### SAM CATES CAPTURED IN CALIFORNIA

Lubbock, Texas, Jan. 30.—Sam Cates we are advised, has been apprehended in Indio, California, and Sheriff Charlie Holcomb, left Saturday morning to bring the prisoner back to this city. Being a fugitive from justice, arrested in another state, it was necessary for Sheriff Holcomb to rush to Austin and confer with Governor Pat M. Neff relative to the matter, and to obtain the necessary requisition papers before going to California to receive his prisoner; these were delivered to him by the Governor Sunday morning and he left immediately to bring the man he had been chasing the past four months, back to Lubbock.

The Herald has been furnished a brief history of the Sam Cates case which will run in these columns next week.

**FARM WANTED:** Want to hear from owner of a farm for sale, give lowest price and full particulars. L. Jones, Box 551, Olney, Ill.

### REV. ANDERSON RESIGNS AS BAPTIST PASTOR

We have been reliably informed that Rev. J. E. Anderson has resigned the pastorate of the local Baptist church, effective immediately, and we understand that he will leave on next Monday. He will preach his farewell sermon for the congregation Sunday. He has not definitely decided where he will go, but we understand that the church at Mt. Vernon, Ill., has unanimously called him to be their pastor. This is the place he recently held a meeting, where twenty-five were converted, and it was declared the best meeting they ever had. Rev. Anderson has many close and true friends here both in and out of the Baptist church. He stood for the best in moral and spiritual welfare, and not only his church, but the entire community shall lose a good man, a sound preacher, and an excellent family.

**FOR SALE:** Milk cow; also Columbia Graphophone. Bargain for cash. J. A. Darden, City.

### ROTAN MAN COMMITTS SUICIDE LAST MONDAY

The people of Rotan and vicinity were shocked and grieved to learn of the death of T. L. Smith, Monday, which occurred at the family home a few miles east of town.

It was reported that while the other members of the family were at breakfast early that morning, Mr. Smith took a pistol and went out on the back porch and shot himself in the body, the ball going through the body just below the heart. Medical attention was quickly summoned and everything done that could be, but he died about eleven o'clock.

It was said that mental despondency was the cause of the act, though his financial affairs were said to be in excellent shape.

Deceased leaves a wife and five children.

**HOUSEWIVES** get Magnolia kerosene and notice the difference. If me line of lingo don't suit ye, me chucks the job. Me name's Liz and

### EXPERTS ARRIVE ON TIME— GOOD SPEAKING FRIDAY

The speakers sent out by the West Texas Chamber of Commerce that we have been telling you about for some time arrived on time last Friday, and found a good crowd at the Court House composed of both men and women, farmer and business men.

C. C. French, of Fort Worth, representing the Fort Worth Stock Yard Co., gave those present some valuable lessons on live stock husbandry, and was listened to with rapt attention. Mr. French has been a student of the livestock industry for about 30 years, and seems to be able to tell you all about it off hand.

Mr. Whitaker is an expert exhibit man, representing the West Texas Chamber of Commerce, who has carried west Texas exhibits to victory at many of the large city fairs. The citizens of this town and county promised him that they would send a good exhibit at the Fat Stock and Agricultural Show at Fort Worth in March.

Mr. J. W. Ridgway gave the farmers an excellent talk on dairying on the farm, in which he brought in the importance of our grain sorghums, and the part that poultry and hogs play in cleaning up the waste after the cows, and the almost clear profit from them.

The ladies were disappointed in the non-appearance of Miss Murry, who was forced to leave the party at the last minute and go to an exhibit car over on the Denver.

The business men as well as the farmers were pleased with the program.

### THE CHURCH OF CHRIST

Dear reader: Are you attending services at the Church of Christ? The interest and crowds are growing each Sunday. Some of those who have been attending have been greatly revived, and some who have not hitherto taken much interest in things pertaining to the church, are finding that there is more in the religion of Jesus Christ than they had known.

I am trying to present real gospel messages of love and mercy and help with impressiveness, that it reaches the heart of the hearer with such force that it makes the hearer to know that God is, and that he wants to bring peace and joy to the sin-sick and troubled soul. We are trying to persuade people to take the stand for God and the right. Can we depend on you, who know God, to help us in the battle for life against death?

We had a larger crowd last Sunday night than we expected, and splendid services, with one confession and baptism.

Preaching next Lord's day at 11 a. m. and 7:30 p. m. Bible School opens promptly at 10:00 a. m. Bible Class every Thursday at 3:30 p. m., and singing every Thursday night. Everybody invited. Come bring a friend with you.

C. E. Glasgow, Minister.

### HAPPY PATCH CLUB

The ladies of Brownfield met with Mrs. A. B. Cook, Monday, Jan. 30th, 1922, and organized a Happy Patch Club. The object is to get all mutual helps in different branches of needle craft. The following officers were elected.

Miss Dora Daugherty, Pres.; Mrs. A. B. Cook, Vice-Pres.; Mrs. Guthrie Cook, Secretary; Mrs. H. H. Copeland, Parliamentarian.

After the election delicious cake and coffee were served to the following members: Mrs. Shaw; H. H. Copeland, Charley Brown, Ditto, C. L. Williams, Shaffer, Hurst, Hunter, H. Winston, Kenrick, Holgate, Misses Daugherty, Hulse and Ditto.

Adjourned to meet with Mrs. Charley Brown, Feb. 6th, 1922.

### Card of Thanks

We take this opportunity of thanking the doctors, brother and sister Baughman and the other good people of Brownfield who helped us during the sickness of our baby.

You did all that could be done and we thank you more than words can express, and pray that God may bless each one of you.

J. E. Oden and wife, Plains, Texas

HOUSE brooms 45c at the Racket Store.

F. B. Condra is now a year ahead on the Herald list.

Now don't say anything about Liz. She's some girl. I'll tell the world.—Seagraves, Jan. 22nd.

### MY EXPERIENCE IN THE WORLD WAR

By Homer R. Winston

Our outpost at this time was a little on the right of Baalon. From there we moved to Brilles, which had just been vacated by the Dutch. Fire was set to everything, but several tons of coal and three plans of kraut and found it o.k., so we took it.

The Germans were retreating so fast that the American could not keep in contact with them, so on Nov. 17, we received orders to report for the 36th Infantry at 7 a. m. with 32 trucks Soviet that time, down to the 3-9 we went and they all loaded on. Their full strength before they went into battle was 1200 men, but now they were cut down to 521—but still war is just as safe as working on a ranch—they told us at Camp Travis, but we found out from observation that this was not true.

By 12 M., we had traveled about 60 or 70 miles, and just reached the town of Viten, Belgium. We had seen oodles of civilians while on the way, and all gave us a royal welcome as we would pass through their little towns, but had not seen any soldiers until we hit the town of Viten. As we went into town on one side, about 32 Germans left on the other. The infantry fell out of those trucks to beat the band and formed a skirmish line right now, and the officers telling them not to shoot unless the Germans showed some resistance, as the Adjutant was signed, I don't think the men fired a shot, but you could see that some of them sure wanted to shoot, and were just like holding some bulldogs out of a fight. The German Red Cross Nurses were left, and a few medical boys. The Dutch had had a grand old glorious time the night before, we were informed, as they broke into the civilians' wine cellars, killed their calves and a few pigs, and done all the devilment they could think of before we arrived on the scene and put a stop to such rot.

On Nov. 25th, we arrived at Nancy after two truck loads of officers; had 22 officers to the truck and I actually believe they loved their men like an old hen loves her chickens, for everyone actually loaded those trucks with cigarettes and chocolate candy. I told them each truck was capable of carrying 7000 pounds anywhere, and by the candy and stuff they piled on, they certainly took me at my word, but I did not care for I knew that the old boys had not had anything like this about 60 days, for we were in the same fix, and I stored about 200 pounds around on the fenders for our bunch. On the 26th we came back right through Metz, and no Americans were in the town except M. P. It was a pretty nice city, and the people were about half Germans and half French. The Germans said they had made the country what it was, and that the French had never developed it, and if it hadn't been for them, it never would have amounted to much, and that they were going to leave now, for they would not have any equal break with the French. The French said that in the ordinary course of events, the French would have developed it as much as the Germans, and that they had not had an equal break with the Dutch up to now, but was going to show them how to move out now. We moved to an aviation field close to Marville, and still wondered when we were going home, and still moving toward Germany all the time.

Just before this, however, I was sent on special duty with the 258 Infantry, hauling some officers and men around, exploring the country around Montemedey, and believe me this was lots of fun. Some of the houses in the old fort at Montemedey were furnished with the very finest of furniture, but before leaving they just tore it into rags and tags, leaving everything topsy turvy. It was a dirty shame, but the Germans don't know what the word "mercy" means.

In Luxemburg are about half German's and French, and they treated us very nice, but everything was high in the way of cotice-made goods, a spool of thread was 10 marks, or some \$2.60 per spool then, so we let our but ons stay off and "layed off" that high priced thread.

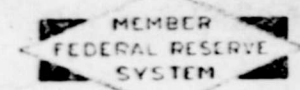

The place I was talking about is Battenburg, Luxemburg. Here we used a large church for camping quarters. Here we met up with Satch Green, Scot Walker, Geo. Smith, Jake Beall, Olen Cardwell and Millard Ellington, and had a regular re-union, and every fellow told his experience in the world war.

## YOUR BUSINESS APPRECIATED

It is the earnest desire of the personnel of this bank to be of such service to its customers that each and every transaction shall be remembered pleasantly.

## BROWNFIELD STATE BANK "A GUARANTY FUND BANK"

### DIRECTORS ELECTED FOR LIGHT AND ICE PLANT

A large crowd of the stockholders in the Brownfield Light and Ice Co. met at the Brownfield State Bank last Friday night to get fully organized, and it was agreed that the building for the plant could start as soon as possible, but that putting in the polls and other work would have to await a season before holes can be dug. Yet, by early summer, it is expected that both plants will be in operation. The company will be incorporated for \$15,000 with a surplus of \$5,000. The following directors were elected:

A. M. Brownfield, L. H. Plain, E. G. Alexander, W. H. Dallas and W. A. Bell. These gentlemen will meet in the near future and elect officers.

A seventy-five horse power engine of the oil burning variety will be purchased, together with all the other paraphernalia to put in a first class electric plant for a city of this size.

A three or five ton ice plant will be run in conjunction, using the same power, and it is believed by chemist that our water will easily make ice without being heated and treated.

This is a long step forward toward making Brownfield a Latinian town and a real live trade center. Our people have been paying two or three prices for shipped in ice, and only the rich could afford it, and not many of them.

### TERRY COUNTY WILL VOTE MORE THAN 1000 THIS YEAR

Sheriff and Tax-Collector Wood E. Johnson has issued 960 poll tax receipts this year, and with the exemptions, will run considerably over the 1000 mark.

This will be almost as many again votes as has ever been polled in the county. So look sharp candidates.

### IDLE WIVES WITH MRS. JOE J. McCOWAN

Mrs. Joe J. McCowan was hostess to the Idle Wives Club, Friday afternoon at her home. Forty-two was the feature of the afternoon, the high score prize, a hand painted bon-bon dish, going to Mrs. Fred Smith, and the consolation, two dainty linen handkerchiefs, to Mrs. Prideaux.

At the conclusion of the games, the hostess served a delicious three course lunch to the following members and guests:

Mesdames Alexander, Bell, Brown, Brownfield, Dallas, Downing, Lemmon, May, Prideaux, Shelton, Smith, King and Miss Miller.

The Club will meet next with Mrs. Prideaux, Friday, Feb. 10th.

Tell Mr. Mills when he returns that Angelo Scott called and had the pleasure of meeting his wife.—Seagraves, Feb. 22.

Lum Hudson, of Seagraves, was a passenger to Lubbock, Saturday.

FORD Batteries overhauled and put in practically as good shape as new ones at Tudor Sales Co., for \$10.

and every fellow told his experience in the world war.

(To be continued)

### BROWNFIELD LURE BRINGS MANY SETTLERS

Development of the Country Means  
New Section in Farm Territory

By Hamilton Wright, Staff Correspondent, Fort Worth Record.

Brownfield, Texas, Jan. 28.—One hundred and twenty-five cars of emigrant outfits, known to railroaders as "zulus" were unloaded in the Brownfield railroad yards in 1921, according to Morcan Copeland, cashier of the Brownfield State Bank. During the same period only 25 zulus left the railroad yards, indicating a net gain of 90 cars.

The average car represents a family of five new settlers. A little figuring shows that a net gain of 100 "zulus" brought 500 people to the territory contiguous to Brownfield, in addition to several hundred other new people who came overland.

"Terry and adjoining counties constitute a section that is in the embryo of development," averred Copeland. "It is one of the last sections of the State to come on the market under the classification of a farming country. The people who are coming in are known as 'little men' who purchased our lands on small cash payments and have long time on the remainder of their payments.

"Our citizens are all 100 per cent Americans, without a single negro in our territory. Last year we shipped over 200 cars of corn and over 2000 bales of cotton. Our cotton acreage will be largely increased in 1922. I estimate that between 10,000 and 15,000 acres will be devoted to the staple. The average increase is about 50 per cent. Our crops, especially corn, mature later than elsewhere. We are always shipping out products, having calves and other livestock to send out in the winter time.

We are preparing to install an electric light and ice plant. Some of the things we need most are a canning factory that can find work 12 year around, sweet potato curing plant, corn meal mill and elevator. We have the greatest deposits of potash in the

### THE DOLLAR THAT STAYS AT HOME

The dollar that is sent to the Mail Order Home or the big city store is lost to Howard county forever. Part of it went to their big annual profit account, part of it went to their high salaried officials, their army of clerks interest in the investment in their magnificent building and costly fixtures. None of it will ever return to help pay your taxes, for improvements for this section or to aid local charity. The big firms in the big cities send none of their dollars to help in building up our section.

The dollar that stayed at home purchased good value goods. Part of it went to pay county, State, school and city taxes, to help build school's and churches, part of it went to pay wages to some of our folks and part of it will aid charity cases. It is the dollar that stays here to keep up our home communities that helps us, and more of them should be kept at home.—Big Spring Herald.

MOORE BROS. of Lubbock for auto tops and curtains, made or repaired.

THIS: To Mr. and Mrs. Ervin Kaino, a boy Jan. 18th. To Mr. and Mrs. G. W. Sherrill, a girl, Jan. 18th. To Mr. and Mrs. Jno. Mullins, of Gomez, a boy, Jan. 20th. To Mr. and Mrs. W. M. Dollar, a girl Jan. 20th. To Mr. and Mrs. George Lassiter, a boy Jan. 20th. To Mr. and Mrs. T. E. Verner, of Meadow, a boy Jan. 31st.

Bulky for Liz.—Seagraves Feb. 22nd.

United States, which will be developed. One of our biggest millionaires in the country is now figuring on a potash industry here. We are in possession of this fertilizer right at our door; and with continued development we expect to make our territory more productive and fruitful than the much touted agricultural state of Iowa."

## Holgate-Endersen Hardware Co.

BROWNFIELD, TEXAS

## Mr. Motorist Where Headed In 1922?

A LARGER OR SMALLER CAR EXPENCE

Are you going to continue paying big repair bills? Or eliminate their cause? Will you keep on clogging your engine with carbon? Or stop this source of needless expence? Will you stand for loosing one fifth of your car investment each year through depreciation? It all depends on whether you buy lubrication or just "OIL" whether the oil you use is the proper lubricant for your particular engine. Faulty lubrication is the chief cause of carbon, scored cylinders leaky valves, burned out bearings, weakened engine power, waste of gasoline and oil and high operating costs.

How can you be certain of getting the right oil? Ask for TEXACO the oil of four distinct types but only one quality, the hightests.
