## County Gets New Demo Chairman

That is, it had a new one as of several weeks ago.

Carl Ray took over as Chairman of the Democratic Party in Cochran County on appointment by the County Democratic Committee, composed of precinct chairmen.

He replaced Joe Nicewarner, who had served, and whose name was to be on the ballot this year, when it was found that Nicewarner was ineligible to serve as County Democratic Chairman since he is an appointed official and employee of the county.

The disclosure of the action came to light this past week when County Grover D. Edgar was asked by a Tribune representative what had taken place.

Edgar said that the Commissioners' Court had come to him for a legal opinion concerning the situation, that he investigated and reported back to the court of the illegality of the situation. He said he was convinced that no one had realized the situation was improper or illegal.

It developed later, after a talk with County Judge Glenn Thompson, that the incident referred to by Mr. Edgar was a single Commissioner requesting information on the subject, rather than an action by the court.

Mr. Nicewarner then submitted his resignation and the County Committee took action.

The committee also designated that Ray's name be substituted for Nicewarner's on the Democratic Primary ballot, since the deadline for filing names had passed.

Survivors include the wife, a daughter 4, a son 2, and his parents who live in Sundown.

Mrs. Lera Cloud, mother of Peggy, a brother Bertis Cloud and an uncle, Pete Todd, left Saturday night to make the trip to Globe.

Arizona Rangers, with helicopters, were still searching Roosevelt Lake, near Globe, Arizona, Wednesday, for the body of a 30-year old Sundown man, Kenneth L. Cooper, who drowned, with his brother Saturday.

He is the husband of the former Peggy Cloud of Morton.

Kenneth, and his brother, A. E. Cooper of San Manuel, Ariz., drowned when one fell into the lake and the other tried to rescue him, and both were sucked beneath the water near the intake of the Roosevelt Dam, where water is diverted through turbines to generate electricity.

The Arizona brother's body was recovered shortly after the mishap and services were held Tuesday.

Kenneth, who was vacationing with his family, and a third brother, R. A. Cooper, had arrived at Globe Friday. He was an employee of Texaco, since 1952, and was a pumper in the area oil fields.

## Officials to Check On Route of Hi-way Extension

County Judge Glenn Thompson said this week he, and possibly the entire Commissioner's Court will go to Austin next week, to attend a hearing in a proposed extension of U. S. Highway 82, west into New Mexico.

At the present time authorities are debating on whether to go through Brownfield and Plains, or whether to route the highway through Levelland to Whiteface, Lehman, Bledsoe and thence southwest to Lovington.

Judge Thompson said of local talk about trying to get the route through Morton that it would appear the plans have gone much too far for that, but the court will check on all of the project plans. He said he was sure Commissioner Leland Seifres of Precinct Two and Herral Rawls of Precinct Three would make the trip, since one of the proposed routes would be much to the advantage of Whiteface, Bledsoe and Lehman.

## INDIANS THIRD IN DISTRICT TRACK MEET

The Morton Indians climbed up one rung on the ladder in District track competition in their second year in Class AA . . . finishing third in the District 2-AA track and field meet at Lubbock, Thursday.

True, the Indians were a distant third behind Muleshoe and Abernathy who battled out for the title, but the Indians, with a vastly limited group of entries, amassed 81 points and qualified a good contingent of men for the Regionals at Lubbock next week.

Morton managed only one first place in the meet . . . it being a team triumph in the mile relay. They won that one handily by a 25 yard margin.

The Indians two chances for and actually expected victories in other events both went by the boards. Gary Willingham came up under the weather, and just couldn't cope with Lockney's Lewis Eiland in the 880-yard run.

Morton's Murvin Gathright caught himself listening too long to the breathing gasps of Muleshoe's Cabrera who had dogged him most of the way in the mile run. Murvin, hearing Cabrera's breathing becoming difficult, had convinced himself that he had beaten the plucky Spanish boy, when Cabrera flashed around him in the final 50 yards and grabbed a victory before Gathright realized what had happened.

But if Morton had it's bad moments in the meet, it also had its highlights. Two Morton boys given little chance to win in the district competition tied for first in the pole vault and high jump, and both, flipping coins with their other competitors for the right to send only two of them to the regionals, won one of the two spots.

Bob Pyburn tied with a 9 foot pole vault and won his coin flip and Charlie Silhan got a 5 foot 4 inch high jump for his three way tie and won his flip.

In addition Silhan looked fine running on the relay team. In all Morton qualified about

**Farm Outlook Takes Shape**

The vague outlines of Washington farm legislation for the 1960's is beginning to appear dimly in patterns of controversy, and a

better idea of what to look for next might be gained by glancing at what has happened in the past three decades. Each of these three decades has been marked by different and distinct attitudes in Washington toward the problems of agriculture. Going back to the 1930's, the decade of the Great depression,

there was an economic disaster that stifled the entire economy and pushed one out of every four farmers into bankruptcy. The problem then was strictly a dearth of markets instead of excessive production, and the Washington remedy was to plow up crops, kill little pigs and put the government into the cattle buying

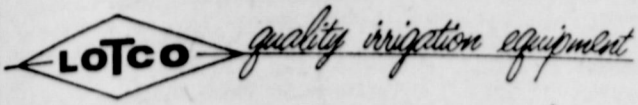

business. The beginning of the 1940's saw the technological revolution in farm production coming to the front, producing what at that time appeared to be huge surpluses. But there was war and post-war recovery that took up these apparent surpluses, with high prices encouraging maximum product-

ion. Prices went up from 38 percent of parity in the 1930's to 123 percent parity in the 1940's. But in the 1950's the vast increases in production again developed serious surplus troubles. Eventually, in 1955, a Democratic Congress gave the Republican Secretary of Agriculture the authority to flex price supports bet-

ween 75 percent and 90 percent of parity for basic crops. This was done on the theory that since high supports had encouraged excessive production, lower supports would cause farmers to reduce production. The theory, however, has not yet been borne out by the facts, with total farm production con-

tinuing to set new record highs year after year. This year, the best collective thinking of Democratic farm-minded congressmen perhaps is reflected in the "Family Farm Income Act of 1960" by Rep. Bob Poage (D-Tex.). The bill is not expected to pass this session of Congress, but it indicates what can

be expected next time if the Democrats retain control in the House and Senate. It has two fundamental aims: First to strengthen the income and security of family farms; second, to provide farmers with a variety of programs from which to choose. It is based on higher price supports with production under strict controls.

# Senator YARBOROUGH'S ★ REPORT ★

Few international issues have stirred the interest of Texans as deeply as the recent recommendations of President Eisenhower and Vice President Nixon that the Connally Reservation be repealed.

As many of you recall, in 1946, the Senate passed a resolution joining the International Court of Justice — the so called World Court — except that the court was not granted jurisdiction in domestic matters in the United States. Texas' great and beloved Senator Tom Connally amended the Court resolution to provide that the United States retain full authority to decide for itself which cases were within its own domestic jurisdiction and which ones should go before the World Court.

Both the President and Vice President Nixon have urged the Senate to adopt a new resolution which would appeal Senator Connally's reservation. In other words, they would give the World Court, instead of our nation, the power

to decide what matters were our domestic matters and what matters were international and therefore within the jurisdiction of the World Court.

The American Bar Association endorsed the Eisenhower - Nixon recommendations in their efforts to substitute a World Court and a rule of law for force or for diplomacy as a method of settling disputes between nations. I agree with their objectives but think the method of doing it now unsafe.

Most Texans and most Americans who have written me on this matter strongly believe that extending this additional power to the World Court would be giving away a part of our American sovereignty — our right to run our own affairs, our right to decide what we will do here at home on local domestic American issues. Most of you who have written are concerned that granting this additional jurisdictional power to the World Court might abridge the constitutional guarantees written out in our Bill of Rights for American citizens.

On the other hand, those who favor the repeal of the Connally amendment, say that the greatest hope for world peace lies in a World Court where issues of law can be settled with reason and justice.

In studying this matter, I have availed myself of Senator Connally's views. He was Chairman

of the Senate Foreign Relations Committee when we joined the World Court. Senator Connally believes that it is just as important today as it was the day we joined the Court that his amendment be retained.

Under present world conditions, I agree with Senator Connally, and I will vote to retain the Connally amendment. As a lawyer and former judge, I too believe in the rule of the law in this world, but I favor without equivocation the United States' retaining power over all its domestic affairs, and I will never vote to give up to another country the running of our own local or domestic affairs.

### Three Way Swamps District Foes In Track Meet Held At Levelland

Three Way literally ran away with the District 5-B track and field meet staged at South Plains College Wednesday afternoon.

The meet was moved up from April 12 in a fast switch the afternoon before in order for 5-B to get its regional contestants certified earlier.

Although Three Way successfully defended its title with a whopping 204 points the strongest showing of the afternoon was made by Bula's one man team, Norvel Roberts.

Roberts bagged 48 points to take individual honors as he won the 100, the 200, the 440, the broad-jump and placed second in the shot put.

He failed to break either of the records he currently holds as he did the 220 in 23.4 as opposed to his 1959 standard of 22.7 and turned in a 55.2 in the quarter to leave his 1959 time of 53 flat on the books.

However, Roberts did set a new 5-B broad jump mark with an 18'10" leap which takes the place of Coda Stephenson's former 18'7" record for Whitharral in 1957. Whitharral has since joined 5-B for track.

Records in the sprint relay and pole vault also fell as the Three Way team of Butch Tucker, Larry Dupler, Bailey Griffith and Carter Williams turned in a 48 flat to erase the old mark of 49.2 by Whitharral in 1957 and Tom Byars of Three Way vaulted 9'6" to shatter the old 9'3" record.

Three Way also won the mile relay with the same foursome in 3:45.5, missing the old record by only seven-tenths of a second. In team points Pettit came in second

**"QUICK MEALS" NEW EXTENSION BULLETIN**

If you are an average homemaker, you spend about a third of your time in planning preparing and serving meals. Of course, some homemakers spend more time on food preparation than others. Size of the family, elaborateness of meals and the convenience and use of kitchen equipment influence the money spent on meals.

You can have colorful, appetizing meals in minimum time and with less energy if you plan and manage them properly. To help homemakers with the job of meal planning and management our Extension Food Specialists have written a new bulletin entitled, "Quick Meals".

The specialists give four pointers as to what makes a good meal. They are: use foods that vary in flavor, color, texture, size and shape; they should be of good quality, appetizing and prepared so as to save food value; foods should be served attractively; and a pleasant atmosphere should be present to help the family enjoy meal time.

Better use of time by menu planning is discussed. Some suggestions are: serve fewer and well prepared foods in generous amounts, use foods that can be cooked together, such as pot roast and vegetables, and plan dishes which require a few ingredients.

The bulletin contains many menu plans for quick meals, such as oven meals, one dish meals, broiler meals, top-of-the range meals, and meals from the freezer. All these recipes have easy to follow directions.

Contact this office for a copy of the bulletin.

# CHEVY! YOU CAN'T BUY ANY CAR FOR LESS UNLESS IT'S A LOT LESS CAR!

Anyone who's looked around knows the majority of Chevrolet models—6's and V8's together—list for less than comparable models of other low-priced cars. But the price tag alone is only one of a whole raft of reasons a Chevy does better by your dollars.

Nothing near Chevy's size and price can match the Full Coil cushioning of its ride, or the fine, finished workmanship of its Body by Fisher. That even applies to some cars that cost a lot more. You're up in the higher price brackets before you find a car that moves as quietly as a Chevrolet or offers the inner space that Chevrolet does.

Or look at the extras Chevy gives you—at no extra cost—that others in its class can't offer at any price. Shock-cushioned steering. Safety Plate Glass in every window. Keyless locking of all doors. Crank-operated vent windows. Chevrolet offers the widest choice of power teams, too. Drive a Chevy just once. You'll have a tough time settling for anything less.

**County Temporary Chairman Is Appointed To Conduct Study of Needs of Aged for White House Conference**

Appointment of Glenn Thompson to serve as temporary county chairman on the Governor's Committee, White House Conference on Aging, was announced in Austin this week, jointly by Governor Price Daniel and State Senator Crawford C. Martin of Hillsboro, steering committee chairman.

Work on the state level will be directed by a steering committee of nine prominent Texans associated with agencies concerned with problems of the aged, and an advisory body of some 150 Texas citizens.

Senator Martin said county chairmen will be responsible for forming county organizations to gather information and make recommendations on the aging problem at the community and county levels.

He said that grassroots studies are necessary to ascertain the extent of income, employment, health, housing and other needs of the ever-increasing number of older people in Texas and throughout the country.

The Texas study as well as those in other states, is being made by authority of a 1958 act of Congress. The act calls for a White House Conference on Aging to be held in Washington in January of 1961, as well as for local surveys and for state conferences in advance of the Washington meeting.

The announced goals of the project - nationwide, statewide and on the local level - he said, are several.

1. To motivate members of interested organizations to work together in solving common problems of older people.
2. To encourage organizations to study their own work and determine how the needs of the aging and aged can be met more effectively.
3. To correlate public and private services to aging in many fields, including counseling on family relationships, jobs and housing, nursing homes and recreational programs.
4. To find ways to help older people continue to grow mentally

and spiritually.

5. To examine public programs for the aged and determine whether revisions or alterations are needed.

Senator Martin said the county chairmen are free to determine ways and methods of studying the resources and needs of the senior citizens in their communities, and that announcement of local plans would be made soon.

He urged people interested in the project - especially lay persons and those directly concerned, the aged themselves - to contact their county chairmen for details of the study.

Where to LOOK for CLUES... RULES

Clues may be hidden in ANY ad in this group ad. When a "Star" appears in any of these ads, it means that additional advertising for that merchant appears elsewhere in this issue of the Morton Tribune, and additional clues may be hidden in any of those ads, also!

Clues will be scattered... there may be from one to five clues in any ad... or none. This is a contest of skill... and we intend to do our best to outwit you. We invite you to do your best to outwit us!

RULES

1. This is a family fun contest. Entries welcome from every member of the family old enough to fill out his or her own. You may submit one entry per person at any or all of the Sponsoring Merchants whose ads are in the row that is heavily bordered this week... but only one entry per person at any one store (more than one will disqualify all entries of that person for that week). Anyone can enter unless a member of your family is employed by the MORTON TRIBUNE. Sponsoring merchants, their families, (and their employees and families) are most welcome to enter EXCEPT during weeks that entries are brought into the Sponsor's place of business.

2. Nothing to buy. Use any slip of paper for entry blank. DO NOT put your entry in an envelope. Not necessary to be present at the drawing to win.

3. WHO'S WHO may be anyone in the Morton trade area. Clues to his or her identity will be hidden ONLY in ads of Sponsoring Merchants (this means any ad in this section or any ad of the same merchant elsewhere in the paper). When star (s) appear in any ad in this section, it is your warning that other ad (s) of the same merchant (in which there may be clues) appear elsewhere in the paper. Clues will be scattered... many ads will have no clues while others may have as many as five. Beware of false clues; there may be some! This is a contest of skill and we intend to do our best to outwit you. We'll be delighted if you succeed in outguessing us, in spite of our best efforts.

4. If, by coincidence, the name of WHO'S WHO (or other facts about him or her) happen to appear in news items, editorial matter, or other places in this newspaper, these will not count as clues.

5. To enter, write down the name you think is WHO'S WHO. List all the clues you can find in all the ads of the Sponsoring Merchants in this issue. Don't forget your own name and address! Then drop your entry at the business location of any Sponsoring Merchant WHOSE AD IS BETWEEN THE HEAVY BORDERS IN THIS SECTION. You may enter at all four if you wish. There are no other places where entries will be accepted... and MAIL ENTRIES WILL NOT BE ACCEPTED.

6. This week's contest starts when you receive this issue, and closes at 4:30 p. m. Tuesday of the following week. At that time (4:30 p. m., Tuesday) a drawing will be held. The first entry drawn that correctly identifies the WHO'S WHO will win \$10.00. If THAT entry also lists every correct clue, (and no false clues) hidden in all ads of Sponsoring Merchants, the Bonus Jackpot of \$36.00 will be given. Whenever this bonus is not won it will be added to next week's BONUS... which will continue to grow until it is won! Winning the BONUS requires a PERFECT list of correct clues... the exact number and all copied correctly. Family participation gives you a better chance to win the jackpot. Your wife, husband, or some bright-eyed youngster MAY spot a clue that you miss! Got any detective blood in you? Think you can outwit us? Remember you can't win if you don't enter... Fix up your entry NOW!

**THREE WAY SENIORS  
HONORED WITH BANQUET**

A banquet honoring the seniors of Three Way high school was given at the gym Saturday night with the WMU of the Maple and Three Way Baptist Churches assisting.

The theme for decoration was Easter. At the head table was a miniature church. The other tables connected to the head table and represented graveled paths to the church door. "People" made of eggs and dressed as men, women and children were dotted along the paths, on their way to church.

Members of the WMU prepared the food. The menu consisted of spiced apple cider, pineapple and cheese salad, ham, potatoes, peas, corn, hot rolls and butter, pecan pie and tea.

Seventh and eighth grade girls from the two churches served.

Supt. Archie Sims read the invocation, Charles Bowen, high school principal, gave the welcome address, and Rev. Hardgrove sang, "How Great Thou Art", accompanied at the piano by Mrs. Hardgrove. Bonnie Bateas and Elizabeth Dupler, both graduates of Three Way and now attending Wayland College, spoke on Christian Education.

Roland Nitcher of Tahoka was in charge of the recreation period and ended it with group singing and a solo medley.

**Agt. Recommends  
Spraying of  
Peach Trees**

The County Agent's office has been contacted many times in the last few days regarding the control of the caterpillar larvae and other larvae on peach trees, which are heavily in bloom. Every year peach trees should be sprayed four times at three week intervals beginning at the bud stage. If you haven't started, I would start immediately and spray four times at three week intervals, said the Agent.

The control of this larvae may be obtained by spraying with one of the following compounds. Use the wettable powder in each compound, as that means it is soluble in water. CONTROL - 1 pound of 25 percent parathion; 2 pounds of 50 percent DDT or 5 pounds of 40 percent toxaphene wettable powder per 100 gallons of water. An application of 3 pounds of lead arsenate per 100 gallons of water also will provide effective control.

Be sure to get entire tree wet with spray.

Massey of Pilot Point in North Texas was elected vice-president, and Wilmer Smith, of

New Home near Lubbock, was named chairman of the executive committee.

Cotton ginners from the four corners of the cotton belt swelled convention attendance above 5,400. The meeting was held during the Association's gin machinery and supply show.

Walsh appointed E. E. True of Corpus Christi to the executive committee. Other members re-appointed were Smith, immediate past-president Robert L. Horton of Abilene, Massey, Jack Funk of Lyford, Jake Capriellan of Crockett, C. L. Walker, Jr. of Temple, R. K. Phillips of Sugarland, Roland Kelley of Stamford, Orville Bailey of Anson and Walsh.

### Muleshoe Man Denied Mexican Workers

Regional Director Tracy Murrell of the Department of Labor's Bureau of Employment Security in Dallas, said last week that Jimmie Presley, user-member of the Western Farm Labor Association, Muleshoe, Texas, had been de-

clared ineligible to use Mexican agricultural workers.

The decision did not affect the eligibility of the Association, Mr. Murrell said.

Mr. Presley was advised of the decision to make him ineligible

because of his failure to maintain employment records and because of his unauthorized use of a worker while under contract.

The decision was based on Article 11 of the Migrant Labor Agreement which provides that an employer may use Mexican workers only in authorized agricultural activities.

### Nubroot Reduces Cotton Yield By 26 Percent

Deterioration of the embryo roots within cottonseeds is probably the principal cause of nubroot — a condition which can reduce yields by 25 percent, according to Harlan Smith, extension plant pathologist.

Cotton plants with nubroot are weaker and set fewer bolls than normal plants, tend to wilt readily, and may topple over during periods of moisture stress. In some years this condition results in a big loss for Texas cotton producers.

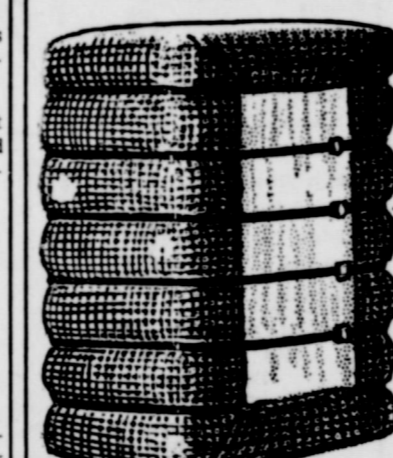

Scientists of USDA's Agricultural Research Service traced nubroot to seed deterioration after noting that many seedlings grown from deteriorated seeds had injured radicles or primary roots. It had previously been found that high temperature and humidity during storage damage the embryo plants within cottonseeds and that seedlings grown from such seeds are less vigorous than normal. It is known, Smith said, that nubroot is a part of the cotton seedling disease complex when caused by fungi.

The condition may also be caused by strangulation of roots by soil compaction or hardpan, or damage to seedlings by soil fungi, the pathologist said. Nubroot occurred in plants grown from deteriorated cottonseed, however, when neither soil conditions nor fungi was a contributing factor.

As a test, scientists selected 100 seedlings with damaged radicles and grew them in sterilized soil along with 20 normal seedlings. Examination of half of the plants six weeks later and the other half three months later showed that all the seedlings with damaged radicles grew into plants with varying degrees of nubroot. The normal seedlings produced plants with normal taproots.

These results, Smith added, show the importance of finding adequate tests to determine the degree of deterioration of seed as a means of improving stands in cotton.

## LIQUID FERTILIZER Is Best

Meet Mr. Homer Barron, one of Terry County's top farmers

Homer Barron . . . 4 Miles Northwest of Meadow

"It's best for me . . . I didn't realize how easy and convenient fertilizing could be until I changed to LIQUID FERTILIZER. At the present time I am putting down 16-16-0 at the rate of 265-lbs. per acre. With my 3-row rig we are covering about 45 acres a day. It's so simple to apply that I hardly

ever go about the rig — my driver has very little trouble with it . . . and since it is a 'service station' type of operation, only one man is actually needed to get the job done. Yes sir, it's 'King' with me. I only wish it had come along sooner," said Mr. Barron.

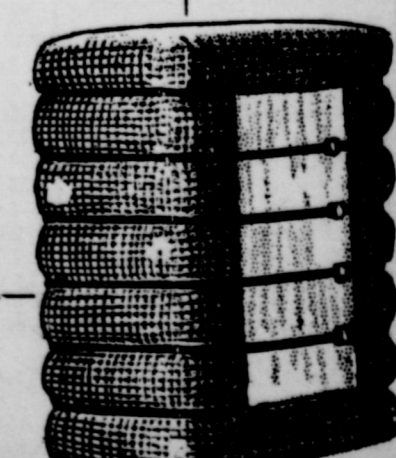

Mr. Barron has a progressive-type farming operation. When you visit his farm you see "Soil Conservation Practices" in action. His fields are neatly and properly terraced, turn-rows are well maintained and the ends of the rows have been seeded to rye to prevent blowing. It is Mr. Barron's type of farming that has helped Terry County come from a \$2,000,000 to \$30,000,000-year agricultural income in the past few years.

**Years ahead in style... that's why Ford is far ahead in sales!**

The "bug" bites thousands of people every week. They've been driving high-priced cars year after year. But suddenly they sprout out in 1966 Ford Galaxies, pleased and proud as punch. They're switching to Galaxy because they want that years-ahead Thunderbird look, with a glamour and grace that won't ever wear thin. They're going for Galaxy because Galaxy gives them—in look and in deed—an elegance denied to all but costlier cars. And Galaxy gives them all this for far less than what they've paid in the past... plus a high resale value! And these same values are crafted into every car we sell—from Thunderbird to new Ford Falcon! Come let us prove it!

**MORTON CAPTURES ONE INDIVIDUAL, ONE TEAM FIRST, PLACE IN DIST. 2-AA SCHOLASTIC CONTESTS**

Morton had one first place team in the high school District 2-AA TIL scholastic contests held at Muleshoe last Friday. Verrett and Lenore White placed first, but oddly enough, since team competition in typing is not held on a regional level, none of the three girls will get to go to the regionals in typing, because none placed in the top two individual standings. Morton did have some Regional qualifiers however, and they will go to the Regional meet at Lubbock next week.

**LOCAL BOYS WIN DIST. 2-AA GOLF TITLE**

Morton's golfers won the District 2-AA championship here Tuesday by a handy margin over teams from Muleshoe and Olton to advance into regional Class AA play. Coach Bob Travis' top four men entered in the meet, played on the Morton Country Club course, carded an aggregate total of 372 to defeat their nearest competitor Muleshoe, by 29 strokes. Muleshoe's low total was 401 to beat out Olton that posted a 419.

Medal winners, first and second place in the individual scores, went to Terry Hans who fired an 85 over the par 70 layout and Jimmy St. Clair who came in with a 90, both from Morton. St. Clair barely edged Morton's Willard Cox who had 91.

Muleshoe's Danny Gundsteam had a 96 and Joe White had a 99 for their top twosomes. R. Duncan of Olton placed fourth with a 95.

The weather was extremely blustery as the day wore on and the high winds ruined most of the lads scores.

The regional competition will be at Lubbock next Friday, April 22, with Morton's and Muleshoe's teams making the trip. Each will take five boys, with the top four scores comprising the regional team total.

Here's the way the scores were compiled by the nine Morton, nine Muleshoe and five Olton boys who competed:

Terry Hans (Morton)	85
Jimmy St. Clair (Morton)	90
Willard Cox Jr. (Morton)	91
R. Duncan (Olton)	95
Danny Gundsteam, (Mshoe)	96
Joe White (Mshoe)	99
John Douglas (Olton)	100
Wayne Malone (Mshoe)	104
Don Gardner (Mshoe)	105
Larry Dupler (Morton)	106
Mike Connell (Mshoe)	106
Robert Gamble (Mshoe)	107
Jerry Trice (Morton)	108
Johnny Schenek (Olton)	110
Bill Bovell (Mshoe)	110
Kenneth Splawn (Mshoe)	113
John Hair (Olton)	114
Randee Buchenau (Olton)	119
Dewayne Miller (Morton)	120
Sammy Carrasco (Morton)	124
Frosty Jones (Mshoe)	127
Bill White (Morton)	131
Bob Nieman (Morton)	144

Norma Flanagan won first place in the individual shorthand ratings and will represent Morton in the regionals. With her team-mate, Rita Kern, the Morton girls placed third as a team in shorthand. Jerry Taylor and Penny Farmer tied for second in number sense and will also get to compete in the regionals. In poetry reading, Mary Ruth Coon was third. Our spelling team of Carol Carter, Glenda Ford and Lois Courtney placed third. Calvin Howell failed to place in the boy's declamation. Peggy Reed and Bobby Nieman entered ready writing but failed to place.
