Coleman and Rawls retain County Commissioner posts

Incumbent County Commissioners, Leonard O. Coleman and Herral Rawls were returned to their post as County Commissioners from Precinct 1 and Precinct 3 respectively Saturday when county voters gave them nods over H. L. Coon and M. C. (Lefty) Hall in the second primary.

The turnout of 1240 was slightly under the totals in the first primary held on May 4, but it was still better than many observers had anticipated, thanks mainly to a spirited race in the governor's contest.

In the governor's race county voters voiced strong approval for Preston Smith's bid for the democratic nomination as governor as they gave the West Texan a 1055 to 185 vote edge over Don Yarborough.

Smith carried each box in the county by a comfortable margin enjoying his largest success in Box 1, where he compiled a better than 5-1 edge with 625, compared to 104 for Yarborough.

In the only other contest on the ballot, Judge James Joy was favored over Jack Hazelwood, for the court of Civil Appeals by a 721-477 count as the voters of the county went along with the rest of the area in giving the seat to Judge Joy.

In each race the victor carried every box in the county with the exception of the Joy-Hazelwood race, where the two candidates were deadlocked with 48 votes each in the Bledsoe box.

In the commissioners' race it was Coleman 512-Coon 364 in the Precinct 1 race. In the Precinct 3 contest it was Rawls 112 to 53 for Hall.

Sandra Keith is top graduate at South Plains in Levelland

LEVELLAND (Special) "Commencement is a time for new opportunities and decisions, challenging decisions," said Dr. Glenn E. Barnett in his address to the 133 South Plains College graduates Friday morning.

Continuing with his topic "The Control of Man," the vice-president of Student Affairs and Professor of Education at the University of Colorado, said the history of man has been a round of his attempts to control elements, animals, space and self as well as others. The most consuming task sought by every man has been to control self and others. Man's control of himself should be for the good of himself and others.

"Education and freedom are synonymous," he said, "other emphasis should be given to education."

Pirates and Cubs lead Morton Little League baseball action

The Pirates and Cubs continued to lead the league after three weeks of play as they exchanged wins last week to hold identical records.

In action dating back to May 23 the Cubs got back on the winning trail by downing the Giants 8-3 with Tony Salez getting the victory.

In the second game it was the Cards 4 and the Colts 5 with Johnny Rozell of the Cards being declared the victor.

The Cubs took their second victory as Tony Salez again picked up the win aided by a homerun from Larry Thompson, as they dropped the Colts 12-8.

Mike Gilliam of the Pirates pitched and batted his teammates to a 10-5 victory over the Giants in the second game of the 27 as the Pirates remained on top of the league.

Jerry Silhan was the victor in the first game on the 28 as the Cards whipped the Sox 9-2.

The Giants had to use three pitchers to outlast the Colts in the second game Tuesday but outlast they did as they dropped the 45's 16-14.

Moving into more recent action the Pirates downed the Cards 17-7 last Thursday as Tony Cornish went the distance to pick up his second win of the year.

In the second game it was the Cubs on top of the Sox by a 17-5 count with Jimmy Hargis picking up the victory.

Randy Kheuler picked up his third win of the year Monday night as he limited the Cards to 4 runs as the Giants emerged on the long end of a 7-4 final score.

The night cap was an outright slugfest as the Colts battled to a 19-12 win over the Sox, who are still looking for their first win of the campaign.

Tuesday night the Cubs pulled into a lead for the league lead as they handed the Pirates their first setback of the year by the lopsided score of 14-4. Jimmy Hargis was the victor while Donnie Keuhler was tagged with his first loss of the year. Randy Keuhler blasted a round tripper to the nightcap as he led the way to a 21 victory for the Giants as they topped

The Old timer

"Some people's minds are like concrete—all mixed up and set."

How does summer seem to be treating y'all? Isn't it wonderful? Seeing as how I'm unemployed, I've had it pretty easy so far!

Last Thursday night, Carol Freeland and I played hostesses to a surprise going-away party for Donna Hofman at my house. Around 50 kids were invited, but about 30 were all that were able to come.

The party started with volleyball in the backyard, and as soon as the guest of honor arrived, refreshments of homemade ice cream, cookies, and Cokes were served. Then everyone just fooled around till it got dark, and loaded on a trailer for a hayride.

Later, the kids returned to my house and played "Ping Pong" and listened to Randy Kelly's new stereo tapes. After a couple of hours, the boys left and the girls stayed for a slumber party. So all in all, the girls got about four hours of sleep that night!

The Hofmans left early Friday morning to move into their new home on a ranch near Claunch, New Mexico.

Saturday morning the six new cheerleaders (Carol Freeland, Vivian McDaniel, Peggy Thomas, Vicki Goodman, Diane McCasland, and myself) went to Lubbock to order sweaters for next year. They plan to keep the same black sweaters and gold skirts that they wore last year, but are adding a gold letter sweater so that they can change up the suits a little sometimes. They also purchased some clothes to wear to cheerleader school, which will be July 7-13 at Texas Tech in Lubbock.

The squad has already begun practicing so that maybe they can win more honors at camp this summer.

One thing I want to apologize for is forgetting to tell about the twirler try-outs last week. Leading the MHS band during marching season next year will be: Sharon Irwin, Karen Fred, Beverly Browne, Lanita Anglin, and Diane Avery. The first three named were twirlers for the band last year.

These girls were picked after trying out before Mr. John Stockdale, director of the band. The new twirlers plan to attend the band camp at West Texas State University in Canyon July 14-26. They will receive credits for this to add to toward their high school diploma, as band camp is now counted as part of the school's summer school program.

I'm sure more of you have heard the new band in town practicing! The name of the band is "The Trees", and it consists of John Woolley, Doug Scott, Kenneth Taylor, Dale Greer, and Ronnie Allsup. The group has been practicing out at the W. C. Key residence on the Plains highway.

I have a visitor in my home this week. She is my niece, Donna Avery, and will be staying with us for awhile. She will be a sixth grader at Witharral next year.

TURNROW TUNKEL

Don't you think our young people should show more respect for their elders?

Yes. My parents taught me to address men older than myself as "Sir". I still do it, although the occasion doesn't come up too often anymore.

I understand federal authorities have

fuled that each grade school in Berkeley must have an enrollment of 59 per cent white students, 28 per cent Negroes and 13 per cent Orientals.

I thought the schools in my home town were properly integrated, but apparently they are not. If we are going to comply with the law, the government will have to send us some Chinamen.

Did you know that crude oil was once considered a cure-all for many illnesses?

I think it still helps in case of sickness. Anyone who has to enter a hospital these days needs a couple of oil wells.

Did you read about the fellow in New Jersey who sued a photographer because the wedding pictures of his bride made her appear unattractive?

Since cameras don't lie, I don't think he has much of a case. If her biscuits turn out bad, I wonder if he will sue the flour manufacturer.

I see where the Senate has voted to cut off foreign aid to nations that seize American fishing vessels on the high seas.

That's an unreasonable attitude. First thing you know we'll be insisting that countries receiving our aid stop burning our embassies.

What did you think of Frank Sinatra's announcement that he will support Vice President Humphrey for the Democratic nomination?

I don't think Hubert should let that discourage him. There's always the chance that Stokeley Carmichael will come out for Bobby Kennedy, and Adam Cayton Powell will endorse Gene McCarthy.

Tops Club have luncheon May 22

LeFleur Garden Club has discussion on club history

The Le Fleur Garden Club was first organized in July, 1964, at the home of Mrs. Lillian Williamson. The group of women that met together felt a need for gardening and flower instruction to make Morton and the community a more beautiful place in which to live.

Mrs. Williamson was elected the first President of the club. First Vice President was Mrs. Joe Gipson. Treasurer, Mrs. W. A. Woods. Charter members were Mrs. Jack Baker, Eugene Bedwell, Herman Bedwell, W. T. Cramford, Bill Hill, Cubie Joiner, Marion Matthews, S.M.M. Moore, W. A. Woods, Lillian Williamson, Joe Gipson, D. H. Tucker, and Willie Taylor.

The Club became affiliated with the national, state, and district floral and garden organizations. Their theme in 1964 was "Learning through participation."

Among the highlights of 1964, the Club presented a speaker, Mrs. Harold Kelley of Lubbock. The members assisted in landscaping the Cochran Memorial Hospital and presented their Annual Garden Club Show with selected arrangements.

In 1965, the Club took a pilgrimage to Burgett Floral Land near Cloud Croft, New Mexico. On Arbor Day, they planted a tree at the Morton High School. Their theme— "Beauty is everybody's business."

In 1967 the Club donated nine books to the Cochran County Library and planted a second tree at the Morton High School. They won third place in the district show.

In 1968 they received \$75 contribution to the landscaping at the Cochran County Memorial Museum. Also, the Club won first place in state for press publicity.

Student of The Week . . .
MISS PAM REYNOLDS attends Howard-Payne at Brownwood. She is the daughter of Mr. and Mrs. J. C. Reynolds.

Student of the week: Miss Pam Reynolds

The student we recognize this week is Miss Pam Reynolds, daughter of Mr. and Mrs. J. C. Reynolds. She attends Howard-Payne College at Brownwood and is now home enjoying her summer with her family and friends. Pam is a member of the Baptist Student Union and the Greater Council at Howard Payne. She also participates in Intramural volleyball and basketball. She is a member of the Texas Student Education Association and will serve as Vice President this next year. She worked with the College Food Committee this year and will serve as house director this coming fall.

Being asked why she chose Howard-Payne, Pam stated that going to a small college, she was treated as an individual and the friendliness of other students helped in studies as well as adjusting to college life. She recommends Howard-Payne by using their slogan, "Where-Everybody is, Somebody . . ." The athletic program is very good and the college has the Douglas McArthur Academy of Freedom program which is used to

study and major in Social Sciences. The faculty is friendly and willing to serve every student.

Pam will graduate in May of 1969 and she plans to teach. This summer Pam and her mother, Blackie, plan to paint their entire home. Does that sound like a vacation?!

- Cotton talks -

Congressman George Mahon of Lubbock expects a determined, well-planned attempt to impose a limit on the benefits available to any one farmer under government programs when the House considers an extension of the Food and Agriculture Act of 1965, probably about the middle of June.

"I am concerned that the present atmosphere of austerity, the poor people's march and other factors will give this effort a better chance for success than ever before," Mahon told Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc.

"And I can't think of anything that would destroy our farm programs and wreck the nation's agriculture more effectively than limitations," he added.

A bill to extend the Agriculture Act of 1965 for one year, without changes, has been sent to the House Rules Committee by Congressman Bob Poage of Waco, Chairman of the House Committee on Agriculture. Its proponents hope to get it scheduled onto the House floor during the second week of June.

A previous attempt to impose payment limitations was made this year in the House by Congressman Paul Findley, Illinois, who offered an amendment to the Agriculture Appropriations Bill. The amendment was defeated by a vote of 129 to 79, with some congressmen voting against it on the grounds that such a legislative measure was out of place on a money bill.

A similar amendment was submitted to the Senate Committee on Appropriations by Senator John J. Williams, Delaware but was rejected. It will probably be offered again on the Senate floor.

In a conversation with Johnson, Congressman Mahon asked that PCG prepare information that could be used in the House to defeat the limitations efforts he feels are certain to be made.

Working with Area Farm Management Specialist John Seibert, Johnson worked up a cost-income-profit illustration using a typical 480-acre irrigated farm with a 35 per cent cotton allotment and a feed grains base of 62.5 per cent. Projected yields on the sample farm was assumed to be 600 pounds for cotton and 5,000 pounds for grain sorghum.

Using program provisions applicable to 1968 and assuming maximum diversion of both grain sorghum and cotton, calculations revealed that government payments accounted for 39.5 per cent of gross in-

come and 102.6 per cent of net income. In other words, without farm programs the farm would have lost money.

With a \$10,000 limit on payments, which is the figure that keeps cropping up in amendments to farm legislation, net income for the farm would have been reduced by 47.5 per cent.

Seibert, a highly respected farm economist who has studied costs, conditions and returns to farm labor, capital and management on the Plains since coming to Lubbock in 1959 said "with high fixed investments in land, machinery and equipment, adjustment to such a drastic change would be practically impossible. Payment limitations and increasing farm input prices would cut net farm income below subsistence levels."

In PCG's reply to Mahon's request it was noted that about one-fourth of the farmers in Lubbock county received payments of \$10,000 or more in 1966, probably about the same as in 1968 and fairly representative of the situation throughout Mahon's Nineteenth District.

A HAT WOULD BE SO MUCH COOLER!

She must go to the native market for her physical needs. The straw hat would be so much better than the old scarf tied and knotted about her head. Sweet, cool air could come through that straw and that would feel so wonderful in this heat!

Where does she go for her spiritual needs? Is there a church on the island? Does she know that she will be told about a great God there who will help her, guide her, and refresh her?

How fortunate we are in this country that there is a church in every community. Spiritual help, refreshment of soul, fellowship and love awaits all who enter her doors. We invite you to attend Church this week.

AUSTIN, Tex. — Texas' Constitutional Revision Commission has completed its series of winter and spring work sessions, awaiting the Texas charter of government. It will not meet again until August.

Any fair analysis of the status of constitutional revision in Texas would have to be based on a note of pessimism regarding the chances for ultimate acceptance of the committee's work to date.

Main problem for the 25 revisionists to overcome was created when the Commission was established — by a divided legislature — in the spring of 1967.

Originally the Commission was to be formed by a joint House and Senate revision. However, the Senate refused to go along with the plan so the House acted alone. Speaker Ben Barnes named a House Committee. But Lt. Gov. Preston Smith declined to make any appointments. Gov. John Connally gave considerable moral support to the committee, but he is a "lame duck" and will not be governor when the Commission submits its report to the Legislature next January.

IN TERMS of the substantive proposals for a new constitution, the Commission has been far from decisive to this point.

Reports have been heard from various subcommittees on the executive branch, the judiciary, political subdivisions, taxation and other topics.

These reports have been given tentative approval by the Commission as a whole, but on all votes it was made clear that decisions made now can be reversed during the next slate of meetings this coming fall.

One of the most heated debates in the brief history of the Commission came from a recommendation for the appointment of the judges on the Texas Supreme Court and the Court of Criminal Appeals by a five-man commission. Voters would either approve or remove them. At present these judges are elected by the people.

Two members of the Commission were particularly forceful in their argument against this proposal.

H. S. (HANK) Brown of San Antonio, president of the Texas AFL-CIO, opposed the measure as being a dangerous trend for a democratic society. Brown argued that the people have a right to elect their judges.

Rep. Dick Cory of Victoria contended that such a provision in the revised constitution would insure its defeat when the matter is put to a vote.

Dr. Janice May, government professor at the University of Texas, said Cory and Brown are overlooking the realities of the current system of judicial selection.

"Right now two-thirds of all our judges are initially named by appointment from the governor. Then, as a matter of practice, they run for re-election and are almost always retained in office," she said.

Most of the members of the Commission have expressed some desire to strengthen the hand of the governor. They maintain that a majority of the state agencies are virtually free of his influence and can carry out public policy without regard to his wishes. Opponents of the proposal point out that the governor already has authority to appoint 3,000 office holders.

COMMISSION voted 8-7 to limit the governor to a single term — a procedure which would, in effect, make every Texas governor a lame duck for some undetermined portion of his term in office. Commission also favors providing the governor with a four-year term rather than the current two-year term.

Tentatively, the group approved a provision which would require the governor to be elected during "off-years" — years without presidential elections.

Many Capitol observers recall that a constitutional revision commission created by the Legislature in 1957 submitted recommendations after several years of meetings, but no action has ever been taken on them.

WIN CERTAIN — Governor Connally's control of the State Democratic Convention in Dallas on June 11 apparently will be by overwhelming majority.

Will Davis, Chairman of the State Democratic Executive Committee, says 215 of the 254 county conventions passed resolutions endorsing Connally's favorite son candidacy, and 22 more counties are sending uninstructed delegations to the state convention.

SPECIAL SESSION — there will be a hot time in this old town . . . extending from the June 4 opening of the special legislative session until whenever it ends . . . and that is anybody's guess.

Main business, of course, is passing a \$2,500,000,000 appropriations bill to finance state government for the 1969 fiscal year beginning September 1 and

approval of about \$125,000,000 in new taxes.

Governor Connally has recommended general revenue spending of \$465,200,000. That would require \$123,800,000 in additional state taxation. Legislative Budget Board proposes a budget of \$417,000,000 from the fund over which the legislature has direct control, which would boost the tax bill to \$129,600,000.

Connally's tax bill calls for an increase of the state sales tax rate from two to three per cent, with cities to get most of the additional revenue in the form of a direct rebate. Many services not now taxed also would be included in the three per cent levy. Statewide tax would do away with one per cent local sales tax now charged in more than 300 cities that contain the vast majority of Texas' population.

Session also is expected to come to grips with the explosive issue of liquor by the drink. A slight majority of the legislators live in districts which approved the May 4 mixed drink referendum by margins ranging from slight to overwhelming. But that's no assurance the measure will pass.

Atty. Gen. Crawford Martin, Lt. Gov. Preston Smith and House Speaker Ben Barnes also are urging Governor Connally to submit riot control bills to the legislators. They propose laws which would give cities authority to contract with each other for the exchange of police officers in the event of violent outbreaks; empower cities to enact strict curfew ordinances curbing sale of liquor, flammable materials and weapons; make it unlawful to trespass on public property with intent to interfere with public business; ban disturbances of public meetings and provide stiff penalties for interfering with police and others performing public duties in riot-hit cities.

Hold onto your hats and fasten your seat belts. This could be a good one!

RULINGS MADE — Attorney General Martin has held that four new junior colleges can get \$32,369 in state funds based on "full time students equivalents".

Opinion aids Bee County Junior College (\$3,780); Central Texas College at Killeen (\$21,658); Galveston Community College (\$3,733) and College of the Mainland at Texas City (\$3,196).

Martin also held that Comptroller Robert S. Calvert could exempt certain equipment from annual inventory requirement for Clients of the Vocational Rehabilitation Division of the Texas Education Agency.

Attorney General said a justice of the peace in an administrative hearing on driver license suspensions may not make findings or issue orders when licensee does not appear and where service is attempted by certified mail but there is no post office receipt showing delivery.

NEW COLLEGES URGED — Public hearings will be held here June 15-July 10 on major new Higher Education Coordinating Board staff recommendations for

creating six new state colleges to care for expanding big city enrollments.

Proposed program would cost \$201,000,000 over 1973-1977. Staff also advised enrollment restrictions for existing schools after 1972. Full coordinating board is expected to pass on recommendations at July or August meeting.

New colleges were proposed to open in 1973 in these cities: San Antonio; Midland-Odessa offering junior, senior, master's degree work only; Dallas-Fort Worth area also upper-level work; and Houston (second campus of University of Houston).

Upper level facility was recommended for Corpus Christi in 1974. A third University of Houston campus is seen as needed by 1977.

Staff suggested an alternative would be for the state to contract with private institutions to enroll students.

COURTS SPEAK — State Supreme Court agreed with lower courts that mass applications for voter registration are illegal.

High Court in effect declared David Fuentes winner of a 1966 Presidio County commissioner's election. Decision upheld intermediate court finding that nine votes should be taken away from Frances E. Howard, a write-in candidate, because a notary public aided absentee voters by writing in his name for them.

SHORT SNORTS — Governor has named City Corporation Judge Thomas A. Curtis district attorney at Amarillo and Earl Connor judge of 91st District Court in Eastland.

Lt. Gov. Preston Smith named Republican Sen. Ike Harris to the Senate finance committee.

Rep. J. A. Garcia Jr. of Raymondville was sworn in as a new member of House of Representatives, replacing Rep. Bill Rapp who has resigned.

Gov. Connally asked President Johnson to declare Hill County a major disaster area due to 18 inch rains in the area May 7-10.

A planning commission grant of \$698 went to the South Texas Council of Governments and a \$500 grant to Victoria and Cuero Council of Governments.

State Highway Department initiated the planning for an additional bridge on U.S. Highway 290 across the Brazos River in Washington and Waller Counties.

Texas Gulf shrimping is in a closed period until July 15 to allow migrating shrimp to reach minimum legal size, according to the Parks and Wildlife Commission.

National Legislative Conference has issued a code of fair procedures for state legislative investigations and survey of the laws, principles and guidelines which surround such probes.

Dairy-made cultured sour cream is perishable and should be kept cold until used, according to Gwendolyn Clyatt, Extension consumer marketing specialist.

When fresh fruit is plentiful, Gwendolyn Clyatt, Extension consumer marketing specialist suggests serving it with ice cream. Any fruit will work — fresh peaches, strawberries, pears, cantaloupe, honeydew melon. Team up different flavored ice cream with various fruits for tasty experiments.

Keep More of Your Marbles In the Home Game

**After all ... here's where you get to
take your turn at shooting**

Our big-city neighbors offer invitations to us every day to put our marbles in their bigger and fancier rings ... so they can take out more for themselves.

But the game that OUR winnings have to come out of ... is the HOME game. And ... the more of our marbles we put into THIS game, the more WE get a chance to take out.

Maybe you've noticed the city folks bragging

about how much trade volume they take away from the small towns like ours in their "trade area" ... getting our marbles into their pockets for keeps.

Trading at home ... and making it more attractive for our neighbors to trade here ... is the direct and positive route to better jobs, better property values ... better schools, better living ... a better community for US to live in.
