

Baxters' Kin Experience Near Miss

## Relatives Safe After Tuesday Tornado

"To have had five people (relatives) in three locations — all hit by the tornado — and for none of them to have been injured...we are indeed lucky," Mrs. Tommy Baxter said Thursday afternoon. Her parents and sister and her husband's mother and step-father all reside in Wichita Falls, site of a killer tornado which struck that city Tuesday.

Another Floydada couple — Mr. and Mrs. O.G. Mayfield — breathed a sigh of relief when they received a call about 5 a.m. Thursday informing them that their son, Kenneth Mayfield, had not been injured in the twister.

Baxter's stepfather and mother, Mr. and Mrs. Bill Bradley, had gone to the home of friends after hearing the alert. The storm struck as they reached the cellar and Bradley pushed his wife into the cellar and followed her in.

**AUTO DESTROYED**

When they emerged from the excavation, the friends'

residence near the cellar was destroyed. Mrs. Bradley's auto, which they had parked in front of the house, also was a pile of rubble.

They walked several blocks to their home to find it standing, although some siding and roofing had been blown off and the sliding glass door was gone.

### Mrs. Burns Frightened, Not Injured

A Floydada woman had a frightening experience during the Tuesday turbulence, but was uninjured.

Mrs. Leroy Burns had gone to Knox City to take her oldest daughter, Sherry Hacker, and grandson, Clint, to Wichita General Hospital. The youngster had an appointment to have a cast removed.

After leaving the hospital, the trio stopped at Sikes Senter Mall in Wichita Falls. They left some 20 minutes before the mall was virtually leveled by the twister.

Mrs. Burns, her daughter,

The Bradley home is in the north portion of the Faith Village house addition. It is across the boulevard from Sikes Senter Mall, which was destroyed. The residence where they had sought shelter was in the south edge of the same addition.

There were casualties in this area.

**MESSAGES RECEIVED**

Baxter's step-brother's wife contacted the local family about 6:30 a.m. Wednesday to report that the Bradleys were safe. Mrs. Baxter's mother, Mrs. Jack Hairston, finally was able to contact her daughter here by phone at 8 a.m. Wednesday.

Mrs. Hairston noted that she and her husband had shingles torn from their roof, but their residence was not otherwise affected.

Mrs. Baxter's sister, Lynn Hairston, resides in an apartment complex which sustained only loss of some windows.

Miss Hairston talked with her sister Wednesday afternoon and described the situation. She noted that the six o'clock TV news was in progress when the weatherman was handed a sheet of paper and stated: "A tornado is on the ground... everyone take cover!" At this time TV sets blacked out due to power lines being severed.

Lynn Hairston told her

### Easter Mass Slated For 11:30 Sunday

Easter Mass of the Resurrection will be celebrated at 11:30 a.m. this Sunday at St. Mary Magdalen Catholic Church in Floydada. The time previously had been listed as 11 a.m.

## Jail Standards Head Tours Floyd Facility

TAKING THE OATH as city officials are Councilman Wayne Russell, Councilman Jerry Thompson, and Mayor Parnell Powell (left to right), during Tuesday night city council meeting. City Secretary Jimmie Lou Stewart administered the oath.

Robert O. Viterna, acting executive director of the Texas Commission on Jail Standards, accepted an invitation from the Floyd County governing body to inspect the Floyd County Jail. He arrived last Friday morning in Floydada for the inspection.

"Possibly we can come up with some solution within our budget," County Judge Choise Smith said of Viterna's visit.

Judge Smith, Commissioners Bob Jarrett, Aaron Carthel, Grigsby Milton and Jack Lackey, and Sheriff Fred Cardinal made a trip to Austin to discuss the matter with Viterna. Their appointment was for 8 a.m. Tuesday, April 3.

The county officials — joined in Austin by Lubbock architect Marvin Stiles, who has been working with them on the jail project — met for approximately three hours with the Texas Commission on Jail Standards' executive director and with Bob Flowers and Willis Whatley of the Criminal Justice Department.

**GRANT POSSIBILITY**

Judge Smith again talked the following day with Flowers and Whatley "to check out the possibility of a grant on jail equipment." He was informed that the county should be eligible for "some money for life saving equipment."

The county judge "expects" that we will know more after Mr. Viterna's visit.

Renovations in the Floyd County Jail have been ordered by the Texas Commission on Jail Standards in order to reach compliance with regulations handed down by the TCJS.

**EXPENSIVE PROJECT**

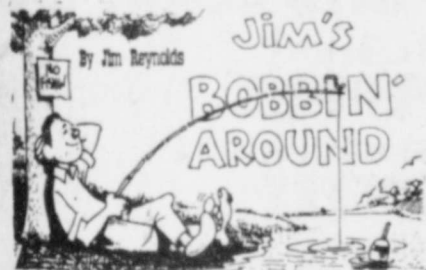

County officials and their architect, Stiles, learned after opening bids March 29 that the proposed jail addition and remodeling project would cost \$501,000. This figure includes detention equipment (cells) and the architect's fee.

After bids were opened and examined, Judge Smith said proposals for detention equipment "really shocked us." The lowest of two bids was \$138,700, "which compares with about \$60,000 for the same work a year ago."

The commissioners court conferred the afternoon after bids were opened and again the next morning before deciding to visit with Viterna before reaching a decision on the jail project.

### Monday Night

## Athletic Awards Due At FHS All-Sports Banquet

Recipients of the Fighting Whirlwind awards in boys and girls basketball and track will be spotlighted Monday night at the annual Floydada High School All-Sports Banquet. The event begins at 7 p.m. in Duncan Elementary Cafeteria. The All-Sports Banquet honors all

FHS athletes taking part in sports other than football.

The banquet will have no speaker, due to the number of award recipients.

Adult fans are encouraged to attend the banquet. Tickets, priced \$4 each, are available at the high school.

# 'Show Them We Care!'

## County Residents Aiding Tornado Victims

Floyd County residents are making a concerted effort to aid residents of Wichita Falls, Vernon and other areas which sustained extensive losses in Tuesday tornadoes which ravaged that area.

County officials started the Good Samaritan project Tuesday and have since been joined by Floydada and Lockney Lions club, churches, and others.

Contributions of food (primarily canned goods), good clothing, and bedding (sheets, pillow cases, quilts, and blankets) are being accepted at three receiving stations within the county, as well as at most churches.

**RECEIVING STATIONS**

Donations of the above mentioned articles may be left at the

Farm Bureau office in Floydada, the county courtroom in Floyd County Courthouse, or at the sheriff's department office in Lockney.

David Cates, manager of the Floyd County Farm Bureau, has offered use of a room in the organization's office to store the items.

Floydada area residents may have their contributions picked up by phoning the Farm Bureau office, 983-3777; Floydada Nursing Home, 983-3704; or Blanco Offset Printing, 983-3739.

**TUESDAY DEADLINE**

Due to the urgent need for assistance, Floyd County sponsors hope to deliver the items next Wednesday. They suggest that all donations be received no later than Tuesday afternoon.

Paul Westbrook, Lion Boss of Floydada Lions Club, said directors voted during a Thursday morning breakfast meeting to contribute \$100 with which to start a fund at First National Bank of Floydada. The Lions took a special offering during their Thursday noon meeting.

Other individuals and organizations are encouraged to deposit their monetary gifts at either of the two county banks.

Ministers of county churches have been contacted and most are accepting donations to benefit storm victims. It has been suggested that churches take special offerings Easter Sunday for this purpose.

**BLOOD NEEDED**

Since one of the most pressing needs, according to reports here,

is for blood which is being required by injured persons local persons were interested in a Floyd County blood drive.

However, Butch Seay contacted South Plains Blood Services officials Thursday and was informed that all employees and bloodmobiles are "booked." Seay is to be contacted if blood is needed.

Blood Service officials noted that they had not received a call for assistance from Wichita Falls at that time. The Lubbock-based organization was "ready to respond" to aid tornado victims if notified.

"Let's show these people (tornado victims) that we are concerned about them and want to help," this newspaper was told.

## Family News

# Double Ring Ceremony Unites Couple

Kingswood Methodist Church was the scene for the wedding of Debbie McKinney and Mike Vandiver on March 17. Parents of the couple are Mr. and Mrs. Jack McKinney and Ken Vandiver of Clovis and Barbara Carroll of Roswell.

Double-ring vows were pledged in a 2 p.m. candlelight ceremony performed by the Rev. E. K. Shepherd, uncle of the bride.

Wedding music was provided by Mrs. Homer Tankersley. Prior to the ceremony, Mrs. Sharon Epps, vocalists sang, "You Needed Me". During the lighting of the unity candle she sang "We've Only Just Begun."

The altar decorations were centered with a circular arrangement of white gladiolas and burgandy carnations and surrounded by an arch and spiral candelabras holding ivory tapers. Palms and greenery with the unity candle completed the decorations.

The bride, given in marriage by her parents, was escorted to the altar by her father. She

wore a white polyester organza gown with empire waistline and Queen Anne neckline. It was decorated with Venise lace. The short sleeves were formed by two rows of organza ruffles. The long A-line chapel length skirt had two rows of organza flounces, topped with Venise lace trim, circling the hemline. The single-tier finger tip veil, edged in Venise lace and a scattering of lace motifs was attached to a matching lace cap.

She carried a cascade arrangement of miniature burgundy roses and white carnations with stephenotis and tiny burgundy streamers and tulle over a white Bible.

Something old was her paternal grandmother's wedding handkerchief; something borrowed was her mother's engagement ring;

something blue was her garter. She wore a gold locket, a gift from her nieces and a sixpence in her shoe.

Dee Griggs, a friend of the

Mr. and Mrs. Mike Vandiver

bride served as maid of honor and wore a long gown of burgundy and ivory floral Qiana knit. She carried a nosegay of white and burgundy carnations accented with burgundy streamers.

The bridegroom wore a burgundy tuxedo and ivory shirt. He wore a single ivory rose in his lapel.

Serving as best man was Tim Curry of Las Cruces, close friend of the bridegroom. He also wore a burgundy tuxedo and an ivory boutonniere.

Ushers were Brad Lewter, cousin of the bride and Roger Watcher, friend of the bridegroom.

Candlelighters were Kim and Heather McKinney, nieces of the bride. They wore long ivory dresses and carnation corsages.

The guests were registered by Mrs. Tim Curry, close friend of the couple.

Following the ceremony, a reception was held in the church fellowship hall. The bride's table was covered in a

white polyester lace cloth. Crystal and silver appointments were used. The four-tiered ivory wedding cake was decorated with fresh burgundy roses and miniature ivory carnations and greenery. On the opposite end of the table was a chocolate cake which was served with coffee.

Assisting at the serving table were Kathy Vandiver, Robin Lusk, Lisa Jilek and Pat Baker. Hostesses for the reception were Irene McDonald, Charlotte Stephens, Bobbie Landess and Marilyn Blair.

Mr. and Mrs. Ken Vandiver hosted a rehearsal dinner the night before the wedding.

The couple was honored at a miscellaneous shower in the home of Mrs. Dennis Baker on February 17.

After a wedding trip to Ruidosa and El Paso, Texas, the couple will be at home at 2918 Sehlton in Clovis.

Mrs. Vandiver is the granddaughter of the late Mr. and Mrs. J.J. McKinney and the late Mr. Ben Johnson and of Mrs. Johnson of Post.

Floydada relatives attending the wedding were Mrs. Ben Whitaker, Mrs. M.L. Solomon, Mrs. G.M. Armstrong and Mr. and Mrs. John McKinney.

### Notice: Notice Floydada Womens CofC To Meet Monday

The womens division of the Chamber of Commerce will meet Monday April 16 at 7:30 in the community room at the First National Bank.

Everyone is urged to at-

tend.

If you have not had the opportunity to pay, and are interested in joining, you may mail your \$5 dues to Box 291, Floydada, or pay at the meeting.

### Victory Baptist To Have Easter Hunt

Many people and the wife of Victory Church, Mr. and Mrs. Smith, will host a childrens Easter hunt Saturday April 14 at 10 a.m. Games will be prizes given to

those finding the largest number of eggs.

#### SUNDAY SERVICES

Sunday services will be at the regular time. Sunday night services will be directed by the young people of the church. Ray Fuller will be the speaker; Aaron Hen-

dricks will lead the singing; David Cochran will make announcements and be in charge of the taking of the offering; and Carol Cochran and Abby Hendricks will present special music.

Everyone is invited to attend these services.

#### FRENCH FRIED ONION RINGS

Slice large onions crosswise (approximately 1/4 inch thick). Separate into rings. Dip onion rings into fritter batter and fry in deep fat, 375 degrees until brown. Drain. Serve. Fry only a few rings at a time.

#### FRITTER BATTER

Beat 2 eggs. Stir in — 1/2 cup milk. Sift together and beat in — 1 cup all purpose flour. 1 teaspoon baking powder. 1 teaspoon salt. Add — 1 teaspoon melted fat or cooking (salad) oil. NOTE: If onions are strong they may be soaked in sweet milk before frying.

### Lockney Woman Nominated For Award

Barbel of Lockney is one of 37 women who have been nominated from 37 community centers for the fourth Outstanding Service Award April 21 on the West Texas University campus luncheon.

which will be held in the WTSU East Dining Hall from 11 a.m. until 1 p.m., is being sponsored by the WTSU Office of Programs for Women.

Mrs. Roy Turley, Lockney, is serving as an area representative for this year's awards program. The 32 area

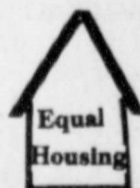

representatives have helped area organizations and individuals submit nominations and are a local source of information about the program.

# Relatives Safe After Tuesday Tornado

Continued from Page One

sister that she had viewed the funnel cloud before she and a neighbor-friend took refuge in the latter woman's hall closet. They could hear destruction being caused by the tornado.

Mrs. Baxter's sister told her that emergency sirens sounded about 5:15, but an "all clear" message followed. They blasted continuously again about 6 o'clock.

### POPULACE AREA

The twister cut a path through the southern part of Wichita. The south and southwestern sections are the most heavily populated. Mrs. Baxter noted. She also stated that her sister reported a majority of the casualties were person in autos.

Mr. and Mrs. Hairston and a neighbor had taken shelter in a storm drain under a

bridge. After the threat has passed they drove approximately three miles of their mately three miles of the apartment of their daughter, Lynn. They spent 1 1/2 hours driving the three miles.

Mrs. Baxter's relatives noted that electricity was restored Wednesday afternoon. Wichita Falls residences still are being advised to boil water.

### FORMER HOME DESTROYED

The residence owned and occupied by the Baxters before they sold it and moved to Floydada in August 1977 was leveled by the twister. The structure is less than a mile from the Wichita Falls football stadium, which sustained heavy damage.

Mrs. Baxter said that their best friends in Wichita Falls — a couple with sons ages

four and one — are safe "but lost everything."

### SON SAFE

Hours of anxiety for Mr. and Mrs. O.G. Mayfield ended at 5 a.m. Thursday when their daughter-in-law phoned from Little Rock, Ark., that her husband — the local couple's son — was safe.

Mayfield, a Civil Service employee for 28 years, was transferred early this year from Little Rock to Wichita Falls. Since his family will not move until the school year ends, he is living temporarily in a mobile home south of Sheppard Field. This is on the northern edge of Wichita Falls.

Stationed in Little Rock the past 15 years, Mayfield is a training command instructor at the Wichita Falls base.

He told his wife that nothing was damaged at the

mobile park where his trailer is located.

Mayfield noted that he had not slept since the storm struck. He is assisting the fire department and electricians during the emergency.

Al Galloway's brother and family resided in Wichita Falls. The sister-in-law and her grandchild were caught in the storm, but escaped harm except for glass fragments in their hair.

### McCLURES VISIT SITE

Mr. and Mrs. Weldon McClure returned Thursday after visiting Wednesday in storm-ravaged Wichita Falls. The Floydada couple drove there to check on Mrs. McClure's sister, Elsie Vaughan. They discovered that Mrs. Vaughan's Giddings Street residence was north of

the damage area.

McClure believes that Wichita Falls destruction "was much worse than Lubbock's." He said the funnel traveled 12 miles inside the city. McClure was told that "three tornadoes possibly went together."

E.D. Morgan's brother resides in the Country Club Addition, which also was north of the tornado's path.

### SERVICE CURTAILED

Mrs. Baxter learned in a Thursday afternoon conversation with her mother that "only a trickle" of water is available. Authorities believe "10 days to two weeks" will be required to restore water service to the point that "full pressure and clean water" is available.

Also only one trunk phone line is operable. Wichita Falls normally uses seven trunk lines.

**BEER CAN CONTAINER** — Jimmy Wilson, Rod Enriquez, and Mac Willson (left to right) are shown after installing a beer can in front of Builders Mart for the purpose to place beer cans. The cans are to be sold and funds used to help purchase an engine for the Boy Scout bus. Persons may call the Willsons at Builders Mart or Jim Willson at Floydada Real Estate and they will pick up the cans.

## SCHOOL LUNCH MENU

**LUNCH:** Bar-B-Que, Seasoned Pinto Beans, Potato Salad, Dill Pickle Spears, Apricot Jello with Apricots, Hot Corn Bread Squares, 1/2 pint milk.

**LUNCH:** Hamburgers on Home Made Buns, Tomato, Lettuce, and Dill Pickle Slices, French Fries, Plum Cobbler, 1/2 pint milk.

## First Baptist Media Center

interested in reading chapter five in Etta Lynch's **Help Is Only A Friend Away**. This is, in brief form, the story of evangelist Boyce Evans. It begins with a seventeen-year-old boy's call to preach, his rebellion and despair when his father failed to understand, war years and more grief with a return to college to set his feet on the path toward being a minister briefly interrupted by a three year love affair with the world of rodeo. There are other inspiring stories in this volume to lift and encourage.

Do you like to read diaries? Kathryn Griffin shares her life in the form of her diary and titled **Blessings For Blah Days**. The lessons she has learned have helped her to find that a nothing day can turn into a miraculous blessing. She says, "By re-viewing the joys in everyday living, we can remind ourselves that happiness, like honesty and integrity, is a habit to be cultivated."

Each of these advertised items is required to be readily available for sale at or below the advertised price in each store, except as specifically noted in this ad. We reserve the right to limit quantities. None sold to dealers.

JUST A LITTLE muddy were Joe and Monte Covington when this photo was taken by their mother, Tanya Covington. For the picture made when her sons were three and five years old, Mrs. Covington receives photo honors for this edition.

**The Floyd Philosopher**

Floyd Philosopher Comes To Rescue Of TV Networks Fighting To Become Number One

Editor's note: The Floyd Philosopher on his Johnson grass farm in Floyd County reflects on the TV networks this week.

Dear editor:

Although all three TV networks are making huge profits, nonetheless I understand there is bitter rivalry among them to see who can be Number One.

By Number One they don't mean the best; they mean the one with the biggest audience. If ABC attracts 35 million viewers at 8:30 tonight, CBS 31 million, and NBC 29 million, ABC gloats and the other two sulk. If I had a business that paid me at the rate of \$250,000 a minute I'd find it hard to sulk because somebody else was making \$275,000 a minute.

It took me 30 seconds to write that last sentence. At network rates that's at least \$125,000. If I'd put my mind to it I could have taken a full minute, or \$250,000 worth, but there's far too much inflationary gouging going on in the world today and I'll settle for a reasonable \$125,000. Where do I send the bill?

To cut out the squabbling and bitter competition among the three networks I've drawn up some new categories that'll enable each to share equally in the ratings. You can make the following ballot and mail it to the network of your choice:

No. 1. in trash. (ABC) (CBS) (NBC)

No. 1. in awful commercials. (ABC) (CBS) (NBC)

No. 1 in lost pictures due to technical difficulties. (ABC) (CBS) (NBC)

No. 1 in violence. (ABC) (CBS) (NBC)

No. 1 in one-sided news reporting. (ABC) (CBS) (NBC)

No. 1 in silly comedies. (ABC) (CBS) (NBC)

You will notice I've listed six categories. There's a possibility each network could receive two first-place votes, or all could receive six votes apiece. In either case each could claim a tie for first.

Yours faithfully,  
 J.A.

**WHOZITS . . .**

**Carthel Not Known As Floydada Whozit**

One person guessed another man but no one correctly identified A.C. Carthel as last week's Floydada Whozit. Carthel, owner of a custom farm supply spray company, was pictured in the long ago picture aboard his horse, Nichol. He has spent his entire life in Floyd County.

**FLOYDADA WHOZIT** — This local farmer is a long-time, well-known Floyd County farmer. He should be easy to identify. Persons who would like to guess are invited to contact our office Monday through Wednesday.

**Delvin And Debbie Are Lockney Whozit Kids**

**LOCKNEY WHOZIT** — Everybody should be able to recognize this Lockneyite from the third-grade school picture. Call the Beacon Office, 652-3318, Monday through Thursday to see if you guessed right.

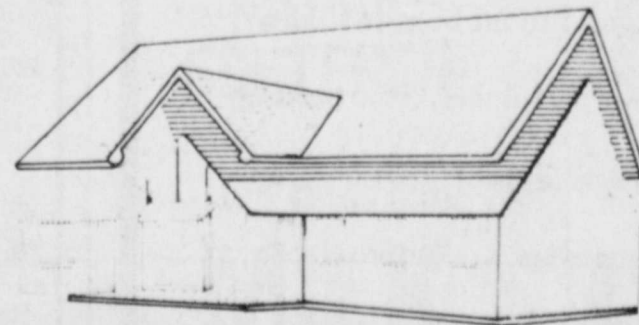

Last week's Lockney "Whozits" were Delvin Bybee and Debbie Bybee Stennett. Elaine Hardy correctly identified the Bybee kids. She was the only one who did.

"Oh, just worms."

take a good look inside

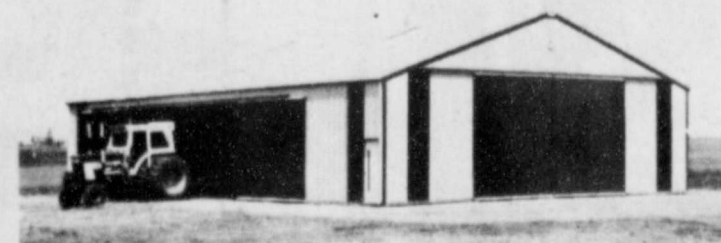

An Energy Efficient Home may look like other houses on the outside. But when you take a really good look inside — inside the walls, under the floors, in the ceilings — you'll discover why the Energy Efficient Home saves energy and money. TAKE A GOOD LOOK inside your house. Discover how energy improvements like insulation, weatherstripping and caulking will make your home more energy efficient and get you more for your energy dollar. # FHS College-Career Day Deemed Success

CHECKING out the literature are FHS students during college-career day Wednesday.

Fourth In A Series

## 'Risk' — A Part Of Any Investment

[Editor's Note: This is the fourth in a series of five articles on real estate investments.]

There is no such thing as a "risk-free" asset, emphasizes Dr. Richard Floyd, real estate economist with the Texas Agriculture Extension Service.

"There is financial risk, purchasing power risk, liquidity risk and interest rate risk for any property."

Cash hoards may lose purchasing power over time. Other assets may not even return their initial investment value. The investor may then lose part of his initial investment if quick cash conversion is required, the economist explains.

How does real estate rank

relative to other forms of investment? "Generally, real estate would receive high marks for rate of return, ability to acquire the asset with borrowed funds, tax shelter and inflation protection," Floyd points out.

The economist gives real estate an average rating for "risk." But compared to other investments, real estate may be more difficult to liquidate in a localized market. Also, real estate transaction and management fees are higher than with other investments.

Of course, some forms of income-producing real estate enable the owner to enhance personal satisfaction with lake cabins or condominiums on the beach, adds Floyd.

Following an inspirational address by George Bourns, public relations director for Producers Grain Corp. of Amarillo, students at Floydada High School spent the morning Wednesday exploring various occupations at college-career day.

Bourns told students that if they really want to do something, they should make every effort to follow through on their career aims. The public relations specialist emphasized his belief in young people and advised them not to let discouragement get them down.

### 55 GUESTS

Fifty-five guests from out of town, along with several local leaders, led individual sessions on careers ranging from restaurant management to jobs with major airlines.

After Bourns' opening address, students were scheduled to participate in activities in three major areas: financial aids, college recruiting, and sessions with leaders in various career areas.

Cliff Baker of West Texas State University explained the various sources available from which students may secure money for financing their education. Baker encouraged students to enlist the aid of their high school counselor in pointing them toward sources of educational funding.

Representatives of 25 colleges, businesses, trade schools, state agencies, and the military were present for college-career day.

Floydada residents on Wednesday's program and topics on which they spoke were: Bill Cagle, ag business; Ray Reed, mechanics; Steve Herber, county agent; Gene Ehler, public services; Vernon Parker, photography; Pat Cochran, hair dressing; Jim Reynolds, journalism; and Bobby Gilliland, printing.

## Photography 'Discovered' By Kendrick

When Byron Kendrick and his wife Ilene went to Washington, D.C., early last year as participants in the farm strike, they carried two small cameras.

They were pleased with their photos...until they saw pictures from an SLR belonging to Mrs. Kendrick's brother.

This built up in the young Floyd County couple a quest for quality photographic equipment.

The desire finally reached culmination when Kendrick's home-type camera "broke down during our daughter's birthday party" last August. He purchased a SLR model for his wife.

Ilene preferred a less complex type and returned the SLR to her husband. He was "impressed with the pictures" and the photo bug bit him hard.

Now the owner of a quality AI model, Kendrick processes much of his own film and hopes to set up his own photo studio.

Things have happened rapidly since his amateur camera failed to perform at his daughter's birthday party last August!

### DIFFERENT SCHOOLS

When asked what she thought of college-career day, Floydada junior Tina Thompson said, "I really enjoyed the gym. It had all the different schools and the different things they offered. They had pamphlets that you could look at."

Debbie Dobbins said, "I love it. I'm going to school to be a beautician and then work my way through fashion merchandising."

Duncan Woody responded that he had "...learned the different careers available. Different schools have better facilities for certain careers."

Coordinator for college-career day was Joanne Cagle, school counselor. She was assisted by Jim Cornelius, who served as student coordinator of college-career day and was largely responsible for the "organized manner in which the program was conducted."

According to Cornelius, "a lot of work went into planning career day, but there were always people willing to help. I want to express my appreciation to all those people who helped."

### ORGANIZATIONS ASSIST

Organizations participating in college-career day and their major contributions were: DECA, student leadership; FHS, refreshments; FTA, student guides; FFA, moving and setting up furniture; OEA, typing class rolls; and Student Council, overall support.

Individual students who gave a special effort toward the success of college-career day were: Lucy Pierce, Suzanne Dyess, and Melody Powell for typing correspondence to out of town guests; LaDelle Noland, Terry Willson, Pam Muncy, Darla Assister, and Kristi Willis, art work; and Terry Willson, publicity. Serving as hostesses were:

Yolanda Morales, Elva Gonzales, and Melody Powell.

LaDelle Noland, president of the Student Council, stated that "...the seminars were very impressive. The guest speakers and college recruiters were very friendly and down to earth and were willing to help in any way possible. I believe everyone enjoyed themselves, the students as well as the college recruiters and speakers."

"Whirl" Editor Terry Willson added, "I think that all students benefited from the sessions. Even if students discovered a field they were not interested in, they learned something that will enrich their future."

### EVENT LAUDED

Perhaps the most perceptive comments came from the guest speakers themselves. Wesley Watson, assistant manager of the electronic switching system component of Southwestern Bell in Lubbock stated that he "...really enjoyed it. I think they ought to have a career day everywhere. I had no idea of what I wanted to be when I grew up."

Gary Anderson, divisional merchandise manager for women's and children's apparel at Hemphill-Wells in Lubbock said, "Because I graduated from a high school of similar size, I realize that you can't put too much emphasis on career day. I wonder if one day is enough." Anderson added that students should be serious about career day and take advantage of learning from people who take their time to talk to students.

Following activities at the high school, Floydada Rotary Club served lunch and provided fellowship for guests of college-career day. The luncheon was held in Massie Activity Center.

Several "hometown" people returned to speak at college-career day. They included: Bobby Whitaker, who discussed careers as a correctional officer; Jimmy Parker, assistant to Cliff Baker, director of student financial aid at West Texas State; Jerry Chapman of Amarillo College, who discussed careers in mid-management; Louis Reid Cardinal of Post, a member of the Department of

Public Safety; and Paula...

### STATE CAPITAL HIGHLIGHTS

By Lyndell Williams  
TEXAS PRESS ASSOCIATION

AUSTIN—What consumers pay for a gallon of gasoline will be going up again. Soon.

In the near future, what it costs to fill up your car or truck will definitely jump four cents a gallon. But don't blame the politicians. That price increase is the work of major world petroleum producers, such as Iran and Saudi Arabia, that announced this week an 18 percent jump in what they charge for a barrel of oil.

Down the road even further, another five cents will probably be added to the price we pay for a gallon of gas. This time you can blame the politicians.

That extra nickel we'll be paying at the gas pump will come as the direct result of lifting price controls on what domestic producers of oil get for their product.

REGIONAL BOUND are six Whirlettes varsity tennis performers following the district trials. Pictured front row left to right are Tana Tyer, Tracy Tyer, and Esmo Gonzales; bottom row from left, Kim Barnett, Stacy Graham and Kara Copeland. Tommy Baxter is their coach. Whirlettes won five of six district events.

Floydada football fans will have an opportunity to make a trip to Dallas for another Cowboys football game this fall, according to Lance Barrow, Floydada Chamber of Commerce manager. The CoC is sponsoring the trip.

"The Chamber is accepting names for the Cowboys game, Sept 16 in Dallas," Barrow said. The Cowboys are to play the Chicago Bears, led by Walter Peyton.

Floydadites making the trip are to leave Sept. 15.

Costs are to be determined by the number participating. "The cost last year was \$95, and it shouldn't be much more this year," Barrow says.

The local group possibly will fly to Dallas. "We would like to have names of those planning to make the trip by May 1 in order to arrange for tickets, travel and motel accommodations," Barrow noted. Interested persons should contact Barrow at the CoC office for additional information.

# FARM & RANCH NEWS

## Rural Land Values In Texas Rise Sharply

By Ivan W. Schmedemann And Robert J. Rothe  
Texas A&M University Real Estate  
Research Center

Rural land values in Texas reflected considerable market pressures during the first half of 1978.

This change represents the first significant increase in rural land values to occur since the major market adjustment which began in late 1974 (see accompanying Table 1).

Rural land values were estimated to have risen nearly 9 percent to a high medium price per acre of \$550 during the first six months of 1978. This price adjustment on an annual basis approaches the record years of 1973 and 1974 when the per acre rates of appreciation were 19.5 percent and 21.4 percent, respectively.

### INFLATION PRESSURE

Inflationary pressures, which have been building throughout the entire U.S. economy, undoubtedly are the major force behind the new surge for rural land acquisitions. Defacto devaluation of the U.S. dollar increases the demand from both agricultural and non-agricultural investors as they attempt to get dollars and into more durable low risk types of investments. Under these circumstances, tightening

of credit does not severely dampen the land market—certainly not for large tracts of rural land.

Continued inflation will have a negative impact on the market for smaller units as potential buyers find that the purchasing power of their incomes have been greatly reduced. This situation combined with costly or non-available credit will eventually reduce the demand for smaller tracts of rural land.

Regional changes clearly show the aggressiveness of land buyers. During the first half of 1978, nearly 50 percent of the regions were reflecting a rate of increase in median per acre values of greater than 10 percent over 1977 prices; this is nearly double the number of regions appreciating at the above 10 percent rate in 1977. Figures 2 and 3. Five regions declined slightly in 1977 while only one was down slightly in 1978.

The price per acre of rural land in Texas has continued to move upward since the depression of the 1930s; by July 1978 the median value per acre reached \$550. Some land in Region 8 can still be purchased in large tracts for

less than \$100 per acre which is the low for the State.

### METRO REGIONS

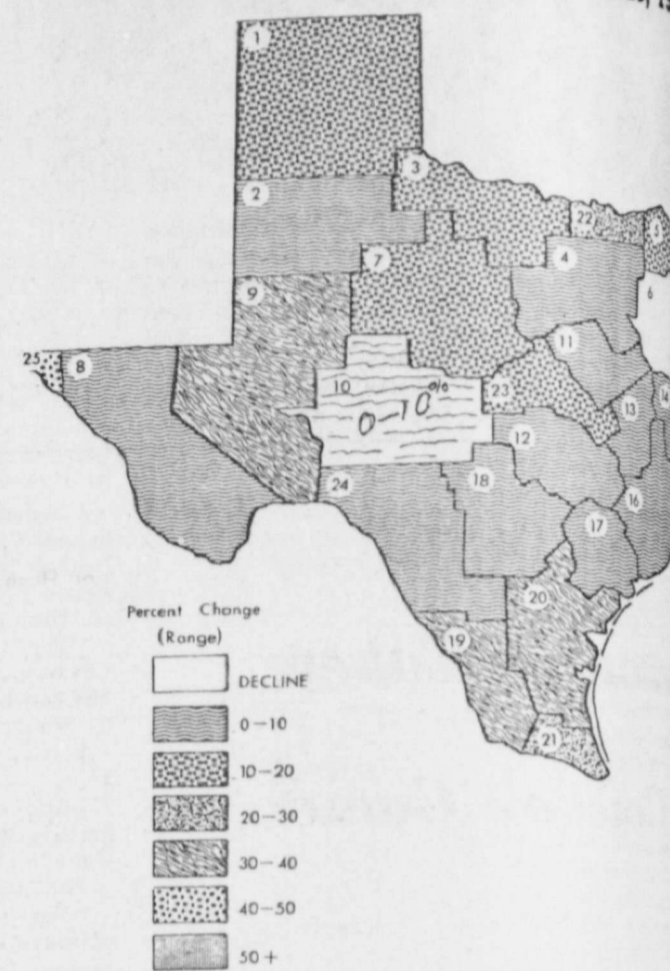

Rural land values are generally higher in regions where major metropolitan areas are located. The highest values reported are in Region 16, Houston metropolitan area; Region 21, Lower Rio Grande Valley; and Region 25, Upper Rio Grande Valley.

The Dallas-Fort Worth metropolitan area has a major impact over both Regions 4 and 22. The Bryan-College Station area, Region 13, one of the smaller metropolitan areas, has some of

the higher valued rural land in the state.

Rural land in Texas generally can be expected to continue the upward spiral for many years to come. Reasons for this optimistic view is that the population of Texas is increasing rapidly as a result of in-migration. Many major industries are shifting to the Sunbelt, and Texas is and will continue to receive a large share because of its favorable endowment of both human and natural resources. Therefore, a high rate of economic expansion combined with rising per capita income will continue to generate a large demand for rural land resources in the state.

Figure 1: Percent Change In Median Price Per Acre Land, By State Planning Regions, Texas, 1977-78

## PCG Producer Director To Be Elected For County

Floyd County cotton producers and agribusinessmen will elect a producer director to Plains Cotton Growers, Inc., at a 7 a.m. breakfast meeting Monday, April 23, at Strickland Restaurant in Lockney.

Announcement of the election comes from Kenneth Wofford of Lockney, current Floyd County producer director to the 25-county cotton organization, and Ray Ferguson of Floydada, businessman director.

Each of the counties in PCG territory has two directors, one a businessman and the other a cotton producer.

They are elected on alternate years for two-year term. Each is eligible for re-election every second year.

All producers and businessmen are invited to the meeting. However, under new PCG By-Laws, only current dues-paying members of PCG will be eligible to be elected a director or to vote in the election. This provision of the by-laws will be fully explained at the meeting.

A PCG staff member will conduct the election, give a brief program and answer questions about the organization and its objectives.

## Around the County County Agent's Column

By Stephen R. Herber  
Floyd County Extension Agent

### LARGER COTTON CROP TO DAMPEN PRICES

Cotton prices for the 1979 harvest season will likely fall if plantings increase as expected.

The marketing specialist says prospects for more production, small U.S. 1978 cotton supplies, and strong export demand will highlight this year's cotton picture.

With normal yields, this year's production could develop into a 13-million-bale or larger crop, thus pushing prices down. Plantings should total 13.5 to 14.2 million acres compared to 13.4 million last year. Prices could approach the 1979 Commodity Credit Corporation (CCC) loan rate of 50.23 cents a pound for Strict Low Middling, 1-1/6-inch cotton by late this year.

With prospects for lower cotton prices, producers may want to consider forward contracting or hedging in the futures market during the next several months when and if a favorable price can be established.

Expected export will total six million bales this year, with cotton disappearance for the 1978-79 marketing year reaching 12 million bales. The estimated 1978 crop was 10.8 million bales.

Cotton stocks will total about four million bales by Aug. 1, down 1.3 million bales from last year. However, carryover stocks will remain close to the average since 1974.

U.S. cotton supplies will likely increase from one to two million bales

during the 1979-80 crop year, resulting in a carryover of five to six million bales by Aug. 1, 1980.

Foreign cotton supplies are also smaller, with carryover declining one million bales to 18 million. This is the smallest foreign carryover since Aug. 1, 1971.

Cotton prices strengthened last fall largely because of the small U.S. crop and strong foreign demand. Yet heavy sales in Jan. contributed to a sharp slump in prices. Average prices to Texas growers dropped from about 60 cents a pound in November to around 52 cents in February. Currently, overall demand for existing cotton supplies appears soft.

Over the short run, spot prices will probably move up and down several cents a pound as new developments (reflecting supply and demand) surface. Reports of intended plantings on April 16 will be an important indicator of prospective supplies.

Relatively weak prices for feedgrains and rice may give cotton enough price advantage for growers to increase production this year, however, slowdown in economic activity and the threat of stricter dust control standards.

Exports should slip a little because of increased foreign production.

Cotton growers overseas are expected to increase production in response to higher prices than a year ago. These higher prices may encourage competition from manmade fibers and dampen growth in foreign mill use of cotton.

## Grain Sorghum Target Prices To Increase

The 1979 grain sorghum target price will be increased as a result of a challenge by the Grain Sorghum Producers Association. The new target price will be approximately \$2.35 per bushel or \$4.20 per hundred weight, according to Dr. Howard Hjort, USDA's director of economics, policy analysis, and budget.

After the announcement of the 1979 feed grains program, GSPA challenged the 1979 target price of \$4.10 per hundredweight. When corn received a 10 cent per bushel increase in the 1979 target, sorghum received only a two cent increase. GSPA contended this was a direct violation of the law.

After making several appeals to USDA and receiving no encouragement, Elbert Harp, executive director of Grain Sorghum Producers Association, documented to members of the House Agriculture Committee that the 1979 target prices are in violation of the Agriculture Act of 1977. When Dr. Hjort appeared before the Subcommittee on Livestock and Grains on April 3, 1979, several congressmen questioned him about this problem.

When Congressman Charles Stenholm of Texas questioned Dr. Hjort, he said, "There seems to be a discrepancy in the final level of the grain sorghum

target. Would you care to comment on how the formula was used to establish the grain sorghum target price for 1979?"

Dr. Hjort responded by saying, "There is, in fact, a discrepancy. The target price that was announced for grain sorghum was too low. The \$2.30 will have to be increased, very likely to \$2.35 in order to be consistent with the law." In addition to Stenholm, Congressman Kent Hance, (D-Texas) and

Keith Sebelius, (R-Kansas) were prepared to pursue this same line of questioning.

Dr. Hjort's acknowledgement of the error and his pledge that it will be corrected assures the grain sorghum farmers of the nation of an increased target this year. This increase will give grain sorghum farmers up to \$35 million additional income.

The Grain Sorghum Producers Association is the grain sorghum farmers' representative in legislative and market development activities. Their executive office is in Lubbock.

### TAX LAW FAVORABLE TO TIMBER OWNERS

Timber owners are getting a break in the latest tax law changes, notes a forestry specialist with the Texas Agricultural Extension Service. The change in capital gains deduction from 50 to 60 percent which became effective Nov. 1, 1978, will help reduce the tax load. Effective Oct. 1, 1979 Forest Incentive Program (FIP) payments will not be included as gross income. A third change that becomes effective Jan. 1, 1980, is the carryover basis rule delay which requires an heir to take the deceased owner's basis when selling inherited property.

### Calcium Essential To Cotton Plant

Calcium plays important part in every phase of the growth and development of the cotton plant. Notably low in calcium seedlings germinated in calcium deficient soil develop symptoms that are caused by certain

Primary roots of seedlings become waterlogged and quickly die, according to the Texas Agricultural Extension Service.

Absorption of other nutrients dependent upon an adequate calcium. Membrane structure and wall structure are affected with calcium nutrition.

Movement of carbon leaves to the rest of the plant. A continual supply of calcium is strongly influenced by the element in the growth medium.

Calcium serves to increase tolerance of cotton to

The Agricultural Advisory Meteorological Service in Lubbock has been a valuable asset to agricultural operations research for the past 14 years, says Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc. "We intend to do all we can to keep it."

This was Johnson's reaction on hearing that the agricultural weather service was to be discontinued no later than October 1, 1979.

PCG played a large part in getting the service for the Plains in 1963 and 1964. The first agricultural advisory meteorologist, Oliver Newton, was assigned to Lubbock in 1964. He served until his retirement in 1978 and the office is now filled by Kenneth Wigner.

The Lubbock office is one of six scheduled for closing this year. Others are Clemson, S.C., Kearneysville, W.V., Brunswick, N.J., Corvallis, Oregon and Twin Falls, Idaho.

The National Weather Service (NWS) plan calls for placing the offices at five of the locations, all except Lubbock through cooperative grants with land grant colleges or universities. Services now provided by the Lubbock office, which report, would be supplied in the future by the Environmental Science Service Center at Texas A&M University.

This approach is totally impractical for the High Plains. Johnson told Senators, Congressmen and the NWS director in recent letters.

"The soil temperature and soil moisture surveys, climate studies, hail studies, research into weather effects on growth and development of crops and other work we provides valuable information to our producers—informed we use intensively and have come to depend upon—cannot be done in absentia."

To Senators and Congressmen Johnson pointed out that the soil moisture survey alone, aided by financial grants from the NWS has more than paid the cost of the service in irrigation water savings "both of which serve national interests."

It is generally agreed by agricultural research scientists that others in the area that the service can be continued and be effective if an on-the-spot agricultural meteorologist provided through a cooperative grant arrangement with Texas A&M, Johnson says, "and it now appears that an effort in that direction is the most likely to succeed."

## CARDS OF THANKS

We wish to express our sincere thanks for the many acts of kindness shown us at the sickness and death of our loved one. For the prayers, floral offerings, cards, donations, and food sent in, we are grateful. A special thank you to Dr. Mangold and the entire staff of Lockney General Hospital; Also special thanks to Bro. John Jenkins. May God bless each of you.  
Belle Shankle

## TO ALL OUR FRIENDS AT FLOYDADA

WE thank you so much for the concern you had for us while we were unable to help ourselves. We will always remember you for all the help you gave us at a time of need. We feel we are on the road to recovery now and will be "up and going" soon. It makes us feel closer to the good people of Floydada than ever before. May the Good Lord bless you for these good deeds, is our Prayer.  
Menard and Jettie Field

It's Easter...the highest of Holy days. As members of His family ...we gather together to reflect the miracle of Christ. The memory of our Lord's rebirth lives each year in the coming of Spring when the season blossoms with hope and love's promise...celebrating this joyous occasion. Rejoice! He is in us and we in Him.
