

Out of my way . . .

CHARLES CARTER of Morton drives for two points and forces Slaton to give ground. Falling away is Richard Washington while Paul Hall shrinks back from Carter. Slaton downed the Indians 65-57 in district action. (Staff Photo)

Mrs. Roy Hill plays host to Town and Country Study club

Mrs. J. W. Walker of Plainview, Texas, is to be the guest speaker for the 1906 and Town and Country Study Clubs at the Methodist Church Wednesday, January 17, at 4 p.m. All of the area study clubs as well as anyone interested in Mrs. Walker's topic, "The Dead Sea Scrolls," are invited to hear the lecture and view the slides.

Mrs. Walker has had a long career in public service. She has held many and varied posts of responsibility for which she is well qualified by both education and experience. In recent years she has turned her interests more into the fields of travel and lectures, for which her travel experiences serve as a base.

Being the mother of a son whose interesting career is that of Diplomacy, she has many opportunities to visit in the countries where he is located, getting to know the people in a first-hand way, and otherwise having access to facts not usually made available to the average citizen. She spent last summer in Chad, Central Africa, where her son was serving as ambassador for our government. She has had similar visits in Greece, Malta, and the Middle East.

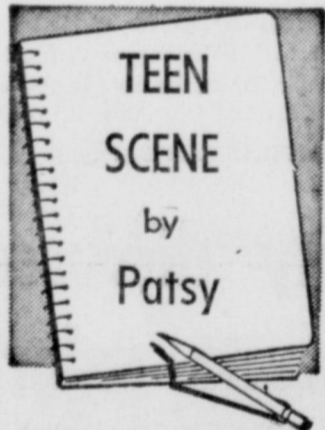

Mrs. Walker brings a refreshing and unique personal interpretation to all her travel reports, giving the hearer a feeling of having "been there" to share in the incidents so vividly related by her. Material for her program, "The Dead Sea Scrolls," was collected by her on personal trips to the area. In addition, she read several textbooks in order to authenticate her findings and relate them in historical continuity.

Mrs. Walker is past president of Texas

Mrs. J. W. Walker

Federation of Women's Clubs and at present is Parliamentarian for Caprock District.

SAFE DRIVER OF THE WEEK

Mrs. R. H. Baker

218 SE 8th
was selected by local officers as this week's SAFE DRIVER

RUSSELL
INSURANCE AGENCY
SOUTH SIDE OF SQUARE

Hi everyone! Well, how has the world been turning for you this past week? It's been going a bit too fast to suit me, I'm afraid. What with research papers, science projects, and other end-of-the-semester activities, the school kids have been pretty busy lately.

Well, our basketball team came home Saturday night from the Plains tournament carrying the third place trophy. The team lost to Eunice, and won over LCHS to earn the trophy. In the championship vie, the Denver City Mustangs downed the Eunice Cardinals by about three points in a very exciting game.

The Indians have now plunged into their district games and will travel to Midland Carver tomorrow night for what could prove to be one of their toughest games. Then Tuesday night the Denver City Mustangs will come here. I have been asking all of you to support the boys in our previous games, but now I'm begging you to! If you'll just come out to a game or two, I'm sure we won't be able to hold you back from the rest of them. We've got a better-than-average team this year, and there's usually never a dull moment! We really appreciate all of those who have come to all the games so far; it really helps!

Well, the cheerleaders kinda didn't keep their promise about the new suits, did we? We didn't have them ready for the first game after the holidays, but we had them for the first district ballgame — you've got to give us some credit. Matter of fact

Optimism shown

from page one

indicated that people were having to sacrifice the "luxury" of a telephone when money got a little scarce.

Gas and water connections in Morton were well stabilized with gas down only one from 1966's total of 1,059. Water was down only four from 1,002 in 1966.

Chamber Manager Kessler said, "Problems of all towns are very similar. The reason our problems seem so much worse than the problems of others is that we know so much more about our own. It is easy to look at the bad things and think that everything is bad. But, in most instances, if we look again the good will balance out the bad."

He went on to state that, "Our biggest problem is attitude, and it is a problem that must be cured; we have no other choice."

"Every reversal in business, or population, or in any other phase of development, should not be considered a defeat, but just another challenge to work harder, to plan better and in general do a better job at whatever we are trying to do."

Kessler said, "Everyone has some ability to help in the ever constant job of improvement, and there is a job for everyone. If you haven't found your job yet, come by the Chamber of Commerce and we will find you one."

"Let's get busy building Morton and we won't have time to think that it can't be done."

Commissioners meet

from page one

antenna from the roof was that a bonded roof could not be attained with the antenna still on the roof.

The salary of Jo Ann Watts, office worker in the tax office was set at \$305 per month or a yearly salary of \$3,660. This was approved on a motion and second by Leonard Coleman and U. F. Wells.

The salary of Mrs. Eunice Mayon, deputy county clerk, was raised from \$305 to \$330 monthly. The salary increase came on a motion by Rawls and Wells.

The salary of Dixie Porter, secretary in the extension office, was set at \$280.

The salary of eight road hands, two each in the four precincts, was raised from \$405 to \$425 monthly.

A motion and second by Wells and Coleman was made to approve the amended proposed budget for the county for the year 1968. However, a discussion was held about the possibility of raising the commissioners' salaries. At the present time the commissioners make \$475 monthly or \$5,700 yearly. In addition, they receive approximately \$65 monthly for travel expenses. The salary and travel expenses combine to make a salary of \$540 monthly or \$6,480 yearly.

The proposition of the salary raise went no farther than the discussion stage.

A new motion by Coleman, seconded by Rawls, brought the approval of the amended budget to a vote. Approving the budget as amended were Coleman, Rawls and Wells. T. A. Washington abstained.

Each commissioner was appointed road overseer for his own county on a motion and second by Coleman and Wells.

A rather lengthy discussion about the possibility of securing more hospitalization benefits was discussed but no decision was reached.

Evan Roberts, representing the architectural firm of Stiles, Roberts & Messersmith, presented the court with written change orders the court had approved at prior meetings. The formal list was approved on a motion by Rawls, seconded by T. A. Washington.

Basketballers

from page one

made 13 in a row. Eight of them came in the final period. Hall had 17 points.

Wayne Thompson for Morton and Larry Moore for Slaton both fouled out. Moore picked up four fouls in slightly more than 12 minutes, but didn't get charged with the fifth until only 2:40 was left in the game.

The B team did almost nothing right, as it fell to Slaton 34-37. Morton led after one period, 12-11. But the young Indians trailed 16-25 and 33-22 at the other rest stop. Bob Hawkins had 15 and Bob Hobson eight for the Tribe. McDonald had 14 and Scott 11 for Slaton.

Other cage action during the week will see the seventh and eighth grade teams at Brownfield Thursday, Jan. 11. First game starts at 5:30 p.m. Brownfield freshmen will come to Morton for a game at 5:30 p.m. On Tuesday, Jan. 15, the seventh and eighth grades will host Denver City at 5:30 p.m. while the freshmen will be in Denver City for a game at the same time.

we even wore them in a pep rally Tuesday to launch the district games. Cool, huh? The seniors were recently measured for their caps and gowns. Sounds sort of sad, doesn't it? But it's already that time, and I'm sure that they aren't worried too much about it — it's just us poor kids who have to stick it out another year that are upset.

This week is nine weeks test week and next week is semester test week, so I'm not sure whether I'll make it through to write another column or not! But just in case I survive, I guess I'll be back next week — same time, same place . . .

Indians take third in Plains Invitational

Morton captured third place in the Plains Invitational Basketball Tournament last weekend with a pair of victories and one loss.

The Indians used a strong third period to down Coahoma in the first round. Morton led 11-10 after one period, but had the score tied 17-17 at halftime. In the third stanza, Morton surged in front 35-23 and then increased its lead to 48-33 at the final buzzer.

Dick Van shoved in 19 points for the Tribe, Rusty Rowden got 11 and Charles Carter nine. Billy King got 11 for the losers.

The Eunice Cardinals tripped up the Morton team in the second round, 46-49. Morton started very slowly and trailed 47-18-23, and 33-41 at the rest stops.

Dick Van and Rusty Rowden had 18 each in that game. Randy Fowler got 16 for Eunice, which fell to Denver City in

Electric cooperative offers reward after gun incidents

Because of the increased occurrence of power outages or stoppages caused by insulators being shot with guns, the management of Bailey County Electric Cooperative has offered a \$100 reward for information leading to the apprehension of persons guilty of such acts.

Shooting insulators is interfering with the finals.

Morton then tripped up the Lubbock Christian High team in the battle for third place. Morton led 10-6, 31-20, 44-35 and won 53-45.

Coach Ted Whillock cleared his bench in that contest. Rowden got 18, Donnie Harvey 10 and Van and Ray King netted each each. Gregory had 16 and Perrin 11 for the losers.

a public utility which is a felony offense punishable by imprisonment in the state penitentiary for a period ranging from two to five years.

J. W. Coppedge, manager of the cooperative, said, while he realizes would-be marksmen have to have target practice, he urges them not to shoot at electric wires, pole insulators, transformers and other equipment. This equipment is part of a complicated and expensive system that provides electric service to the co-op's members.

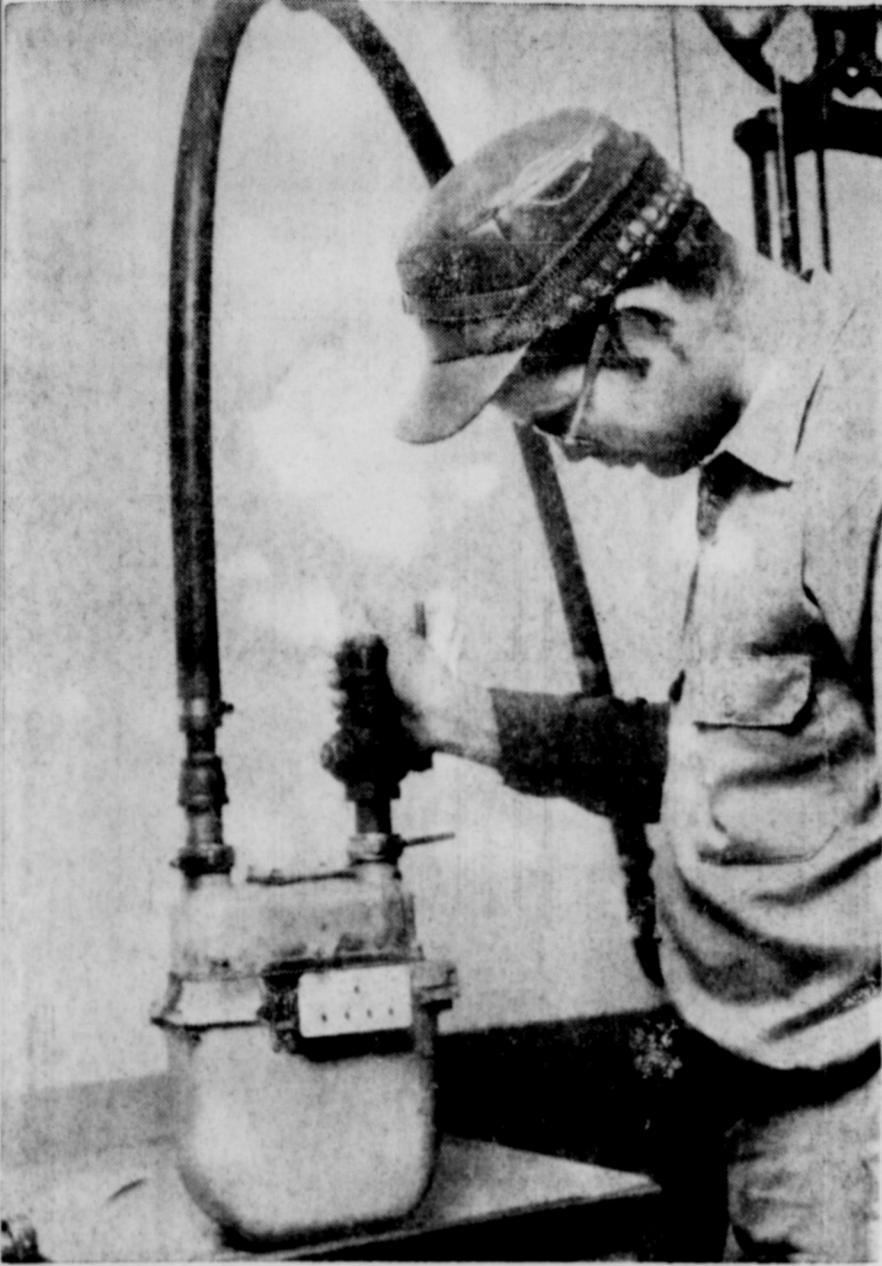

"We would also like to point out that the highlines of this distribution system carry 7,200 volts," he said. "Should the energized conductor fall on the sharpshooter, or be let loose from its supports to where it could be contacted by persons or

livestock, it is an electrocution just waiting to happen."

He added, "So, not only is the person doing the shooting in grave danger, he can create hazards that will endanger the lives of many others. Besides all this is the fact that our members are inconvenienced by being out of electric service and the cooperative is out a lot of time and money restoring the service and replacing equipment that is destroyed."

Coppedge told of recent outages in the Morton-Maple vicinity because of transformers and insulators being shot. On New Year's Day near Maple, the cooperative's telephone cable was shot with a shotgun. He also told of other shooting incidents in the area west and north of Muleshoe.

"We at Bailey County Electric Cooperative," Coppedge said, "take pride in providing good continuity of service, but we need the help and cooperation of everyone in maintaining it and preventing power outages. Please report any incidents of people shooting at, around or near power lines or telephone wires and cables."

Flow test . . .

EDDIE RAY, employee of the City of Morton, does a flow test against a known quantity of gas. The test is run periodically on all city gas meters to insure that the amount of gas that goes through the meter is exactly what was delivered. The testing facilities were seen by the Morton City Council during a recent inspection tour of city facilities. (Staff Photo)

Through the telescope by Jack

Congratulations, first of all, to Donnie Harvey and Billy Smart for being named to the All-South Plains Class AA mythical football team. Both are seniors at Morton High. Smart was named as a linebacker and Harvey as a defensive halfback. And of the 22 players named, Morton faced all but one of them. Denver City had six on the team, Olton landed three, Abernathy three, Slaton three, Friona three, Morton two, and Dimmitt and Midland Carver one each.

This is the week that officially begins a new year for the Morton Area Chamber of Commerce. The new officers and directors have been busy for the past couple of months, but will assume their duties Friday during the annual Chamber banquet. The affair begins at 8 p.m. in the County Activity Building. Tickets are \$2.50 each and are available from board members, or at the Chamber office. They also may be purchased at the door. We have heard the principal speaker, Bee Watkins of Lubbock, and think he is one of the best we've ever heard.

I think I've heard of the illest Aggie. Former County Agent Homer Thompson has been a staunch A&M supporter through the many thin years, absorbing all the Aggie jokes and replying without much enthusiasm, "Wait 'til next year." Well, the year finally arrived, the Aggies won the conference and went to the Cotton Bowl to tangle with Bear Bryant's Crimson Tide from Alabama. Thompson had his tickets, but came down with the flu . . . and didn't get to go to the game! He was limited to watching it over the tube, which is probably more comfortable, but not nearly as exciting. Homer is feeling better now and visiting in Morton Tuesday.

The flu epidemic has been spreading across the country for two or three weeks. It arrived in Morton this week and there are quite a few cases already reported. One junior high student declared, "It's all Muleshoe's fault. They even gave us the flu while they were beating us in that basketball tournament last week."

That might be true. Muleshoe had to cancel three basketball games here Monday because of widespread influenza and a high rate of school absentees.

But there are other games on tap during the week upcoming. The varsity will play at Midland Carver Friday night and then host Denver City Tuesday night. Both are crucial conference games. The younger teams have split schedules. The seventh and eighth grades will play in Brownfield Thursday at 5:30 p.m. while the freshmen are hosting Brownfield here at 5:30 p.m. The situation will be reversed next Monday, when the seventh and eighth squads host Denver City at 5:30 p.m. and the

freshmen go to Denver City.

Congratulations also go out this week to Bula, which won its first boys' basketball game after 51 straight losses. The victory broke a string that extended over three seasons. The girls also won after losing 18 in a row.

We got a report this week from Plains Cotton Growers, which estimates that cotton planting will be up for 1968. The past year saw a total harvest of only 1,150,000 bales, lowest since 1950 and less than half the record 2,344,000 bales grown in 1961. The estimated for 1968 is around 1.5 and 1.75 million bales, with a cautious estimate that production will continue to increase in following years. The forecast is based on the current government cotton stock of less than one million bales. PCG also hailed the rise in quality for 1967 cotton. This should increase even more as more seed from the better varieties becomes available.

Cold! You'd better believe it! Morton got a dandy snow Sunday afternoon, but it tapered off sharply south of town. We got into a terrible fog Tuesday night between Lubbock and Levelland. It took us almost an hour to drive that 39 miles. The forecast is for warmer temperatures and no moisture during the next few days, but the winter of 1967-68 has a good chance to go down as one of the coldest, and one of the wettest, winters in South Plains history. Still ahead is the time of year when we get most of our winter moisture. We are seriously thinking about buying a second pair of longhandles!

The Morton Athletic Boosters met Monday night and decided to hold a pancake supper on Monday, Feb. 5, starting at 5 p.m. With these cold nights, that sounds mighty good to us. Proceeds will help defray expenses of the annual Athletic Banquet. That affair is set for March 15. Texas Tech assistant coach Grant Teaff will be the main speaker.

Cold? It's been frigid And my fingers are rigid. Anyone who finds This winter weather invigorating Can scrape my windshield every morning!

Organizational meeting . . .

FORMATION OF a hospital auxiliary for Cochran Memorial Hospital was discussed during a meeting of the Town and Country Study Club. Among those attending the meeting were, from left: Mrs. Deryl Bennett, R.N.; Mrs.

Ed Pruitt, representative from the Jayceettes; Lupo Orozco, representative from the high school nursing class; Mrs. Doug Ayers, Nurses Aide; and Mrs. Cheryl Inglis. (Staff Photo)

Study Club has program on Texas and National Parks

The L'Allegro Study Club met for a regular meeting on Thursday, January 4, in the home of Mrs. J. C. Reynolds. Mrs. Reynolds gave the opening prayer.

Mrs. Jack Russell, president, introduced the program entitled "The Beauties of the Great Outdoors". Mrs. James McClure gave the first part of the program, Texas National Forests. She told the group that Texas only has four National Forests and they are all located in East Texas. They are the Angelina, Davy Crockett, Sabine and Sam Houston Forests. They all have their headquarters in Lufkin and cover part of eleven counties.

The forests were established so that we could have continuous production of wood and other projects so necessary to man, also to prevent soil erosion and regulate stream flow and water supply, to constitute a home for wild life and serve as a recreation area for millions of people. Last year approximately 7,000 head of cat-

tle were grazed in Texas National Forests by local residents at a small fee to them. Over one million people visited the national forests in 1966. They enjoyed picnicking, swimming, fishing, camping, boating and nature study. There are excellent roads through the forests including U. S. Highway 57 and 287. The National Forests are administered by the Forest Service under the Department of Agriculture.

The second part of the program was on Texas National Parks and was given by Mrs. Van Greene. She said that at the present time Texas has only one National Park, that being the Big Bend National Park. The Guadalupe National Park located between Carlsbad, New Mexico and El Paso, Texas will be open soon and will be Texas' second National Park.

In 1964 the Secretary of the Interior visited the Guadalupe and stated that it met all requirements of a National Park. In 1965 a bill was introduced in Congress and was passed by a big majority creating The Guadalupe National Park.

When an area attains national park status it will have two components — a scientific and scenic reserve area and a high, cool, delightful region, suitable for more intensive public use. When the Guadalupe Mountains National Park project is completed a motorist will be able to drive from Carlsbad Caverns National Park through the Guadalupe and on to the Amistad Dam National Recreation Area, with Fort Davis National Historical Site and Big Bend National Park between them. That drive could not be matched anywhere in the United States for variety of beauty.

The Big Bend was established in 1933 and now consists of 708,221 acres of desert, mountains and Rio Grande country visited each year by more than 165,000 people. Big Bend is primarily a museum of the Western pioneer saga, no replica or reproduction but an actual stage on which the characters in a great American drama played their parts.

Potential visitors might find it hard to believe that Big Bend Park has the lion's share of Texas mountains and deserts. Truly the area is not an optical illusion, legend or myth, but the real thing. One must see it to believe it. Mrs. Green also told the group of the two National Sea Shores, Texas has one. It is Padre Island which stretches 100 miles along the 370 mile coastline of Texas.

Mrs. R. L. DeBusk gave the third and final part of the program on Texas State Parks, she told the group that there are 58 State Parks, but with more people, more free time, and better income there is a definite need for more state parks and improvement of the present facilities. The State is now in the process of restoring and marking historical land markers for parks.

At present there are just too few parks with too many people crowding into them. She pointed out the ones nearest us and gave a little of the colorful history of Palo Duro State Park at Canyon, and McKenzie State Park at Lubbock.

In a brief business meeting following the program, Mrs. Russell announced that clothing had been taken to the school by some members but more is needed. Mrs. Greene also announced that she and Mrs. Bud Thomas had delivered Christmas presents and hairspray and hose to Girlstwon on the day of their Christmas party.

The club voted to give a portion of the proceeds from the Bridge Marathon, to be held in the very near future, to The Strickland Park Committee, a local committee made up of civic groups to build a park located on land donated by Mr. and Mrs. R. C. Strickland. An invitation was read from the 1936 Study Club and Town and Country Study Club to attend a program on Jan. 17 at Fellowship Hall of the Methodist Church featuring Mrs. J. W. Davis of Plainview on "The Dead Sea Scrolls."

A letter was read from the Chamber of Commerce urging the club's attendance at the annual Chamber Banquet being held on January 12 at the County Activity Building.

Members were reminded of the Caprock District Convention of Clubwomen to be held in Lamesa this year on March 22 and 23.

A lovely salad plate was served by the hostess to the following members. Mesdames E. O. Willingham, H. B. Barker, Bobby Travis, R. L. DeBusk, Bud Thomas, Van Greene, Jack Russell, Elwood Harris, Pat Mullinax, Eddie Irwin, James McClure, E. C. Fernandes and one guest Mrs. H. D. Griffith.

Mrs. Deryl Bennett presents program on famous artists

The Y.M. Study Club met January 4 in the home of Mrs. Bob Robinson, with Mrs. George Hargrove acting in the absence of the president, Mrs. Weldon Wynn.

An invitation was read from the 1936 Study Club and the Town and Country Study Club joint meeting in which the program on the Dead Sea Scrolls will be presented.

Mrs. Leonard Groves gave a report on the club's activity in regards to a Christmas party for the special education classes at school. Games for the class, as well as individual games, plus a Christmas tree and refreshments were furnished this class by the club.

Due to conflict, the trip to Girlstwon was canceled until March 14. At this time individual gifts, refreshments, and a program will be presented by the club. Mrs. Herman Bedwell was accepted into the club as a new member.

After the business meeting, Mrs. Kenny McMaster lead in the club collect. Mrs. Deryl Bennett presented the program for the evening entitled "The Lives of Famous Artists".

The lives of three of the old masters were presented.

First on the list was Michelangelo, who is famous for his painting on the ceiling of Sistine Chapel. He labored for four years lying on his back on a scaffold. Even though his paintings have made him famous, he was more interested in sculpture; he also was interested in architecture and engineering. He never married, completed his last painting at the age of 75 and died at 89.

Another famous painter of the old masters was Leonardo De Vinci who took up painting at the age of 47. Among his famous paintings is the Mona Lisa, which took six years to complete. Before his death he wrote a phrase that he claimed was typical of his life, "as a well-spent day gives joy in sleep, so a well-spent life brings joy in dying."

Raphael grew up in a culture atmosphere, since his father was an artist, he was well-versed in the arts. He reached perfection in his painting by careful training and seeking knowledge of the work of others. He fell ill with a fever, and died at the age of 37.

Some of the lives of later artists were discussed by Mrs. Bennett. Among these were El Greco, a Spanish painter who was refused by the Pope in Rome because he wasn't Italian; Goya who was much sought after because of his portraits; and Van Gogh who cared more for painting than eating — so much in fact that he would go four and five days without eating. Then he would become ill with malnutrition, and his family, who were art dealers, would give him money for food, but he would spend it on paints. Most of the painters in this period were known for the mystic quality of painting. This is more vivid colors than the dark background of the old masters. It also does not have the detail

touches like those of the old school.

In closing, Mrs. Bennett discussed the life of Picasso, who is the founder of our present day modern art.

Refreshments were served to the following: Mesdames Deryl Bennett, Max Clark, Joe Davis, George Hargrove, Robbie Key, Kenny McMasters, Dexter Nebhut, Fred Weaver, Billy Weems, Jerry Winder, and Bob Robinson.

★ Meeting slated

The Emlea Smith Junior Study Club will meet Thursday, Jan. 11, at 7:45 p.m. in the home of Mrs. Sandy Asbill, with Mrs. Dale DeBord and Mrs. Ted Whillock as co-hostesses. Mrs. Rodney Fralin will present the program entitled "Never Mind About the Flying Saucer, Who's that Guy Driving It?"

Visiting in the home of Mr. and Mrs. Elzie Brown over the weekend of their daughter, Pat, a student at South Plains College and Brenda O'Hare of Earth, also a student at South Plains.

Glenda and Dena Smith returned to South Plains College in Levelland after visiting in the home of their parents, Mr. and Mrs. Bill Smith over the holidays.

Mrs. Gaylord Aaron Stroup ... Nee Jo Ann Wells

Stroup-Wells recite nuptial vows Jan. 5

Mr. and Mrs. U. F. Wells, St. Rt. 2 Morton, announced the marriage of their daughter Jo Ann Elizabeth, to Gaylord Aaron Stroup of Canyon. The couple were married January 5.

The bride is a graduate of Morton High School and is a junior sociology major at West Texas State University. Mr. Stroup is a graduate of Canyon High School and has attended Texas Tech. He is now self-employed in Canyon.

Midweek Service — 7:30 p.m.

NEEDED — TIME FOR MEDITATION

Every working Mother and housewife will admit that there is never enough time — time for being the mother and wife she'd like to be, time for mending, time for planning well balanced meals. Certainly never enough time to meditate on God and His laws — to think on day by day happenings and consider whether or how they affect God's plan for her life.

One way for her to assure herself this time of needed meditation is to make it her habit to visit the church of her choice each Sunday. The quiet atmosphere of love and peace and prayer will restore a feeling of oneness with God and His plan, and give her strength for the work ahead.

"Be still and know that I am God". Psalms 46:10

"He restoreth my soul". Psalms 23:3

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Coleman Adv. Ser.

Swindlers Sell Fabrics Marked "All Wool"

SALT LAKE CITY.—A smoothly operating band of door-to-door salesmen who sell cheap substitute fabrics as "all-wool" are cheating the nation's housewives out of hundreds of thousands of dollars each year, the American Wool Council has warned here.

The swiftly spreading racket, which foils local authorities in most communities, has reached as far West as Southern California and as far East as Hartford, Conn., according to the Better Business Bureau in New York.

Business cases, victims are persons who can ill afford to be swindled.

Fast-talking and fast-moving members of the organization hit with greatest frequency in rural America. Here, in smaller towns with few stores, these slickly polished gypsies can reach the heart of the nation's budget-conscious, home-sewing market.

Telling a story of personal hard luck, the itinerant salesman offers what are described as luxury wool fabrics at sacrifice prices. Auctions of the racket report. Authentic-looking labels identifying the fabrics as "all-wool" play a big part in clinching most sales.

Only after the salesman has sped away in his high powered car do both the salesman's story and fabric prove to be synthetic.

"These operations, which constitute a nationwide swindle of gigantic proportions, are cleverly devised to escape effective prosecution and are geographically planned to victimize widely scattered segments of the population," says W. H. Steiner, the American Wool Council's president.

"For every one of the hundreds of local incidents reported each year," he adds, "thousands of sales unquestionably go unreported."

How to Be a Sucker in 3 Easy Lessons

LESSON ONE — Things to Avoid

1. Don't read stories like this clipping from the newspaper. To do so may undermine your confidence in hit-and-run salesmen to such an extent that you will never be able to achieve Grade A Suckership
2. Keep away from your local, taxpaying, community-supporting stores. To shop them carefully may interfere with your free acceptance of the salesman's pitch about offering values that the stores can't beat.

LESSON TWO — Have Faith

1. Swallow whatever line the nice man hands you, because he and his company (which you probably never heard of) guarantees what he says.
2. Don't display your rudeness by asking him to further jeopardize his immortal soul by inquiring where he could be found by tomorrow if you had to try to collect on his guarantee.

LESSON THREE — Forget

1. Forget that you may want the people you do business with to help out with local money-raising projects. And where will the peddler be then?
2. Forget that about one-third of the money you spend with local business establishments finds its way into community upkeep and progress, while the peddler puts this part down in his sock.
