THURSDAY, DECEMBER 1, 1966

VOTE Mail-out referendum fixes fate of cotton research

Forms to be returned Jan. 1

The Veterans Administration is sending up eight regional centers to key personnel and training them to make it easier for more than two million veterans and their dependents to return annual income questionnaires, Jack Coker, director of the VA Regional Office in Waco said today.

The VA mails these income questionnaires to all pensioners, and dependents who receive dependent and indemnity compensation. These payments are based on income.

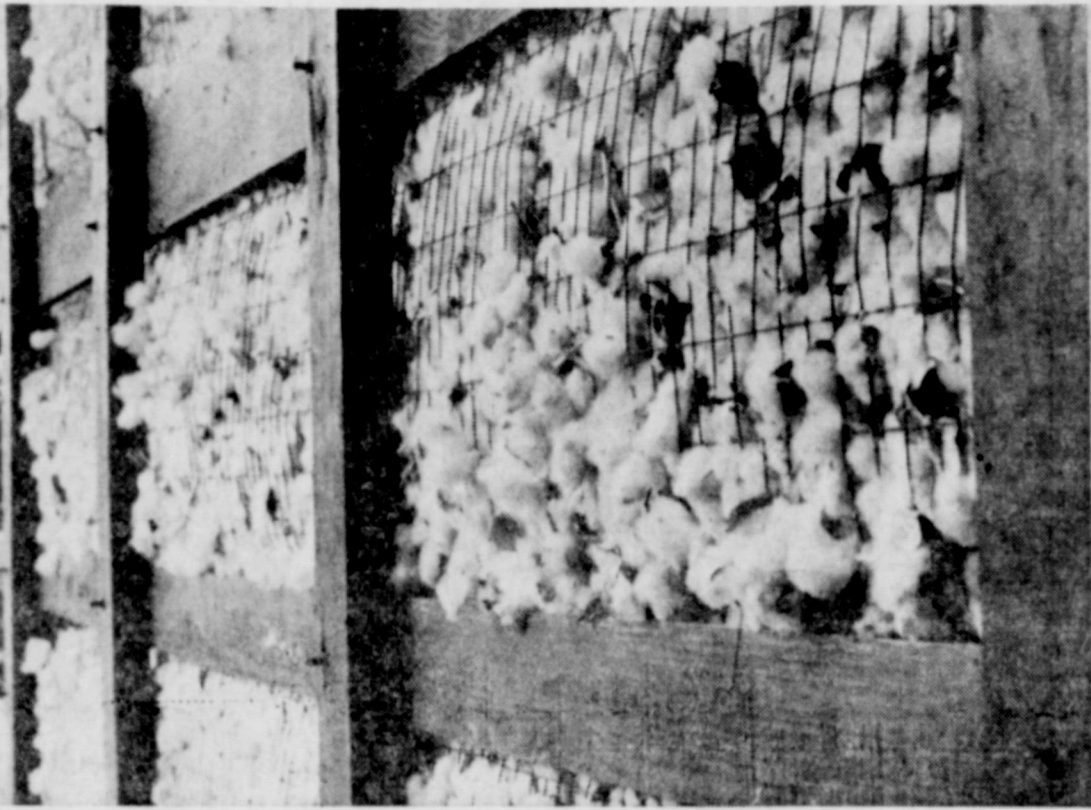

The questionnaire form will be mailed out with the November checks, normally received early in December.

The forms must be returned by January 31, 1967, or those pension rolls face the possibility of having payments stopped.

The form, which bears the recipient's address, must not be mutilated, altered or cut because it will be processed several times through automatic equipment.

The processing centers will be located in Philadelphia, Atlanta, Boston, Chicago, Los Angeles, St. Paul, Dallas and Washington.

Persons in Cochran County desiring assistance in filling out the forms should check with Walter Bledsoe in the Sheriff's office.

The last trailer . . .

THIS TRAILER OF COTTON may be the last one of the season and may be one of the last ones on the High Plains, depending on the outcome of the cotton referendum vote to

be held Dec. 5-9. The vote will determine whether cotton producers will assess themselves \$1 per bale for cotton research and promotion.

TRIBPIX

Cochran County cotton producers will join with other local, state and national cotton producers in a mail-out referendum vote beginning Dec. 5 to decide if they will impose upon themselves a \$1 per bale assessment for research and promotion.

The referendum may be passed two ways. First, by a yes vote of two-thirds of all growers who vote in the referendum. Second, by a yes vote of over 50 percent of those voting who also produce two-thirds of the cotton represented in the referendum.

If the growers approve the order, a Cotton Board of about 20 members would be selected by the Secretary of Agriculture from names submitted by approved cotton producer organizations to administer the program. Texas would have four regular members.

The Act also makes special provision for any cotton producer who does not want to participate in the research and promotion program. A grower could obtain a refund of the \$1 bale assessment by making application within 90 days from the date of ginning. The refund will be made within 60 days after demand.

Cotton-producing states will be considered the following states and combinations of states: Alabama-Florida, Arizona, Arkansas, California-Nevada, Georgia, Louisiana, Mississippi, Missouri-Illinois, New Mexico, North Carolina-Virginia, Oklahoma, South Carolina, Tennessee-Kentucky, and Texas.

Producing organizations within each state will caucus to make nominations of members and alternate members of the Board. Two persons will be nominated for each member and alternate member position. If unanimous agreement on any nomination is not reached, each organization may nominate two persons for that position.

Members of the Board will serve for 3-year terms, with expiration dates of the terms being staggered to assure that about two-thirds of the members representing each region at any time will be experienced. These members will serve without pay but will be reimbursed for necessary expenses incurred in performance of their duties.

The Cotton Board will administer the order, and will, subject to the approval of the Secretary of Agriculture, make rules and regulations to carry out the order.

The Board will also designate the handler responsible for collecting the \$1 per bale producer assessments, investigate and report violations of the order of the Secretary. They will also recommend to the Secretary amendments to

December calendar girl . . .

SURROUNDED BY SHIMMERING slivers and blobs of light is our pretty calendar girl for December, Lynda Thoms of Bledsoe. Lynda is trying to beat the last minute Christmas rush

by decorating her metallic tree just a little bit early. And, judging by the twinkle in her eye, she has probably already turned in her request for a Christmas present.

TRIBPIX by George Tuck

Christmas Sparkle' theme of tea

The open house tea with the "Christmas Sparkle" theme will be held by the Cochran County Ladies Club, Sunday from 2:30 to 3:30 p.m., in the home of Mrs. W. B. McSpadden, 602 E. Gar-

field. Flower arrangements, made by garden club's members will be placed throughout the house and will be offered for sale at various price levels. Also, door prizes will be given away.

Mrs. McSpadden said that each member is requested to make

three arrangements. However, they may substitute baked goods or needle work for the arrangements.

Refreshments will be served. Tickets, priced at 50 cents, will be available from any club member or may be purchased at the door.

The club is also sponsoring a Christmas lighting contest with plaques being given in each of the two divisions. The divisions include religious and non-religious and include door, window and outdoor decorations in each category. There will also be a commercial

category with three prizes. Plaques will be given for the first, second and third place winners in each division.

Entry fee is \$1 and may be paid to Mrs. Kenneth Thompson, chairman of the contest, or to any member. The contest will be judged December 12.

Charity Fund asks Yule donations

Christmas is almost upon us. This year, more than ever, there will be need for help to the needy. As in previous years the Morton Area Ministerial Alliance will provide boxes of food and toys for the many who would have no decent Christmas meal or any toys for their children without our help.

The Bible tells us that Christians were easily recognized by their concern for all men. "See how these Christians love one another," are the words in the Scriptures. The ministers of Cochran County remind all the people of this area that this Christmas they have the chance to publicly and openly show how they love those less fortunate by helping with gifts of money, canned goods, and usable toys.

Such gifts and donations may be brought to ones own church or to any of the participating churches in Morton. The participating churches are the Assembly of God, St. Ann's Catholic, First Baptist, Missionary Baptist, Methodist, the County Line Baptist, and Bledsoe Baptist.

Remember the words of Jesus himself, "Whatsoever you do to these the least of my brethren, that you also do to me." See Christ in others. Help Christ by helping others.

Parade

For the umpteenth time, Morton's Christmas parade has undergone a change. As it now stands, the parade will get under way Thursday afternoon at 4:30, with the formation starting from the high school. The parade route will basically follow Main street and will wind around the courthouse square.

Long distance rates to be lower

Reduced long distance rates for most station - to - station calls within Texas will become effective January 1, 1967 for customers of General Telephone Company of the Southwest, Southwestern States Telephone and Four States Telephone Companies, according to E. H. Danner, president of the three companies.

State-wide reductions on three minute calls vary from five to fifteen cents on most station - to - station calls over 56 miles in distance within Texas. Reductions for calls over three minutes are even greater, according to Danner. The reductions apply to calls made during the time when "day rates" are in effect as well as to all interstate (within Texas) station-to-station calls made during the "night rate" hours after 8 p.m. and all day Sunday.

The new tariffs reflecting the reduced rates will be distributed to all offices handling long distance calls at the earliest possible date, Danner stated.

HOUSING Urban Renewal possibility started by City Council

A marathon session for the Morton City Council, Monday, ended with a resolution "finding and declaring that there exists a need for the housing authority of the city of Morton to function." This means basically that the council has found a need for an urban renewal program.

The program, financed mainly by the federal government, would provide low-cost housing for those people who are unable to find adequate housing on the present market. However, before the program can be implemented, a housing authority must be formed, survey made, and the need proven on paper and approved by the government.

Earlier in the day members of the city council, Chamber of Commerce manager Leon Kessler, Jay-

cee president Cleve Bland, and a press representative met with Bill Grasavage, Urban Development representative from Fort Worth, to discuss various phases of the Urban Development project for Morton. Grasavage said that the project to build low-cost housing would be financed 75 per cent by the federal government and 25 per cent by the local government, with the latter getting credit on the 25 per cent for recent city, school or county improvements completed or started within the city limits.

Much of the morning get-together was centered around the program, how it was to be started, financed and managed, and exactly what federal programs Morton could participate in. Two types of housing are under consideration in the program: regular housing and

housing for the aged. More than likely, both types will be built if Morton decides to accept the program.

See HOUSING, Page 2

Cold weather slows down cotton harvest

Cold weather and a lack of cotton has generally slowed the harvest down to a snail's pace this week. Other items, such as maize and broom corn, have already been harvested for some time.

The excellent weather conditions over the past few weeks have enabled farmers to finish up to 85 percent of their crops. On the cotton scene, W. K. Palmer, in charge of the Lubbock Cotton Classing Office of the USDA, said that the three South Plains offices classed 275,000 samples during the week ending Nov. 26. This brings the

total classed this season to 709,000. The three offices had 195,000 unclassified samples on hand on Friday. This brought the total classed and received by the three offices to 904,000.

Middling Spotted was the predominant grade at Lubbock last week with 24 percent of all cotton classed. Middling Light Spotted made 22 percent. Strict Low Middling Light Spotted 22 per cent, Strict Low Middling Spotted 17 per cent, and all Tinged grades seven percent. Eleven percent was reduced in grade because of bark. Staple length continued to average between 15/16 and 31/32 of an inch. Eighty-one percent of all cotton classed at Lubbock last week was 15/16 and longer.

Eighteen per cent of the cotton "miked" in the Lubbock office was in the 3.5 and higher micronaire category, 12 per cent "miked" 3.3 and 3.4, 29 per cent was 3.0 through 3.2, 30 per cent 2.7 through 2.9 and 11 per cent 2.6 and below.

The Consumer and Marketing Service of the USDA reported increased trading in the new crop cotton with prices steady. Average prices for the predominant qualities in the 3.5 to 4.9 micron-

Housing

from Page One

Other Urban Development programs were discussed at length, they being park, conservation and downtown developments. However, it was decided to concentrate on the development of low-cost housing for the present time.

The regular session of the City Council had a rather brief agenda, but the meeting stretched into a four-hour marathon. The majority of the time was taken up by Joe Bill Pierce of Pierce, Norris, Pace & Associates of Midland.

Pierce was also interested in the urban renewal project, but from an architectural and engineering stand point. He said that his firm would help the city council and housing authority through the paper work necessary to implement an Urban Development project if they were given a chance to do the architecture and engineering for the housing. Pierce also said that there would be no cost to the city for the paper work and survey if his firm was given the contract for the building.

However, if the housing authority decided not to build, even if the survey showed a definite housing need, the city would only be out the engineers' expenses. Pierce then showed slides of various low-cost housing units his firm had done for Urban Renewal projects in Stanton and Rotan.

He stated that occupants usually stayed only four years in the low-cost housing because they soon got on their feet, financially, and bought or rented better housing. The slides showed both the inside and outside of the housing units, which in most cases were duplexes and which were designed to be as individual looking as possible.

Pierce said that with the exception of housing for older residents, the housing units were set up as duplexes, spaced as far apart in the block as possible. Housing for older residents are spaced closer in order that they can help each other more.

After more than three hours discussion with Pierce, the council voted in favor of the resolution that the housing authority function. Mayor Jack Russell will appoint five people to form the housing authority which will in turn hire an executive director to administer Morton's housing project. The authority and the director will function together to plan, build and administer the housing.

The people of Morton will need to approve the program before it can begin. This will be accomplished through a referendum vote, which will take place in a few months.

In other action, the council was

Check for the firemen . . .

presented with an application for a franchise for cable TV by Don Hancock and associates. The application asked for a franchise for a total of 10 years after construction of the equipment first begins. The construction will begin within five years after Hancock gets a pole agreement signed.

The pole agreement asks for permission to string cables on poles owned by Cochran Power & Light and General Telephone. This permission must be given by the companies themselves. The council tabled the request until next meeting.

The council then discussed the possibility of making Strickland Lake into a city park. However, of the four-acre tract which makes up the lake and surrounding land, all of which is inside the city limits, Strickland is only willing to give the city two acres. The other two acres are offered to the city for \$5,000.

After much discussion as to how much work, money and land it would take to make the lake into

The meeting adjourned about 11 p.m. Present were Mayor Russell, E. C. Seaney, Earl Stowe, Donnie Simpson and W. L. Taylor.

budgets developed by the contracting organization.

The Dept. of Agriculture says that research may include projects and studies on production, ginning, processing, distribution, or utilization of cotton and its products. Promotion may include projects for the advertising and sales promotion of cotton and its products.

At a meeting for county agricultural agents Sid Jenkins, Extension marketing specialist at A&M said that Texas and U.S. cotton is faced with two tough competitors — foreign cotton and man-made fibers. He said that there was a record cotton carry over this year of about 17 million bales. Exports this year should total about 5 million bales, compared to last year's 2.0 million bales, which should reduce the record carryover some.

Jenkins said that the Texas cotton crop is down this year to about 11 million bales — smallest since 1957. Total consumption of cotton in the world is increasing, but per capita consumption is decreasing. And, a major problem is the declining percent of cotton's share of all fibers consumed in the U.S., he said.

In the thirties, cotton accounted for about 81 percent of the mill consumption in the U.S., but today it accounts for only 54.5 percent of mill consumption. Manmade fibers have gained most of the difference, he said.

Dr. Jame Kirby, Extension marketing and policy economist at A&M, told the group about \$770 million was spent last year for promotion of man-made fibers. That compares to \$4 million spent to promote cotton.

Kirby said research expenditures by the man-made fiber industry last year were \$135 million compared with total cotton research funds of just over \$26 million.

Dr. Kirby summed up his statements about the pros and cons of the cotton referendum by saying, "The decision you make in the referendum has two basic parts: First, do you think research and promotion aimed at increasing the sale of your cotton is the proper method to use to get a greater share of the fiber market? Second, if you believe increased emphasis on research and promotion will benefit cotton sales, then is the organization of cotton producers as proposed in the Cotton Research and Promotion Act acceptable to you as a way to raise the money?"

aire range were: Middling Light Spotted 29/32 - 18.30, Middling Light Spotted 15/16 - 18.75, Middling Light Spotted 31/32 - 19.25, Strict Low Middling Light Spotted 29/32 - 17.30, Strict Low Middling Light Spotted 15/16 - 17.80, Strict Low Middling Light Spotted 31/32 - 18.20, Middling Spotted 29/32 - 16.60, Middling Spotted 15/16 - 17.05 and Middling Spotted 31/32 - 17.05.

Prices paid farmers for cottonseed ranged from \$60 to \$74 per ton.

The Old Timer

"Nipping him in the bud won't stop the blooming idiot."

News from HD Agent

By JENNIE ALLEN, HD Agent

We are all consumers! Whether young or old, rich or poor, we make consumer decisions daily. In fact, we make the cash registers in the United States ring to the tune of 350 billion dollars annually.

No one knows how many unwise consumer decisions are made daily. However, we do know that many people don't take time to get the information they need for wise decisions. Some have no spending plans, so they make their decisions on the spur of the moment. Other consumers don't know where to turn for unbiased information.

Youth Market Booms

The business world is fiercely competitive in its race to control the market created by large numbers of children, teens and young adults growing up in an affluent society. By 1970, more than half the United States population will be under 25 years of age. Never in history have so many inexperienced, uninformed people had so much

money to spend, or been under such pressure to spend, or had a wider range of "buyables" from which to choose.

Indeed, the pressure to buy, easy credit, and the availability of an ever increasing variety of goods and services tax the "won't" power of the most experienced shopper.

To further complicate the problems of the modern consumer, youth or adult, modern technology has made familiar guidelines out of date. "All wool and a yard wide" is no longer the only measure of quality in the face of the development in man-made fibers, fabrics and blends. The most knowledgeable sheep would be hard pressed to recognize its product in a skirt washable with the family laundry and requiring no ironing.

Consumer decisions involve more than things. We consume education, travel, recreation and medical and dental services, as well as sweaters, motorcycles, records

and hot fudge sundaes.

The money our young people spend may be from their own after-school or vacation earnings, but it often comes from the family pocketbook. Teenagers generally don't want more than their ignorance, social insecurity and high pressure advertising may create demands the firmest parents find difficult to resist.

Many of these young people are on the threshold of establishing families of their own. Of the girls who marry this year, 60% will be teenagers. They especially need to be wise consumers because funds are usually limited.

Since few people can have everything they want, they must make choices. The wise consumer shops around to get the best buy — whether he's buying clothes or education.

Buy and Use Carefully

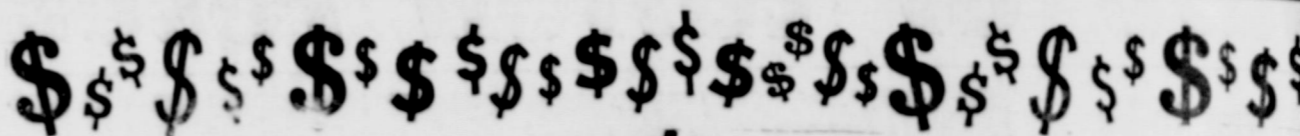

To get our money's worth, wise use and care of things we buy are as important as the original selection. A fine cashmere sweater can be ruined in one careless washing. The serviceability of a

good motor depends on its use and care. The Cooperative Extension Service includes consumer education in both its youth and adult programs. The information is disseminated through bulletins and programs, objective and covers a wide range of goods and services, as well as for the asking.

November 15-18 is National Consumer Education Week. All want to provide happy holidays for our families. This depends on more than the money we earn. It depends on how good a job we do as consumers.

Mrs. Ed Lloyd and her daughter, Stephanie, and Rodney, a student at South Plains University, are in town. Thanking with their Mr. and Mrs. O. B. Williams, Mrs. Ed Lloyd, Mrs. Brenda Westfield, Mrs. here Sunday to visit with grandparents, Mr. and Mrs. Williams.

County Agent's report . . .

By HOMER THOMPSON
County Agricultural Agent

Farm trailers

More farm trailers are usually on the public roads during this season than during any other period of the year. The reason is that the fall season is about the busiest of the year with harvesting, movement of crops and livestock to market, getting winter supplies, hunting season, and others.

A few simple precautions conscientiously applied when pulling a trailer can prevent many accidents.

Of foremost importance is the use of safety pins in hitch, whether a tractor, truck, or car is being used to pull the trailer. Sometimes only a slight bump in the road is all that is needed to cause an ordinary pin to pop out of the hitch, resulting in a loose trailer. Such an incident could be especially dangerous on a highway where other traffic is an important factor.

Improper loading can cause a trailer to "whip" dangerously from side to side. Placing most of the load toward the rear of a trailer will cause such a condition. Therefore, it is always best to place a greater portion of the load to the front when using a two-wheeled trailer.

Crop rotation

Most farmers during the weeks ahead will be considering their cropping plans for next year.

Plant diseases should be given a lot of attention. Research has

established the fact that many plant diseases become more severe as a result of continuous cropping to one crop or crop family over a period of time.

For example, if a field has been continuously planted to cotton and is heavily infested with cotton root rot fungus, one would consider using a member of the resistant grass family such as corn, grain sorghum or small grains in rotation.

Crop rotation programs are not "cure-alls", but when used in conjunction with other good disease control practices, they will lower disease losses caused by soilborne disease organisms.

Information on crop rotation plans are available from the offices of local county agents.

Pressurized cans

Those pressurized cans found in abundance around most homes and in the farm shop are potential bombs and the hazards involved should be recognized.

With cooler weather and the need for heat in homes and the shops, better take the time to make a check and see that none of the pressurized containers are stored near a heat source. The containers should be kept out of direct sunlight, away from hot radiators or other areas of high heat. ANY heat above 100 degrees, will create a definite hazard.

Reports from over the country every year show that serious injuries and even some deaths result from the explosion of pressurized cans. Heat is the greatest

danger involved. Cans placed in an incinerator or trash fire, though believed to be completely empty of paint, hair spray, or insecticide they once contained, will explode with great force and can cause injury should a person or pet be in range of the flying metal.

If no other safe method of disposal of such cans is available, they should be buried.

Field dressing

With deer hunting season just around the corner, hunters may be interested in a visit with the local county agent for a copy of Extension Leaflet L-634, "Field Dressing a Deer".

Since quality venison depends primarily on how the deer is handled from the time of the kill until it is placed in the freezer, field dressing is important.

The leaflet outlines one method of field dressing and skinning a deer. Any method which results in a clean well-bled deer is satisfactory. Unpleasant experiences with venison usually result from lack of care before the meat reaches the kitchen.

Information in the leaflet was provided by Wallace Klussmann, Extension wildlife specialist, and by the Texas Parks and Wildlife Commission.

Another publication which has been of interest to hunters and housewives is B-987, "Wild Game Care and Cooking". It offers many suggestions for preparing delici-

★ Seniors

The Morton High School seniors will be feted with a banquet at the First Baptist Church Saturday at 7:30 p.m. Speaker for the banquet will be Alban Wheeler, head of the Sociology department at Wayland Baptist College in Plainview. Entertainment will be furnished by the girl's sextet from South Plains Junior College. Don Vanlandingham will read the class prophecy later in the program.

Gin fire damages trailers, cotton

A fire about 3 a.m. Wednesday caused considerable damage to 14 trailers at the County Line gin.

An estimate on the damage was not immediately available. The fire damaged or destroyed the trailers and cotton in them when a burr pile caught fire and blew back onto the trailers. The fire was of such intensity that the fire department from Littlefield was called to help The Morton Volunteer firemen.

ous dishes of venison as well as other wild game meats.

This bulletin is also available at county Extension office.

Through the telescope by luck

Christmas officially arrives in Morton this week. The Christmas decorations went up Tuesday and will be wired and lighted by the end of the week at the latest. Merchants have put the finishing touches on their holiday store decorations and carols are beginning to be heard in the distance. We are looking forward to the parade this afternoon at 4:30 p.m. down Main Street that will officially launch the Christmas season here.

And the weather forecasts indicate that the first cold blast of the year (outside that never-to-be-forgotten freeze) will greet us today to help put everyone in the holiday mood.

Of course we are overdue for winter's arrival, but it will be a shame to see the end of this year's fall weather, crisp at night but wonderfully warm during the day with clear skies and light breezes. I personally dislike cold weather and wish I could figure out some way to bottle up a little of this fall weather to uncork about February or March.

We hear that Roswell, N.M. will host the Wool Bowl on Saturday, Dec. 10. The game will match Taft College of California and Cisco JC of Cisco, Tex. Morton will be represented on the Taft College team by sophomore Bobby Dobson.

If you want to see some good young basketball players in action, make plans to attend Saturday's B team tourney here Saturday. The Morton B squad currently has a 2-0 record.

Losing their first game after three wins was tough enough for the Morton Indians here Tuesday night, but the manner in which Plains took the Tribe left players, coaches and spectators shaking their heads. The way their shots were bouncing in and out and around, but never going through, it really did look as if the basket had a lid on it. And the Cowboys took advantage of Morton's lack of scoring and made some fantastic shots. The Cowboys are good, but the teams really should be closer matched than the first

Look who's new!

Mr. and Mrs. Billy Wood of Tulsa, Okla., are happy to announce the birth of their son Nov. 24, Thanksgiving Day. They also have a daughter, Lori, 5. The maternal grandparents are Mr. and Mrs. O. B. Huckabee and the paternal grandparents are Mr. and Mrs. Bill Wood, all of Morton.

Lindseys gather

The family of Mr. and Mrs. Cecil Lindsey spent a very pleasant Thanksgiving. Present were all of the children, grandchildren, and great-grandchildren, and also Mrs. Lindsey's mother, Mrs. Lee Rosser, 82, of Elorado, Okla. Those present were: Mr. and Mrs. Cecil Lindsey, Mr. and Mrs. Presley Sharp and Allen, of Odessa, Bill and Brenda Hogan and David of Odessa, Mr. and Mrs. Dave Wright and children of Levelland, Donny, Levelland, Mr. and Mrs. Lewis Doyle and girls of El Paso, Mr. and Mrs. Harold Lindsey and family of Paris, Mr. and Mrs. Ronald Lindsey of Houston.

Pictures were taken of all the families, also taken were two five generation pictures. This is the first time all the families have been together for any one occasion. Ages ranged from 4 months to 82 years.

meeting indicated.

Did you hear the fire whistle blow at 3 a.m. Wednesday? I hope you sent out a small word of thanks for the dedicated firemen who answered that call and spent two hours in the pre-dawn cold trying to save someone's property. I don't know of much that requires more devotion than being a volunteer fireman.

In time of distress and sorrow Friends are counted row on row. It's then I wish that I knew Better words than "Thank You".

The Morton (Tex) Tribune, Thursday, Dec. 1, 1966

Nuptials planned for Miss Rinnie

Mr. and Mrs. H. B. Rinnie of Wilson wish to announce the engagement and forthcoming marriage of their daughter, Vondal, to Stanley D. Henderson, son of Mr. and Mrs. Stanley Henderson of Levelland.

Miss Rinnie is a graduate of

Wilson High School and South Plains College, and is presently employed as secretary to the First Methodist Church in Levelland.

★ Band

There will be a Morton Band Boosters meeting at 7:30. All band parents and boosters are invited to attend.

Personal

Kenny Palmer, son of Mrs. Charles Palmer, of Ranger Junior College, spent the holidays at his parents, Kenny, Mr. Charles Palmer, Jr., and Mrs. Lubbok also spending with his parents. Mr. Palmer is attending Tech.

Mrs. Fred Rose, of passed away at 12:30 p.m. Monday, Nov. 28, at Meridian. The funeral was held Nov. 28, at Meridian Church with interment in Cemetery. Mrs. Rose passed following a long illness, the sister of Mr. Vallie

Mr. and Mrs. S. A. visited the Raymond M. San Antonio last week.

I live in the country I have a horse, a calf, some ducks, a baby brother, and a lot of other things they won't let you keep in the city. But I watch TV and we have electric heat. Mother has an all electric kitchen and Daddy has a workshop. Mother also has an electric washer and dryer which keeps her from sending my baby brother back. The electricity comes from the electric Cooperative and my Daddy says service is as good as you will find anywhere. So if you want a pony, or a goat, or a baby brother move out to the country with us. The electric cooperative has plenty of electricity. My Daddy says they keep upgrading their system with bigger poles and heavier lines. I don't know what their grade is now but I give them an A+.

Bailey County Electric Cooperative Assn.

READY TO SHOOT is Morton's Byron Willis (33) and Lynn Rollins of Plains have different ideas. The Cowboys handed the Indians their first defeat of the season, 55-36. TRIBPix

Rugged Cowboys massacre helpless Indians, 55-36

Morton saw its three-game winning streak broken here Tuesday night by the rugged Plains Cowboys. Spectators sat in shock during the first half as Plains raced to an 18-1 lead and a 29-9 halftime margin as Morton failed to score on a field goal and missed eight of 11 free throws.

Plains coasted in to a 55-36 win, the second of the year.

On Friday night, Morton will try to resume its winning ways as the team travels to Meador. On Monday, Dec. 5, the Indians will host the Plains and on Tuesday, Dec. 6, they will play at Plains.

Whether Plains nor Morton was able to find the range in the first half. The Cowboys made a free throw with 6:38 left in the period and Morton tied the score on Fred Thomas' free throw with 6:06.

With 3:44 left, Plains made another free throw and then got a basket with 2:37 remaining. They added another with 10 seconds left in a 6-1 first period edge.

During the first quarter, each team missed four charity tosses. Then came disaster as the hard-driving Cowboys converted Morton's errors into two free throws and five field goals in a period of 10 seconds for a commanding 18-1 edge with 6:10 left in the first half.

Thomas managed to hit another free throw, but Plains got a field goal. Charles Carter netted two free throws, but Plains tacked on two points for a 27-4 bulge with 1:11 left.

Morton narrowed the gap on five seven free throw attempts, two by Donnie Harvey and three by Willie Moore. Plains tossed in a field goal with 18 seconds left in the first half to regain a 20-point edge, 29-9.

The second half was evenly matched as Morton picked up 27 points and Plains made 26.

Thomas opened with a field goal. Plains matched that and Lorenzo Green stuffed in a rebound at Plains again matched. Green hit a free throw, but Plains netted three field goals for a 25-point lead.

Thomas and Harvey each made a free throw and Dick Vanlandingham made two free throws. But Plains netted five points, including one on a technical foul.

Willie Moore hit four free throws, while three others were missed and Byron Willis added one from the line.

But Plains made a three-point shot, that was only partially countered by Moore's two free throws. Plains led 47-25 after three periods. The fourth period was a little

Morton to host B team tourney Sat.

Morton will host a high school B team tournament here on Saturday, Dec. 3. The tourney will get underway at 10 a.m. in the school gymnasium with Mulshoe meeting Anton.

Morton will play Olton in the second game of the morning session. Consolation finals will begin at 5:30 p.m. and the morning winners will meet at 7 p.m.

B team coach Robert Taylor announced that seniors would not be allowed to play and that trophies would be awarded to first, second and third place teams.

Prices for each session will be 50 cents for adults and 25 cents for students.

Non-union firms lessen turnover

In one respect small business and big business appear to follow the same pattern. This is indicated by the fact that independent firms operating with a union show less employment stability than the non-union firms and are apparently seeking to replace manpower with better machinery.

This is shown in a special computer study made of the more than 7,000 independent business proprietor respondents in October to the 1966 year-long continuous field survey conducted by the National Federation of Independent Business.

Returns from over 70,000 respondents for the year to date, indicate that 11.4 per cent of the nation's independent firms are operating with a union contract.

Asked if there has been any change in their employment structure since the previous year, the October figures show that of the unionized firms, only 46 per cent report no change in their employment situation at the same time a year ago. On the other hand, 71 per cent of those operating as non-union report no change in their employment level.

The critical index appears to be the difference in the amount spent on business spent on new equipment. The non-union firms averaged an expenditure of only \$8,000 on investments in the business with only 50 per cent going into equipment. The unionized firms, however, report an average investment in the business of \$18,000 with 63 per cent going into new equipment.

A Democrat has held the governorship of North Carolina for the past 66 years.

DAWSON'S MARK JONES is shown making one of his nifty gainers against the Three Way Eagles. Closing in for the tackle are numbers 80, Johnny Pruitt, and 60, Billy Dewbre. Other players are unidentified. Dawson won the bi-district title 44-32.
TRIBPIX by Jimmy Cartwright

Dawson drops Three Way in bi-district 44-32

The Three Way Eagles and Dawson Dragons got together in Morton's Indian Stadium on Thanksgiving Day for their Bi-District 8-man football game, and 11 touchdowns and 76 points later Dawson had a 44-32 victory.

The game went just as the score indicates with both teams moving the ball steadily up the field. Scoring was so frequent that the ball only changed hands three times without a score being registered.

Three Way took the opening kick off and moved from their 37 to the Dawson 29 where on fourth down and 9 James Kindle fired a pass to Wendell Williams who took the ball at the five and dashed into the end zone. The try for extra points was no good and the Eagles led 6-0 with 7:36 remaining in the first quarter.

Dawson came right back, however, taking the kickoff and moving 63 yards in nine plays with quarterback Ralph Drennan going the last three yards for the touchdown. Halfback Mack Jones ran around right end for the extra points to put Dawson ahead 8-6 with 4:18 left in the period.

Three Way took the kickoff but couldn't move past their own 33 which forced Billy Dewbre to punt. The punt went to Dawson's nine

and was moved steadily down field behind the efforts of Drennan and Jones. Drennan capped the drive with a one yard plunge with 6:46 left in the second stanza. A pass for the extra points fell incomplete and the score was 14-6.

On the third try, after two previous kick offs had gone out of bounds, Tommy Black returned the kick 18 yards to the Three Way 35. However, the next play saw Three Way's hopes stunned when quarterback James Kindle was hit while trying to pass and had to be helped from the field. A severely sprained ankle kept Kindle out of action for the rest of the game.

The loss of Kindle didn't seem to affect the Three Way offense as Bruce Pruitt moved to quarterback and on the next play passed to Monte Toombs for 12 yards to the 37. From there Toombs took a handoff to make the score 14-12 with 3:05 left in the first half.

Dawson scored their third TD of the game with 29 seconds left in the half on a two yard run by Jones. Rex Drennan circled right end for the extra points to make the half-time score 22-12.

Dawson started the third period off with a bang as they used only four plays after the kickoff to

push across another touchdown. Ralph Drennan got the TD on a 23 yard scamper and brother Rex ran the extras to make the score 30-12.

Three Way took the kickoff and moved to first down at the Dawson 12. Monte Toombs carried to the three, but a holding penalty moved the ball out to the 22. On the next play, Mack Jones intercepted a Pruitt pass to end that Three Way threat.

Dawson again wasted no time getting on the scoreboard as Jones hit for 3, Ralph Drennan for 15, Pete Rodriguez for 3, and then Drennan for 27 yards and another touchdown, which made the score 36-12.

Three Way got their offense in high gear after the kickoff as they moved 46 yards in four plays for a touchdown. Monte Toombs went the last 20 yards for the TD, but was held for no gain on the try for extra points. The score then stood at 36-18 with 24 seconds left in the third quarter.

Dawson took the kickoff and moved to the Three Way 23, but a fourth and eight play lost two yards and Three Way took over.

Bruce Pruitt gained one yard on the first play and then passed to Wendell Williams for nine yards

and a first down. Pruitt gained nine on the next play and Toombs picked up 13. Tommy Black got

Three Way graders are district king

The Three Way grade school graders won district in football this year. Their record was eight wins and no losses. Their record for the last four years is 26 wins, 1 loss and 2 ties.

Three Way had a total of 212 points while the opposing teams had a total of 56 points. Three Way's average was 27 points per game and the opposing teams averaged 7 points per game.

Classification of the junior high boys are: sixth grade; Timmy Waltrip, Terry Pollard, James Partlow, Joey Kindle, Kary Biggs and Elis Grimes. Seventh grade; George Duarte, Jose Torres, Larry Neuzler, Jerry Nichols, Kenneth Myers, Jeff Lynsey, Steve Huff, Allan Joyce, Jerry Roberts, Mike Duarte and Dick Heard. Eighth grade; Allan Davis, Johnny Waltrip, Joe Partlow, Johnny Ferguson, Gene Abbe and Mike Sowder.

one, Pruitt seven, and then Toombs went 25 yards for a touchdown. Pruitt passed to Williams for two points to make it 36-26 with 4:17 remaining in the game. Dawson took the kickoff and aided by a 38 yard gainer by Mark Jones, moved in for their final touchdown with 3:06 left.

Three Way came back for their final score with 1:26 left on an eight yard run by Monte Toombs. Toombs was stopped at the one on the try for extra points and the score stood at 44-32.

Dawson took the kickoff and ran out the clock to take the bi-district win 44-32.

Wayland official speaks here Sun.

Dr. Neil Record, administrative assistant to the president of Wayland Baptist College, will be guest speaker at the First Baptist Church Sunday morning. Dr. Record is specifically in charge of Wayland's development program. Rev. Fred Thomas, pastor of the church, cordially invites the public to attend.

Shower fetes a recent bride
A bridal shower honoring Mrs. Owen Stewart (nee Darla Brotherton) was given in the home of Mrs. T. K. Williamson, Saturday morning, Nov. 26.
The serving table was covered with a white felt table cloth trimmed with wedding bells outlined in blue and gold sequins. Appointments were silver and china.
The honoree and her mother, Mrs. R. E. Brotherton were presented corsages of gold miniature mums by the hostesses. Approximately 25 guests called between 9:30 and 11:00 a.m.
Hostesses were Mesdames M. M. Fred, Mickey Hoyl, Jack Gunnels, Robert George, Rodney Fralin, Paul Gunter, G. W. Lyon, Gerald Ramsey, Lowell Webb, T. K. Williamson, and Miss Faye Fincher.

Campfire girls to National Sulphur
The Ta-Wan-Ka Campfire girls met Friday, Nov. 14, after school. Refreshments were served to Renee Anglin, Carolyn Gray, Cassandra Reeder, Emelea Smith, Judy Steed, and Debra Williams.
The girls went to the Lehman Sulphur plant. They were given samples of sulphur to take home.
Also attending was Mary Smith, and the leaders Mrs. E. L. Reeder and Mrs. Martin J. Smith.
Mr. and Mrs. S. A. Ramsey accompanied by Mr. and Mrs. Jack Pinnson, of Plainview, Mr. and Mrs. Vernon Stokes, Brownfield, and Peggy Ramsey a student at Wayland College, all visited the Raymond Marshalls in San Antonio and the Burlie Taylors in Ft. Worth. Mr. and Mrs. Ramsey left here Wednesday, Nov. 23 and returned Sunday, Nov. 27.

Kiddie photos to be taken Dec. 2

Since the fate of tomorrow's world rests on the shoulders of today's youth, the publisher of the Morton Tribune would like to give you a good look at these future "world builders." The best way to do this is to publish pictures of them in a feature series. Pictures of the youngsters will be made Friday, Dec. 2, from 10 a.m. to 5 p.m. in the Ideal Gift Shop by photographer Winston B. Lucas of Irving. There will be no charge to the parents. Parents do not have to be subscribers, nor even readers of this newspaper to take advantage of this feature. They are not even obligated to purchase pictures after they are taken. Those who want additional prints may obtain a limited number by arrangement with the studio representative when they select the pose they want printed in the paper.

Mr. and Mrs. H. S. Hawkins had as their guests over the Thanksgiving holidays, their daughter and her family, Mr. and Mrs. Jim Warden and children of Ardmore, Okla. They also had as dinner guests Thanksgiving day, Mr. and Mrs. Ford Hawkins, of Plains, Dr. and Mrs. Burgin Watkins and Mary Lou of Childress, Mr. and Mrs. Bill Bridge and boys of Seminole, Mr. and Mrs. Jimmy Watkins of Lubbock, Mr. and Mrs. Sherrill Griffith and Mrs. Scott Hawkins and Bob of Morton.

Christmas decorations . . .
 MORTON GOT A LOOK of Christmas about it this week as workers started putting up various decorations up and down Main street. Local citizens soon got into the act by decorating their own houses, places of business and Christmas trees. However, the cold weather was the first real indication of Christmas and the joy it brings. People are also reminded of the lighting and decoration contest to be held by the Cochran County Garden Club. TRIBPIX

Legal Notices

NOTICE OF INTENTION OF THE CITY OF MORTON, TEXAS, TO ENTER INTO A COOPERATION AGREEMENT WITH THE HOUSING AUTHORITY OF THE CITY OF MORTON, TEXAS.

Pursuant to a Resolution duly adopted on Nov. 28, 1966, by the City Council of Morton, Texas, Notice is hereby given of the intention of the City of Morton, Texas, to enter into a Cooperation Agreement with the Housing Authority of the City of Morton, Texas, and further:

Notice is hereby given that at the expiration of sixty (60) days from Dec. 1, 1966, the City Council of the City of Morton, Texas, will consider the question of whether or not it will enter into a Cooperation Agreement with the Housing Authority of the City of Morton, Texas. A copy of the proposed Cooperation Agreement is available for the inspection of the public at the office of the City Clerk during business hours.

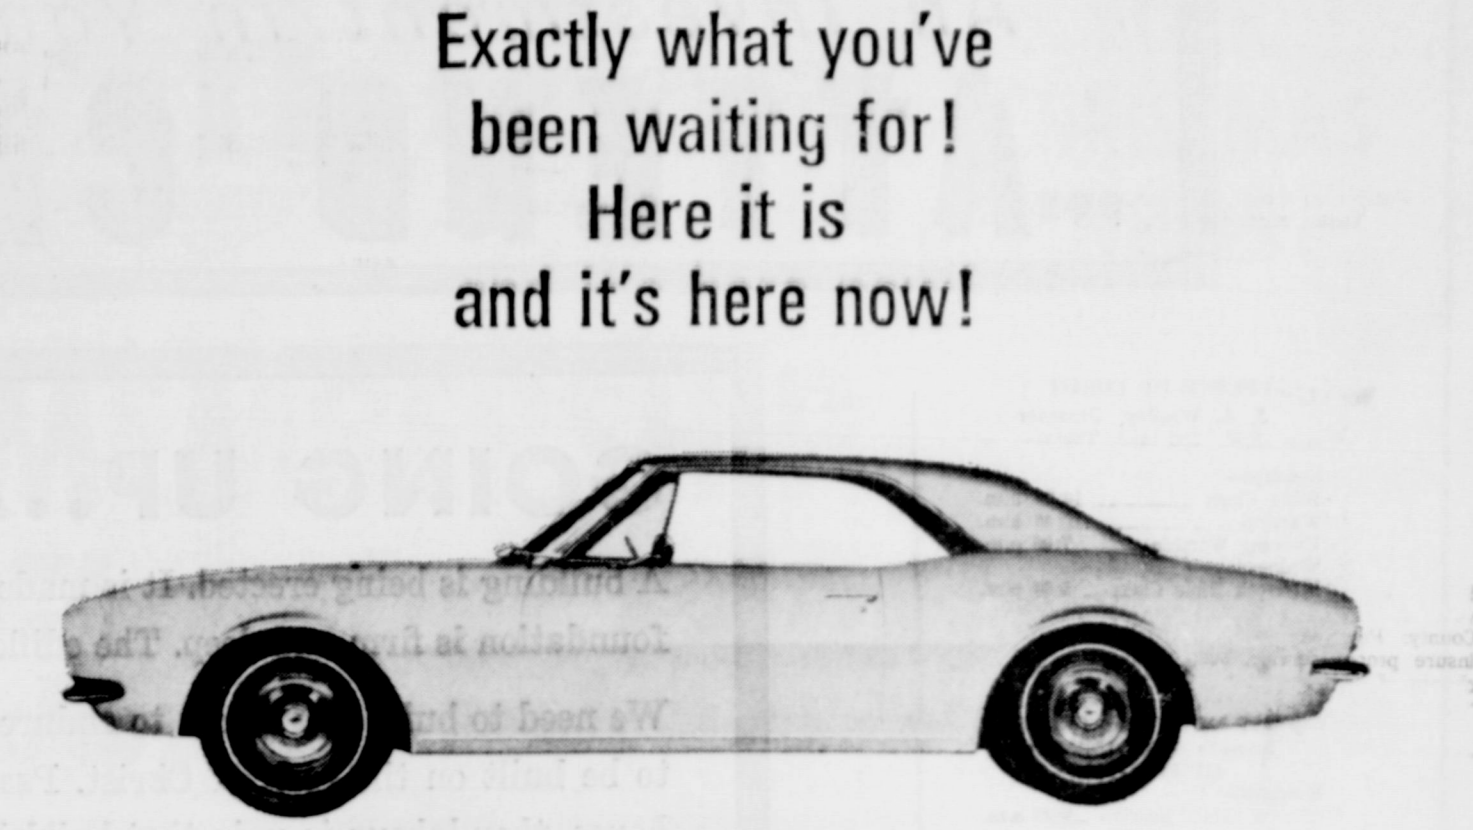

This Notice is given and published pursuant to the Housing Cooperation Law of the State of Texas. Published in the Morton Tribune Dec. 1, 1966.

Cub Scout Pack 644 reorganizes

Cub Scout Pack 644 in Morton was reorganized last month with 13 Cubs returning to the program and 17 others being signed up as new Cubs in the Scouting program for boys 8 through 10. Cubmaster Robert Taylor announced the following Den organizations and their leaders:

Den 4: Mrs. Jessie Clayton, Den Mother; Royce Hanna, committeeman; Jay Swicegood, Philip Clayton, Marlon Coffman, Roy Don Oliphant, Denton Hanna, and Joe Mack Lamb.
 Den 5: Mrs. Jimmy Miller, Den Mother; Everett Johnston, committeeman; Mark Johnston, Mac Millar, Nicky Millar, Mark Fluit, Danny Elliott, and Kirk Mayon.
 New Cubs assigned to other Dens included: John Truman Hodges, David Mark Ramby, Richard Max Wynn, and Larry Don Shaw.

Five sons of Mr. and Mrs. Vernon Slaten arrived in Morton Nov. 23. Four who reside in San Diego, Calif., are: Kenny, Ben, Billy, and Jack Slaten. Lindsey Slaten resides in Phoenix, Ariz. They made their departure Thursday.

GOING UP...

A building is being erected. It is made of strong materials, steel and concrete. The foundation is firm and deep. The edifice is built to endure.

We need to build our homes to endure. They need a strong foundation. They need to be built on the rock of Christ. Psalm 127:1 reads, *Except the Lord build the house, they labour in vain that build it.* Attend church regularly that your house may be instructed in the ways of the Lord.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Coleman Adv. Ser.
