Council hears of request from General Telephone Co.

Spirit of Christmas

The holiday season, including Christmas and New Year's, is a time that people naturally turn their thoughts to gifts, friends, holidays and the birth of Christ. The thoughts of gifts usually take precedent though.

The true spirit of Christmas hinges around the birth of Christ and what the world has received because of Him. This spirit of Christmas and giving is not something that should be hoarded or shoved into a corner. It should be shared.

"It is more blessed to give than to receive." Not the opposite.

Christmas may be and should be shared. The people of Cochran County can share with those less fortunate than themselves by giving food, clothing, toys, and money to any of several charitable organizations that are soliciting especially at Christmas time.

Clothes, toys and food are especially solicited by the Ministerial Alliance. These items will be re-distributed by the Alliance to several needy families. Donations should be turned in to the donors own pastor or church or Rev. Lawrence Bobstien at St. Ann's Catholic Church.

★ Music

The elementary art and music departments are presenting a Christmas program Dec. 20 in the cafeteria. The program will be presented twice, once at 9:30 a.m. and again at 1:30 p.m. Parents and the public are cordially invited according to Mrs. Connie Gray, elementary music teacher.

The same items and money are also being solicited by the Salvation Army. Food and clothing is especially needed to provide year-round aid to needy families and stranded travelers. The money will be used to provide medicine, dental care, and other needed items to those families who need them. Contributions should be given to Bobby Travis, local chairman.

The Tuberculosis Association is selling Christmas seals to provide money for research into TB, emphysema, asthma, and other respiratory diseases.

Court listens to business minutes

The Cochran County Commissioners Court spent most of its regular monthly meeting time listening to the reading of minutes from both regular and called sessions from July through November. Commissioner Leonard Coleman made the motion, seconded by Harral Rawls, that the minutes be approved as read. The motion carried.

The first action of the court concerned an extension of a contract for the collection of delinquent accounts. The collection of the accounts, which is done by a firm of attorneys, is for the fee of 15 per cent of the bill plus penalties. Tax Assessor Leonard Groves was present to explain the collection procedure. Coleman made the motion to extend the contract through Dec. 31, 1968, seconded by U. F. Wells. The motion carried.

Payment of the November bills was done on a motion by Coleman and seconded by Leland Scifres. County Attorney James Walker was present to explain that County Treasurer Bill Crone had received a \$50 check from Pan American Oil Co. for damage to a county road during geophysical operations in November. Walker asked if the amount was sufficient and the commissioners replied that it was.

Walker then asked questions of the commissioners pertaining to another road, the "ownership" of which has been questioned.

The meeting was adjourned without formal vote. Present were Commissioners Coleman, Rawls, Scifres and Wells; Commissioner-elect T. A. Washington; Judge Johnny Love; Walker, Crone, Groves, and a press representative.

★ Contest

Friday is the final day that children may turn in their entries for the coloring contest. The contest, which is open to all boys and girls from the ages of four to nine, will award prizes of \$5, \$2, and \$1. There are two divisions, one for children ages four through six, and another for children seven through nine. Extra copies of the contest page, which was printed in last week's Tribune, are available at the Tribune office.

Salvation Army's work told here

The annual Salvation Army fund raising drive got under way last Friday in Morton with a kick-off talk by Gill Muddell, field representative for the charity organization. Muddell, who told the workers present about the work of the organization, urged workers to tell of the things that are being done by the Salvation Army and of the very great need that exists in Morton for the organization's benefits.

Muddell mentioned a few of the programs that the army has, including a home and hospital for unwed mothers in San Antonio, a missing person's bureau, a major disaster program, and a camp at Midlothian, Tex. Of the missing person's bureau, Muddell said that

The Morton City Council Monday night passed a resolution freezing the number of two-party business telephone lines to the present nine and eliminating them on Nov. 22, 1967. The party lines would then be replaced with private lines.

The resolution followed an explanation of General Telephone's request for the action by J. H. Fowler, district manager for the company. Fowler said that in effect the nine businesses were paying for a party line but in reality were getting private line service since none of the nine is on a line with another party. This came about when the second party moved or quit business or decided on a private line, leaving only one person on a party line.

Fowler went on to explain that the nine business firms will only be paying about \$1.25-1.75 more per month for the private line. The replacement of the two-party business lines is part of General Telephone's timetable to upgrade the service in this area.

Upon councilmen's questioning, Fowler said that another serviceman is being trained to work in the Morton area, in addition to the serviceman who is already here. He said that when the new telephone building in Morton is put into operation in November of next year, it will contain the most modern telephone equipment that can be bought.

Fowler continued that the old eight-party rural lines were in the process of being reduced to four-party lines. He said that they will eventually be reduced to two-party and then to private lines.

The council then passed a resolution freezing the number of two-party business lines in Morton to nine, on a motion by W. A. Taylor and seconded by Earl Stowe. The resolution also said that the nine two-party lines would become private lines in December, 1967.

On a motion by Donnie Simpson and seconded by Stowe, the council agreed to pay the November bills, in the amount of \$5,121.30. Burtis Cloud, chief of police, appeared at the request of the council to discuss citizen's complaints of the police car being driven at night without lights. Mayor Jack Russell then produced three letters from the police department.

Outdoor scene . . .

WINNER OF THE OUTDOOR religious scenes contest was Mrs. Charles Jones with this depiction of the manger scene. The contest, sponsored by the Cochran County Garden Club, offered prizes in the religious and non-religious divisions of outdoor scene, window and door decorations. Mrs. Jones, who lives at 706 E. Grant, built her scene near the entrance to her house and used paper and wood construction as well as effective lighting to insure her win.

Indian basketball schedule is busy

Morton's varsity cagers will wind up their pre-holiday clashes with a busy slate during the coming week.

Thursday, Friday and Saturday, Dec. 15-17, the Indians will compete in the ten-team Denver City tournament. They will return home for a varsity and B team meeting with Meadow on Tuesday, Dec. 20. Then the tribe will be idle until Jan. 3.

Thursday, Dec. 15, Morton's seventh, eighth and freshman teams will be host to Plains. The first game begins at 4:30 p.m. Fifteen games are on tap for the three-day Denver City Invitational. Entered are Morton, Loveland, Seminole, Brownfield, Denver City, Seagraves, Lamesa, Plains, Kermit, and Crane. Morton drew the tough Loveland Lobos for their first game, which is scheduled for 4 p.m. Thursday. The winner will advance to the semi-finals at 1 p.m. Saturday. The loser will play at 4 p.m. Friday against the loser of the Seminole-Brownfield clash.

Lamesa's Golden Tornadoes are favored to win the tourney. The first-round pairings include: Morton vs. Loveland; Seminole vs. Brownfield; Denver City vs. Seagraves; Lamesa vs. Plains; Kermit vs. Crane.

Morton's hot shooters gun down Eagles 82-30

Morton's hot shooters and tenacious defense gunned down the Three Way Eagles here Tuesday night, 82-30. It was the seventh victory against four losses this season for the Indians.

Coach Ted Willlock cleared his bench with 3:31 left in the first period and alternated teams thereafter in an attempt to hold down the score.

Freddy Thomas hit on a three-point play for the Indians just eight seconds after the game began and Morton was never headed.

Wendell Williams countered with a field goal for the Eagles, to make it 3-2. That was as close as the score ever got.

The Indians roared out to a 25-10 edge after one period. The Eagles were unable to hit more than eight points in any quarter after that as Morton concentrated on defense and harried the Eagles from one end of the court to the other.

Morton had a commanding 54-15 lead at halftime. The pace slowed in the third quarter as Morton hit only 12 points and limited Three Way to eight. That made it 66-23 going into the last eight minutes.

Morton hit for 16 and held their guests to seven in the last quarter for the 82-30 victory. The only bright spot for Three Way was that they committed only two fouls in the second half, and both of them came in the final 88 seconds. The Eagles were charged with only eight fouls in the game.

Dick Vanlandingham left the game early in the final period with five fouls, the only Indian who was in foul trouble during the game.

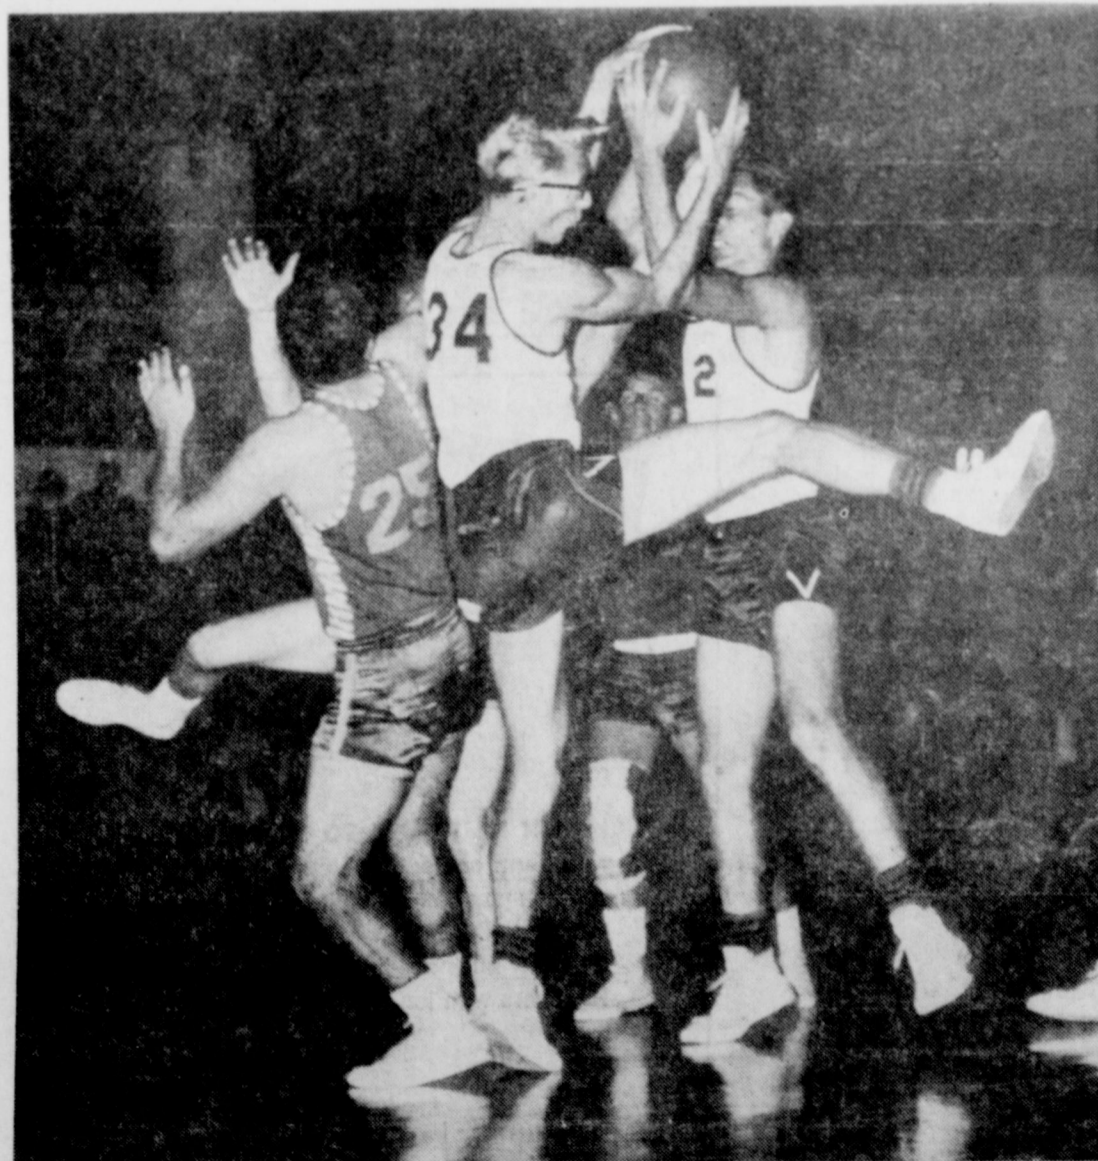

John St. Clair, senior forward, saw some action in the game after being out for almost three weeks with pneumonia.

For the fifth straight game, sophomore Byron Willis paced the scorers with 18 points on nine field goals. Dick Vanlandingham added 15. Freddy Thomas 13 and Charles Carter ten.

Wendell Williams accounted for half of Three Way's points as he hit for 15. Williams also was moved to guard to bring the ball down against the pressing Indian defense.

In the B team contest, Morton continued its undefeated streak with a 47-25 win over Three Way. It was their ninth win of the season.

Ray King netted 14 and Tommy Davis 12 for the young Tribesmen. See SHOOTERS, Page 2

South Plains cotton in scrapping stage

The South Plains cotton harvest reached the scrapping stage in most counties this week, according to W. K. Palmer, in charge of the Lubbock Cotton Classing Office of the USDA. With the cotton harvest over ninety per cent complete, sample receipts declined to 10,000 daily at the three USDA South Plains classing offices. One hundred and eighty thousand samples were classed at the three area offices during the week ending Thursday, December 9th, bringing the season's total to 1,109,000. At this date last year the three offices had classed 855,000 samples of the 1965 crop. Spotted and Tinged cotton increased as the harvest reached the

Club hears program on cooking traditions

The Emilea Smith Jr. Study Club met Thursday, Dec. 8, in the home of Mrs. W. L. Foust. Hostesses for the meeting were Miss Jennie Allen and Mrs. Danny Tankersley. The club voted to help a third grade class with their Christmas party. Gifts for the mental hospital in Big Spring and for a needy child were brought by each member. Two new members were elected. They are Mrs. Dale DeBord and Mrs. Sherril Griffith. Mrs. Sandy Asbill was elected reporter to fill a resignation of Mrs. Don Lynsky. Miss Jennie Allen presented the program on Christmas traditions in cooking. She told of some of the traditional foods which originated in Northern and Middle European countries. In England the traditional Yorkshire pudding was stirred by each member of the family to bring good luck. Charms were added to the pudding so that each serving would yield a charm. In Norway there are fourteen different kinds of cookies to bring

County Agent Reports

Soil samples
December is a good month for collecting and submitting soil samples for testing. At the present time, samples are processed as soon as they arrive at the laboratory and test reports are mailed within ten days. This schedule should benefit you since prompt service is an important requirement for an effective soil testing service. Sampling well in advance of planting offers the advantage of allowing time to obtain the fertilizers needed. In many instances, wet soil may be encountered during the winter and cause a delay in sampling, therefore, sampling now is advisable.

Multi-colored flames
Your fireplace can add an especially gay note to holiday activities if the fire is made up of multi-colored flames. Instead of the usual yellow flame from wood, the flames can be green, red, blue, orange, or purple in color depending upon the chemicals used to treat the material to be burned. Calcium chloride can be used to produce orange colored flames, copper chloride — blue, potassium chloride — purple, strontium nitrate — red, lithium chloride — emerald green. Dry pine cones or small blocks or chips of wood can be soaked in solutions of these chemicals to produce the multi-colored flames when burned. Most of the chemicals can be purchased from chemical suppliers or local drugstores.

To treat the cones or wood, a plastic pail and onion sack are needed. The cones or chips are placed in the sack and immersed in a solution containing 1 pound of the desired chemical dissolved thoroughly in one gallon of water. The bag must be weighted down so that the material is completely covered by the solution. The cones or wood should soak for at least 10 minutes. After soaking, the treated material may be placed on newspapers to dry. After drying overnight, they will be ready for use in the fireplace. The county agent adds that "logs" can be made of loosely rolled newspapers tied with a heavy twine and soaked in a solution of 4 pounds of copper sulfate and 3 pounds of rock salt in a gallon of water. They will take several days to dry out. Once dry, a paper log will burn all evening and produce a rainbow of colors.

Shipping weights can be reduced by allowing the sample to dry a day or two at air temperature. Samples should not be heated since high temperatures cause potassium to be fixed in some soils in such a way that it cannot be removed by chemical procedures. If reliable information is to be obtained from a soil test, it is necessary for the sample to be as nearly representative of the field on which information is desired as possible. To obtain a representative sample, a composite is made by obtaining a core or slice or

sol from 10-15 spots in fields from 20 to 40 acres in size. Pint boxes, mailing cartons, history sheets, and instructions are available from your county agent's office. Instructions for sampling should be studied and followed as closely as possible. It is a good idea to go over these instructions with the county agent, especially if this is your first experience in collecting samples.

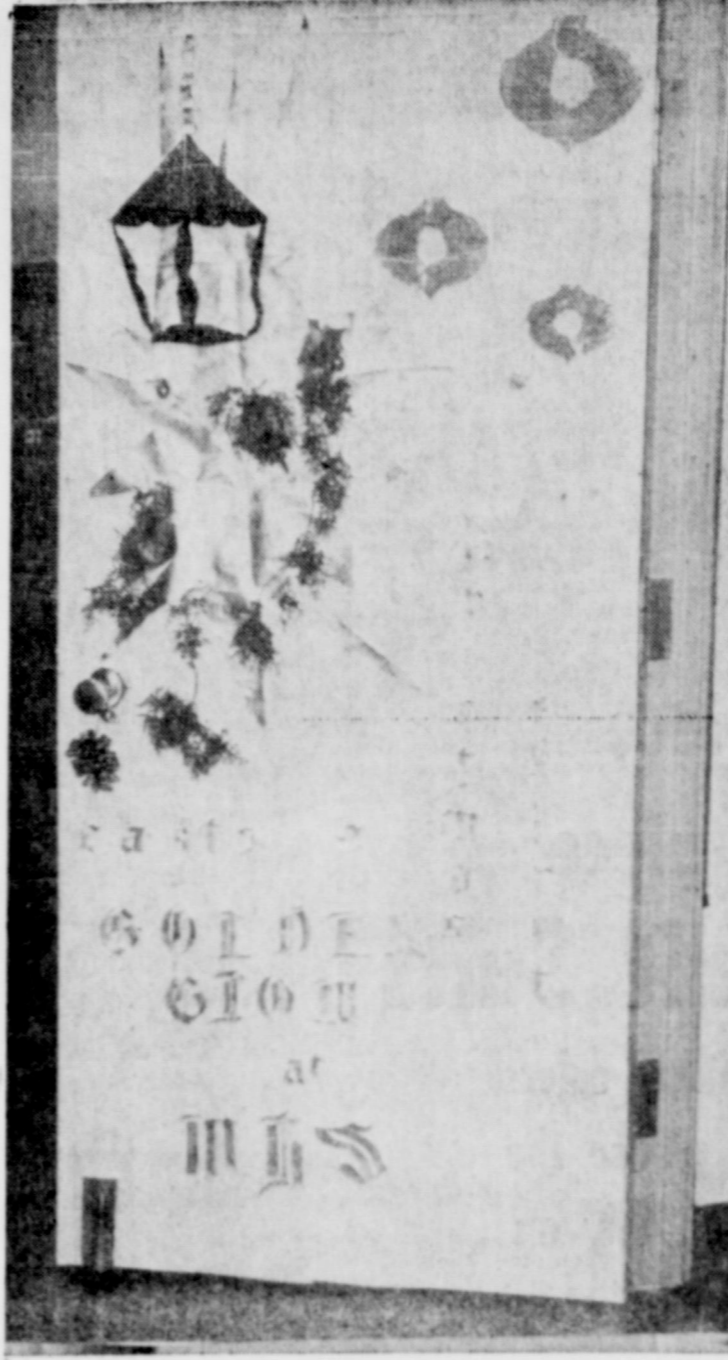

Since production records began 70 years ago, the state has produced a total of 28,403,016,481 barrels of crude. Andrews County continued to be the leading county in oil production, with 76,908,300 barrels, although all sections of the state have several high producing fields. "The state's excellent oil and gas conservation system must be given credit for the widespread and continuing development of production throughout Texas," said W. A. Landreth, Fort Worth independent operator who is president of Texas Mid-Continent. "Under our state laws, administered ably by the Texas Railroad Commission, the state's petroleum resources development has been encouraged from the driller to the refiner."

Cochran County had a 1965 crude production of 7,496,000 barrels to bring its total to 163,025,400 barrels since its first discovery in 1936. Its 1965 production rate average 20,538 barrels a day. In 1965, Texas had three counties that produced in excess of 40 million barrels. Besides Andrews, Ector County had a total of 61,266,600 barrels and Crane County produced 43,952,300 barrels. In addition, five other counties produced more than 20 million barrels in 1965 and an additional 24 had production in excess of 10 million barrels. Gregg remains the only county in the state that has produced more than two billion barrels, while three other counties — Rusk, Ector and Andrews — have produced more than one billion.

Jesse T. George on Chamber confab

State Representative Jesse T. George, Cochran County's state legislator, will join with other West Texas government officials and members and directors of the State Affairs Committee of the West Texas Chamber of Commerce, Friday, Dec. 16, in Odessa and Midland, for a two-day confab to discuss legislative issues pertinent to the

West Texas area. The legislative delegation will be afforded an opportunity to meet with the leadership of the West Texas Chamber of Commerce to explore solutions to the problems which the legislature will face in the upcoming 60th Session. George, a former manager of the Morton Area Chamber of Commerce, is a member of the West Texas Chamber of Commerce.

as historian. Those present were Mesdames, Wiley Hodge, Wayne Brackin, Donnie Simpson, Jerrell Sharp, Dub Hodge, Doyle Webb, George Tyson, Harold Ogle, Ed Pruitt, Lewis Hodge, and Royce Hanra.

Through the telescope by Tuck

Haven't done all your Christmas shopping for the kids yet? Great, if I may say so. And the Tucks have the ideal gift for that boy or girl . . . a new puppy. Princess Tuck, our aristocrat chihuahua-terrier, presented us with five new mouths to feed, although she is taking care of the meal-time chores as yet. Brother George got to midwife the deliveries when he wandered over to feed the dog (singularly, he had understood) last Saturday evening. Although he doesn't have any children to properly enjoy a new dog, we generously offered him a pair for his rather nervous assistance. Still a bit green, he reported on our return, "She'd had one when I got there and I stayed for the second before I figured out that she's had more experience at having puppies than I have." We have two white pups and a trio of brown ones and will be happy to give them away on a first-come basis. We would even deliver them on Christmas morning for a brief visit, although they will need to stay with Princess for a week or so after Christmas. Just call 266-7141 or come by 701 East Grant most any afternoon or evening.

Still on the subject of Christmas, I'd like to point out a seldom-considered point to parents who are buying or will buy B-B guns or pellet guns for their offspring this year. It is illegal to discharge those guns in the city limits and a crack-down is near for offenders. Damages from these guns has been considerable lately, including street lights, store windows, car windows and private homes. Officers in Morton have indicated they will start making arrests for offenders in the future. So parents, make sure your child knows about this ordinance and heys it.

Parents also are reminded that Santa Claus will be in Morton Saturday, Dec. 17, from 1:30 p.m. on the courthouse square to visit with the children and pass out candy.

This issue is the third to carry the Morton merchants' coupon page and we want to point out a couple of items that are mentioned, but might have been overlooked.

Wreck causes \$650 damage

A two-car wreck Monday afternoon 4 p.m. caused a total of \$650 damage to both vehicles. The wreck, which took place at 6th and Filmore, involved Larry Shaw, who was driving a 1962 Chevrolet pickup and a trailer, and Glen Dotson, who was driving a 1959 Chevrolet. Shaw was driving north on 4th and was taking a hog to market. The hog, which was in the trailer, escaped injury. Dotson and his passenger Jackie Hunt were driving east on Filmore. There were no injuries to any of the people involved. Damage was estimated to run \$350 to the pickup and \$300 to the car.

Morton's scrappy Indians have a tournament this weekend and a home game with Meadow on Tuesday before taking a holiday breather. The Indians enter the Denver City Invitational with a 7-4 record, but will have to be rated as underdogs against such entries as Levelland, Seminole, Brownfield, Plains and the top-seeded Lamesa Golden Tornados. If you can't attend a tournament game, come on out Tuesday night and watch the game with Meadow. And you might want to arrive early and watch the undefeated B team try to win its tenth in a row. The B game begins at 8:15 p.m. and the varsity tilt at 8 p.m.

If you are interested in Morton's future basketball players, drop in this afternoon (Thursday) and watch the seventh, eighth and freshmen in action. The first game begins at 4:30 p.m.

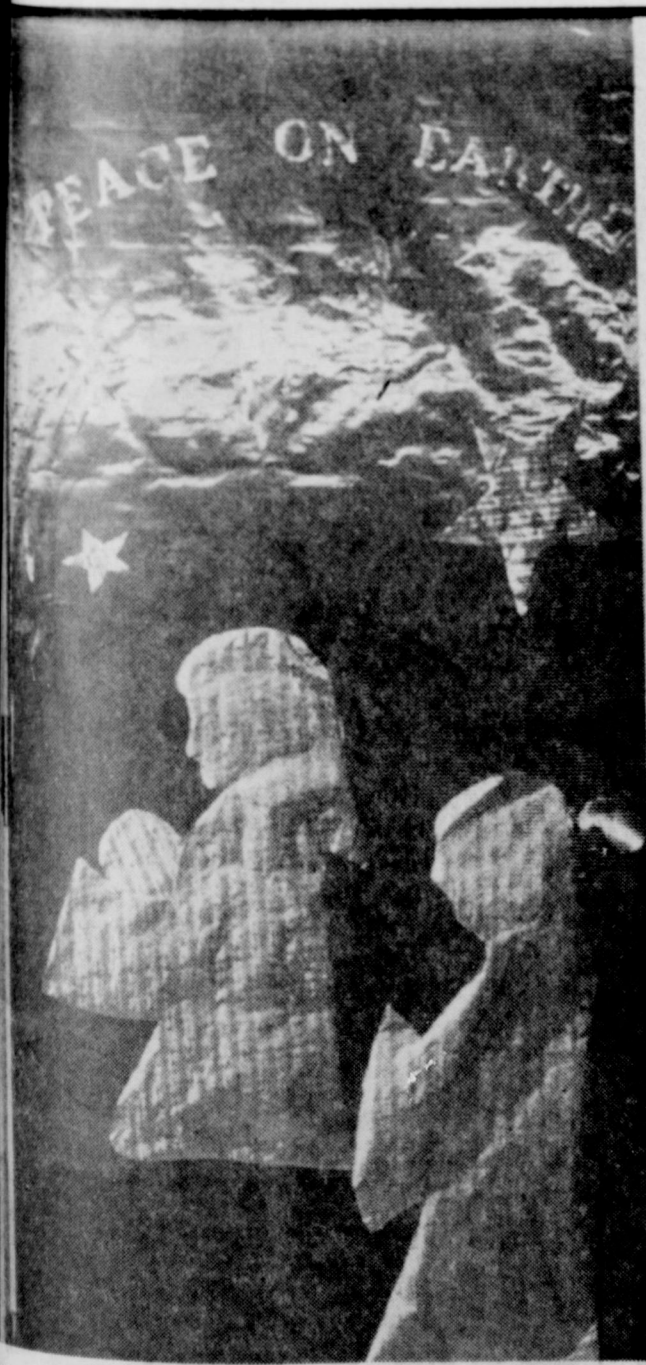

These deggies in the window usually cost a pretty penny. But the Tucks will add a bow and still not charge you any.

ATTENTION FARMERS and GINNERS

We have opened a Cotton Office in Morton next door to Cochran Power and Light. Bring your green cards and warehouse receipts by our office and we will be happy to give you a quotation on the various grades and staples of your cotton. It will be a pleasure to meet you and visit with you. Come in soon and let's get acquainted.

Whiteface FFA wins three awards

The Whiteface Future Farmers of America chapter was honored at the Littlefield FFA District Awards and Sweetheart Banquet held in the Muleshoe High School last week, for awards they had earned during the District Leadership Contest held last month.

Earning a first was vocational agriculture III in senior farm skill for pipe cutting, threading and fitting. A second place banner went to vocational ag. I for junior chapter conducting — demonstrating the correct procedure to conduct a meeting. A fourth place banner was awarded to Vocational Ag. II for senior chapter conducting.

In the sweetheart contest, Whiteface's entry, Sherryll Peters, won third runner-up.

Attending the banquet were 12

FFA members. Mr. and Mrs. Wendell Durlap, Whiteface vocational ag. teacher; Lee McDonald, student teacher from Texas Tech; Miss Peters; Miss Pat Laster; Mr. and Mrs. Wendell Peters, parents of the sweetheart; and Mr. and Mrs. James Cunningham, Whiteface School Superintendent.

Mr. and Mrs. Harold Boatright and son are visiting some relatives here for a few days. Harold, who has been stationed in Lawton, Okla., is on his way to Phoenix to see his parents, Mr. and Mrs. H. I. Boatright. From there, he and his family will leave to go to Germany where they will be for three years. Harold is the grandson of Mrs. M. D. Boatright of Morton. They're also visiting the A. D. Boatrights and the Lyndall Bates.

The Protecting LIGHT

This lighted tower is a light shining in the darkness to guide sailors and ships through the night. Our Lord is our light who guides us faithfully through life, even though it be as a stormy sea—He knows the way. His word, as proclaimed in His church, will light your way and bring peace, joy and comfort.

"Thy word is a lamp unto my feet, and a light unto my path." Psalm 119:105.

Attend the church of your choice this coming Sunday and receive the blessings awaiting you.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.
