growth); high in organic matter, a pH, or acidity rating, of 6.5 to 7; completely free of such trouble makers as nematodes, cotton root rot, oak root rot, crown gall or Bermuda grass. Most fruit trees produce on many different soil types if drainage and airing is good. However, the horticulturists like to see orchards on 12 to 18-inch deep sandy or sandy loam soil, with well-drained sandy clay soil underneath.

They tell growers never to plant fruit trees on old orchard sites, which may be diseased and insect infested. Newly cleared land also may have termites left from decaying wood.

The smart orchardist, when he selects a new site, goes ahead to terrace the land, pulverize the soil, plant an adapted winter legume, fertilize and set stakes where the trees are to go.

Tribune, Morton, Cochran County, Texas, Thursday, August 14, 1947

Use Sugar In Fruit Preserves

Here's a tip for housewives on making preserves out of the fruit crop that's coming to market now.

Fruit preserves are successful only if the fruit holds its shape, yet is tender and translucent in the syrup, home economists for the U. S. Department of Agriculture say as they explain that sugar has a firming effect on fruit tissues but must be applied differently to various types of fruit.

Sugar is added "straight" to tender, juicy fruits like peaches, cherries and berries. If the fruits stand overnight in sugar, they become firmer and are less likely to go to pieces in cooking. The sugar draws out the juice and shrinks the fruit somewhat, but the juice provides enough liquid so that no water need be added, and this shortens the cooking time. The shorter the cooking, the better the color and flavor.

Juicy fruits with a firm skin, like plums, do not need overnight firming. But because they are juicy, they are put in a thick syrup. This helps keep their shape as they cook, and the juice as it cooks out, thins the necessary amount.

Firm fruits like quinces and crabapples are put in thin syrup to cook, for thick syrup toughens them, and too they have time to cook tender while the syrup boils down.

Practicing

"Why did they evict the medical student from the library?" "They caught him removing the appendix from the book he was reading."

The Test

"Harry," said the fellow next door, "do you think I'm crazy because sometimes I talk to myself?"

For a moment Harry soberly pondered the question.

"No," he finally decided, "but you are if you ever listen."

Senator Tom Connally To Rio For Inter-American Conference On August 15th.

Senator and Mrs. Tom Connally sailed from New York on Saturday, August 2, for Rio de Janeiro, Brazil. Senator Connally is a delegate to the Inter-American Conference for the Maintenance of Continental Peace and Security, which meets in Rio on August 15th.

President Truman is expected to attend later meetings of the Conference. Secretary of State Marshall will also attend.

"The meetings of the Inter-American Conference for the Maintenance of Continental Peace and Security," said Senator Connally, "will implement and complete the agreements made at Chapultepec in 1945, at which Senator Austin and myself were the United States Representatives."

"The objective of the Chapultepec Declaration is to provide for the maintenance of continental peace and security of the United States and the twenty other American Republics of the Western Hemisphere. It aims at the solidarity of the Western Hemisphere. In order to maintain continental peace, it is proposed that an attack upon any one of the American Republics shall be regarded by all of the other nations as an attack upon its own integrity and security. This applies both to attacks from without the hemisphere and within the hemisphere.

"A further purpose of the conference is to protect democratic institutions and free government in this hemisphere and to prevent interference, infiltration or aggression by any nation of Europe or any other foreign power. The United States lifted high the torch of liberty in this hemisphere. With the revolutions of the Latin-American countries from Spain, governments were set up in this continent based upon a republican form of government and largely modeled upon the

United States pattern. It is of vital interest not only to the people of this hemisphere but to the people of the world that democratic institutions and free government shall survive here, and shall grow and develop in order to attain the finest and best for all the peoples of the world. Communism cannot survive in such an atmosphere. Totalitarianism is not nourished by democratic processes and constitutional government. These foul principles will not be tolerated here. It is our hope by a united Western Hemisphere to smother them and extirpate them wherever they show their ugly heads.

"Of course, peace within the hemisphere is one of the cardinal objectives. And when freedom from outside interference or encroachment is also of the highest importance.

"Secretary of State Hull rendered distinguished service in both of these fields. We hope and expect to carry forward these principles to glorious success."

Yeah, Wry?

Future Of State Colleges At Stake

Worth Star-Telegram
 Important question whether deferred building needs shall be met by a conceived long-range plan will be decided by the vote on August 23. It is essential that the people understand the issue to be submitted at that date and, second, that a representative vote be cast in expression of informed opinion.

The proposition to be submitted August 23 is a proposed constitutional amendment bearing two principal purposes. One would permit the University of Texas and Texas A. and M. College to issue \$15,000,000 in bonds to finance a building program for the next 30 years. The bonds would be issued against income from the University permanent fund, and thus would cost the people nothing in taxes. The University would be allotted \$10,000,000 and A. and M. \$5,000,000 from the bond proceeds.

For meeting the 30-year building needs of the 14 other state supported colleges, an estimated \$45,000,000 would be provided by application of 5 cents of the 7-cent levy for Confederate pensions, which now require only 2 cents of the total authorized tax. At the same time, the proposed amendment stipulates that the general fund levy of 35 cents shall be reduced to 30 cents. This effect would be no increase in the amount of taxes that are levied normally but an actual reduction of 5 cents in the maximum rate.

The proposed amendment has been carefully devised to meet the building needs of the 14 state educational institutions, which otherwise are dependent upon legislative appropriations for the purpose. Experience of the last two or more decades shows that the Legislature fails to meet these building requirements and that the only solution is a well-rounded program that will serve the needs of all the colleges. The additional structures are necessary to accommodate expanding enrollments, for which present facilities are inadequate. Thus, the building program would be a means of providing better educational advantages to the state's youths.

The proposal on which the people will vote Aug. 23 has been endorsed by the boards and patrons of the University and A. and M. College, and by the administrators of all 16 colleges at a June meeting in Waco. Alumni of the 16 institutions, who are familiar with the details and purposes of the program, are supporting the amendment. Its passage should be assured if the

LOOKING AHEAD By George S. Benson, President, Harding College, Searcy, Ark.

WAGES AND BASKETS makes capital afraid to venture.

A real basket of food, according to the American Federation of Labor, is the best unit to use in measuring income. That is, how many baskets of food will your wages buy? The Federation's "Monthly Survey" for July has put together some interesting figures comparing wages in America in 1940 with wages in Europe in 1940. These figures are in terms of baskets containing items for adequate nourishment. An American family of five would need about four of these baskets a day.

One hour's work by a factory worker in the United States in 1940, according to the A. F. of L., would buy 2.83 baskets. In Britain an hour of work would buy 1.26 baskets. In France, 1.11; in Germany, 1.02; in Italy, .65; and in Russia, only .40. This means that the American worker could buy with his wages seven times as much food as a Russian could with his in 1940.

Measure of Freedom These figures are in keeping with personal observations in Europe in 1936 and again in 1946. The amount of food a worker could buy with his wages was in direct proportion to the amount of freedom that a worker enjoyed in his own country. Russia had the least individual freedom and the highest wages.

More than 20 years of Communism in Russia, under a totalitarian state which owns and operates the tools of production, has failed to change the ratio in comparison with America. The "Monthly Survey" is right when it comments that history has proved that "free enterprise under a democratic form of government provides the highest living standards for workers." Workers are becoming aware that their best opportunities lie in preserving individual opportunity—freedom to own property and to create and operate an industry or a business.

Threats Today I fear, however, that the American public does not understand some of the threats being made upon this very essential factor in the American way of life. I am interested in seeing industry pay the highest possible wages. America must continue to provide the best for the most. But I see dangers threatening the very things that enable Americans to buy more baskets of food than the workers of any land.

1. High taxes are cutting off investment of new venture capital. This will prevent expansion and growth. New tools and new industries will not be available to provide jobs.

2. An extravagant federal budget continues to spend and to create inflation. This restrains men from venturing and investing.

3. Industrial relations are unsteady. This instability again

people inform themselves about the proposal and then go to the polls on Aug. 23. Texas' higher educational system should be enlarged so as to keep pace with the great development of the state and provide its young people with the type of colleges to which they are entitled.

Soap and water won't harm furniture; not if you wring a soft cloth out of warm soapsuds and wash furniture with it. When furniture is wiped dry, polish with a good furniture polish.

Mrs. M. L. Doyle—Reporter.

Texas Centennial Prodigy Now Soloist On NBC

Twenty-two year old Leonard Pennario can now be added to the long list of celebrities who began a career of fame in the Lone Star State. Pennario's talents have won many laurels for him since his debut at the early age of 12 with the Dallas Symphony Orchestra during the Texas Centennial Exposition. He is now heard each Thursday as concert pianist with Nelson Eddy and Nadine Conner on the National Broadcasting Company's Kraft Music Hall (WOAI, 7:00 p. m. CST).

When Eddy, host and star of the show, and Miss Conner were contracted to do the vocals for the Music Hall, the search for just the right star to round out the musical portion of the program was far and wide. But the search ended when it led producers to Pennario, the young man who played with symphony orchestras even before he finished high school—the pianist about whom critics say "he has fingers of steel struck by lightning, which accounts for the electric power of his touch."

The stars that shone over young Pennario's Texas Centennial performance of Grieg's famous "Piano Concerto", have grown even brighter with his role of concert pianist of NBC's Music Hall.

ENTERTAINED WITH DINNER

Mr. and Mrs. Bill Garrett entertained Mr. and Mrs. Carl England with dinner at the Supper Club in Lubbock on Thursday evening, August 7, on the occasion of the England's ninth wedding anniversary.

742 MILLION BIRDS

There are now over 742,047,000 chickens on farms in the United States, according to a report released by the U. S. Department of Agriculture's Bureau of Agricultural Economics.

The estimate, based on reports from rural mail carriers, crop and stock reporters and hatcheries, shows chicken population to be about the same as a year ago, but three per cent less than the 1936-45 average.

Texas is listed as having 42,459,000 chickens, more than any other state except Iowa, with 54,169,000.

When Your Back Hurts -
And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

DOAN'S PILLS

LIKE RAISING A CROP!

Producing new tractors and farm machines is like raising a crop . . . it takes months before they're ready. Perhaps there will be plenty of new tractors next season and you'll be able to get one. But if you want to play it safe, let us put your old tractor in good repair now. Then, come what may, you'll be ready for work.
