NUMBER TWELVE

LITTLE LEAGUE OPENS ANOTHER SEASON TODAY; GIANTS TO BATTLE CARDS IN OPENER AT 6 P.M.

The Morton Little League, with its new faces, swings into action this evening at 6 p. m. at the Little League Park, as the Giants take off against the Cards.

The Giants, under new management, with Mr. Pierce at the helm, will be managed by Mr. Pierce, who has directed the Cards, once again directed by C. F. Winder and Orville Cunningham, got the nod to open the season by a process of drawing. The Sox vs. Cubs game tomorrow puts the other two teams in line.

The Sox retained their managers,

Louis Kuehler and Carly Risinger, but the Cubs have as new managers, Dossie Terrill and Louis Russell.

The major change this year will be in the minor leagues where four teams are to be formed & set up as farm affiliates of the four Little League teams.

These minor leaguers will work out at 4:00 today.

Monday, the Giants take on the Cards and Tuesday the Cards meet the Sox. Next Thursday the Giants and Sox tangle. The complete schedule will be published next week.

Team managers of the Morton

Little League, the player agent and the secretary met Monday afternoon in the District Courtroom and held the 1957 player draft.

Rosters of all four Little League teams were filled and other boys who want to play will be assigned to the minor leagues.

The managers had only whatever previous knowledge they had of the boys and Saturday morning's work-out to go by in selecting the boys for their teams. Opening the auction, two teams needed eight men to replace those not returning this year, two needed seven, and another needed, eight, one only five.

The player auction held Saturday morning turned out very well despite the fact that several of the boys supposed to put it on were unable to attend. Many boys showed up who have not signed up this year and several who had signed up did not appear.

The turnout almost insured the fact that a successful minor league will be held this year, if all the boys who signed up will come to the minor league games.

All managers slated work-outs for (See LITTLE LEAGUE, Pg 5)

Final Rites Held Sunday Afternoon For Mrs. Angley

Funeral services were held at 2 p. m. Sunday in the Church of Christ in Morton, for Mrs. W. E. Angley, 60, a resident of Morton for the past 32 years.

Mrs. Angley, who had suffered for nearly 20 years in a battle with cancer that amazed many physicians, died at 4 p. m. Friday in the West Plains Hospital at Muleshoe. She had been confined there for the past 10 weeks.

Mrs. Angley first underwent treatment for cancer in 1938, but had been ill a couple of years previous to that. Most of the time since 1938 she was able to be about but many times along the way she required hospitalization and treatment.

Coming to Texas at the age of 11, with her parents, she married in 1917 in Amarillo. The couple moved to Morton in May of 1924.

She was a charter member of the Morton Chapter, Order of the Eastern Star, and was the second worthy matron of the chapter.

Rev. Clarence Stephens of the Muleshoe First Methodist Church, officiated at the final rites and was assisted by Denton Thompson, minister of the Church of Christ at 2nd and Taylor Streets.

Burial followed in the Morton Memorial Cemetery under the direction of the Singleton Funeral Home.

Survivors include the husband, a realtor in Morton; one daughter, Mrs. T. L. Folger of Yukima, Washington; three sisters, Mrs. J. E. Lockett of Vernon; Mrs. V. J. Pohll of Ft. Worth; and Mrs. Annie Larimore of Wichita Falls; one brother, J. S. Norris of Vernon and two grandchildren.

Survivors also include three brothers in law, E. K. Angley and J. H. Angley of Muleshoe and O. K. Angley of Amherst; and three sisters in law, Mrs. Bonnie Haberer of Muleshoe; Mrs. C. E. Bearden of Ellensburg, Washington and Mrs. A. J. Dieter of Vancouver, Washington; and a number of nieces and nephews.

Palbearers were nephews, Ted and Russell Haberer, Rex, Jack, Jerry, Ken and Bob Angley, and Phillip and Neal Larimore.

3 BURNED IN PLANT MISHAP

Three Llano Grande Gasoline Plant workers were painfully burned, seriously, but not critically, Tuesday noon in an explosion as they checked a piece of equipment at the plant.

The three injured men were Lewis Shields, Relief Boiler Foreman; Garland Screws, and Bob Satterfield. All suffered first, second, and third degree burns over large parts of their bodies, scalded with a mixture of mostly hot water at 220 degrees Fahrenheit; and some chemicals.

Shields was considered the most

badly burned.

According to a spokesman at the plant, the three men were checking a "tube bundle in the reclaiming." They were putting gas pressure to it and the tube bundle was forced out into their faces covering them with the scalding mixture. The men remained in the Cochran County hospital, unable to wear clothes and unable to have visitors. Doctors were taking every precaution to prevent possible pneumonia.

Shields had very bad burns about the eyes and at first it was feared his eyes were damaged, but on Wednesday, it was reported he was able to see a little.

The men will be unable to return to work for some time.

Carl Macon Dies At Olton; Former Morton Supt.

Funeral services were held at Olton Wednesday afternoon for Carl Macon, Superintendent of the Olton School District and former Superintendent of schools at Morton.

Macon, 50 years old, died suddenly at his home in Olton Monday night following a heart attack.

Services were held in the school auditorium where he had recently completed a \$250,000 building program.

A school man for 27 years, and superintendent for 18, Macon had gone to Olton five years ago after leaving Morton. He also formerly taught at Bida. He had been at Olton five years.

Macon was Superintendent of the Morton schools for seven years.

He was a member of the Masonic Lodge, was immediate past president of the Olton Lions Club and was a deacon in the Baptist Church.

School, which had not been completed at Olton, was dismissed for the funeral services.

Macon is survived by his wife, a son Don who is a student at Howard Payne College, and a daughter, Mrs. Sue May of Olton.

Several persons from Morton attended the services.

Jim Johnson, Levelland School Boy, Wins Jaycee Golf Tourney Champion

Out of town golfers, though only 15 were entered in the tourney out

of a total field of 46, swept to the two top honors in the 1st Annual South Plains Jaycee Invitational Golf Tourney here last weekend — a tourney that despite being plagued with bad luck from the start, turned out pretty much of a success.

Long driving, straight shooting, Jimmy Johnson, a 16 year-old Levelland High School junior won the championship flight Sunday afternoon with a smashing 5 and 3 win over Mack Tubb, another Levelland High School boy.

Ted Davis, Lubbock, carted off the medalist trophy with a sudden death playoff with local basketball coach Bob Travis, after the two had tied for medalist honors with 77's.

Fifteen of the 46 entrants were from out of town despite rains that washed out all but two golfers attending to qualify Friday. Most of the golfers were contacted by phone after 7 p. m. Friday night as job officials learned the phones had been out all day long thus preventing anyone from calling in.

Rains washed the roads between Lubbock and Levelland, forcing a temporary closing. These were only a few of the troubles that hindered the program. Rains kept the barbeque from being cooked and cancelled that Friday night diversion. Storms on Saturday night disrupted power for two hours while a stag party was being conducted and cut down that part of the program.

But, in the face of all these difficulties, members of the Country Club, pitched in with the Jaycees to help call out 25 or more golfers late Friday night and perhaps saved the tourney from disaster.

The golfers were blessed with a fine day Saturday for the first two rounds. Sunday morning was also fair golfing weather. But the final rounds were played in whirlwind weather which choked the course with dust and swirling breezes. In the two top matches, the championship flight and the Championship consolation flight the winners were able to post topheavy margins as the winds played havoc with their opponents.

Johnson, perhaps the longest hitter in the meet, kept his drives low and straight Sunday afternoon and turned in a good performance. His putting wasn't overly sharp, but it didn't have to be. Tubb, who had displayed a beautiful putter and accurate chipping in earlier (See Golf Tourney, page Four)

Indians Scalped By Petersburg

The Morton Indian baseball team unable to hit in the clutch, and unable to hold Petersburg, lost the bi-district baseball game at Hodges Field in Lubbock last Monday.

Coach Travis' nine went down to defeat 13 to 4. Only in the final two innings was Morton able to mount an offensive.

In the very first inning the Indians missed a golden opportunity to break the game wide open when they loaded the base on a walk, a hit batter and a single with none out. But three batters fanned to put an end to this early threat.

Estimated "Over 1,000" Attended First State Bank's Open House

A crowd that could have reached over 1,000 all day Saturday flocked to the new Morton First State Bank to offer their congratulations to W. W. Williamson and staff, and to view one of the most modern banking institutions on the South Plains.

Mr. Williamson said they had no way of estimating accurately the number of people who attended.

"They came in by both the front and back doors, all day long," he said. He said approximately 500 entered the guest register during the formal open house hours from 2 until 6 p. m.

Bankers and insurance men from all over the area and state dropped by to congratulate their long time friend and associate and the local president's biggest regret was that folks came so thick and fast he just didn't have time to stop and talk with men whom he has known in the banking business for many years.

The spacious new lobby was filled with flowers from well wishers both near and far. Some were simple bouquets, some were huge pot plants.

Two of the gifts "Bill" treasured the most were a huge painting of a scene in southwest Cochran County by the artist John Meigs, Lubbock banker and long time associate of Williamson; and a decorative, gold tri-rod desk pen set from Syl Green, one of Bill's Bank Directors. Mr. Williamson said he was tremendously tickled and flattered at the reception and at the words of praise especially from the visiting bankers who said no city on the entire South Plains, of anywhere near comparable size, had a structure for banking to compare with it. — And others added, none in any city was any more modern and yet practical.

The coffee, the cakes, the piggy banks and the thermometers and rain gauges, the doughnuts — all disappeared rapidly among the surge of visitors and the display of currency not only held the rapt attention of hundreds who dropped by Saturday but was continuing to draw attention all this week.

The official opening included a red ribbon snipping at the front door and pictures of the visiting officials and local bank executives were snapped during the proceedings.

Sinshina Koshiba and Sky Corbin of Levelland Radio Station KLVF were at the opening with an hour long, on the spot broadcast.

Among the bankers who came a long way to shake hands with Mr. Williamson and chat over a cup of coffee, were Clay W. Armstrong, of the Federal Reserve Bank in (See Bank Opening, page four)

Bank Opening Well Publicized

"Texas' Last Frontier" received loads of good publicity last week as a result of the opening of the new First State Bank building.

Not only was the story carried locally, but it was given good play in the Lubbock Morning Avalanche, the Lubbock Evening Journal, the Levelland Daily Sun News, the Fort Worth Star-Telegram — but Paul Crume really caught on with his story, double column on the front page of the Dallas Morning News under the famous column head "Big D."

(Incidentally, Crume was reared just north of here near the railroad intersection termed Farwell.)

Wrote Crume: "P. B. (Jack) Garrett and W. C. Schmeer of the Texas Bank & Trust Co. went out to Morton the other day for the opening of the shiny new building of the First State Bank of Morton.

"While there, they noticed a customer had sent in a beautiful red carnation plant (red roses, Paul), and on it was written: 'Any other color would not be in keeping with my account at the First State Bank.' Keep going, Gene Benham."

"This sounds like our account at Mr. Garrett's bank.

"It is the best way to operate, too. Why use your own money and wear it out when you can use the bank's?" concludes Crume.

"Mission Field, U.S.A." Is Study Of Local W.S.C.S.

On Tuesday afternoon, May 14, the W.S.C.S. met at the church for the first of three lessons on "Mission Field, U.S.A." The program was under the leadership of Mrs. John Crowder. She emphasized the need to keep American culture in the realm of religion alive for generations yet unborn. Christian faith alone, she said, can save men from "lives of quiet desperation" by giving them courage to grapple with their problems. Just how Christian is America? Although ninety-nine percent of American adults believe in God, their ideas vary so much that one man's God becomes another man's devil.

Seventy-three percent of adult Americans are members of a church, this revealing a revival of religious interest.

Senator Preston Smith

To get an idea of some things that happen during the consideration of a bill, we can examine a typical incident of the 55th Legislature that attracted quite a bit of interest.

The bill, one of the "scrappiest" measures this term, is one intended to provide that those who use the telephone "with malicious intent to harass, annoy, torment, abuse, threaten or intimidate" be guilty of a misdemeanor.

After the bill had passed the Senate and weathered the House criminal jurisprudence committee, organized resistance was aimed at stopping the bill.

The opposition came from bill collectors, loan agency operators and retail merchants who resort to collections by telephone.

House members got letters and calls from persons of those categories back home asking them to kill the measure. In other words, according to the ringing telephones and letters coming into the capital about this bill it looked like that opposition was massive against such a measure.

However, there are many voters who might not disagree with the provisions of the bill, which reads, in part:

"Whoever uses any vulgar, profane, obscene, or indecent language over or through any telephone or who uses any telephone in any manner with malicious intent to harass, torment, abuse or intimidate, another shall be guilty of a misdemeanor, and shall be fined not less than \$10 nor more than \$1,000, or imprisoned in the county jail for not less than one month or more than 12 months, or by both such fine and imprisonment."

The measure is intended to stop the practice of vulgar and obscene telephone calls which have kept police busy in several cities.

or anywhere else in America, what better word is there to describe how we feel toward you for everything you have done for us.

THANKS...

that fine American word embodies the gratefulness of us for all of you who have made this new bank possible. One of our ways of saying thanks to you was the construction of this new bank.

THANKS...

means we appreciate you and your kind words of praise; your wonderful expressions in our behalf through floral messages.

THANKS...

means we are well aware that hundreds of you took time Saturday that could have been used in many ways, just to drop by and to wish us well.

and now...

in a few more short words let us simply urge you to be ready to confer your own "thanks" to everyone who has a part in shaping a better future for Morton and Cochran County.

Groups are at work everyday on this project that is so important to all of us living on "Texas' Last Frontier." The churches, the fraternal organizations, the service clubs, the schools, the businessmen, the industry, and the backbone of it all... the farm families.

It takes such a little time to say it.

It seems so wonderful inside to mean it.

To everyone...

THANKS...

God Bless You. We're Grateful. You're So Kind. Everyone's Been Swell...

These are but a few of the expression we could have selected.

They are appropriate expressions... each of them. But they are also everyone embodied in our simple and honest expression of

THANKS...

GRANDMOTHER HAS STROKE
Mrs. Frank Griffith was called to Lubbock, Sunday to be at the bedside of her 90 year old grandmother who suffered a stroke.

To Preach Sunday

Bro. M. A. Walker of Sudan will preach Monday at the Morton Methodist Church. It was reported this week by M. C. Ledbetter, lay leader.

Posse Loses

The Cochran County Sheriff Posse, drawing a blank again last week at the Post Rodeo, will attempt to get back on the posse trophy winning trail, June 6th, at Plainview.

The local group has failed in a pair of recent rides to place in the top three, after starting the season in good fashion.

Number of riders, which counts heavily in the judging, was against the local group at Post with the local group having only 14 riders to 20 for each of the top three.

Fisher County took first place, in season was Lynn County and the Slaton Riders were third.

The Plainview Rodeo is an ABC affair.

By MISS LEILA PETTY CONTROLLING BAG WORMS

It's time now to be looking out for those bag worms that may be attacking some of the ornamental plants.

These pests can be controlled by using two teaspoons of 40 percent

chlorane in one gallon of water; or a tablespoon of 60 percent emulsion concentrate toxaphene in one gallon of water. Check for bag worms on your arbovitae and cedar-like plants. Also check on your althea, clematis, and roses as there are some species that attack these plants.

For further information call our office or write for leaflet 159 on Guide for Controlling Insects on Ornamental Plants in Texas.

CLOTHES MOTHS AND CARPET BEETLES AND CONTROL

Clothes should be clean before storing them for the summer. Washable wools may be protected from moths by using EQ-53, a product developed by the USDA in which DDT is the active ingredient. It is on the market under different trade names. Wools may be protected against feeding damage by spraying with a 5 percent DDT household spray. Crystals or flakes of para-dichlorobenzene or naphthalene in the proper concentration, protect stored wools.

Piles, carpets and upholstered furniture should be sprayed every 12 months. Use a 2 percent chloroform spray or 0.5 percent lindane, or a 0.5 percent diethyl household spray to treat surfaces in the house where clothes moths and carpet beetles may crawl. Be sure to treat rug pads if they are wool.

LESLIAN CH CLEP OBITUARY ANNIVERSARY

The Leslian 4-H Club celebrated its four anniversary at a meeting last Wednesday at the home of Sandra and Linda Freeman. A birthday cake with one candle was used to mark the day. The anniversary was observed a little early as the club was organized on May 19 of last year. The club still has the same officers who are Beth Wern, hon. president; Diane Fields, vice-president; and Sandra Freeman, secretary. Other members are Judy Womack, Linda Freeman, Connie Conover, Linda Hinds, Linda Burton, and Janice Little.

RADIO PROGRAM

Radio KFYO Lubbock is conducting a series of radio programs made from the offices of the various County Home Demonstration Agents in the district. Cochran County will have a program at 8:45 on Sunday morning, May 25. Control of insects in the yard, garden, and house will be discussed.

Bob Stephens, KFYO Farm Editor will also interview three 4-H Club girls from this county. They are Linda and Janice Shores and Paula Barnett. You will enjoy hearing these girls tell about their 4-H Club work.

Soil Stewardship Week To Begin Next Sunday

Secretary of Agriculture Ezra Taft Henson today made the following statement in behalf of Soil Stewardship Week and Rural Life Sunday, both of which occur this month.

"The Department of Agriculture is happy to join with the National Association of Soil Conservation Districts and national church organizations in the observance of National Soil Stewardship Week which they are sponsoring May 26 to June 2nd.

During this week, or on Rural Life Sunday, May 28, local churches of various faiths and soil conservation districts throughout the nation will join in special recognition of man's responsibility as a steward of our God-given heritage—the productive soil.

Such observance is especially heartening to us in the Department of Agriculture who are charged with helping farmers use soil wisely and at the same time conserve it for continued production for the generations to come. Our future food supply depends on the intelligence with which we use our productive resources—such as soil and water. Not only food but many raw materials for industry come from the soil. While solving today's problems, we must not neglect tomorrow's needs.

I strongly urge farm, church, civic, conservation and other organizations to participate in this event as an important means of becoming better acquainted with the vital importance of wise use of our land to both our material and spiritual welfare. I am urging employees of the Department to participate in soil stewardship observance as citizens of their communities or to help organized groups, when requested, in planning or conducting such events.

Got a job for this giant killer?

Here's proof of the reserve strength in GMC's 370 that pays off in any operation.

DEEP in the pine woods, this 2½-ton GMC, with locally added trailing axle, wades into a pile of forest giants, using its power take-off to flip 1,000-pound logs onto its back. In ten minutes it has a staggering load—and practically no road to haul it over.

You may never need to subject your trucks to such grueling service, but experience like this is your assurance of stamina and reserve strength far beyond normal requirements.

And the GMC 370 can be yours for hundreds of dollars less than comparable competitive trucks. Just check with your GMC dealer.

Illustrated: GMC 370 rated 19,500 GVW—22,000 with optional H.D. front axle, 206-hp V8 or 140-hp Six.

HUG-DEEP RUTS, soft ground, down and up ravines, it totes a Herculean payload day in and day out in the timberlands of North Carolina. Five trips a day, six days a week the year around—and it stays a stranger to the repair shop!

Attention Farmers!

Yes, there are good, practical reasons why so many West Texas farmers are changing to Panhandle Mutual Hail Association hail insurance. A few of the reasons are listed below:

1. The Panhandle Mutual Policy is the only cotton policy that does not have a replant clause.
2. We do not adjust cotton on the stand population basis.
3. We do not defer our losses until fall.
4. Our adjustments are prompt and honest adjustments made by local adjusters.
5. This is a farmer's company.
6. No interest charge on our notes until after maturity.
7. The only company which has an arbitration clause in the hail policy.
8. Our policy is written to fit the West Texas cotton farming conditions.
9. We limit our liability per townships and PER section so as to avoid overloading.
10. Another important feature is the fact that we now have catastrophic reinsurance with the Lloyds of London as added protection to our west Texas farmers against heavy hail years.
